ACCC Letter of Authorisation

4 December 2002

Stephen Kelly
Managing Director
National Electricity Code Administrator
Level 4, 41 Currie Street
ADELAIDE, S.A. 5000

Dear Stephen

Final Determination—Changes to bidding and rebidding rules (Nos A90797, A90798, A90799)

On 13 September 2001, the Australian Competition and Consumer Commission (Commission) received applications for authorisation (Nos A90797, A90798 and A90799) of amendments to the National Electricity Code (Code). These applications were submitted by the National Electricity Code Administrator (NECA), under Part VII of the *Trade Practices Act 1974* (TPA). The proposed changes to rebidding rules are intended to address anti-competitive behaviour by improving the reliability of pre-dispatch forecast prices, and the utilisation of ancillary services.

On 4 December 2002, the Commission released its final determination relating to the changes. The Commission agreed to authorise parts of the code changes proposed by NECA but was not convinced that the entire package would result in a net public benefit. The Commission has granted authorisation, conditional upon a number of amendments to the proposed Code changes being made. The conditions of authorisation are outlined in chapter 10 of the determination.

A person dissatisfied with the final determination may appeal to the Australian Competition Tribunal for its review.

Draft Determinations

- Technical Standards Code Changes (Nos A90834, A90835, A90836)
- Changes to Queensland derogation-intra-regional loss factors (Nos A90847, A90848, A90849)

The Commission received applications for authorisation of changes to and derogations from the National Electricity Code for the above matters on 3 June 2002, and 14 October 2002, respectively.

The Technical Standards code changes were submitted by NECA, under Part VII of the *Trade Practices Act 1974* (TPA). The code changes relate to the implementation of the conclusions and recommendations of the Reliability Panel's review of technical standards in the National Electricity Market.

The changes to the Queensland derogation-intra-regional loss factors were lodged by NECA on behalf of the Queensland government. The proposed changes seek to extend the derogation relating to the calculation of forward looking loss factors in Queensland.

The Commission has granted interim authorisation to changes relating to Queensland intra-regional loss factors, and at the same time has released its draft determination on the matter.

The draft determinations for this and the Technical Standards code changes outline the Commission's proposal to grant authorisation and any conditions of authorisation.

Copies of the draft determinations are available on the Commission's website at www.accc.gov.au.

The Commission now invites NECA and other interested parties to notify it within 14 days of 4 December 2002 as to whether they wish the Commission to hold a pre-determination conference in relation to either of these draft determinations. If NECA or an interested party notifies the Commission by 18 December 2002 that they wish the Commission to hold a conference, the Commission will hold a conference in Canberra at a time and place to be notified.

The applicant, interested parties who receive a copy of a draft determination and any other interested parties whose presence the Commission considers appropriate are entitled to participate in any such conference. Following the conference the Commission will take into account issues raised at the conference and any related submissions and will issue a final determination in relation to the matter for which the conference was called.

If no pre-determination conference is called for any of the above matters, then the draft determination for that matter will become the final determination. A person dissatisfied with the final determination can appeal the decision to the Australian Competition Tribunal.

If you have any queries or require any further information please contact Mrs Maxine Helmling on (02) 6243 1246.

Yours sincerely,

SEBASTIAN ROBERTS, Acting General Manager,

This Plan Amendment Report will amend the Wattle Range (District) Development Plan by ensuring a consistent approach to development in the region through the consolidation of the Millicent, Penola and Beachport Development Plans. The draft Plan Amendment Report seeks to consolidate the three Development Plans into one Development Plan for the council area. This will result in a more user friendly document.

In addition, Region-wide policies for the South East have been incorporated into Council-wide provisions, where applicable and areas within the Beachport Development Plan have now been changed to zones. The Plan Amendment Report also incorporates public notification categories within each zone in accordance with the Development Regulations 1993. It does not result in the notification requirements on applicants being any more onerous than required under the Development Act 1993 and Regulations.

The draft Plan Amendment Report will be available for public inspection during normal office hours at all Council Offices, George Street, Millicent; Arthur Street, Penola and Millicent Road, Beachport. A copy of the Plan Amendment Report can be obtained from the council at \$30 each.

Written submissions regarding the draft amendment will be accepted by the Wattle Range Council, until 5 p.m. on Thursday, 20 March 2003. The written submission should clearly indicate whether you wish to speak at the public hearing regarding your submission. All submissions should be addressed to the Chief Executive Officer, Wattle Range District Council, P.O. Box 27, Millicent, S.A. 5280.

Copies of all submissions received will be available for inspection by interested persons at the above Council offices from the close of submissions until the date of the public hearing.

A public hearing will be held at 5 p.m. on Tuesday, 15 April 2003, at the Council Civic Centre, George Street, Millicent. The public hearing may not be held if no submission indicates an interest in speaking at the public hearing.

Dated 16 January 2003.
