GOVERNOR'S DIRECTIONS

TO THE MEMBERS OF THE COMMITTEE APPOINTED TO ADMINISTER THE STATE EMERGENCY RELIEF FUND

1. *General Directions*

THE STATE EMERGENCY RELIEF FUND ('the fund') provides a publicly accountable mechanism for the disbursement of donated funds following an emergency. The fund is administered under the Department of the Premier and Cabinet. The Security and Emergency Management Office in the Department of the Premier and Cabinet, provides administrative and policy support to the fund.

The committee to administer the State Emergency Relief fund is appointed by the Minister under section 37 (3) of the Emergency Management Act 2004 ('the Act') and is subject to broad directions by the Governor. The term 'emergency' in these directions has the meaning given to it under the Act.

Certain members are appointed for a term of three years ('ongoing members'). Other members are appointed for a period of six months from the date of gazettal to provide knowledge and judgment in relation to administration of the fund in response to a particular emergency ('particular members').

One of the ongoing members of the committee is also appointed as Funds Administrator (the 'administrator') and will chair meetings of the committee unless a direction given in relation to a particular emergency otherwise provides.

A further direction may nominate a particular member of the committee to chair its meetings in so far as those meetings relate to the distribution of funds in respect of a particular emergency and matters incidental thereto. If such a direction is not relevant or applicable then the person appointed as administrator will chair meetings of the committee.

A quorum of the committee will consist of the chairperson and four members of the committee. A further direction may provide that only members appointed to participate in the administration of the fund in relation to a particular emergency will be counted in forming the quorum for a meeting relating to that emergency.

Where possible the committee should reach decisions by consensus. However if a vote is required, and the results are tied, the chair will have a deliberative and casting vote. Particular members may only vote on issues relating to the administration and distribution of the fund in respect of the emergency to which their appointment relates.

Members of the committee are obliged to maintain confidentiality in relation to the deliberations of the committee and in relation to personal information that may be made available to the committee by or about potential recipients of fund monies.

Pursuant to the Act and any relevant direction the committee is responsible for the appropriate disbursement of the monies in the fund for the relief of persons who have suffered injury, loss or damage as a result of an emergency.

The committee may adopt any fair and reasonable assessment scheme for disbursement of monies, whether of its own design or that has been developed wholly or in part by any government or non-government agency.

The committee may make such enquiries as it thinks relevant as to the effect of the emergency upon victims.

The committee will be responsible for ensuring:

- Monies received by the fund are disbursed equitably and fairly for the relief of persons who suffer injury, loss or damage as a result of an emergency. Monies may be paid directly to such persons and may also be used to provide services or programs that will relieve the injury, loss or damage they have suffered;
- Administrative processes for the management and disbursement of the monies are developed which are transparent and meet all appropriate legal, probity and procedural requirements;
- Appropriate information is provided to affected parties and to the community on the availability of relief, on eligibility and disbursement and on any other matters which the committee determines should be communicated in order to assist the proper administration of the fund;
- A written report is provided to the Minister when the committee is satisfied that it has appropriately disbursed the available monies in relation to a particular emergency. The written report should include an audit of all monies disbursed, an evaluation of the effectiveness of the fund in meeting identified need and recommendations on any issues, which should be addressed in a future use of the fund following an emergency;
- That monies are allocated in an equitable, fair and culturally appropriate manner, may take into account the following principles:
 - Priority is given to those in most financial need and those assessed to have the most difficulty recovering quickly;
 - Available monies can be used to provide relief over the short-term or long-term for persons who have suffered injury, loss or damage as determined by the committee;
 - Monies provided to victims are gifts from the community in recognition of injury, loss or damage arising from the emergency, not a form of compensation;
 - Monies provided may complement or recognise other forms of assistance received by those affected by the explosion including any insurance payments, government grants, other gifts from public donations or other sources of known tangible support;
 - Where the committee is of the opinion that a person who suffered injury, loss or damage as a result of the emergency has been overcompensated for that injury, loss or damage by reason of being paid money from the fund and damages for compensation from another source, the committee may, by notice in writing given personally or by post to the person, require the person to pay the fund the amount of the overcompensation as determined by the committee and specified in the notice;
 - Monies may be provided irrespective of the insurance status of the recipient;
 - There will be a maximum and minimum amount that any recipient can receive from the fund which will be determined by the committee from time to time;

GOVERNOR'S DIRECTIONS

TO THE MEMBERS OF THE COMMITTEE APPOINTED TO ADMINISTER THE STATE EMERGENCY RELIEF FUND

2. Directions in Relation to the Emergency Arising from the Explosion of the Gladstone Factory

THE STATE EMERGENCY RELIEF FUND ('the fund') provides a publicly accountable mechanism for the disbursement of donated funds following an emergency. The fund is an administered item under the Department of the Premier and Cabinet. The Security and Emergency Management Office in the Department of the Premier and Cabinet, provides administrative and policy support to the fund.

Certain members are appointed for a term of three years ('ongoing members'). Other members are appointed for a period of six months from the date of gazettal to provide knowledge and judgment in relation to administration of the fund in response to a particular emergency ('particular members').

One of the particular members of the committee, the Hon. Rob Kerin has been invited to chair meetings of the committee. A quorum of the committee will constitute the chair and four members of the committee.

Where possible the committee should reach decisions by consensus. However if a vote is required, and the results are tied, the chair will have a deliberative and casting vote. Particular members may only vote on issues relating to the administration and distribution of the fund in respect of the emergency to which their appointment relates.

Members of the committee are obliged to maintain confidentiality in relation to the deliberations of the committee and in relation to personal information that may be made available to the committee on potential recipients of fund monies.

Pursuant to the provisions of the Act and these directions, the committee is responsible for the appropriate disbursement of the monies in the fund for the relief of the families of the men who were killed and those injured in the explosion at the site of the explosion.

The committee may adopt any fair and reasonable assessment scheme for disbursement of monies, whether of its own design or that has been developed wholly or in part by any government or non-government agency.

The committee may make such enquiries as it thinks relevant as to the effect of the emergency upon victims.

In these directions 'family' means a parent, spouse or domestic partner and children of a person killed or injured in the explosion; and, 'injury' will include both physical and psychological injury.

The committee will be responsible for ensuring:

- Monies received by the fund are disbursed equitably and fairly for the relief of the families of the men who were killed and those injured in the explosion. Monies may be paid directly to such persons and may also be used to provide services or programs that will relieve the injury, loss or damage they have suffered;
- Administrative processes for the management and disbursement of the monies are developed which are transparent and meet all appropriate legal, probity and procedural requirements;
- Appropriate information is provided to affected parties and to the community on the availability of relief, on eligibility and disbursement and on any other matters which the committee determines should be communicated in order to assist the proper administration of the fund;
- A written report is provided to the Minister when the committee is satisfied that it has appropriately disbursed the available monies. The written report should include an audit of all monies disbursed, an evaluation of the effectiveness of the fund in meeting identified need and recommendations on any issues, which should be addressed in a future use of the Fund following an emergency;
- That monies are allocated in an equitable, fair and culturally appropriate manner, may take into account the following principles:
 - Priority is given to those in most financial need and those assessed to have the most difficulty recovering quickly;
 - Available monies can be used to provide relief over the short-term or long-term for the families of the men who were killed and those injured in the explosion, as determined by the committee;

- Monies provided to the families of the men who were killed and those injured in the explosion are gifts from the community in recognition of injury, loss or damage arising from the explosion, not a form of compensation;
- Monies provided may complement or recognise other forms of assistance received by those affected by the explosion including any insurance payments, government grants, other gifts from public donations or other sources of known tangible support;
- Where the committee is of the opinion that a person who suffered injury, loss or damage as a result of the explosion has been overcompensated for that injury, loss or damage by reason of being paid money from the fund and damages for compensation from another source, the committee may, by notice in writing given personally or by post to the person, require the person to pay the fund the amount of the overcompensation as determined by the committee and specified in the notice;
- Monies may be provided irrespective of the insurance status of the recipient;
- Their will be a maximum and minimum amount that any recipient can receive from the fund, which will be determined by the committee from time to time;

Where possible the committee should reach decisions by consensus. However if a vote is required, and the results are tied, the chairperson will have a deliberative and casting vote. Ongoing members, and also those particular members appointed in relation to the floods, may vote in connection with matters relating to the administration and distribution of the fund in response to that emergency.

Members of the committee are obliged to maintain confidentiality in relation to the deliberations of the committee and in relation to personal information that may be made available to the committee by or about potential recipients of monies from the fund.

Details of the applicant's Heritage Agreement and consultation with the Ngadjuri Heritage Association shall also be provided to the Development Assessment Commission and the Department of Aboriginal Affairs and Reconciliation prior to construction commencing.

5. Subject to condition 3 and 4, the applicant may commence a stage of building works before receiving the Governor's decision concerning building rules compliance for other stages (refer reserved matter (i) in paragraph (a) of the Decision section above). No building works shall commence on a stage of the development, however, until a favourable decision in relation to building rules compliance in respect of that stage has been notified in writing to the applicant by the Governor or the Governor's delegate.

6. A decision on building rules compliance will only be made after a Building Rules assessment and certification has been undertaken and issued by the Barossa Council, or a private certifier, in accordance with the provisions of the Development Act 1993, and after the Minister for Urban Development & Planning receives a copy of all relevant certification documentation, as outlined in Regulation 64 of the Development Regulations 1993 (refer to 'Notes to Applicant' below for further information).

7. The management and monitoring of the pre-construction, construction and operational phases of the wine bottling and storage facility shall be undertaken in accordance with the Environmental Management and Monitoring Plan, prepared by Parsons Brinckerhoff on behalf of Beringer Blass Wine Estates Limited (Report No. 2102542A-04-0600-02), dated October 2004, and as amended by the letter from Nolan Rumsby Planners dated 23 November 2004.

8. The wastewater collection and treatment system shall be designed to ensure that the general obligations of the Environment Protection (Water Quality) Policy 2003 are met, and to ensure that effluent does not overflow or escape from drains, pipes, sumps, tanks, storage/treatment basins into any watercourse, or into stormwater drains which do not drain into the effluent collection, treatment and disposal system, except where the effluent complies with criteria in the above Policy.

9. In accordance with commitments by the applicant, wastewater shall not be stored in open storage ponds until it is first treated to reduce the potential for odours to occur.

10. The applicant shall ensure that stormwater, which does not comply with the Environment Protection (Water Quality) Policy 2003 criteria, is not discharged from the site without prior effective treatment.

11. Noise from the development shall be in accordance with the following:

Construction Activities—Mondays to Saturdays

- (a) not exceed 52 dB (A) between the hours of 7 a.m. and 10 p.m. measured and adjusted at the nearest existing residential property;
- (b) not exceed 45 dB (A) between the hours of 6 a.m. and 7 a.m. measured and adjusted at the nearest existing residential property;
- (c) shall be in accordance with the Environment Protection (Industrial Noise) Policy 1994;
- (d) site deliveries and other noisier construction activities shall be scheduled to minimise noise impacts;
- (e) all other aspects of construction activities shall be undertaken in accordance with the Environmental Management and Monitoring Plan.

Operation of the development

- (a) shall not exceed 52 dB (A) between the hours of 7 a.m. and 10 p.m. measured and adjusted at the nearest existing residential property in accordance with the Environment Protection (Industrial Noise) Policy 1994;
- (b) shall not exceed 45 dB (A) between the hours of 10 p.m. and 7 a.m. measured and adjusted at the nearest existing residential property in accordance with the Environment Protection (Industrial Noise) Policy 1994;
- (c) a short term typical maximum noise level of 60 dB (A) when measured at the nearest existing residential property.

12. The proponent shall, within 12 months from the date of this notice and in accordance with the commitments given in the letter by the proponent dated 12 April 2006 and subject to obtaining the landowner's consent to access the land, supply and install two frost fans on the adjacent property located north of the proposed development site. Such fans are to be a 4 blade type as specified in the Acoustic Report in Appendix H of the Response Document and the fans shall be sited in accordance with the recommendations of the Frost Report at Appendix I of the Development Report. If the landowner refuses access to the land, or seeks to condition access in an unreasonable way that is not acceptable to the proponent, the proponent shall not be required to comply with the commitments in the letter dated 12 April 2006.

13. Landscaping of the site shall commence prior to construction of the proposed Major Development, and when established must be maintained in good health and condition at all times. A plant must be replaced if or when it dies or becomes seriously diseased within the first growing season after the plant dies or becomes seriously diseased.

14. In accordance with commitments by the applicant, building walls up to 3 m shall be clad in colorbond 'ironstone' (or similar), and walls above 3 m shall be clad in colorbond 'paperbark' (or similar).

15. All lighting shall be directed and shielded in such a way as to prevent glare from the site and any lighting that is not in use for operational or security reasons shall be switched off.

16. In accordance with EPA recommendations, no trucks or heavy vehicles shall access the site from the portion of Light Pass Road, south of the access point for the proposed Major Development.

17. The temporary concrete batching plant for on-site construction activities and associated infrastructure shall be decommissioned and removed from the site no later than 1 August 2005.

18. The applicant shall, prior to the commencement of operations, prepare an Irrigation Management Plan to the satisfaction of the Environment Protection Authority to demonstrate that the proposed development will:

- (a) minimise the risk of polluting surface and groundwater resources by preventing excessive wastewater runoff or infiltration;
- (b) minimise soil degradation and damage to crops by using sustainable irrigation application rates, based on soil limitations (determined by a soil survey), crop requirements and limiting wastewater constituents;
- (c) prevent environmental nuisance by identifying wastewater pre-treatment requirements and employing suitable separation distances for irrigation;
- (d) prevent public and animal health impacts by using appropriate irrigation equipment and implementing training and awareness programs for staff;
- (e) maximise organic carbon, nutrient and salt removal by selecting suitable land, viable and tolerant crops and suitable cropping practices;
- (f) maintain a 50 m buffer between irrigation areas and the Council stormwater collection system.

19. The Irrigation Management Plan shall contain contingency measures for the disposal of any excess wastewater that cannot be irrigated during the winter periods.

Notes to Applicant

Pursuant to Development Regulation 64, the applicant is advised that the Barossa Council or private certifier conducting a Building Rules assessment must-

- Should the applicant wish to vary the Major Development or any of the components of the Major Development, an application may be submitted, provided that the development application variation remains within the ambit of the Development Report and Assessment Report referred to in this provisional development authorisation. If an application variation involves substantial changes to the proposal, pursuant to section 47 of the Development Act 1993, the applicant may be required to prepare an amended Development Report for public inspection and purchase. An amended Assessment Report may also be required to assess any new issues not covered by the original Assessment Report and a decision made by the Governor pursuant to section 48 of the Development Act 1993.
- It is recommended that the applicant finalise the required water licence arrangements pursuant to the Water Resources Act 1997, for the construction of the proposed water storage dam and subsequent reuse of water, prior to construction of the proposed Major Development (in order for operations to proceed). The applicant is also advised to submit information on the water licence arrangements to Planning SA, together with final details on the design of the stormwater dam and associated release mechanism(s) and infrastructure.
- The proponent is advised of the General Environmental Duty under section 25 of the Environment Protection Act 1993, which requires that a person must not undertake any activity, which pollutes, or may pollute; without taking all reasonable and practical measures to prevent or minimise harm to the environment.
- The applicant's EMMP should be prepared taking into consideration, and with explicit reference to, relevant EPA policies and guideline documents, including, but not limited to: the Environment Protection (Air Quality) Policy 1994, the Environment Protection (Water Quality) Policy 2003, the Occupational Health and Safety Regulations, EPA Guidelines on Odour Assessment, using odour source modelling 2003, EPA Handbook for Pollution Avoidance on Commercial and Residential Building Sites 2004, and the EPA Stormwater Pollution Prevention Code of Practice for the Building and Construction Industry, in addition to other legislative requirements and Guidelines/Australian Standards requiring compliance.

- It is recommended that the applicant ensure there are measures in place to promote staff vehicle access to the site from the northern end of Light Pass Road.
- The applicant is advised that a further development application and authorisation will be required pursuant to Part 4, Division 2 of the Development Act 1993, for the following matters:
 - prior to commencement of Stage 2, if the applicant proposes to treat wastewater at the existing Wolf Blass winery wastewater treatment system;
 - for the establishment of any additional frost fans that may be required as part of Stage 2;
 - if the external advertising signage is amended from that indicated in the Development Report, or additional advertising signage is proposed.

- The applicant is advised that any construction activities proposed to be undertaken on Sundays shall be subject to EPA requirements and further approval.

2. The applicant shall submit further information and application(s) in relation to the matters that have been reserved for further decision-making.
3. No building works on any part of the development shall commence until a favourable decision has been notified to the applicant by the Governor or the Governor's delegate in respect of those reserved matters referred to in subparagraph (i) in paragraph (a) of the Decision section above.
4. No construction activities or building works shall commence until a heritage survey has been completed to identify any Aboriginal sites, objects or remains in the site area, and monitoring shall be undertaken during construction to enable the development to proceed without a breach of the Aboriginal Heritage Act 1988. Details of the applicant's Heritage Agreement and consultation with the Ngadjuri Heritage Association shall also be provided to the Development Assessment Commission and the Department of Aboriginal Affairs and Reconciliation prior to construction commencing.
5. Subject to conditions 3 and 4, the applicant may commence a stage of building works before receiving the Governor's decision concerning building rules compliance for other stages (refer reserved matter (i) in paragraph (a) of the Decision section above). No building works shall commence on a stage of the development, however, until a favourable decision in relation to building rules compliance in respect of that stage has been notified in writing to the applicant by the Governor or the Governor's delegate.
6. A decision on building rules compliance will only be made after a building rules assessment and certification has been undertaken and issued by the Barossa Council, or a private certifier, in accordance with the provisions of the Development Act 1993, and after the Minister for Urban Development and Planning receives a copy of all relevant certification documentation, as outlined in Regulation 64 of the Development Regulations 1993 (refer to 'Notes to Applicant' below for further information).
7. The management and monitoring of the pre-construction, construction and operational phases of the wine bottling and storage facility shall be undertaken in accordance with the Environmental Management and Monitoring Plan, prepared by Parsons Brinckerhoff on behalf of Beringer Blass Wine Estates

Limited (Report No. 2102542A-04-0600-02), dated October 2004, and as amended by the letter from Nolan Rumsby Planners dated 23 November 2004.

8. The wastewater collection and treatment system shall be designed to ensure that the general obligations of the Environment Protection (Water Quality) Policy 2003 are met, and to ensure that effluent does not overflow or escape from drains, pipes, sumps, tanks, storage/treatment basins into any watercourse, or into stormwater drains which do not drain into the effluent collection, treatment and disposal system, except where the effluent complies with criteria in the above policy.

9. In accordance with commitments by the applicant, wastewater shall not be stored in open storage ponds until it is first treated to reduce the potential for odours to occur.

10. The applicant shall ensure that stormwater, which does not comply with the Environment Protection (Water Quality) Policy 2003 criteria, is not discharged from the site without prior effective treatment.

11. Noise from the development shall be in accordance with the following:

Construction Activities—Mondays to Saturdays:

- (a) not exceed 52 dB(A) between the hours of 7 a.m. and 10 p.m. measured and adjusted at the nearest existing residential property;
- (b) not exceed 45 dB(A) between the hours of 6 a.m. and 7 a.m. measured and adjusted at the nearest existing residential property;
- (c) shall be in accordance with the Environment Protection (Industrial Noise) Policy 1994;
- (d) site deliveries and other noisier construction activities shall be scheduled to minimise noise impacts;
- (e) all other aspects of construction activities shall be undertaken in accordance with the Environmental Management and Monitoring Plan.

Operation of the development:

- (a) shall not exceed 52 dB (A) between the hours of 7 a.m. and 10 p.m. measured and adjusted at the nearest existing residential property in accordance with the Environment Protection (Industrial Noise) Policy 1994;
- (b) shall not exceed 45 dB (A) between the hours of 10 p.m. and 7 a.m. measured and adjusted at the nearest existing residential property in accordance with the Environment Protection (Industrial Noise) Policy 1994;
- (c) a short-term typical maximum noise level of 60 dB (A) when measured at the nearest existing residential property.

12. The proponent shall, subject to obtaining the landowner's consent in relation thereto, install, operate and maintain frost fans on the property located north of the proposed development site either in accordance with the recommendations in the Development Report and assessed in the Acoustic report on frost fan impacts and in accordance with the Environment Protection Authority's standards for their operation, siting and distance from potential receptors, or in accordance with any alternative arrangement negotiated with the landowner. If the landowner refuses consent for the establishment of frost fans on the property located to the north of the proposed development, the proponent is excused from compliance with this condition.

13. Landscaping of the site shall commence prior to construction of the proposed major development, and when established must be maintained in good health and condition at all times. A plant must be replaced if or when it dies or becomes seriously diseased within the first growing season after the plant dies or becomes seriously diseased.

14. In accordance with commitments by the applicant, building walls up to 3 m shall be clad in colorbond 'ironstone' (or similar), and walls above 3 m shall be clad in colorbond 'paperbark' (or similar).

15. All lighting shall be directed and shielded in such a way as to prevent glare from the site, and any lighting that is not in use for operational or security reasons shall be switched off.

16. In accordance with EPA recommendations, no trucks or heavy vehicles shall access the site from the portion of Light Pass Road, south of the access point for the proposed major development.

17. The temporary concrete batching plant for on-site construction activities and associated infrastructure shall be decommissioned and removed from the site no later than 1 August 2005.

18. The applicant shall, prior to the commencement of operations, prepare an Irrigation Management Plan to the satisfaction of the Environment Protection Authority to demonstrate that the proposed development will:

- (a) minimise the risk of polluting surface and groundwater resources by preventing excessive wastewater runoff or infiltration;
- (b) minimise soil degradation and damage to crops by using sustainable irrigation application rates, based on soil limitations (determined by a soil survey), crop requirements and limiting wastewater constituents;
- (c) prevent environmental nuisance by identifying wastewater pre-treatment requirements and employing suitable separation distances for irrigation;
- (d) prevent public and animal health impacts by using appropriate irrigation equipment and implementing training and awareness programs for staff;
- (e) maximise organic carbon, nutrient and salt removal by selecting suitable land, viable and tolerant crops and suitable cropping practices;
- (f) maintain a 50 m buffer between irrigation areas and the Council stormwater collection system.

19. The Irrigation Management Plan shall contain contingency measures for the disposal of any excess wastewater that cannot be irrigated during the winter periods.

NOTES TO APPLICANT

- Pursuant to Development Regulation 64, the applicant is advised that the Barossa Council or private certifier conducting a building rules assessment must:
 - (a) provide to the Minister a certification in the form set out in Schedule 12A of the Development Regulations 1993 in relation to the building works in question; and
 - (b) to the extent that may be relevant and appropriate:
 - (i) issue a Schedule of Essential Safety Provisions under Division 4 of Part 12; and
 - (ii) assign a classification of the building under these regulations; and
 - (iii) ensure that the appropriate levy has been paid under the Construction Industry Training Fund 1993.

Regulation 64 of the Development Regulations 1993 provides further information about the type and quantity of all building rules certification documentation for major developments required for referral to the Minister for Urban Development and Planning.

- The Barossa Council or private certifier undertaking building rules assessments must ensure that the assessment and certification are consistent with this provisional development authorisation (including any Conditions or Notes that apply in relation to this provisional development authorisation).
- Should the applicant wish to vary the major development or any of the components of the major development, an application may be submitted, provided that the development application variation remains within the ambit of the Development Report and Assessment Report referred to in this provisional development authorisation. If an application variation involves substantial changes to the proposal, pursuant to section 47 of the Development Act 1993, the applicant may be required to prepare an amended Development Report for public inspection and purchase. An amended Assessment Report may also be required to assess any new issues not covered by the original Assessment Report and a decision made by the Governor pursuant to section 48 of the Development Act 1993.

- It is recommended that the applicant finalise the required water licence arrangements pursuant to the Water Resources Act 1997, for the construction of the proposed water storage dam and subsequent re-use of water, prior to construction of the proposed major development (in order for operations to proceed). The applicant is also advised to submit information on the water licence arrangements to Planning SA, together with final details on the design of the stormwater dam and associated release mechanism(s) and infrastructure.
- The proponent is advised of the General Environmental Duty under section 25 of the Environment Protection Act 1993, which requires that a person must not undertake any activity, which pollutes, or may pollute; without taking all reasonable and practical measures to prevent or minimise harm to the environment.
- The applicant's EMMP should be prepared taking into consideration, and with explicit reference to, relevant EPA policies and guideline documents, including, but not limited to the Environment Protection (Air Quality) Policy 1994, the Environment Protection (Water Quality) Policy 2003, the Occupational Health and Safety Regulations, EPA Guidelines on Odour Assessment, using odour source modelling 2003, EPA Handbook for Pollution Avoidance on Commercial and Residential Building Sites 2004, and the EPA Stormwater Pollution Prevention Code of Practice for the Building and Construction Industry, in addition to other legislative requirements and Guidelines/Australian Standards requiring compliance.
- The applicant is reminded of its obligations under the Aboriginal Heritage Act 1988 whereby any 'clearance' work, which may require permission to disturb damage or destroy Aboriginal Sites, must be undertaken with the full authorisation of the Minister for Aboriginal Affairs and Reconciliation, according to section 23 of the Aboriginal Heritage Act 1988.
- It is recommended that the applicant ensure there are measures in place to promote staff vehicle access to the site from the northern end of Light Pass Road.
- The applicant is advised that a further development application and authorisation will be required pursuant to Part 4, Division 2 of the Development Act 1993, for the following matters:
 - prior to commencement of Stage 2, if the applicant proposes to treat wastewater at the existing Wolf Blass winery wastewater treatment system;
 - for the establishment of any additional frost fans that may be required as part of Stage 2;
 - if the external advertising signage is amended from that indicated in the Development Report, or additional advertising signage is proposed.
- The applicant is advised that any construction activities proposed to be undertaken on Sundays shall be subject to EPA requirements and further approval.
- The Minister has a specific power to require testing, monitoring and auditing under section 48C of the Development Act 1993.
- The Environment Protection Authority has advised that an authorisation (licence) will be required for the temporary concrete batching plant.
- Wastewater dams shall be constructed in accordance with EPA Guidelines for Wastewater and Evaporation Lagoon Construction (March 2004).

COMPULSORY THIRD PARTY INSURANCE PREMIUM SCHEDULE

Compulsory Third Party (CTP) Insurance - Policy of Insurance

- The insurer (the Motor Accident Commission) insures the owner of the motor vehicle and any other person who at any time drives or is a passenger in or on the vehicle, whether with or without the consent of the owner, in respect of all liability that may be incurred by the owner or other person in respect of the death of, or bodily injury to, any person caused by, or arising out of the use of the vehicle in any part of the Commonwealth.
- A person so insured warrants that he or she will not-
 - drive the vehicle, or do or omit to do anything in relation to the vehicle, with the intention of causing the death of, or bodily injury to, a person or damage to another's property or with reckless indifference as to whether such death, bodily injury or damage results; or
 - drive the vehicle while so much under the influence of intoxicating liquor or a drug as to be incapable of exercising effective control of the vehicle; or
 - drive the vehicle while there is present in his or her blood a concentration of .15 grams* or more of alcohol in 100 millilitres of blood; or
 - drive the vehicle while not duly licensed or otherwise permitted by law to drive the motor vehicle; or
 - drive the vehicle while the vehicle is overloaded, or in an unsafe, unroadworthy or damaged condition; or
 - use the vehicle otherwise than-
 - for the purposes stated in the application for registration, renewal of registration, exemption from registration or a permit, in respect of the vehicle; or
 - if trade plates are affixed to the vehicle - for purposes stated in the application for the issuing of those plates; or
 - for purposes agreed on between the insurer and the registered owner of the vehicle.
- The owner of the vehicle warrants that no person will, with his or her knowledge or consent (which will be presumed in any proceedings in the absence of proof to the contrary), drive or use the vehicle, or do or omit to do anything in relation to the vehicle, contrary to any paragraphs of clause 2.
- This policy of insurance does not extend to liability arising from death of, or bodily injury to, a participant in a road race caused by the act or omission of another participant in the road race.

* The insurer's right to recover claims costs is in addition to all other penalties applying to offences involving the driving of a vehicle with a blood alcohol concentration in excess of the legal limit, namely 0.05%.

IMPORTANT INFORMATION FOR VEHICLE OWNERS ON CTP INSURANCE

ASSISTANCE IN DETERMINING THE APPROPRIATE PREMIUM CLASS

The premium class and premium payable may be determined by referring to the CTP Insurance Schedule shown overleaf. In determining the premium class, attention should be given to:

- Type of vehicle
- The purpose for which it is used
- The input tax credit (ITC) entitlement of the registered owner (see below)
- The postcode area in which it is usually garaged (see below)

GST

The premiums shown overleaf include a component to recover the cost of stamp duty payable by the insurer. In accordance with GST laws, no GST is payable on this component of the premium. Consequently, the GST payable will be less than 1/11th of the total premium.

The Input Tax Credit (ITC) Entitlement of the registered owner

Where alternative premiums are offered, you MUST select an 'ITC Entitled' higher premium class if the vehicle is used for any purpose that entitles you to claim back any part of the GST component of the CTP Premium. Under the Commonwealth GST Law*, this is known as an 'Input Tax Credit' (ITC). Upon payment of any 'ITC Entitled' premium, a Tax Invoice will automatically be provided with your Certificate of Registration.

A 'No ITC Entitlement' premium is only available where you are NOT entitled to an ITC in relation to the premium paid. Where a 'No ITC Entitlement' premium class has been selected a Tax Invoice will not be provided with your Certificate of Registration. If a Tax Invoice is required for a 'No ITC Entitlement' premium class payment, an Application for Issue of a Tax Invoice form (MR173) must be completed and lodged with the Department for Transport, Energy and Infrastructure.

Failure to notify the insurer of the correct premium may incur a penalty up to \$250. **This penalty is in addition to any premium differential payable.**

In addition, if the incorrect premium is paid this constitutes a breach of the Policy of Insurance. Section 124A(2) of the Motor Vehicles Act 1959 allows the insurer, by action in a court of competent jurisdiction, to recover from the insured person a portion of the money paid or costs incurred by the insurer in respect of the liability incurred by the insured person. Accordingly, use of the vehicle otherwise than for the purposes stated in your application renders you liable to recovery action in the event that a claim on your policy is paid by the insurer. In cases of incorrect registration of GST status, the insurer may seek 10% of the money paid or costs incurred by the insurer as settlement of its claim under Section 124A(2) of the Motor Vehicles Act 1959.

*GST Law means the Commonwealth legislation: A New Tax System (Goods and Services Tax) Act 1999.

In the case of premium classes 16, 20, 36, 40, 66, 70, 86 and 90, the insurance premium payable is based on the normal place of residence of the owner or the principal place of business of a Body Corporate.

It is advisable to check the insurance class and insurance premium payable shown on the registration renewal notice. If the information shown is incorrect, a Customer Service Centre should be notified immediately.

An 'Application to Change the Insurance Premium Class on a Registration' may be required where the premium has altered due to:

- A change of residential and/or garaging address
- An alteration to the vehicle
- A change in the GST status of the registered owner
- A change in concession status
- A change in the use of the vehicle

'EXCESS' PROVISIONS - MOTOR VEHICLES ACT 1959

Section 124AB of the Motor Vehicles Act states that where an insured person (and that includes the driver) incurs a liability (against which he or she is insured under the policy) and is more than 25% at fault, the insurer may recover up to \$300.00 from the insured person as a debt. This does not prevent the insurer at a later date exercising any other right of recovery against you under Part IV of the Act (eg for breach of warranty relating to intoxicating liquor).

It is an offence to provide false information or withhold any information which may be necessary to determine the appropriate insurance premium.

CTP INSURANCE PREMIUM SCHEDULE <i>Effective 1/7/2006</i>										
Where a vehicle is within more than one category the premium shall be that fixed for the category deemed by the insurer to be the appropriate category for that vehicle.					Where the Act ¹ provides for a vehicle to be registered and insured for a term beyond 12 months, a premium calculated in proportion to the 12 monthly premium applies.					19

It is a criminal offence to refuse or fail to provide a sample of oral fluid or blood without good cause. You could be fined and lose your licence for 12 months or more.

It is a defence if you have some physical or medical condition that prevents you from providing a sample of oral fluid or blood [whichever is applicable], but only if you ask for a sample of your blood or oral fluid [whichever is applicable] to be taken instead.

If you want a sample of blood or oral fluid [whichever is applicable] taken because of your condition, you should ask for that and the police will help you to have the sample taken at Government expense.

16—Substitution of Schedule 1

Schedule 1—delete the Schedule and substitute:

Schedule 1—Prescribed oral advice and written notice

(Section 47K(2a)(a))

Part A—Oral advice for the purposes of section 47K(2a)(a) of *Road Traffic Act 1961*

The breathalyser reading just taken shows that you had a prohibited level of alcohol in your blood.

Therefore, it appears that you have committed an offence against section 47B of the Road Traffic Act.

In any court proceedings for that offence, or for an offence against section 47 of the Road Traffic Act (driving under the influence of liquor), it will be presumed that the breathalyser accurately indicated your blood alcohol level at the time of the reading and for the preceding two hours. However, the Road Traffic Act allows for contrary evidence based on the results of a blood test.

If you want to have such a blood test you will have to make your own arrangements and follow certain procedures, using a special blood test kit. This blood test kit will be supplied to you on your signing a written request.

If you obtain a blood test kit and want to have your blood tested, you should take the kit promptly to a hospital or medical practitioner in order to have a sample of your blood taken.

[*Alternatively, you may have the sample taken by a registered nurse.]

You must not consume any more alcohol before having a sample of your blood taken and must not open the blood test kit before delivering it to a medical practitioner [*or registered nurse].

Under the blood test procedure, the sample of blood is divided and sealed in two containers. You will have to sign a form that will be given to you by the medical practitioner [*or registered nurse].

One of the sealed containers will be given to you and you may make your own arrangements to have the blood in that container analysed.

In any event, the blood in the other container will be analysed by Forensic Science SA and you will be given written notice of the results of the analysis.

Further information as to these matters is contained in the written notice which will be delivered to you shortly.

* Advice as to the alternative of a registered nurse is to be given only if the breath analysis was conducted outside Metropolitan Adelaide.

Part B—Written notice for the purposes of section 47K(2a)(a) of *Road Traffic Act 1961***Operation of Road Traffic Act in relation to results of breath analysis****1 Offence**

A person commits an offence against section 47B(1) of the *Road Traffic Act 1961* if the person—

- (a) drives a motor vehicle; or
- (b) attempts to put a motor vehicle in motion,

while there is present in his or her blood the prescribed concentration of alcohol (as defined in section 47A of the Act).

2 Breath analysis

Your breath has just been analysed by means of a breath analysing instrument which indicated that the prescribed concentration of alcohol was present in your blood.

Accordingly, it appears that you have committed the offence described above.

3 Legal effect of breath analysis result

In proceedings for the offence described above or an offence against section 47(1) of the *Road Traffic Act 1961* (driving under the influence of liquor), the result of the breath analysis will be presumed to accurately record the concentration of alcohol in your blood at the time of the analysis and throughout the preceding 2 hours (section 47K(1),(1ab)).

In any proceedings against you for such an offence, you will be able to challenge the accuracy of the breath analysis reading—

- if you have a sample of your blood taken and analysed as described below AND
- if the result of analysis of the blood sample shows that the breath analysing instrument gave an exaggerated reading of the concentration of alcohol present in your blood (section 47K(1a)).

Procedures for optional blood test

- 1 You may have a sample of your blood taken and analysed if you wish.
 - 2 For that purpose, you must request the breath analysis operator to supply you with an approved blood test kit (you must sign a written request form for the kit and should retain a copy of the signed request form).
 - 3 You should then proceed promptly to a hospital or a medical practitioner [*or registered nurse] of your choice and request that a sample of your blood be taken (using the blood test kit).
 - 4 Do not consume any further alcohol before the sample is taken.
 - 5 Do not open the blood test kit.
 - 6 The medical practitioner [*or registered nurse] taking the sample of your blood will divide it and place it into two containers and seal the containers. One container will be delivered to you—do not break the seal on this container.
 - 7 Sign the form presented to you by the medical practitioner [*or registered nurse]—the original of the form will be given to you which you should retain.
 - 8 You may, if you wish, have the blood sample (in the container delivered to you) analysed at a laboratory to determine the concentration of alcohol present in the blood.
 - 9 The other blood sample container will, in any event, be sent to Forensic Science SA where the blood will be analysed. The results of this analysis will be sent to you at your address (as indicated on the form presented to you by the medical practitioner [*or registered nurse] who took the blood sample).
- * The alternative of a registered nurse applies only if the breath analysis was conducted outside Metropolitan Adelaide.
