NATURAL RESOURCES MANAGEMENT ACT 2004

Notice of Prohibition on Taking Water from Wells in the Central Adelaide Area 'Area A'

PURSUANT to section 132 (1) of the Natural Resources Management Act 2004 (the Act), I, Gail Gago, Minister for Environment and Conservation in the State of South Australia, to whom the administration of the Act is committed, being of the opinion that the rate at which water is being taken from wells in the area bounded by the bold solid line in GRO Plan No. 327/2005 (Area A) is such that there is a risk that the available water will not be sufficient to meet future demand, hereby prohibit the taking of water from wells in Area A except in the circumstances specified in Schedule 1.

SCHEDULE 1

1. A person may take water from a well in Area A in accordance with the terms of a written authorisation granted under this Notice by me or my authorised agent.

2. An authorisation under this Notice may be granted to:

(a) A person (a Current User), who has been taking water from a well in Area A during the period 1 July 2002 to 30 November 2005 inclusive (the Relevant Period), entitling that person to take from the source specified in the authorisation:

- where the water taken during the Relevant Period was to water a crop or crops, the amount of water that, in my opinion, would have been reasonably required annually to water that crop or those crops, taking into account the maximum area of each crop or crops grown, the water requirements of the respective crop or crops and the irrigation capacity of the irrigation equipment used to water the crop or crops; or

- where the water was taken during the Relevant Period was used for any other purpose, the amount of water that, in my opinion, would have been reasonably required annually to undertake that purpose.

The source specified will be the resource or resources where water was taken during the Relevant Period.

- (b) The transferee of a freehold title, lease or other interest in land, where the transferor of that title, lease or interest is the holder of an authorisation under this notice to take water from a source on that land but as a result of the transfer no longer has legal access to that source of water. The authorisation will entitle that person to take the same amount of water from the same source as the transferor was authorised to take.
- (c) Subject to Clause 3, a person (a Prospective User) who did not take any water from a well in Area A during the Relevant Period, but who needs water for a development, project or undertaking:

- to which that person was legally committed during the Relevant Period; or
- in respect of which that person had, in my opinion, committed significant financial or other resources during the Relevant Period,

entitling that person to take the amount of water from a well in Area A, which in my opinion, is reasonably necessary to undertake the development, project or undertaking to which that person was committed.

3. A Prospective User may not be granted an authorisation where, in my opinion:

- (a) the taking of water from wells will detrimentally affect the ability of other persons to take water from any watercourse, well or dam for domestic purposes or for watering of stock (other than stock being intensively farmed); or
- (b) the taking of water from wells will detrimentally affect the capacity of surface water or any watercourse or well to meet the current or future demand, including the demands of ecosystems dependent on that water resource.

4. Until authorised under this Notice, a Current User may continue to take an amount of water equivalent to the maximum amount taken in any one financial year during the relevant period, from the same sources and for the same purpose or purposes as that person took during the Relevant Period without a written authorisation.

5. This notice does not apply:

- (a) to the taking of water directly from a well pursuant to section 124 (4) of the Act for domestic purposes or for watering of stock (other than stock being intensively farmed);
- (b) the taking of water for fire-fighting purposes or public road making purposes; or
- (c) to the taking of water for the purpose of chemical application on crops.

6. The following condition applies to the taking of water in accordance with an authorisation granted under this Notice:

- The water may only be taken through a meter which accurately measures the quantity of water taken and is at all times in good working condition.

In this notice:

‘Maximum area’ for a particular crop means the maximum area of land planted to a particular crop in any one financial year during the relevant period.

‘Water requirement’ of a crop means the reasonable rate of irrigation (expressed as a volume of water per hectare) to properly produce that crop.

‘Irrigation capacity’ of irrigation equipment means the amount of water that can be applied by the usual operation of that equipment in good condition at 30 November 2005 under usual pumping rates, hours of operation and seasonal fluctuations.

This notice will remain in effect for two years unless earlier varied or revoked.

Dated 1 August 2007.
