DEVELOPMENT ACT 1993: SECTION 48: DECISION BY THE DEVELOPMENT ASSESSMENT COMMISSION AS DELEGATE OF THE GOVERNOR

*Preamble*

1. The decision of the Governor under section 48 of the Development Act 1993 to approve the development of the Mildara Blass Winery located on the Sturt Highway, 2 km north-east of Nuriootpa in 10 stages was published in the *Gazette* on 7 October 1999.

2. An amended proposal to develop the Mildara Blass Winery has been under consideration under Division 2 of Part 4 of the Development Act 1993.

3. The amendments to the development are contained in:

(a) the letters from Nolan Rumsby Planners to the Development Assessment Commission dated 20 March 2000 and 5 May 2000; and

(b) the plan numbered BYA-1999-0012 D dated 23 March 2000.

The plan numbered BYA-1999-0012 D dated 23 March 2000, supersedes the three previously approved site plans, being the following plans:

- Drawing titled: Bilyara Site Stage V10 Sheet 1 of 3, Drawing Number: BYA-1999-0012 B;
  - Drawing titled: Bilyara Site Stage V10 Sheet 2 of 3, Drawing Number: BYA-1999-0012 B; and
  - Drawing titled: Bilyara Site Stage V10 Sheet 3 of 3, Drawing Number: BYA-1999-0012 B.
4. The amendments to the development are:
- (a) repositioning of the proposed car park and administration building, and a 144 m<sup>2</sup> expansion of the administration building;
  - (b) deferment of the construction of the barrel storage building in the centre of the site—by 6 months—from the 1999-2000 financial year to the 2000-2001 financial year;
  - (c) a new 24 m<sup>2</sup> grape sampling building adjacent to the vehicle access point on the southern side of the site;
  - (d) variations to the perimeter earth mounds that slightly widen some mounds and make gentler slopes—retaining the same 3 m maximum height in the Governor's approval;
  - (e) confirmation that, after further consideration of the two optional access points for heavy vehicles in the Governor's approval, Option A on the eastern (Light Pass Road) side of the site is to proceed. Option B on the southern (Pipeline Road) side of the site will be converted to dry grassland; and
  - (f) two stormwater culverts to collect rainwater from the site, for drainage to the dam in the south-west corner, are now shown on the amended site plan dated 23 March 2000.

5. Application has now been made to the Development Assessment Commission as delegate of the Governor under section 48 of the Development Act 1993, for the approval of the amended development.

6. The Development Assessment Commission has, in considering the application, had regard to all relevant matters under section 48 (5) of the Development Act 1993.

7. The Development Assessment Commission is satisfied that the amendments do not require the preparation of a further or amended Development Report.

#### Decision

PURSUANT to section 48 of the Development Act 1993, the Development Assessment Commission, as delegate of the Governor, grants development approval to the amended Development in 10 stages of the Mildara Blass Winery located on the Sturt Highway, 2 km north-east of Nuriootpa, as described in the application dated 2 December 1998 (amended by the Development Report dated May 1999 and letters dated 9 July 1999 and 28 September 1999), and subsequently amended by the letters dated 20 March 2000 and 5 May 2000, submitted on behalf of Mildara Blass Limited subject to conditions.

  4. Lighting for monitoring purposes must be switched off at all times when tasks are not being undertaken in that particular area.
  5. All lights must be directed and shielded in such a way as to prevent glare from the site.
  6. The proponent must comply with the design and noise attenuation measures recommended on pages 3, 4 and 5 of the Environmental Noise Assessment report prepared by Bassett Acoustics on 13 May 1999, for the proposed 75 000 tonne crush Mildara Blass Ltd Bilyara Winery.
  7. The proponent must not discharge winery effluent into the existing wetland system unless the effluent meets the following minimum quality criteria: pH 6.5-8; Total Dissolved Solids less than 2 500 mg/L; Biochemical Oxygen Demand less than 600 mg/L; Suspended Solids less than 100 mg/L.
  8. No trucks or heavy vehicles are to access the site from the portion of Light Pass Road south of the access point.

#### NOTES TO THE APPLICANT:

1. No approval is hereby granted for the development of any car parking in the area marked 'future 126 spaces' on the plan numbered BYA-1999-0012 D dated 23 March 2000. Any such car parking will require approval of an amendment to the development hereby approved.
2. The preparation of a Management Plan for the waste water treatment system must be prepared in accordance with the South Australian Health Commission code—'Standards for Construction, Installation and Operation of Septic Tank Systems in South Australia'.

Accordingly, pursuant to section 16 (1) of the Water Resources Act 1997, I HEREBY PROHIBIT the taking of water from wells in the defined area subject to the exceptions specified in Schedule 1.

**SCHEDULE 1**

3. This prohibition does not apply to the taking of water pursuant to section 7(5) of the Act for domestic purposes or watering stock (other than stock subject to intensive farming) or to the taking of water for firefighting or reticulating supplies of potable water for townships in the defined area.

*Harrys Point Plan Amendment Report Prepared by the Council—  
Draft for Public Consultation*

NOTICE is hereby given that the District Council of the Copper Coast has prepared a draft Plan Amendment Report affecting land at Harrys Point, between the settlements of Moonta Bay and Port Hughes.

The draft Plan Amendment Report proposes the re-zoning of the subject land from its current designation as Urban Coastal to a specific zone to be designated as Tourist Accommodation (Harrys Point).

Matters addressed in the draft Plan Amendment Report include:

- the provision of open space buffers to separate development on the land from existing residential land uses at Moonta Bay and Port Hughes;
- on-site effluent treatment and disposal and on-site retention of storm water;
- the provision of an erosion buffer to the coast, to be used as public reserve to maintain pedestrian links along the coast;
- the introduction of a list of land uses specifying those developments that will be the subject of category 1 and 2 public notification;
- new mapping to reflect the proposed zone boundary.
