## DEVELOPMENT ACT 1993: SECTION 48

## DECISION BY THE DEVELOPMENT ASSESSMENT COMMISSION AS DELEGATE OF THE GOVERNOR

*Preamble*

1. A proposal from Baillie Lodges (hereafter 'the applicant') to develop a nature based tourism resort at Hanson Bay, Kangaroo Island has been under consideration under Division 2 of Part 4 of the Development Act 1993.

2. The proposal has been the subject of a Public Environmental Report (PER) and an Assessment Report under sections 46 and 46C of the Development Act 1993, and is hereafter referred to as the 'proposed Major Development'.

3. The proposed Major Development was the subject of a development application lodged in February 2005 by the applicant. The said application has been amended and expanded upon by the applicant's Public Environmental Report, dated 24 March 2006 and the applicant's Response Document, dated 4 July 2006.

4. The Governor was satisfied that an appropriate Public Environmental Report and an Assessment Report have been prepared in relation to the proposed Major Development, in accordance with sections 46 and 46C, Division 2 of Part 4 of the Development Act 1993, and have had regard, when considering the proposed Major Development, to all relevant matters under section 48 (5) of the Development Act 1993.

5. Recent amendments that have been approved are contained in the following documents and drawings:

- An application for the Building Rules approval for the Staff Village (Stage 1) construction was made on 4 December 2006.
- An application for approval for the Construction Environmental Management and Monitoring Plan (CEMMP) was made on 11 December 2006.
- An application for approval for the revised Construction Environmental Management and Monitoring Plan (CEMMP) was made on 30 January 2007.
- An application for the Building Rules approval for the spa retreat (Stage 2) and the footings of the accommodation suites (Stage 3) was made on 20 February 2007.
- An application for the building rules approval for the guest units and verandahs (Stage 4 superstructure) and for the lodge (Stage 5 substructure), retaining walls and pool was made on 25 May 2007.
- An application for the construction of a telecommunications tower (Stage 6) on 15 May 2007.
- An application for the Building Rules approval for the superstructure framework (Stage 7) was made on 20 August 2007.

6. Application has now been made to the Development Assessment Commission as Delegate of the Governor under section 48 of the Development Act 1993, to grant Building Rules approval for the completion of the guest units, including verandahs (Stage 8) and for the pump/powerhouse and completion of the Lodge (Stage 9).

7. The Development Assessment Commission has in considering the application had regard to all relevant matters under section 48 (5) of the Development Act 1993.

8. The Development Assessment Commission is satisfied that the variation does not require the preparation of a further amended Public Environmental Report.

*Decision*

PURSUANT to section 48 of the Development Act 1993 and with the advice and consent of the Executive Council and having due regard to the matters set out in section 48 (5) and all other relevant matters, the Development Assessment Commission, as delegate of the Governor:

- (a) grant a provisional development authorisation in relation to the proposed major development, subject to the conditions and Notes to Applicant below;
- (b) specify all matters relating to this provisional development authorisation as matters in respect of which conditions of this authorisation may be varied or revoked, or new conditions attached;
- (c) specify for the purposes of section 48 (11) (b) the period of two years from the date hereof as the time within which substantial work must be commenced on-site failing which the Governor may cancel this authorisation.

Pursuant to section 48 and Regulation 64 (1) of the Development Act 1993, reserve the decision on the following matter:

- (a) further assessment and certification in respect of the Building Rules for components of the proposed development. (Refer to Notes to the applicant below for further information).

*Conditions of Approval*

1. Except where minor amendments may be required by other legislation, or by conditions imposed herein, the proposed major development shall be undertaken in strict accordance with:

  - Building Rules Certification dated 14 December 2007 by Rocco Ciancio Private Certifier and Building Surveyor in regards to the completion of the guest units, including verandahs and for the pump/powerhouse and completion of the Hanson Bay Lodge.
2. The applicant shall submit further information and application(s) in relation to the matters that have been reserved.
3. No building works on any part of the development may commence until a favourable decision has been notified to the applicant by the Governor or the Governor's delegate in respect of the reserved matters referred to above and until a development authorisation under section 48 (2) is granted.
4. An Operational Environmental Management and Monitoring Plan (OEMMP) for the operational phase of the development shall be prepared to the satisfaction of the Governor or her delegate, prior to commencement of operations. (Refer to Notes to Applicant below).
5. All works and site activities shall be undertaken in accordance with the approved Construction Environmental Management and Monitoring Plan.
6. Normal operating hours for construction activities and truck movements to and from the site shall be from 7 a.m. to 7 p.m., Monday to Sunday inclusive. (Refer to Notes to Applicant relating to Environment Protection Authority noise emission policies).
7. The wastewater collection and treatment system shall be designed to ensure that the obligations of the Environment Protection (Water Quality) Policy 2004 are met, and to ensure that effluent does not overflow or escape from drains, pipes, sumps, tanks, storage/treatment basins into any watercourse, or into stormwater drains which do not drain into the effluent collection, treatment and disposal system, except where the effluent complies with criteria in the above policy.
8. The level of wastewater generated and consequent irrigation rates shall be closely monitored and if greater than 8 500 L/day then irrigation area and rates modified to ensure compliance with this limit.
9. Information on all signage (directional and interpretative) including detail on size, colour and content, shall be prepared to the satisfaction of the Governor or delegate, prior to its installation.
10. Pedestrian access arrangements over Crown land and management of its impacts shall be agreed with the Department for Environment and Heritage prior to opening of the Lodge. The beach shall remain unobstructed for public access.
11. A raised timber boardwalk shall be provided along the walking trail to the east of the suites as indicated in Figure 3.1 of the Response Document. Detail on the dimensions and the precise location of the boardwalk shall be prepared to the satisfaction of the Governor or delegate prior to its installation.
12. A strategy to minimise impact on fauna from vehicle traffic using the private entrance road shall be prepared to the satisfaction of the Governor or delegate.
13. Clearing of vegetation shall not exceed that indicated in the PER. Revegetation of impacted areas shall be undertaken as soon as possible following construction.
14. Biomatting or mulching on cleared areas shall occur until such time that revegetation is established.
15. Above-ground fuel tanks shall be bunded and sealed in a manner which will provide capacity for a minimum of 30 000 litres.

16. All stormwater run-off from car parking areas, driveways and other hard surfaced areas shall be collected, contained, treated as necessary, and disposed of in a stormwater management system so that there is no contamination of water resources (surface or underground).

17. Storage of any material with the potential to degrade water quality shall be within a bunded area constructed in accordance with Australian Standard 1940.

18. The helipad shall only be used in emergencies.

19. In keeping with its commitment in the PER, the proponent and any subsequent operator shall not clear boundary vegetation, whether or not such clearance is permitted under the Native Vegetation Act 1991.

20. Revegetation of the site, with locally indigenous species, shall be undertaken if the operation fails and the site is decommissioned.

21. The restaurant shall not be open to the general public.

22. A Bushfire Management Plan, prepared in consultation with the Country Fire Service, shall be submitted for approval by the Governor or delegate.

23. Public and Environmental Health Act 1987, approval of the method of disposal of sewage and sullage from the building shall be obtained from Council prior to work being commenced. (Regulation 77).

24. For buildings within 1 km of the coastline all external metal roof cladding shall be corrosion protected and all connectors used in timber fixings shall be corrosion protected with a protective coating in accordance with the requirements of AS1214, AS1397, AS1562, AS1684, AS1720, AS/NZS2179, AS/NZS2699, AS3623, AS4100, AS/NZS4534, AS/NZS4600 and AS/NZS4791. (BCA B1.3, BP1.1 and BP1.2).

25. Water storage tank calculations and details shall be submitted to the private certifier for approval prior to this work commencing. (BCA B1.3).

26. Materials and assemblies in the building shall have Fire Hazard Properties that comply with the requirements of Specification C1.10 and in accordance with the requirements of this part of the BCA. (BCA C1.10, CP2 and CP4).

27. Water storage tanks overflow shall be discharged at least 5 m away from buildings and site boundaries or piped to the street watertable or site drainage easement in accordance with the requirements of AS/NZS3500.3.2 or AS/NZS3500.5. (BCA F1.1, FP1.1, FP1.2 and FP1.3).

28. An additional washing/drying machine (total of three required) shall be installed in the laundry for the use of the residents of the Bed-sit units in accordance with the requirements of this part of the BCA. (BCA F2.1).

29. The Building Rules Certification dated 14 December 2006, does not include the cabins, service buildings, reception/restaurant and spa retreat, which shall form the basis of further staged application(s) for Building Rules assessment. Note that there are timeframes for which the proposal must be substantially completed from the dated of issue of the staged Development Approval. Sufficient time must be allowed for the lodging, processing, issue of future staged consents and Development Approvals, including the construction of future stage(s) prior to the expiration of the validity of the Development Approval (section 39 and Regulation 46).

30. The building works proposed shall conform to the provisional development plan consent requirements (section 93).

31. The disposal of sewage and sullage from the spa retreat shall be undertaken in accordance with the Public and Environmental Health Act approval obtained from the SA Health Commission. (Regulation 77).

32. The door to the WC must have demountable hinges and be removable from outside the WC in the event that an emergency removal of the occupant is required. (BCA F2.5).

33. The fireplace, heater and flue/chimney must be constructed and installed to comply with the requirements of AS/NZS2918. (BCA G2.2 and G2.3).

34. Portable fire extinguishers and fire blankets (if applicable) must be installed in the building in accordance with the requirements of this part of the BCA. (BCA E1.6).

35. Exit lights must be installed adjacent doors D01 and D02 in the path of egress from the building in accordance with AS 2444 and in accordance with this part of the BCA. (BCA B1.3).

36. The finished paving level around the masonry wall must be set down at least 75 mm below the external wall damp proof course. (BCA B1.3).

37. The Building Rules Certification dated 20 February 2007, does not include the staff village, staff accommodation, cabin superstructure, service building and reception/restaurant, which shall form the basis of further staged application(s) for Building Rules assessment. (Note that there are timeframes for which the proposal must be substantially completed from the date of issue of the staged Development Approval. Sufficient time must be allowed for the lodging, processing, issue of future staged consents and Development Approvals, including the construction of future stage(s) prior to the expiration of the validity of the Development Approval section 39 and Regulation 46).

38. The timber durability and weather exposure requirements for exposed structural timbers, including supporting timber members must be in accordance with Clause 1.10 of AS 1684 National Timber Framing Code. (BCA B1.3).

39. Roof stormwater during the construction phase must be piped to water storage tanks or discharged at least 5 m away from buildings, any septic systems or site boundaries with the requirements of AS/NZS3500.3.2 or AS/NZS3500.5 and without damage to the surrounding land and flora. (BCA B1.3). Note that the permanent storm water disposal system will be assessed as part of the completion consent stage.

40. The public corridor serving the units must be divided with smoke proof doors at intervals of not more than 40 m in accordance with BCA Clause C2.14 and this part of the BCA. (BCA CP1, CP2). Note this will be reviewed as part of the completion consent stage.

41. Doors to the storerooms and equipment cupboards opening into the public corridor must be self-closing, tight fitting, solid core, not less than 35 mm thick in accordance with BCA Clause 3.11. (BCA CP1, CP2 and CP8).

42. The floor above the 'sub-floor' plant room must be fire separated from the unit above with a floor having at least FRL30/30/30 or with a fire-protective covering ceiling directly below the floor structure of the units in accordance with BCA Spec. C1.1-5.1. (BCA CP1 and CP6).

43. The 'sub-floor' plant room must be enclosed with walls having a fire rating of not less than FRL60/60/60 in accordance with BCA Spec. C1.1-5.1. (BCA CP1 and CP6).

44. The corridor widths must be at least 1 000 mm adjacent to the storeroom door positions in accordance with this part of the BCA. (BCA DP1, DP2 and D1.6).
45. The public corridor must be fitted with exits leading to the open space located such that unit entrance doors are not more than 6 m to the nearest single exit in accordance with BCA Clause D1.4 and exits shall be spaced not further than 45 m apart in accordance with BCA Clause D1.5. (BCA DP1 and DP2).
46. The entrance door-sets to the units must be sound insulated to at least Rw30 in accordance with the requirements of this part of the BCA. (BCA FP5.3 and F5.5).
47. The 'sub-floor' plant room must be sound insulated from the adjoining units with walls with at least Rw50 (airborne) and floors with at least Rw+Ctr50 (airborne) in accordance with BCA Clauses F5.4 and F5.5. (BCA FP5.1 and FP5.2).
48. For buildings within 1 km of the coastline all external metal roof cladding must be corrosion protected, any external leaf brick lintels must be hot dip galvanised, internal and external steelwork and all connectors used in timber fixings must be corrosion protected with a protective coating in accordance with the requirements of AS1214, AS1397, AS1562, AS1684, AS1720, AS/NZS2179, AS/NZS2699, AS3623, AS4100, AS/NZS4534, AS/NZS4600 and AS/NZS4791. (BCA B1.3).
49. The building area must be treated and continuously protected and maintained against attack from termites in accordance with the requirements of AS3660.1. (BCA B1.3).
50. The finished paving level around the masonry wall must be set down at least 75 mm below the external wall damp proof course. (BCA B1.3).
51. The slab edge rebate must be constructed to have a depth of at least 20 mm and a width of at least the thickness of the masonry external leaf plus the cavity gap in accordance with the BCA. (BCA B1.3).
52. A person must not fill the swimming pool with water, unless, the pool is enclosed by a fence that complies with AS1926 and Performance Requirement P2.5.3. (Regulation 83B).
53. The building loads used in this consent stage are required to be reaffirmed by the design engineer as part of the superstructure consent stage. Alterations to the building loads in the superstructure design, including the structural adequacy of the footings and foundation forming part of this staged consent will also need to be confirmed by the design engineer during the superstructure consent stage application. (Section 39 and Regulation 46).
54. The clearance for the telecommunications tower shall be undertaken using handheld equipment to minimise the impact of machinery on native vegetation on the actual site.
55. Any necessary cables for the telecommunications tower shall be located within the existing road surface to minimise vegetation clearance.
56. For structures within 1 km of the coastline all metal must be corrosion protected with a protective coating in accordance with the requirements of this part of the Building Code of Australia (BCA). (BCA P2.1).
57. This consent does not include the lodge superstructure cladding/walling enclosure, building fit-out, building services or building occupancy, which shall form the basis of a future staged application for Provisional Building Rules assessment. (Note that there are timeframes for which the proposal must be substantially completed from the date of issue of the staged Development Approval. Sufficient time must be allowed for the lodging, processing, issue of future staged consents and Development Approvals, including the construction of future stage prior to the expiration of the validity of the Development Approval. (Section 39 and Regulation 46)).
58. The gaps in the balustrade must not permit the passage of a sphere of 125 mm to pass in accordance with the requirements of this part of the BCA. Note that the tension in the balustrade wires must be maintained at all times to comply with this requirement. (BCA DP3).
59. The smoke doors from the building into the 'link' must be automatic closing in the event of an emergency as required by this part of the BCA. (BCA CP3).

#### *Notes to Applicant*

1. All matters relating to this provisional development authorisation are matters in respect of which conditions of this authorisation may be varied or revoked, or new conditions attached.
2. A decision on building rules will only be made after a Building Rules assessment and certification has been undertaken and issued by the Kangaroo Island Council or a private certifier, in accordance with the provisions of the Development Act 1993 and after the Minister for Urban Development and Planning receives a copy of all relevant certification documentation, as outlined in Regulation 64 of the Development Regulations 1993.
3. Pursuant to Development Regulation 64, the applicant is advised that the Kangaroo Island Council or private certifier conducting a Building Rules assessment must:
  - (a) provide to the Minister a certification in the form set out in Schedule 12A of the Development Regulations 1993 in relation to the building works in question; and
  - (b) to the extent that may be relevant and appropriate:
    - (i) issue a Schedule of Essential Safety Provisions under Division 4 of Part 12;
    - (ii) assign a classification of the building under these regulations; and
    - (iii) ensure that the appropriate levy has been paid under the Construction Industry Training Fund 1993.

Regulation 64 of the Development Regulations 1993 provides further information about the type and quantity of all Building Rules certification documentation for Major Developments required for referral to the Minister for Urban Development and Planning.

4. The Kangaroo Island Council or private certifier undertaking the Building Rules assessment must ensure that the assessment and certification are consistent with this provisional development authorisation (including Conditions or Notes that apply in relation to this provisional development authorisation).

5. An application to vary the Major Development or any of its components may be submitted. Whether a new PER and Assessment Report need to be prepared will depend on the nature of the variation and the lapse of time since the preparation of the PER.

6. The applicant's CEMMP and OEMMP should be prepared taking into consideration, and with explicit reference to, relevant Environment Protection Authority policies and guideline documents, including but not limited to:

- the Environment Protection (Air Quality) Policy 1994;
- the Environment Protection (Water Quality) Policy 2003;

- the Occupational Health and Safety Regulations;
- EPA Guidelines on Odour Assessment, using odour source modelling 2003;
- EPA Handbook for Pollution Avoidance on Commercial and Residential Building Sites 2004;
- EPA Bunding and Spill Management Guidelines 2004; and
- EPA Stormwater Pollution Prevention Codes of Practice, in addition to other legislative requirements and Guidelines/Australian Standards requiring compliance.

The following management and monitoring plans may be incorporated into the CEMMP or OEMMP as appropriate:

- Vegetation Monitoring and Management Plan.
- Site Construction Monitoring and Management Plan.
- Stormwater Monitoring and Management Plan.

7. The proponent is advised of the General Environmental Duty under section 25 of the Environment Protection Act 1993, which requires that a person must not undertake any activity, which pollutes, or may pollute; without taking all reasonable and practical measures to prevent or minimise harm to the environment.

8. Any information sheets, guidelines documents, codes of practice, technical bulletins, etc. that are referenced in this decision notice have been provided to the planning authority or may be accessed on the following website:

<http://www.environment.sa.gov.au/epa/pub.html>.

9. The Minister has a specific power to require testing, monitoring and auditing under section 48C of the Development Act 1993.

10. For the purposes of section 48 (11) (b) the period of two years from the dated hereof as the time within which substantial work must be commenced on-site failing which the Governor may cancel this authorisation.

11. The applicant is reminded of its obligations under the Aboriginal Heritage Act 1988 whereby any 'clearance' work, which may require permission to disturb damage or destroy Aboriginal Sites, must be undertaken with the full authorisation of the Minister for Aboriginal Affairs and Reconciliation, according to section 23 of the Aboriginal Heritage Act 1988. Construction staff should be trained in the recognition of potential objects or remains.

12. The Aboriginal Affairs and Reconciliation Division of the Department of the Premier and Cabinet (AARD) strongly recommends that the proponent contact representatives of the Kaurna, Ngarrindjeri and Ramindjeri peoples before the project proceeds, to ensure respect for their heritage interests and well being.

13. The applicant is required to obtain a separate approval from the Department of Health (Wastewater Management Unit) for the other elements of the on-site collection, treatment and disposal of wastewater.

14. A disposal path for the spa water shall be designed to comply with the requirements of the relevant authority under the Public and Environmental Health Act 1987.

15. All community drinking water supplies shall comply with the Food Act 2001 which requires compliance with the NH&MRC's Australian Drinking Water Guidelines (2004).

16. In relation to the operation of the spa, reference should be made to the South Australian Health Commission Code 'Standard for the operation of swimming pools and spa pools in South Australia' and 'Supplement C, Bromine disinfection of swimming pool, spa pool, hydrotherapy pool and waterslide pool'.

17. This decision does not include approval for use of bore water. A separate application to vary the Governor's approval is required in the instance that any proposal to use the bore water is put forward.

18. Should surface irrigation be desired, then the effluent must be disinfected to meet the requirements of the South Australian Reclaimed Water Guidelines (1999).

19. NH&MRC's Australian Drinking Water Guidelines (2004) may be accessed at:

[http://www.nhmrc.gov.au/publications/\\_files/awgfull.pdf](http://www.nhmrc.gov.au/publications/_files/awgfull.pdf).

Compliance with the Guidelines requires that a risk management plan must be developed and the implementation of such a plan will require the application of the NH&MRC's Community Water Planner, which may be accessed at:

[http://www.nhmrc.gov.au/publications/\\_files/awg0.pdf](http://www.nhmrc.gov.au/publications/_files/awg0.pdf).

20. The proponent is required to develop a Phytophthora hygiene strategy, which shall include washdown procedures for heavy machinery, graders, bulldozers prior to entry to the site. A trailer-mounted Phytophthora Washdown Unit is available for hire from Kangaroo Island Council.

21. The proponent needs to consult with the NRM Board over arrangements to minimise the risk of spreading weeds during works.

22. Diesel motors shall conform to the mandatory provisions of the Environmental Protection (Air Quality) Policy 1994 (SA) for particulates and carbon monoxide in exhaust gas.

23. A separate approval is required under the Environment Protection and Biodiversity Conservation Act 1999.

24. The Building Rules certification dated 25 May 2007, does not include the building occupancy, fire services, 'smoke control' systems and permanent storm water disposal system, which shall form the basis of a future staged application for Provisional Building Rules assessment. Note that there are time frames for which the proposal must be substantially completed from the date of issue of the staged Development Approval. Sufficient time must be allowed for the lodging, processing, issue of future staged consents and Development Approvals, including the construction of future stage prior to the expiration of the validity of the Development Approval. (Section 39 and Regulation 46).

25. This consent does not include the lodge superstructure or building occupancy, which shall form the basis of a future staged application for Provisional Building Rules assessment. Note that there are timeframes for which the proposal must be substantially completed from the date of issue of the staged Development Approval. Sufficient time must be allowed for the lodging, processing, issue of future staged consents and Development Approvals, including the construction of future stage prior to the expiration of the validity of the Development Approval. (Section 39 and Regulation 46).

*Notes on Building Rules Certification (Stages 1, 2, 3, 4, 5, 6, 7, 8 and 9)*

26. It is advisable to contact authorities responsible for the supply of services such as water, electricity, telephone, gas, the Department of Transport, Australia Post, Environment Protection Authority (EPA) and easement owners/holders, where applicable, seeking their requirements prior to building work commencing on site.

27. All building work must be performed in accordance with the approved documents. Any variations to building design, materials or systems that affect the structural soundness of the safety of the building must be approved by the *private certifier* prior to such alteration occurring. Alternate and/or substitute building products must meet the *Deemed- To Satisfy* provisions or the *Performance Requirements* of the BCA.

28. The building contains materials that are susceptible to termite attack. The details provided indicate that physical barriers, in accordance with AS3660.1 requirements are to be used to protect the building. The building owner and the tenant are advised that an important part of the protection involves regular inspections for termite activity and appropriate action as and when required.

29. Proprietary materials and products specified in the approved documents must be selected and installed in accordance with the manufacturers written recommendations, specifications and with the relevant standards.

30. For cut and fill sites, retaining walls are required to be installed on the boundary to retain any cut or fill within the property boundaries.

31. The building work proposed has been checked for compliance with the minimum allowable requirements contained within the legislation and standards. The owner, the applicant and the builder are advised to seek advice from the designers involved to determine the implications of the design criteria chosen for this project.

32. The owner, the applicant and the builder are advised to ensure that ancillary works are completed in a timely manner to ensure that the health of persons and damage to structures do not occur. This includes any air-conditioning works, paving, plumbing (both septic and water), landscaping, fences, soil retention or activity.

33. The legislation provides that defined activities are complying. It is the owner, the applicant, the builder and the tenant's responsibilities to ensure that any such activity is carried out in a manner that is not detrimental to persons or structures.

34. Where articulation of the walls of the building are required, these must be installed in accordance with the manufacturer requirements or as specified within the Engineers Footing Construction Report.

35. The installation of glazing must be in accordance with AS1288 and is to include safety glass for glazed doors, side panels, full height windows and glass located over or adjacent bath/showers.

36. The consents covering Stages 1, 2, 3, 4, 5, 6, 7, 8 and 9 do not imply compliance with the Equal Opportunity Act 1984 (State Legislation), nor with the Disability Discrimination Act 1993 (Commonwealth Legislation), including the Regulations under those legislative Acts and each as amended. It is the responsibility of the owner and the person erecting the structure/s to ensure compliance with these legislative requirements.

*Additional Notes on Building Rules Certification (Stage 1)*

37. Consent is for work carried out within the site boundaries and does not cover work carried out in an adjoining public space. Approval for any work within the road reserve needs to be obtained from Council, including landscaping, paving, crossovers, the location, design and capacity of the stormwater discharge at the property alignment.

38. The owner's attention should be drawn to the landscaping and tree planting restrictions required by the engineer's construction report and AS2870.

39. ESSENTIAL SAFETY PROVISIONS: An essential safety provisions Schedule in the form set out in Form 1 of Schedule 1, which specifies the essential safety provisions set out in Minister's Specification SA 76 has been provided with this certification. The items to be inspected or tested are detailed on the attached Schedule. The building owner must record proof of maintenance of these items for future reference.

40. The building classification and approved number of occupants is as follows:

Building	Floor	Portion	Classification(s)	Approved Number of Persons
Manager's Residence	Ground	All	2	4
Duplex Units	Ground	All	2	2 per unit
Bed-sit Units	Ground	All	2	2 per unit
Staff Centre	Ground	All	10a	N/A

*Notes on Building Rules Certification (Stages 2 and 3)*

41. The building work proposed has been checked for compliance with the minimum allowable requirements contained within the legislation and standards. The owner/applicant/builder are advised to seek advice from the designers, suppliers and manufacturers involved to determine the implications of the design criteria chosen for this project.

42. This consent does not include any existing structures. Separate professional advice may be required to ensure that the existing structures are safe and structurally adequate.

*Additional Notes on Building Rules Certification (Stage 2)*

43. ESSENTIAL SAFETY PROVISIONS: An essential safety provisions schedule in the form set out in Form 1 of Schedule 1, which specifies the essential safety provisions set out in Minister's Specification SA 76 has been provided with this certification. The items to be inspected or tested are detailed on the attached schedule. The building owner must record proof of maintenance of these items for future reference.

44. The building classification and approved number of occupants is as follows:

Floor	Portion	Classification(s)	Approved Number of Persons
Ground	All	5	6

*Additional Notes on Building Rules Certification (Stage 3)*

45. The owner's attention should be drawn to the landscaping and tree planting restrictions required by the engineer's construction report and AS2870.

*Additional Notes on Building Rules Certification (Stage 4)*

46. Consent is for work carried out within site boundaries and does not cover work carried out in an adjoining public space. Approval for any work within the road reserve needs to be obtained from Council, including landscaping, paving, crossovers, the location, design and capacity of the storm water discharge at the property alignment.

47. This consent does not include any existing structures. Separate professional advice may be required to ensure that the existing structures are safe and structurally adequate.

48. The building work proposed includes elements of design and construction that require on-going maintenance and regular inspection regimes. The owner, the applicant and the builder are advised to seek advice from the designers, suppliers and manufacturers involved to determine the implications of the maintenance/inspection required for this project.

49. The performance of the designs chosen for the proposed building work have obligations on the owner, the applicant, the builder and the tenant to ensure that the design parameters are not compromised by a lack of attention, maintenance or misuse. The owner, the applicant, the builder and the tenant of the building works are advised to refer to the designers, the manufacturers and the standards associated with this building to ensure that their obligations to ensuring the design parameters are not compromised or exceeded and that the design parameters are met.

*Additional Notes on Building Rules Certification (Stage 5)*

50. Consent is for work carried out within the site boundaries and does not cover work carried out in an adjoining public space. Approval for any work within the road reserve needs to be obtained from Council, including landscaping, paving, crossovers, the location, design and capacity of the storm water discharge at the property alignment.

51. The building work proposed includes elements of design and construction that require on-going maintenance and regular inspection regimes. The owner, the applicant and the builder are advised to seek advice from the designers, suppliers and manufacturers involved to determine the implications of the maintenance/inspection required for this project.

52. This consent does not include any existing structures. Separate professional advice may be required to ensure that the existing structures are safe and structurally adequate.

53. The performance of the designs chosen for building work have obligations on the owner, the applicant, the builder and the tenant to ensure that the design parameters are not compromised by a lack of attention, maintenance or misuse. The owner, the applicant, the builder or the tenant of the building works are advised to refer to the designers, the manufacturers and the standards associated with this building to ensure that their obligations to ensuring the design parameters are not compromised or exceeded and that the design parameters are met.

*Additional Notes on Building Rules Certification—Telecommunications Tower (Stage 6)*

54. This consent does not include any development plan ('planning') matters, including matters specified and required by any conditions of the provisional development plan consent authority. Their approval must be sought and obtained for such matters.

55. Consent is for work carried out within the site boundaries and does not cover work carried out in an adjoining public space.

56. Approval for any work within the road reserve needs to be obtained from Council, including landscaping, paving, crossovers, the location, design and capacity of the storm water discharge at the property alignment.

57. The owner's attention should be drawn to the landscaping and tree planting restrictions required by the engineer's construction report and AS2870.

58. The building work proposed includes elements of design and construction that require on-going maintenance and regular inspection regimes. The owner, the applicant and the builder are advised to seek advice from the designers, suppliers and manufacturers involved to determine the implications of the maintenance/inspection required for this project.

59. This consent does not include any existing structures. Separate professional advice may be required to ensure that the existing structures are safe and structurally adequate.

60. The performance of the designs chosen for the proposed building work have obligations on the owner, the applicant, the builder and the tenant to ensure that the design parameters are not compromised by a lack of attention, maintenance or misuse. The owner, the applicant, the builder and the tenant of the building works are advised to refer to the designers, the manufacturers and the standards associated with this building to ensure that their obligations to ensuring the design parameters are not compromised or exceeded and that the design parameters are met.

*Additional Notes on Building Rules Certification (Stage 7)*

61. This consent does not include any development plan ('planning') matters specified within and as required by any conditions of the Provisional Development Plan Consent authority, for which their approval must be sought and obtained.

62. Consent is for work carried out within the site boundaries and does not cover work carried out in an adjoining public space. Approval for any work within the road reserve needs to be obtained from Council, including landscaping, paving, crossovers, the location, design and capacity of the storm water discharge at the property alignment. The owner's attention should be drawn to the landscaping and tree planting restrictions required by the engineer's construction report and AS2870.

63. The building work proposed has been checked for compliance with the minimum allowable requirements contained within the legislation and standards. The owner, the applicant and the builder are advised to seek advice from the designers involved to determine the implications of the design criteria chosen for this project.

64. The building work proposed includes elements of design and construction that require on-going maintenance and regular inspection regimes. The owner, the applicant and the builder are advised to seek advice from the designers, suppliers and manufacturers involved to determine the implications of the maintenance/inspection required for this project.

65. This consent does not include any existing structures. Separate professional advice may be required to ensure that the existing structures are safe and structurally adequate.

66. The performance of the designs chosen for the proposed building work have obligations on the owner, the applicant, the builder and the tenant to ensure that the design parameters are not compromised by a lack of attention, maintenance or misuse. The owner, the applicant, the builder and the tenant of the building works are advised to refer to the designers, the manufacturers and the standards associated with this building to ensure that their obligations to ensuring the design parameters are not compromised or exceeded and that the design parameters are met.

*Additional Notes on Building Rules Certification (Stages 8 and 9)*

67. This consent does not include any Development Plan ('planning') matters specified within and as required by any conditions of the Provisional Development Plan Consent authority, for which their approval must be sought and obtained.

## DEVELOPMENT ACT 1993, SECTION 29 (2) (b) (ii): AMENDMENT TO THE WHYALLA COUNCIL DEVELOPMENT PLAN

*Preamble*

It is necessary to amend the Whyalla Council Development Plan dated 21 February 2008.

## NOTICE

PURSUANT to section 29 (2) (b) (ii) of the Development Act 1993, I, Paul Holloway, being the Minister administering the Act, amend the Whyalla Council Development Plan dated 21 February 2008 as follows:

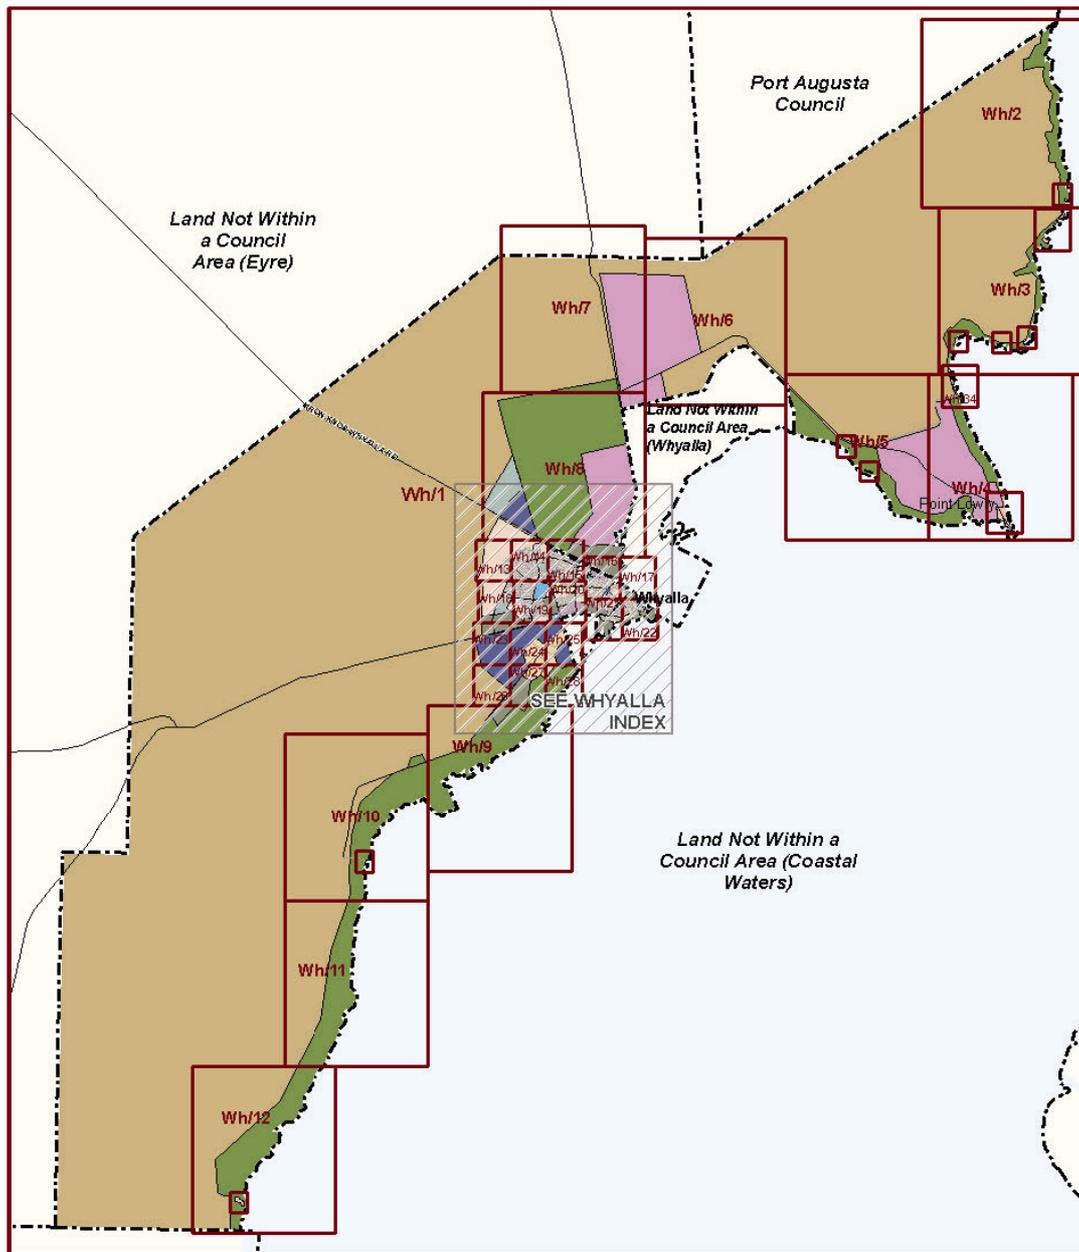

- (1) Replace the Council Index Map with the contents of Attachment A.
- (2) Replace the Enlargement Index Map with the contents of Attachment B.
- (3) Replace Zone Map Wh/1 with the contents of Attachment C.
- (4) Replace Zone Map Wh/19 with the contents of Attachment D.
- (5) Immediately following the District Centre Zone, insert the contents of Attachment E.
- (6) Replace Zone Map Wh/8 with the contents of Attachment F.
- (7) Replace Zone Map Wh/15 with the contents of Attachment G.
- (8) In the Map Reference Table, immediately following the listing for District Centre Zone, insert the contents of Attachment H.

Dated 20 March 2008.

PAUL HOLLOWAY, Minister for Urban Development and Planning

## Attachment E

# Industry Zone

Refer to the [Map Reference Table](#) for a list of maps that relate to this zone.

## OBJECTIVES

- 1 A zone primarily accommodating a wide range of industrial, warehouse, storage and transport land uses.
- 2 Development that contributes to the desired character of the zone.

## DESIRED CHARACTER

The nature of the land uses could mean that impacts will be felt by sites in proximity to the zone boundary if design is careless. Planning for development will need to consider this matter and minimise offsite impacts as much as possible. Many sites will also require fencing and it is envisaged that this take the form of chain mesh fencing rather than solid fencing.

In terms of the natural environment, any area of conservation significance is to be preserved where possible with retention of natural vegetation cover and supplementary plantings encouraged as one means of limiting the impacts that may be felt by adjoining zones.

The role of the Industry Zone is to allow for the development of the Whyalla Industrial Estate on the Lincoln Highway adjacent the SteelWorks is to facilitate development that require ready access to the Highway and to the rail system and will service companies associated with mining, the Steelworks and the residents of Whyalla.

Within the zone it is intended to preserve the mixtures of allotment sizes in order to facilitate the variety of requirements of the envisaged developments.

## PRINCIPLES OF DEVELOPMENT CONTROL

### Land Use

- 1 The following forms of development are envisaged in the zone:
  - handling, transportation and storage of bulk commodities
  - industry
  - transport distribution
  - warehouse
- 2 Development listed as non-complying is generally inappropriate and not acceptable unless it can be demonstrated that it does not undermine the objectives and principles of the Development Plan.

### Form and Character

- 3 Development should not be undertaken unless it is consistent with the desired character for the zone.

- 4 In areas where a uniform street setback pattern has not been established, buildings should be set back in accordance with the following criteria (subject to adequate provision of car parking spaces and landscaping between buildings and the road):
- (a) buildings up to a height of 6 metres should be sited at least 8 metres from the primary street alignment
  - (b) buildings exceeding a height of 6 metres should be sited at least 10 metres from the primary street alignment
  - (c) where an allotment has two street frontages, no building should be erected within 3 metres of the secondary street alignment.
- 5 Building facades facing a residential zone should not contain openings or entrance ways that would result in the transmission of noise towards the residential zone that would adversely affect the amenity of the residential zone.
- 6 Any external plant and equipment (including a chimney stack or air-conditioning plant) should be sited as far as possible from adjoining non-industrially zoned allotments, and should be designed to minimise its effect on the amenity of the locality.
- 7 Advertisements and advertising hoardings should not include any of the following:
- (a) flashing or animated signs
  - (b) bunting, streamers, flags, or wind vanes
  - (c) roof-mounted advertisements projected above the roofline
  - (d) parapet-mounted advertisements projecting above the top of the parapet.
- 8 Aerobic systems should be installed rather than Septic Tank systems.

### Land Division

- 9 Land division should create allotments that are of a size and shape suitable for the intended use.

## PROCEDURAL MATTERS

### Complying Development

Complying developments are prescribed in Schedule 4 of the *Development Regulations 1993*.

#### Non-complying Development

Form of Development	Exceptions
Amusement machine centre	
Camping area	
Caravan park	
Clubroom	
Community centre	
Consulting room	

Form of Development	Exceptions
Dwelling	Except where it is: (a) ancillary to industrial development (b) necessary to support the operation of the development (c) located on the same allotment.
Educational establishment	Except where it is: (a) ancillary to industrial development (b) necessary to support the operation of the development (c) located on the same allotment.

W. ZACHARIN, Director of Fisheries

## FISHERIES MANAGEMENT ACT 2007: SECTION 115

TAKE notice that, pursuant to section 115 of the Fisheries Management Act 2007, licence holders or registered masters of a Central Zone Abalone Fishery licence (the 'exemption holders') are exempt from sections 70 and 72 (2) (c) of the Fisheries Management Act 2007 and Regulations 8 and 19 (4) of the Fisheries Management (General) Regulations 2007, but only insofar as the exemption holders shall not be guilty of an offence when taking undersized blacklip abalone (*Haliotis rubra*) from waters described in Schedule 1 (the 'exempted activity'), subject to the conditions specified in Schedule 2, from 7 March 2008 until 31 December 2008 inclusive, unless this notice is varied or revoked earlier.

## SCHEDULE 1

Fishing areas 26, 27, 28, 29, 30, 31 and 32 surrounding Kangaroo Island.

## SCHEDULE 2

1. All blacklip abalone taken pursuant to this notice must have a shell length of at least 120 mm.

2. The exempted activity is not valid once the exemption holder has spent 30 minutes of fishing in an assigned grid cell or 150 abalone have been caught from that same grid cell, whichever has been reached first.

3. The weight of all blacklip abalone taken pursuant to this notice shall be deducted from the quota remaining on the respective licence for this species of the Central Zone Abalone Fishery.

4. The shells of all blacklip abalone collected pursuant to this notice must be kept for measurement and analysis.

5. ## NATIONAL ELECTRICITY LAW

THE Australian Energy Market Commission (AEMC) gives notice under the National Electricity Law (NEL) of the following matter.

Under section 95, the Reliability Panel has requested the making of the proposed *National Electricity Amendment (NEM Reliability Settings: Information, Safety Net and Directions) Rule 2008*.

The proposal seeks to extend the reserve trader arrangements and NEMMCO's power to issue reliability directions. It also proposes new information resources in relation to energy adequacy and load.

The AEMC has decided to fast track this Rule change request under section 96A of the NEL.

Further details on the above matter are available on the AEMC's website [www.aemc.gov.au](http://www.aemc.gov.au). All documents in relation to the above matter are published on the AEMC's website and are available for inspection at the offices of the AEMC.
