DEVELOPMENT ACT 1993, SECTION 48: DECISION BY THE DEVELOPMENT ASSESSMENT COMMISSION AS DELEGATE OF THE GOVERNOR

Preamble

1. The decision of the Governor's Deputy under section 48 of the Development Act 1993, to approve the development of a Glass Bottle Manufacturing Facility located 3.5 km north-east of Gawler, was published in the *Gazette* on 10 May 2001.

2. The development was the subject of a Development Report and an Assessment Report under sections 46 and 46D of the Development Act 1993.

3. Amendments to the development approval were subsequently considered and approved by the Development Assessment Commission, and published in the *Gazette* on 31 May 2001, 11 October 2001, 26 June 2003, 2 October 2003, 4 March 2004 and 30 September 2004.

4. A further proposal to amend the landscape plan has been under consideration by the Development Assessment Commission as delegate of the Governor under Division 2 of Part 4 of the Development Act 1993.

5. The amendment to the development is contained in a letter from Leighton Contractors Pty Ltd dated 11 November 2004.

6. The Development Assessment Commission is satisfied that the amendment does not require the preparation of a further or amended Development Report.

7. The Development Assessment Commission has, in considering the matter, had regard to all relevant matters under section 48 (5) of the Development Act 1993.

Decision

PURSUANT to section 48 of the Development Act 1993, the Development Assessment Commission, as delegate of the Governor, grants development approval to the amended Glass Bottle Manufacturing Facility located 3.5 km north-east of Gawler.

Conditions of Approval

1. The development must be undertaken in accordance with:

- Letters from Leighton Contractors Pty Ltd dated 19 February 2004, 11 August 2004 and 11 November 2004.

unless varied by the following conditions.

2. No works may be commenced unless and until:

- (a) a private certifier or the Light Regional Council has certified to the Development Assessment Commission that all work that constitutes building work under the Development Act complies with the Building Rules; and

- (b) A Construction Environmental Management Plan (CEMP) to address management issues during construction has been prepared by the proponent to the reasonable satisfaction of the Development Assessment Commission in consultation with the Environment Protection Agency (a branch of the Department for Environment and Heritage).

The matters addressed in the CEMP shall include, but not be limited to:

- dust control during demolition and construction;
- stormwater management during demolition and construction;
- waste water disposal;
- site clean up during demolition and construction;
- disposal of all waste;
- measures for controlling noise impacts from all activities and equipment; and
- hours of work.

3. Prior to the commencement a detailed flood and stormwater management plan should be prepared to the reasonable satisfaction of the Development Assessment Commission. Such a plan should consider water sensitive water design aspects and 'best practice' measures for progressively treating run-off prior to disposal, such as the use of vegetated swales, retention basins (e.g. ephemeral wetlands), gross pollutant traps, oil/grease traps and silt traps. The disposal of run-off and use of 'treated' water, such as for irrigating landscape/amenity plantings or use in plant processes, should also be addressed. In particular, such a plan must include measures to ensure that:

- Development does not increase the flood risk to any other property by provision being made to ensure that stormwater run-off leaving the site post-development does not exceed that which would be expected in its natural state for a 100 year ARI flood event.
- Development is designed to adequately manage stormwater by provision being made to ensure that run-off from the site post-development is suitably collected, treated and disposed of. This shall be achieved by adopting the following principles:
 - the peak rate of stormwater run-off from the development should not exceed that which would be expected from the site in its natural state for all storms up to and including a 20 year ARI event. This will require run-off detention and storage.
 - the volume of stormwater run-off from the development shall not exceed that which would be expected from the site in its natural state, for all storms up to and including a 20 year ARI event. This will require run-off retention including re-use and/or other means of depletion as may be necessary.
 - provision for stormwater run-off treatment should be incorporated to ensure that all stormwater run-off from the development meets appropriate quality standards.

4. All landscaping indicated on Drawing V627/D/L/1801, Rev. A6 shall be established within six months of the date of this approval and shall be maintained and nurtured at all times with any diseased or dying plants being replaced.

5. The main vehicle entrance gate adjacent to Argent Road is to be moved a sufficient distance inside the property boundary to ensure that there is sufficient space so that no part of any vehicle extends onto the road or road reserve.

6. All carparking areas are to be clearly line marked and numbered within three months of the date of this approval.

7. Buildings must be clad in a light colorbond colour, such as 'Marino'.

8. Noise associated with the operation of the proposed development must not exceed an equivalent noise level of 38 dB(A) at any noise sensitive receiver, when measured in accordance with the Environment Protection (Industrial Noise) Policy 1994. This condition shall be achieved for neutral weather conditions.

9. The environmental noise assessment must be repeated by the proponent following final selection of the plant and equipment. The extent and technical details of the noise reduction measures to achieve condition 8 shall be provided with this assessment. The report shall be submitted to the Environment Protection Authority for approval prior to construction.

10. An environmental noise assessment associated with the construction phase of the project must be submitted as part of an approved Construction Environment Management Plan (as described in condition 2 (b)). The environmental noise assessment shall identify the noise reduction measures that are reasonable and practicable. The report shall be submitted for approval prior to construction. The relevant content of the assessment must be shown to have been included within an approved construction plan.

11. A particulate monitor must be installed, to the reasonable satisfaction of the Development Assessment Commission in consultation with the Environment Protection Authority, on one of the stacks of each furnace for the purposes of monitoring the level of particulate emissions from the stack.

12. A continuous NOx sampler must be installed, to the reasonable satisfaction of the Development Assessment Commission in consultation with the Environment Protection Authority, on one of the stacks of each furnace for the purposes of monitoring the level of NOx emissions from the stack. Installation in the recuperative section is recommended, being before ambient air dilution.

13. If the stack NOx samplers are installed after the ambient air inlet (not in the recuperative section) then two gas flow velocities (total gas out, furnace gas or ambient air in) must be continuously measured, to determine the dilution factor.

14. On each stack that does not contain the particulate and NOx samplers from each furnace, the flow velocity, temperature and pressure must be continuously monitored.

15. The stack monitoring equipment and sampling ports shall be installed in accordance with the Environment Protection Authority 'Monitoring Manual—Emission Testing Methodology for Air Pollution Manual' (1996).

16. During construction, stormwater management must ensure:

- surface stormwater from outside the construction site is diverted around all disturbed areas;
- surface stormwater on the construction site is intercepted and redirected to protect all exposed areas;
- erosion and sediment control structures are installed prior to the commencement of all site disturbance and construction works;
- all stockpiles/spoil heaps are surrounded by a silt fence at the down-slope toe of the stockpile; and
- provision is made on site for the collection and temporary storage of all site debris and waste. Storage facilities used to store waste materials must be located away from all drainage paths to prevent litter and debris from entering the stormwater system, be covered to prevent the entry of stormwater or dispersal by wind, and be sealed to prevent leakage.

17. Areas containing materials such as fuels and chemicals that have the potential to contaminate stormwater must be adequately banded. (This requirement would be satisfied by compliance with Australian Standards (AS3780.8) for storage tank and bund design).

NOTES TO THE APPLICANT

The Environment Protection Authority recommended that the attached notes be included in any decision notification that may be issued.

Licensing Requirements

The proposed facility will require licensing under the Environment Protection Act 1993. Scheduled activities under the Act (Schedule 1 Activities of Environmental Significance) that would occur as a result of this proposal include, but may not be limited to:

- 1 (1) Chemical Storage and Warehousing Activities.
- 2 (4) Ceramic works.
- 3 (4) Activities producing Listed Waste.

- 8 (2) Fuel Burning.
- 7 (6) Earthworks Drainage (may be required during the construction phase).

It should be noted that the onus is on the person proposing to undertake an activity of environmental significance to seek an environmental authorisation (works approval and/or licence) before undertaking any such activity (Refer to Schedule 1 of the Environment Protection Act 1993).

It is recommended that any licence required under the Environment Protection Act be applied for at least six months prior to the planned commencement of commissioning of the plant.

The Environment Protection Authority may attach any relevant conditions to any licence granted under the Environment Protection Act 1993. Licence conditions would include the following, as indicated above.

Recommended Licence Condition 1: Noise monitoring shall occur during commissioning and annually thereafter at positions nominated by the Environment Protection Authority. The indices L_{Amax} , L_{Aeq} and L_{A90} shall be measured as a minimum over consecutive 15 minute periods to record at least the equivalent of 7 days of data. Weather conditions sufficient to determine the Pasquill-Gifford stability category shall be recorded for the measurement period. Attended measurements of the above indices shall occur on two separate occasions during the automatic logging night period. The attended measurements shall also include measurements of the indices in the 1/3 Octave band spectrum format. A report summarising the results of the noise monitoring shall be submitted to the nominated Environment Protection Authority Licence Co-ordinator within 14 days of completion of the monitoring.

Recommended Licence Condition 2: Where noise monitoring indicates that operation of the facility and ancillary equipment exceeds an equivalent noise level of 38 dB(A) when measured and adjusted in accordance with the Environmental Protection (Industrial Noise) Policy 1994, a noise reduction program shall be carried out. The noise reduction program will comprise identification of the responsible noise sources, determination of the reasonable and practicable measures available and implementation of these measures following approval of the report by the Environment Protection Authority. An acoustic engineer shall manage the program.

Recommended Licence Condition 3: Install aerators on the stormwater ponds if odorous conditions arise. Include the Gutteridge Haskins and Daveys (GHD) Report recommendations as part of the final design of the stormwater ponds, irrigation and landscaping plan. To be dealt with as a condition of the licence.

General Environmental Duty

The applicant is reminded of its general environmental duty, as required by section 25 of the Environment Protection Act, to take all reasonable and practical measures to ensure that its activities on the whole site, including during construction, do not pollute the environment in a way which causes or which may cause environmental harm.

Traffic Management

The applicant is advised to contact Transport SA in regard to proposed transport routes for the delivery of raw materials and the distribution of finished product, so that any possible traffic impacts on the Gawler township and the local road network are satisfactorily addressed and minimised.

ADELAIDE, S.A. 5000

Dear John

Site Specific Loss Factors for Small Generators Minor Variations—Final Determination

On 29 September 2004, the Australian Competition and Consumer Commission (ACCC) received applications from the National Electricity Code Administrator (NECA) under section 91A of the Trade Practices Act 1974 (TPA) for minor variations to the existing authorisations (Nos A40074, A40075, A40076, as amended) in respect of the National Electricity Code (code).

Please find enclosed a copy of the ACCC's final determination, which outlines its analysis and views on the variations. The ACCC proposes to vary the existing authorisations to incorporate the proposed variations.

A person dissatisfied with this final determination may apply to the Australian Competition Tribunal for its review.

If you have any enquiries please contact me on (03) 9290 1867 or Kirstan Hoppitt on (02) 6243 1342.

7—Provisions relating to designation of smoking areas

- (1) This regulation applies for the purposes of section 47 of the Act and for the purposes of the conditions of any exemption that require the designation of a smoking area.
- (2) An area is designated by the licensee as a smoking area if the licensee—
 - (a) displays signs at each point of public entry to the area indicating clearly that smoking is permitted beyond that point; and
 - (b) indicates clearly in each sign any of the following areas that do not form part of the smoking area:

- (i) if a prescribed area or area within 1 metre of a service area is required to be excluded—that area;
 - (ii) in the case of a bar to which section 47(1)(b) of the Act applies—the portion of the bar in which smoking is not to be permitted;
 - (iii) in the case of a gaming area in which gaming machines may be operated (not being the casino)—the gaming machines and adjacent areas at which smoking is not to be permitted;
 - (iv) in the case of a gaming area in the casino—any portion of the gaming area in which smoking is not to be permitted.
- (3) An area is excluded by the licensee from a designated smoking area if signs are displayed in accordance with regulation 8(2) so as to clearly indicate the area excluded.
- (4) A sign required to be displayed under this regulation must be displayed in such a way that a person (other than the licensee or an employee of the licensee) cannot readily remove or relocate the sign.
- (5) A term used in this regulation that is defined in section 47 of the Act has the same meaning as in that section.

8—Requirement that certain signs be displayed in areas where smoking not permitted

- (1) An occupier of an enclosed public place (not being licensed premises) must display signs that contain—
- (a) the phrase "no smoking", "smoking prohibited" or "smoke-free zone" in letters that are at least 20 mm in height and the smoking prohibited symbol with a diameter of at least 70 millimetres; or
 - (b) other words or symbols that indicate clearly that smoking is not permitted,

in such numbers and in positions of such prominence that the signs are likely to be seen by persons at any public entrance to the place and within the place.

Maximum penalty: \$1 250.

Expiation fee: \$160.

- (2) Subject to subregulation (3), a licensee of licensed premises must, in each area in which smoking is not permitted, display signs that contain—
- (a) the phrase "no smoking", "smoking prohibited" or "smoke-free zone" in letters that are at least 20 mm in height and the smoking prohibited symbol with a diameter of at least 70 millimetres; or
 - (b) other words or symbols that indicate clearly that smoking is not permitted,

in such numbers and in positions of such prominence that the signs are likely to be seen by persons within the area.

Maximum penalty: \$1 250.

Expiation fee: \$160.

- (3) Subregulation (2) does not apply in relation to a gaming machine at which smoking is not permitted in a gaming area in which gaming machines may be operated (not being the casino) and instead the licensee must affix to the side of each such gaming machine (but not so as to obscure an identification plate or manufacturing plate of the gaming machine) the sign set out in Schedule 2.

Maximum penalty: \$1 250.

Expiation fee: \$160.

- (4) The following requirements apply to the sign referred to in subregulation (3):
- (a) the dimensions of the sign must not exceed 150 mm x 105 mm;
 - (b) the following parts of the sign must be printed in red:
 - (i) the circle and diagonal of the no smoking symbol must be printed in red;
 - (ii) the words "Within 1 metre of this machine".
- (5) A sign required to be displayed under this regulation must be displayed in such a way that a person (other than the occupier or licensee or an employee of the occupier or licensee) cannot readily remove or relocate the sign.
- (6) A term used in this regulation that is defined in section 47 of the Act has the same meaning as in that section.

Water Resources (Lower Limestone Coast Prescribed Wells Area) Regulations 2004

under section 8 of the *Water Resources Act 1997*

Contents

Preamble

- 1 Short title
 - 2 Commencement
 - 3 Interpretation
 - 4 Declaration of prescribed wells and operation of section 7(5)
-

Preamble

- 1 A proclamation was made pursuant to section 41 of the *Water Resources Act 1976* (the **1976 Act**) (see *Gazette 9.1.1986 p19*) declaring—
 - (a) an area of the State to be the Comaum-Caroline Proclaimed Region; and
 - (b) an area of the State to be the Naracoorte Ranges Proclaimed Region,for the purposes of that Act.
- 2 A proclamation was made pursuant to section 33(2) of the *Water Resources Act 1990* (the **1990 Act**) (see *Gazette 1.7.1993 p96*) in respect of the area (other than the area previously declared to be a proclaimed region)¹ comprising the Hundreds of Naracoorte and Robertson declaring—
 - (a) all wells situated in the area; and
 - (b) all wells drilled in the area after the making of the proclamation,to be proclaimed wells.
 - 1 See the proclamation referred to in clause 1.
- 3 A proclamation was made pursuant to section 33(2) of the 1990 Act (see *Gazette 20.3.1997 p1293*) declaring an area of the State to be the Lacepede Kongorong Proclaimed Wells Area.
- 4 Schedule 3, clause 2 of the *Water Resources Act 1997* (the **current Act**) provides—
 - (a) that a proclamation under section 33(2) of the 1990 Act in force immediately before the commencement of the current Act continues in force as though it were a regulation under section 8(1) of the current Act; and

- (b) in the case of a proclamation under section 41 of the 1976 Act in force immediately before the commencement of the current Act—that the proclamation continues in force as though it declared the existing and future wells in its Proclaimed Region to be prescribed wells; and
 - (c) that a proclamation referred to in paragraph (a) or (b)—
 - (i) may be varied or revoked by regulation as though it were a regulation under section 8(1) of the current Act; and
 - (ii) in the case of a proclamation declaring a well, will, unless varied by regulation, be taken to exclude the operation of section 7(5).
- 5 It is now appropriate to make a regulation under section 8 of the current Act that will have the effect—
- (a) of amalgamating the areas referred to in clauses 1 to 3; and
 - (b) of re-naming the amalgamated area as the Lower Limestone Coast Prescribed Wells Area (in keeping with practices under the current Act); and
 - (c) by removing the exclusion of the operation of section 7(5) of the current Act, of allowing occupiers of land situated in the Lower Limestone Coast Prescribed Wells Area to take water from a well that is on the land to use for domestic purposes or for watering stock (other than stock subject to intensive farming).
- 6 There is no need for a regulation to be made prescribing an establishment period or a prescribed period for the purposes of section 36 of the current Act in relation to the declaration of the Lower Limestone Coast Prescribed Wells Area, as the Lower Limestone Coast Prescribed Wells Area is simply the result of amalgamating currently existing prescribed wells areas.
-

1—Short title

These regulations may be cited as the *Water Resources (Lower Limestone Coast Prescribed Wells Area) Regulations 2004*.

2—Commencement

These regulations come into operation on the day on which they are made.

3—Interpretation

In these regulations, unless the contrary intention appears—

Act means the *Water Resources Act 1997*;

Lower Limestone Coast Prescribed Wells Area means the area bounded by the bold black line on GRO Plan No 171/2004.

4—Declaration of prescribed wells and operation of section 7(5)

- (1) Pursuant to section 8 of the Act, wells situated in the Lower Limestone Coast Prescribed Wells Area and wells drilled in that area after the commencement of these regulations are declared to be prescribed wells.
- (2) The operation of section 7(5) of the Act is not excluded in relation to any such prescribed well.

Note—

As required by section 10AA(2) of the *Subordinate Legislation Act 1978*, the Minister has certified that, in the Minister's opinion, it is necessary or appropriate that these regulations come into operation as set out in these regulations.

CITY OF CHARLES STURT

DEVELOPMENT ACT 1993

Charles Sturt (City) Development Plan—Centres Minor Amendments and Bulky Goods Plan Amendment Report—Draft for Public Consultation

NOTICE is hereby given that the City of Charles Sturt has prepared a draft Plan Amendment Report (PAR) to amend the Charles Sturt (City) Development Plan.

The Centres Minor Amendments and Bulky Goods PAR affects land in Centre Zones throughout the Council area.

The Centres Minor Amendments and Bulky Goods PAR proposes to amend the Development Plan to:

- Remove unnecessary constraints to development in centres through reduction of non-complying policies, particularly building height control policies, to enable the revitalisation of centres.
- Improve policy to enable the development potential of some centres to be realised, including the addition of policy to provide guidance for residential development and increased building height.
- Rezone the Surf House site in the Sportsmans Drive Local Centre Zone to Residential Zone (West Lakes Medium Density Policy Area 5).
- Add an Historic (Conservation) Policy Area in the Local Shopping Zone.
- Resolve definitional constraints that currently prevent the full range of bulky goods type uses from occurring within areas that are intended for these types of uses in District Centre Zones.
- Provide clearer direction about which Policy areas in District Centre Zones should accommodate bulky goods developments
- Provide more direction for the built form and design of bulky goods development.

The draft PAR will be available for inspection and purchase (\$5 per copy) from 2 December 2004 to 7 February 2005 during opening hours at the Council office, 72 Woodville Road, Woodville. The draft PAR may also be inspected at Council libraries during that time or on www.charlessturt.sa.gov.au.

Written submissions regarding the draft PAR will be accepted by the City of Charles Sturt until 5 p.m. on 7 February 2005. All submissions should be addressed to the Chief Executive, City of Charles Sturt, P.O. Box 1, Woodville, S.A. 5011.

Copies of all submissions received will be available for inspection by interested persons at the Civic Centre, 72 Woodville Road, Woodville from 7 February 2005 until the conclusion of the public hearing.

A public hearing will be held on Tuesday, 15 February 2005, commencing at 6 p.m., in Meeting Room CC1, Civic Centre, 72 Woodville Road, Woodville. Persons wishing to be heard at the public hearing are requested to indicate that intention in their submission. Interested persons may be heard in relation to the Centres Minor Amendments and Bulky Goods PAR and/or the submissions. The public hearing may not be held if no submission indicates an interest in speaking at the public hearing.

Dated 2 December 2004.

KANGAROO ISLAND COUNCIL

Roads (Opening and Closing) Act 1991

NOTICE is hereby given pursuant to section 10 of the Roads (Opening and Closing) Act 1991, that the Kangaroo Island Council proposes to make a Road Process Order to close those portions of Willoughby Road marked 'A' and 'B' on Preliminary Plan No. 04/0104:

Issue a Certificate of Title to the Kangaroo Island Council for 'A', which land is being retained by Council for Public Purposes.

Issue a Certificate of Title to the Kangaroo Island Council for 'B', which land is being retained by Council for Public Purposes.

A statement of persons affected by the proposed road process together with a copy of the Preliminary Plan is available for inspection at the office of the Kangaroo Island Council, Dauncey Street, Kingscote, Kangaroo Island, S.A. 5223, during normal office hours. Copies may also be inspected at the Adelaide office of the Surveyor-General, 101 Grenfell Street, Adelaide, during normal office hours.

Any person is entitled to object to the proposed road process, or any person affected by the proposed closure is entitled to apply for an easement to be granted in that person's favour over the land subject to the proposed closure. Such objection or application for an easement must set out the full name and address of the person making the objection or application and must be fully supported by reasons. Any application for an easement must give full particulars of the nature and location of the easement land and where made by a person as the owner of adjoining or nearby land, specify the land to which the easement is to be annexed.

The objection or application for an easement must be made in writing to the Kangaroo Island Council, P.O. Box 121, Kingscote, Kangaroo Island, S.A. 5223 within 28 days of this notice and a copy shall be forwarded to the Adelaide office of the Surveyor-

General, G.P.O. Box 1354, Adelaide, S.A. 5001. Where a submission is made, the Kangaroo Island Council will give notification of a meeting at which the matter will be considered, so that the person making the submission or a representative may attend, if desired.

Dated 2 December 2004.
