CONTROLLED SUBSTANCES ACT 1984

Prohibition of Administering Prescription Drugs

TAKE notice that on 17 August 2009, I, Keith Evans, Executive Director, Drug and Alcohol Services South Australia, having formed the opinion that Dr Brian Reading Moore has prescribed, supplied and administered a prescription drug in an irresponsible manner, exercised the authority delegated by the Minister for Mental Health and Substance Abuse under section 62A of the Controlled Substances Act 1984 and made the following order under section 57 (1) (c) of the Act:

Dr Brian Reading Moore,

is prohibited from supplying, prescribing, administering using or having possession of the following substances or class of substances:

- a drug of dependence as declared by Regulation 7A of the Controlled Substances (Poisons) Regulations 1996, pursuant to section 12 (3) of the Controlled Substances Act 1984, namely any poison listed in Schedule 8 of the Standard for the Uniform Scheduling of Drugs and Poisons as published and amended by the National Drugs and Poisons Schedule Committee under the Commonwealth's Therapeutic Goods Act 1989, and
- prescription drugs that contain codeine or dextro-propoxyphene.

This Order does not apply to any of the above drugs or class of drugs lawfully supplied or prescribed for the treatment of Dr Brian Reading Moore by a dentist or medical practitioner or by a veterinary surgeon for administration to an animal in his care.

This order took effect when it was served on Dr Brian Reading Moore on 19 August 2009.

K. EVANS, Delegate for the Minister for
Mental Health and Substance Abuse

DEVELOPMENT ACT 1993: SECTION 48

NOTICE BY THE GOVERNOR

Preamble

1. I have given a development authorisation pursuant to section 48 of the Development Act 1993 for the establishment of a Multiple Waste Treatment Facility (for treating high level contaminated waste) at the existing Northern Balefill (landfill) near Dublin, by Integrated Waste Services Pty Ltd, which authorisation is published in the *Gazette* of 27 August 2009.

2. I wish to delegate certain of my powers under section 48 to the Minister for Urban Development and Planning.

Delegation

PURSUANT to section 48 (8) of the Development Act 1993 and with the advice and consent of the Executive Council I make the following delegations:

I delegate to the Minister for Urban Development and Planning:

- (a) my power to assess and approve the reserved matters specified in the said provisional development authorisation (provided the essential nature of the development is not changed);
- (b) my power under section 48 (7a) to grant or permit any variation associated with the said provisional development authorisation (provided the essential nature of the development is not changed);
- (c) in relation to the said provisional development authorisation, or any variation thereof- my power to vary or revoke conditions, or to attach new conditions, under section 48 (7) (provided the essential nature of the development is not changed);
- (d) if all reserved matters specified in the said provisional development authorisation have been approved, my power to grant the development authorisation required under section 48 (2) (b) (i) (provided there has been no alteration to the Environmental Impact Statement to which section 47 (2) (b) has applied);

- (e) my power under section 48 (2) (a) to indicate that a development authorisation will not be granted, should there be any amendment to the Environmental Impact Statement to which section 47 (2) (b) has applied; and
- (f) my power to grant the development authorisation required under section 48 (2) (b) (i) if there has been any amendment to the Environmental Impact Statement to which section 47 (2) (b) has applied.

Given under my hand at Adelaide, 27 August 2009.

KEVIN SCARCE, Governor

DEVELOPMENT ACT 1993: SECTION 48

DECISION BY THE GOVERNOR

Preamble

1. On 19 October 1994 the Minister for Housing, Urban Development and Local Government Relations, being of the opinion that a proposed development of a waste management facility in the form of a solid waste landfill (Northern Balefill) near Dublin ('the development') was a development of major social, economic or environmental importance, directed the proponent to prepare an Environmental Impact Statement pursuant to section 46 of the Development Act 1993.

2. On 22 April 1996 an Environmental Impact Statement for the development was published in accordance with section 46 of the Development Act 1993. Subsequently, the Minister prepared an Assessment Report in accordance with section 46 of the Development Act 1993.

3. On 29 January 1998 the Governor gave notice in the *Government Gazette* that pursuant to section 48 of the Development Act 1993 a development authorisation was granted to the development subject to conditions specified in that notice.

4. Following an application by the beneficiary of the development authorisation for a variation to the authorisation to allow the receipt and disposal of low level contaminated waste, the development was the subject of an Amended Environmental Impact Statement and an Amendment to the Assessment Report under section 47 of the Development Act 1993 ('the amended development').

5. On 8 September 2005 the Governor gave notice in the *Government Gazette* that provisional development consent, reserving specific matters for further assessment, was granted for the amended development subject to conditions specified in that notice.

6. On 30 June 2008 Integrated Waste Services Pty Ltd, the company now having the benefit of the development authorisation applied for a second amendment to the development authorisation proposing the establishment of a Multiple Waste Treatment Facility for the treatment and disposal of high level contaminated waste at the existing landfill.

7. The proposal has been the subject of an Amended Environmental Impact Statement and an Amended Assessment Report under the section 47 of the Development Act 1993, and is hereafter referred to as the 'proposed amended Major Development'.

8. I am satisfied that an appropriate Amended Environmental Impact Statement and an Amendment to the Assessment Report have been prepared in relation to the proposed amended Major Development, in accordance with section 47, Division 2 of Part 4 of the Development Act 1993, and have had regard, when considering the proposed amended Major Development, to all relevant matters under section 48 (5) of the Development Act 1993.

9. I have decided to grant provisional development authorisation to the proposed Major Development under section 48 (6) of the Development Act 1993, whilst reserving the decision on specified matters until further assessment of the proposed development.

10. For ease of reference, I have decided to revoke all conditions previously imposed on the provisional development authorisation and to substitute therefore the reserved matters and conditions contained herein. Conditions that pertain to the second amendment are contained in conditions 1-25. Conditions that relate to the current operation of the landfill have been retained and are reimposed in conditions 26-51.

11. Contemporaneously with the issuing of this Notice, I intend pursuant to section 48(8) of the Development Act to delegate to the Minister (a) the power to assess and make a decision on matters specified as reserved and to grant a final development authorisation for the purposes of section 48 (2) (b) (i) of the Act; (b) the power pursuant to section 48B to grant or permit any variation associated with that development application and associated document (provided the essential nature of the development is not changed); and (c) in relation to that development authorisation, or any variation—the power to revoke conditions, or to attach new conditions, under section 48 (7) of the Development Act 1993 (provided the essential nature of the development is not changed).

Decision

PURSUANT to section 48 of the Development Act 1993 and with the advice and consent of the Executive Council, and having due regard to the matters set out in section 48 (5) and all other relevant matters, I:

- (a) grant a provisional development authorisation in relation to the proposed amended Major Development under section 48 (6) subject to the conditions set out in Part B below;
- (b) pursuant to section 48 (6) reserve my decision on the reserved matters specified in Part A below;
- (c) specify all matters relating to this provisional development authorisation as matters in respect of which conditions of this authorisation may be varied or revoked, or new conditions attached;
- (d) specify for the purposes of section 48 (11) (b) the period of two years from the date of this provisional development authorisation as the time within which substantial work must be commenced on site, failing which I may cancel this authorisation.

PART A: RESERVED MATTERS

The following are the matters reserved for further assessment:

- (a) compliance with the Building Rules in relation to all aspects of the proposed Major Development;
- (b) final plans, cross-sections and elevations for the Multiple Waste Treatment Facility building;
- (c) an Environmental Management Plan for the operation of Stage 1 of the Multiple Waste Treatment Facility.

PART B: CONDITIONS OF PROVISIONAL DEVELOPMENT AUTHORISATION

General Conditions

1. The development authorisation granted hereunder is provisional only, does not operate as a final development authorisation, and does not therefore authorise implementation of the proposed amended Major Development. Only an authorisation granted under section 48 (2) (b) (i) can operate to authorise implementation of the proposed amended Major Development, which authorisation will only be granted after the reserved matters have been assessed and approved.

2. Except where minor amendments may be required by other legislation, or by conditions imposed herein, the proposed Major Development shall be undertaken in strict accordance with the following documents:

- Development application dated 30 June 2008;
- Environmental Impact Statement Amendment, Integrated Waste Services Northern Balefill Dublin Multiple Waste Treatment Facility EIS Amendment prepared by Golder Associates, dated 24 November 2008, but in the case of conflict with a specific condition below the specific condition shall apply;
- proponent's response to submissions, letter from Connor Holmes to the Department of Planning and Local Government dated 3 April 2009, but in the case of conflict with a specific condition below the specific condition shall apply;
- correspondence from Connor Holmes to the Department of Planning & Local Government containing additional information on the proposal dated 27 May 2009, but in the case of conflict with a specific condition below the specific condition shall apply.

3. Before any building work is undertaken on the site, the building work is to be certified by a private certifier, or by some person determined by the Minister for Urban Development and Planning, as complying with the provisions of the Building Rules (or the Building Rules as modified according to criteria prescribed by the Regulations).

Multiple Waste Treatment Facility (MWTF)

4. The design of the MWTF shall be amended to include coloured metal cladding on all sides of the building, so as to enclose the whole of the facility.

5. Designs for the effluent treatment and disposal system shall be prepared to the reasonable satisfaction of the District Council of Mallala.

6. An automated wind monitoring station shall be established next to Stage 1 of the MWTF, prior to the commencement of operation of Stage 1.

7. Upon the completion of Stage 1 construction, the interim storage of High Level Contaminated Waste shall not exceed 3 500m³ of materials, until Stage 2 construction is complete.

8. Construction of Stage 2 shall commence immediately upon the completion of construction of Stage 1.

9. Stage 2 shall be completed within 12 months of the commencement of construction.

10. Treatment of waste material shall not occur until the construction of the entire MWTF has been completed, to the reasonable satisfaction of the EPA.

11. High Level Contaminated Waste is not required to be baled or shredded.

12. The unloading and storage of High Level Contaminated Waste for Stage 1 shall be undertaken in accordance with an Environment Protection Authority approved Environmental Management Plan for Stage 1.

13. The unloading of High Level Contaminated Waste shall only occur during conditions where the wind speed measured on-site is less than or equal to 15 knots/hr.

14. High Level Contaminated Waste materials shall be wetted down during unloading.

15. High Level Contaminated Waste materials shall be covered with an impervious cover (such as High Density Polyethylene plastic) immediately after unloading, in order to prevent air emissions and rainfall infiltration.

16. The impervious cover shall be securely held down.

17. A truck wash with water sprays shall be installed for the removal of residues from vehicles transporting High Level Contaminated Waste to the site. All transport vehicles shall not leave the site unless they have gone through the truck wash.

18. All unloading and storage activities for Stage 1 shall be supervised and inspected by a suitably qualified and experienced environmental consultant, to the reasonable satisfaction of the Environment Protection Authority, to ensure activities are undertaken in accordance with the Environmental Management Plan for Stage 1. Stored materials shall be inspected quarterly to ensure they are covered in a secure manner.

19. Treatment of the stored materials shall only commence once the completed MTWF is approved by the Environment Protection Authority to commence operation.

20. Bioremediation and stabilisation are the only treatment processes that shall be used in the MWTF.

21. Pre-remediation trials shall be conducted on all contaminated materials, prior to delivery to the MWTF, to determine if treatment methods approved by the Environment Protection Authority would be successful. Trial results shall be submitted to the Environment Protection Authority for assessment, prior to delivery of contaminated materials to the MWTF.

22. Post-remediation testing on treated materials shall be undertaken to assess its suitability to be disposed of or reused. Testing results shall be submitted to the Environment Protection Authority for assessment, prior to disposal or reuse.

23. Future treatment options shall undergo pre-trial assessment, to the reasonable satisfaction of the Environment Protection Authority, before they can be adopted.

24. An Environmental Management Plan (EMP) for activities associated with the MWTF, prepared to the reasonable satisfaction of the Environment Protection Authority, must be in place prior to the receipt, storage and treatment of contaminated materials in Stage 2.

Solid Waste Balefill

25. The work shall be carried out as shown on the plans (Figures 3.1 to 3.9) in the Development Application Report dated 28 November 1997, included with the Development Application dated 2 December 1997, except as varied by these conditions.

26. Subject to conditions 25, 26 and 27, all waste received for disposal at the facility shall be shredded and baled.

27. Unbaled green waste or unbaled construction or demolition waste of appropriate particle sizes may be placed and compacted in any voids unavoidably occurring between bales and the inclined surface of the cells in which those bales are placed to the reasonable satisfaction of the Environment Protection Authority and in accordance with any applicable requirements of a relevant environmental authorisation.

28. Waste materials received for disposal at the facility need not be shredded before baling where shredding of those materials is not required for the purpose of producing bales of a density and structural integrity that satisfy the applicable requirements of any relevant environmental authorisation.

29. Non-friable asbestos waste shall not be shredded or baled but shall be disposed of in accordance with the applicable requirements of any relevant environmental authorisation.

30. All perimeter plantings shall be started as early as practicable after the date of this authorisation to achieve maximum amelioration of visual impacts.

31. Screening by suitable plantings where adequate natural screening is not provided, shall be provided for the perimeter fence, all built structures, stockpiles and internal roads (where practicable) using suitable species in accordance with the Vegetation Management and Revegetation Plan proposed as part of the Landfill Environmental Management Plan (LEMP).

32. All firebreaks and external drainage channels shall be located on the inner edge of the vegetation screen and existing stands of native vegetation. In the event that drainage channels are required to be located close to the site boundary, their redesign to form low-lying wetland/saltmarsh communities as part of the vegetation screen shall be undertaken and implemented to the satisfaction of the Environment Protection Authority.

33. A leachate monitoring bore shall be installed within each cell to assist with leachate management, particularly if leachate circulation is incorporated in the Landfill Environmental Management Plan (LEMP).

34. The proponent shall pay all reasonable costs of the detailed design and construction of any public roadworks made necessary by this development. Such works may include the opening and associated left turn deceleration lane from Port Wakefield Road, and the upgrading of the entrance to balefill junction to the satisfaction of the Commissioner of Highways.

35. The proponent shall seal (two coat spray seal) the internal site access road for a minimum of 520 m from the nearest residence.

36. The applicant shall prepare a Vegetation Management and Revegetation Plan (which may be included in the LEMP) to the reasonable satisfaction of the Development Assessment Commission and must implement that Plan once it has been approved by the Development Assessment Commission.

Low Level Contaminated Soil and Liquid Treatment Plant Residues

37. Low level contaminated soil (LLCS) and liquid treatment plant residues (LLTR) are not required to be baled or shredded.

38. The work shall be carried in accordance with the following documents and plans:

- EIS Amendment, Receipt of Low Level Contaminated Soil and Liquid Waste Treatment Plant Residues at the IWS Northern Balefill, dated July 2003;
- Response Document on the EIS Amendment for the Receipt of Low Level Contaminated Soil and Liquid Waste Treatment Plant Residues (Revised), dated 30 April 2004;

- Supplementary Information EIS Amendment Receipt of Low Level Contaminated Soil and Liquid Waste Treatment Plant Residues at the IWS Northern Balefill, dated 26 November 2004;

- Landfill Environmental Management Plan, dated 2001 or as varied by any applicable requirements of a licence from the Environment Protection Authority;

- Drawings:

- 3307DO1, 4/11/2004—cell 31 design plan;
- 3307DO2, Drawn 25/8/2004 and checked 18/2/2005—Section A, liner and sump design;
- 3307DO3, 10/8/2004—liner design sections and details;
- 3307DO4, 14/10/2004—cell 31 interim capping design;
- 3307DO5, 13/8/2004—landfill staging plan;
- 3307DO6, 13/8/2004—final surface water control;
- 3307DO8, Drawn 27/8/2004 and checked 26/11/2004—interim surface water control;
- 3307DO9 P1, Drawn 4/11/2004 and checked 26/11/2004—cell design plan line 2;
- 3307DO10, Drawn 29/8/2004 and checked 26/11/2004—sections D and E, swale drain design.

39. Distance to groundwater requirements shall be as follows:

- based on groundwater level monitoring results and interpolated highest groundwater levels for Cell 31, including a 0.1 metre buffer; the base of the sump shall be at 9.1 m AHD;
- notwithstanding the above requirement, a minimum separation distance of 2 m between the underside of the lowest portion of the lining system (including the sump area) and the underlying groundwater shall be maintained at all times.

40. Leachate collection and extraction system requirements shall be as follows:

- leachate removal shall implement a system which accommodates the installation of the pumps at the leachate riser access point;
- following cell completion and until the entire cell base is covered with a minimum of 1.5 metres of waste, a pump with a flow capacity of a minimum of 40 litres per second shall be installed;
- after it can be demonstrated that leachate production has declined to less than 1 litre per second, this pump can be replaced by a pump of lesser flow capacity;
- a back-up pump with the relevant capacity shall be readily available on site at all time.

41. Leachate treatment requirements shall be as follows:

- Leachate may be managed and treated by means of:
 - direct extraction into an on-site leachate evaporation pond which shall meet the minimum design specification as follows:
 - composite lining system comprising a 1 metre low permeability clay liner with $k < 1 \times 10^{-9}$ m/s compacted to 95% Maximum Dry Density by standard compaction, and a moisture content between 0% and +4% wet of Optimum Moisture Content, overlaid by a 2mm high density polyethylene (HDPE) liner (welded);
 - minimum of 600 mm freeboard;
 - modelling with HELP or LANDSIM shall consider a 1 in 25, 24h duration storm event;
 - a minimum separation distance of 2 metres between the underside of the lowest portion of the lining system and the underlying groundwater shall be maintained at all times.
 - direct extraction into an onsite tank vehicle suitable for the transport of leachate into an onsite leachate evaporation pond;

- direct extraction into a licensed vehicle and transported to an off-site Environment Protection Authority licensed Waste Water Treatment Plant;
 - direct extraction into a suitably designed, temporary on-site storage tank prior to off-site disposal by an Environment Protection Authority licensed vehicle at an Environment Protection Authority licensed Waste Water Treatment Plant or prior to on-site transport to an onsite leachate evaporation pond.
42. Leachate management requirements shall be as follows:
- the head of leachate on the liner shall not exceed 300 mm (excluding the sump) at all times. To facilitate this, the trigger level for leachate extraction out of the leachate sump shall be set at 290 mm;
 - in addition to automatic leachate data readings, a manual monitoring probe shall be installed and calibrated to allow for direct readings of the vertical elevation of leachate in the riser pipe and conversion to the maximum leachate head on top of the liner;
 - leachate levels shall be read manually daily and recorded in the onsite operations logbook or as specified otherwise in the Environment Protection Authority licence.
43. Distance between LLCS/LTPR cells and Balefill cells (reference drawing 3307D03, 18/8/2004) shall be as follows:
- the distance between LLCS/LTPR cells and Balefill cells shall be at a minimum of 5 metres, measured between the toe of the LLCS cell structure (that is where the outer surface of the cap of the completed LLCS/LTPR cell joins the outer surface of the underlying clay liner for the same cell) and the cap of the nearest balefill cell (that is where the outer surface of the cap of a completed balefill cell joins the outer surface of the underlying clay liner).
44. Level 1 Supervision requirements shall be as follows:
- the construction of the clay liner of the cell shall be carried out under Level 1 Supervision in accordance with AS 3798-1996, Appendix B;
 - the construction of the HDPE liner shall be carried out under the full time supervision of a suitably qualified geotechnical consultant with experience in the construction and supervision of the construction of HDPE lining systems, quality control procedures and testing.
45. 'As Constructed Report' requirements shall be as follows:
- an 'As Constructed Report' certifying compliance with the approved design for the lining system, including a Construction Quality Assurance Report (CQA) for the HDPE liner and the Level 1 Supervision Report, shall be submitted to the Environment Protection Authority for acceptance prior to the commencement of the receipt and disposal of waste in each cell. No waste shall be received and disposed of prior to written acceptance of the 'As Constructed Report' by the Environment Protection Authority.
46. Coverage of waste requirements shall be as follows:
- all waste shall be covered as soon as reasonable practicable after the receipt of waste and placement in the cell or at close of business on each business day with at least 150 mm of cover material (waste fill or intermediate landfill cover with the restriction to a maximum particle size of 100 mm);
 - if a load of particularly odorous material is received at the LLCS/LTPR cell, it shall be covered immediately with a minimum of 150 mm cover material;
 - during periods when the LLCS/LTPR cell is not operating, routine monitoring for odorous gases shall be carried out as part of the site monitoring program and may trigger the application of additional cover material;
 - alternative cover materials may be used after the proponent:
 - has demonstrated to the Environment Protection Authority that the proposed material and placement method result in an equivalent or better performance compared to the approved material; and
 - has received written approval from the EPA prior to the use of alternative materials and placement methods.
47. Groundwater management requirements shall be as follows:
- an additional groundwater well shall be installed west of cell 30 and the first round of groundwater sampling and testing shall be completed at least 2 weeks prior to commencement of construction of cell 31;
 - groundwater level monitoring shall commence at least 2 weeks before commencement of construction of cell 31; groundwater levels shall be taken weekly and reported to the Environment Protection Authority monthly (datasheet and graph) or as specified otherwise in the EPA authorisation;
 - four monitoring rounds at three monthly intervals in the first 12 months of operation shall be carried out to establish additional background analyte levels around cell 31;
 - six monthly monitoring rounds shall be undertaken following the completion of the initial 12 months of groundwater monitoring or as specified otherwise in the Environment Protection Authority licence;
 - prior to the commencement of construction of any other cell for the receipt of LLCS/LTPR, the groundwater management and monitoring program shall be reviewed and submitted for Environment Protection Authority approval.
48. Surface Water Management requirements shall be as follows:
- a stormwater management plan shall be developed and submitted for Environment Protection Authority's approval addressing all issues related to the staged construction of LLCS/LTPR cells on site prior to commencement of construction of cell 31;
 - the stormwater management plan shall provide surface water control and management measures for:
 - surface water or stormwater runoff that does not interact with the waste material or other operational areas of the site and is considered to be uncontaminated;
 - surface water that comes into contact with waste materials or is collected from landfill areas or other operational areas and is considered to be contaminated;
 - surface runoff from the final landfill cap which has to be controlled;
 - diversion of surface water run-off from perimeter areas away from the operating cell.
49. Landfill Environmental Management Plan (LEMP) requirements shall be as follows:
- the new section of the LEMP ('Section 17') shall be completed and incorporated in the revised LEMP document;
 - the complete revised LEMP document shall be finalised and submitted to the Environment Protection Authority for approval prior to the receipt and disposal of LLCS/LTPR on the premises.
50. A wheel wash with water sprays shall be installed ensure removal of residues from the wheels and underside of the vehicles transporting low level contaminated soil and liquid treatment plant residues to the site.

PART C: NOTES TO PROPONENT

Building Rules

- The proponent shall obtain a Building Rules assessment and certification for any building work from either the Wakefield Regional Council or a private certifier (at the proponent's option) and forward to the Minister for Urban Development and Planning all relevant certification documents as outlined in Regulation 64 of the Development Regulations 2008.
- Pursuant to Development Regulation 64, the proponent is especially advised that the District Council of Mallala or private certifier conducting a Building Rules assessment must:
 - provide to the Minister for Urban Development and Planning a certification in the form set out in Schedule 12A of the Development Regulations 2008 in relation to the building works in question; and

- to the extent that may be relevant and appropriate:
 - (i) issue a Schedule of Essential Safety Provisions under Division 4 of Part 12;
 - (ii) assign a classification of the building under these regulations; and
 - (iii) ensure that the appropriate levy has been paid under the Construction Industry Training Fund 1993.
- Regulation 64 of the Development Regulations 2008 provides further information about the type and quantity of all Building Rules certification documentation for Major Developments required for referral to the Minister for Urban Development and Planning. The District Council of Mallala or private certifier undertaking Building Rules assessments must ensure that the assessment and certification are consistent with this provisional development authorisation (including its Conditions and Notes).

Environmental Management Plan for the Multiple Waste Treatment Facility (MWTf)

- An Environmental Management Plan (EMP) covering the operation requirements for the MWTf shall be prepared in consultation with the Environment Protection Authority.
- The EMP shall include an air quality monitoring programme to ensure air emissions from the MWTf do not contain contaminants at levels that may be harmful to nearby residents and land uses.
- The EMP shall include protocols for testing/trialling the suitability and effectiveness of treatment methods for batches of contaminated materials that could potentially be treated at the MWTf, prior to the receipt of such material.
- The EMP shall include contingencies for dealing with contaminated materials that cannot meet disposal criteria after treatment.
- The EMP shall include a detailed risk assessment protocol for all contaminated waste types to be treated.
- The EMP shall include a Fire Risk Management Plan.
- The EMP shall include a Hazardous Substances Management Plan.
- The EMP shall include an Occupational Health, Safety and Welfare Plan prepared in consultation with the Department of Health.
- The EMP shall include a financial assurance strategy.
- The EMP shall be amended if new treatment options, that have been approved by the Environment Protection Authority, are adopted in the future.
- The current Landfill Environmental Management Plan (LEMP) shall be amended, to the reasonable satisfaction of the Environment Protection Authority, to address the management of soil erosion and stormwater and the upgrading of existing screens and/or mounds or the establishment of new vegetated screens and/or mounds associated with the MWTf.
- The amendment of the LEMP and the upgrading of the site infrastructure, including but not limited to vegetated screens and/or mounds, shall be undertaken prior to commencement of the MWTf operations.

EPA Licensing and General Environmental Duty of Care

- The applicant is reminded of its general environmental duty, as required by section 25 of the Environment Protection Act 1993, to take all reasonable and practical measures to ensure that the activities on the whole site, including during both construction and operation, do not pollute the environment in a way which causes or may cause environmental harm.
- Environmental authorisation in the form of an amended licence will be required for the construction and/or operation of this development. The applicant is advised to contact the Environment Protection Authority before acting on this approval to ascertain licensing requirements.
- It is likely that as a condition of such a licence the Environment Protection Authority will require the licensee to carry out specified environmental monitoring of air and water quality and to make reports of the results of such monitoring to it.

General Landfill Operations

- To provide additional screening and wildlife habitat the following options could be investigated by the proponent, council, community and local landowners:
 - revegetation of the road reserve along Prime Beach Road, in conjunction with the District Council of Mallala and the community;
 - revegetation of the road reserve along Port Wakefield Road, in conjunction with the Department of Transport and Urban Planning (Transport SA) to further reduce views from the eastern direction;
 - plantings on private property along fence lines adjoining the site, in conjunction with landowners and the community.
- All sedimentation basins, evaporation ponds, and surface water drainage channels should be suitably located, designed and managed to ensure native vegetation (especially low-lying saltmarsh communities) is not adversely affected by construction activities or groundwater mounding and, if possible, the ecological value enhanced.
- A comprehensive Pest Plant and Animal Management Plan must be implemented prior to landfill operations commencing, to ensure the site is free of as many pest species as possible from the onset and adequate monitoring and follow-up control should occur, as discussed in the Assessment Report.
- Whilst not totally within the control of the proponent, monitoring and control programs to reduce the risk of disease transmission between activities in the area may ideally be prepared by adopting a district approach, in co-ordination with the Adelaide Plains Animal and Plant Control Board, Department of Primary Industries and Resources and landowners.
- To minimise and control any onsite soil erosion (particularly of stockpiled material), a Soil Erosion and Drainage Management Plan (SEDMP) as described in the Environment Protection Agency's 'Stormwater Pollution Prevention Codes of Practice', must be prepared and approved as part of the LEMP, before the site becomes operational.
- As part of the LEMP, a Surface Water Management Plan must be prepared by the proponent to the satisfaction of the EPA prior to receipt of any waste. The plan should address the collection and management of all onsite surface water (including any contaminated run-off originating from roadways, carparks and hardstands, the vehicle workshop or wheel washing facility) and management of all surface water flows entering the site from land external to the site, in particular to ensure their final discharge does not impact adversely on any downstream wetlands.
- A monitoring program must be established to record levels of coastal flooding in the western section of the site and, if results indicate a significant risk, a review process be undertaken (ideally through any relevant local community consultative committee) to determine whether to proceed with Stage 9.
- If blasting is required to remove any of the Ripon Calcrete, explosion vibration characteristics and monitoring requirements must be determined in consultation with the Environment Protection Authority and District Council of Mallala, prior to commencement.
- The Environment Protection Agency must be provided with all additional data concerning the site geology as it becomes available, as this could necessitate minor changes to landfill design or method of operation and the installation of additional groundwater monitoring bores.
- To enable detailed design of the proposed groundwater protection system, to determine the minimum depth at which the landfill cells should be based and to enable detailed design of the surface water management system; further investigation of groundwater levels and behaviour on the site must be undertaken prior to finalisation of the detailed design of the landfill and preparation of management plans.

- As part of the LEMP, a detailed Groundwater and Leachate Management Plan must be prepared by the proponent to the satisfaction of the Environment Protection Authority, prior to receipt of any waste. The Plan must demonstrate how the method of hydraulic containment proposed can be practically achieved. Further hydrogeological investigations must be carried out prior to the commencement of any landfill construction in order to fully define the dewatering and groundwater disposal requirements and to provide details of how the cells can be dewatered and constructed for full hydraulic containment of leachate. In particular, monitoring of watertable levels must commence immediately after the granting of the development authorisation in order that the magnitude of seasonal fluctuations can be fully established prior to construction of the landfill. The Plan may provide for staging of leachate and groundwater management works which may be required as a result of the staging of waste disposal activities upon the site, and should include contingency measures to be implemented in the event of any failure of the leachate management system.
- A more sustainable after-use for the site that will encourage the regeneration and rehabilitation of natural communities must be considered during future post closure planning.
- If appropriate with the desired end use to be determined in more detail at a later stage, the entire landform may be planted with appropriate types of native vegetation cover.
- Determination of interim and post closure land uses of the site, proposed to be undertaken in association with any relevant local community consultative committee, must be undertaken as required by the Environment Protection Authority as part of the LEMP.

Given under my hand at Adelaide, 27 August 2009.

DEVELOPMENT ACT 1993, SECTION 25 (17): CITY OF ONKAPARINGA—LOCAL HERITAGE (ONKAPARINGA) DEVELOPMENT PLAN AMENDMENT

Preamble

1. The Development Plan amendment entitled 'City of Onkaparinga—Local Heritage (Onkaparinga) Development Plan Amendment' (the Plan Amendment) has been finalised in accordance with the provisions of the Development Act 1993.

2. The Minister for Urban Development and Planning has decided to approve the Plan Amendment.

NOTICE

PURSUANT to section 25 of the Development Act 1993, I—

- approve the Plan Amendment; and
- fix the day on which this notice is published in the *Gazette* as the day on which the Plan Amendment will come into operation.

Dated 27 August 2009.

PAUL HOLLOWAY Minister for Urban Development and Planning

DEVELOPMENT ACT 1993, SECTION 29 (2) (b) (i): AMENDMENT TO THE PORT ADELAIDE ENFIELD (CITY) DEVELOPMENT PLAN

Preamble

It is necessary to amend the Port Adelaide Enfield (City) Development Plan (the Plan) dated 11 June 2009 and as amended by the Industry Zones Part One Development Plan Amendment approved on 6 August 2009 and by the Outdoor Advertisements Development Plan Amendment approved on 13 August 2009.

NOTICE

PURSUANT to section 29 (2) (b) (i) of the Development Act 1993, I, Paul Holloway, being the Minister administering the Act, amend the Port Adelaide Enfield (City) Development Plan dated 11 June 2009 as follows, remove the entire Council Wide section 'Outdoor Advertising' as inserted into the Plan by the Industry Zones Part One Development Plan Amendment approved on the 6 August 2009, namely:

'Outdoor Advertising

- Advertising displays associated with industrial development should comprise free standing signs.
- On land having up to and including 50 metres frontage to a public road, advertising displays should comprise a single free standing sign that does not have a total height in excess of 6 metres and a total face area in excess of 6 square metres.
- On land having more than 50 metres frontage to a public road, advertising displays may comprise:
 - a single free-standing sign that may exceed both the maximum height of 6 metres by 1 metre and the maximum face area of 6 square metres by 1 square metre for every additional 10 metres of frontage or part thereof to a maximum height of 10 metres and a maximum face area of 10 square metres; or alternatively
 - up to two free standing signs each of which do not have a total height in excess of 6 metres and a total face area in excess of 6 square metres.
- Third party advertisements (i.e. advertisements related to messages or products that are not directly associated with the activity lawfully occurring on the land on which the advertisement is to be displayed) should not be erected.'

Dated 27 August 2009.

EQUAL OPPORTUNITY TRIBUNAL

No. 207 OF 2009

NOTICE OF EXEMPTION

Before Deputy Presiding Officer Cole and Members Bachmann and Jasinski

I HEREBY certify that on 18 August 2009, the Equal Opportunity Tribunal of South Australia, on the application of Pembroke School Inc. made the following orders for exemption:

1. Pembroke School Inc. is exempted from the operation of section 37 of the Equal Opportunity Act 1984, to permit it to favour girls or boys in respect of applications for enrolment at all year levels from its Early Learning Centre to Year 7, inclusive, for the purpose of obtaining gender balance in each year.

2. This exemption will be in force for three years from the date of its gazettal.

Dated 20 August 2009.

BJORN DE JAGER for I. PHILLIPS, Registrar,
Equal Opportunity Tribunal

FISHERIES MANAGEMENT ACT 2007: SECTION 115

TAKE notice that pursuant to section 115 of the Fisheries Management Act 2007, Dr Peter Gill of Blue Whale Study Inc., 25 Priestly Road, Tyrendarra, Vic. 3285 (the 'exemption holder') or a person acting as his agent, is exempt from section 71 of the Fisheries Management Act 2007, but only insofar as they may engage in the activities specified in Schedule 1 (the 'exempted activity'), subject to the conditions set out in Schedule 2, from 21 August 2009 until 30 June 2010, unless varied or revoked earlier.

SCHEDULE 1

The taking of biopsies and attachment of satellite and suction-cup dive-logger tags to blue whales (*Balaenoptera musculus*) in South Australian waters and collection of krill using hand nets, excluding aquatic reserves and the waters of the Adelaide Dolphin Sanctuary.

SCHEDULE 2

1. The specimens collected by the exemption holder are for scientific and research purposes only and must not be sold.

2. Any specimens not returned to the water must be lodged with the South Australian Museum as voucher specimens.

3. Before collecting any specimens pursuant to this notice, the exemption holder or a person acting as an agent must contact the PIRSA Fisheries Compliance Unit on 1800 065 522 and answer a series of questions about the exempted activity. The exemption holder will need to have a copy of the exemption at the time of making the call and be able to provide information about the area and time of the exempted activity, the vehicles and/or boats involved, the number of agents undertaking the exempted activity and other related questions. Exemption No. 9902272.

4. The exemption holder and his agents must comply with any permits, requirements and directions from the South Australian Department for Environment and Heritage and the Australian Government Department of the Environment, Water, Heritage and the Arts.

5. While engaged in the exempted activity, the exemption holder or agent must be in possession of a copy of this notice. Such notice must be produced to a PIRSA Fisheries Compliance Officer if requested.

6. The exemption holders must not contravene or fail to comply with the Fisheries Management Act 2007 or any regulations made under that Act, except where specifically exempted by this notice.

Dated 19 August 2009.

GENETICALLY MODIFIED CROPS MANAGEMENT ACT 2004

Exemption Notice

PURSUANT to the *Genetically Modified Crops Management Act 2004*, I, Paul Caica, Minister for Agriculture, Food and Fisheries, issue the following Exemption to the University of Adelaide (hereafter the University) under section 6 (2) (a) (ii) for the purpose of bringing genetically modified oilseed *Brassica* cultivars under the registered trade names InVigor® canola and Roundup Ready® canola (hereafter the GMO) into South Australia for cultivation in the University's Quarantine Insectary Glasshouse, Hartley Grove, Urrbrae to determine whether GM canola has a role in the control and eradication of branched broomrape (hereafter the Specified Purpose).

This Exemption remains in force until varied or revoked.

The University is required to observe the following conditions in relation to the exempted cultivation of GM crops undertaken in South Australia by its employees or agents, or any person engaged to undertake any activity in relation to the Specified Purpose.

For the purpose of this Notice, I nominate the following person as the Nominated Officer within PIRSA to whom communication should be directed:

Manager, Compliance & Surveillance
Plant Health Operations
Primary Industries & Resources SA
46 Prospect Road
Prospect, S.A. 5082
Phone (08) 8168 5203
Fax (08) 8344 6033

For Definitions of Terms see Section 3.

SECTION 1: GENERAL CONDITIONS

The University and persons covered by these conditions must comply with these conditions.

1. Notification of Project Supervisor

- 1.1 The University must inform the Nominated Officer in writing of the contact details of the Project Supervisor before cultivation of the GMO occurs.
- 2.2 The University must immediately notify the Nominated Officer in writing if any of the contact details of the Project Supervisor change.

2. Informing people of their obligations

- 2.1 The University must inform each person covered by these conditions of the obligations imposed on them by these conditions.
- 2.2 The University must provide the Nominated Officer, on the Nominated Officer's written request, a signed statement from each person covered by these conditions that the University has informed the person of the conditions of these conditions that apply to that person.

3. Material Changes in circumstances

- 3.1 The University must immediately, by notice in writing, inform the Nominated Officer of:
 - (a) any relevant conviction of the University or any of its Directors occurring after the commencement of these conditions;
 - (b) any event or circumstances occurring after the commencement of these conditions that would affect the capacity of the University to meet the conditions in this Exemption.

SECTION 2: SPECIFIC CONDITIONS

1. Transportation of a GMO

- 1.1 The GMO must be packed in a sealed unbreakable primary container. Selfing bags are considered to be an appropriate primary container for propagative plant material.
- 1.2 Every primary container must be clearly marked GM canola along with the variety code.
- 1.3 Primary containers must be packed in sealed unbreakable secondary container.

- 1.4 Every secondary container used to transport the GMO must be labelled:
 - (a) to indicate that it contains genetically modified plant material; and
 - (b) with telephone contact numbers for the University and instructions to contact the University in the event that the container is broken or misdirected.
- 1.5 Each secondary container must remain sealed during transit.

2. Contingency Plans

- 2.1 Within seven days of the date of the commencement of these conditions, a written Contingency Plan must be submitted to the Nominated Officer detailing measures to be taken in the event that a secondary container is broken.
- 2.2 The Contingency Plan must include details of procedures to:
 - (a) ensure the Nominated Officer is notified immediately if the University becomes aware of the event;
 - (b) destroy any of the GMOs; and
 - (c) monitor and destroy any Volunteer plants that may exist as a result of the event.

3. Cultivation of the GMO

- 3.1 The GMO may only be cultivated for the Specified Purpose.
- 3.2 Cultivation of the GMO is permitted only in the University's Quarantine Insectary Glasshouse, Hartley Grove, Urrbrae, provided that the Quarantine Insectary Glasshouse is:
 - (a) registered by the Australian Quarantine and Inspection Service as a Quarantine Approved Premise; and
 - (b) certified by the Office of the Gene Technology Regulator as PC2 Plant Containment Facility.
- 3.3 Before the commencement of planting, the following information should be provided to the Nominated Officer:
 - (a) The contact details of the person responsible for the Quarantine Insectary Glasshouse or his representative to enable authorised officers to seek consent to entry.
 - (b) Identification of the GMO type proposed to be grown in the Quarantine Insectary Glasshouse, and the area of each that is to be sown.
 - (c) Estimated date of planting, pollen production and seed set.
- 3.4 All plant material resulting from cultivation of the GMO is to be destroyed before pollen production or seed set.
- 3.5 All plants, plant material, soil, consumables and waste associated with and resulting from the Specified Purpose shall be heat treated (autoclaved) before it is removed from the University's Quarantine Insectary Glasshouse, in accordance with the facility's quarantine protocols.

4. Compliance Management Plan

- 4.1 Prior to the GMO entering South Australia, a written Compliance Management Plan must be provided to the Nominated Officer on request. The Compliance Management Plan must describe in detail how the University intends to ensure compliance with these conditions and document that compliance.

SECTION 3: INTERPRETATION AND DEFINITIONS

Words and phrases used in this Exemption have the same meanings as they do in the Genetically Modified Crops Management Act 2004 (SA), Gene Technology Act 2000 (Commonwealth) and the Gene Technology Regulations 2001.

Words importing a gender include any other gender.

Words in the singular include the plural and words in the plural include the singular.

Words importing persons include a partnership and a body whether corporate or otherwise.

References to any statute or other legislation (whether primary or subordinate) is to a statute or other legislation of the Commonwealth of Australia as amended or replaced from time to time unless the contrary intention appears.

Where any word or phrase is given a defined meaning, any other part of speech or other grammatical form in respect of that word or phrase has a corresponding meaning.

In this Exemption:

'**Brassica crops**' means any crop of *Brassica* plants or Canola (and includes commercial *Brassica* crops).

'**Brassica plants**' means the species listed in the table at Table 1.

'**Canola**' means plants of the species *Brassica napus*.

'**Department**' means the Department of Primary Industries and Resources in South Australia.

'**Destroy**', (or '**Destroyed**' or '**Destruction**'), as the case requires, means killed by one or more of the following methods:

- (a) stalk pulling; or
- (b) light tillage; or
- (c) burning; or
- (d) treatment with herbicide; or
- (e) slashing; or
- (f) mowing; or
- (g) hand weeding; or
- (h) burial under 1 m of soil; or
- (i) grazing; or
- (j) a combination of the above.

Note (1): 'As the case requires' has the effect that, depending on the circumstances, one or more of these techniques may not be appropriate. For example, in the case of killing the remains of harvest of the GMO, treatment of post harvest remains by herbicide would not be a sufficient mechanism.

'**GM**' means genetically modified.

'**Light tillage**' or '**lightly tilled**' means the use of a technique to disturb the soil in an area so as not to bury plant material in the area to a depth of more than 50 mm and can include harrowing or mulching down to the soil surface.

'**Minister**' means the Minister of Agriculture, Food and Fisheries in South Australia.

'**Volunteer plants**' means progeny of the GMO.

WORKCOVER CORPORATION ACT 1994
WORKERS REHABILITATION AND COMPENSATION ACT 1986

Determination of Board of WorkCover Corporation of South Australia

THE Board of the WorkCover Corporation of South Australia determines as follows, pursuant to section 17 of the *WorkCover Corporation Act 1994*, section 72 of the *Workers Rehabilitation and Compensation Act 1986* and all other enabling powers:

1. Citation and Date of Commencement

- (1) This determination may be cited as the *WorkCover Levy Review Determination 2002*.
- (2) This determination takes effect on 13 August 2009.

2. Continuation of WorkCover Levy Review Panel

The WorkCover Levy Review Panel ('the Panel') established by the Board's determination of 29 June 2000 (see *South Australian Government Gazette*, 29 June 2000, page 3472) is hereby continued.

3. Function and powers under section 72 of *Workers Rehabilitation and Compensation Act 1986*

The function of the Panel shall be to perform the functions of the Board under section 72 of the *Workers Rehabilitation and Compensation Act 1986* ('the Act') as delegate of the Board under that section in reviewing decisions of the Corporation pursuant to subsections 66 (4), 66 (5), 66 (6), 67 (1), 67 (2), 67 (3), 67 (4), 69 (4) (b), 70 (1), 70 (2), 70 (3), 70 (4), 71 (1), 71 (2) of the Act and (subject to the succeeding clauses of this determination) the powers of the Board under section 72 of the Act (other than the power to review a decision of the Corporation on a matter of law going to the validity of that decision) are delegated to the Panel for that purpose.

4. Constitution of Panel

- (1) Subject to Clause 4 (2B), the Panel shall sit comprising four members appointed by the Board consisting of:
 - (a) a President, who shall be a legal practitioner (wherever in Australia admitted), and who shall decide any questions of law;
 - (b) a member with expertise in the interests of registered employers;
 - (c) a member with expertise in the interests of workers; and
 - (d) a member with expertise in the interests of the Corporation.
- (2) Where the anticipated unavailability of appointed members or the anticipated volume of work necessitates, deputy members may be appointed by the Board.
- (2A) A Deputy President or other Deputy Member has the powers and duties of the position held by the person for whom he or she deposes.
- (2B) Where the Panel is reviewing a decision of the Corporation pursuant to section 67 (1) of the Act to impose a Balancing Payment (as defined in the Levy Adjustment Scheme determined by the Corporation or its delegate from time to time) on an employer, the President sitting alone may, after hearing from the parties to the review on the matter, appoint a person with appropriate technical expertise (e.g., an actuary) as a temporary member of the Panel for the purposes of reviewing that decision. Such temporary member would sit on the Panel in substitution for the member ordinarily sitting pursuant to Clause 4 (1) (d) of this Determination.
- (3) The President may sit alone:
 - (a) to give directions;
 - (b) to determine procedural matters;
 - (c) for the promotion of conciliation;
 - (d) to seek evidence; or
 - (e) to dispose of an application on a matter of law involving no disputes of fact and no exercise of discretion, but (subject to this clause) the Panel shall otherwise sit as a Panel of four.
- (4) A decision of a majority of members of the Panel, other than a decision as to a matter of law, shall be the decision of the Panel, but a member not agreeing with a decision of the majority may give reasons for not agreeing.
- (4A) In the event of the Panel being equally divided in opinion as to the decision to be made, the Panel's decision shall be in accordance with the opinion of the President or Deputy President.
- (4B) A quorum of the Panel shall be three members, provided that members representing each interest referred to in subclause (1) or (where applicable) deputies thereof have been offered, in the opinion of the President, a reasonable opportunity to sit.
- (5) If a member of the Panel becomes unavailable after the commencement of a hearing, the application must be heard again by the Panel properly constituted or (with the concurrence of the parties) adjourned until the absent member becomes available again, unless the decision of the remaining members is unanimous.
- (6) However, no hearing may commence or continue without the President or a Deputy President.

5. Indemnity of Members

Any liability attaching to a member of the Panel (including a temporary member appointed pursuant to Clause 4 (2B)) for an act or omission by the member, or by the Panel, in good faith and in the exercise or purported exercise of a power or function, or in the discharge or purported exercise of a duty, of the member or the Panel is assumed by the Corporation.

6. Tenure of Members

- (1) Members (other than the President) shall be appointed for a term of two years, except in the event of a casual vacancy, where a member may be appointed for two years or for the balance of the term of the former member at the option of the Board.
- (1A) The President of the Panel shall be appointed for a term of five years.
- (2) A deputy of a member shall be appointed for a term specified by the Board in the instrument of appointment, not exceeding the balance of the term of the member for whom the deputy is to depute.
- (3) A member of the Panel whose term has expired may, if a new appointment has not been made, continue to sit as a member of the Panel until a new appointment is made.
- (4) A former member of the Panel may sit as a member of the Panel for the purpose of completing the hearing and determination of part-heard proceedings.

7. Conciliation as Condition Precedent to jurisdiction

- (1) Upon receipt of any application lodged under section 72 (1) of the Act, the registry of the Panel will forward a copy to the operating unit of the Corporation responsible for the disputed decision. The operating unit of the Corporation responsible for the disputed decision, the General Counsel of the Corporation or Senior Lawyer of the Corporation will reconsider the decision (disregarding any question of whether the application is out of time) and must inform the Panel and the applicant within 14 days of the result of the reconsideration (and its attitude to any question of an extension of time).
- (1A) Where the operating unit of the Corporation responsible for the disputed decision, or the General Counsel of the Corporation, or granting an extension of time that exceeds seven days, the registry must invite the employer to indicate whether it has any objections to the proposed extension of time and the reasons for any objection. If there is any such objection, the registry must refer the question to the President of the Panel to determine.
- (2) If—
 - (a) the Corporation, on reconsideration of a disputed decision, confirms the decision; or
 - (b) the Corporation, on reconsideration of a disputed decision, varies the decision and the applicant expresses dissatisfaction with the variation,the registry of the Panel must provide the applicant 30 days to notify the registry to refer the dispute for conciliation by a conciliator who will use his or her best endeavours to bring the applicant and the operating unit of the Corporation that is responsible for the disputed decision, or the General Counsel of the Corporation, or Senior Lawyer of the Corporation to an agreed resolution of the matters referred to in the application, and the Panel may not hear and determine any application unless it is satisfied that conciliation has been attempted and failed or it is satisfied that such attempts have no realistic prospects of success.
- (3) If, during the hearing of any matter, it appears to the Panel that there is a realistic prospect of a negotiated outcome being achieved, it may refer the matter back for further conciliation or the Panel may make such other attempts to promote conciliation as it thinks appropriate.
- (4) In this clause, 'conciliation' includes:
 - (a) counselling;
 - (b) mediation;
 - (c) neutral evaluation;
 - (d) case appraisal;
 - (e) conciliation; and
 - (f) any combination of the above,and the format of conciliation in any particular case shall be at the discretion of the conciliator in consultation with the parties, with the proviso that any confidential information provided during conciliation may be withheld from the Panel if the provider of that information requests.

8. Principles of Operation of Panel

- (1) The Panel shall be bound by and is hereby directed to follow the principles of natural justice.
- (2) Subject to subclause (1), the Panel:
 - (a) shall act according to equity, good conscience and the substantial merits of the case, without regard to technicalities and legal forms;
 - (b) is not bound by the rules of evidence, but may inform itself by such means and such material as it thinks fit; and
 - (c) shall act as expeditiously as the circumstances of a particular case permit.
- (3) The Panel must ascertain whether the parties to any proceedings desire to be heard by way of oral evidence or submissions and must in that event give at least 14 days notice of the date, time and place of hearing, but if both parties to particular proceedings wish to have the application determined on the documents the Panel need not hold a hearing but must give the parties at least 14 days notice to make final written submissions before proceeding to make a determination.
- (4) If only one party to proceedings desires to present oral evidence or submissions, the Panel must give the other party at least 14 days notice of the hearing and inform that party that there is a danger that at the hearing the Panel may hear things from the first party that the other party will be unable to respond to if it does not attend.
- (5) A party may appear in person or (if a body corporate) by any proper officer or may be represented by counsel or by any duly appointed and authorised agent.
- (6) A party engaging representation must do so at its own cost.

9. Powers of President of Panel

The President of the Panel, or a Deputy President acting in that office may, while so acting, exercise the powers of, and is hereby appointed as, an authorised officer under the Act. For the purposes of this clause, operating units of the Corporation and its agents are directed to comply with any requirements of the President or Deputy President as though they were subject to section 110 of the Act.

10. Reservation of Board's Discretion to Decide

The Panel is required to determine all applications that fail to resolve through reconsideration or at conciliation, unless the Corporation, within 14 days of receipt of any application advises the Board that the particular dispute is of unusual significance and the Board, prior to the hearing of the application by the Panel, serves notice on the Panel and the applicant that the Panel is to make a recommendation only and refer the matter to the Board

11. Revocation

The determination of the Board published in the *South Australian Government Gazette* on 17 January 2008, is revoked from the commencement of this determination.

12. Transitional

Where an application for review lodged before 1 July 2002 is part-heard at that date, the hearing will be completed by the Panel as constituted before that date. The amendment to this Determination made by the Board on 13 August 2009 will operate immediately.

Dated 13 August 2009.
