## DEVELOPMENT ACT 1993: SECTION 48

*Decision by the Development Assessment Commission  
as Delegate of the Governor**Preamble*

1. On 21 January 1999 notice of the Governor's decision to grant a development authorisation under Section 48 of the Development Act 1993, in respect of a solid waste landfill (Northern Adelaide Waste Management Authority—Balefill (Smithfield Quarry Landfill facility)) at Medlow Road, Uleybury was published in the *South Australian Government Gazette* on page 483.

2. Simultaneously, the Governor delegated his power to grant a variation to the solid waste landfill development authorisation to the Development Assessment Commission pursuant to Section 48 (8) of the Development Act 1993.

3. A variation to the authorisation relating to the landfill lining system was notified in the *Gazette* on 21 October 2004 on page 3891.

4. By letter dated 29 July 2013, Northern Adelaide Waste Management Authority, being the beneficiary of the development authorisation, sought a variation to the authorisation so as to permit the construction of a third leachate pond.

5. For ease of reference the conditions attached to the Northern Adelaide Waste Management Authority solid waste landfill development authorisation are republished in full hereunder.

*Decision*

PURSUANT to Section 48 (7) (b) (ii) of the Development Act 1993, and having due regard to the matters set out in Section 48 (5) and all other relevant matters, the Development Assessment Commission exercising the power of the Governor delegated by notice in the *South Australian Government Gazette* dated 21 January 1999, pursuant to Section 48 (8), varies the Northern Adelaide Waste Management Authority solid waste landfill development authorisation dated 21 October 2004, as subsequently varied on the date set out in paragraph 3 of the preamble to this decision, in accordance with the following conditions.

**CONSOLIDATED VERSION OF CONDITIONS OF  
AUTHORISATION**

1. Except where minor amendments may be required by other legislation, or by conditions imposed herein, the proposed major development shall be undertaken in strict accordance with:

- (a) the drawings contained with the Development Application dated 9 February 1996 (and amended by the application and plans dated 18 November 1998) and supporting documentation in the Development Application, except as varied by the conditions listed below or to the extent that they are varied by the plans described in paragraphs 1 (b-c).
- (b) the drawings contained in the Report on Equivalency of Liner System, Base Liner System—NAWMA Uleybury Landfill, prepared by Golder Associates Pty Ltd (Report Number 04663305/006, dated 29 June 2004), the letter from Golder Associates Pty Ltd dated 17 August 2004 and the letter from NAWMA dated 30 August 2004, except as varied by the conditions listed below or to the extent that they are varied by the plans described in paragraph 1 (c).
- (c) the drawings and construction methods contained in the letter from the Northern Adelaide Waste Management Authority titled 'Application for Variation to Development Approval for NAWMA Uleybury Landfill (EPA Licence #12979)—proposal to construct third leachate pond' dated 29 July 2013 and attached report titled 'Uleybury Landfill Leachate Pond Technical Specification' dated 24 July 2013 (Report Number 137665016-001-SP-Rev1), prepared by Golder Associates Pty Ltd.

*Listed Wastes*

2. No Listed Waste as prescribed in Schedule 1, Part B of the Environment Protection Act 1993, or contaminated soil and material or asbestos containing material, will be permitted to be disposed of without further development authorisation.

*Management Committee*

3. A Management Committee to monitor the landfill site and its operations, report regularly to NAWMA and Council, and receive reports and instructions from NAWMA must be established prior to the commencement of landfill operations. The Management Committee must be maintained for the duration of the construction and operation of the facility with a review of the need for the committee in the post closure phase.

*Traffic*

4. Removal and appropriate recycling/disposal of stockpiles along the edge of Adams Road formation must be carried out during upgrading works.

5. NAWMA must pay for the work of upgrading and sealing both Smith Road (making provision for waste trucks to pull off the road in the event of a funeral procession) and Adams Road prior to the receipt of waste at the balefill site.

6. The proponent must bear the cost of Transport SA providing a 'simple left turn treatment' into Smith Road from Main North Road and modify the median nose. These works must comply with the Austroads 'Guide to Traffic Engineering—Part 5' and must be funded by the proponent. The proponent must liaise further with Transport SA on these issues.

*Infrastructure*

7. Any water tanks installed on the site must be screened from the surrounding area.

*Groundwater*

8. A detailed design of the proposed groundwater protection system (including modelling and monitoring) and the surface water management system must be prepared prior to the issuing of a licence by the Environment Protection Authority.

9. Monitoring bores must be established in a closely spaced network and at varying depths as required at each location to provide satisfactory assurance that groundwater quality beneath adjoining properties will be protected. The location of such bores will be determined in the Landfill Environmental Management Plan and licensing process.

10. The Landfill Environmental Management Plan must provide processes for detecting, monitoring and remedying any impact of the development on groundwater, and such processes must be in place before any waste is received.

*Surface Water*

11. The construction of a stormwater sediment control dam proposed on the southern creek must be located 'off-stream' to minimise the potential for mixing of clean stormwater run-off with dirty run-off from the balefilling.

*Groundwater Interception and Leachate Management*

12. A leachate monitoring bore must be installed within each stage to assist with leachate management, particularly if leachate recirculation is incorporated into the management strategy.

13. Certification from a geotechnical consultant that the proposed side slopes of the balefill will be suitable for the installation of the side liner system from a stability aspect must be obtained prior to commencement of site preparation.

14. The quarry walls in the northern and southern portions of the quarry must be left intact due to the close proximity of the drainage lines and re-profiling of these areas must be conducted by utilising clean fill.

15. External sources for construction materials must be identified and available at least six months in advance of need. The suitability of clay for lining and capping must be certified by a geotechnical consultant.

*Odour*

16. The Landfill Environmental Management Plan must provide for monitoring and reporting of landfill gas, odour and dust incursions at the site.

*Operational Lifespan*

17. The landfill operation must cease at the expiration of 20 years from the date of 21 January 1999, or when the quarry has been filled to match the natural contours of the land, which ever first occurs (given the proximity of the site to areas identified for future residential development).

*Heritage*

18. The party with the benefit of this approval must ensure that operators and construction personnel are made aware of the requirements under the Aboriginal Heritage Act 1988, that any burial site skeletal material or significant artefact discovery is reported to the Department of the Premier and Cabinet Environment (Division of Aboriginal Affairs and Reconciliation).

*Post Closure Aspects*

19. The natural level of the original hill on the eastern face of the quarry must be used as the reference to determine the final height of the balefill and achieve the original contours.

20. The slope of the final capping layer must use design options such as centre furrowing or the formation of contour banks (designed to collect moisture for improved plant growth) to control run-off.

*Building Rules*

21. Work constituting building work under the Development Act 1993, must be certified by the City of Playford or a private certifier, as complying with the Building Rules. Copies of the relevant certification documentation shall be provided to the Minister for Planning, as outlined in Regulation 64 of the Development Act 1993. No building works shall commence until a favourable decision has been notified in writing to the applicant by the Governor or the Development Assessment Commission as delegate of the Governor.

*Base Liner*

21. The base liner shall be constructed with the following specifications:

- (a) the HDPE membrane shall have a minimum average thickness of 1.8 mm with tolerance of no more than +/- 10% with 95% confidence;
- (b) the clay liner shall be compacted to a minimum of 300 mm thickness with a permeability of  $1 \times 10^{-8}$  m/s or less;
- (c) the clay shall be laid in two layers of 150 mm compacted thickness;
- (d) the sub-grade shaping layer shall have a minimum thickness of 100 mm; and
- (e) the liner shall be constructed under level 1 supervision.

**NOTES TO APPLICANT**

1. The Environment Protection Authority may require the proponent to amend the Landfill Environmental Management Plan (LEMP) to satisfy the Authority's licensing requirements, including review of the following:

- (a) A Vegetation Management and Revegetation Plan, prepared in consultation with the City of Playford and the local community. It is to have regard to the measures suggested in the Assessment Report for the Environmental Impact Statement (as amended) for the Northern Adelaide Waste Management Authority Balefill project (particularly in Sections 3.2 and 4.1).
- (b) A comprehensive Pest Plant and Animal Management Plan to be implemented prior to the landfill operations commencing, to ensure the site is free of as many pest species as possible from the beginning of operations. Adequate monitoring and follow-up control shall occur.
- (c) A detailed Groundwater and Leachate Management Plan prepared by the proponent, to the satisfaction of the Environment Protection Authority, prior to receipt of any waste.
- (d) A Soil Erosion and Drainage Management Plan (SEDMP), to minimise and control any on-site soil erosion (particularly of stockpiled material) as described in the Environment Protection Agency's 'Stormwater Pollution Prevention Codes of Practice'.

- (e) A Surface Water Management Plan. The plan should address the collection and management of all on-site surface water, including any contaminated run-off originating from roadways, car parks and hardstands, the vehicle workshop or wheel washing facility, and management of all surface water flows entering the site from land external to the site.
- (f) The indicative location of topsoil and cover material stockpiles, in particular the location of storage areas during stages 3 and 4 and the details of erosion measures.
- (g) Provisions for a regular review of waste treatment and disposal methods to facilitate implementation of continuous improvement programs. It should also include provisions for the implementation of corrective actions in the event of any failure of the leachate and liner.
- (h) Additional data concerning the site geology as it becomes available which could necessitate minor changes to landfill design or method of operation and the installation of additional groundwater monitoring bores.
- (i) Details of monitoring and reporting of meteorological parameters required at the site.
- (j) Monitoring and reporting of landfill gas, odour and dust incursions at the site.
- (k) Details of the gas flaring system to be designed to ensure that there is a high quality combustion (if not used for power generation) and that fire risks to surrounding properties is eliminated.
- (l) An upgraded landfill gas contingency plan for on-site buildings, to include provisions for evacuation and ongoing monitoring until safe concentrations are present.
- (m) Contain details on on-site vehicle parking and truck wheel wash.

2. Control over the types of waste to be received at the site will be exercised by the Environment Protection Authority. This will be done through conditions of environmental authorisation or requirements under a relevant Environment Protection Policy rather than through conditions of development authorisation.

3. Financial Assurance Strategy in accordance with the provisions of section 51 of the Environment Protection Act 1993, may be required by the Environment Protection Authority as a condition of licence.

4. For the purposes of any licensing the Environment Protection Authority shall be provided with the details on the timing and construction aspects of the third leachate pond.

5. Post closure management responsibilities should be established.

6. A more sustainable after-use for the site that would encourage the regeneration and rehabilitation of natural communities should be considered during future post closure planning.

7. The City of Playford may need to commit financial and other resources in future to alleviate noise and visual impacts from waste trucks if present and future residential areas are impacted. These costs may need to be recouped from NAWMA. While it is not possible to quantify these costs at present, provision should be made between the Council and NAWMA to ensure that appropriate revenue can be raised to address the costs.

8. Provision of an alternative water supply if groundwater users in the area find supplies affected shall be addressed as part of the contingency planning.

9. If blasting is required during construction, explosion vibration characteristics and monitoring requirements shall be determined, prior to commencement, in consultation with the Environment Protection Authority and the City of Playford.

Given under my hand at Adelaide, 20 December 2013.

T. BYRT, Presiding Member, Development  
Assessment Commission

REMUNERATION TRIBUNAL

REPORT RELATING TO DETERMINATION NO. 1 OF 2014

1. *Introduction*

The Remuneration Tribunal ('the Tribunal') is responsible in terms of Section 14 of the Remuneration Act 1990 ('the Act'), for determining the remuneration payable to the following statutory office holders:

- the Auditor General;
- the Electoral Commissioner ;
- the Deputy Electoral Commissioner;
- the Employee Ombudsman; and
- the Health and Community Services Complaints Commissioner.

2. *Annual Review*

2.1 In accordance with the provisions of the Act, on 4 October 2013, the Remuneration Tribunal wrote inviting the Auditor-General, Electoral Commissioner, Deputy Electoral Commissioner, Employee Ombudsman and the Health and Community Services Complaints Commissioner to make submissions for the purposes of the Tribunal's annual review of the remuneration payable to those offices. The Tribunal also invited the Premier as Minister responsible for the Act to make submissions in the public interest.

2.2 The Tribunal published a notice in The Advertiser on 5 October 2013, advising that the Tribunal was to conduct a review of the determination incorporating the salaries payable to Statutory Officer Holders. The notice invited interested persons, organisations and associations to submit in writing any views they considered should be taken into account in the review. Public submissions were required to be lodged by the close of business on 25 October 2013.

3. *Submissions Received*

3.1 The Tribunal received written submissions from the Auditor-General and the Premier, and a letter from the Health and Community Services Complaints Commissioner.

3.2 A hearing was convened on 14 November 2013, to consider submissions.

3.3 **Auditor-General**

The Auditor-General conveyed his view of 'the need for continuation of the exercise of salary constraint due to the tight budgetary conditions being experienced by the South Australian public sector and its workforce'. The Auditor-General concluded that that 'there should be no alteration to my remuneration'.

3.4 **Health and Community Services Complaints Commissioner**

The Health and Community Services Complaints Commissioner wrote to inform the Tribunal that he did not intend to make a submission but would be pleased to attend a hearing should any member of the Tribunal have questions to put to him.

### 3.5 Premier

The Premier noted the Tribunal's past approach to setting the remuneration for the relevant statutory office holders.

### 3.6 The Premier submitted that the Tribunal should have regard to the following economic factors in its review of remuneration:

- The economic indices published by the Australian Bureau of Statistics for the South Australian Labour Price Index (which indicated that wages and salary costs for employees had increased by 3.3% in the year to 30 June 2013) and the Consumer Price Index for Adelaide (which showed an increase of 2.0% for the year to 30 September 2013);
- The Underlying Inflation rate for September 2013, which showed the measure of 'underlying' inflation in Australia at an annual growth of 2.3% (weighted mean);
- The national and global economic climate of uncertainty and its impact on South Australia's finances;
- Enterprise bargaining salary increases provided in the current public sector enterprise agreements in 2012 and 2013 averaging 3% per annum.

### 3.7 The Premier submitted that it is in the public interest that the increases in salaries for the relevant statutory office holders have regard to, and not significantly differ from increases applicable to other public sector positions.

### 3.8 The Tribunal notes that on 16 December 2013, the Government granted a 2.5% adjustment to members of the South Australian Executive Service with effect from 1 July 2013.

## 4. Conclusion

### 4.1 Having noted recent salary adjustments in the public sector, recent trends in the level of remuneration adjustments both nationally and within the state, comments and submissions from the statutory office holders and the Premier, the Tribunal has determined that a salary increase of 2.5% is appropriate.

### 4.2 The Tribunal has therefore determined that the salary for the:

- Auditor-General be \$303 972 per annum;
- Electoral Commissioner be \$190 457 per annum;
- Deputy Electoral Commissioner be \$138 514 per annum;
- Employee Ombudsman be \$143 381 per annum; and
- Health and Community Services Complaints Commissioner be \$224 009 per annum.

## 5. Operative Date

Salaries determined in Clause 4 will operate with effect from 1 July 2013.

Dated 2 January 2014.

**IGNORING THIS NOTICE**

If you do not owe this debt, you can ignore this notice. You may wish to seek independent legal or financial counselling advice before deciding what to do.

If you ignore this notice the sender may file a claim against you in the Magistrates Court and if you lose the case you will have to pay the debt and in addition you may have to pay extra costs. A court judgment against you may have a bad effect on your credit rating.

**OPTIONS FOR PAYMENT/SETTLEMENT OF THE CLAIM**

- If you owe the full amount claimed, pay it to the Sender within 21 days. **Do not send money to Court.**
- If you cannot afford to pay the amount in full, try to arrange instalment payments with the Sender. You can use an Enforceable Payment Agreement (EPA) where in return for you acknowledging the debt and making payments, the Sender (creditor) agrees not to commence a formal claim, nor to report the debt to credit referencing agencies. You can obtain these from court offices. Keep a record of payments made.
- Negotiate with the Sender for more time to pay in full. If the Sender will not discuss time to pay the debt you can save costs by serving a Form 1C Notice of Willingness to Consent to Judgment on the Sender. Keep a copy.
- The Sender is not entitled to debt collecting costs unless you agreed to pay them in your credit or other agreement for goods or services supplied.
- If you agree there is a debt owed but disagree with the amount claimed, try to negotiate with the Sender. If the Sender agrees, you can use the free mediation service (see below).
- If you owe some of the money you could pay that to reduce the amount in dispute.

**MEDIATION SERVICE**

- Court mediation is a free alternative way of resolving a dispute other than by court processes leading to a court trial. Court mediation can only take place if you have this final notice and both parties agree. You can use other mediation services (charges may apply).
- A number of independent **court experts** are available to provide an opinion on technical issues. Legal advice is not available from the court but an appointment can be made at the legal advice clinic for small claims at the Adelaide Magistrates Court.
- For further information about mediation or court experts contact the Mediation Unit on 8204 8453 / 8204 0668 or email: [mediation@courts.sa.gov.au](mailto:mediation@courts.sa.gov.au).
