- Assessment Report, Amcor Glass Bottle Plant Proposal, Minister for Transport and Urban Planning, dated April 2001.

2. No works may be commenced unless and until:

- (a) a private certifier or the Light Regional Council has certified to the Development Assessment Commission that all work that constitutes building work under the Development Act complies with the Building Rules, and
- (b) A Construction Environmental Management Plan (CEMP) to address management issues during construction has been prepared by the proponent to the reasonable satisfaction of the Development Assessment Commission in consultation with the Environment Protection Agency (a branch of the Department for Environment and Heritage).

The matters addressed in the CEMP shall include, but not be limited to:

- Dust control during demolition and construction;
- Stormwater management during demolition and construction;
- Waste water disposal;
- Site clean up during demolition and construction;
- Disposal of all waste;
- Measures for controlling noise impacts from all activities and equipment; and
- Hours of work.

3. Landscaping of the site must be commenced within one month of the date of this authorisation, and when established must be maintained in good health and condition at all times.

A plant must be replaced if or when it dies or becomes seriously diseased within the first growing season after the plant dies or becomes seriously diseased.

4. Buildings must be clad in a light colorbond colour, such as 'Marino'.

5. Noise associated with the operation of the proposed development must not exceed an equivalent noise level of 38 dB(A) at any noise sensitive receiver, when measured in accordance with the Environment Protection (Industrial Noise) Policy 1994. This condition shall be achieved for neutral weather conditions.

6. The environmental noise assessment must be repeated by the proponent following final selection of the plant and equipment. The extent and technical details of the noise reduction measures to achieve condition 5 shall be provided with this assessment. The report shall be submitted to the Environment Protection Authority for approval prior to construction.

7. An environmental noise assessment associated with the construction phase of the project must be submitted as part of an approved Construction Environment Management Plan (as described in condition 2 (b)). The environmental noise assessment shall identify the noise reduction measures that are reasonable and practicable. The report shall be submitted for approval prior to construction. The relevant content of the assessment must be shown to have been included within an approved construction plan.

8. A particulate monitor must be installed, to the reasonable satisfaction of the Development Assessment Commission in consultation with the Environment Protection Authority, on one of the stacks of each furnace for the purposes of monitoring the level of particulate emissions from the stack.

9. A continuous NO_x sampler must be installed, to the reasonable satisfaction of the Development Assessment Commission in consultation with the Environment Protection Authority, on one of the stacks of each furnace for the purposes of monitoring the level of NO_x emissions from the stack. Installation in the recuperative section is recommended, being before ambient air dilution.

10. If the stack NO_x samplers are installed after the ambient air inlet (not in the recuperative section) then two gas flow velocities (total gas out, furnace gas or ambient air in) must be continuously measured, to determine the dilution factor.

11. On each stack that does not contain the particulate and NO_x samplers from each furnace, the flow velocity, temperature and pressure must be continuously monitored.

12. The stack monitoring equipment and sampling ports shall be installed in accordance with the Environment Protection Authority 'Monitoring Manual—Emission Testing Methodology for Air Pollution Manual' (1996).

13. During construction, stormwater management must ensure:

- Surface stormwater from outside the construction site is diverted around all disturbed areas;
- Surface stormwater on the construction site is intercepted and redirected to protect all exposed areas;
- Erosion and sediment control structures are installed prior to the commencement of all site disturbance and construction works;
- All stockpiles/spoil heaps are surrounded by a silt fence at the down-slope toe of the stockpile; and
- Provision is made on site for the collection and temporary storage of all site debris and waste. Storage facilities used to store waste materials must be located away from all drainage paths to prevent litter and debris from entering the stormwater system, be covered to prevent the entry of stormwater or dispersal by wind, and be sealed to prevent leakage.

14. Areas containing materials such as fuels and chemicals that have the potential to contaminate stormwater must be adequately banded. (This requirement would be satisfied by compliance with Australian Standards (AS3780.8) for storage tank and bund design).

NOTES TO THE APPLICANT

The Environment Protection Authority recommended that the attached notes be included in any decision notification that may be issued.

Licensing Requirements

The proposed facility will require licensing under the *Environment Protection Act 1993*. Scheduled activities under the Act (Schedule 1 Activities of Environmental Significance) that would occur as a result of this proposal includes, but may not be limited to:

- 1 (1) Chemical Storage and Warehousing Activities
- 2 (4) Ceramic works
- 3 (4) Activities producing Listed Waste
- 8 (2) Fuel Burning
- 7 (6) Earthworks Drainage (may be required during the construction phase)

It should be noted that the onus is on the person proposing to undertake an activity of environmental significance to seek an environmental authorisation (works approval and/or license) before undertaking any such activity (Refer to Schedule 1 of the *Environment Protection Act 1993*).

It is recommended that any license required under the Environment Protection Act be applied for at least six months prior to the planned commencement of commissioning of the plant.

The Environment Protection Authority may attach any relevant conditions to any licence granted under the Environment Protection Act 1993. Licence conditions would include the following, as indicated above;

Recommended Licence Condition 1: Noise monitoring shall occur during commissioning and annually thereafter at positions nominated by the EP Authority. The indices L_{Amax} , L_{Aeq} and L_{A90} shall be measured as a minimum over consecutive 15 minute periods to record at least the equivalent of 7 days of data. Weather conditions sufficient to determine the Pasquill-Gifford stability category shall be recorded for the measurement period. Attended measurements of the above indices shall occur on two separate occasions during the automatic logging night period. The attended measurements shall also include measurements of the indices in the 1/3 Octave band spectrum format. A report summarising the results of the noise monitoring shall be submitted to the nominated Environment Protection Authority Licence Co-ordinator within 14 days of completion of the monitoring.

Recommended Licence Condition 2: Where noise monitoring indicates that operation of the facility and ancillary equipment exceeds an equivalent noise level of 38 dB(A) when measured and adjusted in accordance with the Environmental Protection (Industrial Noise) Policy 1994, a noise reduction program shall be carried out. The noise reduction program will comprise identification of the responsible noise sources, determination of the reasonable and practicable measures available and implementation of these measures following approval of the report by the Environment Protection Authority. An acoustic engineer shall manage the program.

Recommended Licence Condition 3: Install aerators on the stormwater ponds if odorous conditions arise. Include the Gutteridge Haskins and Daveys (GHD) Report recommendations as part of the final design of the stormwater ponds, irrigation and landscaping plan. To be dealt with as a condition of licence.

General Environmental Duty

The applicant is reminded of its general environmental duty, as required by section 25 of the Environment Protection Act, to take all reasonable and practical measures to ensure that its activities on the whole site, including during construction, do not pollute the environment in a way which causes or which may cause environmental harm.

Traffic Management

The applicant is advised to contact Transport SA in regard to proposed transport routes for the delivery of raw materials and the distribution of finished product, so that any possible traffic impacts on the Gawler township and the local road network are satisfactorily addressed and minimised.

ELECTRICITY ACT 1996
AGL SOUTH AUSTRALIA PTY LTD (ACN 091 105 092)

NOTICE is hereby given that these default terms and conditions governing the sale of electricity by AGL South Australia Pty Ltd (ACN 091 105 092) are published in accordance with section 36(2) of the *South Australian Electricity Act 1996*.

DEFAULT CUSTOMER SALE CONTRACT

Please note: This contract is about the sale of electricity to you, the customer, at your current supply address (but only if this contract is expressed to apply to you in relation to that supply address). It does not deal with how that electricity is supplied to your supply address. You have a separate contract with your distributor dealing with the connection of your supply address to the distribution system and the supply of electricity to your supply address.

*These default terms and conditions are consistent with the terms notified to us by the **Industry Regulator** under clause 1.3(a) of the **Retail Code** and are published in accordance with section 36 of the *South Australian Electricity Act 1996* and will come into force on 1 July 2001. When in force these default terms and conditions will by law be binding on us and each customer to whom they are expressed to apply without the need for us or those customers to sign any written document containing these terms and conditions in order for them to constitute a binding contract.*

1. THE PARTIES TO THIS CONTRACT

This *contract* is between:

AGL South Australia Pty Ltd (ACN 091 105 092) of 1 Anzac Highway, Keswick SA (in this *contract* referred to as 'we', 'our' or 'us'); and

You, the *customer* to whom this *contract* is expressed to apply under clause 2 (in this *contract* referred to as 'you' or 'your').

2. DOES THIS CONTRACT APPLY TO YOU?

This *contract* will only apply to you in relation to your current *supply address* (and as a consequence you will be deemed by section 36 of the *Act* to be a party to this *contract*):

- (a) if you are a *default contract customer* in relation to that *supply address*; or
- (b) if:
 - (i) you are a *contestable customer* (but not a *retail code customer*) in relation to that *supply address*; and
 - (ii) you entered into occupation of, or first took *supply* of electricity at, that *supply address* after 1 July 2001; and
 - (iii) we are financially responsible to pay *NEMMCO* for electricity supplied to that *supply address*; and

- (iv) you commence to use or have used electricity at that *supply address* without having expressly entered into an electricity sale agreement with us in relation to the sale of electricity for that *supply address*.

3. WHAT IS THE TERM OF THIS CONTRACT?

3.1 When does this contract start?

If you are a *default contract customer*, this *contract* will start immediately after the *grace period* expires and will replace and bring to an end your current *standard customer sale contract* with us for your *supply address*.

If you are a *customer* referred to in clause 2(b), this *contract* will start in relation to your *supply address* when you first start using electricity at that *supply address* after satisfying the conditions set out in clause 2(b) in relation to that *supply address*.

3.2 When does this contract end?

This *contract* will end on the first to occur of the following events:

- (a) on the *business day* after your *supply address* has been disconnected in accordance with clause 9.1(e) following receipt by us of a notice from you requesting the disconnection of your *supply address*; or
- (b) when you cease to be a *default contract customer*; or
- (c) in the case of a *customer* referred to in clause 2(b), when:
 - (i) we enter into a different agreement with you for the sale of electricity to you at your *supply address*; or
 - (ii) your *supply address* is transferred in accordance with the requirements of *Energy Law* to another *retailer* (or to you in your capacity as a *market customer*); or
- (d) when under clause 9.3 you cease to be responsible to pay for electricity supplied to the *supply address* you just vacated; or
- (e) on the tenth *business day* after you receive a notice from us (following the disconnection of your *supply address* in accordance with clauses 9.1(a), (b), (c) or (d)) advising that this *contract* will automatically end 10 *business days* after receipt of that notice; or
- (f) on the twentieth *business day* after you receive a notice from us advising that we have ceased to be the *local retailer* for South Australia and that as a consequence this *contract* will automatically end 20 *business days* after receipt of that notice.

3.3 Rights on the contract ending

The ending of this *contract* does not affect any rights or obligations which have accrued under this *contract* prior to that time.

4. SCOPE OF THIS CONTRACT

4.1 What is covered by this contract?

This *contract* only applies to the sale of electricity to you at your *supply address*. We agree to sell to you all electricity supplied to your *supply address* by your *distributor* and perform the

other obligations set out in this *contract*. In return, you are required to pay the amounts billed by us under clause 6.1, and perform your other obligations under this *contract*.

4.2 **What is not covered by this contract?**

We do not operate the *distribution system* to which your *supply address* is connected. This is the role of your *distributor*.

You already have a separate *connection and supply contract* with your *distributor*. Your *distributor* is responsible for:

- (a) the connection of your *supply address* to the *distribution system*;
- (b) the maintenance of that connection;
- (c) the delivery of electricity to your *supply address*; and
- (d) the quality and other characteristics of that electricity.

4.3 **Quality of electricity supplied to your supply address**

We cannot regulate the quality or reliability of electricity delivered to your *supply address*. You should also be aware that electricity suffers fluctuations and interruptions from time to time for a number of reasons, including:

- (a) the location of your *supply address*;
- (b) whether your *supply address* is served by underground or overhead mains;
- (c) the weather conditions;
- (d) animals, vegetation, the actions of vandals and other people;
- (e) the existence of emergency or dangerous conditions;
- (f) damage to an electricity network;
- (g) the design and technical limitations of an electricity network; and
- (h) the demand for electricity at any point in time.

You should understand that unexpected fluctuations or interruptions may cause damage to your equipment or cause it to malfunction. We recommend that you give careful consideration to taking out insurance or installing devices to protect your equipment and property when these fluctuations or interruptions do occur.

4.4 **We do not guarantee the quality or continuity of the electricity supplied to you**

You also acknowledge that subject to clause 10.1, we:

- (a) cannot and do not guarantee to you the quality or frequency of the electricity delivered to your *supply address* or the continuity of the *supply* of that electricity;
- (b) cannot and do not make any representation to you as to the voltage or frequency of electricity provided to you, or interruptions to the *supply* of electricity, or the occurrence of any power surges or power dips; and

- (c) are not responsible for the performance by the *distributor* of its obligations under your *connection and supply contract*.

5. CHARGES

5.1 Energy Charges

You agree to pay to us the *energy charges* calculated in accordance with clause 5.2 for all electricity we sell to you at your *supply address* during the *term*.

5.2 Calculation of Energy Charges

The *energy charges* for electricity sold to you at your *supply address* during any period will be calculated by multiplying the *energy charge rate* (in cents per kWh exclusive of *GST*) applying during that period by the *approved energy loss factors* and the quantity of electricity delivered to your *supply address* during that period.

5.3 Network Charges

The *network charges* payable by you to the *distributor* under your *connection and supply contract* will be included as a separate item in our bill. You agree to pay to us all *network charges* included in our bill. These *network charges* will be collected by us as agent for and on behalf of your *distributor* and you acknowledge that we are entitled to take action separately under this *contract* and in our own name to recover any *network charges* owing by you from time to time.

5.4 Additional Charges

You agree to pay us all *market charges* and *metering charges* applicable to the quantity of electricity we sell to you at your *supply address* during the *term*.

5.5 Variation of Energy Charge Rate

We may vary the *energy charge rate* at any time by giving you not less than 30 days notice. For the purposes of this clause 5.5, we will advise you of any variation to the *energy charge rate* by a notice posted to your *supply address*.

A notice varying the *energy charge rate* will be taken to have been received by you on the second *business day* after it was posted. The new *energy charge rate* will commence to apply from the date specified in that notice.

5.6 Increased costs events

- (a) If, as a result of the occurrence of an *increased costs event*, we determine that there is or was any direct increase in the cost to us of:

- (i) purchasing electricity that has been sold or will be sold to you; or
- (ii) selling or agreeing to sell electricity to you,

then you must pay to us as an additional charge, such amount as we notify to you is necessary to compensate us for that increased cost until such time as the *energy charge rate* is varied to take account of that increased cost.

- (b) A notice signed by us setting out the additional amount payable by you under this clause 5.6 will be, in the absence of manifest error, final and binding on you.

5.7 GST

- (a) Unless expressly stated otherwise, all amounts payable or other consideration provided in respect of transactions under this *contract* are exclusive of *GST* (if any). Where a supply under this *contract* is a taxable supply, all amounts payable or other consideration provided must be increased by the amount of *GST* payable in relation to the transaction.
- (b) All *GST* payable must be paid at the same time as the payment to which it relates is payable. Where any *GST* payable is not referable to an actual payment then it must be paid within 10 *business days* of a tax invoice being issued by the party making the taxable supply. Both parties agree to comply with all obligations under *GST Law*, including:
 - (i) providing appropriate tax invoices; and
 - (ii) passing on cost savings resulting from the abolition of other *taxes*.

6. BILLING AND PAYMENT

6.1 Bills

At the end of each *billing period* we will send you a bill setting out the charges payable by you under this *contract* for that *billing period* and (if applicable) for any period prior to that *billing period* in respect of which we have not yet billed you or have billed on the basis of estimated metering data which has subsequently been varied.

We will send your bill to your *supply address* or to such other e-mail or other address that you notify to us from time to time.

6.2 Payment of Bills

- (a) You must pay all bills by the *due date*, which will be 14 days after we dispatch the bill. Subject to clause 6.2(e), all bills must be paid free of set-off and without deduction.
- (b) The methods you can use to pay a bill will be set out on that bill.
- (c) If a bill is not paid in full by the *due date*, we may charge interest on the unpaid amount from the *due date* until that amount is paid in full. The rate of interest charged will be the same as the rate which we are entitled under the *retail code* to charge to our *business customers* as at the *due date* and compounded monthly.
- (d) We are entitled to recover from you any costs which we incur in recovering any amounts that you owe to us either under this *contract* or because you have defaulted in your payment obligations under this *contract*.
- (e) If you believe any part of a bill is incorrect then you must tell us as soon as possible and pay to us that part of the bill that is not in dispute. We will then review the bill within 14 days of your written request to do so. If our review does not resolve the dispute, then clause 11.11 will apply.

6.3 Security deposit

- (a) We can ask you to provide a *security deposit* if you:
 - (i) do not have a satisfactory payment history with us; or
 - (ii) do not have a satisfactory credit rating; or
 - (iii) fail to pay a bill by the *due date* for payment of that bill.

- (b) We may fix your *security deposit* at such amount as we believe is appropriate in your circumstances. However, that amount will not exceed 2.5 times our estimate of your average monthly bill for electricity sold under this *contract*.
- (c) You must provide us with a *security deposit* within 10 *business days* of being requested to do so by us.
- (d) A *security deposit* may be in the form of a bank guarantee, cash deposit or such other form as we may nominate.
- (e) If you provide a cash deposit as your *security deposit*, we will credit to your account the interest that accrues on that *security deposit* at the rate required under the *retail code* at that time.
- (f) We will return your *security deposit* to you together with any interest that has accrued to that time, if you complete 12 consecutive months of paying your bills by the *due date* or if this *contract* is terminated under clause 3.2 and nothing is owing to us by you at that time.
- (g) We may use your *security deposit* and any accrued interest to pay your final bill or any amount you owe to us under this *contract* which has not been paid by the *due date* for payment.
- (h) We will account to you for the use of your *security deposit* in your final bill or in the next bill that we send you after using your *security deposit* (whichever is applicable in the circumstances).

7. METERING

7.1 Recording electricity usage

The recording of the *metering equipment* at your *supply address* will be (subject to clause 7.2) prima facie evidence of the amount of electricity which we sold to you at that *supply address* for the purposes of this *contract*.

7.2 Estimating the electricity usage

If we are unable to read your *metering equipment* for any reason (for example, if we are unable to gain access to your *metering equipment*, or your *metering equipment* breaks down or is faulty), we can estimate how much electricity was purchased by you from us at your *supply address* during any particular period of time by using other information (such as your previous bills or your electricity usage history).

If we subsequently read your *metering equipment*, the bill will be adjusted for the difference between our estimate and the electricity usage recorded by your *metering equipment*.

If we are unable to read your *metering equipment* due to your actions, we can bill you our normal charge for returning to your *supply address* to read the meter.

7.3 Access

- (a) You must provide access to the *metering equipment* for our officers, employees and agents and their equipment, and all other persons who have the right to install, examine and repair the *metering equipment* by *Energy Law*.
- (b) During the *term*, you must keep us informed of all safety hazards of which you are aware and which could pose a risk to the health or safety of any of our officers, employees or agents who enter your *supply address*.

8. ELECTRICAL INSTALLATIONS

We do not give any express or implied warranty to you about the adequacy, safety or other characteristics of your electrical installation or electrical equipment.

9. DISCONNECTION AND RECONNECTION

9.1 Disconnection

We may direct your *distributor* to disconnect your *supply address*:

- (a) if you breach any of your obligations under this *contract* and fail to remedy that breach within 14 days of a request from us to do so;
- (b) if an *insolvency event* has occurred in respect of you;
- (c) if we reasonably consider that you are failing to comply with your obligations under *Energy Law*, we request in writing that you comply with the relevant obligation, and we reasonably consider that you have failed to do so within the time set out in the notice;
- (d) immediately by notice in writing to you, if we reasonably believe that:
 - (i) you have stolen electricity provided to your *supply address*; or
 - (ii) you have operated or interfered with your *metering equipment*; or
- (e) if you request us to do so or this *contract* is terminated in accordance with clauses 3.2 (f).

We will not direct your *distributor* to disconnect your *supply address* if we are prevented by an *Energy Law* from doing so or if you have made a complaint directly related to the reason for the proposed disconnection to the *Industry Ombudsman* or another external dispute body and that complaint remains unresolved at that time.

9.2 Reconnection

If the *distributor* disconnects your *supply address* in accordance with clause 9.1 and you subsequently request us (before this *contract* ends in accordance with clause 3.2(e)) to arrange for the reconnection of your *supply address*, we will direct the *distributor* to reconnect your *supply address* provided that you have first:

- (a) remedied to our reasonable satisfaction the circumstances which lead to the disconnection of your *supply address* (including by paying to us all amounts that are payable by you at that time under this *contract*); and
- (b) paid to us the disconnection fee and/or reconnection fee set by your *distributor*; and
- (c) satisfied any other reasonable pre-condition to the reconnection of your *supply address* that we notify to you at that time (including the payment of a *security deposit* or the provision of some other form of assurance that future charges will be paid).

9.3 Vacation of supply address

You must give us at least 3 *business days* notice of your intention to vacate your *supply address*, together with a forwarding address for your final bill. When we receive your notice, we will arrange for your *metering equipment* to be read on the date specified in your notice (or as soon as possible after that date if you do not give us access to your *metering equipment* on that date)

and send a final bill to you at the forwarding address stated in your notice. If you do not give us the required notice, or if you do not give us access to your *metering equipment*, you will be responsible for all electricity purchased at the *supply address* until:

- (a) we become aware that you have vacated your *supply address* and we read your meter; or
- (b) you give us the required notice; or
- (c) someone else enters into a contract with us or another *retailer* and commences to purchase electricity at the *supply address*.

- (b) otherwise we will not be liable to you for any other form of *damages* or liability (including *economic loss*) you may suffer or incur, whether in contract, tort (including negligence) or otherwise and whether that *damages* or liability arises as a result of:
 - (i) the sale of electricity to you under this *contract*;
 - (ii) any failure, defect or any interruption to the continuity of *supply* of electricity to your *supply address* or a fault with the *distribution system*;
 - (iii) any variation or deficiency in the quality or frequency of electricity sold to you (including any random powers surges or dips); or
 - (iv) any other reason whatsoever (including our breach of this *contract* or our negligence); and

- (c) if we are liable to you (other than for a breach of the type referred to in clause 10.1(c)) our liability is limited to \$1,000,000 per event in respect of all **damages** or liability arising out of that event.
