DEVELOPMENT ACT 1993, SECTION 27 (5): TATIARA (DC)—GENERAL REVIEW AMENDMENT

Preamble

Pursuant to Section 27 (3) (b) of the Development Act 1993, the Environment, Resources and Development Committee of Parliament has suggested amendment to the Tatiara (DC) Development Plan, as recently amended by the Tatiara (DC) General Review—Plan Amendment and the Waste Disposal (Landfill) Ministerial Plan Amendment.

Following this, pursuant to Section 27 (5) (a), it is necessary to amend the Tatiara Development Plan dated 16 September 1999.

NOTICE

PURSUANT to Section 27 (5) of the Development Act 1993, I, the Governor, with the advice and consent of the Executive Council, declare the amendment, as attached, to be an authorised amendment to the District Council of Tatiara Development Plan dated 16 September 1999, and fix 14 October 1999, as the day on which it will come into operation.

Dated 14 October 1999.

E. J. NEAL, Governor

MFTUP CAB 59/98

THE AMENDMENT

SOUTH AUSTRALIAN DEVELOPMENT ACT 1993

DISTRICT COUNCIL OF TATIARA

Amendment to the Tatiara (DC) Development Plan

THE Development Plan dated 16 September 1999 is amended as follows:

Delete the whole of the contents of the General Farming Zone pages 67 to 74 and insert the contents of Attachment A.

ATTACHMENT A

GENERAL FARMING ZONE**Introduction**

The objectives and principles of development control that follow apply to that part of the Tatiara District Council referred to as the General Farming Zone shown on Maps Ta/3 to 11. They are additional to those expressed for the whole of the council area. To the extent of any inconsistency between the zone provisions and those provisions applying to the council area, the zone provisions will prevail.

OBJECTIVES

- Objective 1:** A zone for broad acre farming, dairy farming, land-based aquaculture and horticulture, with intensive animal keeping in suitable areas.
- Objective 2:** Conservation of native vegetation and wetlands.
- Objective 3:** Protection of rural support infrastructure for the bulk handling and transportation of farm commodities situated at Wirrega and Cannawigara.

PRINCIPLES OF DEVELOPMENT CONTROL

- 1 This zone should be developed primarily for broad acre cropping, grazing and dairy farming, with land-based aquaculture and horticulture occurring where there is suitable drainage, aspect, soils and availability of groundwater.
- 2 Development should not contribute to the pollution of surface or underground water supplies.
- 3 Intensive animal keeping consisting of land-based aquaculture should:
 - (a) not be developed without an assessment of water usage, waste disposal and long-term water needs;
 - (b) not contribute to the pollution or salinization of wetlands, watercourses or groundwater;
 - (c) limit the amount of groundwater usage to sustainable levels;
 - (d) under no circumstances allow waste waters to drain onto adjoining properties whereby those properties become waterlogged or in any other way reduces their productive capacity;
 - (e) minimize adverse impacts on native flora and fauna;
 - (f) incorporate landscaping which serves to enhance the appearance of the development, and where necessary assists in the take-up of excess surface water; and
 - (g) minimize visual impact by the use of low profile structures that are limited in size and number and set well back from roads.
- 4 Development of intensive animal keeping (including piggeries, poultry batteries and cattle feedlots, but excluding land-based aquaculture and stables) should not be undertaken where:
 - (a) the development would be inconsistent with adopted guidelines for the establishment and management of intensive animal keeping;
 - (b) the scale of operation or the design, siting and landscaping of the development would adversely affect the amenity of the locality;

- (c) it would be located within a 2.0 kilometre radius of Bordertown, Keith, Mundulla, Wolseley, Padthaway or Willalooka townships;
 - (d) it would be located within 1.0 kilometre of any Rural Living Zone or Water Protection Zone;
 - (e) it would be located within 100 metres of a dwelling occupied by persons involved with the intensive animal keeping activity;
 - (f) it would be located within 500 metres of any dwelling occupied by persons not involved with the intensive animal keeping activity;
 - (g) there is a risk of pollution to surface or sub-surface water supplies, or on land that is flood-prone; or
 - (h) water supplies are inadequate to sustain the development.
5. Wetlands and extensive stands of native vegetation on private property should be conserved.
6. Buildings should be set-back a minimum of 50 metres from every public road, except along the Dukes Highway and the Riddoch Highway where the set-back should be 100 metres.
7. Tourist accommodation facilities should be in the nature of host farms, farm-stay accommodation, bed and breakfast accommodation and cottage style accommodation, and where in all circumstances:
 - (a) the facilities are designed and sited to complement their rural surroundings; and
 - (b) the facilities are small in scale.
8. Dwellings should be:
 - (a) equipped with an adequate and reliable on-site water storage system which has a storage capacity equivalent to at least 15 000 litres per bedroom;
 - (b) connected to a suitably designed and constructed effluent disposal system; and
 - (c) sited so as to have safe and convenient access to an all weather public road.
9. Not more than one dwelling should be erected on any allotment smaller than 40 hectares unless:
 - (a) the allotment forms part of an operating farm;
 - (b) the additional dwelling is needed for the accommodation of a person such as a manager, worker or relative who works on the farm;
 - (c) the proposed dwelling is located within reasonable proximity to the existing dwelling and can be connected to the same services as the existing dwelling; and
 - (d) it does not lead to the subsequent division of the allotment.
10. Dwellings should not be built within a radius of 500 metres of any existing abattoirs, skin drying works or rendering plant.

- 11** The location and design of buildings should be such that the bushfire risk is minimized and, in particular, should be such that:
- (a) buildings are located below the ridgeline;
 - (b) there is safe and convenient access for fire fighting vehicles, with such vehicles being able to enter and leave the property in a forward direction; and
 - (c) a reliable and readily available water supply for fire fighting purposes is provided at all times.
- 12** Rural land should not be divided into allotments of less than 40 hectares unless:
- (a) no additional allotments are created and the continued use of those allotments for primary production purposes is maintained; or
 - (b) an owner of land wishes to create a separate allotment of approximately 1.0 hectare in size (not including the driveway), to contain one of two habitable dwellings on the land, each of which was built or under construction before 14 June, 1984; or
 - (c) where the division is for the purpose of creating one only additional allotment of approximately 1.0 hectare in size (not including the driveway), to be used to accommodate buildings and facilities involved with the processing, display and sale of locally grown produce; or
 - (d) the division is for the purpose of facilitating the more intensive use of the land for horticultural purposes, provided the proposed horticultural allotments are not less than 10.0 hectares in size and where evidence has been submitted with the plan of division to demonstrate that:
 - (i) water, of sufficient quantity and quality, is available to sustain the proposed horticultural use;
 - (ii) soil structure and classification is appropriate for the proposed horticultural use;
 - (iii) the land is capable of supporting the horticultural use with reasonable investment and management inputs;
 - (iv) the horticultural use will be compatible with adjacent uses of land;
 - (v) adverse impacts on downstream property owners in terms of water flow and discharge of pollutants can be avoided; and
 - (vi) there will not be a deleterious risk of the water table either falling or rising because of excessive irrigation.
- 13** Dwellings should not be established on allotments created in accordance with Zone Principle 12(d) unless:
- (a) the allotment is used for horticultural production and is at least 20 hectares in area;
 - (b) the divided allotment has been continually used for horticultural purposes for a period of not less than 12 months;
 - (c) the dwelling and any associated development, including driveways, is located so as not to prejudice the use of the allotment for horticultural production; and

- (d) the planning authority is satisfied that the development will not give rise to demands for additional urban services.

14 Land should not be used for horticultural purposes unless:

- (a) there is no risk of pollution and no further increase in salinity levels to either surface or groundwater supplies;
- (b) the land is capable of sustaining the horticultural activity with reasonable investment and management inputs;
- (c) surface and/or sub-surface water resources, of sufficient quality, are available to sustain the proposed horticultural use;
- (d) water resources are used at sustainable levels to prevent adverse impacts on dependent ecosystems;
- (e) irrigation areas are not prone to waterlogging or subject to flood water inundation;
- (f) the horticultural use will be compatible with adjacent uses of land;
- (g) adverse impacts on downstream property owners in terms of water flow and discharge of pollution will be avoided;
- (h) spillways are designed and constructed in a manner to prevent erosion;
- (i) there will not be a deleterious risk of the water table either falling or rising because of excessive irrigation; and
- (j) it can be demonstrated that adjacent uses of land will not be adversely affected by chemical spray drift.

15 Land should not be used for olive orchards unless:

- (a) it does not result in an over-exploitation of surface or underground water resources;
- (b) it does not have an adverse impact on the quality and quantity of water resources, both on the surface and underground;
- (c) it does not have an adverse impact on downstream property owners in terms of water flow and quantity;
- (d) a management plan exists outlining methods to minimise the dispersal of olive seeds, including the removal of fruit, fox, emu and bird control, and abandoned orchards, to prevent the spread of feral olives;
- (e) it does not occur within 500m of a National Park or from the edge of stands of remnant native vegetation greater than 5ha in area;
- (f) adverse impact on native vegetation is avoided; and
- (g) there is sufficient distance from a water course, lake or well to ensure that the orchard does not adversely impact on water flows or quality.

16 Commercial forestry plantations should not be developed unless:

- (a) a firebreak not less than 20 metres wide is provided between the forestry plantation and land in the ownership of another person;

- (b) the firebreak referred to in (a) above comprises either a 20 metre wide fuel modified area (including a fire track), or a 10.0 metre wide fuel modified area (including a fire track) and a 10.0 metre wide fuel reduced area within the plantation;
 - (c) where the firebreak adjoins a public roadway, the fuel modified area referred to in (b) above may be reduced to 10.0 and 5.0 metres respectively;
 - (d) firetracks are established to a width sufficient for two fire fighting vehicles to pass one another;
 - (e) the plantations are separated into units not exceeding 400 hectares by firebreaks specified in clauses (a) and (b) above;
 - (f) firetracks are provided around individual plantation units of not less than 25 hectares;
 - (g) firetracks are aligned to provide "straight-through" access at junctions;
 - (h) dead-end fire tracks are signposted and provide a turn-around area for fire fighting vehicles; and
 - (i) they are set-back at least 100 metres from any habitable dwelling, and between 12 metres and 38 metres from the centreline of any overhead electricity transmission line (the set-back distance being determined according to the voltage of the line).
- 17** Development affecting any State or local heritage place and new building development which is adjacent to or in close proximity to any State or local heritage place should:
- (a) without mimicking that place, respect the underlying character integral to the locality;
 - (b) be sympathetic to the place in terms of siting, scale of building and roof shape, bulk, height, verandah shape, fenestration, facade detailing, fencing and boundary walls; and
 - (c) be constructed of materials which are in visible harmony with materials used in the heritage place. The extensive use of highly reflective materials, glass curtain walls or very bright external colours should be avoided.
- 18** Advertisements (other than those advertisements listed as non-complying in the zone) should conform with the standards and guidelines set out in Table Ta/2, and should in all circumstances be small in scale and incorporate clear and simple typefaces.
- 19** Industrial, commercial and retail development should only occur where it involves the repair and maintenance of farm equipment, or the processing, packing, fermentation, storage and/or sale of primary produce and where:
- (a) no detriment or nuisance to owners or occupiers of land in the locality of the development would be likely to arise;
 - (b) the development would not cause traffic problems or cause undue deterioration of road surfaces;
 - (c) there is no disfigurement of the land's appearance or detriment to the use and character of rural land in the surrounding locality;
 - (d) the industrial, commercial or retail development in question has an association with its rural surroundings;

- (e) the development cannot be accommodated within appropriately zoned townships and settlements; and
 - (f) the development will not undermine the function of the district's industrial, commercial or town centre zones.
- 20** Development should not occur within 300 metres of land used for the transportation, handling and storage of farm commodities, in bulk.
- 21** Development within 300 metres of facilities for the transportation, handling and storage of farm commodities in bulk, should not prejudice the continued operation of those facilities.
- 22** Development within 300 metres of facilities for the transportation, handling and storage of farm commodities in bulk should be designed, sited and developed having regard to the potential environmental impacts arising from operation of the bulk transportation, handling and storage facilities.
- 23** Development in the zone should be sensitive to the need for bulk handling, storage and transport facilities to be subjected to extended operation during the grain harvest.
- 24** Development of facilities for the handling, transportation and storage of agricultural commodities, in bulk, should have:
- (a) adequate area set aside on the site of the development for the marshalling of vehicles attending the site;
 - (b) roadways and parking areas surfaced in a manner sufficient to have dust emission from the site reduced to a level appropriate to the locality;
 - (c) landscaping established around the perimeter and within the site for the purpose of providing shade and shelter and to assist with screening and dust filtration;
 - (d) vehicle circulation between elements on the site, restricted to the site of the development; and
 - (e) materials and finishes appropriate to the locality of the development.
- 25** Development should not take place if there is potential for significant conflict with the establishment or operation of facilities for the handling, storage or transportation of farm commodities in bulk, and where those facilities provide social and economic benefits to the wider community.

Complying Development

- 26** Those kinds of development listed in Table Ta/3, together with the following kinds of development, are **complying** in the General Farming Zone:

Farming

Farm buildings that:

- (a) are sited more than 100 metres from any public road or allotment boundary;
- (b) have a total floor area of 500 square metres or less;
- (c) have exterior cladding consisting of new materials; and
- (d) are used wholly or partly for the purpose of farming or horticulture

Horse Keeping, where it is more than 50 metres from a neighbouring dwelling

Horticulture (which consists of market gardening, viticulture, floriculture, wholesale plant nurseries, commercial turf growing and orchards but excluding olive orchards) where:

- (a) drainage volumes are limited to a maximum of 15 percent of total applied water;
- (b) diversion or storage dams used for irrigation are located off-stream with the storage capacity of the dams not exceeding 50 percent of the medium annual run-off from a property;
- (c) irrigation areas have a minimum set-back distance of 30 metres from a watercourse, lake or well;
- (d) a minimum 300 metres separation distance is maintained between irrigation and stock and domestic bores;
- (e) the depth to the water table is greater than 2.0 metres from the ground surface; and
- (f) a minimum separation distance of 50 metres is maintained between bores and any part of an effluent disposal field

Detached Dwellings that are:

- (a) sited 100 metres or more from any public road or allotment boundary;
- (b) equipped with an adequate and reliable on-site water supply system which has a storage capacity equivalent to 15 000 litres per bedroom;
- (c) connected to a suitably designed and sited effluent disposal system; and
- (d) in the case of new or second hand transportable dwellings, enclosed between the base of the external walls and the ground with a material which matches the external wall cladding of the dwelling;
- (e) on an allotment not less than 40 hectares in size, and where no other dwelling exists on that allotment;
- (f) on an allotment which has frontage to a public road which has been formed to a standard sufficient to provide safe and convenient vehicular access to the allotment; and
- (g) at least 500 metres from any intensive animal keeping operation, abattoirs or rendering plant

Non-complying Development

27 The following kinds of development are **non-complying** in the General Farming Zone:

Advertisements located within 500 metres of the centre-line of any Primary Arterial Road or Secondary Arterial Road as designated on Map Ta/1, other than where:

- (a) the advertisement has an advertisement area of 2.0 square metres or less, with the exception of an advertisement associated with a vineyard or winery, where the advertisement area shall not exceed 6.0 square metres; and
- (b) the message depicted on the advertisement relates entirely to a lawful use being conducted from the same site as the advertisement; and

- (c) the advertisement is erected on the same site as the use or activity to which it relates; and
- (d) not more than one advertisement is erected per allotment

Amusement Hall
Amusement Machine Centre
Builder's Yard
Caravan Park

Dwelling on an allotment which was created after 18 February 1999, other than where the dwelling is to be erected:

- (a) on an allotment which is 20.0 hectares or more in area; or

FISHERIES ACT 1982: SECTION 59

TAKE notice that pursuant to section 59 of the Fisheries Act 1982, Rolf Czabayski, 5 Willowbridge Grove, Burnside, S.A. 5066 (hereinafter referred to as the 'permit holder') is exempt from Regulation 35C of the Fisheries (General) Regulations 1984, in that the permit holder shall not be guilty of an offence when using berley within the waters specified in Schedule 1 to attract white sharks (*Carcharodon carcharias*) for the purpose of cage viewing only (hereinafter referred to as the 'permitted activity'), subject to the conditions specified in Schedule 2, for the dates specified in Schedule 3.

SCHEDULE 1

Coastal waters contained within the Neptune Islands Conservation Park, and the following portions of the Sir Joseph Banks Islands Conservation Park; English and Sibsey Islands.

Note: Dangerous Reef is not available under this permit due to sea lion breeding between 1 May 1999 and 1 January 2000.

SCHEDULE 2

1. The permit holder must be on board the boat when conducting the permitted activity.

2. All berley used while conducting the permitted activity must consist of fish based products only. All berley (other than fish oil) must be stored below a maximum temperature of 4°C.

3. The permit holder must notify the public by a Notice to Mariners through the Australian Maritime Safety Authority, by public notice in the Adelaide *Advertiser* at least 24 hours in

advance of berleying operations, advising the local coastguard and the Fisheries Compliance Unit on 1800 065 522 at least two hours prior to conducting the permitted activities.

4. The permit holder shall allow an officer of the Department for Environment, Heritage and Aboriginal Affairs (DEHAA) or nominee to be present on board the boat during the permitted activities if requested and subject to negotiation and availability of space.

5. The permit holder must comply with all instructions (including ceasing to berley if so instructed) given by an officer from DEHAA.

6. Whilst engaged in the permitted activity, a pennant (approved by DEHAA) must be flown from the boat so as to be clearly visible.

7. Whilst engaged in the permitted activity the permit holder must have in his/her possession a copy of this notice and produce a copy of the notice if required by a Fisheries Compliance Officer.

8. The permit holder shall not contravene or fail to comply with the Fisheries Act 1982, or any regulations made under the Act, except where specifically exempted by this notice.

9. The permit holder must maintain a log whilst engaged in the permitted activity which includes the date and location, number of passengers, number of hours berleying, number of sharks observed and any other relevant observations or comments. Records must be kept in a form determined by the operators association in conjunction with CSIRO Marine Research Unit and endorsed by the Minister for Environment and Heritage. A copy of the log must be provided to the relevant DEHAA office within 14 days of each calendar month. Failure to submit a log within the agreed time period may preclude the provision of future permits until such outstanding logs are received by the relevant DEHAA office.

10. The permit holder must conform to a code of ethics developed by the operators association and endorsed by the Minister for Environment and Heritage.

11. The permit holder will operate in co-operation with and in agreement of any other approved operator at the same location.

12. The permit holder must have public liability insurance to an amount determined by the Minister for Environment and Heritage and ensure vessels are surveyed and staffed as per Department of Transport regulations.

SCHEDULE 3

28 October 1999 to 30 October 1999.

Dated 12 October 1999.

WATER RESOURCES ACT 1997

Notice of Restriction on the Taking of Water from Wells in the area east of the Willunga Fault in the McLaren Vale Prescribed Wells Area, Pursuant to Section 16 (1) of the Water Resources Act 1997

PURSUANT to section 16 (1) of the Water Resources Act 1997, I, Dorothy Kotz, Minister for Environment and Heritage in the State of South Australia, being of the opinion that the rate at which water is being taken from wells in the area east of the Willunga Fault in the McLaren Vale Prescribed Wells Area as defined in GRO Plan No. 497 of 1998 (the 'defined area'):

- (a) is such that the quantity of water available can no longer be met and that there is a risk that the available water will not be sufficient to meet future demand; and
- (b) is affecting or is likely to affect, the quality of water in the underground aquifer,

hereby restrict the taking of water from a well in the 'defined area' except:

- (a) by a person who is already authorised to take water from wells by a water licence or an authorisation under section 11 of the Water Resources Act 1997; or
- (b) where the water is taken for domestic purposes or for watering stock (other than stock subject to intensive farming within the meaning of the Water Resources Act 1997).

In this notice:

'well' means:

- (a) an opening in the ground excavated for the purpose of obtaining underground water;
- (b) an opening in the ground excavated for some other purpose but that gives access to underground water;
- (c) a natural opening in the ground that gives access to underground water.

This notice comes into effect at the expiration of seven days from the publication of this notice in the *Gazette* and in *The Advertiser*, whichever is the latter. This notice will remain in effect for 12 months unless earlier varied or revoked.

Dated 5 October 1999.

DOROTHY KOTZ, Minister for Environment and Heritage.

REGULATIONS UNDER THE HARBORS AND NAVIGATION ACT 1993

No. 206 of 1999

At the Executive Council Office at Adelaide 14 October 1999

PURSUANT to the *Harbors and Navigation Act 1993* and with the advice and consent of the Executive Council, I make the following regulations.

E. J. NEAL Governor

PURSUANT to section 10AA(2) of the *Subordinate Legislation Act 1978*, I certify that, in my opinion, it is necessary or appropriate that the following regulations come into operation as set out below.

DIANA LAIDLAW Minister for Transport and Urban Planning

SUMMARY OF PROVISIONS

1. Citation
2. Commencement
3. Variation of reg. 14—Restricted areas: s. 27
4. Variation of Schedule 4
5. Variation of Schedule 5

Citation

1. The *Harbors and Navigation Regulations 1994* (see *Gazette* 20 October 1994 p. 987), as varied, are referred to in these regulations as "the principal regulations".

Commencement

2. These regulations will come into operation on 25 October 1999.

Variation of reg. 14—Restricted areas: s. 27

3. Regulation 14 of the principal regulations is varied by inserting after subregulation (4) the following subregulation:

(5) A control applying in a restricted area according to schedule 4 does not apply in relation to an authorised person in the exercise of powers under the Act or these regulations.

Variation of Schedule 4

4. Schedule 4 of the principal regulations is varied—

(a) by inserting in paragraph 1 of clause 1(2) "or remain in" after "enter";

(b) by inserting alphabetically in the table in clause 2 the following:

Goolwa Area 8

Controls 1, 4 and 6

A person must not wade in the specified waters.;

(c) by inserting after clause 4 the following clause:

Application of controls to certain vessels in Goolwa Area 8

5. The controls set out in the table in clause 2 in relation to Goolwa Area 8 do not apply to—

- (a) the Goolwa-Hindmarsh Island Ferry; or
- (b) a vessel entering, or remaining in, the area for the purposes of the construction of a bridge within the area; or
- (c) a vessel permitted to use the Goolwa Wharf in accordance with a lease or other agreement granted by the District Council of Alexandrina while using the wharf in accordance with the lease or agreement; or
- (d) a vessel while moving along a channel indicated on one side by a row of red buoys and on the other side by a row of green buoys (the placement of which has been approved by the CEO) provided that the vessel is not operated at a speed in excess of 4 knots or in a planing attitude.

Variation of Schedule 5

5. Schedule 5 of the principal regulations is varied—

(a) by striking out the item describing Goolwa Area 3 and substituting the following:

Area 3: the portion of the River Murray at Goolwa bounded as follows:

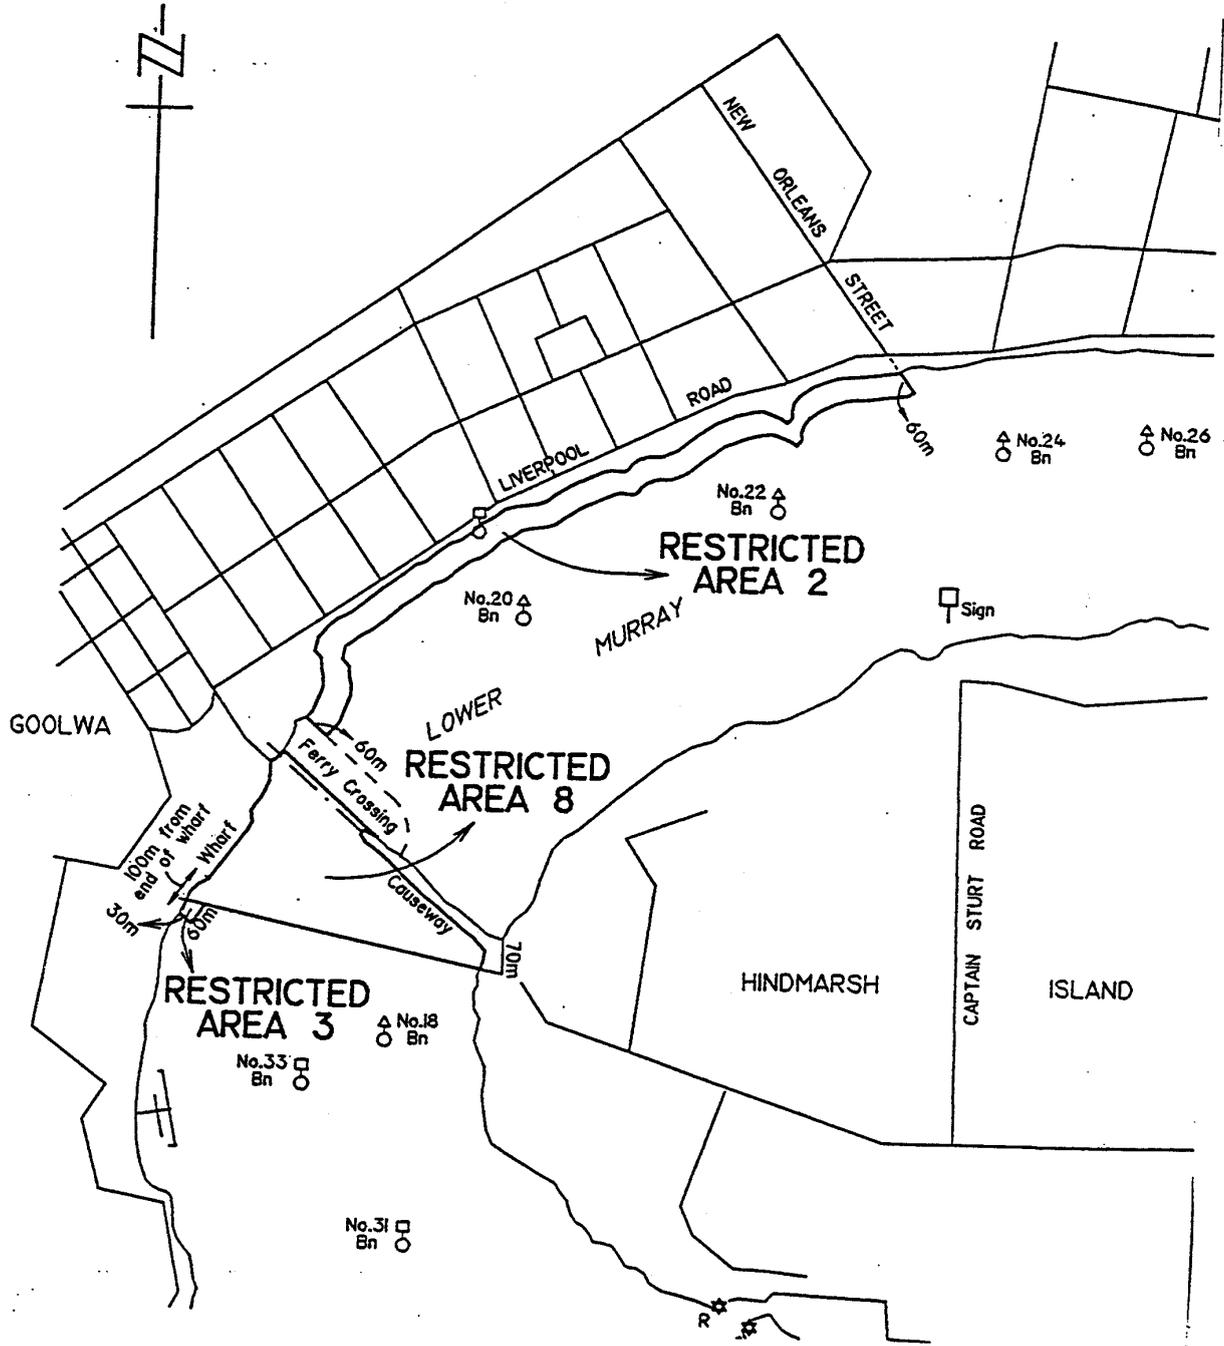

- × on the south-west by a straight line 100 metres downstream from the south-east corner of the Goolwa wharf and at right angles to the production of the face of the wharf;
- × on the north-west by the edge of the water;
- × on the north by a straight line 50 metres downstream from the south-east corner of the Goolwa wharf and at right angles to the edge of the water;
- × on the south-east by a line 30 metres from and parallel to the edge of the water.

(b) by inserting after the item describing Goolwa Area 7 the following:

Area 8: the portion of the River Murray at Goolwa bounded as follows:

- × on the south by a straight line 50 metres downstream from the south-east corner of the Goolwa wharf and at right angles to the edge of the water;
- × on the east by the edge of the water on the western side of Hindmarsh Island;
- × on the north-east by a straight line along the alignment of the ferry crossing to the northern tip of the causeway and then along the edge of the water on the southern side of the causeway;
- × on the north-west by the face of the wharf and the edge of the water.

(c) by striking out the map showing Goolwa Restricted Areas 2 and 3 and substituting the following:

NOTICE is hereby given that pursuant to section 359 of the Local Government Act 1934, as amended, the District Council of Renmark Paringa has resolved that the carparks adjacent to the BankSA premises at the junction of Ral Ral Avenue and Murray Avenue, Renmark, shall be closed between the hours of 6 a.m. and 2 p.m. Saturday, 30 October 1999, to all vehicles except emergency vehicles, and vehicles participating in the Tri-State Rodders Show and Shine event.

B. WAPLES, Acting District Manager

DISTRICT COUNCIL OF YANKALILLA

ROADS (OPENING AND CLOSING) ACT 1991

Gold Coast/Lyddon Roads, Carrickalinga

NOTICE is hereby given pursuant to section 10 of the Roads (Opening and Closing) Act 1991, that the District Council of Yankalilla proposes to make a Road Process Order to close and transfer those portions of public road marked 'A', 'B', 'B1', 'C', 'C1', 'D', 'D1' and 'E' on the Preliminary Plan No. PP32/0496.

Transfer 'A' to M. and S. Ascensio, 7 James Street, Campbelltown, S.A. 5074 and to merge that portion with certificate of title volume 4263, folio 302.

Transfer 'B' and 'B1' to M. and S. Ascensio, 7 James Street, Campbelltown, S.A. 5074 and to merge that portion with certificate of title volume 4263, folio 303.

Transfer 'C' and 'C1' to M. and S. Ascensio, 7 James Street, Campbelltown, S.A. 5074 and to merge that portion with certificate of title volume 4263, folio 304.

Transfer 'D' and 'D1' to V. Ascensio, 7 James Street, Campbelltown, S.A. 5074 and to merge that portion with certificate of title volume 2913, folio 7.

Transfer 'E' to O. Ascensio, 7 James Street, Campbelltown, S.A. 5074 and to merge that portion with certificate of title volume 2691, folio 178.

A copy of the plan and a statement of persons affected are available for public inspection at the offices of the District Council of Yankalilla, Main Road, Yankalilla and the Adelaide office of the Surveyor-General during normal office hours, 101 Grenfell Street, Adelaide, S.A. 5000.

Any person is entitled to object to the proposed road process, or any person affected by the proposed closure is entitled to apply for an easement to be granted in that person's favour over the land subject to the proposed closure. Such objection or application for an easement must set out the full name and address of the person making the objection or application and must be fully supported by reasons. Any application for an easement must give full particulars of the nature and location of the easement and where made by a person as the owner of adjoining land or nearby land, specify the land to which the easement is to be annexed.

The objection or application for an easement must be made in writing to the District Council of Yankalilla, P.O. Box 9, Yankalilla, S.A. 5203 within 28 days of this notice, and a copy shall be forwarded to the Surveyor-General's office in Adelaide, G.P.O. Box 1354, Adelaide, S.A. 5001. Where a submission is made, the District Council of Yankalilla will give notification of a meeting at which the matter will be considered, so that the person making the submission or a representative may attend, if desired.

Dated 14 October 1999.
