DEVELOPMENT ACT 1993, SECTION 28 (5): DECLARATION OF CESSATION OF INTERIM OPERATION OF THE DISTRICT COUNCIL OF FRANKLIN HARBOUR—GENERAL AND COASTAL DEVELOPMENT PLAN AMENDMENT

*Preamble*

On 26 February 2009 the Minister for Urban Development and Planning, under section 28 (1) of the Development Act 1993, declared the District Council of Franklin Harbour—General and Coastal Development Plan Amendment as an amendment to come into interim operation without delay on 26 February 2009.

The General and Coastal Development Plan Amendment has not been approved by the Minister under section 25 (19) (a) of the Development Act 1993 within the required 12 months period.

## NOTICE

PURSUANT to section 28 (4) (c) of the Development Act 1993, the District Council of Franklin Harbour—General and Coastal Development Plan Amendment ceases to operate on 27 February 2010, under the Interim Operation Order dated 26 February 2009, proclaimed by the Minister for Urban Development and Planning.

From 27 February 2010 (the date of cessation), the District Council of Franklin Harbour—General and Coastal Development Plan Amendment ceases to apply to the Franklin Harbour District Council Development Plans.

Dated 28 February 2010.

PAUL HOLLOWAY, Minister for Urban Development and Planning

## DEVELOPMENT ACT 1993: SECTION 48

*Decision by the Governor**Preamble*

1. On 4 August 1995 the Minister for Housing, Urban Development and Local Government Relations, being of the opinion that a proposed development of a waste management facility in the form of a solid waste landfill (Northward Fill Inkerman Landfill Depot) at Inkerman ('the development') was a development of major social, economic or environmental importance, directed the proponent to prepare an Environmental Impact Statement pursuant to section 46 of the Development Act 1993.

2. On 7 November 1995 an Environmental Impact Statement for the development was published in accordance with section 46 of the Development Act 1993. Subsequently, the Minister prepared an Assessment Report in accordance with section 46 of the Development Act 1993.

3. On 21 January 1999 the Governor gave notice in the *Government Gazette* that pursuant to section 48 of the Development Act 1993 a development authorisation was granted to the development, subject to conditions specified in that notice.

4. The development was the subject of further applications to amend the development authorisation and associated amendments to the Environmental Impact Statement were made under section 47 of the Development Act 1993.

5. Variations to the development authorisation were granted by the Development Assessment Commission as delegate of the Governor on 17 June 2004, 14 October 2004, 13 April 2006, 20 September 2007 and 5 June 2008.

6. On 20 August 2009 the Governor approved an amendment to the development authorisation to allow the receipt of low level contaminated waste at the approved landfill and disposal of these wastes into cells that are separate from those currently used to dispose of solid wastes. The amendment was the subject of an Amended Environmental Impact Statement and an Amendment to the Assessment Report under section 47 of the Development Act 1993.

7. Two further variations have been under consideration by the Development Assessment Commission, as delegate of the Governor, under Division 2 of Part 4 of the Development Act 1993.

8. The proposed variations relate to the receipt and disposal of non-metropolitan construction and demolition waste that is not required to go through a waste recovery and waste transfer facility; and an updated design of the liner system for low level contaminated waste cells. The proposed variations are contained in the applications and letters from Transpacific Industries Group Inc. to the Development Assessment Commission dated 30 November 2009 and 20 January 2010.

9. The Development Assessment Commission is satisfied that the proposed variations do not require the preparation of a further or amended Environmental Impact Statement.

10. The Development Assessment Commission has, in considering the applications for variations of the development authorisation, had regard to all relevant matters under section 48 (5) of the Development Act 1993.

11. For ease of reference, the Development Assessment Commission has decided to revoke all conditions and substitute therefore the conditions contained herein. Requirements that pertain to the variations have been added to Condition 21 and the Notes to the Proponent.

*Decision*

PURSUANT to section 48 of the Development Act 1993, the Development Assessment Commission, as delegate of the Governor:

- (a) grant a development authorisation in relation to the proposed amended Major Development under section 48 (2), subject to the Conditions set out in Part A below;
- (b) specify all matters relating to this development authorisation as matters in respect of which conditions of this authorisation may be varied or revoked, or new conditions attached;
- (c) specify for the purposes of section 48 (11) (b) the period until 20 August 2011 as the time within which substantial work must be commenced on site, failing which I may cancel this authorisation.

## PART A: CONDITIONS OF DEVELOPMENT AUTHORISATION

*General Conditions*

1. Except where minor amendments may be required by other legislation, or by conditions imposed herein, the proposed Major Development shall be undertaken in strict accordance with the following documents:

- Application and letter from Transpacific Industries Group Inc. to the Development Assessment Commission dated 30 November 2009.
- Application and letter (including accompanying plans) from Transpacific Industries Group Inc. to the Development Assessment Commission dated 20 January 2010.
- Transpacific Waste Management, Northward Fill—EIS Amendment to Accommodate Additional Waste Types (dated 19 September 2008). Prepared by QED Pty Ltd.
- Proponent's response to submissions—Letter from QED Pty Ltd (on behalf of Transpacific Waste Management Pty Ltd) to the Department of Planning and Local Government dated 1 April 2009 (Ref.: 10786), but in the case of conflict with a specific condition below the specific condition shall apply.

2. Before any building work is undertaken on the site, the building work is to be certified by a private certifier, or by some person determined by the Minister for Urban Development and Planning, as complying with the provisions of the Building Rules (or the Building Rules as modified according to criteria prescribed by the Regulations).

*Low Level Contaminated Waste/Treatment Plant Residues Cells*

3. Prior to the construction of the Low Level Contaminated Waste/Treatment Plant Residues Cell (LLCW/TPRC), the Licensee shall submit to the Environment Protection Authority for assessment and approval a revised Landfill Environmental Management Plan (LEMP) incorporating the design, construction, technical specifications, environmental and post-closure management of the LLCW/TPRC.

4. The Licensee shall, no less than three months prior to construction of any LLCW/TPRC at the premises:

- (a) provide to the Environment Protection Authority a specification document that provides a detailed design for the relevant cell;
- (b) not construct any cell unless written approval has been received from the Environment Protection Authority.

5. The Licensee shall prior to receiving, storing, treating or disposing of any waste within the LLCW/TPRC, provide to the Environment Protection Authority:

- (a) an 'As Constructed Report' certifying compliance with the approved design for the lining system, including a Construction Quality Assurance (CQA) for the liner and the Level 1 Supervision Report; and
- (b) not receive any LLCW/TPR without written approval from the Environment Protection Authority.

*Groundwater*

6. Monitoring shall be undertaken over two successive winter seasons to determine the maximum seasonal watertable level for that period starting prior to the landfill operations starting.

7. An internal leachate-level monitoring bore network within each stage of the landfill shall be established to allow early identification of any problem with the leachate collection system before excessive leachate heads develop.

8. Groundwater monitoring bores shall be established down gradient of the leachate collection ponds to the satisfaction of the Environment Protection Authority.

*Leachate Management*

9. The 'As Constructed Report' shall include a certification from a geotechnical consultant that the liner and drainage system has been constructed in accordance with the design principles together with in-situ testing to demonstrate that the required permeability has been achieved prior to operations commencing, except as varied by Conditions (a), (b), (c) and (d):

- (a) the high density polyethylene (HDPE) membrane and geotextile portion of the liner shall extend a minimum of 5 m laterally from the sump (measured from the toe of the sump side slope to the outer edge of the lining system) and the underlying clay outside the sump area must have a minimum thickness of 1 m;
- (b) the drainage slopes towards drainage lines and along drainage lines shall be a minimum of 2% and 1% respectively;
- (c) construction of the landfill liner and polylock system shall be undertaken and certified in accordance with Level 1 supervision and Construction Quality Assurance (CQA) procedures. A report documenting the results of the Level 1 supervision and construction quality control tests for the compacted clay liner, HDPE membrane and polylock system shall be prepared to the reasonable satisfaction of the Environment Protection Authority;
- (d) appropriate procedures and controls shall be implemented on site to address potential risks or damage which may compromise the integrity of the leachate extraction system, including from vehicle traffic, Ultraviolet Radiation and any movements of the overland pipework including interim flexible pipework used while cells are operational;
- (e) contingency procedures shall be developed to address the potential for and response to any pipe rupture and leachate emission from the leachate pipes and extraction system; and
- (f) the LEMP shall be updated to incorporate Conditions (d) and (e).

*Landfill Gas*

10. Landfill gas extraction wells shall be installed progressively as filling of the cell proceeds, to the satisfaction of the Environment Protection Authority.

11. All fire control measures proposed at the site shall be approved by the Country Fire Service prior to operations commencing.

*Buffers and Landscaping*

12. The maximum height of the landfill including rehabilitation shall be restricted to 27 m AHD (generally 7 m above the existing natural surface) to be consistent with the existing maximum topographic levels in the region.

13. All perimeter plantings shall be started as early as practicable after the date of this approval to achieve maximum amelioration of visual impacts.

14. Screening by suitable plantings where adequate natural screening is not provided, shall be provided for the perimeter fence, all built structures, stockpiles and internal roads (where practicable) using suitable species in accordance with the Vegetation Management and Revegetation Plan proposed as part of the Landfill Environmental Management Plan (LEMP).

*Noise and Dust*

15. The proponent shall comply with the provisions of the Environment Protection (Industrial Noise) Policy (1994, SA Government).

16.—

- (a) the maximum hours of operation shall be 6 a.m. to 7.30 p.m. seven days per week and waste shall only be received between 6 a.m. and 7 p.m.;
- (b) the Applicant shall ensure that close proximity and low impact directional reverse beepers are installed and utilised on all mobile plant associated with waste disposal operations; and
- (c) noise levels shall not exceed 40 dB(A) in accordance with EPA Fact Sheet 424/04 between the hours of 10 p.m. and 7 a.m.

*Infrastructure*

17. The proponent shall pay all reasonable costs of the detailed design and construction of any public roadworks made necessary by this development and to the satisfaction of Transport SA.

*Building Rules*

18. Work constituting building work under the Development Act 1993, shall be certified by the Wakefield Regional Council or a private certifier, as complying with the Building Rules. Copies of the relevant certification documentation shall be provided to the Minister for Urban Development and Planning, as outlined in Regulation 64 of the Development Act 1993. No building works shall commence until a favourable decision has been notified in writing to the applicant by the Governor or the Development Assessment Commission as delegate of the Governor.

*Heritage*

19. The party with the benefit of this approval shall ensure that operators and construction personnel are made aware of the requirements under the Aboriginal Heritage Act 1988 that any burial site skeletal material or significant artefact discovery is reported to the Division of State Aboriginal Affairs, Department for Environment and Heritage and Aboriginal Affairs.

*Wastes*

20. No Listed Waste as prescribed in Schedule 1, Part B of the Environment Protection Act 1993, or contaminated soil and material or asbestos containing material, shall be permitted to be disposed of without further development authorisation except as varied by the conditions listed below.

21. The proponent may receive and dispose of wastes from different regions as follows:

- (a) waste from the Adelaide Metropolitan Area that has gone through a Resource Recovery and Waste Transfer Facility; or
- (b) waste from regional areas outside the Metropolitan area that:
  - o has been through a kerbside recycling service comprising at least two mobile garbage bins with a maximum 140 litre weekly waste collection and a minimum 240 litre fortnightly recycling collection;
  - o has been through a mobile garbage bin kerbside recycling system that yields at least 4 kg per household per week for recycling, excluding contamination;

- has been processed through a resource recovery facility/transfer station for the purposes of removing recyclable material prior to being transported for disposal; or
  - comprises construction and demolition waste that does not contain recyclable materials.
22. The proponent may receive and dispose of the following additional wastes:
- (a) shredded tyres with other approved waste for a period of three years after which the proponent must apply for additional development approval;
  - (b) non-friable asbestos subject to handling and disposal procedures for non-friable asbestos, including the Environmental Management procedures as discussed in detail in Appendix F of the variation proposal;
  - (c) quarantine waste subject to approval from AQIS to receive and dispose of quarantine waste. In addition, the proponent shall:
    - (i) receive quarantine waste that is accompanied by a completed Quarantine Waste Form developed by the Licensee;
    - (ii) dispose of quarantine waste immediately upon receipt;
    - (iii) ensure a minimum of 2 m of cover is placed over the waste immediately after disposal;
    - (iv) dispose of waste in accordance with requirements of AQIS (including supervision, deep burial and tracking); and
    - (v) maintain records that describe details for each load of quarantine waste received and disposed including the following items:
      - Location of disposal;
      - Date and time of receipt and disposal;
      - Volume of waste;
      - Type of waste;
      - Producer of the waste;
      - Transporter of the waste and driver name; and
      - Name of person supervising disposal of waste.
    - (vi) maintain procedures for the notification, handling, supervision, records management and disposal of quarantine waste and tracking systems to prevent the re-excavation of quarantine wastes,
  - (d) foundry sands—the proponent shall:
    - (i) assess the Used Foundry Sand in accordance with EPA Guidelines for Used Foundry Sand (UFS)—classification and disposal (EPA 329/03—September 2003);
    - (ii) ensure that the Used Foundry Sands have been classified prior to disposal according to the maximum concentrations in mg/kg (dry weight) and the maximum leachate concentration in mg/L, of the contaminants listed in the above referenced Guideline; and
    - (iii) ensure that only Used Foundry Sand classified and certified as Class 1 (or with lower contaminant levels) is received and disposed at the Premises.
  - (e) low Level Contaminated Waste that meet the relevant Environment Protection Authority Low Level Contaminated Waste Criteria;
  - (f) construction and demolition waste from non-metropolitan areas—the proponent shall:
    - (i) maintain procedures and records, to the reasonable satisfaction of the Environment Protection Authority, that describe details for each load of waste received and disposed to ensure it does not contain recyclable materials.
- Pursuant to Development Regulation 64, the proponent is especially advised that the Wakefield Regional Council or private certifier conducting a Building Rules assessment must:
    - provide to the Minister for Urban Development and Planning a certification in the form set out in Schedule 12A of the Development Regulations 2008 in relation to the building works in question; and
    - to the extent that may be relevant and appropriate:
      - (i) issue a Schedule of Essential Safety Provisions under Division 4 of Part 12;
      - (ii) assign a classification of the building under these regulations; and
      - (iii) ensure that the appropriate levy has been paid under the Construction Industry Training Fund 1993.
  - Regulation 64 of the Development Regulations 1993 provides further information about the type and quantity of all Building Rules certification documentation for Major Developments required for referral to the Minister for Urban Development and Planning. The Wakefield Regional Council or private certifier undertaking Building Rules assessments must ensure that the assessment and certification are consistent with this development authorisation (including its Conditions and Notes).
- EPA Licensing and General Environmental Duty of Care*
- The applicant is reminded of its general environmental duty, as required by section 25 of the Environment Protection Act 1993, to take all reasonable and practical measures to ensure that the activities on the whole site, including during both construction and operation, do not pollute the environment in a way which causes or may cause environmental harm.
  - Environmental authorisation in the form of an amended licence may be required for the construction and/or operation of this development. The applicant is advised to contact the Environment Protection Authority before acting on this approval to ascertain licensing requirements.
  - The Environment Protection Authority will require the proponent to review and amend where necessary the current Landfill Environmental Management Plan (LEMP) to satisfy the Authority's licensing requirements. Such a plan will be required to include provisions for the review, from time to time, of waste treatment and disposal methods to facilitate implementation of continuous improvement programs. The LEMP will be required to incorporate specific plans in relation to groundwater, leachate and, surface water management. It will also be required to include provisions for implementation of corrective actions in the event of any failure of the leachate and groundwater management systems.
  - Control over the types of waste to be received at the site will be exercised by the Environment Protection Authority. This will be done through conditions of environmental authorisation or requirements under a relevant Environment Protection Policy rather than through conditions of development authorisation.
  - It is likely that as a condition of such a licence the Environment Protection Authority will require the licensee to carry out specified environmental monitoring of air and water quality and to make reports of the results of such monitoring to it.
  - A financial assurance in accordance with the provisions of section 51 of the Environment Protection Act 1993 will be required by the Environment Protection Authority as a condition of licence.
  - In regard to Conditions of Development Authorisation 3-5, a Geosynthetic Clay Liner may be used in the construction of a liner for a low level contaminated waste cell (such as in place of an upper 600 mm compacted clay liner) provided it has a specification equivalent to ELCOSEAL X3000 made by Geofabrics Australia or its equivalent.

#### PART B: NOTES TO PROPONENT

##### *Building Rules*

- The proponent must obtain a Building Rules assessment and certification for any building work from either the Wakefield Regional Council or a private certifier (at the proponent's option) and forward to the Minister for Urban Development and Planning all relevant certification documents as outlined in Regulation 64 of the Development Regulations 2008.

Dated 4 March 2010.

T. BYRT, Presiding Member, Development Assessment Commission

## ENVIRONMENT PROTECTION ACT 1993

*Approval of Category B Containers*

I, ANDREA KAYE WOODS, Team Leader, Container Deposit Legislation and Delegate of the Environment Protection Authority ('the Authority'), pursuant to section 68 of the Environment Protection Act 1993 (SA) ('the Act') hereby:

*Approval of Category B Containers:*

Approve as Category B Containers, subject to the conditions in subclauses 1, 2, 3 and 4 below, each of the classes of containers identified by reference to the following matters described in the first 4 columns of Schedule 1 of this Notice which are sold in South Australia:

- (a) the product which each class of containers shall contain;
- (b) the size of the containers;
- (c) the type of containers; and
- (d) the name of the holders of these approvals.

- (1) That containers of the class to which the approval relates must bear the refund marking specified by the Authority for containers of that class.
- (2) The holder of the approval must have in place an effective and appropriate waste management arrangement in relation to containers of that class. For the purpose of this approval notice the company named in Column 5 of Schedule 1 of this Notice is the nominated super collector.
- (3) In the case of an approval in relation to Category B containers that the waste management arrangement must require the holder of the approval to provide specified super collectors with a declaration in the form determined by the Authority in relation to each sale of such containers by the holder of the approval as soon as practicable after the sale.
- (4) The holder of these approvals must ensure that if a sticker bearing the refund marking has been approved and is applied to the container, then the sticker must not be placed on any portion of the opening mechanism or in any other place that would require complete or partial removal of the sticker before the contents may be consumed.

## ENVIRONMENT PROTECTION ACT 1993

*Variation to Existing Approval of Collection Depot*

I, ANDREA KAYE WOODS, Delegate of the Environment Protection Authority ('the Authority'), pursuant to section 69 of the Environment Protection Act 1993 (SA) ('the Act') hereby:

*Variation to Existing Approval of Collection Depot:*

Vary the approval of the collection depot listed at Schedule 1 of this notice, that was granted under the Act prior to the date of this Notice and impose the conditions of this approval to be as follows:

*Approval of Collection Depot:*

The collection depot identified by reference to the following matters is approved:

- (a) the name of the collection depot described in Column 1 of Schedule 1 of this Notice;
- (b) the name of the proprietor of the depot identified in Column 3 of Schedule 1 of this Notice;
- (c) the location of the depot described in Columns 4-6 of Schedule 1 of this Notice; and

The collection depot listed at Schedule 1 of this Notice is approved in relation to all classes of containers, which were approved under the Act, at or subsequent to the date of this Notice, as Category B Containers.

*Conditions of Approval:*

Impose the following conditions on the approval:

- (a) The person in charge of the collection depot shall ensure the depot premises complies with Council planning regulations and shall be kept in an orderly condition.
- (b) The person in charge of the collection depot who wishes to transfer the operation of a depot to another person or intends to change the location of a depot shall notify the Authority in writing within one month of the change occurring.
- (c) The person in charge of the collection depot who wishes to cease operation of that depot shall give notice in writing to the Authority.
- (d) The person in charge of the collection depot shall take such measures as are necessary in the operation and maintenance of the depot to prevent or control:
  - (i) a nuisance or offensive condition;
  - (ii) a risk to health or safety; and
  - (iii) damage to the environment.
- (e) The person in charge of the collection depot is reminded of the general environmental duty, as required by section 25 of the Environment Protection Act 1993, to take all reasonable and practical measures to ensure that the activities on the whole site, do not pollute the environment in a way which causes or may cause environmental harm.
- (f) The holder of an approval must not pay a refund on, or seek reimbursement, for containers that the approval holder knows were not purchased in South Australia.

## FISHERIES MANAGEMENT ACT 2007: SECTION 115

TAKE notice that, pursuant to section 115 of the Fisheries Management Act 2007, Australian Bight Abalone Ltd, c/o Professor Anthony Cheshire, 24 Winding Way, Belair, S.A. 5052 (the 'exemption holder') or a person acting as an agent, is exempt from section 52 of the Fisheries Management Act 2007, but only insofar as they may collect beachcast algae and seagrass for the purpose of trade or business (the 'exempted activity') in the areas specified in Schedule 1, subject to the conditions in Schedule 2, from 1 March 2010 until 31 May 2010, unless varied or revoked earlier.

## SCHEDULE 1

Intertidal area between mean low Water Springs and mean high Water Springs and bounded by 486181mE, 6285680mN (MGA zone 53) to the north and 485411mE, 6279859mN (MGA zone 53) to the south.

## SCHEDULE 2

1. The exemption holder may take beachcast (unconnected and deposited on shore) algae and seagrass for the purpose of trade or business from the area listed in Schedule 1.

2. A maximum of 500 tonnes may be collected pursuant to this exemption.

3. The operation should be designed to prevent removal of sand.

4. Written permission from the Department for Transport, Energy and Infrastructure must be obtained before material may be collected from the area.

5. The exemption holder must notify PIRSA Fishwatch on 1800 065 522 on any day of operation, at least two hours prior to conducting the exempted activity and answer a series of questions about the exempted activity. The exemption holder will need to have a copy of the exemption at the time of making the call and be able to provide information about the area and time of the exempted activity, the vehicles and other related questions. Exemption No. 9902334.

6. A report on the area of beach cleared (square metres), volume of seagrass cleared (cubic metres) and the method and location of disposal must be supplied the Director of Fisheries, G.P.O. Box 1625, Adelaide S.A. 5001 no later than 15 working days after the expiry of this exemption.

7. While engaged in the exempted activity the exemption holder or their agent must carry or have about or near their person a copy of this notice. Such notice must be produced to a PIRSA Fisheries Officer upon request.

8. The exemption holder must not contravene or fail to comply with the Fisheries Management Act 2007 or any regulations made under that Act, except where specifically exempted by this notice.

Dated 2 March 2010.

M. SMALLRIDGE, Director of Fisheries

## NATIONAL ELECTRICITY LAW

THE Australian Energy Market Commission (AEMC) gives notice of the commencement of its review of the effectiveness of competition in the retail electricity market in the Australian Capital Territory in accordance with the Request for Advice from the Ministerial Council on Energy.

Further details on the above matter are available on the AEMC's website [www.aemc.gov.au](http://www.aemc.gov.au). All documents in relation to the above matter are published on the AEMC's website and are available for inspection at the offices of the AEMC.

In accordance with section 41 (3) of the National Electricity Law, the MCE's relevant direction is published below in this notice.

MINISTERIAL COUNCIL ON ENERGY REQUEST TO  
AEMC FOR ADVICE ON THE STATE OF COMPETITION IN  
ELECTRICITY RETAIL MARKET(S) FOR SMALL  
CUSTOMERS IN THE AUSTRALIAN CAPITAL TERRITORY  
S.41 NATIONAL ELECTRICITY (SA) ACT 1996

**ADVICE****BACKGROUND**

1. The Ministerial Council on Energy (MCE) has agreed, in clauses 14.11 to 14.15 of the Australian Energy Market Agreement (AEMA):
  - To a process for assessing the effectiveness of competition in the electricity and gas retail markets of the jurisdictions for the purpose of phasing out retail price regulation where effective retail competition is demonstrated (clause 14.11);
  - That the Australian Energy Market Commission (AEMC) will assess the effectiveness of competition against criteria developed by the MCE;
  - That the AEMC will provide advice to jurisdictions on the retention, removal or reintroduction of retail energy price controls;
  - The effective competition review process is to commence with those jurisdictions most likely to have effective competition.
2. On 19 April 2007, AEMC provided advice to the MCE regarding the proposed public consultation process and the factors to be considered in its reviews of the effectiveness of competition in gas and electricity retail markets and for providing advice to jurisdictions for the purpose of retention, removal or reintroduction of retail energy price controls. This advice is referred to as the Statement of Approach.
3. Pursuant to s.41 of the *National Electricity (SA) Act 1996*, the MCE may request the AEMC to provide advice.

4. Participating jurisdictions under the National Electricity Law (NEL) have agreed to the request set out below with respect to the provision of advice by the AEMC on the state of competition in, and retention, removal or reintroduction of retail price regulation for electricity market(s) in the Territory of the Australian Capital Territory (ACT).

#### REQUEST

5. The MCE has by resolution dated 4 December 2009, agreed to request the AEMC to provide advice to the MCE on:
- the AEMC's assessment of the effectiveness of competition for small customers in the electricity market (i.e. customers consuming less than 100MWh per annum) in the Australian Capital Territory, having regard to the full range of customers in this class; and
  - the retention, removal or re-introduction of retail price regulation for standing contracts for small customers in the electricity market in the Australian Capital Territory.
- The advice must be prepared in accordance with the following requirements.
6. The AEMC must carry out its assessment and provide its advice generally in accordance with the Statement of Approach and in particular must assess whether competition is effective in relevant Australian Capital Territory electricity retail markets<sup>1</sup>:
- applying the criteria that have been developed by the MCE; and
  - using the methodology and approach set out in Part 2 and Part 3 of the Statement of Approach.
7. In formulating its advice on whether competition is effective in the relevant markets, the AEMC should have regard to the fact that under clause 14.14 of the AEMA, participating jurisdictions have agreed that the phase out of the exercise of retail price regulation:
- need not include the removal of 'obligation to supply' arrangements;
  - may involve a further period of price monitoring and/or price agreements with retailers under appropriate oversight arrangements; and
  - does not prevent the exercise of a reserve price regulation power where effective competition for categories of users ceases, provided that the power is only exercised in accordance with a regulatory methodology promulgated by the AEMC, and is subject to review by the AEMC of the effectiveness of competition in accordance with the AEMA.

#### Commencement of the review

8. Consistent with the AEMC's consultation process set out in its Statement of Approach (at 4.3), the AEMC must, before commencing its assessment of competition in Australian Capital Territory electricity markets:
- issue a public notice announcing the commencement of an assessment together with a proposed timetable for its completion including providing advice; and
  - call for public submissions within a time nominated by it on the effectiveness of competition in the relevant Australian Capital Territory electricity market(s).

#### Consultation with the Australian Capital Territory Government and relevant stakeholders

9. The AEMC must, at each step in the advice process, consult with the Australian Capital Territory Government. The AEMC must also consult and meet with relevant stakeholder groups in the Australian Capital Territory who have an interest in the oversight, regulation or other control of retail prices.

#### Four Stages of Reporting and Advice

10. In providing the advice the AEMC must follow a four stage reporting and advice process (consistent with Section 4.3 of the Statement of Approach) as follows:

#### Stage 1

- 10.1 Publish a draft report (First Draft Report) on its assessment of the effectiveness of competition in the relevant Australian Capital Territory electricity market(s), inviting public comment on the draft findings.

#### Stage 2

- 10.2 Consider all submissions and the result of any other consultation undertaken and publish a final report (First Final Report) advising of its assessment on the effectiveness of competition in the relevant Australian Capital Territory electricity market(s).

#### Stage 3

- 10.3 Publish draft advice (Second Draft Report):

- where the AEMC finds competition is effective, on ways to phase out retail price regulation in the relevant market, including a draft timeframe within which the phase out should occur; or
- where the AEMC finds competition is not effective, draft advice on ways to promote competition in the relevant market; and
- include advice on the Australian Capital Territory's compliance with clauses 14.10-14.14 of the AEMA.

#### Stage 4

- 10.4 Consider all submissions and the result of any other consultation undertaken and publish advice (Second Final Report):

- where the AEMC finds competition is effective, on the phase out of retail price regulation in the relevant market, including an appropriate timeframe, taking account of comments received on the draft report, and
- where the AEMC finds competition is not effective, on ways to promote competition in the relevant market.

#### MAKING REPORTS AVAILABLE

11. The AEMC must provide each of the reports referred to in clause 10 (the Reports) to the MCE and the Australian Capital Territory, and at the same time:
- make each of the Reports available on its website;
  - provide a copy of each of the Reports to all MCE Ministers; and
  - place a notice of publication of the Reports in a nationally circulating newspaper.

#### Date by which advice is due

12. The AEMC must provide its Second Final Report to the MCE by 31 December 2010.

#### Management of confidential information

13. The MCE notes that the AEMC will manage confidential information provided to it in accordance with the Statement of Approach.

<sup>1</sup> The MCE notes that, consistent with the AEMC's Statement of Approach there may be more than one relevant retail electricity market for small customers in the Australian Capital Territory. The AEMC will consider the relevant retail market(s) in which competition will be assessed. For the avoidance of doubt, a market may be defined by reference to groups of users or regions within the Australian Capital Territory.
