NATIONAL PARKS AND WILDLIFE ACT 1972 SECTION 43: CONTINUATION AND ACQUISITION OF RIGHTS OF PROSPECTING AND MINING IN LAND ADDED TO GUM LAGOON CONSERVATION PARK

*Proclamation By The Governor*

(L.S.) MARJORIE JACKSON-NELSON

*Preamble*

The Crown land described in the schedule is, by another proclamation made on this day, added to the Gum Lagoon Conservation Park under section 29(3) of the *National Parks and Wildlife Act 1972*.

It is intended that, by this proclamation, certain existing and future rights of entry, prospecting, exploration or mining be preserved in relation to the land added to the conservation park.

*Proclamation*

PURSUANT to section 43 of the *National Parks and Wildlife Act 1972* and with the advice and consent of the Executive Council, I declare, in relation to the land in the schedule added to the Gum Lagoon Conservation Park, as follows:

1. Subject to clause 3, existing rights of entry, prospecting, exploration or mining under the *Mining Act 1971* or the *Petroleum Act 2000* may continue to be exercised in respect of the land added to the conservation park.
2. Subject to clause 3, rights of entry, prospecting, exploration or mining may, with the approval of the Minister for Mineral Resources Development and the Minister for Environment and Conservation, be acquired pursuant to the *Mining Act 1971* or the *Petroleum Act 2000* in respect of the land added to the conservation park.
3. A person in whom rights of entry, prospecting, exploration or mining are vested pursuant to the *Mining Act 1971* or the *Petroleum Act 2000* (whether those rights were acquired before or after the making of this proclamation) must not exercise those rights in respect of the land added to the conservation park unless the person complies with the following conditions:
  - (a) if work to be carried out in relation to the land of the park in the exercise of rights vested pursuant to the *Petroleum Act 2000* is a regulated activity within the meaning of that Act, the person must ensure that—
    - (i) the work is not carried out until a statement of environmental objectives in relation to the activity that has been approved under that Act has also been approved by the Minister for Environment and Conservation; and
    - (ii) the work is carried out in accordance with the statement as so approved;
  - (b) if any drilling, excavation, vegetation clearance, construction or other work in relation to the land of the park in the exercise of rights under the *Mining Act 1971* or the *Petroleum Act 2000* has not previously been authorised (whether by inclusion in an approved

statement of environmental objectives referred to in paragraph (a) or otherwise), the person must give at least 3 months notice of that proposed work to the Minister for Mineral Resources Development and the Minister for Environment and Conservation and supply each Minister with such information in relation to the proposed work as the Minister may require;

(c) if directions are agreed upon by the Minister for Mineral Resources Development and the Minister for Environment and Conservation and given to the person in writing in relation to—

(i) carrying out work in relation to the land of the park in a manner that minimises damage to the land (including vegetation or wildlife on the land) and the environment generally; or

(ii) preserving objects, structures or sites of historical, scientific or cultural interest; or

(iii) rehabilitating the land (including vegetation or wildlife on the land) on completion of the work; or

(iv) (where the work is being carried out in exercise of rights acquired after the making of this proclamation) prohibiting or restricting access to any specified area of the land that the Ministers believe would suffer significant detriment as a result of carrying out the work,

(being directions that do not reduce or otherwise detract from any requirement in respect of any of those matters contained in an approved statement of environmental objectives referred to in paragraph (a)), the person must comply with those directions in carrying out the work;

(d) if a plan of management is in operation under section 38 of the *National Parks and Wildlife Act 1972* in respect of the land, the person must have regard to the provisions of the plan of management;

(e) in addition to complying with the other requirements of this proclamation, the person—

(i) must take such steps as are reasonably necessary to ensure that objects, structures and sites of historical, scientific or cultural interest and any vegetation or wildlife on the land are not unduly affected by any work; and

(ii) must maintain all work areas in a clean and tidy condition; and

(iii) must, upon the completion of any work, obliterate or remove all installations and structures (other than installations and structures designated by the Minister for Mineral Resources Development and the Minister for Environment and Conservation as suitable for retention) used exclusively for the purposes of that work;

(f) if no direction has been given by the Minister for Mineral Resources Development and the Minister for Environment and Conservation under paragraph (c)(iii), the person must (in addition to complying with any approved statement of environmental objectives referred to in paragraph (a)) rehabilitate the land (including vegetation or wildlife on the land) on completion of the work to the satisfaction of the Minister for Environment and Conservation.

4. If—

(a) the Minister for Mineral Resources Development and the Minister for Environment and Conservation cannot agree as to whether—

(i) approval should be granted or refused under clause 2; or

(ii) a direction should be given under clause 3(c); or

(b) the Minister for Environment and Conservation does not approve a statement of environmental objectives referred to in clause 3(a),

the Governor may, with the advice and consent of the Executive Council—

(c) grant or refuse the necessary approval under clause 2; or

(d) give a direction in writing under clause 3(c); or

(e) grant or refuse the necessary approval under clause 3(a).
