## RULES OF COURT

## Supreme Court Civil Rules 2006 (Amendment No. 7)

BY virtue and in pursuance of section 72 of the Supreme Court Act 1935 and all other enabling powers, We, Judges of the Supreme Court of South Australia, make the following rules to take effect as amendments to the Supreme Court Civil Rules 2006.

1. These Rules may be cited as the ‘Supreme Court Civil Rules 2006 (Amendment No. 7)’.

2. The Supreme Court Civil Rules 2006 are amended as set out below.

3. These amendments will commence on 1 April 2009, or upon their gazettal, whichever is the later.

4. A new Rule 204A is inserted immediately after Rule 204 as follows:

**‘204A—Warrants of possession to be executed more than six months after the possession order**

- (1) This rule applies to any warrant of possession which is to be executed more than six months after the making of the order for possession on which it is based.
- (2) A plaintiff must not cause a warrant to which this rule applies to be executed unless:
  - (a) it was issued by permission of the Court under this rule; or
  - (b) it was issued under subrule (8).
- (3) At least 10 days before applying for the issue of a warrant to which this rule applies, a plaintiff is to send, by ordinary prepaid post, a notice in an approved form to:
  - (a) each defendant at their last known address; and
  - (b) the occupiers of the premises which are to be the subject of the warrant.
- (4) A defendant or occupier who wishes to oppose the issue of the warrant, must, within 10 days of the date of the notice sent to them, file in the Court a request, in an approved form, for a hearing together with any affidavits deposing to facts on which they seek to rely.
- (5) If a request under subrule (4) is filed the Registrar will, before issuing a warrant of possession, convene an urgent hearing by the Court and will send notice of it to all plaintiffs and defendants and to all persons identified in the application for the issue of the warrant or in the request for a hearing as an occupier of the premises.
- (6) Upon a hearing under subrule (5) the Court will consider whether, having regard to the circumstances which have occurred since the making of the order for possession, there is any good and sufficient reason why permission for the warrant to issue should not then be granted and, unless satisfied that such reason exists, will order the issue of the warrant.
- (7) The plaintiff may prove compliance with subrule (3) by filing a certificate in the approved form.
- (8) When a certificate has been filed under subrule (7), and no request has been received under subrule (4), the Registrar may issue the warrant of possession.’

QUARTERLY STATEMENT**

*Presented by the

**GOVERNMENT OF SOUTH AUSTRALIA****COMMENTARY TO THE STATEMENT OF THE AMOUNTS CREDITED TO  
AND ISSUED FROM THE CONSOLIDATED ACCOUNT FOR THE QUARTERS  
ENDED 31 DECEMBER 2008 AND 31 DECEMBER 2007*****Receipts******Taxation***

Land tax collections for the first six months of 2008-09 and the December quarter 2008 were higher than the same periods in 2007-08 reflecting growth in land values.

Land tax receipts for the first six months to December are typically low relative to the full year estimate, as they include the final instalment of the previous year's land tax assessment for taxpayers who choose to pay in quarterly instalments. Taxpayers who pay annually mainly pay a single amount in either the December or March quarters.

Higher payroll tax collections for the first six months of 2008-09 and the December quarter 2008 compared with the same periods in 2007-08 reflect growth in employer payrolls (notwithstanding the cut in the payroll tax rate from 5.25% to 5.0% and the increase in the tax-free threshold from \$504 000 to \$552 000, both of which took effect from 1 July 2008).

Lower levels of stamp duty receipts for the first six months of 2008-09 and the December quarter 2008 compared to the same periods a year ago mainly reflect a significant downturn in property sales compared to property experience for the corresponding periods in 2007.

Gambling taxation receipts for the six months to December 2008 and for the December quarter 2008 were lower than for the same period in 2007-08 reflecting lower gaming machine expenditure in hotels and clubs, following the implementation of the full smoking ban in hotels and clubs from 31 October 2007.

The lower gambling receipts for the December quarter 2008 compared with the December quarter 2007 also reflects a timing issue relating to contributions from casino operations. The December quarter 2007 receipts included casino contributions for both the September and December quarters of 2007, whereas the December quarter 2008 receipts only include casino contributions for the three months to December 2008.

***Fees and charges***

Receipts from fees and charges for the first six months of 2008-09 and the December quarter 2008 are lower compared with the same periods in 2007-08 due to lower receipts from expiation notices and land service fees.

The reduction in land service fees reflects the significant downturn in property sales compared with property experience for the corresponding periods in 2007.

### *Contributions from State Undertakings*

The contributions from State Undertakings are lower for the first six months of 2008-09 compared with the same period in 2007-08. This is largely due to lower income tax equivalents received from SA Water in 2008-09 reflecting the impact of water restrictions on SA Water's operational activities.

### *Recoveries*

Recoveries for the first six months of 2008-09 are lower than recoveries for the same period in 2007-08 due to the repayments in 2007-08 of surplus deposit account balances pursuant to the Cash Alignment Policy. These repayments were once-off transactions.

### *Royalties*

Higher royalty collections for the first six months of 2008-09 and the December quarter 2008 compared with the same periods in 2007-08 reflect higher production levels and prices for copper, iron ore and oil.

### *Commonwealth – General Purpose Grants*

Growth in general purpose grants in the first six months of 2008-09 over the same period of 2007-08 is not indicative of underlying Goods and Services Tax (GST) revenue growth. This is because monthly grants are paid according to a payment schedule prepared by the Commonwealth Government rather than the actual pattern of monthly GST collections.

In the Commonwealth's *Updated Economic and Fiscal Outlook*, released on 3 February 2008, the Commonwealth Government announced significant downward revisions to expected GST collections in 2008-09. Based on Commonwealth estimates, the total GST pool is expected to fall by around 0.6% in 2008-09.

### *Commonwealth – Specific Purpose Grants*

Specific purpose grants for the first six months of 2008-09 are lower than the corresponding period in 2007 mainly due to the cessation of funding to compensate the states for the loss of revenue from company regulation. No funding has been received in relation to compensation for company regulation in the first six months to December 2008, whereas \$6.5 million was received during the same period in 2007-08.

### **Payments**

Payments were made pursuant to the *Appropriation Act 2008* and also in accordance with various other Acts for which specific appropriation has been authorised.

Payments made from the Consolidated Account during the first half of 2008-09 were higher than the same period in 2007-08.

The higher level of payments was in line with the higher budgeted appropriation for 2008-09 compared with 2007-08.

**Note**

Considerable caution should be exercised in interpreting the quarterly statement of Consolidated Account transactions. Unlike the State budget, which comprises transactions on an accrual basis, the information reflected in the quarterly statements is limited to cash transactions. In addition, the Consolidated Account does not capture all the transactions undertaken by the general government sector (in particular, it does not record receipts to and payments from special deposit accounts). Finally, it should be noted that the timing of receipts and payments could be volatile within a particular year. As a result, apparently significant movements between years may only be due to changes in the timing of receipts and payments, and therefore may not have implications for the underlying budget position.
