Pursuant to section 74(4)(b) of the *Planning, Development and Infrastructure Act 2016* (the Act), the Environment, Resources and Development Committee of Parliament has suggested amendments to the Planning and Design Code following its consideration of the Phase Three (Urban Areas) Code Amendment.

Having considered the suggested amendments, as the Minister for Planning and Local Government I have determined to proceed to make the following amendments to zone public notification tables (Table 5) in the Planning and Design Code pursuant to section 74(9)(a) of the Act:

- Remove the need to publicly notify boundary wall development where the boundary wall is within a development site, such as in the case of semi-detached, row or terrace housing.
- Amend the wording of the boundary wall exception to provide a consistent understanding of the term ‘boundary’.
- Refine the ‘minor in nature’ public notification exclusion to provide greater clarity and more consistent interpretation of this clause in line with the scheme of notification set out in the Act.

PURSUANT to section 74(9)(a) of the Planning, Development and Infrastructure Act 2016, I hereby:

1. Amend the Planning and Design Code as follows:
  - In Part 2 – Zones and Sub Zones – amend the zone notification tables (Table 5 – Procedural Matters (PM) – Notification) in accordance with **Attachment A**.

## PLANNING, DEVELOPMENT AND INFRASTRUCTURE ACT 2016

## SECTION 76

*Amendment to the Planning and Design Code**Preamble*

It is necessary to amend the Planning and Design Code (the Code) in order to make a change of form in relation to the ‘interpretation’ material that relates to zone notification tables.

PURSUANT to section 76 of the *Planning, Development and Infrastructure Act 2016*, I—

1. Amend the Code as follows:

- a. In Part 1 – Rules of Interpretation – insert, immediately after the paragraph that follows the heading ‘*Notification of applications for planning consent*’, the following new heading and accompanying text:

***Interpretation of Notification Tables***

*Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.*

*Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.*

*Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.’*

- b. In Part 2 – Zones and Sub Zones – in relation to ‘Table 5 – Procedural Matters (PM) – Notification’ within all zones, replace the following text under the heading ‘*Interpretation*’:

*‘A class of development listed in Column A is excluded from notification provided that it does not fall within a corresponding exclusion prescribed in Column B. In instances where development falls within multiple classes within Column A, each clause is to be read independently such that if a development is excluded from notification by any clause, it is, for the purposes of notification excluded irrespective of any other clause.’*

With the following text:

*‘Notification tables exclude the classes of development listed in Column A from notification provided that they do not fall within a corresponding exclusion prescribed in Column B.*

Where a development or an element of a development falls within more than one class of development listed in Column A, it will be excluded from notification if it is excluded (in its entirety) under any of those classes of development. It need not be excluded under all applicable classes of development.

Where a development involves multiple performance assessed elements, all performance assessed elements will require notification (regardless of whether one or more elements are excluded in the applicable notification table) unless every performance assessed element of the application is excluded in the applicable notification table, in which case the application will not require notification.

- c. In Part 13 – Table of Amendments, update the publication date, Code version number, amendment type and summary of amendments within the ‘Table of Planning and Design Code Amendments’ to reflect the publication of this section 76 Amendment.

2. Declare that the section 76 Amendment will take effect upon being published on the SA planning portal.

**COMMENTARY TO THE STATEMENT OF THE AMOUNTS CREDITED TO AND ISSUED FROM THE CONSOLIDATED ACCOUNT  
FOR THE QUARTERS ENDED 31 MARCH 2021 AND 31 MARCH 2020**

### Receipts

#### Taxation

Payroll tax receipts in the March quarter 2021 were largely consistent with the corresponding prior year period. Payroll tax receipts for the nine months ended March 2021 were lower compared to the corresponding prior year period mainly due to COVID-related payroll tax relief including:

- waivers of payroll tax for businesses with annual grouped Australian wages below \$4 million from April 2020;
- options to defer payroll tax for businesses with annual Australian wages above \$4 million that have been adversely impacted by COVID-19 restrictions; and
- exemption of JobKeeper payments from payroll tax.

Stamp duty receipts in the March quarter 2021 and nine months ended March 2021 were higher compared to the corresponding prior year periods. This was primarily due to higher conveyance duty on the transfer of properties reflecting increased residential transactions. In addition, duty was higher over both periods from motor vehicle transfers reflecting growth in transfer volumes and average prices, as well as insurance duty receipts.

Gambling tax receipts for the 9 months ended March 2021 were lower compared to the corresponding prior year period reflecting the impacts of COVID-19 related gambling tax relief, which allowed licence holders to defer collections relating to gaming machine taxation and casino duty for up to six months from March (payable from April). Licence holders can elect to repay deferred gambling tax payments in instalments, further impacting the timing of receipts. Gambling tax receipts in the March quarter 2021 were higher compared to the corresponding prior year period reflecting the timing of payments to the Consolidated Account, which included payments relating to previous periods.

Land tax receipts in the March quarter 2021 and nine months ended March 2021 were lower than the corresponding prior year periods largely due to the timing of collections.

#### Royalties

Royalty receipts in the March quarter 2021 were largely consistent with the corresponding prior year period. Royalty receipts for the nine months ended March 2021 were lower compared to the corresponding prior year period due to the impacts of lower crude oil pricing, partially offset by higher copper, gold and iron ore prices as well as increased mineral production over the period.

#### Fees and charges

Fees and Charges in the March quarter and nine months ended March 2021 were lower compared to the corresponding prior year periods mainly due to lower regulatory fees due to a timing issue with the transfer from Department for Infrastructure and Transport to Attorney's-General Department.

#### Commonwealth – General Purpose Payments

Growth in general purpose grant revenue in 2020-21 compared to 2019-20 is not indicative of underlying Goods and Services Tax (GST) revenue growth. This is because monthly grants are paid according to a payment schedule prepared by the Commonwealth Government rather than actual emerging monthly GST collections.

Based on the growth in the national GST pool and population estimates, and South Australia's relativity in 2020-21, it was estimated that South Australia's GST revenue grants would increase by 7.2% in 2020-21 as part of the 2021-22 Budget.

#### Commonwealth – Specific Purpose Payments

Specific purpose payments (SPP) received in the March quarter 2021 were lower compared to the corresponding prior year period due to a change in timing associated with the presentation of cash in the Consolidated Account. On an underlying basis, receipts for the March quarter 2021 were largely in line with the corresponding prior year period. Receipts for the nine months ended March 2021 were largely in line with the corresponding prior year period.

#### Commonwealth – National Partnership Payments

National Partnership Payments (NP) received in the March quarter 2021 were higher compared to the corresponding prior year period mainly reflecting reimbursements associated with the State's administration of the HomeBuilder Grant. Receipts for the nine months ended March 2021 were lower compared to the corresponding prior year period, which was overstated due to a Consolidated Account presentation

issue. On an underlying basis, receipts for the nine months ended March 2021 were higher than the corresponding prior year period reflecting reimbursements associated with the State's administration of the HomeBuilder Grant.

#### *Other receipts*

Other receipts in the March quarter and nine months ended March 2021 were lower compared to the corresponding prior year periods mainly due to a decrease in the sale of land of buildings and the deferral of loan repayments due to COVID-19.

#### **Payments**

Payments were made pursuant to the *Appropriation Act 2020*, and also in accordance with other Acts for which specific appropriation has been authorised. The timing of the payments is based on agreed agency drawdown schedules, and may change from period to period on specific agency requirements.

There has been an overall increase of \$2,309 million in total budgeted payments for 2020-21.

#### **Note**

The following points should be considered when reviewing the quarterly statement of Consolidated Account transactions.

- Unlike, the State Budget, which comprises transactions on an accrual basis, the information reflected in the quarterly statement is limited to cash transactions.
- The Consolidated Account does not capture all the transactions undertaken by the general government sector (in particular, it does not record receipts to and payments from special deposit accounts).
- The timing of receipts and payments could be volatile within a particular year. As a result, apparently large movements between years may only be due to changes in the timing of receipts and payments and therefore may not have consequences for the underlying budget position.

### Receipts

#### Taxation

Payroll tax receipts in the June quarter 2021 and the twelve months ended June 2021 were higher compared to the corresponding prior year periods. This was mainly due to a recovery in employment growth following the easing of COVID-19 health restrictions, and the timing of payments associated with COVID-19 payroll tax relief measures.

Stamp duty receipts in the June quarter 2021 and twelve months ended June 2021 were higher compared to the corresponding prior year periods. This was primarily due to an increase in conveyance duty revenue reflecting the impact of the Commonwealth Government's HomeBuilder grant and broader strength in the property market on residential property transfers. Duty from motor vehicle transfers reflecting growth in transfer volumes and average prices, as well as insurance duty receipts, was also higher over both periods.

Gambling tax receipts for the June quarter 2021 and twelve months ended June 2021 were higher compared to the corresponding prior year periods. This was mainly due to higher gaming machine taxation from hotels and clubs and largely reflects the impact of venue closures in the 2019-20 financial year in response to the COVID-19 health restrictions. The variation in the June quarter was also impacted by the timing of gaming machine tax revenue received into the Consolidated Account, which included payments relating to previous periods.

Land tax receipts in the June quarter 2021 and twelve months ended June 2021 were higher than the corresponding prior year periods largely due to the timing of land tax payments by the South Australian Housing Authority. Collections from private land taxpayers in 2020-21 were lower than collections from private land taxpayers in 2019-20 due to the impacts of the Government's land tax reforms commencing from 2020-21.

#### Contributions from State Undertakings

Contribution receipts in the June quarter 2021 and twelve months ended June 2021 were lower than the corresponding prior year periods primarily due to lower contributions from SA Water. This is predominantly reflecting the SA Water Final Regulatory Determination 2020, which reduced the total revenue SA Water may recover for drinking water and sewerage retail services during the four-year period commencing 1 July 2020.

#### Fees and charges

Fees and charges receipts in June Quarter 2021 were higher than the corresponding prior year period due to the timing of receipts for Land Services Regulatory Fees. These fees are initially collected by the Attorney-General's Department and paid through to the Consolidated Account. The twelve months ended June 2021 were broadly in line with the corresponding prior year period.

#### Recoveries

Recoveries receipts in the June Quarter 2021 and the twelve months ended June 2021 were higher than the corresponding prior year periods mainly due to the return of cash to the Consolidated Account pursuant to the Cash Alignment Policy in June 2021.

#### Royalties

Royalty receipts in the June quarter 2021 and twelve months ended June 2021 were higher than the corresponding prior year periods mainly due to higher mineral commodity pricing and production volumes.

#### Commonwealth – General Purpose Payments

Growth in general purpose grant revenue in 2020-21 compared to 2019-20 is not indicative of underlying Goods and Services Tax (GST) revenue growth. This is because monthly grants are paid according to a payment schedule prepared by the Commonwealth Government rather than actual emerging monthly GST collections. The monthly payment schedules include prior year balancing adjustments to reflect actual GST revenue grants paid to a jurisdiction in the previous financial year compared to the final GST entitlement as determined in the Commonwealth Government's Final Budget Outcome.

Based on the 2020-21 Commonwealth Final Budget Outcome, the GST pool available for distribution to jurisdictions increased by 21 per cent in 2020-21. However, South Australia's GST cash receipts for the twelve months ended June 2021 include an adjustment to reflect that payments from the Commonwealth in 2019-20 were higher than the final GST entitlement due to the impacts of COVID-19.

#### Commonwealth – Specific Purpose Payments

Specific purpose payments (SPP) received in the June quarter 2021 and twelve months ended June 2021 were broadly in line with collections in the corresponding prior year periods.

*Commonwealth – National Partnership Payments*

National Partnership Payments (NP) received in the June quarter 2021 and twelve months ended June 2021 were higher compared to the corresponding prior year periods mainly reflecting reimbursements for Commonwealth HomeBuilder grants that are being administered by the state on the Commonwealth Government's behalf.

*Other receipts*

Other receipts are higher in the June Quarter 2021 compared to the corresponding prior year quarter due to the timing of receipts for the Sale of Land and Buildings. Receipts for the twelve months ended June 2021 were lower than the corresponding prior year due to reduced interest earning as a result of lower interest rates on cash deposits.

**Payments**

Payments were made pursuant to the *Appropriation Act 2020* and also in accordance with other Acts for which specific appropriation has been authorised. The timing of the payments is based on agreed agency drawdown schedules and may change from period to period on specific agency requirements.

All appropriations were paid within approved limits established under the various Acts.

**Note**

The following points should be considered when reviewing the quarterly statement of Consolidated Account transactions:

- Unlike, the State Budget, which comprises transactions on an accrual basis, the information reflected in the quarterly statement is limited to cash transactions.
- The Consolidated Account does not capture all the transactions undertaken by the general government sector (in particular, it does not record receipts to and payments from special deposit accounts).
- The timing of receipts and payments could be volatile within a particular year. As a result, apparently large movements between years may only be due to changes in the timing of receipts and payments and therefore may not have consequences for the underlying budget position.

#### *Schedule*

Date of commencement

---

1. *Preliminary*
  - 1.1. These Rules may be cited as the Lotteries (Oz Lotto) Rules.
  - 1.2. These Rules will come into operation on the date specified in the Schedule to these Rules.
  - 1.3. These Rules are to be read in conjunction with and are subject to the Lotteries (General) Rules.
  - 1.4. These Rules apply to the lottery known as "Oz Lotto".
2. *Interpretation*
  - 2.1. In these Rules and in each part of these Rules unless the contrary intention appears:
    - "Bloc members" means the parties from time to time to the Bloc Agreement entered into by SALC with other lottery operators for the promotion, conduct and sale of tickets (among other things) in the game of Oz Lotto on a joint basis with a common winning number determination and a declaration of common dividends based on the equal participation of all players in the aggregated prize pool;
    - "claim period" means the period commencing at midnight on the day of determination of the draw results ("relevant day") and ending on the 14<sup>th</sup> day thereafter;
    - "drawing equipment" means equipment operated by the Bloc members for ascertaining the winning numbers;
    - "Oz Lotto" means a lottery drawn at such intervals as the Bloc members determine in which a player is required to forecast 7 numbers to be drawn from the range of numbers 1 to 47 inclusive;
    - "QuickPick entry" means a nomination made by a player indicating that the player wishes to make a QuickPick selection in accordance with Rule 6 of these Rules.
3. *Ordinary Entry*
  - 3.1. To create an ordinary entry a player must forecast or cause to be forecast 7 numbers.
  - 3.2. An ordinary entry will provide participation for the number of games selected and paid for in one (1) draw only.
  - 3.3. The minimum number of games that must be completed will be one (1) or such number as otherwise determined by the Master Agent.
  - 3.4. There will be a limit to the maximum number of games that can be played, including that in any one draw:
    - 3.4.1. the Master Agent may decline to issue more than 1,000 entries to a player; and
    - 3.4.2. a player can be issued with no more than 100,000 equivalent games.
  - 3.5. A player may request that an entry be issued in advance of the current draw. The maximum number of advance draws in which an entry can be issued will be notified to players by the Master Agent following determination by SALC.
  - 3.6. Subject to Rule 6, a player may enter a draw by:
    - 3.6.1. submitting a coupon provided for that purpose from time to time by the Master Agent, together with an Easiplay Club membership card if applicable; or
    - 3.6.2. making a verbal or electronic request at the selling point, together with providing an Easiplay Club membership card if applicable.

- 3.7. In the case of a coupon:
- 3.7.1. a player's forecast must be marked with a cross mark in the centre of the square, a vertical mark in the centre of the square or such other mark as the Master Agent determines. No other mark will be accepted. All marks on a coupon must be legible and if a coupon cannot be read by a selling point terminal, it will be rejected. A coupon must not be marked in red.
  - 3.7.2. the relevant "system/pick" box must be left blank.
  - 3.7.3. a player who marks a "top up games" box will be taken to have authorised the selling point operator to generate a random forecast of a sufficient quantity of numbers to complete the game, the coupon or the nominated number of games, as the case may be.
  - 3.7.4. if a player marks more than the specified number of squares in any game, a ticket will not issue until the player has either nominated the number(s) to be deleted or nominated a system/pick entry. The player may be required to complete another coupon.
  - 3.7.5. if a player marks fewer than the specified number of squares in any game and does not mark the relevant "top up games" box, a ticket will not issue until the player has either nominated the number(s) to be added or nominated a top up games entry or a system/pick entry.
4. *Multi-Week Entry*
- 4.1. A player may enter their number forecasts for a series of consecutive draws by marking the appropriate square in the "multi-week" box on a coupon or by verbally or electronically requesting such an entry at the selling point. The maximum number of consecutive draws that may be entered in this way will be notified to players by the Master Agent following determination by SALC.
  - 4.2. The Rules governing ordinary entries will apply to every multi-week entry.
5. *System/Pick Entry*
- 5.1. A player may create a system/pick entry by forecasting or causing to be forecast 5, 6 or from 8 to 20 numbers, rather than the 7 to be forecast in the case of an ordinary entry.
  - 5.2. In the case of a coupon, a system/pick entry must be created by marking the relevant "system/pick" box and forecasting or causing to be forecast the quantity of numbers corresponding to the system/pick to be entered by the player. (Thus, to play system 8, 8 numbers are forecast; to play system 9, 9 numbers are forecast and so on to a maximum of 20 numbers forecast to play a system 20 entry.) In all other instances, a system/pick entry is created by verbally or electronically requesting such an entry at the selling point. Ordinary and system/pick entry participation will be accepted if completed on the same coupon and more than one system/pick entry type can be played on the one coupon.
  - 5.3. In the case of a coupon, if more numbers are marked in any game than the requested system/pick requires, a ticket will not issue until the player has nominated the number(s) to be deleted. If fewer numbers are marked in any game than the requested system/pick requires and the relevant "top up games" box is not marked, a ticket will not issue until the player has either nominated the number(s) to be added or selected a top up games entry.
  - 5.4. Picks 5 and 6 are entries in which the quantity of numbers forecast is less than 7 numbers.
  - 5.5. A pick 5 or 6 entry will be equivalent to playing a certain number of separate games of 7 numbers as determined by the following formula:  
Pick 6 entry:  
$$\frac{(47 - P)!}{41! \times (7 - P)!}$$
 (where P = pick number)
  - 5.6. A player who seeks to participate in a pick 5 entry must forecast or cause to be forecast any 5 numbers. These 5 numbers will be combined with all combinations of two numbers from the remaining unforecast numbers. This pick entry will be equivalent to playing 861 games of 7 numbers.
  - 5.7. A player who seeks to participate in a pick 6 entry must forecast or cause to be forecast any 6 numbers. These 6 numbers will be combined with each of the remaining unforecast numbers in turn. This pick entry will be equivalent to playing 41 games of 7 numbers.
  - 5.8. A player who seeks to participate in a system 8 to 20 entry inclusive must forecast or cause to be forecast the quantity of numbers according to the system number to be played. These numbers will be combined with one another in all possible combinations of 7 numbers. This system entry will be equivalent to playing a certain number of separate games of 7 numbers as determined by the following formula:  
$$\frac{S!}{7! \times (S - 7)!}$$
 (where S = system number).
  - 5.9. Subject to Rule 3.4, a player may enter up to 18 games of any type of system/pick entry on the one coupon or such other number as the Master Agent determines.
  - 5.10. A system/pick entry may be entered for multi-week participation, in which case the Rules relating to multi-week and QuickPick entries will also apply as appropriate.
  - 5.11. The price of a system/pick entry will be as determined by the Master Agent from time to time.
6. *QuickPick Entry*
- 6.1. A player can play by means of a QuickPick nomination at the selling point whereby the selling point terminal will process the information nominated by the player to generate a forecast of the type nominated by the player. Such entries will be limited to such number of games for an ordinary entry and subject to Rule 3.4, such number of any type of system/pick entry as the Master Agent determines.
  - 6.2. When using a coupon, QuickPick entries can be played by marking the appropriate "top up games" box or the "top up selection" box (if this option is available) and will be limited to 6, 12, 18, 25, 36 or 50 games (of 7 numbers) for an ordinary entry, and subject to Rule 3.4, such number of any type of system/pick entry as the Master Agent determines.
  - 6.3. The QuickPick forecast will be generated by the selling point terminal, and the generated selections will be deemed to be those selections nominated by the player as if they were marked on a coupon by the player in accordance with these Rules.

### 7. *Supervision of Draw*

- 7.1. The selection of winning numbers and supplementary numbers will be conducted in such a manner as agreed by the Bloc members and:
  - 7.1.1. should be conducted and supervised in accordance with the requirements of the relevant regulatory body for the State in which the draw is conducted; and
  - 7.1.2. will be final for the purpose of determining the prize winners in that draw.
- 7.2. The total amount of the prize pool will be announced at each draw.

### 8. *Determination of Winning Numbers*

- 8.1. Each draw will be identified by a number.
- 8.2. Each draw will be conducted using drawing equipment agreed by the Bloc members.
- 8.3. For each draw, the Bloc members will cause 10 numbered balls to be drawn from the drawing equipment.
- 8.4. The first 7 balls drawn will be the winning numbers and the final 3 balls will be the supplementary numbers.
- 8.5. There will be 7 prize winning divisions in each draw:
  - Division 1 — player(s) who correctly forecast the 7 winning numbers in any one game.
  - Division 2 — player(s) who correctly forecast any 6 of the 7 winning numbers and at least one of the supplementary numbers in any one game.
  - Division 3 — player(s) who correctly forecast any 6 of the 7 winning numbers in any one game.
  - Division 4 — player(s) who correctly forecast any 5 of the 7 winning numbers and at least one of the supplementary numbers in any one game.
  - Division 5 — player(s) who correctly forecast any 5 of the 7 winning numbers in any one game.
  - Division 6 — player(s) who correctly forecast any 4 of the 7 winning numbers in any one game.
  - Division 7 — player(s) who correctly forecast any 3 of the 7 winning numbers and at least one of the supplementary numbers in any one game.

### 9. *Publication of Results*

- 9.1. The Master Agent will publish the results of each draw as soon as practicable after each draw.
- 9.2. The information published may include:
  - 9.2.1. the winning numbers;
  - 9.2.2. the amount of the prize pool allocated to each division;
  - 9.2.3. the number of prize winners or provisional prize winners in each division;
  - 9.2.4. the value or provisional value of each prize in each division;
  - 9.2.5. the date when prizes will be paid;
  - 9.2.6. the date the claim period expires; and
  - 9.2.7. the guaranteed Division 1 prize pool in the next draw.

### 10. *Prize Pool Structure*

- 10.1. Only one prize can be won by any one ordinary entry in a game.
- 10.2. 60% of the total entry fees received for each draw (or such greater amount as
- 10.3. SALC determines in consultation with Bloc members) will be allocated as the prize pool.
- 10.4. Each of the Bloc members must contribute the same percentage of the total entry fees received by them into the prize pool.
- 10.5. The total prize pool will be distributed between the prize divisions in accordance with the determination of SALC, after consultation with the Bloc members.
- 10.6. The prize money allocated to each division will be apportioned in equal shares between the winners in that division.
- 10.7. Any variation to the prize divisions or the prize pool distributions between the prize divisions, as determined by SALC, will be advised to players by way of the Master Agent's website and at all selling points, at least fourteen (14) days prior to their operational date.
- 10.8. If there is no winner in any of Divisions 2, 3, 4, 5 or 6 of any draw, the prize money allocated to that division will be added to the prize money allocated to the next lower division in which there is a winner.
- 10.9. Notwithstanding any other Rule, the Master Agent may, at its discretion round out the amount of any prize other than a Division 1 prize to the nearest five cents above or below the actual prize otherwise payable. The resulting surplus or deficit will be added to or deducted from the Division 1 prize pool.

### 11. *Prize Reserve Fund*

- 11.1. From time to time, SALC may set aside a proportion of the total amount received from entry fees to any draw and, in respect of that draw, the distribution of prizes will be reduced *pro rata* in all prize winning divisions. 12. *Jackpots*
- 12.1. If there is no Division 1 prize winner, that portion of the prize pool that would have been payable to a single Division 1 winner in that draw will be added to or jackpotted with the Division 1 prize money in the next draw. This jackpotting will continue for no more than 25 consecutive draws. If there is no Division 1 prize winner in the next (or 26th) consecutive draw, the total amount of the jackpot and the Division 1 prize that would have been payable to a single winner in that 26th draw, will be added to the prize money allocated to the next lower division in which there is a winner.
- 12.2. If the Master Agent guarantees a minimum prize payout in Division 1 of any draw, the amount by which the Master Agent has augmented the portion of the prize pool allocated to Division 1 in that draw will not be taken into account in determining the amount of any jackpot subsequently paid in respect of that division.

- 13.3. Any player who claims to be entitled to a prize but:
- 13.3.1. whose ticket has not been identified by the central computer system as a prize winning ticket;
