2—Commencement

This Variation Notice comes into operation on 29 January 2024.

This Variation Notice will have the effect that the *Community Impact Assessment Guidelines* prescribed by this notice will supersede the *Community Impact Assessment Guidelines* in effect prior to 29 January 2024.

4—Gaming Machines Community Impact Assessment Guidelines

The *Community Impact Assessment Guidelines* set out in this notice is varied under section 17B of the *Gaming Machines Act 1992*.

Gaming Machines Community Impact Assessment Guidelines

Gaming Machines Act 1992

1. Overview

1.1. Designated Applications

Under section 17B of the Act, the Commissioner may only grant a designated application if satisfied that to grant the application is in the **community interest**.

The types of applications which are classified as designated applications are set out in **Schedule 1**.

In determining whether or not a designated application is in the community interest, the Commissioner must have regard to:

- (a) the **harm** that might be caused by gambling, whether to a community as a whole or a group within a community
- (b) the **cultural, recreational, employment or tourism impacts**
- (c) the **social impact** in, and the **impact on the amenity** of, the locality (see **Schedule 2** for a description of locality) of the premises or proposed premises.

An applicant in respect of a designated application must comply with the requirements set out in these guidelines.

1.2. Community Impact Submission

The onus is on the applicant to satisfy the Commissioner that the grant of the application is in the community interest and to provide relevant evidence and submissions to discharge this onus.

In determining whether a designated application is in the community interest, the Commissioner will consider the Community Impact Submission prepared by the applicant in accordance with these Guidelines and may have regard to any other information, data, submissions, or research which the Commissioner considers relevant and appropriate to inform the decision.

2. Community Impact Considerations

In preparing their Community Impact Submission, applicants should consider the guidance provided under each of the following sub-headings and address each of the matters required, as relevant to the application.

2.1. The harm that might be caused by gambling, whether to a community as a whole or individuals within a community

An object of the Act is to ensure that gaming machine gambling is conducted responsibly, fairly and honestly, with regard to minimising the harm caused by gambling.

The Commissioner considers gambling harm to be any negative consequence experienced by an individual or members of their social network, family or the broader community, because of participation in gambling. This can be experienced on a spectrum, ranging from minor negative experiences to crises, and is not always proportionate to the amount of gambling participation.

Gambling harms can include:

- the risk of harm to children and vulnerable people,
- the adverse financial, social and cultural effects on communities or individuals within a community,
- the adverse effects on a person's health or welfare, and
- the adverse effects on a person's family, friends and work colleagues.

Applicants are required to:

- (a) Identify the Net Gambling Revenue (NGR) data for the premises in comparison to the local council area and State, and consider whether the application has the potential to increase gambling related harm in the locality.
- (b) Identify the socio-economic profile of the locality of the premises/proposed premises and consider whether there are any factors which might increase the risk of gambling harm, such as higher unemployment or social disadvantage.
This information may be obtained by reference to the Socio-Economic Indexes for Areas (SEIFA) scores at the Statistical Area Level 2 (SA2) for the SA2 area in which the premises is located, namely:
 - Index of Relative Socio-Economic Advantage and Disadvantage;
 - Index of Relative Socio-Economic Disadvantage;
 - Index of Economic Resources; and
 - Index of Education and Occupation.
- (c) Identify whether there are any ‘at-risk’ groups or sub-communities within the locality of the premises/proposed premises and provide a description of how the applicant intends to minimise any potential harm to ‘at-risk’ groups and sub-communities in the locality of the premises/proposed premises.
- (d) Identify whether there are any community buildings, facilities and areas of interest/concern within the locality which may include:
 - schools and educational institutions
 - hospitals, drug and alcohol treatment centres
 - accommodation or refuges for young, vulnerable or disadvantaged people
 - childcare centres
 - recreational areas
 - pawn brokers or credit providers
 - other gaming premises, and
 - any other areas where young, vulnerable or disadvantaged people may congregate or be attracted to.
- (e) Identify and provide any policies and procedures that the applicant has implemented or intends to implement to address and minimise any potential harm that might be caused by gambling in the locality. It is expected that these policies and procedures should relate to issues such as, but not limited to:
 - arrangements for the identification of persons who may be experiencing gambling harm in those premises
 - arrangements to inform customers and their families of, and facilitate access to, barring (exclusion) arrangements
 - enforcement and compliance with barring (exclusion) arrangements, and
 - design/location of the gaming area or proposed gaming area so it would not be an attraction to minors.

It is important to note that reliance alone on a responsible gambling agreement with an approved industry body will not be considered sufficient to satisfy or discharge the harm minimisation requirements of an application, and each applicant should consider the specific circumstances of their venue when addressing this consideration.

Guidance as to how to locate data and information to assist applicants with completing this section of their Community Impact Submission, including identifying the socio-economic profile of the locality, is available at www.cbs.sa.gov.au/ciportal.

2.2. The cultural, recreational, employment or tourism impacts

Applicants must address:

- (a) The economic benefits or employment opportunities the grant of the application will generate in the locality and the broader community, and
- (b) The cultural, recreational or tourism benefits the grant of the application will generate for the locality and the broader community.

2.3. The social impact in, and the impact on the amenity of, the locality of the premises or proposed premises

Applicants must address the social impact the grant of the application may have in the locality, and the impact on the amenity of the locality of the premises or proposed premises.

Having regard to the relevant Net Gambling Revenue (NGR) data and social economic profile data outlined at 2.1 and any other information the applicant considers relevant, **applicants are required to address:**

- (a) The social impact the grant of the application may have in the locality, with reference to any potential increase in crime and anti-social behaviour.
- (b) How the grant of the application may impact positively or negatively on the amenity of the locality (being the pleasantness, attractiveness, desirability or utility of the locality), along with any impact on the character of the premises or locality.
- (c) How the non-gaming related operations of the premises/proposed premises will contribute positively to the community such as providing a family-friendly environment or community meeting place, and
- (d) Any steps that will be taken to address any negative social impact or negative impact on the amenity of the locality.

3. Completing a Community Impact Submission

3.1. General Guidance

Designated applications, at the time of lodgement, must be accompanied by a Community Impact Submission unless a waiver is provided (see below).

The Commissioner has developed a form to help guide applicants as to the type of information they need to provide in support of their application. Applicants may complete this form, or instead choose to prepare their own submission in support of the application addressing the matters outlined in these Guidelines. This form is available at www.cbs.sa.gov.au/ciportal.

There is no requirement for a Community Impact Submission to be prepared by legal counsel or industry consultants. Applicants can complete their own Community Impact Submission after consulting with the relevant key stakeholders and interest groups in the community, obtaining all other required information and providing a map showing the locality of their premises. A tool to assist applicants with the provision of a suitable map is available at www.cbs.sa.gov.au/ciportal.

When providing information to support their application, applicants should keep in mind that Community Impact Submissions will be made public. Any information that an applicant does not wish to be made public should be redacted or omitted from the Community Impact Submission.

As each application is different, the level of detail required in a Community Impact Submission may differ depending on the nature and complexity of the application and the impact the premises (including a variation to licence conditions) or the proposed premises will have on the surrounding community. If a Community Impact Submission does not adequately address each of these considerations, the Commissioner may require additional information to be provided.

Where a Community Impact Submission is being prepared in conjunction with a designated application under the *Liquor Licensing Act 1997*, information that is required under both Acts can be provided once to avoid duplication in the application process.

3.2. Other information that may be relevant to the application

Applicants should be aware that in determining whether the application is in the community interest, the Commissioner may, depending on the nature of the application, have regard to other relevant information or data, including (but not limited to):

- (a) if the application seeks to authorise the applicant to conduct gaming at any time between midnight and 8am, or seeks an authorisation to extend gaming hours beyond those previously fixed in relation to the licence (being an extension between midnight and 8am on any day), the intra-day gaming figures for the premises (if applicable), which can be accessed by contacting the Independent Gaming Corporation (contact details can be found at www.cbs.sa.gov.au/ciportal)
- (b) the length of time the licensee has held a gaming machine licence at the relevant premises and elsewhere
- (c) the population of the locality (for example, this may be relevant to an application relating to a premises located in a country town)
- (d) barring data relevant to the premises
- (e) the licensee's Self-Assessment Compliance Audit Checklist (if completed within the previous 12 months), and any evidence demonstrating the identification, monitoring and responses taken in relation to people displaying indicators of gambling harm (excluding Automated Risk Monitoring System alerts) during the previous 12 months
- (f) the licensee's compliance history, including with regard to responsible gambling requirements
- (g) whether approved facial recognition technology is either in place or is proposed to be installed and operated at the premises.

Applicants are encouraged to address any of the above factors (as relevant), in their Community Impact Submission.

3.3. Community Consultation

Applicants are required to address as part of a Community Impact Submission, whether the community of the locality of the premises/proposed premises have concerns about the application. The applicant should consider the following options for community consultation and should address any identified concerns:

- (a) Consultation with persons who reside within the locality of the premises/proposed premises and who may be affected by the grant of the application.
- (b) Petitions, customer surveys or letters of support from existing or potential customers.
- (c) Letters of support or evidence of consultation with local businesses.
- (d) Evidence of consultation with relevant authorities and community organisations such as:
 - the local community;
 - the local council;
 - gambling help groups (non-government) and community service organisations; and
 - local community cultural and residential groups.

Where appropriate, the applicant is required to demonstrate what measures will be implemented to address or mitigate concerns raised through this consultation process.

Contact details for selected organisations is available at www.cbs.sa.gov.au/ciportal.

3.4. Other Considerations

As part of a Community Impact Submission, **applicants are required** to demonstrate the measures that have been implemented, or that they will implement, to ensure that the grant of the application would be unlikely to result in undue offence, annoyance, disturbance or inconvenience to those who reside, work or worship in the vicinity of the premises.

3.5. Can the requirement for a Community Impact Submission be waived?

The Commissioner may vary or waive the requirement for a Community Impact Submission if:

- (a) the application does not propose a significant change to the licensed premises or the nature or extent of the business carried on from the licensed premises
- (b) the purpose of the Community Impact Submission can be achieved by other means, or
- (c) other special circumstances exist.

Applicants seeking a waiver from the requirement to provide a Community Impact Submission with their application must, at the time of lodging their application, provide a submission to the Commissioner outlining the reasons that a waiver ought to be granted. The submission should set out, at a minimum, the Data Relevant to Locality set out under clause 2.3 of these Guidelines, as it relates to the premises and locality, and the exceptional circumstances that would justify the waiving of the requirement to provide a Community Impact Submission.

In the event that the Commissioner decides to vary or waive the requirement for a Community Impact Submission, the application will remain a designated application for the purposes of determination under the Act.

Schedule 1**Designated Applications**

For the purposes of section 17A of the Act, a designated application is:

- an application for the *grant* of a gaming machine licence, or
- any other application that the Commissioner has determined, in accordance with the Guidelines, to be a designated application.

In addition to an application for the grant of a gaming machine licence, the Commissioner has determined that the following applications are also designated applications for the purposes of the Act:

- (a) an application for the removal of a gaming machine licence
- (b) an application to vary the trading hours of a gaming machine licence
 - to authorise the conduct of gaming at any time between midnight and 8am on any day, or
 - if the licence already authorises gaming between midnight and 8am, to allow the conduct of gaming at later hours (being between midnight and 8am), on any day, than those previously fixed in relation to the licence
- (c) where, if the application were granted, the trading hours authorised by the gaming machine licence would exceed the trading hours authorised by the liquor licence for the premises, and
- (d) an application that if granted would result in an increase in the maximum number of gaming machines approved to be held under the licence by more than two machines within a 12 month period.

Under section 17A of the Act, the Commissioner also has a general discretion to designate any other application in accordance with the Guidelines. In determining whether an application is deemed to be a designated application for the purposes of section 17A of the Act, the Commissioner will have regard to, but is not limited to having regard to, the matters set out in these guidelines insofar as they are relevant.

If, after considering an application the Commissioner reaches the preliminary view that the application ought to be designated, the Commissioner will inform the applicant and provide the applicant with reasons as to why that view has been reached. The applicant will then be invited to make submissions as to why the application should not be deemed to be a designated application.

If the Commissioner is not persuaded by the applicant's submission, or the applicant does not make submissions, the application will be deemed to be designated and the applicant will be required to complete a Community Impact Submission before the application is able to be determined.

Schedule 2**Locality Guidelines**

As part of their Community Impact Submission, applicants are required to identify the locality of their premises/proposed premises. Applicants should consider:

- the area around the applicant's premises/proposed premises which is most likely to be affected by the grant of the application, and
- the area from where the applicant draws or expects to draw their customers, having regard to the nature of the premises/proposed premises.

When considering the area from where the premises/proposed premises draws or expects to draw their customers, applicants should consider:

- any target customer groups or identifiable customer base and the areas they reside in, and
- anything that may attract customers to the premises/proposed premises and the areas from which these customers may be based, for example –

2—Commencement

4—Liquor Licensing Community Impact Assessment Guidelines

The *Community Impact Assessment Guidelines* set out in this notice is varied under section 53B of the *Liquor Licensing Act 1997*.

Liquor Licensing Community Impact Assessment Guidelines

Liquor Licensing Act 1997

1. Overview**1.1. Designated Applications**

Under section 53A of the Act, the licensing authority (the Authority) may only grant a designated application if satisfied that to grant the application is in the **community interest**.

The types of applications which are classified as designated applications are set out in **Schedule 1**.

In determining whether or not a designated application is in the community interest, the Authority must have regard to:

- (a) the **harm** that might be caused (whether to a community as a whole or a group within a community) due to the excessive or inappropriate consumption of liquor
- (b) the **cultural, recreational, employment or tourism impacts**
- (c) the **social impact** in, and the **impact on the amenity** of, the locality (see Schedule 2 for a description of locality) of the premises or proposed premises
- (d) the **nature of the business** conducted or to be conducted under the licence
- (e) **licence density** considerations, and
- (f) competition and **balance of industry** considerations.

An applicant in respect of a designated application must comply with the requirements set out in these guidelines.

1.2. Community Impact Submission

The onus is on the applicant to satisfy the Authority that the grant of the application is in the community interest and to provide relevant evidence and submissions to discharge this onus.

In determining whether a designated application is in the community interest, the Authority will consider the Community Impact Submission prepared by the applicant in accordance with these Guidelines and may have regard to any other information, data, submissions or research which the Authority considers relevant and appropriate to inform the decision.

2. Community Impact Considerations

In preparing their Community Impact Submission, applicants should consider the guidance provided under each of the following sub-headings and address each of the matters required, as relevant to the application.

2.1. The nature of the business to be conducted under the licence

The Authority must understand how the business operates, or will operate, under the licence to assess the potential impact of the grant of the application on the community and to determine whether the grant of the application would be in the community interest.

Applicants are required to describe how the business will operate if the application is granted by reference to such matters as:

- (a) the nature of trade, e.g. the consumption of liquor on the premises or the sale of liquor for consumption off the premises (takeaway)
- (b) the products/services to be provided at the premises and the potential customer base,
- (c) a general description of the facilities and services, including information about the liquor services to be provided at the premises/proposed premises, e.g. bar, bottle shop, etc.
- (d) the range of liquor sold or to be sold under the licence
- (e) any food available, or to be made available, at the premises/proposed premises – applicants are encouraged to provide a menu/proposed menu as part of their submission (if applicable)
- (f) details of proposed entertainment that is or will be available at the premises/proposed premises (if applicable)
- (g) details of accommodation that is or will be available at the premises/proposed premises (if applicable)

Applicants are also required to provide a completed licensee risk assessment and management plan with their Community Impact Submission. A template risk assessment and management plan is available at www.cbs.sa.gov.au/ciportal.

2.2. The harm that might be caused (whether to a community as a whole or a group within a community) due to the excessive or inappropriate consumption of liquor

The objects of the Act include:

- to ensure that the sale and supply of liquor occurs in a manner that minimises the harm and potential for harm caused by the excessive or inappropriate consumption of liquor
- to ensure that the sale, supply and consumption of liquor is undertaken safely and responsibly, consistent with the principle of responsible service and consumption of liquor, and
- to ensure as far as practicable that the sale and supply of liquor is consistent with the expectations and aspirations of the public.

Harm caused by the excessive or inappropriate consumption of liquor includes:

- the risk of harm to children, vulnerable people and communities (whether to a community as a whole or a group within a community)
- the adverse economic, social and cultural effects on communities (whether to a community as a whole or a group within a community)
- the adverse effects on a person's health
- alcohol abuse or misuse, and
- domestic violence or anti-social behaviour, including causing personal injury and property damage.

The Authority will often have regard to, but is not limited to, the following data relevant to the locality:

- the Socio-Economic Indexes for Areas (SEIFA) scores at the Statistical Area Level 2 (SA2) for each SA2 area within the locality in relation to:
 - index of Relative Socio-Economic Advantage and Disadvantage
 - index of Relative Socio-Economic Disadvantage
- the population of the locality, and
- crime statistics relevant to the locality.

Guidance as to how to locate this information is available at www.cbs.sa.gov.au/ciportal.

All applicants are required to:

- (a) Consider the socio-economic profile of the locality and identify any issues of social disadvantage, and any vulnerable or 'at-risk' groups or sub-communities in the locality and address:
 - how the grant of the application may adversely impact upon those vulnerable or 'at-risk' groups or sub-communities (including minors), and
 - what steps will be taken to mitigate the risk of any liquor related harm, including any policies and procedures that the applicant has implemented or intends to implement.
- (b) Identify any community buildings, facilities and areas of interest/concern within the locality which may include:
 - schools and educational institutions
 - hospitals, drug and alcohol treatment centres
 - accommodation or refuges for young or disadvantaged people
 - child care centres
 - nursing homes and aged care facilities,
 - recreational areas
 - other licensed premises, particularly other licensed premises of the same licence category
 - dry areas, and
 - any other areas where young people may congregate or be attracted.
- (c) Consider, and address, how they will manage the potential for harm associated with the consumption or sale of liquor at the premises, such as:
 - violent, disorderly or other anti-social behaviour,
 - driving under the influence of alcohol,
 - theft of liquor,
 - if the premises is or will be located in close proximity to other similar licensed premises, e.g. pubs/hotels and nightclubs/entertainment venues, how the applicant will manage the potential for conflict and harm associated with this clustering,
 - how will queueing operate and be managed,
 - how will minors on the licensed premises be managed, and
 - how will the licensee prevent intoxication on the licensed premises.
- (d) Consider, and address, any specific challenges which might arise for their premises/proposed premises. These might include for example, longer response times for police or emergency health services, or the reduced availability of public and other transport services, for premises who are located regionally.

Guidance as to how to locate information to assist applicants with completing this section of their Community Impact Submission is available at www.cbs.sa.gov.au/ciportal.

2.3. The cultural, recreational, employment or tourism impacts

An object of the Act is to facilitate the responsible development of the licensed liquor industry and associated industries, including the live music industry, tourism and the hospitality industry.

Applicants are required to address the following matters:

- (a) the economic benefits or employment opportunities the grant of the application will generate in the locality and the broader community, and
- (b) the cultural, recreational or tourism benefits the grant of the application will generate in the locality and the broader community.

2.4. The social impact in, and the impact on the amenity of, the locality of the premises or proposed premises**Applicants are required to address the following matters:**

- (a) the social impact the grant of the application may have in the locality, with reference to any potential increase in crime and anti-social behaviour
- (b) how the grant of the application may impact positively or negatively on the amenity of the locality (being the pleasantness, attractiveness, desirability or utility of the locality), along with any impact on the character of the premises or locality
- (c) any steps that will be taken to address any negative social impact or negative impact on the amenity of the locality, and
- (d) any benefits or points of difference the premises will offer the locality, such as unique features or customer experiences and how the proposed offering would differ from other offerings in the locality.

2.5. Licence density considerations

If the application includes or relates to an authorisation to sell liquor for consumption off the premises, licence density is a relevant consideration for the Authority when considering whether the grant of an application is in the community interest.

The Authority will consider the number and nature of existing licences in the locality, and in particular will have regard to licences relevant to the category of licence sought.

For example, if an applicant is seeking a Packaged Liquor Sales Licence, it will be relevant for the applicant to address as part of their Community Impact Submission the number of existing take away liquor outlets operating in the locality (i.e. the total number of Packaged Liquor outlets and General and Hotel outlets that sell take away liquor).

Applicants are required to address licence density for the locality and why, in light of the various licensed premises already approved and trading in the locality, it would be in the community interest for the Authority to grant their application.

3. Completing a Community Impact Submission

3.1. General Guidance

Designated applications, at the time of lodgement, must be accompanied by a Community Impact Submission unless a waiver is provided (see below).

The Authority has developed a form to help guide applicants as to the type of information they need to provide in support of their application. Applicants may complete this form, or instead choose to prepare their own submission in support of the application addressing the matters outlined in these Guidelines. This form is available at www.cbs.sa.gov.au/ciportal.

There is no requirement for a Community Impact Submission to be prepared by legal counsel or industry consultants. Applicants can complete their own Community Impact Submission after consulting with the relevant key stakeholders and interest groups in the community, obtaining all other required information and providing a map showing the locality of their premises. A tool to assist applicants with the provision of a suitable map is available at www.cbs.sa.gov.au/ciportal.

When providing information to support their application, applicants should keep in mind that Community Impact Submissions will be made public. Any information that an applicant does not wish to be made public should be redacted or omitted from the Community Impact Submission.

As each application is different, the level of detail required in a Community Impact Submission may differ depending on the nature and complexity of the application and the impact the premises (including a variation to licence conditions) or the proposed premises will have on the surrounding community. If a Community Impact Submission does not adequately address each of these considerations, the Commissioner may require additional information to be provided.

3.2. Community Consultation

Applicants are required to address as part of a Community Impact Submission, whether the community of the locality of the premises/proposed premises have concerns about the application. The applicant should consider the following options for community consultation and should address any identified concerns:

- (a) Consultation with persons who reside within the locality of the premises/proposed premises and who may be affected by the grant of the application, e.g. by noise emanating from the premises, or other disturbance.
- (b) Petitions, customer surveys or letters of support from existing or potential customers.
- (c) Letters of support or evidence of consultation with local businesses.
- (d) Evidence of consultation with relevant authorities and community organisations such as:
 - SA Health or specific local health services
 - drug and alcohol related services or organisations
 - recognised leaders or representatives from local indigenous or other communities, and/or prominent local community service organisations.

Where appropriate, the applicant is required to demonstrate what measures will be implemented to address or mitigate concerns raised through this consultation process.

Contact details for selected organisations is available at www.cbs.sa.gov.au/ciportal.

3.3. Other Considerations

As part of a Community Impact Submission, **applicants are required** to demonstrate the measures that have been implemented, or that they will implement, to ensure that the grant of the application would be unlikely to result in undue offence, annoyance, disturbance or inconvenience to those who reside, work or worship in the vicinity of the premises.

3.4. Can the requirement for a Community Impact Submission be waived?

The Authority may vary or waive the requirement for a Community Impact Submission if:

- (a) the application does not propose a significant change to the licensed premises, or the nature or extent of the business carried on from the licensed premises
- (b) the purpose of the Community Impact Submission can be achieved by other means, or
- (c) other special circumstances exist.

In the event that the Authority decides to vary or waive the requirement for a Community Impact Submission, the application will remain a designated application for the purposes of determination under the Act.

Schedule 1**Designated Applications**

For the purposes of section 532 of the Act, a designated application is:

- an application for the *grant* or *removal* of:
 - (a) a **general and hotel licence**
 - (b) an **on premises licence**, unless –
 - (i) the premises to which the proposed licence relates is a public conveyance¹, or
 - (ii) the licence is, or is proposed to be, subject to a condition that the business conducted at the licensed premises be such that at all times the primary service provided to the public at the premises is the provision of accommodation.
 - (c) a **club licence**, if –
 - (i) the licence is, or is proposed to be, subject to a condition authorising –
 - A. the sale of liquor to persons (other than a resident) for consumption off the licensed premises, or
 - B. the sale of liquor after 2am on any day, or
 - (ii) in the opinion of the Authority², the business conducted under the licence and activities on the premises or proposed premises will have a substantial adverse impact on the amenity of the locality in which those premises are, or are to be, situated, taking into account –
 - A. the size of the premises or proposed premises
 - B. the trading hours or proposed trading hours under the licence, and
 - C. any other matter the Authority considers relevant.
 - (d) a **packaged liquor sales licence**, other than if the licence is, or is proposed to be, subject to a condition authorising the licensee to only sell liquor through direct sales transactions.
- **any other application** that the Authority has determined, in accordance with these guidelines, to be a designated application (see below).

The Authority has determined that the following applications are also designated applications for the purposes of the Act:

- an application to vary the trading hours of an **on premises licence** (other than a licence that only relates to a public conveyance) –
 - (a) to authorise the sale or supply of liquor after 2am on any day, or
 - (b) if the licence already authorises the sale or supply of liquor after 2am, to authorise the sale or supply of liquor at later hours than those previously fixed in relation to the licence (being later than 2am).
- an application to vary the conditions of a club licence to authorise –
 - (a) the sale or supply of liquor to persons (other than a resident) for consumption off the licensed premises
 - (b) the sale or supply of liquor after 2am on any day, or
 - (c) if the licence already authorises the sale or supply of liquor after 2am, to authorise the sale or supply of liquor at later hours than those previously fixed in relation to the licence (being later than 2am).
- an application to redefine the licensed area of a **packaged liquor sales licence**.
- an application to vary the conditions of a **packaged liquor sales licence** to –
 - (a) remove a condition restricting the licensee to the sale of liquor through direct sales transactions only, or
 - (b) remove or vary a condition restricting the type of liquor that the licensee can sell or supply under the licence.

Under section 53A of the Act, the Authority also has a general discretion to designate any other application in accordance with the Guidelines. In determining whether an application is deemed to be a designated application for the purposes of section 53A of the Act, the Authority will have regard to, but is not limited to having regard to:

- The potential for harm that the grant of the application may have on the locality of the premises or the community as a whole.
- The business conducted or proposed to be conducted under the licence.
- The activities taken or proposed to be undertaken on the premises or proposed premises.
- The effect the grant of the application will have on the amenity of the locality in which those premises are, or are to be, situated.
- The size of the premises or proposed premises.
- The trading hours or proposed trading hours under the licence.
- Social profile information, such as the Socio-Economic Indexes for Areas (SEIFA) scores.

¹ A public conveyance means an aeroplane, vessel, bus, train, tram or other vehicle used for public transport or available for hire by members of the public but does not include a conveyance hired on a self-drive basis if all passengers (if any) are to be transported free of charge or other consideration.

² The Authority will inform an applicant if their application is a designated application. Unless the conditions set out under (i) are satisfied and/or unless and until the Authority informs an applicant otherwise, applicants are to lodge and proceed with their applications as if they were not designated applications.

Schedule 2**Locality Guidelines**

As part of their Community Impact Submission, applicants are required to identify the locality of their premises/proposed premises. Applicants should consider:

- the area around the applicant's premises/proposed premises which is most likely to be affected by the grant of the application, and
- the area from where the applicant draws or expects to draw their customers, having regard to the nature of the premises/proposed premises.

When considering the area from where the premises/proposed premises draws or expects to draw their customers, applicants should consider:

- any target customer groups or identifiable customer base and the areas they reside in, and
- anything that may attract customers to the premises/proposed premises and the areas from which these customers may be based, for example –
 - where a premises/proposed premises is located/to be located on a main road, applicants may need to consider any areas which are serviced by that main road and include those areas in their locality, or
 - where a premises/proposed premises is located/to be located near to a shopping complex, applicants may need to consider the customer base of the shopping complex and where those customers reside and include those areas in the locality of their premises/proposed premises.

The following is intended as a guide only. Applicants are expected to tailor the size of the areas set out below having regard to the locality guidelines. The Authority may exercise discretion in determining whether the locality identified in the Community Impact Submission is appropriate and may direct a variation with respect to the locality if necessary.

Adelaide Metropolitan Area: As a guide, the locality of a premises in the Adelaide Metropolitan Area would generally be considered to be the area within a 2km radius of the site of the relevant premises.
