ADELAIDE, S.A. 5000

Dear Stephen

Applications for Authorisation: Trading Limits, Funding of Compensation for System Security Directions, Settlement by Estimates and Intra-regional Loss Factors

On 10 September 1999, NECA lodged three applications with the Australian Competition and Consumer Commission (the Commission) for authorisation of changes to the National Electricity Code. Amendments to the applications were received on 23 September and 15 October 1999. The proposed amendments to the Code dealt with:

- trading credit limits for market participants;
- funding of compensation to generators for system security directions;

- settlement by estimates; and
- intra-regional loss factors for new generation and transmission customers.

Please find enclosed a copy of the Commission's determination. The Commission has granted authorisation to these applications.

In accordance with s.101 of the Trade Practices Act 1974 a person dissatisfied with the Commission's determination may apply to the Australian Competition Tribunal for a review of the determination. Each application must be lodged on the appropriate form within 21 days of the date of the determination, with the Registrar of the Tribunal. The Tribunal is located in the Office of the Registrar of the Federal Court in each State.

NATIONAL ELECTRICITY (SOUTH AUSTRALIA)
ACT 1996*Notices Under National Electricity Law and National Electricity Code*

NOTICE is hereby given pursuant to section 6(2) of the National Electricity Law which forms the Schedule to the National Electricity (South Australia) Act 1996 that Clauses 9.16.2 (d) (1), (2), (3), (4), (5) and (f) (NSW Derogation—interim arrangements for transmission network service pricing and distribution network service pricing in N.S.W.) of the National Electricity Code are amended.

These amendments to the National Electricity Code commence on 25 February 2000.

The amendments referred to above and copies of the ACCC's letter of 25 January 2000 providing interim authorisation for these amendments can be viewed on the Internet website of National Electricity Code Administrator Limited (ACN 073 942 775) ('NECA') at www.neca.com.au under 'The Code' section of that website.

The National Electricity Code can be viewed on the NECA Internet website at www.neca.com.au and at the offices of NECA and National Electricity Market Management Company Limited (ACN 072 010 327). A list of addresses where the Code can be viewed is available on the NECA website.

Dated 24 February 2000.

National Electricity Code Administrator

ACCC Letter of Authorisation

25 January 2000

Hon. Kim Yeadon, M.P.
Minister for Energy
Level 34, Governor Macquarie Tower
1 Farrer Place
SYDNEY, N.S.W. 2000

Dear Mr Yeadon,

Interim Authorisation of the NSW Network Pricing Derogation Amendments

In your letter of early December 1999 to Allan Asher, you indicated that the New South Wales Government would be seeking authorisation of amendments to the N.S.W. derogations from parts C and E of chapter 6 of the National Electricity Code until:

- the Code changes to implement the conclusions of the transmission and distribution pricing review are in place;
- IPART has been able to develop appropriate price setting arrangements under the modified Code; and
- network service providers have had sufficient time to develop new prices under the Code and the new arrangements.

At that time, you requested the Commission to deal with these matters in a timely manner.

To this effect, at its meeting on 15 December 1999, the Commission agreed to provide interim authorisation of the amendments to clauses which would allow the implementation of the conclusions of the IPART and Commission reviews into transmission and distribution pricing in N.S.W. At that time the Commission indicated that it would consider interim authorisation of the remaining clauses once interested parties had the opportunity to prepare comments on the proposed amendments.

In line with that earlier determination, at its meeting on 25 January 2000, the Commission agreed to provide interim authorisation of the amendments to N.S.W.'s derogations as set out in your application dated 7 December 1999. The Commission also determined that the interim authorisation would lapse upon the Commission making a final determination and that the final determination might contain conditions.

In considering this matter, the Commission noted the length of the proposed derogations and that the Commission will consider the need for conditions of authorisation at some later time.

The Commission has also written to Stephen Kelly, Managing Director, National Electricity Code Administrator Ltd, informing him of the Commission's decision.

In your letter you also sought assurances as to the Commission's approach to setting the opening value for TransGrid's regulatory asset base. To this effect, I can inform you that the Commission will be using the Depreciated Optimised Replacement Cost methodology for valuing TransGrid's system assets. In addition, the Commission will be using a rolled-forward historic cost value for TransGrid's easements. This approach is consistent with the approach outlined in your December letter.

If you wish to discuss this matter further, please contact Paul Bilyk on (02) 6243 1254.

Yours sincerely,

Professor ALLAN FELS, Chairman, Australian Competition and Consumer Commission.
