4. Amendment of section 2.28 and new sections 2.28A and 2.28B

At the end of section 2.28 of the Code insert:

2.28 Proposed revisions may include:

If this section 2.28A applies:

- (a) the Reference Tariff Principles described in Section 8 apply in the aggregate to all of the Covered Pipelines that are the subject of the proposed revisions and Access Arrangement Information; and
- (b) the Covered Pipelines that are the subject of that Access Arrangement will be treated as a single Covered Pipeline for all purposes under the Code.

2.28B If the Relevant Regulator agrees and subject to any conditions that the Relevant Regulator may require, having regard to the matters set out in section 2.46, proposed revisions and Access Arrangement Information submitted by a Service Provider under section 2.28 may have the effect of applying separate Access Arrangements (together with Access Arrangement Information) to different parts of the Covered Pipeline, so that the separate Access Arrangements in total apply to the whole of the Covered Pipeline. If this section 2.28B applies:

- (a) the Reference Tariff Principles described in Section 8 apply separately to each part of a Pipeline to which it is proposed that a separate Access Arrangement would apply; and

 WATER RESOURCES ACT 1997
Notice of Restriction of Water Use in the Marne Catchment Area

PURSUANT to section 16(1) of the Water Resources Act 1997 ('the Act'), I, John David Hill, Minister for Environment and Conservation, being of the opinion that:

1. The rate at which water is being taken from watercourses and the Wells accessing the upper unconfined aquifer in the Murray Group Formation and the lower confined aquifer in the Renmark Beds ('the Wells') in the area described in Schedule 1 ('the designated area') is likely to affect the quality of the water in those watercourses and Wells;

2. The rate at which water is being taken from watercourses and the Wells in the designated area is such that there is a risk that the available water in the designated area will not be sufficient to meet future demand; and

3. The rate at which surface water is taken from the designated area is such that the surface water available in the designated area can no longer meet the demand,

hereby prohibit the taking of surface water and water from watercourses and the Wells in the designated area subject to the exceptions specified in Schedule 2.

SCHEDULE 1

The Marne River catchment as indicated in the GRO Plan No. 172/99.

SCHEDULE 2

1. A person authorised in writing by the Minister responsible for administering the Act ('the Minister') or delegate pursuant to a notice under section 16 of the Act published in the *Government Gazette* on Thursday, 29 April 1999 at page 2380 (the '1999 Notice') may take water for the same purpose and subject to the same conditions as specified in that authorisation but at the rate or volume specified in clause 2 of this Schedule.

2. The maximum volume of water that may be taken pursuant to an authorisation referred to in clause 1 of this Schedule is the volume of water that can be reasonably delivered by infrastructure that has been constructed or established on the relevant land at any time prior to 24 months after the date of the authorisation in question and which infrastructure had been described in a plan of works or water use proposal that had been provided to the Minister as part of the application for an authorisation to use water under the restrictions imposed by the 1999 Notice.

3. Any authorisation granted under the 1999 Notice may be varied by the Minister or delegate by the issue of a further written authorisation granted in accordance with policy criteria dated 16 June and 23 September 1999 signed by the Minister ('the Guidelines').

4. Water may only be taken under an authorisation through a meter.

5. Where land has been transferred from a person authorised under the 1999 Notice the transferee may take water pursuant to the authorisation on the same terms as the transferor.

6. All water taken in accordance with this Notice must be used in a manner that does not detrimentally affect the ability of any occupier of adjoining land to take water for stock and domestic purposes.

7. This restriction does not apply to the taking of water pursuant to section 7(5) of the Act for domestic purposes or watering stock (other than stock subject to intensive farming) or to taking water for fire fighting or reticulating supplies of potable water for townships in the area.

This notice will remain in effect for 2 years unless earlier varied or revoked.

Dated 17 April 2003.
