5. Subject to Conditions 3, 4, and 6, the applicant may stage building works, and, if so, may commence an approved stage before receiving my decision concerning building rules compliance for other stages (refer reserved matter (i) in paragraph (b) of the Decision section above). 8. The wastewater collection and treatment system shall be designed to ensure that the general obligations of the Environment Protection (Water Quality) Policy 2003 are met, and to ensure that effluent does not overflow or escape from drains, pipes, sumps, tanks, storage/treatment basins into any watercourse, or into stormwater drains which do not drain into the effluent collection, treatment and disposal system, except where the effluent complies with criteria in the above Policy.
9. In accordance with commitments by the applicant, wastewater shall not be stored in open storage ponds until it is first treated to reduce the potential for odours to occur.
10. The applicant shall ensure that stormwater, which does not comply with the Environment Protection (Water Quality) Policy 2003 criteria, is not discharged from the site without prior effective treatment.
11. Noise from the development shall be in accordance with the following:
- Construction Activities—Mondays to Saturdays:
- (a) not exceed 52 dB (A) between the hours of 7 a.m. and 10 p.m. measured and adjusted at the nearest existing residential property;

- (c) a short term typical maximum noise level of 60 dB (A) when measured at the nearest existing residential property.

12. The proponent shall, subject to obtaining the landowner's consent in relation thereto, install, operate and maintain frost fans on the property located north of the proposed development site either in accordance with the recommendations in the Development Report and assessed in the Acoustic report on frost fan impacts and in accordance with the Environment Protection Authority's standards for their operation, siting and distance from potential receptors, or in accordance with any alternative arrangement negotiated with the landowner. If the landowner refuses consent for the establishment of frost fans on the property located to the north of the proposed development, the proponent is excused from compliance with this condition.

13. Landscaping of the site shall commence prior to construction of the proposed Major Development, and when established must be maintained in good health and condition at all times. A plant must be replaced if or when it dies or becomes seriously diseased within the first growing season after the plant dies or becomes seriously diseased.

14. In accordance with commitments by the applicant, building walls up to 3 m shall be clad in colorbond 'ironstone' (or similar), and walls above 3 m shall be clad in colorbond 'paperbark' (or similar).

NATIONAL ELECTRICITY LAW

NOTICE UNDER SECTION 99

*Draft Rule Determination**Draft National Electricity Amendment (Revision of Dispatch Pricing Due to Manifestly Incorrect Inputs) Rule No. 2005/3*

THE Australian Energy Market Commission (Commission) gives notice under section 99 of the National Electricity Law (NEL) of the making of a Draft Rule Determination in relation to a Rule proposal by NEMMCO to allow NEMMCO, in specified limited circumstances, to revise market prices after identified manifestly incorrect inputs into the dispatch system.

This Rule proposal was received by NECA (the Commission's predecessor) on 15 February 2005. Under the NEL transitional provisions, consideration of this Rule proposal became the Commission's responsibility on 1 July 2005. The Commission gives notice that it has decided to dispense with the first round consultation steps under the Rule making process in respect of this Rule proposal because those steps duplicate processes already carried out under the National Electricity Code. The Commission has determined therefore to progress this Rule proposal to the stage of issuing a Draft Rule Determination.

The Draft Rule Determination, including the draft Rule, is published on the Commission's website and is available for inspection at the offices of the Commission. The Commission invites written submissions from any person or body in relation to the draft Rule. Submissions must be received by no later than Friday, 28 October 2005.

In accordance with section 101 of the NEL, any interested person or body may request the Commission to hold a hearing in relation to a Draft Rule Determination. A request must be received by Friday, 23 September 2005.

NATURAL RESOURCES MANAGEMENT ACT 2004

Notice of Prohibition on Taking Water from Wells in the Eastern Mount Lofty Ranges Area

PURSUANT to section 132 (1) of the Natural Resources Management Act 2004 ('the Act'), I, John David Hill, Minister for Environment and Conservation in the State of South Australia, and Minister to whom the administration of the Act is committed, being of the opinion that the rate at which water is being taken from wells in the area described in Schedule 1 ('the Underground Water Area') is such that there is a risk that the available water will not be sufficient to meet future demand, hereby prohibit the taking of water from wells except in the circumstances specified in Schedule 2.

SCHEDULE 1

The Underground Water Area

The area bounded by the bold solid line as shown in the GRO Plan No. 423/2003 ('the Underground Water Area').

SCHEDULE 2

1. A person may take water from a well in the Underground Water Area in accordance with the terms of a written authorisation granted by me or my authorised agent under the Notice of Prohibition on Taking Water from Wells in the Eastern Mount Lofty Ranges Area published on 16 October 2003, pursuant to section 16 (1) of the Water Resources Act 1997.

2. A person may take water from a well in the Underground Water Area in accordance with the terms of a written authorisation granted under this Notice by me or my authorised agent.

3. An authorisation under this Notice may be granted to:

(a) A person ('a Current User') who has been taking water from a well in the Underground Water Area during the period 1 July 2000 to 15 October 2003 inclusive ('the Relevant Period'), entitling that person to take:

- where the water taken during the relevant period was to water a crop or crops, the amount of water reasonably necessary, in my opinion, to water that crop or those crops, the amount being determined taking into account the maximum area of each crop or crops grown, the water requirements of the respective crop or crops and the irrigation capacity of the irrigation equipment used to water the crop or crops; or
- where the water was taken during the relevant period for any other purpose, the amount of water which, in my opinion, is reasonably necessary to continue that purpose in the manner in which it had been undertaken during the relevant period.

(b) The transferee under a contract for the sale or other transfer of land where the transferor of the land is the holder of an authorisation under this notice, entitling that person to take the same amount of water from the same source as the transferor was authorised to take.

(c) Subject to clause 4, a person ('a Prospective User') who did not take any water from a well but who needs water for a development, project or undertaking:

- to which that person was legally committed during the relevant period; or
- in respect of which that person had, in my opinion, committed significant financial or other resources during the relevant period,

entitling that person to take the amount of water from a well in the Underground Water Area, which in my opinion, is reasonably necessary to undertake the development, project or undertaking to which that person was committed.

4. A Prospective User may not be granted an authorisation or may only be granted an authorisation subject to conditions relating to the manner of taking water where, in my opinion:

- (a) the taking of water will detrimentally affect the ability of other persons to take water from any watercourse, well or dam for domestic purposes or the watering of stock (other than stock being intensively farmed); or

- (b) the taking of water will detrimentally affect the capacity of the water resource to meet the current or future demand including the demands of ecosystems dependent on that water resource.

5. Until authorised under this Notice, a Current User may continue to take an amount of water equivalent to the maximum amount taken in any one year, from the same source and for the same purpose or purposes as that person took during the relevant period without a written authorisation.

6. This Notice does not apply:

- (a) to the taking of water pursuant to section 124 (4) of the Act for domestic purposes or for watering stock (other than stock subject to intensive farming);
- (b) to the taking of water for fire fighting purposes or public road making purposes; or
- (c) to the taking of water for the purpose of use in the application of chemicals on crops.

7. The following condition applies to the taking of water in accordance with an authorisation granted under this Notice:

- The water may only be taken through a meter which accurately measures the quantity of water taken and is at all times in good working condition.

In this Notice:

'*Maximum area*' for a particular crop means the average of the maximum areas of land planted to a particular crop during the Relevant Period.

'*Water requirement*' of a crop means the reasonable rate of irrigation (expressed as a volume of water per hectare) to properly produce that crop.

'*Irrigation capacity*' of irrigation equipment means the amount of water that can be applied by the usual operation of that equipment in its condition at 15 October 2003, under usual pumping rates, hours of operation and seasonal fluctuations.

This Notice will remain in effect for two years unless earlier varied or revoked.

Dated 12 September 2005.
