Dated 12 September 2007.

GAIL GAGO, Minister for Environment and Conservation

NATURAL RESOURCES MANAGEMENT ACT 2004

Notice of Prohibition on Taking Water from Wells in the Eastern Mount Lofty Ranges Area

PURSUANT to section 132 (1) of the Natural Resources Management Act 2004 (the Act), I, Gail Gago, Minister for Environment and Conservation in the State of South Australia, and Minister to whom the administration of the Act is committed, being of the opinion that the rate at which water is being taken from wells in the area described in Schedule 1 (the Underground Water Area) is such that there is a risk that the available water will not be sufficient to meet future demand, hereby prohibit the taking of water from wells except in the circumstances specified in Schedule 2.

SCHEDULE 1

The Underground Water Area

The area bounded by the bold solid line as shown in the GRO Plan No. 423/2003 (the Underground Water Area).

SCHEDULE 2

1. A person may take water from a well in the Underground Water Area in accordance with the terms of a written authorisation granted by me or my authorised agent under the Notices of Prohibition on Taking Water from Wells in the Eastern Mount Lofty Ranges Area published in the *Government Gazette* on 16 October 2003 at page 3815 pursuant to section 16 (1) of the Water Resources Act 1997, and on 15 September 2005 at page 3330 pursuant to section 132 (1) of the Act.

2. A person may take water from a well in the Underground Water Area in accordance with the terms of a written authorisation granted under this Notice by me or my authorised agent.

3. An authorisation under this Notice may be granted to:

- (a) A person (a Current User) who has been taking water from a well in the Underground Water Area during the period 1 July 2000 to 15 October 2003 inclusive (the Relevant Period), entitling that person to take:
 - where the water taken during the relevant period was to water a crop or crops, the amount of water reasonably necessary, in my opinion, to water that crop or those crops, the amount being determined taking into account the maximum area of each crop or crops grown, the water requirements of the respective crop or crops and the irrigation capacity of the irrigation equipment used to water the crop or crops; or
 - where the water was taken during the relevant period for any other purpose, the amount of water which, in my opinion, is reasonably necessary to continue that purpose in the manner in which it had been undertaken during the relevant period.
- (b) The transferee of an interest in land (including under a contract of sale or grant of a lease) (the new interest-holder) where:
 - (i) the transferor or prior holder of an interest in the land (including as registered proprietor or lessee) (the prior interest-holder) is the holder of an authorisation under this notice, and
 - (ii) the prior interest-holder and the new interest-holder apply to the Minister (or her authorised agent) for the cancellation (in whole or in part) of the prior interest-holder's authorisation under this notice and the grant of an authorisation for the same purpose and on the same land as the cancelled authorisation (or cancelled part of the authorisation) to the new interest-holder,

entitling the new interest-holder to take the same (or a lesser) quantity of water from the same resource or resources as the prior interest-holder was authorised to take under the cancelled authorisation (or cancelled part of the authorisation).

(c) Subject to Clause 4, a person (a Prospective User) who did not take any water from a well but who needs water for a development, project or undertaking:

- to which that person was legally committed during the relevant period; or
- in respect of which that person had, in my opinion, committed significant financial or other resources during the relevant period, entitling that person to take the amount of water from a well in the Underground Water Area, which in my opinion, is reasonably necessary to undertake the development, project or undertaking to which that person was committed.

4. A Prospective User may not be granted an authorisation or may only be granted an authorisation subject to conditions relating to the manner of taking water where, in my opinion:

- (a) the taking of water will detrimentally affect the ability of other persons to take water from any watercourse, well or dam for domestic purposes or the watering of stock (other than stock being intensively farmed); or
- (b) the taking of water will detrimentally affect the capacity of the water resource to meet the current or future demand including the demands of ecosystems dependent on that water resource.

5. Until authorised under this Notice, a Current User may continue to take an amount of water equivalent to the maximum amount taken in any one year, from the same source and for the same purpose or purposes as that person took during the relevant period without a written authorisation.

6. This Notice does not apply to the taking of water:

- (a) pursuant to section 124 (4) of the Act for domestic purposes or for watering stock (other than stock subject to intensive farming); or
- (b) for fire-fighting purposes or public road making purposes; or
- (c) for the purpose of the application of chemicals to non-irrigated crops or non-irrigated pasture and for the application of chemicals to control a pest plant or animal.

7. The following condition applies to the taking of water in accordance with an authorisation granted under this Notice:

- the water may only be taken through a meter which accurately measures the quantity of water taken and is at all times in good working condition.

In this Notice:

‘*Maximum area*’ for a particular crop means the average of the maximum areas of land planted to a particular crop during the Relevant Period.

‘*Water requirement*’ of a crop means the reasonable rate of irrigation (expressed as a volume of water per hectare) to properly produce that crop.

‘*Irrigation capacity*’ of irrigation equipment means the amount of water that can be applied by the usual operation of that equipment in its condition at 15 October 2003, under usual pumping rates, hours of operation and seasonal fluctuations.

This Notice will remain in effect for two years unless earlier varied or revoked.

Dated 12 September 2007.

- the rate at which surface water is taken in the area described in Schedule 1 (the Area) is such that the surface water available can no longer meet the demand; and
