## ELECTRICITY ACT 1996

### *Default Contract Prices for Small Customers*

IN accordance with section 36AB of the Electricity Act 1996 (SA), TRUenergy Pty Ltd (ABN 99 086 014 968) ('TRUenergy') hereby publishes its default electricity contract prices for customers who are consuming less than 160MWh per annum of electricity ('small customers'). These default contract prices apply on and from 16 September 2010.

The default contract prices detailed in this notice apply to small customers of TRUenergy who are purchasing electricity under TRUenergy's Default Contract Terms and Conditions published in the *Government Gazette* on 1 April 2005.

TRUenergy reserves the right to change its default electricity contract price from time to time acting in accordance with all applicable regulations.

#### *Justification Statement*

The default contract prices set out in this notice reflect TRUenergy's total costs associated with providing electricity to TRUenergy's small customers in South Australia.

**Explanatory Notes**

1. The default contract price categories in this notice only apply to small customers (that is, those customers who consume less than 160MWh of electricity per annum) who are purchasing electricity under TRUenergy's default contract terms and conditions. The above default contract prices apply in accordance with the following principles:
  - (a) Residential Default Pricing applies to residential customers in premises used wholly or principally as private residences based on Domestic 110 tariff\* meter configuration and in the case of off peak, Off Peak Controlled Load Domestic 116 tariff\* meter configuration (refer to explanatory note 1(d) for the circumstances in which off peak rates apply).
  - (b) Business Default Pricing – General Supply applies to non residential customers in premises that are not used wholly or principally as private residences based on General Supply 126 tariff\* meter configuration and in the case of off peak, Off Peak Controlled Load Domestic 116 tariff\* meter configuration (refer to explanatory note 1(d) for the circumstances in which off peak rates apply).
  - (c) Business Default Pricing – Time of Use applies to non residential customers in premises that are not used wholly or principally as private residences based on General Supply Time of Use 128 tariff\* meter configuration.
  - (d) Off Peak Controlled Load for electricity used in permanently installed storage water heaters with a rated delivery of not less than 125 litres, storage space heaters and other approved thermal storage applications. The hours of application are fixed from time to time with control by time switch or other means. This price does not apply to electricity used outside those hours.
2. The term 'peak' used in the above table means 0700 hours to 2100 hours from Monday to Friday (Central Standard Time), except where the network meter does not recognise specific tariff days. In these situations 'peak' means 0700 hours to 2100 hours (Central Standard Time) each day.
3. The term 'Off peak' used in the above table means all times other than peak period which is described in explanatory note 2.
4. Where prices change during a billing cycle the bill for that billing cycle will be calculated on a pro-rata basis using:
  - (a) the old price up to and including the date of change; and
  - (b) the new price from the date of change to the end of the billing cycle.

\* These tariff descriptions refer to tariffs published by AGL South Australia Pty Limited.
