Dear Stephen

Final Determination—Hydro Tasmania Metering

On 16 December 2003, the Australian Competition and Consumer Commission (Commission) received applications for authorisation (Nos A90898, A90899 and A90900) of a derogation to the National Electricity Code (Code). The applications were submitted by the National Electricity Code Administrator (NECA), under Part VII of the Trade Practices Act 1974 (TPA). Hydro Tasmania is currently preparing for Tasmania's entry to the National Electricity Market (NEM) in May 2005. It has embarked on a major program of upgrading its metering installations. Hydro Tasmania is seeking a derogation to exempt any metering installations that have not been upgraded at the time of Tasmania's entry to the NEM from the relevant metering provisions of the code for a maximum of 12 months.

The final determination outlines the Commission's proposal to grant authorisation. Chapter 5 of the final determination outlines the condition of authorisation. A copy of the final determination is attached.

No pre-determination conference was called, or written submissions received, therefore the draft determination has become the final determination. A person dissatisfied with the final determination may apply to the Australian Competition Tribunal for its review.
