ATTACHMENT A

*Restricted Urban Policy Area 20*

Refer to the Map Reference Tables for a list of the maps that relate to this policy area.

**OBJECTIVE**

- Objective 1: The continuation of existing land uses until the potential for impacts from nearby waste processing activities is removed.
- Objective 2: Development that does not compromise the future use of the policy area for urban activities.
- Objective 3: Development that contributes to the desired character of the policy area.

*Desired Character*

This policy area is located in proximity to a significant organic waste processing activity. Development likely to be sensitive to the odour generated by this should not occur within the policy area and the ‘Odour Impact Area’ identified on Concept Plan Map Play/32—Buckland Park Odour Impact Area to ensure that adequate separation between such land uses and the waste processing activity is maintained.

Existing land uses are expected to continue until the potential for odour impacts from the waste processing activity no longer exist, after which it is expected that the policy area will be developed for urban land uses with a focus on residential land uses.

**PRINCIPLES OF DEVELOPMENT CONTROL***Land Use*

- 1 Development should provide for the maintenance of existing land uses until these can be progressively replaced by urban land uses.
- 2 Sensitive land uses should only occur when it can be demonstrated that the potential impacts from waste processing activities no longer exist.

*Form and Character*

- 3 Development should not be undertaken unless it is consistent with the desired character for the policy area.

*Rural Interface Policy Area 22*

Refer to the Map Reference Tables for a list of the maps that relate to this policy area.

**OBJECTIVE**

- Objective 1: A low density residential area primarily containing detached dwellings on large allotments.
- Objective 2: Preservation of rural character and scenic features as a transition between the suburban and rural areas.
- Objective 3: Development that minimises the potential impact of rural activities undertaken at the interface with urban areas.
- Objective 4: Prevention of development likely to be incompatible with long-term urban development, or likely to be detrimental to the orderly and efficient servicing and conversion of the land for urban use.
- Objective 5: Development that contributes to the desired character of the policy area.

*Desired Character*

This policy area will serve a primarily low density residential function with detached dwellings located on allotments in the order of 1 200 square metres or larger. The form of buildings, setbacks and landscaping will be complementary to the character of the adjoining rural area to the north of Dalkeith Road.

The Policy Area contains an existing high voltage transmission line as shown on Overlay Map Play/5—Development Constraints. In future this transmission line may be duplicated resulting in a 100 metre wide corridor that can be utilised as a recreational open space for community use with pedestrian and cycling links from Angle Vale Road to Coventry Road.

## PRINCIPLES OF DEVELOPMENT CONTROL

*Land Use*

- 1 The following forms of development are envisaged in the policy area:
  - detached dwellings on large allotments;
  - domestic outbuilding in association with a detached dwelling; and
  - dwelling addition.
- 2 Rural industries and activities such as intensive animal keeping, feedlots, commercial bulk handling and storage, prescribed mining operations, stock sale yards and produce processing industries should not be developed.
- 3 There should be no more than one dwelling per allotment.
- 4 The keeping of animals should be ancillary to and in association with the residential use of the land.

*Form and Character*

- 5 Development should be consistent with the desired character for the policy area.
- 6 Dwellings should take the form and appearance of one or two storey detached dwellings located on large allotments with generous setbacks from allotment boundaries so as to allow for the provision of landscaping and maintenance of rural vistas.
- 7 Farm buildings, dwellings and residential outbuildings, should be grouped together.
- 8 Existing vegetation should be retained and development should include landscaping to enhance the scenic contrast between urban development and rural areas.
- 9 Land within 100 metres of the south western boundary of the Policy Area shown on Policy Area Maps Play/5, 13 and 14 should be retained for the existing and duplication of high voltage transmission infrastructure.

*Land Division*

- 10 Allotments should be a minimum of 1 200 square metres with a frontage to a public road of at least 20 metres except for allotments fronting Dalkeith Road where the minimum frontage should be 30 metres.
