PHARMACY PRACTICE ACT 2007**PHARMACY BOARD OF SOUTH AUSTRALIA**

The Rules Applying to Registered Pharmacists Seeking a Practising Certificate from the Pharmacy Board of South Australia

November 2007

PHARMACY PRACTICE RULES*Introduction*

The Pharmacy Board of South Australia ('Pharmacy Board') is established under the Pharmacy Practice Act 2007 ('Act') with the object of protecting the health and safety of the public through the achievement and maintenance of high professional standards of competence and conduct in the provision of pharmacy services.

All pharmacists registered with the Pharmacy Board are required to comply with the principles set down in the Pharmacy Board's Code of Professional Conduct and Professional Standards.

The Act requires pharmacists to be both registered and hold a practising certificate in order to provide 'restricted pharmacy services'. Restricted pharmacy services are defined under section 3 (1) of the Act as:

- (a) dispensing drugs or medicines on the prescription of a medical practitioner, dentist, veterinary surgeon or other person authorised to prescribe the drugs or medicines; or
- (b) other services declared by the regulations to be restricted pharmacy services.

It is an offence under the Act for restricted pharmacy services to be provided by anyone other than a person who holds a practising certificate or otherwise is authorised to do so under the Act.

Practising Certificates

The Act provides that the issue of a practising certificate to a pharmacist will be subject to certain conditions as determined by the 'Practice Rules'. These will include the requirement to undertake further education, training and experience, and in addition, may limit the kind of pharmacy services that the holder of the practising certificate may provide until such further education, training and experience is completed or obtained.

The Act also provides specific conditions in relation to pharmacists:

- (a) who have not held a practising certificate during the previous 12 months; or
- (b) where the Pharmacy Board is satisfied that they have not complied with the conditions of their practising certificate.

These may include requiring the applicant to undertake or obtain further education, training and experience before issuing a practising certificate, or imposing one or more of the following additional conditions on the applicant's practising certificate:

- (a) a condition restricting the places and times at which the applicant may provide pharmacy services;
- (b) a condition limiting the kind of pharmacy services that the applicant may provide;
- (c) a condition requiring that the applicant be supervised in the provision of pharmacy services by a particular person or by a person of a particular class; and
- (d) such other conditions as the Board thinks fit.

Practice Rules

Practice Rules establish a scheme for further education, training and experience for pharmacists and govern the issue of practising certificates and the imposition of, and evidence of compliance with, conditions of practising certificates.

A registered pharmacist must satisfy the Pharmacy Board of their competence in their role as a provider of restricted pharmacy services. In order to gain a practising certificate a registered pharmacist must participate in and successfully complete the process of the Pharmacy Board's ENRICH program (Appendix 1).

The ENRICH program has been established by the Pharmacy Board to provide a process for registered pharmacists seeking a practising certificate to demonstrate, through an accountable process, a measurable display of professional competence. Compliance with the ENRICH program enables the Pharmacy Board to assure the community that registered pharmacists are maintaining professional competence.

Competence

Competency standards are intended to describe the skills, attitudes and other attributes (including values and beliefs) attained by an individual based on knowledge (gained through study at minimum of a Bachelor's degree level from a recognized tertiary institution), experience (gained through subsequent practice) and continuing professional development which together are considered sufficient to enable the individual to practise as a registered pharmacist.

The Pharmacy Board has adopted the Pharmaceutical Society of Australia's 'Competency Standards for Pharmacists in Australia 2003' that describe the knowledge, skills and attitudes a registered pharmacist should possess to be competent to practise in any area of contemporary Australian pharmacy.

It is a condition for the issue of a practising certificate that the applicant registered pharmacist provide evidence of their competence to practise within the scope of their role as a provider of restricted pharmacy services. The delivery of professional pharmacy services requires personal competence as well as quality procedures if the service is to be delivered to a standard that is acceptable to clients and the wider community. The Pharmacy Board expects that registered pharmacists seeking a practising certificate will demonstrate general competence to practise as a registered pharmacist and specific knowledge relevant to the scope of their practice. This is a two stage process that requires registered pharmacists to consider:

- (a) their competency in terms of the skills, attitudes and attributes to enable them to provide restricted pharmacy services; and
- (b) their knowledge and understanding of the professional practice standards relevant to the scope of the pharmacist's practice.

Professional Standards

Practice standards address service quality by describing the systems or processes that should be used by registered pharmacists to assure consistency and uniformity in the professional services delivered to consumers or other users by registered pharmacists. The Pharmacy Board expects pharmacists granted a practising certificate to adopt professional standards, relevant to their area of practice, to ensure that the knowledge and skills acquired are executed to a level of consistency identified as necessary for the delivery of quality pharmacy activities.

Practice Rule Requirements

A registered pharmacist is required to, during each year in which the registered pharmacist holds a practising certificate, unless exempted by the Pharmacy Board, complete professional development activities (as outlined in the ENRICH program) which satisfy the following:

- (a) the activities must consist of education programs, seminars, workshops, lectures, conferences or discussion groups or multimedia or website based programs, or the research and preparation of articles published in pharmacy publications or such other publications approved by the Pharmacy Board, or any combination of two or more of the above;
- (b) the activities must be of significant intellectual or practical content and must deal primarily with matters directly related to the practice of pharmacy;
- (c) the activities must be conducted by persons who are qualified by practical or academic experience in the material covered;
- (d) the activities must be relevant to the scope of the registered pharmacist's role as a provider of restricted pharmacy services and to the practice of pharmacy;
- (e) the activities must have an aggregate value of 20 ENRICH credits;
- (f) the activities of private reading specifically designed for the purpose of updating pharmacy knowledge on the basis of the significant journal, article, newsletter and product information reading undertaken by pharmacists may be claimed to an aggregate value of not more than five ENRICH credits; and
- (g) activities requiring preparation of written or oral material forming part of the formal instruction within a course or programme of pharmacy professional development are claimable to two ENRICH credits for every hour spent in the delivery of the written or oral material.

Each year the Pharmacy Board will verify compliance with the Practise Certificate Rules. This will be undertaken through requests for the provision of information to confirm compliance with the conditions of a registered pharmacist's practising certificate. The timing of such requests and the format for the information to be provided are included in the details of the ENRICH program.

Pharmacists Commencing or Recommencing Practice

A pharmacist who commences or recommences practice on or after 1 January but prior to 1 July in the same year is partially exempted from the Practising Certificate Rules and shall be required to complete professional development activities to the value of 10 ENRICH credits.

A pharmacist who commences or recommences practice on or after 1 July but prior to 1 January in the following year is exempt from the Practising Certificate Rules for the year ending 31 December in the year in which the pharmacist commenced or recommenced practice.

Failure to Comply with Practising Certificate Conditions

Where it is believed on reasonable grounds that an applicant for a practising certificate fails to satisfy the Pharmacy Board of their compliance with the requirements of the Pharmacy Practice Rules the Pharmacy Board may impose conditions on the applicant's practising certificate.

Where a pharmacist fails to satisfy the Pharmacy Board of their compliance with the conditions of his or her practising certificate, section 36 of the Act provides that the Pharmacy Board may, by written notice to the pharmacist:

- (a) impose further conditions on the practising certificate of a kind referred to in section 33; or
- (b) cancel the practising certificate and disqualify the pharmacist from holding a practising certificate for a specified period, until the fulfilment of specified conditions or until further order.

Legislative Basis for Practising Certificate Rules

The Pharmacy Practice Rules were made by the Pharmacy Board in accordance with the Pharmacy Board's function as set out in section 13 (1) (e) of the Act and as contemplated by sections 32-36 of the Pharmacy Practice Act 2007.

The Rules should be seen as complementary to the provisions of the Pharmacy Practice Act 2007, the Regulations made thereunder and the established principles of the general law relating to the professional conduct of pharmacists.

Appendix One

The ENRICH Program Process

Continuing professional development activities should meet the following criteria:

- Activities based on adult learning principles.
- The need to reflect evidence of what works.
- Involve peer and self-review processes.

Pharmacists will have the opportunity to undertake traditional continuing professional education as part of their personal CPD requirements.

At the same time research tells us that learning is most useful to a professional when the professional selects their own particular needs, chooses their own preferred learning style to gain knowledge and decides how to apply the knowledge.

Therefore, pharmacists will have the opportunity to incorporate activities in the CPD they choose to undertake that ranges from:

- a self motivated activity derived from a perceived need within their own practice with the aim to develop a pharmacist's skills and knowledge; to
- education offered by traditional service providers on topics of general and particular interest to pharmacists.

The ENRICH program is based on a four stage cyclical process similar to a quality assurance cycle. This process links the competencies required of pharmacists to continuing professional development. Not only are these links forged, they may represent a major driving force for the individual directions pharmacists choose to take in their CPD.

The four stage ENRICH process enables pharmacists to update, maintain and develop the required competencies by:

- Identifying the individual learning needs.
- Giving recognition to the learning achieved in the workplace.
- Acknowledging that pharmacists learn in a variety of ways.
- Removing the need to complete a fixed number of hours of continuing education.

What are ENRICH Credits (ECs)?

ENRICH Credits are the measurable indicator attached to the various aspects and components of CPD that pharmacists will choose to pursue throughout each ENRICH cycle.

It is a system that allows quantification of the amount of CPD that has been participated in across the year.

The Board recognises that CPD is not a direct assessment of competence, but participation in the process is the Board recognised indicator of intent to remain current in terms of contemporary practice and therefore competency. The ENRICH Credit system has been developed to measure participation in CPD.

The ENRICH program attempts to target and focus this development towards goals that have been developed through the four stage process. The resultant documented evidence is then suitable for gaining ECs.

What are Suitable Continuing Professional Development Activities?

The decision has been left to the pharmacist's discretion as to the appropriate nature of the content of any presentation of material. Guidelines have been developed and provided to each registered pharmacist to provide guidance to pharmacists about methods for assessing content and structure of programs and materials relevant and effective to their needs. It is the Pharmacy Board's intention that this information will act as a guide to pharmacists for the purposes of their CPD evaluation and as a result the granting of practising certificates by the Pharmacy Board. Each individual pharmacist has the opportunity to determine the appropriateness of the program and/or material being presented bearing in mind the provided criteria. The overriding objective is ultimately to benefit the patient through improved practice of pharmacy.

Pharmacy Board Statutory Obligation to Ensure Pharmacists Fulfil Their Responsibility

The Pharmacy Board will evidence this requirement through the provision of information by the registered pharmacist, of their continuing professional development activities tailored to the specific scope of their role as a provider of restricted pharmacy services.

The Pharmacy Board may at any time request a pharmacist to provide appropriate documentation of what they have done to maintain/improve their competency in their particular area of practice.

GOVERNMENT OF SOUTH AUSTRALIA**COMMENTARY TO THE STATEMENT OF THE AMOUNTS CREDITED TO
AND ISSUED FROM THE CONSOLIDATED ACCOUNT FOR THE COMPLETED 2006-07
YEAR AND THE QUARTER ENDED 30 JUNE 2007*****Receipts***

Taxation receipts are \$155 million higher than the original 2006-07 Budget estimate. This was mainly due to:

- Higher stamp duties (\$160 million)
- Higher payroll tax (\$17 million)
- Higher gaming machines tax (\$4 million)
- Lower land tax (\$28 million)

Contributions from State Undertakings (taxes, dividends and other contributions from government corporations) are \$7 million lower than the original 2006-07 Budget estimate. This was mainly due to:

- Lower Land Management Corporation dividend (\$27 million)
- Lower SA Asset Management Corporation dividend (\$11 million)
- Higher Forestry SA dividend (\$6 million)
- Higher SA Water dividend and income tax equivalent (\$16 million)
- Higher SA Government Captive Insurance Corporation income tax equivalent (\$8 million)

Commonwealth general purpose GST revenue grants are \$47 million higher than the original 2006-07 Budget.

Fees and charges are \$5 million lower than the original 2006-07 Budget estimate. This was mainly due to:

- Higher land services fees (\$20 million)
- Lower court fees and fines (\$12 million)
- Lower infringement notice schemes—expiation fees (\$12 million)

Recoveries are \$72 million lower than the original 2006-07 Budget estimate. This is mainly due to:

- Lower return of cash to Consolidated Account—Cash Alignment Policy (\$73 million)

Royalties collected are \$24 million higher than the original 2006-07 Budget estimate.

Other receipts are \$57 million lower than the original 2006-07 Budget estimate. This is mainly due to:

- Lower interest recoveries (\$27 million)
- Lower repayment of equity capital contributions (\$16 million)
- Lower repayment of advances (\$18 million)
- Higher sale of land and buildings (\$4 million)

Payments

Payments pursuant to the Appropriation Act (i.e. to agencies) are \$144 million higher than forecast in the original 2006-07 Budget. The major areas contributing to this outcome are as follows:

- Department of the Premier and Cabinet—\$43 million higher
- Department of Treasury and Finance—\$11 million higher
- Administered Items for the Department of Treasury and Finance—\$218 million higher
- Department of Primary Industries and Resources—\$8 million higher
- Attorney-General's Department—\$9 million higher
- Department of Health—\$49 million higher
- Department for Families and Communities—\$35 million higher
- Administered Items for the Department of Education and Children's Services—\$8 million higher
- Department of Water Land and Biodiversity Conservation—\$11 million higher
- Department for Transport, Energy and Infrastructure—\$20 million higher
- Office of the Venture Capital Board—\$7 million lower
- Port Adelaide Maritime Corporation—\$16 million lower
- Administered Items for the Department of Primary Industries and Resources—\$140 million lower
- South Australia Police—\$11 million lower
- Administered Items for the Department for Families and Communities—\$15 million lower
- Department for Administrative and Information Services—\$76 million lower

All appropriations were paid within approved limits.

Pursuant to Cabinet's approval the functional responsibilities of the Department for Administrative and Information Services (DAIS), were transferred to four recipient agencies (Department of Treasury and Finance, Department of the Premier and Cabinet, Attorney-General's Department and the Department for Transport, Energy and Infrastructure), effective 1 January 2007.

The SA Water Community Service Obligation payment included in the Administered Items for the Department of Primary Industries and Resources in 2005-06 was transferred to the Administered Items for the Department of Treasury and Finance during 2006-07.

Payments pursuant to Specific Appropriation Authorised in Various Acts are \$8 million higher than forecast in the original 2006-07 Budget. This was primarily the result of higher than estimated payments for First Home Owner Grants.

Note

Considerable caution should be exercised in interpreting the quarterly statement of Consolidated Account transactions. Unlike the State budget, the information is purely limited to cash transactions. In addition, the Consolidated Account does not capture all the transactions undertaken by the general government sector (in particular, it does not record receipts and payments from special deposit accounts). Finally, it should be noted that the timing of receipts and payments could be volatile within a particular year. As a result, apparently significant movements between years may only be due to changes in the timing of receipts and payments, and therefore may not have implications for the underlying budget position.
