2. The applicant shall submit further information and application(s) in relation to the matters that have been reserved for further decision-making.
3. No works on any part of the proposed Major Development shall commence until a favourable decision has been notified to the applicant by me or my delegate in respect of the reserved matter referred to in subparagraph (i) in paragraph (a) of the Decision section above (refer also to Condition 6).
4. No construction activities or building works shall commence until a heritage survey has been completed to identify any Aboriginal Sites, Objects or Remains in the site area, and monitoring shall be undertaken during construction to enable the development to proceed without a breach of the Aboriginal Heritage Act 1988. Details of the applicant's Heritage Agreement and consultation with the Ngadjuri Heritage Association shall also be provided to the Development Assessment Commission and the Department of Aboriginal Affairs and Reconciliation prior to construction commencing.
5. Subject to conditions 3, 4, and 6, the applicant may stage building works, and, if so, may commence an approved stage before receiving my decision concerning building rules compliance for other stages (refer reserved matter (i) in paragraph (b)

of the Decision section above). No building works shall commence on a stage of the development, however, until a favourable decision in relation to building rules compliance in respect of that stage has been notified in writing to the applicant by me or my delegate.

6. A decision on building rules compliance will only be made after a Building Rules assessment and certification has been undertaken and issued by the Barossa Council, or a private certifier, in accordance with the provisions of the Development Act 1993, and after the Minister for Urban Development and Planning receives a copy of all relevant certification documentation, as outlined in Regulation 64 of the Development Regulations 1993 (refer to 'Notes to Applicant' below for further information).

7. The management and monitoring of the pre-construction, construction and operational phases of the wine bottling and storage facility shall be undertaken in accordance with the Environmental Management and Monitoring Plan, prepared by Parsons Brinckerhoff on behalf of Beringer Blass Wine Estates Limited (Report No. 2102542A-04-0600-02), dated October 2004, and as amended by the letter from Nolan Rumsby Planners dated 23 November 2004.

8. The wastewater collection and treatment system shall be designed to ensure that the general obligations of the Environment Protection (Water Quality) Policy 2003 are met, and to ensure that effluent does not overflow or escape from drains, pipes, sumps, tanks, storage/treatment basins into any watercourse, or into stormwater drains which do not drain into the effluent collection, treatment and disposal system, except where the effluent complies with criteria in the above Policy.

9. In accordance with commitments by the applicant, wastewater shall not be stored in open storage ponds until it is first treated to reduce the potential for odours to occur.

10. The applicant shall ensure that stormwater, which does not comply with the Environment Protection (Water Quality) Policy 2003 criteria, is not discharged from the site without prior effective treatment.

11. Noise from the development shall be in accordance with the following:

Construction Activities—Mondays to Saturdays

- (a) not exceed 52 dB(A) between the hours of 7 a.m. and 10 p.m. measured and adjusted at the nearest existing residential property;
- (b) not exceed 45 dB(A) between the hours of 6 a.m. and 7 a.m. measured and adjusted at the nearest existing residential property;
- (c) shall be in accordance with the Environment Protection (Industrial Noise) Policy 1994;
- (d) site deliveries and other noisier construction activities shall be scheduled to minimise noise impacts;
- (e) all other aspects of construction activities shall be undertaken in accordance with the Environmental Management and Monitoring Plan.

Operation of the Development

- (c) a short term typical maximum noise level of 60 dB (A) when measured at the nearest existing residential property.

12. The proponent shall, subject to obtaining the landowner's consent in relation thereto, install, operate and maintain frost fans on the property located north of the proposed development site either in accordance with the recommendations in the Development Report and assessed in the Acoustic report on frost fan impacts and in accordance with the Environment Protection

Authority's standards for their operation, siting and distance from potential receptors, or in accordance with any alternative arrangement negotiated with the landowner. If the landowner refuses consent for the establishment of frost fans on the property located to the north of the proposed development, the proponent is excused from compliance with this condition.

13. Landscaping of the site shall commence prior to construction of the proposed Major Development, and when established must be maintained in good health and condition at all times. A plant must be replaced if or when it dies or becomes seriously diseased within the first growing season after the plant dies or becomes seriously diseased.

14. In accordance with commitments by the applicant, building walls up to 3 m shall be clad in colorbond 'ironstone' (or similar), and walls above 3 m shall be clad in colorbond 'paperbark' (or similar).

15. All lighting shall be directed and shielded in such a way as to prevent glare from the site, and any lighting that is not in use for operational or security reasons shall be switched off.

- The Barossa Council or private certifier undertaking Building Rules assessments must ensure that the assessment and certification are consistent with this provisional development authorisation (including any Conditions or Notes that apply in relation to this provisional development authorisation).
- Should the applicant wish to vary the Major Development or any of the components of the Major Development, an application may be submitted, provided that the development application variation remains within the ambit of the Development Report and Assessment Report referred to in this provisional development authorisation. If an application variation involves substantial changes to the proposal, pursuant to section 47 of the Development Act 1993, the applicant may be required to prepare an amended Development Report for public inspection and purchase. An amended Assessment Report may also be required to assess any new issues not covered by the original Assessment Report and a decision made by the Governor pursuant to section 48 of the Development Act 1993.
- It is recommended that the applicant finalise the required water licence arrangements pursuant to the Water Resources Act 1997, for the construction of the proposed water storage dam and subsequent re-use of water, prior to construction of the proposed Major Development (in order for operations to proceed). - The applicant is reminded of its obligations under the Aboriginal Heritage Act 1988 whereby any 'clearance' work, which may require permission to disturb, damage or destroy Aboriginal Sites, must be undertaken with the full authorisation of the Minister for Aboriginal Affairs and Reconciliation, according to section 23 of the Aboriginal Heritage Act 1988.
- It is recommended that the applicant ensure there are measures in place to promote staff vehicle access to the site from the northern end of Light Pass Road.
- The applicant is advised that a further development application and authorisation will be required pursuant to Part 4, Division 2 of the Development Act 1993, for the following matters:
 - prior to commencement of Stage 2, if the applicant proposes to treat wastewater at the existing Wolf Blass winery wastewater treatment system;
 - for the establishment of any additional frost fans that may be required as part of Stage 2;
 - if the external advertising signage is amended from that indicated in the Development Report, or additional advertising signage is proposed.

Dear Stephen

Minor variation to the NEC—NSW transmission pricing derogation

On 18 June 2004, the Australian Competition and Consumer Commission (ACCC) received an application from the National Electricity Code Administrator (NECA) under section 91A of the Trade Practices Act 1974 (TPA) for minor variations to the existing authorisations (Nos A40074, A40075, A40076, as amended) in respect of the National Electricity Code (code). The minor variations relate to New South Wales transmission pricing derogations, and were submitted by NECA on behalf of the NSW Minister for Energy and Utilities.

Please find enclosed a copy of the ACCC's final determination, which outlines its analysis and views on the variations. The ACCC proposes to vary the existing authorisations to incorporate the proposed variations.

A person dissatisfied with this final determination may apply to the Australian Competition Tribunal for its review.

REPORT OF THE REMUNERATION TRIBUNAL

NO. 2 OF 2005

Ministers of the Crown and Officers and Members of Parliament

1. *Introduction*

1.1 Section 4 (1) (c) of the Parliamentary Remuneration Act 1990 confers jurisdiction on the Remuneration Tribunal to determine from time to time electorate allowances and other allowances and expenses for members of Parliament.

1.2 The last Determination covering these matters was issued on 12 May 2003, viz Determination No. 2 of 2003.

- 1.3 This Determination provided for a minimal adjustment to the electorate allowances only, based on the movement in the Consumer Price Index. The associated report detailed the Tribunal's decision to conduct an extensive review of electorate allowances payable to members of Parliament by way of a survey. It wrote to all members on 30 May 2003, requesting this survey be completed for the period 1 July 2003 to 30 June 2004 and returned to the Tribunal by 31 July 2004.
- 1.4 In December 2003, the Tribunal issued Determinations and Reports Nos 10 and 11 of 2003 which provided further details on the review of Electorate Allowances, Country Member's Accommodation Allowance, Expense Allowances of Ministers of the Crown and Officers of Parliament, and Travelling and Accommodation Allowance for Ministers and the Leader and Deputy Leader of the Opposition. No increases were made to any of these allowances at that time.
- 1.5 In July 2003 and August 2004, a number of legislative changes were made to the Parliamentary Remuneration Act 1990, which resulted in the Tribunal being required to make a Determination to provide for the provision of a motor vehicle to each member of Parliament. The changes prescribed that any Determination in relation to the provision of a non-monetary benefit must not provide for any reduction in the electorate and other allowances and other expenses payable to members of Parliament.
- 1.6 Determination No. 11 of 2003 specifically related to issues concerned with the provision of a motor vehicle to members of Parliament and electorate allowances. The Tribunal determined that it would defer any decision in relation to the provision of a motor vehicle to members of Parliament until after the surveys were returned in July 2004, and strongly encouraged all members to provide the information to enable the matter to be further reviewed.
- 1.7 In December 2004 a further amendment was made to the Parliamentary Remuneration Act 1990 which revoked the requirement placed on the Tribunal to make a Determination providing for the provision of a motor vehicle to a member of Parliament, and the Government instead approved administrative arrangements to allow for this to occur. However, the clause relating to the inability of the Tribunal to reduce electorate or other allowances or expenses, as a result of the provision of a non-monetary benefit, was not revoked.

2. Electorate Allowances

- 2.1 In past Determinations the Tribunal has clarified the purpose of electorate allowances provided to members of Parliament. These reasons are reiterated below:

'Electorate allowances are provided to compensate members of Parliament for the expenses they necessarily incur in the performance of their duties. A significant component of the allowance covers the cost of running a motor vehicle in servicing of electorates. Other items of expense may include accommodation and travelling expenses (not otherwise covered), donations, subscriptions, telephone, printing, stationery and postage, without attempting to give a fully exhaustive list.'
- 2.2 As detailed in paragraph 1.3 above, the Tribunal wrote to all members in May 2003 advising of an extensive review of electorate allowances payable to members of Parliament by way of a survey. The Tribunal requested members complete the survey for the period 1 July 2003 to 30 June 2004 and return them to the Tribunal by 31 July 2004.
- 2.3 As a result of this request, a number of enquiries were received from members seeking clarification on the expenses covered by the electorate allowance. Consequently, the Tribunal wrote to all members in April 2004 to clarify the expenditures that would qualify. Items which the Tribunal does not consider qualify for the electorate allowance include election expenses, wages and wage overheads, office printing and stationery, office petty cash, or any other office supplies or expenses as they are considered to be incorporated in the global allowance.

The Tribunal advised that any expenses claimed in relation to home office establishment, equipment finance, home office supplies or expenses, accounting, bank fees, dry cleaning, FID, promotions, home water and council rates, or parliamentary catering would need clear justification as necessary expenditure in servicing constituents to be considered eligible electorate allowance expenses. The Tribunal also advised that expenses that may qualify for tax deductibility, such as donations to charitable organisations, do not necessarily accord with those actual personal expenses incurred in serving the constituents of the electorate.

- 2.4 Only nine completed surveys were received by the Tribunal. A further two verbal submissions were made to the Tribunal regarding the electorate allowance. The Tribunal wishes to thank those members who complied with their request and appreciates the information provided. However, the Tribunal also wishes to convey its extreme disappointment at the lack of response from other members, particularly given the indication that was previously given by a member that should the Tribunal conduct a further detailed review at least nine members of the Legislative Council would return detailed information for consideration.
 - 2.5 From those submissions returned the Tribunal did note that the bulk of eligible expenses detailed related to costs associated with running and maintaining a motor vehicle. The rest of the expenses appeared as a minimal component of the electorate allowance. The Tribunal noted the various donations made to political parties and charities (which included organisations such as Red Shield, Mary Potter Hospice, and Bedford Industries) and whilst the Tribunal recognises national and state charities as very worthwhile, it does not consider that donations to such organisations or political parties qualify as expenses to be included for reimbursement by way of the electorate allowance. The Tribunal does however consider donations made to local organisations from within the member's electorate such as a local service, volunteer, or sports club as relevant and qualifying for reimbursement from the electorate allowance.
 - 2.6 The Tribunal has considered all of the information that was provided in the survey responses, the most recent verbal submissions and previous written and oral submissions made, together with the implications of the new administrative arrangements for the provision of a motor vehicle to members of Parliament, and has determined that it is not appropriate to further increase the allowance. Indeed, if it were not for the legislative restriction on reducing electorate allowances there could well have been a reduction having regard to the information provided.
 - 2.7 The Tribunal will monitor the take up of motor vehicles by members with a view to further reviewing this allowance at a later date.
- ### 3. Country Member's Accommodation Allowance
- 3.1 In December 2003, the Tribunal determined that an increase in the Country Member's Accommodation Allowance was not justified, and that it would continue to monitor the number of parliamentary sitting days in regard to this allowance.
 - 3.2 Having regard to the previous Determinations, the Tribunal reiterates its advice regarding the further review of this allowance prior to the next election. It is envisaged that two different rates will be determined, one for commercial and the other for non-commercial accommodation.
 - 3.3 It is also envisaged that revised Country Member's Accommodation Allowances will be determined to operate immediately following the next election and will be applicable to all newly elected and re-elected country member's of Parliament.
- ### 4. Expense Allowances of Ministers of the Crown and Officers of Parliament
- 4.1 The Tribunal did not receive any other additional information or submissions in response to its requests relating to the Expense Allowances of Ministers of the Crown and Officers of Parliament.

4.2 Consequently, as the Tribunal did not receive any submissions to increase these allowances and has had no further evidence put before it as to the measure of increase in costs (if any) during this review process, the Tribunal has determined that no increase will be made to the Expense Allowances of Ministers of the Crown and Officers of Parliament.

5. *Travelling and Accommodation Allowances for Ministers and the Leader and Deputy Leader of the Opposition*

5.1 Having regard to the increased travelling and accommodation allowances granted to the South Australian public sector and to Court Officers, Judges and Statutory Officers, the Tribunal believes justification exists to increase these allowances. Consequently, the Tribunal has determined to provide equivalent increases to the travelling and accommodation allowances for Ministers of the Crown, the Leader of the Opposition and the Deputy Leader of the Opposition to operate from 4 April 2005.

Dated 4 April 2005.
