 - (b) include the application of AD, as defined in paragraph E2 of Schedule 7 of the Electricity Pricing Order 1999.
2. ETSA Utilities must assign each Distribution Network User to a distribution tariff in respect of each of its connection points in accordance with the following principles:
 - (a) A Distribution Network User that has an agreed maximum demand of 250kW or more in respect of a connection point, must be assigned to a distribution tariff that includes a demand component in respect of that connection point.
 - (b) A Sub-Transmission (kVA) Network User is a *Distribution Network User* taking supply at 66kV, or at 33kV outside of the Adelaide Metropolitan area. A minimum annual demand of 11.50MVA applies. A type 3 NEM meter or equivalent is required. Customers electing to switch to this tariff from 1 July 2002 must meet or exceed the minimum power factor requirements for their customer installation as set out in Part B of the Distribution Code (generally 0.90 pf).
 - (c) A Zone Substation (kVA) customer is a *Distribution Network User* taking supply generally at 11kV from the low voltage transformer terminals. Supply may also be taken at lower voltages that exceed 1kV. A minimum annual demand of 5.75 MVA and a minimum annual usage of 25GWh apply. A type 3 NEM meter or equivalent is required. Customers electing to switch to this tariff from 1 July 2002 must meet or exceed the minimum power factor requirements for their customer installation as set out in Part B of the Distribution Code (generally 0.90 pf).

- (d) A High Voltage Demand (kVA) customer is a *Distribution Network User* taking supply generally at 11kV. Supply may also be taken at lower voltages that exceed 1kV or at 33kV in metropolitan Adelaide. A minimum annual demand of 1.15MVA applies. A type 3 NEM meter or equivalent is required. Customers electing to switch to this tariff from 1 July 2002 must meet or exceed the minimum power factor requirements for their customer installation as set out in Part B of the Distribution Code (generally 0.85 pf).
- (e) A High Voltage (kVA) (Obsolete) customer is a *Distribution Network User* taking supply generally at 11kV. This tariff is available only to Distribution Network Users that were taking supply under the High Voltage Demand (kW) (Obsolete) tariff as at 11 October 1999. Supply may also be taken at lower voltages that exceed 1kV or at 33kV in metropolitan Adelaide. A minimum annual demand of 300kVA applies. A type 3 NEM meter or equivalent is required. Customers electing to switch to this tariff from 1 July 2002 must meet or exceed the minimum power factor requirements for their customer installation as set out in Part B of the Distribution Code (generally 0.85 pf).
- (f) A Large Low Voltage Demand (kVA) customer is a *Distribution Network User* taking supply at less than 1kV and generally from the low voltage distribution transformer terminals. A minimum annual demand of 1.15MVA applies. A type 3 NEM meter or equivalent is required. Customers electing to switch to this tariff from 1 July 2002 must meet or exceed the minimum power factor requirements for their customer installation as set out in Part B of the Distribution Code (generally 0.85 pf).
- (g) A Low Voltage Demand (kVA) customer is a *Distribution Network User* taking supply at less than 1kV and generally from the low voltage distribution transformer terminals. A minimum annual demand of 350kVA applies. A type 3 NEM meter or equivalent is required. Customers electing to switch to this tariff from 1 July 2002 must meet or exceed the minimum power factor requirements for their customer installation as set out in Part B of the Distribution Code (generally 0.85 pf).
- (h) A Medium Low Voltage Demand (kVA) customer is a *Distribution Network User* that is not a residential customer taking supply at less than 1kV and using demand, peak and off-peak metering. A minimum annual demand of 120kVA applies. A type 3 NEM meter or equivalent is required. Customers electing to switch to this tariff from 1 July 2002 must meet or exceed the minimum power factor requirements for their customer installation as set out in Part B of the Distribution Code (generally 0.85 pf).
- (i) A Low Voltage Business 2 rate customer is a Distribution Network User that is not a residential customer taking supply at less than 1kV and using peak and off-peak metering.
- (j) A Low Voltage Business single rate customer is a Distribution Network User that is not a residential customer taking supply at less than 1kV and using single rate metering.
- (k) A Low Voltage Residential single rate customer is a Distribution Network User that is a residential customer taking supply at less than 1kV and using single rate metering.
- (l) A Low Voltage Off-peak Controlled Load is used by a Distribution Network User involving a time switch and separate metering where the timing has been set in accordance with ETSA Utilities' requirements regarding the timing of loads.
- (m) Unmetered Overnight Usage supply is defined as overnight use by a Distribution Network User for public lighting.
- (n) Unmetered 24 Hour Usage supply is defined as constant 24 hour per day use by a Distribution Network User, typically public phones, traffic lights and telecommunications installations.
- (o) Other Unmetered Supply is defined as unmetered use by Distribution Network Users other than public lighting or continuous use.
- (p) A Sub-Transmission Network (kW) User is a Distribution Network User taking supply at 66kV, or at 33kV outside of the Adelaide metropolitan area. A minimum annual demand of 10MW applies. This tariff is available only to Distribution Network Users that were taking supply under this tariff as at 30 June 2001.
- (q) A Zone Substation (kW) customer is a Distribution Network User taking supply generally at 11kV from the low voltage transformer terminals. Supply may also be taken at lower voltages that exceed 1kV. A minimum annual demand of 5MW and a minimum annual usage of 25GWh apply. This tariff is available only to Distribution Network Users that were taking supply under this tariff as at 30 June 2001.
- (r) A High Voltage Demand (kW) customer is a Distribution Network User taking supply generally at 11kV. Supply may also be taken at lower voltages that exceed 1kV or at 33kV in metropolitan Adelaide. A minimum annual demand of 1MW applies. This tariff is available only to Distribution Network Users that were taking supply under this tariff as at 30 June 2001.

Dear Stephen

Determination—Interim Extension of Existing Technical Derogations

I refer to your applications for authorisation (Nos A90821, A90822 and A90823) of an interim extension of certain existing technical derogations to the National Electricity Code which were lodged with the Commission on 15 February 2002.

NATIONAL ELECTRICITY (SOUTH AUSTRALIA)
ACT 1996

NOTICE UNDER SECTION 6 (2) OF THE NATIONAL ELECTRICITY
LAW AND NATIONAL ELECTRICITY CODE

*Stage 1 of integrating the energy market and network services
Code Changes*

NOTICE is hereby given pursuant to section 6 (2) of the National Electricity Law, which forms the Schedule to the National Electricity (South Australia) Act 1996; and clause 8.3.9 (d) of the National Electricity Code approved under section 6 of the National Electricity Law, that new clause 3.6.2A is inserted in Chapter 3 and new definitions are inserted in Chapter 10 definitions of the National Electricity Code. Interim authorisation has been granted at this time to allow for the incorporation of the principles for the improved loss factor regime to facilitate the development of, and consultation on, the new methodologies for determining loss factors. These changes will be overwritten by those Code changes in the full stage 1 report into the scope for integrating the energy market and network services if and when those changes receive final authorisation.

These amendments to the National Electricity Code commence on 27 June 2002.

As required by clause 8.3.9 (d) of the National Electricity Code, a copy of the ACCC's letter granting interim authorisation dated 5 June 2002 is set out below.

The amendments referred to above and a copy of the ACCC's letter dated 5 June 2002 can be viewed on the Internet website of National Electricity Code Administrator Limited (ACN 073 942 775) ('NECA') at www.neca.com.au under 'The Code—*Gazette* notices' section of that website.

ACCC Letter of Authorisation

5 June 2002

Stephen Kelly
Managing Director
NECA
Level 5, 41 Currie Street
ADELAIDE, S.A. 5000

Dear Stephen

*National Electricity Code—Applications for Authorisation Nos
A90826, A90827 and A90828*

I refer to your applications for authorisation of the amendments to National Electricity Code, as submitted to the Commission on 27 March 2002, referred to as Stage 1 of integrating the energy market and network services. More particularly, I note your request for interim authorisation.

Pursuant to subsection 91 (2) of the Trade Practices Act (TPA), the Commission hereby grants interim authorisation for the extension of the settlement residue arrangements in clause 3.18 of the Code. The interim authorisation for these provisions is granted from the date of this letter until 31 December 2003 or until final determination is made, whichever occurs earlier.

The Commission also grants interim authorisation to those provisions of the Code changes which:

- introduce the principles for the determination of inter-regional loss factor equations and intra-regional loss factors; and
- require NEMMCO to develop the new methodologies for determining inter-regional loss factor equations and intra-regional loss factors in accordance with these principles.

In particular, the Commission grants interim authorisation for the definitions of 'marginal electrical loss' and 'marginal loss factors' and the insertion of new clauses 3.6.1 (d), 3.6.2 (d) and (e) and 3.6.2A (b), (c) and (d), as proposed in Stage 1 of integrating the energy market and network services Code changes.

However, the Commission grants interim authorisation subject to the conditions of interim authorisation (C1 to C5) set out below. The conditions of interim authorisation ensure that the calculation of inter-regional loss factor equations and intra-regional loss factors remains unchanged on the implementation of new clauses 3.6.1 (d) and 3.6.2 (d) and (e) and 3.6.2A (b), (c) and (d) into the Code. The conditions of interim authorisation require that new clauses 3.6.1 (d), 3.6.2 (d) and (e) are inserted in new clause 3.6.2A and that clauses 3.6.1 and 3.6.2 will continue in operation unamended as a result of the Commission's conditions of interim authorisation. Further, condition C2 requires the insertion of the following paragraph in new clause 3.6.2A, to ensure the new principles for the calculation of loss factors do not operate in respect of the calculation of loss factors until such time as the Code is amended to implement the remainder of Stage 1 of integrating the energy market and network services Code changes:

The methodologies prepared by NEMMCO under this clause 3.6.2A for the calculation of inter-regional loss factor equations and intra-regional loss factors do not apply to the calculation of inter-regional loss factor equations and intra-regional loss factors by NEMMCO under clauses 3.6.1 and 3.6.2.

Conditions of interim authorisation:

C1 The provisions of the Code must be amended so that new clauses 3.6.1 (d), 3.6.2 (d) and (e) and 3.6.2A (b), (c) and (d) are inserted in new clause 3.6.2A and any necessary consequential amendments to the numbering of new clause 3.6.2A and/or to cross-referencing must be made. Clauses 3.6.1 and 3.6.2 as in force immediately before the granting of interim authorisation must remain unamended.

C2 The provisions of the Code must be amended to insert a new paragraph in new clause 3.6.2A that reads as follows:

The methodologies prepared by NEMMCO under this clause 3.6.2A for the calculation of inter-regional loss factor equations and intra-regional loss factors do not apply to the calculation of inter-regional loss factor equations and intra-regional loss factors by NEMMCO under clauses 3.6.1 and 3.6.2.

Any necessary consequential amendments to the numbering of new clause 3.6.2A and/or to cross-referencing must be made.

C3 The provisions of the Code must be amended to insert a new paragraph in new clause 3.6.2A that reads as follows:

NEMMCO must determine, publish and maintain, in accordance with Code consultation procedures, a methodology for determination of inter-regional loss factor equations for a financial year, describing inter-regional loss factors between each pair of adjacent regional reference nodes in terms of significant variables.

Any necessary consequential amendments to the numbering of new clause 3.6.2A and/or to cross-referencing must be made:

C4 The provisions of the Code must be amended so that for the purposes of new clause 3.6.2A only the term 'inter-regional loss factor' is defined to mean:

a multiplier used to describe the marginal electrical energy losses for electricity transmitted through regulated interconnectors from a regional reference node in one region to the reference node in an adjacent region for a particular time period and a defined range of operating conditions.

Any necessary consequential amendments to the numbering of new clause 3.6.2A and/or to cross-referencing must be made.

C5 The provisions of the Code must be amended so that for the purposes of new clause 3.6.2A only the term 'intra-regional loss factor' is defined to mean:

a multiplier used to notionally describe the marginal electrical energy losses for electricity transmitted between a regional reference node and a transmission network connection point in the same region for a defined time period and associated set of operating conditions.

Any necessary consequential amendments to the numbering of new clause 3.6.2A and/or to cross-referencing must be made.

The interim authorisation of clauses 3.6.1 (d), 3.6.2 (d) and (e) and 3.6.2A (b), (c) and (d) in accordance with the conditions C1 to C5 is granted from the date of this letter and will lapse when the final determination is made.

Please note that under subsection 91 (2) of the TPA, the Commission may revoke an interim authorisation at any time.

If you have any queries about any issue raised in this letter, please contact myself on (02) 6243 1249 or Malcolm Beattie on (02) 6243 1172.

Yours sincerely,

M. RAWSTRON, General Manager, Regulatory
Affairs—Electricity.

WATER RESOURCES ACT 1997*Notice of Assessment of Quantity of Water Taken When Meter Readings Are Not Used—Pursuant to Section 126*

I, JOHN DAVID HILL, Minister for Environment and Conservation, hereby declare that the basis of assessment of water use rates and the method by which the assessment of water use where meter readings are not used or when water is taken without licence or authorisation will be as set out in Schedule 1.

SCHEDULE 1

The basis of the assessment of water use will be the estimation of water requirements for a crop.

The method by which the estimation of water requirements for crops will be used is the methodology of Doorenbos and Pruitt (1977), as refined by Allen *et al.*, (1998) and set out in the PIRSA Technical Report No. 263, second edition ('the Report'). Crop factors will be calculated from Kc (crop coefficient) values from the Food and Agriculture Organisation of the United Nations, Rome Irrigation and Drainage Paper 56 (Allen, Pereira *et al.*, 1998) ('FAO 56') and using site specific monthly Kp (pan coefficient) values and average monthly Kg values (bird guard coefficient) set out in the Report.

The methodology incorporates the use of Bureau of Meteorology evaporation data, the application of crop specific factors to evaporation figures to calculate crop evapotranspiration for the crop and location in question, subtraction of effective rainfall and an allowance for leaching for salinity control and irrigation efficiency.

The water requirement calculated by this method is expressed as depth of water required in millimetres for a particular crop grown over a particular season. Depth multiplied by the number of hectares of that crop grown (in each specified season for short season crops), multiplied by 10 gives the volume of water required for each crop in kilolitres.

A copy of each of the Report and FAO 56 is obtained through the GEO Science Library at the Department of Primary Industries and Resources South Australia. The reference number for the Report is ISBN No. 07308-4349-1 and the reference number for FAO 56 is Kinetica/Amicus No. 000020037000 or ISBN No. 92-5-104219-5.

This notice has effect in relation to the financial year commencing on 1 July 2002.

Dated 24 June 2002.

Determination of Board of WorkCover Corporation of South Australia

THE Board of the WorkCover Corporation of South Australia determines as follows, pursuant to section 17 of the WorkCover Corporation Act 1994, section 72 of the Workers Rehabilitation and Compensation Act 1986 and all other enabling powers:

1. *Citation and Date of commencement.*

- (1) This determination may be cited as the WorkCover Levy Review Determination 2002.
- (2) This determination takes effect on 1 July 2002.

2. *Continuation of WorkCover Levy Review Panel.* The WorkCover Levy Review Panel ('the Panel') established by the Board's determination of 29 June 2000 (see *South Australian Government Gazette*, 29 June 2000, page 3472) is hereby continued.

3. *Function and powers under section 72 of Workers Rehabilitation and Compensation Act 1986.* The function of the Panel shall be to perform the functions of the Board under section 72 of the Workers Rehabilitation and Compensation Act 1986 ('the Act') as delegate of the Board under that section and (subject to the succeeding clauses of this determination) all powers of the Board under that section, other than the power of delegation, are delegated to the Panel for that purpose.

4. *Constitution of Panel.*

- (1) The Panel shall sit comprising four members appointed by the Board consisting of:
- (a) a President, who shall be a legal practitioner (wherever in Australia admitted), and who shall decide any questions of law;
- (b) a member with expertise in the interests of registered employers;
- (c) a member with expertise in the interests of workers; and
- (d) a member with expertise in the interests of the Corporation.
- (2) Where the anticipated unavailability of appointed members or the anticipated volume of work necessitates, deputy members may be appointed by the Board.
- (2A) A Deputy President or other Deputy Member has the powers and duties of the position held by the person for whom he or she deposes.
- (3) The President may sit alone:
- (a) to give directions;
- (b) to determine procedural matters;
- (c) for the promotion of conciliation;
- (d) to seek evidence; or
- (e) to dispose of an application on a matter of law involving no disputes of fact and no exercise of discretion,

but (subject to this clause) the Panel shall otherwise sit as a Panel of four.

- (4) A decision of a majority of members of the Panel, other than a decision as to a matter of law, shall be the decision of the Panel, but a member not agreeing with a decision of the majority may give reasons for not agreeing.
- (4A) In the event of the Panel being equally divided in opinion as to the decision to be made, the Panel's decision shall be in accordance with the opinion of the President or Deputy President.
- (4B) A quorum of the Panel shall be three members, provided that members representing each interest referred to in subclause (1) or (where applicable) deputies thereof have been offered, in the opinion of the President, a reasonable opportunity to sit.

- (5) If a member of the Panel becomes unavailable after the commencement of a hearing, the application must be heard again by the Panel properly constituted or (with the concurrence of the parties) adjourned until the absent member becomes available again, unless the decision of the remaining members is unanimous.
- (6) However, no hearing may commence or continue without the President or a Deputy President.

5. *Indemnity of members.* Any liability attaching to a member of the Panel for an act or omission by the member, or by the Panel, in good faith and in the exercise or purported exercise of a power or function, or in the discharge or purported exercise of a duty, of the member or the Panel is assumed by the Corporation.

6. *Tenure of members.*

- (1) Members shall be appointed for a term of two years, except in the event of a casual vacancy, where a member may be appointed for two years or for the balance of the term of the former member at the option of the Board.
- (2) A deputy of a member shall be appointed for a term specified by the Board in the instrument of appointment, not exceeding the balance of the term of the member for whom the deputy is to depute.

7. *Conciliation as condition precedent to jurisdiction.*

- (1) Upon receipt of any application lodged under section 72 (1) of the Act, the registry of the Panel will forward a copy to the operating unit of the Corporation responsible for the disputed decision, which will reconsider the decision (disregarding any question of whether the application is out of time) and must inform the Panel and the applicant within 7 days of the result of the reconsideration (and its attitude to any question of an extension of time).
- (2) If—
- (a) the Corporation, on reconsideration of a disputed decision, confirms the decision; or
- (b) the Corporation, on reconsideration of a disputed decision, varies the decision and the applicant expresses dissatisfaction with the variation,

the registry of the Panel must refer the dispute for conciliation by a conciliator who will use his or her best endeavours to bring the applicant and the operating unit of the Corporation that is responsible for the disputed decision to an agreed resolution of the matters referred to in the application, and the Panel may not hear and determine any application unless it is satisfied that conciliation has been attempted and failed or it is satisfied that such attempts have no realistic prospects of success.

- (3) If, during the hearing of any matter, it appears to the Panel that there is a realistic prospect of a negotiated outcome being achieved, it may refer the matter back for further conciliation or the Panel may make such other attempts to promote conciliation as it thinks appropriate.
- (4) In this clause, 'conciliation' includes:
- (a) counselling;
- (b) mediation;
- (c) neutral evaluation;
- (d) case appraisal;
- (e) conciliation; and
- (f) any combination of the above,

and the format of conciliation in any particular case shall be at the discretion of the conciliator in consultation with the parties, with the proviso that any confidential information provided during conciliation may be withheld from the Panel if the provider of that information requests.

8. *Principles of operation of Panel.*

- (1) The Panel shall be bound by and is hereby directed to follow the principles of natural justice.
- (2) Subject to subclause (1), the Panel:
- (a) shall act according to equity, good conscience and the substantial merits of the case, without regard to technicalities and legal forms;
- (b) is not bound by the rules of evidence, but may inform itself by such means and such material as it thinks fit; and
- (c) shall act as expeditiously as the circumstances of a particular case permit.
- (3) The Panel must ascertain whether the parties to any proceedings desire to be heard by way of oral evidence or submissions and must in that event give at least 14 days notice of the date, time and place of hearing, but if both parties to particular proceedings wish to have the application determined on the documents the Panel need not hold a hearing but must give the parties at least 14 days notice to make final written submissions before proceeding to make a determination.
- (4) If only one party to proceedings desires to present oral evidence or submissions, the Panel must give the other party at least 14 days notice of the hearing and inform that party that there is a danger that at the hearing the Panel may hear things from the first party that the other party will be unable to respond to if it does not attend.
- (5) A party may appear in person or (if a body corporate) by any proper officer or may be represented by counsel or by any duly appointed and authorised agent.
- (6) A party engaging representation must do so at its own cost.

9. *Powers of President of Panel.* The President of the Panel, or a Deputy President acting in that office may, while so acting, exercise the powers of, and is hereby appointed as, an authorised officer under the Act. For the purposes of this clause, operating units of the Corporation and its agents are directed to comply with any requirements of the President or Deputy President as though they were subject to section 110 of the Act.

10. *Reservation of Board's discretion to decide.* The Panel is required to determine all applications that fail to resolve through reconsideration or at conciliation, unless the Corporation, within 14 days of receipt of any application, advises the Board that the particular dispute is of unusual significance and the Board or its relevant Board Committee, prior to the hearing of the application by the Panel, serves notice on the Panel and the applicant that the Panel is to make a recommendation only and refer the matter to the relevant Board Committee of the Board for:

- (a) advice;
- (b) exercise by the Board Committee of its delegation by unanimous decision; or
- (c) referral by the Board Committee to the Board for its determination.

11. *Revocation.* The determination of the Board published in the *South Australian Government Gazette* on 29 June 2000 at page 3472, is revoked from the commencement of this determination.

12. *Transitional.* Where an application for review lodged before 1 July 2002 is part-heard at that date, the hearing will be completed by the Panel as constituted before that date.

Confirmed as a true and correct record of the decision of the Board.

Dated 14 June 2002.

CITY OF NORWOOD, PAYNEHAM AND ST PETERS

DEVELOPMENT ACT 1993

*Significant Trees Plan Amendment Report
Draft for Public Consultation*

NOTICE is hereby given that the City of Norwood, Payneham and St Peters has prepared a draft Plan Amendment Report to amend the Kensington and Norwood (City); Payneham (City) and St Peters (CT) Development Plans. The Plan affects various private properties within the suburbs of Norwood, Heathpool, Kent Town, Marryatville, Hackney, College Park and St Peters, and public lands (roads and parks) across the whole of the council area.

The Plan Amendment Report will amend the aforementioned Development Plans by introducing lists of Significant Trees; the effect of this being that tree damaging activity (as defined by the Development Act 1993) can only be lawfully undertaken with the benefit of a Development Approval. These lists expand the range of Significant Trees that currently qualify by virtue of trunk size criteria pursuant to Regulation 6A (1) of the Development Regulations 1993. The Plan amendments also include some policy variations to:

- (a) better recognise the need to preserve remnant native vegetation within the River Torrens Linear Park; and
- (b) instate tree damaging activity as a type of development that requires merit assessment for the various Historic Conservation Zones in the St Peters (CT) Development Plan (as per other zones in the council area).

Note: the Development Plan amendments proposed by this Plan Amendment Report have been brought into interim operation pursuant to Section 28 (1) of the Development Act 1993 and take effect from the date of this notice.

Copies of the Plan Amendment Report can be purchased from the council at a cost of \$10 each. Alternatively, the Plan Amendment Report can be viewed on the Council's website at www.npsp.sa.gov.au
