An expanded Mount Barker township is proposed to accommodate most of the new houses. The DPA envisages a range of housing types supported by community services and facilities as well as retail, commercial and industrial uses that can provide local employment opportunities.

A portion of land is also proposed to be rezoned adjacent to the established residential areas at Nairne, which will also encourage a mix of housing types.

Copies of the DPA are available during normal office hours at the following locations:

- the Department of Planning and Local Government, Level 5, 136 North Terrace, Adelaide;

Schedule 1— Incorporated hospitals and public hospital sites: fees for admitted patients

1—Interpretation

- (1) In this Schedule, unless the contrary intention appears—

AR-DRG means Australian Refined Diagnosis Related Group;

leave hour means an hour for which an admitted patient of a public hospital site is on leave from the public hospital site without being discharged from the public hospital site;

maintenance care (formerly Nursing Home Type care) means treatment and care of an admitted patient in which the treatment goal is to prevent deterioration in the patient's health or ability to function and where care over an indefinite period, but not further complex assessment or stabilisation, is required;

Manual means the *Australian Refined Diagnosis Related Groups, Version 5.0, Definitions Manual*, published in 2002 by the Commonwealth Department of Health and Ageing;

non-teaching, in relation to a public hospital site, means a public hospital site listed in the first column of the table in Schedule 4 whose classification in relation to the provision of services to admitted patients is specified in the fourth column of the table as Non-teaching;

rehabilitation, or **rehabilitation care**, means the treatment and care of a patient with an impairment, disability or handicap in which the treatment goal is to improve the ability of the patient to function;

rounded to the nearest hour, in relation to the determination of a number of hours, means that where a number of hours includes a fraction of an hour, the number is to be rounded up to the nearest whole hour if the fraction consists of 30 minutes or more and rounded down to the nearest whole hour (or, where necessary, to zero) if the fraction consists of less than 30 minutes;

teaching, in relation to a public hospital site, means a public hospital site listed in the first column of the table in Schedule 4 whose classification in relation to the provision of services to admitted patients is specified in the fourth column of the table as Teaching.

- (2) For the purposes of this Schedule—

(a) AR-DRG reference numbers or descriptions are as set out in the Manual; and

(b) terms and abbreviations used in AR-DRG descriptions have the meanings given by the Manual.

- (3) A reference in this Schedule to a Table of a specified number in this Schedule is a reference to the Table of that number in clause 9.

2—Determination of applicable AR-DRG

For the purposes of this Schedule, the AR-DRG applicable to a patient must be determined in accordance with the guidelines contained in *South Australian Morbidity Coding Standards and Guidelines (Inpatients)*, effective 1 July 2006, published by the Department of Health.

3—Standard fee for admitted patients

Subject to this Schedule, the fee to be charged by a public hospital site for a period of treatment, care and accommodation of an admitted patient to whom an AR-DRG specified in the first and second columns of Table 3 in this Schedule is applicable must be calculated as follows:

$$\text{Fee} = \text{Price} \times \text{Cost Weight}$$

where—

- (a) the **Price** is the price specified in the second column of Table 1 in this Schedule according to the public hospital site classification (teaching or non-teaching) specified in the first column of the Table; and
- (b) the **Cost Weight** is the cost weight specified in the third, fourth, fifth or sixth column of Table 3 in this Schedule according to the public hospital site classification (teaching or non-teaching) and patient classification (public or private) specified in those columns for the AR-DRG applicable to the patient.

5—Fee for rehabilitation or maintenance care

Despite clause 3, the fee to be charged by a public hospital site for a period of treatment, care and accommodation of an admitted patient where the treatment and care consists of rehabilitation or maintenance care must be calculated as follows:

$$\text{Fee} = \text{Price} \times \text{LOS}$$

where—

- (a) the **Price** is the price specified in the third or fourth column of Table 2 in this Schedule according to the public hospital site classification (teaching or non-teaching) specified in those columns, the patient classification (public or private) specified in the first column and the type of treatment or care specified in the second column, of the Table; and
- (b) the **LOS** (length of stay) means the number of hours (rounded to the nearest hour) between—
 - (i) the admission of the patient to the public hospital site or, where the patient receives maintenance care, the commencement of maintenance care, whichever is the later; and

- (ii) the discharge of the patient from the public hospital site, excluding any leave hours (rounded to the nearest hour) for the patient during that period, expressed as a figure in days (including parts of days) and rounded up to the nearest whole day.

6—Medical or diagnostic services not included in fees for private patients

In the case of a private patient, a fee determined in accordance with this Schedule does not include a fee for the cost of medical or diagnostic services provided by a medical practitioner selected by the patient.

7—Retrieval fee (admitted patients)

Where a retrieval team provided by a public hospital site monitors and treats a seriously ill or seriously injured admitted patient of that or any other public hospital site during the transportation of the patient to the public hospital site or to another facility of the public hospital site, the fee to be charged by the public hospital site providing the retrieval team is as follows:

Provision of retrieval team—\$2 077

8—Transportation fee

- (1) Where, in addition to providing a service referred to in this Schedule, a public hospital site transports, or arranges for the transportation of, a patient to or from (or between different facilities of) the public hospital site, the public hospital site may charge an additional fee equal to the cost to the public hospital site of providing, or arranging for the provision of, that transportation.
- (2) Subclause (1) does not apply to the transportation of a patient with a retrieval team provided by the public hospital site.

9—Other fees

- (1) Pharmaceutical Reform arrangements

For public hospital sites participating in the pharmaceutical reform arrangements under the agreement between the South Australian and the Australian Government the following fees apply for pharmaceuticals provided to admitted patients on discharge:

 - (a) For the supply of Pharmaceutical Benefit Scheme items (per item) the community co-payment rate for pharmaceuticals as set under the Commonwealth *National Health Act 1953* each year on 1 January.
 - (b) For the supply of non-Pharmaceutical Benefit Scheme items (per item) an amount that is the cost to the public hospital (using a full cost recovery principle) for supply of that item.
- (ii) For non-Medicare patients for the supply of non-Pharmaceutical Benefit Scheme and Pharmaceutical Benefit Scheme items (per item) an amount that is the cost to the public hospital (using a full cost recovery principle) for supply of that item.

Endorsed by the Medical Board of South Australia on 18 February 2010
 Approved by the Minister for Health on 18 May 2010

Commencement date: 1 June 2010

Review date: June 2012

PROFESSIONAL STANDARD STATEMENT

Context:	As outlined in the Australian Governments National Medicines Policy (2000), 'there are a number of aspects to providing access to medicines. There may be potential risks as well as benefits associated with the use of medicines, and before taking or prescribing a medicine the relative benefits and risks need to be considered'. (<u>Australian Government National Medicines Policy 2000</u> available on the Commonwealth Department of Health and Ageing's website: www.health.gov.au)
Objectives:	This standard describes good practice in prescribing medicines and supports the Medical Board of South Australia's <i>Code of Professional Conduct: Good Medical Practice</i> (available on Medical Board of South Australia website: www.medicalboardsa.asn.au) This standard should be read in conjunction with the Australian Government Department of Health and Aging accepted principles of Quality Use of Medicines. (<u>Australian Government National Medicines Policy 2000</u> available on the Commonwealth Department of Health and Ageing's website: www.health.gov.au). Prescribing is a modality of treatment and there are principles of prescribing that are well established in Australia and internationally.
Definitions and Acronyms:	T.G.A: Therapeutic Goods Administration

Professional Standard Provisions:

The Board endorses the following provisions:

1. The medical practitioner should only prescribe drugs to meet identified clinical needs of the patient.
2. The medical practitioner must always:
 - ensure he/she is fully aware of the use, side effects and contraindications of the medicines he/she prescribes;
 - take an adequate history from the patient and refer to any available past records to clarify any previous adverse reactions to medicines, all relevant current medical conditions and concurrent or recent use of medicines, including non-prescription medicines and alternative medicines. It is always prudent to personally inform the patient about the use of any proposed medication and the management of the condition. The medical practitioner must ensure concerns are clarified and compliance is maximised through written and verbal information. The medical practitioner should not rely on explanations from pharmacists or product information as a substitute. Treatment options should be discussed with the patient and the medical practitioner should be satisfied the patient has clearly understood information about the appropriate administration of the medicine. (Please refer to the *Australian Pharmaceutical Advisory Council – Guiding principles for medication management in the community – June 2006* for additional information on self-administration - available on the Commonwealth Department of Health and Ageing's website: www.health.gov.au).
3. When prescribing for a patient the medical practitioner should:
 - only prescribe dosages appropriate for the patient and the patient's condition;
 - ensure that arrangements such as follow up consultations or investigations, changes in dosage, repeat prescriptions and drug monitoring are made where relevant;
 - inform the TGA of any significant adverse drug reactions;
 - make clear and contemporaneous records of all medicines prescribed and any reactions to a drug;
 - exercise great caution if he/she chooses to prescribe on the recommendation of another health care professional who does not have prescribing rights, as the prescribing medical practitioner must be fully satisfied that the prescription is appropriate and can be justified to the prescribing medical practitioner's peers.

4. If the prescribing medical practitioner is not the patient's usual medical practitioner, he/she should ideally inform the usual medical practitioner of the consultation and impending prescription of medicine/s. Where it is practicable this should occur before any treatment is started. If the patient does not consent to this, or does not have a usual medical practitioner, the prescribing medical practitioner must ensure the patient is not suffering from any medical condition or receiving any other treatment that would make the prescription unsuitable or dangerous. The prescribing medical practitioner must then provide the usual continuity of care until another medical practitioner takes over this role.
5. The medical practitioner should avoid, unless it is reasonably necessary to do so, the use of telephone, email, fax, video link or websites, or third person information, as a basis for prescribing medicine unless he/she is confident of the accuracy and currency of the patient's medical information.
6. As outlined in the professional standard '*Medical Practitioners treating family members*' and the professional guideline '*Medical Practitioners treating self*', (both documents available on the Medical Board of South Australia website www.medicalboardsa.asn.au), independent medical care is strongly recommended whenever a medical practitioner or someone with whom the medical practitioner has a personal relationship, requires a prescribed medication. If a medical practitioner must prescribe a drug under these or emergency circumstances, the medical practitioner should justify his/her actions through a medical record which documents his/her relationship with the patient and/or the emergency circumstances that necessitated the medical practitioner's actions.

While operating in semi-protected waters the following additional equipment is required:

- Personal Flotation Device (PFD) type 1 for each person aboard the vessel.
- Two red hand held flares.

NOTICE TO MARINERS

NO. 27 OF 2010

South Australia—Drug Law Changes

MARINERS are reminded that legislative changes relating to drugs and alcohol are now in force and affect all commercial and recreational vessel operators and essential crew.

Police can undertake on-the-spot drug tests as well as testing for alcohol. This involves an initial screening test which may be followed by more comprehensive testing if a positive response is identified for drugs like:

- Cannabis—(delta-9-tetrahydrocannabinol—THC).
- Speed (methylamphetamine).
- Ecstasy (3, 4-methylenedioxyamphetamine).

Any accident where a person requires medical attention, that person will have a blood sample taken for the purpose of testing for alcohol and drugs.

The legislation allows for heavy penalties if an alcohol or drug related offence is detected. Alcohol and drugs inhibit normal function of operators and crew and the consumption of these may result in loss of life at sea.
