CONTROLLED SUBSTANCES ACT 1984

Prohibition of Administering Prescription Drugs

TAKE notice that on 25 February 2011, I, Simone Cormack, acting in the position Executive Director of Drug and Alcohol Services South Australia, having formed the opinion that Jacqueline Kay Roennfeldt has administered prescription drugs in an irresponsible manner, exercised the authority delegated by the Minister for Mental Health and Substance Abuse under section 62A of the Controlled Substances Act 1984 and made the following order under section 57 (1) of the Act:

Jacqueline Kay Roennfeldt, date of birth 7 January 1967,

is prohibited from supplying, administering, using or having possession of the following substances or class of substances:

- a drug of dependence as declared by Regulation 7A of the Controlled Substances (Poisons) Regulations 1996, pursuant to section 12 (3) of the Controlled Substances Act 1984, namely any poison listed in Schedule 8 of the Standard for the Uniform Scheduling of Medicines and Poisons as published and amended by the Secretary to the Department of Health and Ageing under the Commonwealth's Therapeutic Goods Act 1989.
- Prescription drugs that contain codeine or dextropropoxyphene;
- Prescription drugs that contain tramadol; and
- benzodiazepines.

This order does not apply to any of the above drugs or class of drugs lawfully supplied or prescribed for the treatment of Jacqueline Kay Roennfeldt by a dentist, medical practitioner or nurse practitioner or by a veterinary surgeon for administration to an animal in her care.

This order took effect when it was served on Jacqueline Kay Roennfeldt on 28 January 2011.

S. CORMACK, Delegate for the Minister,
Mental Health and Substance Abuse

DEVELOPMENT ACT 1993, SECTION 48: DECISION BY THE DEVELOPMENT ASSESSMENT COMMISSION AS DELEGATE OF THE GOVERNOR

Preamble

1. The decision of the Governor under section 48 of the Development Act 1993, to approve the development of the Ceduna Keys multi-component residential marina and community centre near Ceduna, on the West Coast, was published in the *Gazette* on 15 December 2005.

2. The development was the subject of an Environmental Impact Statement and an Assessment Report under sections 46 and 46B of the Development Act 1993.

3. On 22 October 2009 the Development Assessment Commission, as delegate of the Governor under section 48 of the Development Act 1993, granted approval for a variation of the development authorisation which provided that if development was not commenced by substantial work on the site within five years of the date of the authorisation, the Governor may cancel the authorisation by written notice.

4. Application has now been made to the Development Assessment Commission, as delegate of the Governor under section 48 of the Development Act 1993, for a variation of the development authorisation which provided that if development was not commenced by substantial work on the site within six years of the date of the authorisation, the Governor may cancel the authorisation by written notice.

5. The proposed variation is to reword the development authorisation to provide that if development is not commenced by substantial work on the site by 15 December 2011 (within six years of the date of the original authorisation), the Governor may cancel the authorisation by written notice.

6. The application for a variation of the development authorisation is contained in the letter from the Ceduna Marina Development Company Pty Ltd to the Department of Planning and Local Government dated 18 January 2011.

7. The Development Assessment Commission has, in considering the application for variation of the development authorisation, had regard to all relevant matters under section 48 (5) of the Development Act 1993.

8. The Development Assessment Commission is satisfied that the variation of the development authorisation does not require the preparation of a further or amended Environmental Impact Statement.

9. For ease of reference the conditions attached to the Ceduna Keys multi-component residential marina and community centre development are republished in full.

DECISION

PURSUANT to section 48 of the Development Act 1993 and with the advice and consent of the Executive Council, and having due regard to the matters set out in section 48 (5) and all other relevant matters, I:

- (a) grant a provisional development authorisation in relation to the proposed Major Development subject to the Conditions and Notes to the applicant below;
- (b) reserve my decision on the following matters pursuant to section 48 (6) and Regulation 64 (1):
 - (i) Compliance with the Building Rules in relation to all aspects of the proposed Major Development relating to building works (refer to Conditions and Notes to Applicant below).

- (ii) Realignment of the Eyre Highway and associated roads and intersections (including the relocation of the PIRSA Quarantine Inspection Station), the applicant's finalised plans, drawings, specifications and financial arrangements for which are to be prepared to the reasonable satisfaction of the Department for Transport, Energy and Infrastructure and the Commonwealth Department for Transport and Regional Services, prior to being submitted to me or my delegate (refer to Conditions and Notes to Applicant below).
 - (iii) The acoustic protection mound (including landscaping), the applicant's finalised plans, drawings and specifications for which are to be prepared to the reasonable satisfaction of the Environment Protection Authority and the Department for Transport, Energy and Infrastructure, prior to their being submitted to me or my delegate (refer to Conditions and Notes to Applicant below).
 - (iv) The provision of an adequate water supply to the development site, the applicant's finalised plans, drawings, specifications and financial arrangements for which are to be prepared to the reasonable satisfaction of SA Water, prior to their being submitted to me or my delegate (refer to Conditions and Notes to Applicant below).
 - (v) The arrangements for the expansion of the town's effluent lagoons to cater for the increased demand from the development, in relation to which the applicant and the Ceduna District Council must enter a binding agreement, to the reasonable satisfaction of the Environment Protection Authority and the Department of Health prior to their being submitted to me or my delegate, (refer to Conditions and Notes to Applicant below)
 - (vi) The public boat ramp, slip-way, wash-down, hard stand and associated parking the applicant's finalised plans, drawings and specifications for which are to be prepared to the reasonable satisfaction of the Environment Protection Authority, the Department for Transport, Energy and Infrastructure and the Ceduna District Council, prior to being submitted to me or my delegate (refer to Conditions and Notes to Applicant below).
 - (vii) The Site Contamination Management Plan the applicant's finalised and consolidated version of which is to be prepared to the reasonable satisfaction of an Environmental Auditor (Contaminated Land) and the Environment Protection Authority, prior to its being submitted to me or my delegate (refer to Conditions and Notes to Applicant below).
 - (viii) The Vegetation Management Plan, the applicant's finalised and consolidated version of which is to be approved by the Native Vegetation Council, prior to its being submitted to me or my delegate (refer to Conditions and Notes to Applicant below).
 - (ix) The Management, Maintenance and Monitoring (MMM) Agreement between the Ceduna Marina Development Company and the Ceduna District Council the applicant's finalised and consolidated version of which is to be concluded between the parties prior to being submitted to me or my delegate (refer to Conditions and Notes to Applicant below).
 - (x) The Construction Environmental Management and Monitoring Plan (CEMMP) for the pre-construction and construction phases, the applicant's finalised and consolidated version of which is to be prepared to the reasonable satisfaction of the Environment Protection Authority, other relevant government agencies and the Ceduna District Council, prior to its being submitted to me or my delegate (refer to Conditions and Notes to Applicant below).
 - (xi) The Stormwater Management Plan detailing the approach to the collection, storage, treatment and reuse of stormwater run-off for all components of the development during the operational phase of the development, the applicant's finalised and consolidated version of which is to be prepared to the reasonable satisfaction of the Environment Protection Authority, other relevant government agencies and the Ceduna District Council, prior to its being submitted to me or my delegate (refer to Conditions and Notes to Applicant below).
 - (xii) The Operational Environmental Management and Monitoring Plan (OEMMP) for the operational phase of the development, the applicant's finalised and consolidated, version of which is to be prepared to the reasonable satisfaction of the Environment Protection Authority, other relevant government agencies and the Ceduna District Council, prior to its being submitted to me or my delegate (refer to Conditions and Notes to Applicant below).
 - (xiii) The Management Plan for the implementation of the 'Restricted Area' (as identified by Figure 6 in the Response document) to limit public access and activities for the protection of the environment, the applicant's finalised and consolidated version of which is to be prepared to the reasonable satisfaction of the Department for Environment and Heritage, the Department for Water, Land and Biodiversity Conservation and the Department for Primary Industries and Resources, prior to its being submitted to me or my delegate.
 - (xiv) The Site Preparation and Landscaping Plan for the acoustic protection mound and the whole of the site, the applicant's finalised and consolidated version of which is to be prepared to the reasonable satisfaction of the Ceduna District Council, prior to its being submitted to me or my delegate (refer to Conditions and Notes to Applicant below).
 - (xv) The Noise Emission Management Plan for mitigating the impacts of noise generated by the Eyre Highway and railway line, the applicant's finalised and consolidated version of which is to be prepared to the reasonable satisfaction of the Environment Protection Authority, prior to its being submitted to me or my delegate (refer to Conditions and Notes to Applicant below).
- (c) specify all matters relating to this provisional development authorisation as matters in respect of which conditions of this authorisation may be varied or revoked, or new conditions attached;
- (d) specify, for the purposes of section 48 (11) (b) of the Development Act 1993, the period until 15 December 2011, as the time within which substantial work must be commenced on site, failing which I may cancel this authorisation.

CONDITIONS OF APPROVAL

1. Except where minor amendments may be required by other legislation, or by conditions imposed herein, the proposed Major Development shall be undertaken in strict accordance with:

- (a) the following drawings contained within the Environmental Impact Statement, 'Ceduna Keys Marina and Community Centre Development', lodged by the Ceduna Marina Development Company, dated June 2005:
 - Drawing Titled: 'Entrance Channel' (Figure 3.5—Channel Long Section); Drawing Reference Number: 100026-SK06 A dated March 2005.
 - Drawing Titled: 'Section C-C' (Figure 3.6—Profile of Channel); Drawing Reference Number: 100026-SK03 A undated.
 - Drawing Titled: 'Section A-A' (Figure 6.13—Stormwater Drainage and Noise Attenuation); Drawing Reference Number: 100026-SK02 A dated December 2004.

(b) the following drawings contained within the Response to Submissions, 'Response to Submissions: Ceduna Keys, Ceduna Keys Marina and Community Centre Development, Environmental Impact Statement', lodged by the Ceduna Marina Development Company, dated November 2005:

- Drawing Titled: 'Proposed Plan'; Drawing Reference Number: 203310—IV.PSD.
- Drawing Titled: 'Concept Plan'; Drawing Reference Number: 203310-1 V dated 18 November 2005.
- Drawing Titled: 'Commercial Marina Layout Plan'; Drawing Reference Number: 203310-23-1b dated 17 November 2005.
- Drawing Titled: 'Recreational Marina Layout Plan'; Drawing Reference Number: 203310-23-2b dated 17 November 2005.
- Drawing Titled: 'Figure 5 with Aerial Photograph' (Figure 4—Re-alignment of Eyre Highway and Position of Quarantine Station); Drawing Reference Number: 105226-SK-02_05118 dated 18 November 2005.
- Drawing Titled: 'Restricted Area Plan'; Drawing Reference Number: 203310-31 dated 8 November 2005.

(c) the following drawings contained within correspondence from the applicant, dated 30 November 2005:

- Drawing Titled: 'Site Plan'; Drawing Reference Number: 100026-SK-07 dated November 2005.
- Drawing Titled: 'Typical Breakwater Cross Section'; Drawing Reference Number: 100026-SK05 B dated March 2005.
- Drawing Titled: 'Soil Erosion and Drainage Management Plan'; Drawing Reference Number: 100026-CA03 B dated July 2004.
- Drawing Titled: 'Construction Staging—Stage A'; Drawing Reference Number: 100026-ST01 B dated July 2004.
- Drawing Titled: 'Construction Staging—Stage B'; Drawing Reference Number: 100026-ST02 C dated July 2004.

and

(d) the following documents:

- Revised development application, 'Major Development—Proposed Ceduna Keys Marina', prepared by Connor Holmes Consulting (for the Ceduna Marina Development Company), dated 9 December 2003 (except to the extent that it may be varied by a subsequent document in this paragraph).
- Environmental Impact Statement, 'Ceduna Keys Marina and Community Centre Development', lodged by the Ceduna Marina Development Company, dated June 2005 (except to the extent that it may be varied by a subsequent document in this paragraph).
- Response to Submissions, 'Response to Submissions, Ceduna Keys, Ceduna Keys Marina and Community Centre Development, Environmental Impact Statement', lodged by the Ceduna Marina Development Company, dated June 2005 (except to the extent that it may be varied by a subsequent document in this paragraph).
- Correspondence from Connor Holmes Consulting (for the Ceduna Marina Development Company) to Planning SA, dated 30 November 2005, confirming the components of the proposed development and the relevant plans for assessment and consideration by the Governor.
- Assessment Report prepared by the Minister for Urban Development and Planning dated December 2005.

2. In respect of the matters reserved under paragraph (b) of my decision, the applicant shall as expeditiously as possible:

(i) prepare such documentation as is therein envisaged, and where necessary shall prepare the same to the satisfaction of, or with the agreement of, any party specified therein in that regard before seeking my (or my delegate's) approval; and

(ii) thereafter seek my (or my delegate's) approval.

3. No works on any part of the proposed Major Development shall commence until a favourable decision has been notified to the applicant by me or my delegate in respect of all reserved matters referred to in subparagraph (ii)-(xv) in paragraph (b) of the Decision section above.

4. No construction activities or building works shall commence until a heritage survey has been completed to identify any Aboriginal Sites, Objects or Remains in the site area, and monitoring shall be undertaken during construction to enable the development to proceed without a breach of the Aboriginal Heritage Act 1988. Details of the applicant's Heritage Agreement and consultation with the relevant Aboriginal group shall also be provided to the Development Assessment Commission and the Department of Aboriginal Affairs and Reconciliation prior to construction commencing.

5. No construction activities or building works shall commence until the Environment Protection Authority and an independent Environmental Auditor (Contaminated Land) have certified the approved Site Contamination Management Plan to identify any soil or groundwater contamination that could affect the development. Additional investigations shall have been undertaken to assess the extent of soil and groundwater contamination at the proposed development site, soil investigations of the proposed entrance channel and potential impacts from off-site contamination on the proposed development.

6. Minimum site levels of 2.70 m AHD and minimum floor levels of 2.95 m AHD shall be established for areas within the development that are not subject to wave run-up. Minimum site levels of 3.00 m AHD and minimum floor levels of 3.25 m AHD shall be established for areas within the development that are subject to wave run-up.

7. Construction activities shall be suitably managed to minimise and/or mitigate impacts on the community (especially noise and dust) and the natural environment as far as practicable.

8. All contamination management or remediation works shall be undertaken in accordance with an approved Site Contamination Management Plan (as amended from time to time) and to the satisfaction of the Environment Protection Authority.

9. The storage capacity for the dredging discharge ponds and the required sediment settling times shall be recalculated following the completion and review of the detailed offshore soil investigations for the entrance channel excavation works.

10. A decision on building rules compliance will only be made after a Building Rules assessment and certification has been undertaken and issued by the Ceduna District Council, or a private certifier, in accordance with the provisions of the Development Act 1993, and after the Minister for Urban Development and Planning receives a copy of all relevant certification documentation, as outlined in Regulation 64 of the Development Regulations 1993 (refer to 'Notes to Applicant' below for further information).

11. Before seeking my or my delegate's decision in respect of the matters reserved at paragraph (b) (x) of the Decision section, the applicant shall finalise and lodge a consolidated 'Construction Environmental Management and Monitoring Plan' (CEMMP). The CEMMP shall cover the pre-construction and construction phases of the proposed Major Development and shall consolidate the applicant's previously submitted draft Construction Environmental Management Plan, Coastal Acid Sulphate Soils Management Plan, Soil Erosion and Drainage Management Plan, Spill Contingency Plan and Waste Management Plan. The matters to be addressed in the consolidated EMMP shall include, but shall not be limited to, the management, mitigation, monitoring, and corrective actions/contingency plans of the following matters during each of these phases:

- dust and sediment control;
- odour emissions;
- surface and ground water management;

- site contamination;
- waste management (for all waste streams) and overall site clean up (including litter);
- chemical, oil, construction-related hazardous substances and fuel use and storage, and other materials that have the potential to contaminate stormwater (including emergency responses);
- noise emissions (including ongoing noise assessment and monitoring to ascertain the effectiveness of noise control measures);
- Aboriginal Heritage requirements in accordance with commitments by the applicant and Heritage Agreement;
- vegetation clearance;
- introduced plants and animals;
- impacts on the marine environment (especially turbidity).
- visual impacts (including lighting);
- traffic management strategies;
- effect on existing infrastructure;
- impacts on adjacent land users;
- site security, fencing and safety and management of impacts on local amenity for residents, traffic and adjacent land users;
- periods and hours of construction and operation in accordance with Environment Protection Authority requirements;
- management of ongoing earthworks and construction (especially residential and commercial buildings); and
- community complaints register regarding the above matters.

12. No construction activities or building works shall commence until an Environmental Management Implementation Management Plan (EMIP) has been completed, which shall meet the reasonable satisfaction of the Environment Protection Authority and the Development Assessment Commission.

13. Before seeking my or my delegate's decision in respect of the matters reserved at paragraph (b) (xii) of the Decision section, the applicant shall finalise and lodge a consolidated 'Operational Environmental Management and Monitoring Plan' (OEMMP). The OEMMP shall cover the pre-construction and construction phases of the proposed Major Development and shall consolidate the applicant's previously submitted draft Operational Environmental Management Plan, Coastal Acid Sulphate Soils Management Plan, Soil Erosion and Drainage Management Plan, Spill Contingency Plan and Waste Management Plan. The matters to be addressed in the consolidated EMMP shall include, but shall not be limited to, the management, mitigation, monitoring, and corrective actions/contingency plans of the following matters during each of these phases:

- dust and sediment control;
- surface and ground water management;
- stormwater management;
- waste management (for all waste streams) and overall site clean up (including litter);
- chemical, oil, hazardous substances, fuel use and storage, and management/emergency response plans;
- safe boating navigation;
- water based activities;
- sand accretion and deposition;
- seagrass wrack accumulation;
- coastal hazards (especially flooding);
- impacts on the coastal and marine environment;
- pest plant and animal species (both terrestrial and marine);
- odour emissions;

- noise emissions (including a monitoring program to ascertain the effectiveness of noise control measures);
- visual impacts (including lighting);
- streetscaping, landscaping and revegetation;
- traffic management;
- public access;
- public safety;
- impacts on adjacent land users;
- control of land and water based activities;
- buildings and structures (including private moorings and fencing);
- periods and hours of building construction and operation; and
- community complaints register regarding the above matters.

14. All works and site activities shall be undertaken in accordance with the approved Construction Environmental Management and Monitoring Plan, Environmental Management Implementation Management Plan and Operational Environmental Management and Monitoring Plan.

15. Transport routes for the delivery of construction materials shall be selected to the reasonable satisfaction of the Ceduna District Council.

16. Compaction specifications (certified by a registered engineer), shall be prepared to the reasonable satisfaction of the Ceduna District Council, for the areas for residential allotments, commercial development, retail development, tourist development, carparks, public boat ramp and hardstand shall be submitted to the Development Assessment Commission.

17. Stockpiled soils shall be suitably managed to control dust emissions, erosion and weed infestation.

18. Amour rock used for breakwaters and revetments shall not be contaminated by fine sediment.

19. No construction activities or building works shall commence until designs for the proposed effluent disposal system for the development site and connection to the town's STED scheme are finalised and implemented.

20. Arrangements for the expansion of the town's effluent lagoons to cater for the increased demand from the development shall ensure suitable standards and facilities (with adequate capacities) are adopted and located for effluent disposal, including the potential long-term demand from the possible residential, commercial, retail and tourist related uses of the site.

21. The wastewater collection and treatment system shall be designed to ensure that the general obligations of the Environment Protection (Water Quality) Policy 2004 are met, and to ensure that effluent does not overflow or escape from drains, pipes, sumps, tanks, storage/treatment basins into any watercourse, or into stormwater drains which do not drain into the effluent collection, treatment and disposal system, except where the effluent complies with criteria in the above Policy.

22. The proponent shall provide undergrounded public lighting, power supply, water supply, television antenna and telephone supply to each allotment in accordance with, and to engineering design standard plans approved by the electricity, mains water and telephone public utility authorities.

23. The applicant shall ensure that there is no direct discharge of stormwater into the marina basins, waterways or marine environment for rainfall less than, and including, 1:20 year ARI events.

24. The land to be used for land-based allotments shall be formed to prevent stormwater flows entering into the waterways.

25. Water-sensitive urban design measures and practices shall be adopted for the management of run-off, including stormwater capture and reuse.

26. Undeveloped allotments shall be left in a neat and tidy condition, with soil surfaces stabilised to minimise erosion.

27. Road, drainage, footpath and intersection designs (ie. engineering construction plans) shall be finalised in accordance with the requirements of the Department for Transport, Energy and Infrastructure and the Ceduna District Council, prior to construction commencing. Drainage arrangements for existing roads and the railway line easement must not be altered unless agreed by the owner of the road. Road and drainage designs shall include water table levels, drainage inverts and pavement details. The roads and drainage works shall be built in accordance with these designs.

28. Road and associated kerbing shall be designed and constructed to avoid stormwater flows entering into the waterways by directing flows to inland disposal areas.

29. Road designs shall not affect existing natural drainage lines in such a way as to cause flooding.

30. A set-back distance of 2 metres from the top of waterway edge treatments shall be provided for the construction of further coastal protection works if required in the future.

31. The design of the Eyre Highway realignment shall avoid spills of toxic materials from entering the marina basins, waterways or marine environment.

32. Appropriate navigational aids shall be erected in prominent locations, in consultation with the Department for Transport, Energy and Infrastructure, prior to use of the facility for boating purposes.

33. Further engineering designs for breakwaters, edge treatments and other waterway related structures, commercial and recreational moorings, public boat ramp (including associated car parking and access), hardstand, wash-down, travel lift, boat refuelling facility and marine toilet pump-out/treatment facility shall be prepared and independently certified by a registered engineer, to the reasonable satisfaction of the Department for Transport, Energy and Infrastructure. A certificate as to the structural soundness of the proposed structures shall be submitted to the Development Assessment Commission, prior to the commencement of their construction.

34. Access systems for all floating boat moorings shall be capable of adjustment or be readily adaptable to projected long-term sea level rise and all marina mooring structures shall be designed in accordance with the Australian Standard AS3962—1991 Guidelines for Design of Marinas..

35. The public boat ramp facility shall be generally designed in accordance with the South Australian Boating Advisory Committee's Guidelines for Planning, Design and Construction of Boat Launching Facilities.

36. The boat refuelling dock and marine toilet pump-out facility shall be designed to meet the requirements of the Environment Protection Authority, the Department for Transport, Energy and Infrastructure and the Department of Health respectively.

37. The proponent shall ensure satisfactory oil spill and fire fighting facilities and contingencies, determined in consultation with the Department for Transport, Energy and Infrastructure and the Metropolitan Fire Service (MFS) and/or the Country Fire Service (CFS) respectively, are in place prior to commencement of operation of the marina.

38. The water contained in the marina basin shall be kept to a quality appropriate for secondary contact recreation, public amenity and the maintenance of marine aquatic ecosystems, as stipulated from time to time by the ANZECC Australian Water Quality Guidelines for Fresh and Marine Waters.

39. The acoustic protection mound shall be designed and maintained to ensure stormwater run-off is suitably managed to minimize soil erosion and flooding, to provide public access and to result in noise levels from the Eyre Highway and railway that do not exceed:

- (a) 52 dB (A) between the hours of 7am and 10pm measured and adjusted at the nearest existing residential property in accordance with the Environment Protection (Industrial Noise) Policy 1994.
- (b) 45 dB (A) between the hours of 10pm and 7am measured and adjusted at the nearest existing residential property in accordance with the Environment Protection (Industrial Noise) Policy 1994.

- (c) a short term typical maximum noise level of 60 dB (A) when measured at the nearest existing residential property.

40. The acoustic protection mound shall be planted with indigenous species and be constructed using suitable materials that are of a quality that would sustain the long-term growth of vegetation.

41. Landscaping and streetscaping of the site shall commence prior to the issuing of Certificates' of Title for each stage of the land division, and when established must be maintained in good health and condition at all times. A plant must be replaced if or when it dies or becomes seriously diseased within the first growing season after the plant dies or becomes seriously diseased. A weed control program shall also be implemented.

42. The Ceduna District Council shall be given seven days notice, prior to the commencement of works, and be provided with the name and contact facilities for the person responsible for coordinating site works covered by this approval.

NOTES TO APPLICANT

1. Approvals will be required for all components of the development not hereby approved, including:

- the land division;
- the marina moorings and other marina facilities;
- the public boat ramp, travel lift, hardstand, boat repair/maintenance facility and carpark areas;
- the boat refuelling and boat effluent disposal facility;
- the installation of navigational aids;
- the community/cultural centre; and
- all residential, commercial, retail, tourist related and other buildings.

2. Further design and infrastructure/service plans (ie. subject to separate applications to Council in the future) would be required should further development approval be sought for the community/cultural centre and for commercial, retail and tourist related buildings.

3. Pursuant to Development Regulation 64, the applicant is advised that the Ceduna District Council or private certifier conducting a Building Rules assessment must:

- (a) provide to the Minister a certification in the form set out in Schedule 12A of the Development Regulations 1993 in relation to the building works in question; and
- (b) to the extent that may be relevant and appropriate:
 - (i) issue a Schedule of Essential Safety Provisions under Division 4 of Part 12; and
 - (ii) assign a classification of the building under these regulations; and
 - (iii) ensure that the appropriate levy has been paid under the Construction Industry Training Fund 1993.

Regulation 64 of the Development Regulations 1993 provides further information about the type and quantity of all Building Rules certification documentation for Major Developments required for referral to the Minister for Urban Development and Planning.

4. The Ceduna District Council or private certifier undertaking Building Rules assessments must ensure that the assessment and certification are consistent with this provisional development authorisation (including any Conditions or Notes that apply in relation to this provisional development authorisation).

5. Should the applicant wish to vary the Major Development or any of the components of the Major Development, an application may be submitted, provided that the development application variation remains within the ambit of the Environmental Impact Statement and Assessment Report referred to in this provisional development authorisation. If an application variation involves substantial changes to the proposal, pursuant to Section 47 of the Development Act 1993, the applicant may be required to prepare an amended Environmental Impact Statement for public inspection and purchase. An amended Assessment Report may also be required to assess any new issues not covered by the original Assessment Report and a decision made by the Governor pursuant to Section 48 of the Development Act 1993.

6. Pursuant to the Harbors and Navigation Act 1993, the Council will need to enter into a licence agreement with the Minister for Transport over adjacent and subjacent land on terms acceptable to the Minister prior to the commencement of construction. Such agreement will require completion of the works to the satisfaction of the Minister, at which time the responsibility and control of the area will be transferred so as to minimise the Minister's ongoing responsibilities. It is currently anticipated that the transfers will be via a sales agreement pertaining to the reclaimed residential, tourist and commercial portions of the land, and undertakings by the Council to accept the groynes/breakwaters as reserve and the remaining area under long term lease.

7. The applicant's CEMMP and OEMMP should be prepared taking into consideration, and with explicit reference to, relevant EPA policies and guideline documents, including, but not limited to: the Environment Protection (Air Quality) Policy 1994, the Environment Protection (Water Quality) Policy 2003, the Occupational Health and Safety Regulations, EPA Guidelines on Odour Assessment, using odour source modelling 2003, EPA Handbook for Pollution Avoidance on Commercial and Residential Building Sites 2004, EPA Bunding and Spill Management Guidelines 2004 and the EPA Stormwater Pollution Prevention Codes of Practice, in addition to other legislative requirements and Guidelines/Australian Standards requiring compliance.

8. The following activities in relation to the components of the development hereby approved and/or requiring future approval will require licences under the Environment Protection Act 1993:

- Earthworks Drainage: the conduct of earthworks operations in the course of which more than 100 kilolitres of waste water containing suspended solids in a concentration exceeding 25 milligrams per litre is discharged directly or indirectly to marine waters or inland waters.
- Marinas and Boating Facilities: the conduct of -
 - (a) facilities comprising pontoons, jetties, piers or other structures (whether on water or land) designed or used to provide moorings or dry storage for 50 or more powered vessels at any one time; or
 - (b) works for the repair or maintenance of vessels with the capacity to handle five or more vessels at any one time or vessels 12 m or more in length.
- Dredging: removing solid matter from the bed of any marine waters by any digging or suction apparatus, but excluding works carried out for the establishment of a visual aid to navigation and any lawful fishing or recreational activity.

9. It is likely that as a condition of such licences the Environment Protection Authority will require the licensee to carry out specified environmental monitoring of water quality and to make reports of the results of such monitoring to it.

10. It is also likely that the Environment Protection Authority will require the identification to it of any vessels that visit the marina from international ports or from ports beyond Adelaide and the surrounding area, together with details of the routes travelled by such vessels (for the purpose of identifying the potential introduction of harmful marine species).

11. All works associated with the rehabilitation and remediation of the site must be undertaken in accordance with the General Environmental Duty as defined in Part 4, section 25 (1) of the Environment Protection Act 1993, the Environment Protection (Water Quality) Policy 2004, and other relevant Environment Protection Policies made under Part 5 of the Environment Protection Act 1993, the ANZECC Best Practice Guidelines for Waste Reception Facilities at Ports, Marinas and Boat Harbours in Australia and New Zealand, draft guideline Environmental Management of On-Site Remediation and other relevant EPA publications and guidelines.

12. The proponent is advised of the General Environmental Duty under Section 25 of the Environment Protection Act 1993, which requires that a person must not undertake any activity, which pollutes, or may pollute; without taking all reasonable and practical measures to prevent or minimise harm to the environment.

13. The management plan for acid sulphate soils should comply with Guidelines issued by the Coast Protection Board.

14. The applicant is reminded of its obligations under the Aboriginal Heritage Act 1988 whereby any "clearance" work, which may require permission to disturb damage or destroy Aboriginal Sites, must be undertaken with the full authorisation of the Minister for Aboriginal Affairs and Reconciliation, according to Section 23 of the Aboriginal Heritage Act 1988.

15. The applicant, and all agents, employees and contractors, such as construction crews, must be conversant with the provisions of the Aboriginal Heritage Act 1988, particularly the requirement to immediately contact the Department of Aboriginal Affairs and Reconciliation in the event that archaeological items (especially skeletal material) are uncovered during earthmoving.

16. The applicant, and Council after hand-over of infrastructure, must comply with the Public and Environmental Health Act 1987 in regard to the maintenance of suitable water quality within the marina basin (and any stormwater holding ponds) to protect public health and amenity.

17. The expression 'secondary contact recreation' includes activities such as wading, boating and fishing in which some human contact with the water may occur, but in which the probability of bodily immersion or the intake of significant amounts of water is minimal.

18. If foreign vessels are allowed to berth in the marina the proponent would need to consult with Transport SA (Marine Safety Section) to address any requirements of the Australian Quarantine Inspection Service (AQIS) and Australian Customs Service.

19. It is recommended that the applicant approach the Ceduna District Council with a view to the Council enacting of by-laws to manage activities associated with:

- the entrance channel and waterways to ensure safe navigation and to protect water quality
- the boat ramp, wash-down, slip-way and hardstand
- the refueling facility and marine toilet pump-out facility
- the residential development and reserves (including stormwater management devices)

20. The Ceduna District Council will need to review and amend the zoning and policies in the relevant Development Plan to reflect any development approved by the Governor and for future assessment and decision-making for buildings and structures not part of this development authorization.

21. Noise generated from the non-residential components of the development should not exceed:

- (a) 52 dB (A) between the hours of 7am and 10pm measured and adjusted at the nearest existing residential property in accordance with the Environment Protection (Industrial Noise) Policy 1994.
- (b) 45 dB (A) between the hours of 10pm and 7am measured and adjusted at the nearest existing residential property in accordance with the Environment Protection (Industrial Noise) Policy 1994.
- (c) a short term typical maximum noise level of 60 dB (A) when measured at the nearest existing residential property.

22. When preparing development plan policies for the marina site, the Ceduna District Council will need to adopt the following EPA recommended noise criteria for the design of buildings used for residential or tourist accommodation that are potentially affected by noise impacts from the Eyre Highway and railway:

- (a) internal noise levels ranging from 30-40dB (A) and 35-45dB (A) for bedrooms and living areas respectively
- (b) indoor noise levels between 30-45dB (A) for sleep disturbance

23. When preparing development plan policies for the marina site, the Ceduna District Council will need to consider the following design requirements for buildings used for residential or tourist accommodation that are affected by noise impacts from the Eyre Highway and railway:

- Use of separation, building orientation, sheds, continuous fencing and mounding to reduce noise levels outside of the residence.
- Locating noise sensitive spaces of the proposed residence away from the highway and railway (with the windows and openings directed away from the noise source) and less sensitive areas such as the kitchen, storage areas and laundry towards the noise source.
- Minimising the size and numbers of windows oriented towards the traffic noise source.
- Windows to noise sensitive spaces be closed during the night time.
- Replacing conventional pitched roof/eaves designs with flat roof / parapet designs.
- Using construction techniques that seal air gaps around doors and windows.
- Relocate conventional wall air vents to areas not facing the traffic noise source.
- Using solid core doors in conjunction with rubber seals and internal doors with rubber seals into habitable rooms to provide an “acoustic air lock” arrangement.
- Using thicker window glass or double-glazing to noise sensitive spaces, such as bedrooms.
- Providing alternative means of ventilation for rooms where elements such as windows in the dwelling facade are to be closed to provide a minimum acoustic performance.

24. Land division creating allotments extending into the water over the sea bed need to negotiate tenure arrangements with the Minister for Transport. Current policy is that Freehold Title would not be granted if the seabed is alienated. Leasing arrangements are the standard form of tenure for private moorings.

25. It is unlikely that a land division will be approved unless provision is made for a set back distance of two metres from the top of the edge treatments (for the construction of coastal protection works if required in the future).

26. A common building scheme encumbrance or equivalent device for the purpose of ensuring compliance with design standards for residential and other buildings will be required at the land division stage.

27. Binding legal arrangements (e.g. easements, encumbrances, charge-back arrangements etc. as appropriate) as between the proponent and allotment owners must be put in place, prior to application to the Registrar General for the issue of new Certificates of Title, to ensure financial and management responsibilities related to the maintenance of edge treatments, the design and appearance of structures and the installation of future coast protection works are clearly allocated. These arrangements must be to the reasonable satisfaction of the Development Assessment Commission.

28. A site audit report will be required to be completed by an Environmental Auditor (Contaminated Land) and submitted to the relevant planning authority, prior to the issue of Certificates of Title. The site audit report should be presented to purchasers of allotments.

29. The Minister has a specific power to require testing, monitoring and auditing under section 48C of the Development Act 1993.

Given under my hand at Adelaide, 31 January 2011.

T. BYRT, Presiding Member, Development
Assessment Commission

ENVIRONMENT PROTECTION ACT 1993

Approval of Category B Containers

I, ANDREA KAYE WOODS, Team Leader, Container Deposit Legislation and Delegate of the Environment Protection Authority ('the Authority'), pursuant to section 68 of the Environment Protection Act 1993 (SA) ('the Act') hereby:

Approval of Category B Containers:

Approve as Category B Containers, subject to the conditions in subclauses (1), (2), (3) and (4) below, each of the classes of containers identified by reference to the following matters described in the first 4 columns of Schedule 1 of this Notice which are sold in South Australia:

- (a) the product which each class of containers shall contain;
- (b) the size of the containers;
- (c) the type of containers; and
- (d) the name of the holders of these approvals.

- (1) That containers of the class to which the approval relates must bear the refund marking specified by the Authority for containers of that class.
- (2) The holder of the approval must have in place an effective and appropriate waste management arrangement in relation to containers of that class. For the purpose of this approval notice the company named in Column 5 of Schedule 1 of this Notice is the nominated super collector.
- (3) In the case of an approval in relation to Category B containers that the waste management arrangement must require the holder of the approval to provide specified super collectors with a declaration in the form determined by the Authority in relation to each sale of such containers by the holder of the approval as soon as practicable after the sale.
- (4) The holder of these approvals must ensure that if a sticker bearing the refund marking has been approved, and is applied to the container, then the sticker must not be placed on any portion of the opening mechanism or in any other place that would require complete or partial removal of the sticker before the contents may be consumed.

ENVIRONMENT PROTECTION ACT 1993

Revocation of Approval of Category B Containers

I, ANDREA KAYE WOODS, Delegate of the Environment Protection Authority ('the Authority'), pursuant to section 68 of the Environment Protection Act 1993 (SA) ('the Act') hereby revoke the approvals of the classes of Category B Containers sold in South Australia as identified by reference to the following matters, which are described in the first 4 columns of Schedule 1 of this Notice:

- (a) the product which each class of containers shall contain;
- (b) the size of the containers;
- (c) the type of containers; and
- (d) the name of the holders of these approvals.

These approvals are revoked as the Authority is satisfied that the waste management arrangement between the approval holder and the party named in column 5 of Schedule 1 of this Notice has been cancelled.

NOTICE BY THE MINISTER

*Declaration of Authorised Quality Improvement Activity
Under Section 64*

TAKE notice that I, John Hill, Minister for Health, pursuant to section 64 (1) (a) (i) do hereby:

DECLARE the Activities described in the Schedule to this declaration to be authorised quality improvement activities to which Part 7 of the Act applies,

being satisfied that:

- (a) the performance of the activities within the ambit of the declaration and the functions or activities of the person or group of persons within the ambit of the declaration, would be facilitated by the making of the declaration; and
- (b) that the making of the declaration is in the public interest.

Dated 23 December 2010.

JOHN HILL, Minister for Health

SCHEDULE

*Declaration of Authorised Quality Improvement Activity
Under Section 64**Activity*

Review and Analysis Phase of the Incident Management Module in the Safety Learning System.

FISHERIES MANAGEMENT ACT 2007: SECTION 115

TAKE notice that pursuant to section 115 of the Fisheries Management Act 2007, Andrew Fox of Dangerous Reef Pty Ltd, 73 Ninth Avenue, Joslin, S.A. 5070, (the 'exemption holders') are exempt from section 71 (2) of the Fisheries Management Act 2007 and Regulation 23 of the Fisheries Management (General) Regulations 2007, but only insofar as the exemption holders shall not be guilty of an offence when using blood, bone, meat, offal or skin of an animal as berley to attract White Sharks (*Carcharodon carcharias*) for the purpose of cage viewing in the waters described in Schedule 1 (the 'exempted activity'), subject to the conditions specified in Schedule 2, from 1 February 2011 until 31 January 2012, or unless this exemption is varied or revoked.

SCHEDULE 1

The waters of the Neptune Island Conservation Park.

SCHEDULE 2

1. The exemption holders or a nominated agent listed below must be on board the boat from which the exempted activity is undertaken. The nominated agents of the exemption holder are Jennifer Taylor, Peter Figl, Rodney Fox, Rachael Robbins, Ian Paterson and Aaron Whittle.

2. All passengers when receiving their instructions at their initial briefing must be provided with a 'Notice to Passengers' letter (attached).

3. All berley used while conducting the exempted activity must consist of fish based products only. All berley (other than fish oil) must be stored below a maximum temperature of 4 degrees Celsius.

4. The exemption holders or their agents must take all measures to avoid any berley or fish oil from being dispersed near or over the submerged viewing cages while divers are in the cage.

5. The exemption holders or their agents must not deliberately goad, provoke or encourage a White Shark in an attempt to change its normal behaviour by undertaking the exempted activity (including deliberately attempting to have the White Shark jump out of the water), and must not permit any person to touch a White Shark, unless this activity is required for research purposes.

6. When using bait as an attractant for the shark, the bait must be attached to a length of rope by natural fibre twine of no less than 30 cm in length.

7. The exemption holders or their agents must not intentionally feed sharks or reward sharks with food.

8. The exemption holders must notify PIRSA Fishwatch on 1800 065 522 at least 2 hours prior to conducting the exempted activity and answer a series of questions about the exempted activity. The exemption holders will need to have a copy of the exemption at the time of making the call, and be able to provide information about the area and time of the exempted activity, the vehicles and boats involved, the number of agents undertaking the exempted activity and other related questions. Your Exemption No. 9902419.

9. The exemption holders or their agents must allow an officer of the Department of Environment and Natural Resources (DENR), a PIRSA Fisheries Officer or another nominated person to be present on board the boat during the exempted activity if requested by the Executive Director, Fisheries and Aquaculture, subject to the availability of space.

10. The exemption holders or their agents must comply with all instructions (including ceasing to berley if so instructed) given by an officer from DENR or a PIRSA Fisheries Officer.

11. While engaged in the exempted activity, a pennant (approved by DENR) must be flown from the boat so as to be clearly visible.

12. The exemption holders must maintain a log for the period that this exemption notice is valid which includes the following information in relation to each trip on which the exempted activity is undertaken:

- date and location;
- number of passengers;
- number of hours berleying;
- number of sharks observed; and
- any other relevant observations or comments.

A copy of the log must be provided to the Port Lincoln office of DENR within 14 days of the end of each calendar month.

13. While engaged in the exempted activity the exemption holders or their agents must have in their possession a copy of this notice and produce a copy of the notice if required by a PIRSA Fisheries Officer.

14. The exemption holders or their agents must not contravene or fail to comply with the Fisheries Management Act 2007, or any Regulations made under the Act, except where specifically exempted by this notice.

INFORMATION FOR PASSENGERS

White Shark Cage Viewing In South Australia

Underwater cage viewing of White Sharks is a unique and special experience.

A limited number of operators are granted special permission by the South Australian Government to conduct White Shark cage viewing tours in our coastal waters.

Operators are committed to conducting tours in a manner that ensures the maintenance of public safety and the conservation of our valuable marine species and environment. They also provide valuable assistance with research into White Sharks.

White Sharks are classified internationally as a threatened species and are protected under both State and Commonwealth law in Australia. Operators and tourists alike are legally obliged to not harm or interfere with White Sharks in any way.

Berleying to attract White Sharks is prohibited in South Australian waters. White Shark cage viewing operators have been provided an exemption to attract sharks by berleying or chumming under controlled situations.

Permission to berley has only been granted for the remote waters of the Neptune Islands Conservation Park, an area of environmental significance. Operators are not permitted to berley and conduct their cage viewing operations in other areas, such as popular swimming and fishing areas and significant sea lion colonies.

Tour operators will undoubtedly go to great lengths to provide you with the best possible experience and photographic opportunities while viewing White Sharks. However, in doing so, they must also ensure that they act responsibly and according to Government guidelines. Operators will take care at all times not to cause injury or unnecessary stress to sharks by goading or provoking the sharks to encourage abnormal behaviour, to lure sharks out of the water in pursuit of any bait, towed decoys or attractants.

A concern about the cage diving activities is that through berleying and baiting activities, the sharks learn to associate humans and boats with food. Preliminary research conducted into White Shark behaviour suggests that they could possibly be conditioned to associate objects with food but the likelihood of conditioning occurring depends on a complex interplay of factors.

Operating protocols have been developed to minimise the potential for sharks learning to associate humans and boats with food. These are provided in Schedule 2 of the attached Ministerial exemption approved for the operator.

If you believe that White Shark cage viewing operators are not abiding by these conditions, you should report this by phoning PIRSA Fishwatch on 1800 065 522 or the Executive Director Fisheries and Aquaculture on (08) 8226 3994.

Dated 1 February 2011.

NATIONAL GAS LAW

THE Australian Energy Market Commission (AEMC) gives notice under the National Gas Law of the following matter.

Under section 303, AEMO has requested the *Calculation of STTM Participant Compensation Fund Contributions* Rule proposal (Project Ref. GRC0006). The proposal seeks to change the way that STTM Shippers' Participant Compensation Fund contributions are calculated such that these calculations exclude Market Operator Services (MOS) and overrun MOS. The AEMC intends to expedite the Rule proposal under section 304 on the grounds that it considers the proposed Rule is non-controversial, subject to the receipt of written objections.

In relation to the proposal:

- written objections must be received by **17 February 2011**;
- submissions must be received by **3 March 2011**; and
- written objections and submissions may be forwarded to submissions@aemc.gov.au and must cite the Project Ref. in its title.

Objections and submissions on this proposal can be forwarded to submissions@aemc.gov.au and must cite the Project Ref. in its title, or can be lodged online via the AEMC's website at www.aemc.gov.au. Before submitting your objection or submission, you must review the AEMC's privacy collection statement on its website.

Submissions should be submitted in accordance with the *AEMC's Guidelines for making written submissions on Rule change proposals*. The AEMC publishes all submissions on its website subject to a claim of confidentiality.

All documents in relation to the above matter are published on the AEMC's website and are available for inspection at the offices of the AEMC.

DEVELOPMENT ACT 1993

*Better Development Plan—Development Plan Amendment—
Public Consultation*

NOTICE is hereby given that the City of Tea Tree Gully, pursuant to sections 24 and 25 of the Development Act 1993, has prepared a Draft Development Plan Amendment Report (DPA) to amend its Development Plan.

The Amendment will change the Development Plan by proposing to: convert and update Council's existing Development Plan into the Better Development Plan format, increase the Development Plan's consistency, avoid policy repetition, ambiguity and conflict and correct anomalies in the existing Development Plan.

The Development Plan Amendment report will be on public consultation from 3 February 2011 until 1 April 2011.

Copies of the DPA report are available during normal office hours at City of Tea Tree Gully Civic Centre, 571 Montague Road, Modbury. Alternatively the DPA report can be viewed on the Internet at: www.teatreegully.sa.gov.au or during normal office hours at the following locations:

- The City of Tea Tree Gully Library, 571 Montague Road, Modbury.
- The Golden Grove Recreation & Arts Centre, The Golden Way, Golden Grove.

Written submissions regarding the DPA should be submitted no later than 5 p.m. on 1 April 2011. All submissions should be addressed to: Di Rogowski, Chief Executive Officer, City of Tea Tree Gully, P.O. Box 571, Modbury, S.A. 5092 and should clearly indicate whether you wish to be heard in support of your submission at the public meeting. If you wish to lodge your submission electronically, please email it with 'Better Development Plan DPA submission' in the subject header.

Copies of all submissions will be available for inspection at The City of Tea Tree Gully Civic Centre, 571 Montague Road, Modbury, S.A. 5092 from 4 April 2011 until the conclusion of the public meeting.

A public meeting will be held on 10 May 2011 at 7 p.m. at the City of Tea Tree Gully Library, 571 Montague Road, Modbury at which time interested persons may be heard in relation to the DPA and the submissions. The public meeting will not be held if no submissions are received or if no submission makes a request to be heard.

If you would like further information about the DPA, contact Shari Fielke, Strategic Planner, telephone 8397 7300 or email shari.fielke@cttg.sa.gov.au

Dated 3 February 2011.
