**Government
of South Australia**

**TREASURER'S
QUARTERLY STATEMENT**

for the

**THREE MONTHS and TWELVE MONTHS ended on
30 JUNE 2010 and 30 JUNE 2009**

*Presented by the
Honourable Kevin Foley MP
Treasurer of South Australia*

GOVERNMENT OF SOUTH AUSTRALIA**COMMENTARY TO THE STATEMENT OF THE AMOUNTS CREDITED TO
AND ISSUED FROM THE CONSOLIDATED ACCOUNT FOR THE QUARTERS
ENDED 30 JUNE 2010 AND 30 JUNE 2009*****Receipts****Taxation*

The increase in land tax collections in 2009-10 compared with 2008-09 primarily reflects the growth in land values. The lower land tax collections in the June quarter 2010, compared with the same period a year ago primarily reflects the timing of the land tax payment by the South Australian Housing Trust. The Housing Trust paid its land tax liability (\$163.9 million) in the December quarter 2009. In the previous year, the Housing Trust paid its land tax liability (\$149.2 million) in April 2009.

Payroll tax receipts for 2009-10 were lower than 2008-09 collections, primarily due to the reduction in the payroll tax rate from 5.00% to 4.95% and the increase in the tax-free threshold from \$552 000 to \$600 000, both of which took effect from 1 July 2009.

Higher payroll tax collections for the June quarter 2010 compared to the June quarter 2009 reflects growth in employer payrolls as economic activity recovered.

Higher levels of stamp duty receipts in 2009-10 compared to 2008-09 is largely due to an increase in the value of residential and non-residential transfers reflecting improved confidence in the property market.

Gambling tax receipts were slightly higher in 2009-10 compared with 2008-09 due to higher gaming machine expenditure in hotels and clubs.

Fees and charges

The higher fees and charges in 2009-10 compared with 2008-09 largely reflect the increase in collections of the land services regulatory fees.

Royalties

The decrease in royalty receipts in 2009-10 compared to 2008-09 mainly relates to:

- lower royalties from Olympic Dam due to a fall in production as a result of the Clark Shaft incident and the bringing forward of significant maintenance work including the major smelter reline;
- lower royalties from Middleback Ranges due to a significant loss on export steel slab sales; and
- lower royalties from the Cooper Basin due primarily to lower sales of gas and lower prices for gas liquids as well as lower sales of crude oil.

This is offset in part by royalties from Prominent Hill which commenced operations in February 2009 with the first royalty payment received in August 2009 as well as higher royalties from the Challenger mine due to the royalty calculation now being based on the market gold price (previously the price of gold was set at \$12/gram).

Commonwealth – General Purpose Grants

General Purpose Grants are higher in 2009-10 compared to 2008-09 due to growth in the GST pool. The total GST pool (accrual basis) grew by around 7.0 per cent in 2009-10.

GST revenue in 2009-10 also includes an unbudgeted receipt of Budget Balancing Assistance which relates to the finalisation payment with respect to the 2008-09 year. Budget Balancing Assistance ceased from 2009-10 under the Intergovernmental Agreement on Federal Financial Relations.

Commonwealth – Specific Purpose Grants

Specific purpose grant receipts for 2009-10 were significantly higher than 2008-09 reflecting revised Commonwealth-State funding arrangements agreed to at the November 2008 meeting of the Council of Australian Governments. Revised arrangements took effect from 1 January 2009 and provide for Specific Purpose Payments to be made to the Treasuries of each State and Territory rather than the relevant line agencies as was the case under the previous arrangements.

Commonwealth – National Partnership Payments

National partnership payments received in 2009-10 were higher than 2008-09 due mainly to increased funding for the First Home Owners Boost scheme (reflecting eligible first homebuyer transactions). In addition, 2009-10 includes the full year Commonwealth funding for State Government concessions. In 2008-09, only six months of funding for concessions is classified as a National Partnership payment, with the remainder classified as a specific purpose grant.

Other receipts

Other receipts in 2009-10 are higher compared to 2008-09 due to the higher return of equity contributions and the repayment of Treasurer's Loans.

Payments

Appropriations to agencies were \$44 million higher than forecast in the original 2009-10 Budget. The major areas contributing to this outcome are as follows:

- Administered Items for the Department of Treasury and Finance – \$71 million higher
- Department for Families and Communities - \$37 million higher
- Department of Health – \$25 million higher
- South Australia Police - \$33 million lower
- Department for Transport, Energy and Infrastructure - \$20 million lower
- Arts SA - \$15 million lower
- Department of Primary Industries and Resources - \$14 million lower

Further details of appropriations paid under the *Appropriation Act 2009* and *Public Finance Audit Act 1987* are provided in the Treasurer's Annual Statement as published in the Auditor-General's Report that was tabled on the 30th September 2010.

Payments pursuant to Specific Appropriation Authorised in Various Acts were higher than estimated in the 2009-10 Budget primarily reflecting higher than forecast First Home Owner grants.

The final Consolidated Account result, funded by borrowing from the South Australian Government Financing Authority was a deficit of \$1.252 billion which was \$713 million less than that estimated at the time of the 2009-10 Budget.

Note

Considerable caution should be exercised in interpreting the quarterly statement of Consolidated Account transactions. Unlike the State budget, which comprises transactions on an accrual basis, the information reflected in the quarterly statements is limited to cash transactions. In addition, the Consolidated Account does not capture all the transactions undertaken by the general government sector (in particular, it does not record receipts to and payments from special deposit accounts).

(a) At its November 2008 meeting, the Council of Australian Governments agreed on new Commonwealth-State funding arrangements that were introduced on 1 January 2009. These arrangements provide for the payment of specific purpose payments to the treasuries of each state and territory rather than to the relevant line agencies as was the case under the previous arrangements.

Natural Resources Management (Peake, Roby and Sherlock Prescribed Wells Area—Reduction of Water Access Entitlements) Regulations 2010

under the *Natural Resources Management Act 2004*

Contents

Preamble

- 1 Short title
 - 2 Commencement
 - 3 Interpretation
 - 4 Scheme for reduction of water access entitlements for certain existing users
-

Preamble

- 1 Wells situated in the Peake, Roby and Sherlock Prescribed Wells Area and future wells drilled in that Area were declared to be prescribed wells by the *Natural Resources Management (Peake, Roby and Sherlock Prescribed Wells Area) Regulations 2005*.

Note—

Those regulations came into operation on 27 October 2005—see *Gazette 27.10.2005 p3836*.

- 2 Pursuant to the *Natural Resources Management (Peake, Roby and Sherlock Prescribed Wells Area) Regulations 2005*, the prescribed period in relation to the Peake, Roby and Sherlock Prescribed Wells Area ended on 27 October 2008.
 - 3 The prescribed period having ended, the Minister is of the opinion that the aggregate of water access entitlements assigned to existing users under section 164N(1) and (2) of the Act exceeds the capacity of the resource.
 - 4 It is now appropriate to make regulations setting out a scheme for the reduction of water access entitlements of certain existing users in the Peake, Roby and Sherlock Prescribed Wells Area.
-

1—Short title

These regulations may be cited as the *Natural Resources Management (Peake, Roby and Sherlock Prescribed Wells Area—Reduction of Water Access Entitlements) Regulations 2010*.

2—Commencement

These regulations come into operation on the day on which they are made.

3—Interpretation

- (1) In these regulations—

Act means the *Natural Resources Management Act 2004*;

Peake, Roby and Sherlock Prescribed Wells Area has the same meaning as in the *Natural Resources Management (Peake, Roby and Sherlock Prescribed Wells Area) Regulations 2005*;

reasonable requirements—the reasonable requirements of an existing user will be taken to be an amount of water determined by the Minister to be the reasonable requirements of the existing user for the purposes of these regulations.

- (2) For the purposes of these regulations, underground water is taken from the Confined Aquifer if it is taken from a well within the Extraction Management Zone of the Peake, Roby and Sherlock Prescribed Wells Area.

Note—

The Extraction Management Zone of the Peake, Roby and Sherlock Prescribed Wells Area is set out in Deposit No 20 of 2009 in the General Registry Office.

4—Scheme for reduction of water access entitlements for certain existing users

- (1) This regulation applies to a water access entitlement assigned to an existing user under section 164N of the Act in the Peake, Roby and Sherlock Prescribed Wells Area that authorises the existing user to take underground water from the Confined Aquifer (other than a water access entitlement in respect of water taken to supply the township of Peake and its oval, or water taken to supply water to a feed lot).
- (2) For the purposes of section 164N(3)(b) of the Act, the Minister may reduce a water access entitlement to which this regulation applies such that the amount of underground water that may be taken under the water access entitlement is reduced to an amount equal to the reasonable requirements of the existing user less a percentage determined by the Minister for the purposes of this subregulation.
- (3) In determining a percentage for the purposes of subregulation (2), the Minister—
- must take into account the need to reduce the aggregate of water access entitlements assigned under section 164N of the Act in the Peake, Roby and Sherlock Prescribed Wells Area so that the capacity of the resource is not exceeded; and
 - may take into account any other factor the Minister thinks relevant to his or her determination.
- (4) Without limiting subregulation (2), the Minister may, in reducing a water access entitlement under section 164N(3)(b) of the Act—
- make an order specifying the amount of water that may be taken from a particular well or wells; or
 - make any ancillary order the Minister thinks appropriate.
- (5) A person who contravenes an order under subregulation (4) is guilty of an offence.

Maximum penalty:

- in the case of a body corporate—\$10 000;
- in the case of a natural person—\$5 000.

Expiation fee: \$315.

Note—

As required by section 10AA(2) of the *Subordinate Legislation Act 1978*, the Minister has certified that, in the Minister's opinion, it is necessary or appropriate that these regulations come into operation as set out in these regulations.
