- 1.1 request nationality information from existing and potential employees and contractors;

COMPULSORY THIRD PARTY INSURANCE PREMIUM SCHEDULE

Compulsory Third Party (CTP) Insurance - Policy of Insurance

1. The insurer (the Motor Accident Commission) insures the owner of the motor vehicle and any other person who at any time drives or is a passenger in or on the vehicle, whether with or without the consent of the owner, in respect of all liability that may be incurred by the owner or other person in respect of the death of, or bodily injury to, any person caused by, or arising out of the use of the vehicle in any part of the Commonwealth.
2. A person so insured warrants that he or she will not-
 - (a) drive the vehicle, or do or omit to do anything in relation to the vehicle, with the intention of causing the death of, or bodily injury to, a person or damage to another's property or with reckless indifference as to whether such death, bodily injury or damage results; or
 - (b) drive the vehicle while so much under the influence of intoxicating liquor or a drug as to be incapable of exercising effective control of the vehicle; or
 - (c) drive the vehicle while there is present in his or her blood a concentration of .15 grams* or more of alcohol in 100 millilitres of blood; or
 - (d) drive the vehicle while not duly licensed or otherwise permitted by law to drive the motor vehicle; or
 - (e) drive the vehicle while the vehicle is overloaded, or in an unsafe, unroadworthy or damaged condition; or
 - (f) use the vehicle otherwise than-
 - (i) for the purposes stated in the application for registration, renewal of registration, exemption from registration or a permit, in respect of the vehicle; or
 - (ii) if trade plates are affixed to the vehicle - for purposes stated in the application for the issuing of those plates; or
 - (iii) for purposes agreed on between the insurer and the registered owner of the vehicle.
3. The owner of the vehicle warrants that no person will, with his or her knowledge or consent (which will be presumed in any proceedings in the absence of proof to the contrary), drive or use the vehicle, or do or omit to do anything in relation to the vehicle, contrary to any paragraphs of clause 2.
4. This policy of insurance does not extend to liability arising from death of, or bodily injury to, a participant in a road race caused by the act or omission of another participant in the road race.

* The insurer's right to recover claims costs is in addition to all other penalties applying to offences involving the driving of a vehicle with a blood alcohol concentration in excess of the legal limit, namely 0.05%.

IMPORTANT INFORMATION FOR VEHICLE OWNERS ON CTP INSURANCE

ASSISTANCE IN DETERMINING THE APPROPRIATE PREMIUM CLASS

The premium class and premium payable may be determined by referring to the CTP Insurance Schedule shown overleaf. In determining the premium class, attention should be given to:

- Type of vehicle
- The purpose for which it is used
- The input tax credit (ITC) entitlement of the registered owner (see below)
- The postcode area in which it is usually garaged (see below)

GST

The premiums shown overleaf include a component to recover the cost of stamp duty payable by the insurer. In accordance with GST laws, no GST is payable on this component of the premium. Consequently, the GST payable will be less than 1/11th of the total premium.

The Input Tax Credit (ITC) Entitlement of the registered owner

You MUST select an 'ITC Entitled' higher premium class if the vehicle is used for any purpose that entitles you to claim back any part of the GST component of the CTP Premium. Under the Commonwealth GST Law*, this is known as an 'Input Tax Credit' (ITC). Upon payment of any 'ITC Entitled' premium, a Tax Invoice will automatically be provided with your Certificate of Registration.

A 'No ITC Entitlement' premium is only available where you are NOT entitled to an ITC in relation to the premium paid. Where a 'No ITC Entitlement' premium class has been selected a Tax Invoice will not be provided with your Certificate of Registration. If a Tax Invoice is required for a 'No ITC Entitlement' premium class payment, an Application for Issue of a Tax Invoice form (MR173) must be completed and lodged with the Department for Transport, Energy and Infrastructure.

Failure to notify the insurer of the correct premium may incur a penalty up to \$250. This penalty is in addition to any premium differential payable.

In addition, if the incorrect premium is paid this constitutes a breach of the Policy of Insurance. Section 124A(2) of the Motor Vehicles Act 1959 allows the insurer, by action in a court of competent jurisdiction, to recover from the insured person a portion of the money paid or costs incurred by the insurer in respect of the liability incurred by the insured person. Accordingly, use of the vehicle otherwise than for the purposes stated in your application renders you liable to recovery action in the event that a claim on your policy is paid by the insurer. In cases of incorrect registration of GST status, the insurer may seek 10% of the money paid or costs incurred by the insurer as settlement of its claim under Section 124A(2) of the Motor Vehicles Act 1959.

*GST Law means the Commonwealth legislation: A New Tax System (Goods and Services Tax) Act 1999.

The postcode area in which the vehicle is garaged

"INSURANCE RATING DISTRICT 1" - "District 1" consists of the following postcodes.

All postcodes between 5000 and 5201 inclusive (with the exception of 5001 and 5174) and postcodes, 5231, 5232, 5233, 5240, 5241, 5242, 5243, 5244, 5245, 5250, 5251, 5252, 5942, and 5950.

"INSURANCE RATING DISTRICT 2" - "District 2" is any area within the State of South Australia outside the above postcodes, plus the following localities within the postcode areas listed below.

5118	Concordia	5157	McHarg Creek	5172	Willunga Hill	5244	Harrogate
5118	Kangaroo Flat	5172	Hope Forest	5172	Willunga South	5252	Kanmantoo
5118	Kingsford	5172	Kuitpo Colony	5172	Yundi		
5120	Buckland Park	5172	Kyeema	5173	Aldinga Beach		
5157	Ashbourne	5172	Pages Flat	5173	Silver Sands		

In the case of premium classes 16, 20, 36, 40, 66, 70, 86 and 90, the insurance premium payable is based on the normal place of residence of the owner or the principal place of business of a Body Corporate.

It is advisable to check the insurance class and insurance premium payable shown on the registration renewal notice. If the information shown is incorrect, a Customer Service Centre should be notified immediately.

An 'Application to Change the Insurance Premium Class on a Registration' may be required where the premium has altered due to:

- | | |
|--|------------------------------------|
| A change of residential and/or garaging address | A change in concession status |
| An alteration to the vehicle | A change in the use of the vehicle |
| A change in the GST status of the registered owner | |

'EXCESS' PROVISIONS - MOTOR VEHICLES ACT 1959

Section 124AB of the Motor Vehicles Act states that where an insured person (and that includes the driver) incurs a liability (against which he or she is insured under the policy) and is more than 25% at fault, the insurer may recover up to \$300.00 from the insured person as a debt. This does not prevent the insurer at a later date exercising any other right of recovery against you under Part IV of the Act (eg for breach of warranty relating to intoxicating liquor).

It is an offence to provide false information or withhold any information which may be necessary to determine the appropriate insurance premium.

CTP INSURANCE PREMIUM SCHEDULE Effective 1 July 2008

NATURAL RESOURCES MANAGEMENT ACT 2004

Declaration of Penalty in Relation to the Unauthorised Taking of Water

I, GAIL GAGO, Minister for Environment and Conservation, to whom administration of the Natural Resources Management Act 2004 (the Act) is committed, hereby declare that pursuant to section 115 (1) (c) and (d) of the Act, the following rate will apply during the financial year commencing on 1 July 2007, in relation to the taking of water by a person who is not the holder of a water licence and is not authorised under section 128 of the Act to take water from a prescribed water resource, or a person who uses water in contravention of a notice declared under section 132 of the Act:

Dated 16 June 2008.

GAIL GAGO, Minister for Environment and Conservation

NATURAL RESOURCES MANAGEMENT ACT 2004

Notice of Assessment of Quantity of Water Taken when Meter Readings are not used

I, GAIL GAGO, Minister for Environment and Conservation, pursuant to section 106 of the Natural Resources Management Act 2004, hereby declare that the basis of assessment of water use rates and the method by which the assessment of water use where meter readings are not used or when water is taken without licence or authorisation will be as set out in Schedule 1.

SCHEDULE 1

The basis of the assessment of water use will be the estimation of water requirements for a crop.

The method by which the estimation of water requirements for crops will be used is the methodology of Doorenbos and Pruitt (1977), as refined by Allen *et al.*, (1998) and set out in the PIRSA Technical Report No. 263, second edition (the Report). Crop factors will be calculated from Kc (crop coefficient) values from Food and Agriculture Organisation of the United Nations, Rome Irrigation and Drainage Paper 56 (Allen, Pereira *et al.*, 1998) ('FAO 56') and using site specific monthly Kp (pan coefficient) values and average monthly Kg values (bird guard coefficient) set out in the Report.

The methodology incorporates the use of Bureau of Meteorology evaporation data, the application of crop specific factors to evaporation figures to calculate crop evapotranspiration for the crop and location in question, subtraction of effective rainfall and an allowance for leaching for salinity control and irrigation efficiency.

The water requirement calculated by this method is expressed as depth of water required in millimetres for a particular crop grown over a particular season. Depth multiplied by the number of hectares of that crop grown (in each specified season for short season crops), multiplied by 10 gives the volume of water required for each crop in kilolitres.

A copy of the Report and FAO 56 can be accessed at the GEO Science Library at the Department of Primary Industries and Resources South Australia. The reference number for the Report is ISBN No. 07308-4349-1 and the reference number for FAO 56 is Kinetic/Amicus No. 000020037000 or ISBN No. 92-5-104219-5.

This notice has effect in relation to the financial year commencing on 1 July 2008.

Dated 16 June 2008.

GAIL GAGO, Minister for Environment and Conservation

NATURAL RESOURCES MANAGEMENT ACT 2004

Notice of Restriction on the Taking of Water from the River Murray Prescribed Watercourse

PURSUANT to section 132 (1) of the Natural Resources Management Act 2004 ('the Act') and pursuant to the delegation of the powers under section 132 of the Act made to me by the Minister for Environment and Conservation (under section 9 (1) of the Administrative Arrangements Act 1994 and by the notice published in the *Government Gazette* (page 3307) of 15 September 2005) I, Karlene Maywald, Minister for the River Murray being of the opinion that due to reduced River Murray flow to South Australia, the rate at which water is being taken from the River Murray Prescribed Watercourse as described in Schedule 1:

- is such that the quantity of water available can no longer meet the demand;
- is such that there is a risk that the available water will not be sufficient to meet future demand; and
- is affecting the quality of water in the watercourse,

hereby restrict the taking of water from the River Murray Prescribed Watercourse in the manner and subject to the conditions specified in Schedule 2.

SCHEDULE 1

The River Murray Prescribed Watercourse established by proclamation under the Water Resources Act 1976 and continued in existence as if it had been proclaimed under the Water Resources Act 1990 and continued in existence by virtue of Clause 2 (1) (a) of Schedule 3 of the Water Resources Act 1997 and Clause 52 (a) of Schedule 4 of the Natural Resources Management Act 2004 and described in the General Registry Office Plan No. 926/78, sheets 1-13.

SCHEDULE 2

1. Water may only be taken from the River Murray Prescribed Watercourse in the following circumstances:

- If a person holds a water licence endorsed with a water (taking) allocation to take water from the River Murray Prescribed Watercourse for purposes other than domestic, stock, intensive farming, industrial or industrial-dairy purposes, as defined in the Act and the Water Allocation Plan for the River Murray Prescribed Watercourse adopted on 1 July 2002 (as amended on 12 January 2004), that person is entitled to take a quantity of water equivalent to 2% of the water (taking) allocation endorsed on the water licence, subject to the provisions of paragraphs 2-9 inclusive of this Schedule.
- In respect of its water licence (Metropolitan Adelaide) for the taking of water for urban water supply through reticulated water supply infrastructure under the Waterworks Act 1932, the South Australian Water Corporation is entitled to take 150 gegalitres.
- In respect of its water licence (Country Towns) for the taking of water for urban water supply through reticulated water supply infrastructure under the Waterworks Act 1932, the South Australian Water Corporation is entitled to take 31 gegalitres.
- If, during the period of this Notice, a person receives approval under the Act to permanently convert a water (holding) allocation to a water (taking) allocation, that person is entitled to take a quantity of water equivalent to 2% of the resultant water (taking) allocation.

- (e) If, during the period of this Notice, a person receives approval under the Act to convert, for 2008-2009 only, a water (holding) allocation (that has been transferred to the licence from another South Australian water licence holder and the allocation transferred is identified on the prescribed transfer application form as an 'entitlement transfer' (as defined on the prescribed application form)) to a water (taking) allocation, that person is entitled to take a quantity of water equivalent to 2% of the resultant water (taking) allocation.
- (f) If, during the period of this Notice, a person receives approval under the Act to convert, for 2008-2009 only, a water (holding) allocation (that has been transferred to the licence from another South Australian water licence holder for 2008-2009 and the allocation transferred is identified on the prescribed transfer application form as an 'allocation transfer' (as defined on the prescribed application form)) to a water (taking) allocation, that person is entitled to take a quantity of water equivalent to 100% of the resultant water (taking) allocation.
- (g) If, during the period of this Notice, a person receives approval under the Act to convert, for 2008-2009 only, a water (holding) allocation (that has been transferred to the licence from interstate during 2008-2009) to a water (taking) allocation, that person is entitled to take a quantity of water equivalent to 100% of the resultant water (taking) allocation.
- (h) If a person holds a water licence endorsed with a water (taking) allocation for carry-over purposes to take water from the River Murray Prescribed Watercourse, that person is entitled to take a quantity of water equivalent to 50% of that water allocation in accordance with the carry-over arrangements adopted by the Minister for Environment and Conservation.
- (i) If a person has been authorised in writing by myself, or my agent, to take a quantity of water to maintain existing genetic resource material, that person is entitled to take the quantity of water stated on the written authorisation, subject to any conditions stated on the written authorisation.

2. Where a South Australian water licence holder permanently or temporarily transfers a water (taking) allocation during the term of this Notice to another South Australian water licence holder (the transferee), and the allocation transferred is identified on the prescribed application form as an 'entitlement transfer' (as defined on the prescribed application form), the transferee is entitled to take a quantity of water equivalent to 2% of the water (taking) allocation transferred.

3. Where a South Australian water licence holder temporarily transfers a water (taking) allocation during the term of this Notice to another South Australian water licence holder (the transferee), and the allocation transferred is identified on the prescribed application form as an 'allocation transfer' (as defined on the prescribed application form), the transferee is entitled to take a quantity of water equivalent to 100% of the water transferred.

4. Where an annual water allocation is temporarily transferred to the State of South Australia from interstate for 2008-2009 only and is endorsed on the South Australian water licence as a water (taking) allocation, the transferee is entitled to take a quantity of water equivalent to 100% of volume transferred.

5. Where an annual water allocation is temporarily transferred to the State of South Australia from interstate for 2008-2009 only and is endorsed on the South Australian water licence as a water (holding) allocation, the volume transferred cannot be taken by the South Australian licence holder, unless converted to a water (taking) allocation.

6. Where a South Australian water licence holder (the transferor) temporarily transfers a water (taking) allocation (including an allocation for carry-over purposes) for use in New South Wales or Victoria during 2008-2009 only, a volume that is the equal to or less than the volume of water able to be taken under Clauses 1 (a), (b), (c), (d), (e), (f), (g) or (h) of this Schedule can be transferred.

7. Where a South Australian water licence holder (the transferor) temporarily transfers a water (holding) allocation for use in New South Wales or Victoria during 2008-2009 only, a volume that is equal to or less than the volume that would be authorised for use following conversion under Clauses 1 (d), (e), (f) or (g) of this Schedule, can be transferred.

8. Where a water (taking) allocation for carry-over purposes is temporarily transferred within South Australia, the transferee is entitled to take a quantity of water equivalent to 50% volume transferred.

9. Where water is transferred to or from a South Australian water licence subject to the provisions of paragraphs 2-8 inclusive of this Schedule, the volume of water authorised to be taken under this Schedule will be adjusted to reflect the transfer.

10. Where water is approved for use in the State of South Australia under an Interstate Water Entitlement Transfer Scheme, 100% of the water allocation authorised for use in the State of Origin may be taken.

11. The following condition applies to the taking of all water in accordance with this Notice:

- The water may only be taken through a meter that accurately measures the quantity of water taken and is at all times in good working condition, unless otherwise authorised by the Minister for Environment and Conservation or that Minister's agents.

12. This Notice of Restriction does not apply to the taking of water for fire fighting, road making, stock, domestic, intensive farming, industrial or industrial-dairy purposes, or for the application of chemicals for the control of pest plants and animals to non-irrigated crops or non-irrigated pasture.

This restriction on the taking of water from the River Murray Prescribed Watercourse will remain in effect up to and including 30 June 2009, unless earlier varied or revoked.

Dated 19 June 2008.

**Government
of South Australia**

**TREASURER'S
QUARTERLY STATEMENT**

for the

**THREE MONTHS and NINE MONTHS ended on
31 MARCH 2008 and 31 MARCH 2007**

*Presented by the
Honourable Kevin Foley MP
Treasurer of South Australia*

GOVERNMENT OF SOUTH AUSTRALIA**COMMENTARY TO THE STATEMENT OF THE AMOUNTS CREDITED TO
AND ISSUED FROM THE CONSOLIDATED ACCOUNT FOR THE QUARTERS
ENDED 31 MARCH 2008 AND 31 MARCH 2007*****Receipts******Taxation***

Payroll tax receipts for the March quarter 2008 and for the first nine months of 2007-08 were higher than for the same periods in 2006-07 (notwithstanding the cut in the payroll tax rate from 5.5% to 5.25% effective from 1 July 2007). Growth in payroll tax revenue reflects buoyancy in employment and earnings in the State flowing through to taxable payrolls.

Growth in stamp duty revenue mainly reflects underlying strength in the property market impacting on conveyance duty receipts including the timing of large commercial transactions, while higher land tax collections reflect underlying growth in land values.

Lack of growth in gambling taxes for the nine months to March 2008 compared to the same period a year ago largely reflects the impact of the smoking ban on gaming machines in hotels and clubs. This also explains the reduction in receipts between the March quarters 2008 and 2007.

Recoveries

Recoveries for the first three quarters of 2007-08 were higher than for the same period in 2006-07 mainly due to the once-off return of \$18.8 million in surplus funds to the Consolidated Account from the Department for Environment and Heritage's Accrual Appropriation Excess Funds special deposit account and higher returns of unclaimed monies to the Consolidated Account compared with the same period last financial year.

Fees and Charges

Fees and charges were higher in the first three quarters of 2007-08, compared with the same period in 2006-07 as a result of higher Land Services Fees and SA Police Infringement Notice Scheme receipts.

Royalties

Higher levels of royalty revenue in the nine months to March 2008 compared with the same period a year ago are mainly due to differences in the timing of some royalty payments in the March quarter 2008 compared with the March quarter 2007.

Commonwealth – General Purpose Grants

Growth in general purpose grants in the first nine months of 2007-08 compared with the same period of 2006-07 is not indicative of underlying Goods and Services Tax (GST) revenue growth. This is because monthly grants are paid according to a payment schedule prepared by the Commonwealth Government at the

commencement of a financial year rather than in accordance with the actual pattern of monthly GST collections.

The Commonwealth in its 2008-09 Budget (released on 13 May 2008) estimates that the total GST pool will grow by around 7.8 per cent in 2007-08.

Other Receipts

Other receipts were higher in the first three quarters of 2007-08 compared with the same period in 2006-07 due to the timing of the South Australian Housing Trust's payment of interest and principal in respect of the various Concessional Housing Loans, paid in July 2007 instead of June 2007, and the repayment in full of the Department for Environment and Heritage's capital investment loan with the Treasurer.

Higher earnings on investments and the proceeds from the sale of government land and buildings also contributed to higher Other Receipts for the nine months ended 31 March 2008 compared with the same period last year.

Payments

Payments were made pursuant to the *Appropriation Act 2007* and also in accordance with various other Acts for which specific appropriation has been authorised.

Payments made from the Consolidated Account during the first three quarters of 2007-08 were higher than the same period in 2006-07.

The higher level of payments was in line with the higher budgeted appropriation for 2007-08 compared with 2006-07.

Note

Considerable caution should be exercised in interpreting the quarterly statement of Consolidated Account transactions. Unlike the State budget, which comprises transactions on an accrual basis, the information reflected in the quarterly statements is limited to cash transactions. In addition, the Consolidated Account does not capture all the transactions undertaken by the general government sector (in particular, it does not record receipts to and payments from special deposit accounts). Finally, it should be noted that the timing of receipts and payments could be volatile within a particular year. As a result, apparently significant movements between years may only be due to changes in the timing of receipts and payments, and therefore may not have implications for the underlying budget position.
