*Commentary to the Statement of the Amounts Credited to and Issued from the Consolidated Account
for the Quarters Ended 31 March 2022 and 31 March 2021*

Receipts

Taxation

Gambling tax receipts in the March quarter 2022 were lower compared to the corresponding prior year period as receipts in the March quarter 2021 also included payments relating to previous quarters. Gambling tax receipts in the nine months ended March 2022 were higher compared to the corresponding prior year period largely reflecting growth in gaming machine taxation receipts and the impact of COVID-19 related gambling tax relief, which allowed licence holders to defer gaming machine taxation and casino duty payments.

Land tax receipts in the March quarter 2022 were higher compared to the corresponding prior year period, while land tax receipts in the nine months ended March 2022 were lower compared to the corresponding prior year period. These variances largely reflect differences in the timing of collections between years.

Payroll tax receipts in the March quarter 2022 and nine months ended March 2022 were higher compared to the corresponding prior year periods. This largely reflects the impacts of COVID-19 payroll tax relief measures in 2020-21, which lowered collections in that year, combined with growth in taxable payrolls.

Stamp duty receipts in the March quarter 2022 and nine months ended March 2022 were higher compared to the corresponding prior year periods. This was mainly due to higher conveyance duty on the transfer of properties, reflecting both an increase in the number of residential property transactions and the average value of properties transferred. In addition, insurance duty receipts and stamp duty receipts on the transfer of motor vehicles were higher over both periods.

Fees and charges

Fees and charges receipts in the March quarter 2022 and nine months ended March 2022 were higher than the corresponding prior year periods. This was mainly due to the timing of receipts for Land Services Regulatory Fees post the responsibility for these fees being transferred to the Attorney-General's Department from 1 October 2020. The payment to the Consolidated Account of all fees collected by the Attorney-General's Department in 2020-21 was conducted in June 2021. In 2021-22 the fees are being remitted to the Consolidated Account on a monthly basis.

Royalties

Royalty receipts in the March quarter 2022 were lower compared to the corresponding prior year period primarily due to the timing of collections. Royalty receipts in the nine months ended March 2022 were higher compared to the corresponding prior year period mainly due to improvements in commodity prices and increases in production.

Commonwealth – General Purpose Payments

Growth in general purpose grant receipts in 2021-22 compared to 2020-21 is not indicative of underlying movements in Goods and Services Tax (GST) revenue. This is because monthly grants are paid according to a payment schedule prepared by the Commonwealth Government rather than actual emerging monthly GST collections.

Based on the growth in the national GST pool and population estimates, and South Australia's relativity in 2021-22, the Commonwealth Government estimated in its 2022-23 Budget that South Australia's GST revenue grants will decline by 0.6 per cent in 2021-22.

Commonwealth – National Partnership Payments

National Partnership Payments received in the March quarter 2022 and nine months ended March 2022 were higher than the corresponding prior year periods. This was mainly due to reimbursements for Commonwealth HomeBuilder grants that are being administered by the state on behalf of the Commonwealth Government.

Other receipts

Other receipts in the March quarter 2022 and nine months ended March 2022 were higher compared to the corresponding prior year periods. This is largely due to the receipts from the Department for Environment and Water of the net proceeds from 2020-21 Crown Land sales to the Consolidated Account in 2021-22. This included the proceeds of the sale of land at Oakden to Renewal SA.

Payments

Payments were made pursuant to the *Appropriation Act 2021* and also in accordance with other Acts for which specific appropriation has been authorised. The timing of the payments is based on agreed agency drawdown schedules and may change from period to period based on specific agency requirements.

All appropriations were paid within approved limits established under the various Acts.

Note

The following points should be considered when reviewing the quarterly statement of Consolidated Account transactions:

- Unlike, the State Budget, which comprises transactions on an accrual basis, the information reflected in the quarterly statement is limited to cash transactions.
- The Consolidated Account does not capture all the transactions undertaken by the general government sector. In particular, it does not record receipts to, and payments from Agency deposit and special deposit accounts.
- The timing of receipts and payments can be volatile within a financial year. As a result, apparently large movements between quarters or years may only be due to changes in the timing of receipts and payments and therefore may not have consequences for the underlying budget position.
