**Government

**TREASURER'S
QUARTERLY STATEMENT**

for the

**THREE MONTHS ended on
30 SEPTEMBER 2007 and 30 SEPTEMBER 2006**

*Presented by the
Honourable Kevin Foley MP
Treasurer of South Australia*

GOVERNMENT OF SOUTH AUSTRALIA**COMMENTARY TO THE STATEMENT OF THE AMOUNTS CREDITED TO
AND ISSUED FROM THE CONSOLIDATED ACCOUNT FOR THE QUARTERS
ENDED 30 SEPTEMBER 2007 AND 30 SEPTEMBER 2006*****Receipts****Taxation*

Payroll tax receipts for the first quarter of 2007-08 were higher than for the same period in 2006-07 reflecting growth in taxable payrolls.

Higher levels of stamp duty receipts in the September quarter 2007 compared with the same period a year ago mainly reflect an increase in the volume and value of transactions driven by underlying strength in the property market.

The increase in land tax collections between September quarter 2006 and September quarter 2007 reflects growth in land values and the timing of land tax collections. September quarter land tax receipts are typically low relative to the full year estimate, as they mainly comprise the final instalment of annual land tax liabilities for taxpayers who choose to pay in quarterly instalments. Taxpayers who pay annually mainly pay a single amount in either the December or March quarters.

Gambling tax receipts were higher in the first quarter of 2007-08, compared with the same period a year ago, reflecting higher gaming machine expenditure in hotels and clubs.

Recoveries

Recoveries for the first quarter of 2007-08 were higher than for the same period in 2006-07 mainly due to the once-off return of \$18.8 million in surplus funds to the Consolidated Account from the Department for Environment and Heritage's Accrual Appropriation Excess Funds special deposit account.

Fees and Charges

Fees and charges were higher in the first quarter of 2007-08, compared with the same period in 2006-07 as a result of higher Land Services Fees.

Royalties

Royalty receipts in total for the first quarter of 2007-08 were comparable with the same period a year ago.

Commonwealth – General Purpose Grants

Growth in general purpose grants between the first quarter of 2007-08 and the same period of 2006-07 is not indicative of underlying Goods and Services Tax (GST) revenue growth. The Commonwealth in its 2007-08 Mid Year Economic and Fiscal Outlook estimates that the total GST pool will grow by around 6.8 per cent in 2007-08.

The September quarter 2007 general purpose grant revenue includes a \$3 million competition grant following progress during 2006 on water reform. No competition grants were received in the same quarter a year ago.

Commonwealth – Specific Purpose Grants

The higher level of Commonwealth Specific Purpose Grants in the first quarter of this year, compared with the same period last year, reflects the timing of grants from the Commonwealth in respect of legal aid. The September quarter 2007 figure includes two quarterly payments from the Commonwealth in relation to legal aid whereas the September quarter 2006 figure included only one quarterly payment with another quarterly payment not received until October 2006.

Other Receipts

Other receipts were higher in the first quarter of 2007-08 compared with the same period in 2006-07 due to the timing of the South Australian Housing Trust's payment of interest and principal in respect of the various Concessional Housing Loans, paid in July 2007 in lieu of June 2007 and the repayment in full of the Department for Environment and Heritage's capital investment loan with the Treasurer.

Payments

Payments were made pursuant to the *Supply Act 2007*, for the period from 1 July 2007 to 8 August 2007, until assent was given to the *Appropriation Act 2007* on 9 August 2007 and also in accordance with various other Acts for which specific appropriation has been authorised.

Payments made from the Consolidated Account during the first quarter of 2007-08 were higher than the same period in 2006-07.

The higher level of payments was generally in line with the higher budgeted appropriation for 2007-08 compared with 2006-07.

Past Service Superannuation payments from the Administered Items for the Department of Treasury and Finance, which were made over the first two quarters during 2006-07 compared with 2007-08 when the full year's payment was made before 30 September 2007 also contributed to the higher level of payments in the first three months of this year, compared with the same period last year.

Note

Considerable caution should be exercised in interpreting the quarterly statement of Consolidated Account transactions. Unlike the State budget, which comprises transactions on an accrual basis, the information reflected in the quarterly statements is limited to cash transactions. In addition, the Consolidated Account does not capture all the transactions undertaken by the general government sector (in particular, it does not record receipts to and payments from special deposit accounts). Finally, it should be noted that the timing of receipts and payments could be volatile within a particular year. As a result, apparently significant movements between years may only be due to changes in the timing of receipts and payments, and therefore may not have implications for the underlying budget position.
