BUILDING WORK CONTRACTORS ACT 1995

Exemption

TAKE notice that, pursuant to section 45 of the Building Work Contractors Act 1995, I, Mal Hemmerling, Commissioner for Consumer Affairs, do hereby exempt the licensee named in Schedule 1 from the application of Division 3 of Part 5 of the above Act in relation to domestic building work described in Schedule 2 and subject to the conditions specified in Schedule 3.

SCHEDULE 1

Ronald Alan Foster, BLD 30941.

SCHEDULE 2

Construction of a house on land situated at Lot 20, Stock Drive, Port Elliot, S.A. 5212 (Allotment 20 in Deposited Plan 40224) in the area named Port Elliot, Hundred of Goolwa (certificate of title volume 5205, folio 579).

SCHEDULE 3

1. This exemption is limited to domestic building work personally performed by the licensee for the construction of a house on land situated at Lot 20, Stock Drive, Port Elliot, S.A. 5212 (Allotment 20 in Deposited Plan 40224) in the area named Port Elliot, Hundred of Goolwa (certificate of title volume 5205, folio 579).

2. This exemption does not apply to any domestic building work the licensee sub-contracts to another building work contractor, for which that contractor is required by law to hold building indemnity insurance.

3. That the licensee does not transfer his interest in the land prior to five years from the date of completion of the building work the subject of this exemption, without the prior authorisation of the Commissioner for Consumer Affairs. Before giving such authorisation, the Commissioner for Consumer Affairs may require the licensee to take any reasonable steps to protect the future purchaser(s) of the property, including but not limited to:

- providing evidence that an adequate policy of building indemnity insurance is in force to cover the balance of the five-year period from the date of completion of the building work the subject of this exemption;
- providing evidence of an independent expert inspection of the building work the subject of this exemption;
- making an independent expert report available to prospective purchasers of the property; and
- giving prospective purchasers of the property notice of the absence of a policy of building indemnity insurance.

Dated 29 May 2008.

M. HEMMERLING, Commissioner for Consumer Affairs, Office of Consumer and Business Affairs, Delegate of the Minister for Consumer Affairs

DEVELOPMENT ACT 1993: SECTION 48

*Decision by the Development Assessment Commission**Preamble*

1. The decision by the Governor under section 48 of the Development Act 1993, to approve the development of a waste management facility in the form of a solid waste landfill (Northward Fill (Inkerman Landfill Depot)) at Inkerman was published in the *Gazette* on 21 January 1999.

2. The development was the subject of an Environmental Impact Statement under section 46 of the Development Act 1993 and amended under section 47 of the Development Act 1993.

3. Amendments to the development authorisation were granted by the Development Assessment Commission as delegate of the Governor on 17 June 2004, 14 October 2004, 13 April 2006 and 20 September 2007.

4. A further variation has been under consideration by the Development Assessment Commission as delegate of the Governor under Division 2 of Part 4 of the Development Act 1993.

5. The proposed variation relates to the recycling of waste materials and is contained in the application and letter from QED Pty Ltd dated 13 March 2008.

7. The Development Assessment Commission is satisfied that the variation does not require the preparation of a further or amended Environmental Impact Statement.

8. The Development Assessment Commission has, in considering the matter, had regard to all relevant matters under section 48 (5) of the Development Act 1993.

Decision

PURSUANT to section 48 of the Development Act 1993, the Development Assessment Commission, as delegate of the Governor, grants development authorisation to the amended waste management facility in the form of a solid waste landfill (Northward Fill (Inkerman Landfill Depot)) at Inkerman, subject to conditions.

Conditions

1. Except where minor amendments may be required by other legislation, or by conditions imposed herein, proposed the solid waste landfill (Northward Fill (Inkerman Landfill Depot)) shall be undertaken in accordance with the plans in the application (dated 4 March 1997 and 'Supporting Documentation for Development Application' dated 24 November 1998), except as varied by the conditions listed below, the letters from Waste Management Pacific Pty Ltd dated 19 April 2004 and 19 May 2004, the application from Transpacific Waste Management Pty Ltd dated May 2007 and letter from QED Pty Ltd dated 16 July 2007 and the following drawings:

- Drawing No. 40033003/005C—dated 1 September 2003;
- Drawing No. 40033003/0080—dated 27 April 2004;
- Drawing No. 40033003/009—dated 27 April 2004;
- Drawing No. 40033003/013—dated 27 April 2004;
- Drawing No. 40033003/014—dated 27 April 2004,

or as amended by the following drawings:

- Northward Fill Detailed Design, Central Leachate Sump Details, Sheet 10 (Revision F)—dated 10 May 2005;
- Northward Fill Detailed Design, Leachate Management—Edge Sump Arrangement, Sheet 13 (Revision D)—dated 10 May 2005;
- Northward Fill Stage 2 and 3, Detailed Design Pipework Layout, Sheet 15 (Revision A)—dated 7 February 2006.

Groundwater

2. Monitoring shall be undertaken over two successive winter seasons to determine the maximum seasonal watertable level for that period starting prior to the landfill operations starting.

3. An internal leachate-level monitoring bore network within each stage of the landfill shall be established to allow early identification of any problem with the leachate collection system before excessive leachate heads develop.

4. Groundwater monitoring bores shall be established down gradient of the leachate collection ponds to the satisfaction of the Environment Protection Authority.

Leachate Management

5. A construction report shall be provided to the Environment Protection Authority by a geotechnical consultant certifying that the liner and drainage system has been constructed in accordance with the design principles together with *in-situ* testing to demonstrate that the required permeability has been achieved prior to operations commencing, except as varied by conditions 5a, 5b, 5c and 5d.

5a. The high density polyethylene (HDPE) membrane and geotextile portion of the liner shall extend a minimum of 5 m laterally from the sump (measured from the toe of the sump side slope to the outer edge of the lining system) and the underlying clay outside the sump area must have a minimum thickness of 1 m.

5b. The drainage slopes towards drainage lines and along drainage lines shall be a minimum of 2% and 1% respectively.

5c. Construction of the landfill liner and polylock system shall be undertaken and certified in accordance with Level 1 supervision and Construction Quality Assurance (CQA) procedures. A report documenting the results of the Level 1 supervision and construction quality control tests for the compacted clay liner, HDPE membrane and polylock system shall be prepared to the reasonable satisfaction of the Environment Protection Authority.

5d. Appropriate procedures and controls shall be implemented on site to address potential risks or damage which may compromise the integrity of the leachate extraction system, including from vehicle traffic, Ultraviolet Radiation, and any movements of the overland pipework including interim flexible pipework used while cells are operational.

5e. Contingency procedures shall be developed to address the potential for and response to any pipe rupture and leachate emission from the leachate pipes and extraction system.

5f. The LEMP shall be updated to incorporate conditions 5d. and 5e.

Landfill Gas

6. Landfill gas extraction wells shall be installed progressively as filling of the cell proceeds, to the satisfaction of the Environment Protection Authority.

7. All fire control measures proposed at the site shall be approved by the Country Fire Service prior to operations commencing.

Buffers and Landscaping

8. The maximum height of the landfill including rehabilitation shall be restricted to 27 m AHD (generally 7 m above the existing natural surface) to be consistent with the existing maximum topographic levels in the region.

9. All perimeter plantings shall be started as early as practicable after the date of this approval to achieve maximum amelioration of visual impacts.

10. Screening by suitable plantings where adequate natural screening is not provided, shall be provided for the perimeter fence, all built structures, stockpiles and internal roads (where practicable) using suitable species in accordance with the Vegetation Management and Revegetation Plan proposed as part of the Landfill Environmental Management Plan (LEMP).

Noise and Dust

11. The proponent shall comply with the provisions of the Environment Protection (Industrial Noise) Policy (1994, SA Government).

12a. The maximum hours of operation shall be 6 a.m. to 7.30 p.m. seven days per week and waste shall only be received between 6 a.m. and 7 p.m.

12b. The Applicant shall ensure that close proximity and low impact directional reverse beepers are installed and utilised on all mobile plant associated with waste disposal operations.

12c. Noise levels shall not exceed 40 dB(A) in accordance with EPA Fact Sheet 424/04 between the hours of 10 p.m. and 7 a.m.

Infrastructure

13. The proponent shall pay all reasonable costs of the detailed design and construction of any public roadworks made necessary by this development and to the satisfaction of Transport SA.

Building Rules

14. Work constituting building work under the Development Act 1993, shall be certified by the Wakefield District Council or a private certifier, as complying with the Building Rules. Copies of the relevant certification documentation shall be provided to the Minister for Urban Development & Planning, as outlined in Regulation 64 of the Development Act 1993. No building works shall commence until a favourable decision has been notified in writing to the applicant by the Governor or the Development Assessment Commission as delegate of the Governor.

Heritage

15. The party with the benefit of this approval shall ensure that operators and construction personnel are made aware of the requirements under the Aboriginal Heritage Act 1988 that any burial site skeletal material or significant artefact discovery is reported to the Division of State Aboriginal Affairs, Department of Environment, Heritage and Aboriginal Affairs.

Wastes

16. No Listed Waste as prescribed in Schedule 1, Part B of the Environment Protection Act 1993, or contaminated soil and material or asbestos containing material, shall be permitted to be disposed of without further development authorisation except as varied by the conditions listed below.

17. The proponent may receive and dispose of wastes from different regions as follows:

- (a) Waste from the Adelaide Metropolitan Area that has gone through a Resource Recovery and Waste Transfer Facility; or
- (b) Waste from regional areas outside the Metropolitan area that:
 - has been through a kerbside recycling service comprising at least 2 mobile garbage bins with a maximum 140 litre weekly waste collection and a minimum 240 litre fortnightly recycling collection; or
 - has been through a mobile garbage bin kerbside recycling system that yields at least 4 kg per household per week for recycling, excluding contamination; or
 - has been processed through a resource recovery facility / transfer station for the purposes of removing recyclable material prior to being transported for disposal.

18. The proponent may receive and dispose of the following additional wastes:

- (a) Shredded tyres with other approved waste for a period of 3 years after which the proponent must apply for additional development approval
- (b) Non-friable asbestos subject to handling and disposal procedures for non-friable asbestos, including the Environmental Management procedures as discussed in detail in Appendix F of the variation proposal
- (c) Quarantine waste subject to approval from AQIS to receive and dispose of quarantine waste. In addition, the proponent shall:
 - (i) Receive quarantine waste that is accompanied by a completed Quarantine Waste Form developed by the Licensee
 - (ii) Dispose of quarantine waste immediately upon receipt
 - (iii) Ensure a minimum of 2 m of cover is placed over the waste immediately after disposal
 - (iv) Dispose of waste in accordance with requirements of AQIS (including supervision, deep burial and tracking)

(v) Maintain records that describe details for each load of quarantine waste received and disposed including the following items:

- Location of disposal;
- Date and time of receipt and disposal;
- Volume of waste;
- Type of waste;
- Producer of the waste;
- Transporter of the waste and driver name; and
- Name of person supervising disposal of waste,

(vi) Maintain procedures for the notification, handling, supervision, records management and disposal of quarantine waste and tracking systems to prevent the re-excavation of quarantine wastes.

(d) Foundry sands—the proponent shall:

- (i) Assess the Used Foundry Sand in accordance with EPA Guidelines for Used Foundry Sand (UFS)—classification and disposal (EPA 329/03 - September 2003).
- (ii) Ensure that the Used Foundry Sands have been classified prior to disposal according to the maximum concentrations in mg/kg (dry weight), and the maximum leachate concentration in mg/L, of the contaminants listed in the above referenced Guideline.
- (iii) Ensure that only Used Foundry Sand classified and certified as Class 1 (or with lower contaminant levels) is received and disposed at the Premises.

NOTES

1. The Environment Protection Authority will require the proponent to prepare a Landfill Environmental Management Plan (LEMP) to satisfy the Authority's licensing requirements. Such a plan will be required to include provisions for the review, from time to time, of waste treatment and disposal methods to facilitate implementation of continuous improvement programs. The LEMP will be required to incorporate specific plans in relation to groundwater and leachate management, surface water management, vegetation and revegetation, soil erosion and drainage and the management of pest plants and animals as outlined in the amendment to the Assessment Report. It will also be required to include provisions for implementation of corrective actions in the event of any failure of the leachate and groundwater management systems.

2. Control over the types of waste to be received at the site will be exercised by the Environment Protection Authority. This will be done through conditions of environmental authorisation or requirements under a relevant Environment Protection Policy rather than through conditions of development authorisation (see Condition 16).

3. A financial assurance in accordance with the provisions of section 51 of the Environment Protection Act 1993 will be required by the Environment Protection Authority as a condition of licence.

4. The outstanding stormwater management issues discussed in relation to section 25 of the Environment Protection Act 1993 must be clarified as part of the LEMP if approval is given to the project.

5. A comprehensive proposed groundwater monitoring and protection system would need to be finalised in the LEMP.

6. A landfill gas monitoring program should be prepared to the satisfaction of the Environment Protection Authority and incorporated into the LEMP.

7. As part of the LEMP a contingency plan for landfill gas extraction and combustion systems would be required.

8. A low flame multi-burn flaring system to be incorporated in the landfill gas management system would be required. The flaring system should be enclosed in a cage unit to prevent debris from going through the flame.

9. The acceptance criteria and frequency of monitoring for odours needs to be specified in the development of the LEMP based on the conduct of modelling and approved management practices.

10. In order to achieve satisfactory environmental outcomes the use of a force-fed mechanical waste shredding system at the transfer station (as a means of reducing the potential for litter) is recommended. The Authority will require all waste to go through an Environment Protection Authority approved resource recovery centre which has a high percentage of re-use and resource recovery.

11. The Environment Protection Authority as part of the licence condition will state that litter will not be allowed to discharge off the proponent's property.

12. As part of the LEMP a surface water management system, which collects run-off from road surfaces, stockpile areas and other locations where saline water has been used for dust suppression, should be prepared. This water is to be directed to specific ponds for collection and disposal into the leachate collection system or alternative treatment approved by the Environment Protection Authority.

13. The polylock system for anchoring the HDPE membrane may form part of the liner if the design and proposed construction method can demonstrate that the performance of the liner system is not compromised.

14. The proponent is reminded of its general environmental duty, as required by section 25 of the Environment Protection Act, to take all reasonable and practical measures to ensure that the activities on the whole site, including during construction, do not pollute the environment in a way which causes or may cause environmental harm.

Dated 5 June 2008.

ENVIRONMENT PROTECTION ACT 1993

Approval of Category B Containers

I, STEPHEN RICHARD SMITH, Senior Adviser, Container Deposit Legislation and Delegate of the Environment Protection Authority ('the Authority'), pursuant to section 69 of the Environment Protection Act 1993 (SA) ('the Act') hereby:

Approval of Category B Containers:

Approve as Category B Containers, subject to the conditions in subclauses (i) and (ii) below, each of the classes of containers identified by reference to the following matters described in the first 4 columns of Schedule 1 of this Notice which are sold in South Australia:

- (a) the product which each class of containers shall contain;
- (b) the size of the containers;
- (c) the type of containers; and
- (d) the name of the holders of these approvals.

(i) *Subsection 69 (3) Arrangements:*

The holders of these approvals must ensure that the empty containers which belong to their respective class of containers hereby approved as Category B Containers are collected from collection depots approved under section 69 of the Act by the party named in Column 5 of Schedule 1 of this Notice; and

(ii) *Approved Refund Markings:*

- (a) The holders of these approvals must ensure that each container which belongs to their respective class of containers hereby approved as Category B Containers bears the refund marking approved by the Authority in respect of that class of containers.
- (b) The refund marking that appears on each container that belongs to the class of containers hereby approved, must be a minimum 1.5 mm for the smallest letter in the statement and a minimum 3 mm for the numeric ('5') in the statement.
- (c) The holder of these approvals must ensure that if a sticker bearing the refund marking has been approved, and is applied to the container, then the sticker must not be placed on any portion of the opening mechanism or in any other place that would require complete or partial removal of the sticker before the contents may be consumed.

ENVIRONMENT PROTECTION ACT 1993

Approval of Category A Containers

I, STEPHEN RICHARD SMITH, Senior Adviser, Container Deposit Legislation and Delegate of the Environment Protection Authority ('the Authority'), pursuant to section 69 of the Environment Protection Act 1993 (SA) ('the Act') hereby:

Approval of Category A Containers:

Approve as Category A Containers, as identified in Column 5 of the Schedule, subject to the conditions in sub-clauses (i) and (ii) below, each of the classes of containers identified by reference to the following matters described in the first 4 columns of Schedule 1 of this Notice which are sold in South Australia:

- (a) the product which each class of containers shall contain;
- (b) the size of the containers;
- (c) the type of containers; and
- (d) the name of the holders of these approvals.

(i) *Subsection 69 (3) Arrangements:*

The holders of these approvals must ensure that the empty containers which belong to their respective class of containers hereby approved as Category A Containers, are collected from the retailers that sell them, and recycled in an appropriate manner. Disposal at landfill is not considered an appropriate method of disposal.

(ii) *Approved Refund Markings:*

- (a) The holders of these approvals must ensure that each container which belongs to their respective class of containers hereby approved as Category A Containers bears the refund marking approved by the Authority in respect of that class of containers.
- (b) The refund marking that appears on each container that belongs to the class of containers hereby approved, must be a minimum 1.5 mm for the smallest letter in the statement and a minimum 3 mm for the numeric ('5') in the statement.
- (c) The holder of these approvals must ensure that if a sticker bearing the refund marking has been approved, and is applied to the container, then the sticker must not be placed on any portion of the opening mechanism or in any other place that would require complete or partial removal of the sticker before the contents may be consumed.

ENVIRONMENT PROTECTION ACT 1993

Revocation of Approval of Category B Containers

I, STEPHEN RICHARD SMITH, Senior Adviser, Container Deposit Legislation and Delegate of the Environment Protection Authority ('the Authority'), pursuant to section 69 (8) of the Environment Protection Act 1993 (SA) ('the Act') hereby revoke the approvals of the classes of Category B Containers sold in South Australia as identified by reference to the following matters, which are described in the first 4 columns of Schedule 1 of this Notice:

- (a) the product which each class of containers shall contain;
- (b) the size of the containers;
- (c) the type of containers; and
- (d) the name of the holders of these approvals.

These approvals are revoked as the Authority is satisfied that the subsection 69 (3) arrangement between the approval holder and the party named in Column 5 of Schedule 1 of this Notice has been cancelled.

SCHEDULE 2

1. This exemption is valid from 1800 hours on 4 June 2008 until 0630 hours on 5 June 2008.

2. The exemption holder must operate within the trawl survey area nominated in Schedule 1.

3. The registered master must keep a 'skippers log' to record catch information during the survey.

4. All fish, other than prawns, southern calamary, arrow squid, scallops, octopus and slipper lobster taken during the exempted activity for survey purposes, are to be returned to the water immediately after capture.

5. While engaged in the exempted activity or unloading the survey catch, the exemption holder must have a copy of this notice on board the vessel or near his person. This notice must be produced to a PIRSA Fisheries Compliance Officer if requested.

6. The exemption holder must not contravene or fail to comply with the Fisheries Management Act 2007, or any other regulations made under that Act except where specifically exempted by this notice.

Dated 28 May 2008

FISHERIES MANAGEMENT ACT 2007: SECTION 79

TAKE note that the notice made under section 79 of the Fisheries Management Act 2007, published in the *South Australian Government Gazette*, dated 4 March 2008, referring to the West Coast Prawn Fishery, is hereby varied such that it will not be unlawful for a person fishing pursuant to a West Coast Prawn Fishery Licence to use prawn trawl nets in the waters specified in Schedule 1, under the conditions specified in Schedule 2, during the period specified in Schedule 3.

SCHEDULE 1

The waters of the west coast prawn fishery within Venus Bay and Coffin Bay.

SCHEDULE 2

1. Each licence holder must ensure that a representative sample of the catch (a 'bucket count') is taken for each trawl shot carried out during the fishing activity.

2. Each 'bucket count' sample must be accurately weighed to 7kg where possible and the total number of prawns contained in the bucket must be recorded on the attached data sheet, marked 'West Coast Prawn Fishery Bucket Count Data Sheet'.

3. The information recorded on the 'WCPF Bucket Count Data Sheet' must be returned to SARDI Aquatic Sciences within 15 days of the fishing activity being completed.

4. Fishing must cease if one or both of the following limits are reached:

- (a) The average catch per vessel, per night (for all three vessels) drops below 300kg for two consecutive nights.
- (b) The average prawn 'bucket count' for all three vessels exceeds 240 prawns per bucket on any single fishing night.

5. The fleet must nominate a licence holder to provide a daily update by telephone or SMS message to the PIRSA Fisheries Manager, to report the total prawn catch per night and the average prawn 'bucket count' information.

SCHEDULE 3

From 1830 hours on 1 June 2008 to 0630 hours on 4 June 2008.
Dated 28 May 2008

S. SLOAN, Programme Leader, Fisheries Management

FISHERIES MANAGEMENT ACT 2007: SECTION 115

TAKE notice that pursuant to section 115 of the Fisheries Management Act 2007, David Wiltshire of ENSR, 76 Waymouth Street, Adelaide, S.A. 5000 (the 'exemption holder'), or a person acting as his agent, is exempt from the notice issued on 28 May 2008 under section 79 of the Fisheries Management Act 2007, but only insofar as the exemption holder shall not be guilty of an offence when collecting giant cuttlefish (*Sepia apama*) from the waters specified in Schedule 1 using a dip net (the 'exempted activity') subject to the conditions specified in Schedule 2, from 1 June 2008 until 10 June 2008, unless varied or revoked earlier.

SCHEDULE 1

Whyalla cuttlefish closure, as described in the notice made under section 79 of the Fisheries Management Act 2007 dated 28 May 2008.

SCHEDULE 2

1. All fish collected pursuant to this notice may only be used for research purposes and must be returned to the water as soon as possible after length measurements have been recorded.

2. The exemption holder or a person acting as an agent must notify PIRSA Fisheries on 1800 065 522 at least two hours prior to conducting the exempted activity and answer a series of questions about the exempted activity. The exemption holder will need to have a copy of the exemption notice at the time of making the call, and be able to provide information about the area and time of the exempted activity, the vehicles and boats involved, the number of agents undertaking the exempted activity and other related questions. **Exemption No. 9902127.**

3. The exemption holder must provide a written report to the Director of Fisheries (G.P.O. Box 1625, Adelaide, S.A. 5001) within 14 days of the expiry of this exemption, providing the following details:

- Location of collection;
- Date and time of the collection;
- Number of fish collected;
- Size of fish collected;
- Any mortalities in relation to the exempted activity.

4. While engaged in the exempted activity the exemption holder or agent must be in possession of a copy of this notice and such a notice must be produced to a PIRSA Fisheries Compliance Officer if requested.

5. The exemption holder must not contravene or fail to comply with the Fisheries Management Act 2007, or any regulations made under that Act, except where specifically exempted by this notice.

Dated 28 May 2008.

W. ZACHARIN, Director of Fisheries

FISHERIES MANAGEMENT ACT 2007: SECTION 79

TAKE notice that pursuant to section 79 of the Fisheries Management Act 2007, it is hereby declared that it shall be unlawful for any persons to engage in the act of, or an act preparatory to or involved in, taking species of the family cephalopoda (squid, cuttlefish and octopus) from those waters specified in Schedule 1, during the period specified in Schedule 2.

SCHEDULE 1

All waters of Spencer Gulf within an area bounded by a line commencing at Point Lowly lighthouse, then following the geodesic between that point and the southern end of the Port Bonython jetty, then following the geodesic between that point and the eastern most point of the BHP jetty near Whyalla, position latitude 33°02.3'S, longitude 137°35.95'E, then following the jetty to the high water mark at the base of the jetty, then following the high water mark along the shoreline in a generally easterly direction back to the point of commencement.

SCHEDULE 2

From 28 May 2008 to 28 May 2009.

Dated 28 May 2008.

PETROLEUM ACT 2000

Notice of Invitation of Applications for an Exploration Licence

I, BARRY ALAN GOLDSTEIN, Director Petroleum and Geothermal, Minerals and Energy Resources, Department of Primary Industries and Resources in the State of South Australia, pursuant to the provisions of the Petroleum Act 2000, and pursuant to delegated powers dated 28 March 2002, gazetted 11 April 2002, page 1573 and in accordance with section 22 (1) of the Petroleum Act 2000, on behalf of the Minister for Mineral Resources Development (Minister) hereby invite applications for the grant of an Exploration Licence in respect of the areas described below and shown on the attached plan.

OT2008-D

Description of Area

All that part of the State of South Australia, bounded as follows:

Area 1—Commencing at a point being the intersection of latitude 37°42'20"S GDA94 and longitude 140°32'30"E GDA94, thence east to longitude 140°41'00"E GDA94, south to latitude 37°43'00"S GDA94, east to longitude 140°44'00"E GDA94, south to latitude 37°44'00"S GDA94, east to longitude 140°45'00"E GDA94, south to latitude 37°45'00"S GDA94, thence east to the eastern border of the State of South Australia, thence southerly along the border of the said State to latitude 37°49'00"S GDA94, west to longitude 140°51'00"E GDA94, south to latitude 37°50'00"S GDA94, west to longitude 140°45'00"E GDA94, south to latitude 37°51'00"S GDA94, west to longitude 140°37'30"E GDA94, north to latitude 37°45'30"S GDA94, west to longitude 140°32'30"E GDA94 and north to point of commencement.

Area 2—Commencing at a point being the intersection of latitude 38°00'00"S AGD66 and longitude 140°52'30"E AGD66, thence east to the eastern border of the State of South Australia, thence southerly along the border of the said State to the Territorial Sea Baseline, Southern Ocean, thence generally westerly along the said Baseline to longitude 140°52'30"E AGD66 and north to the point of commencement but excluding the Lower Glenelg River Conservation Park and the Piccaninnie Ponds Conservation Park.

Area: 408 km² approximately.

*Special Conditions**Licence Term*

The PEL will be offered for a five-year term with a right of renewal for a further five-year term at the end of the initial five-year term, with a compulsory relinquishment of 50% of initial area at renewal.

Security

A minimum \$50 000 security (amount subject to review) will be required to be lodged by the licensee prior to entering the guaranteed licence term in which seismic or well activities are planned.

Applications

Applications lodged under section 65 (1) of the Petroleum Act 2000, are required to be made in the approved form as identified on the DVD 'Otway Basin Acreage Release OT 2008-A, B, C and D' (can be ordered from: www.petroleum.pir.sa.gov.au or the Director Petroleum and Geothermal at the address below):

Applications:

- must satisfy the requirements of Regulation 4 of the Regulations under the Petroleum Act 2000;
- must be accompanied by a proposed work program for the first 5 year term of the licence;
- must be accompanied by a statement of the financial and technical resources available to the applicant; and
- must be accompanied by the scheduled application fee.

Applications close at 4 p.m. on Thursday, 27 November 2008 (Australian Central Daylight Time).

The following special instructions for lodgement of applications should be observed:

- the application and supporting data, together with the scheduled application fee of \$3 328, payable to the Department of Primary Industries and Resources SA, should be sealed in a plain envelope or package and clearly marked as 'Application for Area OT 2008-D—Commercial-in-Confidence';
- the envelope or package should then be enclosed in another envelope and posted, or delivered by hand to:

Director Petroleum and Geothermal
Minerals and Energy Resources
Department of Primary Industries and Resources SA
Level 7, 101 Grenfell Street
Adelaide, S.A. 5000

Copies of the basic exploration data pertaining to the area comprising this notice are available from the Petroleum and Geothermal Group of the Department of Primary Industries and Resources SA. Enquiries may be directed to Barry Goldstein, Director Petroleum and Geothermal (Telephone (08) 8463 3200; email: Goldstein.Barry@saugov.sa.gov.au).

Criteria for Assessment of Applications

The winning bidder will be selected on the basis of the five year work program bid. The work program must include a statement of exploratory operations the applicant proposes to carry out in each year of the first five-year licence term. The aim of the work program is to evaluate the prospectivity of the licence area and discover regulated resources. It is expected that at least one petroleum exploration well would be included in the five-year work program.

Bids will be assessed taking account of the criteria listed below. It is important to note that the timing of well drilling and seismic acquisition will be taken into account. The most important criteria for assessment of OT2008-D work program is:

- the number of exploration wells to be drilled in the licence area (development wells are not considered);
- the number of years the applicant is prepared to guarantee the program;
- the extent to which proposed wells are supported by seismic data;
- the amount and nature of seismic surveying to be carried out and its timing;
- other data acquisition (e.g. gravity, aeromagnetic or geochemical surveys);
- seismic reprocessing to be carried out;

- adequacy of financial resources and technical expertise available to the applicant; and
- the applicant's past performance in fulfilling work program commitments elsewhere in Australia.

The Minister will announce the winning bidder, together with details of the work program.

Dated 3 June 2008.

RADIATION PROTECTION AND CONTROL ACT 1982:
SECTION 44

*Notice by Delegate of the Minister for Environment and
Conservation*

PURSUANT to section 44 of the Radiation Protection and Control Act 1982, I, Keith Baldry, Director of the Radiation Protection Division of the Environment Protection Authority, being a person to whom the powers of the Minister under that section have been delegated under the Act, exempt veterinary assistants at the Hills Veterinary Centre from the requirement to hold a licence under section 28 of the Radiation Protection and Control Act 1982, to the extent that they may use or handle radioactive iodine-131 for the purposes of assisting veterinarians in therapy procedures involving administration of radioactive iodine-131 capsules to cats, caring for the cats and handling radioactive waste resulting from the procedures. The exemption is subject to the following conditions:

1. A veterinary assistant to which this exemption applies must have received appropriate training in the principles and practices of radiation protection in relation to the use or handling of the radioactive iodine-131; and

2. The veterinary assistant must only use or handle the radioactive iodine-131 under the supervision of a veterinarian who holds a licence under section 28 of the Act.

Dated 3 June 2008.
