DEVELOPMENT ACT 1993, SECTION 48: DECISION BY THE DEVELOPMENT ASSESSMENT COMMISSION AS DELEGATE OF THE GOVERNOR

Preamble

1. The decision of the Governor under section 48 of the Development Act 1993, to approve the development of the Myponga/Sellicks Hill Wind Farm located on the Sellicks Hill Range near Myponga was published in the *Gazette* on 20 November 2003.

2. The development was the subject of a Public Environmental Report and an Assessment Report under sections 46 and 46C of the Development Act 1993.

3. An amendment to the proposal for the erection of two 50 m high anemometer (wind monitoring) towers for two years (temporary use) was subsequently considered and approved by the Development Assessment Commission and published in the *Gazette* on 18 November 2004.

4. A further amendment to the proposal for a variation of Condition 17 attached to the development authorisation to enable substantial work to commence on the site within three years of the date of the original authorisation was subsequently considered and approved by the Development Assessment Commission and published in the *Gazette* on 5 May 2005.

5. Application has now been made by TrustPower Australia Holdings Pty Ltd to the Development Assessment Commission as delegate of the Governor under section 48 of the Development Act 1993, for further variations to the proposed development.

6. The proposed variations are:

- Revised turbine layout and final turbine model.
- Changes to Operations and Maintenance compound (deletion of substation).
- Replacement of three temporary wind monitoring masts with two permanent masts.
- Consequent minor variations to electrical connections, access tracks and land division associated with leases for the turbine sites.
- Confirmation of turbine foundations.

7. The application for variation is contained in the document titled 'Proposed Myponga/Sellicks Hill Wind Farm Development—Variation to Development Authorisation' dated 28 June 2005.

8. The Development Assessment Commission has, in considering the application for variation, had regard to all relevant matters under section 48 (5) of the Development Act 1993.

9. The Development Assessment Commission is satisfied that the variations do not significantly affect the substance of the development and do not require the preparation of a further or amended Public Environmental Report.

Decision

PURSUANT to section 48 of the Development Act 1993, the Development Assessment Commission, as delegate of the Governor, grants development plan authorisation to the amendment, subject to the following varied conditions and notes:

1. The Myponga/Sellicks Hill Wind Farm shall be developed in accordance with:

15. Any new stobie poles for transmission lines shall be colour treated to reduce their visual impact and, where possible, new lines shall use a flat line configuration.

16. Upon decommissioning of the wind farm, the site shall be returned, as far as is possible, to its condition prior to the commencement of the development, with the turbines and all above ground electrical infrastructure no longer required for electricity transmission being removed.

17. If development is not commenced by substantial work on the site within three years of the date of the original

authorisation, the Governor may cancel the authorisation by written notice.

18. A landscaping and revegetation plan will be required for the construction and operational stages. Pest plant and animal control aspects will need to be addressed. The plan should be prepared in consultation with the Department for Environment and Heritage and the Native Vegetation Council, and shall be incorporated into the Environmental Management and Monitoring Plan.

19. The two temporary 50 m anemometer (wind monitoring) towers shall be removed within two years of their erection.

20. The two temporary 50 m anemometer (wind monitoring) towers and supporting guys shall be contained entirely within the site and shall not encroach over any public road reserve.

21. The wind farm operator shall undertake wind speed monitoring at the permanent tower with the greatest wind speed exposure at 10 minute intervals simultaneously at both hub height and at a height of 10 m above ground level. The data shall be recorded in a format to enable desktop analysis.

22. The wind farm operator shall maintain sufficient data indicating the relationship between the wind speeds at 10 minute intervals between the temporary wind towers and the permanent towers. The data shall be recorded in a format to enable desktop analysis.

Notes

- The applicant is reminded of its general environmental duty, as required by section 25 of the Environment Protection Act 1993, to take all reasonable and practical measures to ensure that its activities on the whole site, including during construction, do not pollute the environment in a way which causes or which may cause environmental harm. - The proponent shall negotiate with the District Council of Yankalilla and the City of Onkaparinga on any matters arising from the development where the Councils have responsibilities under the Local Government Act 1999, and Roads (Opening and Closing) Act 1991.
- The requirement for an Environmental Management and Monitoring Plan (EMMP) prior to the commencement of construction does not include the two temporary anemometer towers hereby approved.
- For the purposes of Conditions 5 and 6 a specialist noise consultant is taken to be one eligible for membership of both the Institution of Engineers Australia and the Australian Acoustical Society.

An Environmental Auditor shall be engaged to audit the management plan in accordance with commitments made by the applicant in the Response to Submissions dated 18 December 2003. Matters to be addressed in the CEMP must include (but shall not be limited to):

11. Any collected groundwater or stormwater shall only be discharged to the stormwater system if it meets quality control criteria specified in Environment Protection Authority requirements to avoid sedimentation of local pipes and pollution of the Torrens Lake (refer 'Notes to the Applicant' for relevant requirements).

12. All drainage, finished floor levels, construction of the basement car park, landscaping, and public works associated with the development, including the disposal of stormwater and earthworks, are to be carried out in accordance with accepted engineering standards and to the reasonable satisfaction of the Adelaide City Council.

13. Any hazardous substances (e.g. fuels, compressed gases, solvents, paints, asbestos, polychlorinated biphenyls (PCBs) and other construction-related substances), shall be removed and disposed of in accordance with Environment Protection Authority requirements.

NOTES TO APPLICANT

- Pursuant to Development Regulation 64, the applicant is advised that the Adelaide City Council or private certifier conducting a Building Rules assessment must:
 - (a) provide to the Minister a certification in the form set out in Schedule 12A of the Development Regulations 1993 in relation to the building works in question; and
 - (b) to the extent that may be relevant and appropriate:
 - (i) issue a schedule of essential safety provisions under Division 4 of Part 12;
 - (ii) assign a classification of the building under these regulations; and

- (iii) ensure that the appropriate levy has been paid under the Construction Industry Training Fund 1993.

Regulation 64 of the Development Regulations 1993 provides further information about the type and quantity of all Building Rules certification documentation for Major Developments required for referral to the Minister for Urban Development and Planning.

- The Adelaide City Council or private certifier undertaking Building Rules assessment and certification must ensure that the assessment and certification are consistent with this provisional development authorisation (including any conditions or notes that apply in relation to this provisional development authorisation).
- While it approves provisionally the land division comprising the 42-year lease for the basement car park adjacent to Hindmarsh Square (subject to the submission of a detailed survey plan), the provisional authorisation does not approve the creation of any allotments for individual apartments or for car parking spaces. Any such division will require a new application and new assessment. The applicant's attention is also drawn to the requirements of Section 50 of the Development Act 1993 in regard to the open space contribution system.
- This provisional development authorisation does not extend to the provision of any wind turbines, as indicated in the letter from Grenfell East Pty Ltd to the Minister for Urban Development and Planning dated 24 March 2004. Any such turbines, if subsequently proposed, will require a new application under the appropriate assessment process.
- Should the applicant wish to vary the development or any of the components of the development in relation to which a decision has been reserved, an application may be submitted, pursuant to section 48B of the Development Act 1993, provided that the development application variation remains within the ambit of the Development Report and Assessment Report referred to in this provisional development authorisation. If an application variation involves substantial changes to the proposal, pursuant to section 47 of the Development Act 1993, the applicant may be required to prepare an amended Development Report for public inspection and purchase. An amended Assessment Report may also be required to assess any new issues not covered by the original Assessment Report and a decision made by the Governor pursuant to section 48 of the Development Act 1993.
- If the development is not substantially commenced within two years of the date of the decision on the last of the reserved matters, the Governor may cancel this development authorisation.
- The applicant is reminded that the Heritage Branch of the Department for Environment and Heritage (DEH) shall be consulted in regard to any physical intervention to the structures on the adjacent YWCA State Heritage listed building, which is listed as a reserved matter for further decision-making in this provisional development authorisation. Any such work must be executed in accordance with requirements notified to it by the DEH and must be consistent with the decision by the Governor (or her delegate) on the reserved matter (e.g. materials, finishes and colour schedules).
- The proponent is advised of the General Environmental Duty under section 25 of the Environment Protection Act 1993, which requires that a person must not undertake any activity, which pollutes, or may pollute; without taking all reasonable and practical measures to prevent or minimise harm to the environment.
- The applicant is advised of the requirement to comply with the Environment Protection Authority's (EPA) 'Stormwater Pollution Prevention Code of Practice for the Building and Construction Industry' during demolition and construction of the development.

- The applicant is advised that noise emissions from the apartment complex development will be subject to the Environment Protection (Industrial Noise) Policy 1994, Environment Protection Authority Guidelines and Information Sheet Number 7 ('Construction Noise', July 2002) and the Environment Protection Act 1993.
- It is recommended that the applicant consult with the Office of Public Transport, an agency within the Department of Transport and Urban Planning, and the Adelaide City Council about any proposed transport initiatives for the apartment complex development on Hindmarsh Square, Adelaide.
- It is recommended that the applicant consult with the Adelaide City Council about the type, nature and ongoing maintenance of any landscaping undertaken in relation to the apartment complex, including construction of the basement car park, redevelopment of the roadway on the western side of Hindmarsh Square and related works, in accordance with commitments made by the applicant in the Response to Submissions document, dated 18 December 2003.
- The applicant is advised that the Development Act 1993 outlines the roles and responsibilities of the applicant and the Adelaide City Council for matters relating to building works during and after construction of the apartment complex development and associated works.
- It is recommended that the applicant consult with Planning SA when applying to the Adelaide City Council for a 'Certificate of Occupancy', to ascertain that all conditions of this provisional development authorisation and decisions on reserved matters have been complied with in an appropriate manner, including those relating to Building Rules assessment and certification requirements.
- It is recommended that the applicant conduct monitoring of the effectiveness of attaining the agreed post-construction sustainability targets and regularly lodge documented outcomes, where the information is available, with Planning SA, the Department for Environment and Heritage (Office of Sustainability) and the Working Party, in accordance with commitments made in the letter from the applicant dated 30 April 2004.
- The Minister has a specific power to require testing, monitoring and auditing under section 48C of the Development Act 1993.

Dated 4 August 2005.

**Government
of South Australia**

**TREASURER'S
QUARTERLY STATEMENT**

for the

**THREE MONTHS and NINE MONTHS ended on
31 MARCH 2005 and 31 MARCH 2004**

*Presented by the
Honourable Kevin Foley MP
Treasurer of South Australia*

GOVERNMENT OF SOUTH AUSTRALIA**COMMENTARY TO THE STATEMENT OF THE AMOUNTS CREDITED TO
AND ISSUED FROM THE CONSOLIDATED ACCOUNT FOR THE QUARTERS ENDED
31 MARCH 2005 AND 31 MARCH 2004*****Receipts******Taxation***

Taxation receipts for the first nine months of 2004-05 were higher than for the same period in the previous year mainly reflecting strong growth in land values (impacting on land tax receipts) and underlying strength in economic conditions (impacting particularly on payroll tax receipts). It should be noted that land tax collections are reported in the Consolidated Account on a gross basis (ie before bringing to account land tax rebates amounting to an estimated \$20.2 million in 2004-05; rebate costs will not impact on the Consolidated Account until the June quarter, 2005). The cost of land tax rebates will be reflected in the full year results for the Consolidated Account as an expenditure item rather than an offset to revenue.

Stamp duty revenue collections in the nine month period to March 2005 were lower than for the same nine month period a year ago. This is mainly due to fewer large commercial property transfers in the current year.

The introduction of the Save the River Murray Levy, operational from 1 October 2003, means that only two quarterly instalments were collected in the nine months ended March 2004 compared to 3 instalments in the same period this year.

In the year of introduction, the first two quarterly instalments of the Save the River Murray Levy were paid into Consolidated Account in the March quarter 2004, compared to only one quarterly instalment in the March quarter, 2005.

Royalties

Royalty receipts were \$9.2 million higher in the nine months to March 2005 compared with the same period last year. This was mainly caused by increased royalty income from the Roxby Downs and Beverley mines due to increased production and higher copper prices, and higher than expected oil prices impacting on Cooper Basin royalties. Lower collections in the March quarter 2005 compared to the same quarter a year ago reflects the timing of royalty receipts in respect of Roxby Downs.

Commonwealth – General Purpose Grants

Growth in GST revenue in the nine months to 31 March 2005 compared to the nine month period to 31 March 2004 reflects:

- Growth in the GST revenue pool partly offset by South Australia's lower share of that pool in 2004-05 relative to 2003-04; and

- A smaller downward adjustment in July 2004 (compared to July 2003) for Commonwealth recoveries of overpayments of transitional assistance paid in prior years. A total of \$56.8 million was offset against GST revenue receipts in July 2003 reflecting the overpayment of transitional assistance in 2002-03, while \$22.0 million was offset against GST revenue receipts in July 2004 for the overpayment of transitional assistance in 2003-04.

Payments

Payments have been made pursuant to the *Appropriation Act*, passed at the time of the 2004-05 State Budget and in accordance with various Acts for which specific appropriation has been authorised.

The total payments for the nine months ending 31 March 2005 total 72% of the original budget for the 2004-05 financial year, which is consistent with the approved schedule of appropriation payments to agencies.

Note

Considerable caution should be exercised in interpreting the quarterly statement of Consolidated Account transactions. Unlike the State budget, which comprises transactions on an accrual basis, the information reflected in the quarterly statements is limited to cash transactions. In addition, the Consolidated Account does not capture all the transactions undertaken by the general government sector (in particular, it does not record receipts to and payments from special deposit accounts). Finally, it should be noted that the timing of receipts and payments could be volatile within a particular year. As a result, apparently significant movements between years may only be due to changes in the timing of receipts and payments, and therefore may not have implications for the underlying budget position.
