Commentary to the Statement of the Amounts Credited to and Issued from the Consolidated Account for the Quarters Ended 31 December 2022 and 31 December 2021

Receipts**Taxation**

Gambling tax receipts are impacted by the timing of receipts into the consolidated account. Excluding timing impacts, underlying gambling tax collections in the six months ended December 2022 were higher compared to the corresponding prior year periods largely due to growth in net gambling revenue from gaming machines in hotels and clubs and the betting operations tax.

Land tax receipts in the December quarter 2022 were lower than the corresponding prior year period mainly due to the timing of collections associated with private land tax liabilities. Land tax receipts in the six months ended December 2022 were higher compared to the corresponding prior year period reflecting the timing of collections associated with government land tax liabilities.

Payroll tax receipts in the December quarter 2022 were higher than the corresponding prior year period reflecting growth in taxable payrolls. Payroll tax receipts in the six months ended December 2022 were lower than the corresponding prior year period due to the timing of collections which were impacted, among other things, by relief measures introduced in response to COVID-19.

Stamp duty receipts in the December quarter 2022 were largely in line with the corresponding prior year period, with declines in conveyance duty receipts on the transfer of properties offset by higher receipts from insurance duty and other stamp duties. Stamp duty receipts in the six months ended December 2022 were higher than the corresponding prior year period largely due to higher receipts from insurance duty and motor vehicle registrations.

Royalties

Royalty payments in the December quarter 2022 were higher than the corresponding prior year period due to higher commodity prices combined with a weaker Australian dollar. Royalty payments in the six months ended December 2022 were lower than the corresponding prior year period due to the timing of collections.

Fees and Charges

Fees and Charges in the six months ended December 2022 were lower than the corresponding prior year period due to lower guarantee fees for various reporting entities.

Recoveries

Recoveries for the six months ended December 2022 and the December quarter 2022 were higher than the corresponding prior year periods due to the receipt of hotel quarantine recoveries from other States and Territories.

Commonwealth – General Purpose Payments

Growth in general purpose grant receipts in 2022-23 compared to 2021-22 is not indicative of underlying movements in Goods and Services Tax (GST) revenue. This is because monthly grants are paid according to a payment schedule prepared by the Commonwealth Government rather than actual emerging monthly GST collections.

Based on the growth in the national GST pool and population estimates as well as South Australia's relativity in 2022-23, the Commonwealth Government estimated in its October 2022-23 Budget that South Australia's GST entitlement grant will increase by 11.4 per cent in 2022-23.

Commonwealth – Specific Purpose Payments

No material variances.

Commonwealth – National Partnership Payments

National Partnership Payments received in the December quarter 2022 and six months ended December 2022 were lower than the corresponding prior year period mainly due to lower reimbursements for Commonwealth HomeBuilder grants that are being administered by the state on behalf of the Commonwealth Government.

Other Receipts

Other Receipts for the six months ended December 2022 and the December quarter 2022 were higher than the corresponding prior year period mainly due to higher interest income on investments due to higher interest rates applied on the Treasurer's deposits placed with the South Australian Government Financing Authority.

Payments

Payments were made pursuant to the *Appropriation Act 2022* and also in accordance with other Acts for which specific appropriation has been authorised. The timing of the payments is based on agreed agency drawdown schedules and may change from period to period based on specific agency requirements.

All appropriations were paid within approved limits established under the various Acts.

Effective from 1 July 2022, the Department for Innovation and Skills was renamed to the Department for Industry, Innovation and Science.

Note

The following points should be considered when reviewing the quarterly statement of Consolidated Account transactions:

- Unlike the State Budget which comprises transactions on an accrual basis, the information reflected in the quarterly statement is limited to cash transactions.
- The Consolidated Account does not capture all the transactions undertaken by the general government sector. In particular, it does not record receipts to, and payments from, Agency deposit and special deposit accounts.
- The timing of receipts and payments can fluctuate within a financial year and between financial years. As a result, apparently large movements between quarters or financial years may only be due to changes in the timing of receipts and payments and therefore may not have consequences for the underlying budget position.
