The proposed area delineated in GRO Plan No. 428/2003 is illustrated in the map below:

The proposed variation will have the effect of incorporating the Kangaroo Flat area into the Northern Adelaide and Barossa Catchment Water Management Board Area. The reason for varying the catchment area is that the Kangaroo Flat area is under increasing pressure from irrigation development, which will not be sustainable without the introduction of controls over water resource use. The inclusion of the Kangaroo Flat area within the boundary of the Board's area will enable the Board to ensure that the underground water resources of the region are managed in accordance with the principles of ecologically sustainable development.

I invite interested persons to make a written submission on this proposal. The closing date for submissions will be 30 January 2004.

All submissions and enquiries on this proposal should be directed to:

WATER RESOURCES ACT 1997

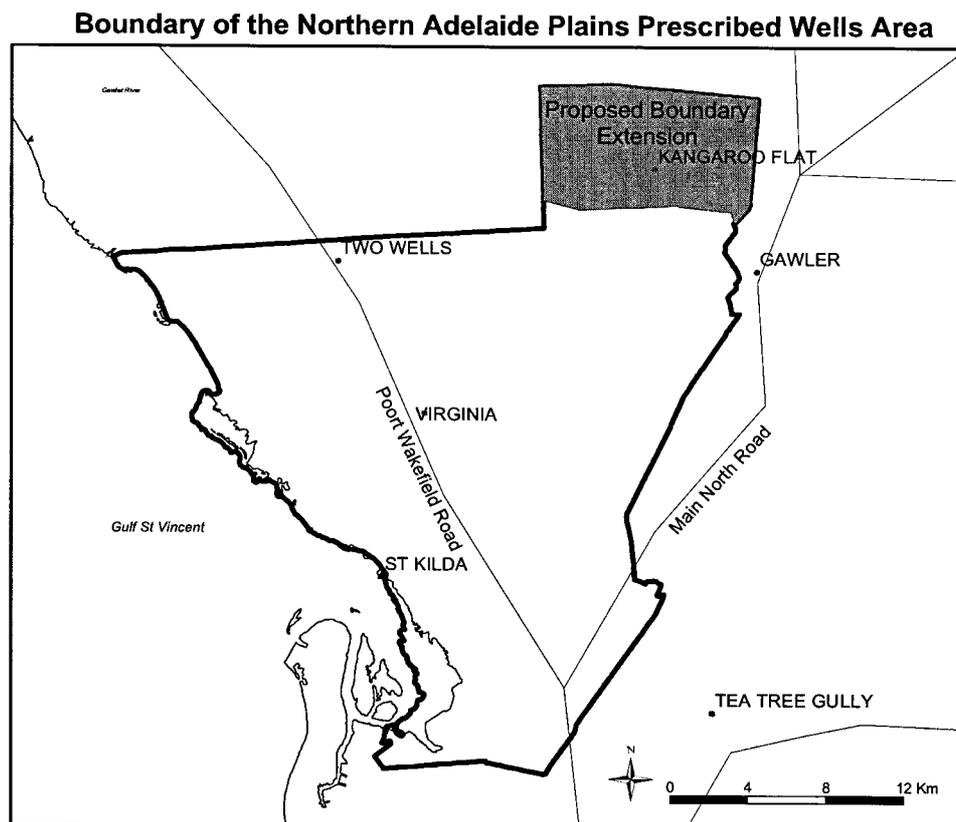

Notice of intention to vary the regulation declaring the Northern Adelaide Plains Prescribed Wells Area, Pursuant to section 8 of the Water Resources Act 1997

I, JOHN DAVID HILL, the Minister for Environment and Conservation in the State of South Australia, hereby give notice that I propose to recommend to the Governor that she vary the proclamation, made under section 41 of the Water Resources Act 1976 on 13 May 1976, which was in force immediately before the commencement of the Water Resources Act 1997, by deleting clause 1 and replacing it with the following clause 1:

‘1. Declare that the area of the State delineated in GRO Plan No. 429/2003 shall be a Prescribed Wells Area for the purpose of the said Act, such area to be known as the Northern Adelaide Plains Prescribed Wells Area.’

I propose that in all other respects the proclamation remain the same.

The proposed area delineated in GRO Plan No. 429/2003 is illustrated in the map below:

The variation of the proclamation will incorporate Kangaroo Flat Restricted Area, an area bounded by the bold line in GRO Plan No. 45/2000, within the Northern Adelaide Plains Prescribed Wells Area. The reason for incorporating this area is that Kangaroo Flat is under increasing pressure from irrigation development, which will not be sustainable without the introduction of controls over water resource use. The inclusion of the Kangaroo Flat Restricted Area within the Northern Adelaide Plains Prescribed Wells Area will ensure that all irrigators extracting from the aquifer system are subject to the same conditions of use as will be set out in a water allocation plan and enable the underground water resources of the region to be managed and used in accordance with the Object of the Water Resources Act 1997.

I invite all interested persons to make written submissions to me in relation to this proposal. The closing date for submissions will be 27 February 2004.

All submissions and enquiries should be addressed to:
