CONDITIONS [1-13] FOR DEVELOPMENT APPROVAL

Amendment to the Redevelopment of the Memorial Drive Tennis Centre Proposal

1. An Environmental Management Plan must be prepared, to the satisfaction of the Environment Protection Agency prior to commencement of demolition or construction, which addresses:

- traffic management;
- dust and mud control;
- noise control;
- stormwater management;
- vegetation management;
- truck washdown management; and
- site clean up.

2. The proposed tennis courts lights must be directed and shielded, if necessary, to prevent glare and light overspill outside the courts impacting on road users on War Memorial Drive.

3. Retail floor space must be limited to a maximum floor area of 100²m and must only be used for equipment servicing and the sale of goods/clothing/equipment associated with the tennis and sporting/fitness facilities in the Centre.

4. The use of the proposed hair dressing, facial and manicure facilities must, at any time, be limited to a maximum floor area of 80²m.

5. The office component of this development must be utilised for the administration of tennis and the Centre facilities only and not for other forms of offices.

6. The car parking areas must be designed in accordance with Australian Standards 2890.1 1993.

7. The proponent shall use its best endeavours to soften the visual impact of the eastern elevation of the tennis centre adjacent to the Tennis SA lease boundary by modelling of panels, landscaping, graphic displays or other such method. The proponent shall consult with the Adelaide City Council and Planning SA in relation to such methods.

8. If the South Australian Cricket Association wishes and so permits, the applicant (or any person hereafter having the benefit of this approval) must plant semi-mature trees adjacent to the southern bowling green, along the eastern elevation of the tennis centre.

9. The proposed development must comply with the SA Environment Protection Authority's 'Stormwater Pollution Prevention Code of Practice for Local, State and Federal Government'.

10. No excavation or other works what so ever shall be undertaken within five metres of the trunk of the Moreton Bay Fig tree located adjacent to the southern boundary of the site. The proponent shall obtain the advice of a qualified arborculturalist in relation to the preservation and well being of the tree prior to commencement of any works within the vicinity of the tree. No roots of the tree shall be severed or damaged unless personally supervised by the said arborculturalist. Pruning to balance the canopy of the tree may be undertaken to minimise stress associated with root pruning.

11. Provision must be made for at least 25 bicycle parks on the site.

12. All buildings and structures must be certified as complying with the Building Rules prior to any building work commencing.

13. The colour of the shade sail over the swimming pool and the small sail canopy must be of a light shade to blend in with the main building.

NOTES:

1. Consultation should occur between Adelaide City Council and emergency service organisations (ambulance, fire, police) regarding provision of access along War Memorial Drive during peak spectator periods at Memorial Drive Tennis Centre.

2. Consultation should occur between the proponents and Planning SA and Adelaide City Council on any proposals for advertising and direction signs. Advertising and direction signs for the proposed development are not included in this development authorisation.

3. In preparing the Environmental Management Plan the relevant Environment Protection Policies under the *Environment Protection Act 1993* should assist in the process.

4. The construction, alteration or removal of any crossing place in relation to the development, which is to be at the applicant's expense, will require a separate application to the Infrastructure Services Division of the Adelaide City Council. Such works should be undertaken before the buildings hereby approved are occupied.
