MENTAL HEALTH ACT 2009

Approved Treatment Centre—Extension of Temporary Conditions

Notice is hereby given in accordance with Section 96 of the *Mental Health Act 2009* that the Chief Psychiatrist's determination of James Nash House, 140 Hilltop Drive, Oakden SA 5086, as an Approved Treatment Centre, will continue to be subject to temporary conditions.

On 5 February 2026 the Chief Psychiatrist determined that James Nash House would continue to be subject to the following conditions:

Conditions on the use of Birdwood Ward

James Nash House may continue to admit subacute patients to Birdwood Ward, who are voluntary patients admitted under the *Mental Health Act 2009*, or who are subject to orders under Part 8A of the *Criminal Law Consolidation Act 1935*, subject to the following conditions:

- An assessment of patient needs against the physical condition and capability of the unit must occur before admission. Admissions can only be made with the approval of the Head of Unit and the most Senior Clinical Nurse responsible for Birdwood Ward, Forensic Mental Health Service, Division of Mental Health, Northern Adelaide Local Health Network.
- James Nash House may not admit patients on Inpatient Treatment Orders made under the *Mental Health Act 2009*, to Birdwood Ward, with the following exception:
- Admissions of patients on Inpatient Treatment Orders can be considered when it is not practicable to transfer a patient to another appropriate forensic mental health unit or to another approved treatment centre. This will require the approval of the Clinical Director and the Divisional Nursing Director, Forensic Mental Health Service, Division of Mental Health, Northern Adelaide Local Health Network, and in each instance the Chief Psychiatrist shall be notified.

Conditions on the use of Clare Ward

Admission to dual occupancy rooms in Clare Ward is subject to an additional bed allocation procedure that considers the recognised limitations of dual occupancy rooms in forensic mental health care. The procedure describes clinical and other criteria for allocation of dual occupancy rooms, and how these criteria will be monitored.

Conditions on the Admission of Female Patients, Gender Diverse People and Young People

The purpose of this condition is to enhance gender safety. Female patients, gender diverse people or any person 21 years of age or younger may not be admitted to the Aldgate Ward except under exceptional circumstances approved by the Clinical Director and the Divisional Nursing Director; and reported to the Chief Psychiatrist.

People in these groups may continue to routinely be admitted to the Ken O'Brien Centre in accordance with a local procedure document for that unit established under the Chief Psychiatrists Sexual Safety Standard.

Admissions to Birdwood Ward can also occur in accordance with a local procedure document for that unit, but only when approved by the Clinical Director and the Divisional Nursing Director on the basis that admission to the Ken O'Brien Centre or other alternative location is not practicable.

Admissions of male patients older than 21 years of age to Aldgate Ward can continue without restriction noting that this Ward will also maintain a local procedure document in accordance with the Chief Psychiatrist Sexual Safety Standard.

Conditions Related to the Prevention of Restrictive Practices and the use of Seclusion

In applying the “Chief Psychiatrist Restraint and Seclusion Standard—A Standard to Reduce and Eliminate where possible the Use of Restraint and Seclusion applied under the *Mental Health Act 2009*”, seclusion can only be provided in a seclusion room designated for that purpose.

Aldgate and Birdwood Wards do not have designated seclusion rooms. For this reason, seclusion is permitted in a patient’s bedroom but under a condition that the use of a bedroom for this purpose is authorised by the Clinical Director and the Divisional Nursing Director having regard for the safety of using a bedroom for this purpose and the impact on the patient of using their personal space for this purpose.

For instances of prolonged seclusion that is outside of the parameters of the Chief Psychiatrist Standard a report will be made to the Chief Psychiatrist of the indication of the seclusion, the welfare of the patient, and plans to reduce the reliance on seclusion.

These conditions will continue under this determination. These conditions remain in place until 6 August 2027.

The following condition is rescinded:

Conditions Related to the Safety of Patients, Staff and Visitors

Aldgate, Birdwood, Clare and Ken O’Brien share electronic security systems that have had past inconsistent performance. These wards may continue to admit patients providing that a system testing plan and risk mitigation plan approved by the Chief Psychiatrist is in place to provide for the safety of consumers, visitors and staff in the context of past fluctuating performance of the duress system, and associated security systems on site.

The lay out of Aldgate and Birdwood wards lack the contemporary building design features to support safe ward operation and the risk mitigation plan for those areas that include additional risk mitigations related to the design limitations of the physical environment.

The previous issues with the reliability of the electronic security system have been resolved.
