## WATER RESOURCES ACT 1997

## SECTION 8 (6)

*Declaration of McLaren Vale Prescribed Wells Area*

ON 24 December 1998, the existing proclamation under the Water Resources Act 1990 establishing the Willunga Basin Prescribed Wells Area was varied by regulations that added existing and future wells of the Upper Willunga Catchment Moratorium Area to the Willunga Basin Prescribed Wells Area, pursuant to section 8 of the Water Resources Act 1997. The Upper Willunga Catchment Moratorium Area, which is referred to below as the 'new area', is that area delineated in GRO Plan No. 497 of 1998 by the bold black line that does not comprise the Hundred of Willunga.

The combined area resulting from the regulations is now known as the McLaren Vale Prescribed Wells Area, and the varied proclamation is now cited as the Water Resources (McLaren Vale Prescribed Wells Area) Regulations 1990. The regulations varying the proclamation were published in the *Gazette* on 24 December 1998 at page 2086.

Current holders of licences to take water from the former Willunga Basin Prescribed Wells Area are unaffected by the variation.

All existing users of underground water wells in the 'new area', except stock and domestic users must apply in writing by 24 June 1999 to be eligible for a licence to take underground water from wells in the 'new area'.

For the purposes of these regulations, 'existing user' means a person in the 'new area' who lawfully took underground water at any time between 1 April 1993 and 21 August 1997, which is known as the 'establishment period'. The 21 August 1997 was the date of publication of the Notice of Intention to prescribe this resource under section 8 (4) of the Water Resources Act 1997.

All existing users who currently take underground water in accordance with authorisations granted under a 'moratorium' pursuant to section 16 of the Water Resources Act 1997 may only continue to take underground water without a licence until 1 July 2000, or if a licence is applied for, until the application is granted or refused.

The amount of water to be allocated to a licence will be determined in accordance with the provisions of section 36 of the Water Resources Act 1997, which are further explained in the Explanatory Memorandum. A copy of the Explanatory Memorandum and a licence application will be sent to all authorised users of underground water in the 'new area' in the near future.
