DEVELOPMENT ACT 1993, SECTION 27 (5): CORPORATION OF THE TOWN OF WALKERVILLE—BETTER DEVELOPMENT PLAN GENERAL AND RESIDENTIAL ZONES DEVELOPMENT PLAN AMENDMENT

*Preamble*

PURSUANT to Section 27 (3) (b) of the Development Act 1993, the Environment, Resources and Development Committee of Parliament has suggested amendments to the Walkerville Council Development Plan, after receipt of the Better Development Plan General and Residential Zones Development Plan Amendment.

After considering the suggested amendments, pursuant to Section 27 (5) (a), I, John Rau, being the Minister administering the Act, am proceeding to make such amendments to the Walkerville Council Development Plan dated 4 November 2010.

NOTICE

PURSUANT to Section 27 (5) of the Development Act 1993, I, John Rau, being the Minister administering the Act, amend the Walkerville Council Development Plan dated 4 November 2010 as follows:

1. Replacement of the text in brackets in the second sentence of the first paragraph of the Desired Character of Gilberton Medium Density Policy Area 7 with the following:

*(the Adelaide Clinic Land being Allotments 131-134 FP16865 CTs 5950/503, 5950/504, 5950/502, 5950/501).*

2. Insertion of the word 'predominantly' before the words 'residential flat buildings' at the end of the second sentence of the first paragraph of the Desired Character of Gilberton Medium Density Policy Area 7.
3. The addition of the following sentence to the end of the first paragraph of the Desired Character of Gilberton Medium Density Policy Area 7:

*Small-scale, non-residential land uses such as convenience shops, restaurants and consulting rooms may also be developed at the lower levels of buildings greater than four storeys in height on the land south of the Adelaide Clinic.*

4. Removal of the words 'and Walkerville Terrace' from the first sentence of the second paragraph of the Desired Character for Gilberton Medium Density Policy Area 7.
5. Replacement of the first two sentences of the third paragraph of the Desired Character for Gilberton Medium Density Policy Area 7 with the following paragraphs:

*In order to significantly increase the resident population closest to the Adelaide CBD, and given the separation of the land from parts of the Council area where a desirable low-scale character is already established, buildings in the order of ten storeys will be developed on land to the south of the Adelaide Clinic. In other parts of this policy area south of Rose Street, building heights will be four storeys, except at the interface with **Gilberton South Policy Area 13** where building heights will be two storeys.*

*The depth of multi-storey buildings will promote a high level of residential amenity by creating opportunity for dual aspects from dwellings, and by facilitating natural ventilation and access to sunlight. Buildings will be sufficiently separated to provide visual interest, views between built form that provide visual and physical links to surrounding areas, and useable areas of communal open space, particularly along the River Torrens Linear Park frontage. Separation between buildings will also provide visual and acoustic privacy, as well as adequate sunlight to dwellings.*

6. Begin the existing third sentence of the third paragraph of the Desired Character for Gilberton Medium Density Policy Area 7 as a new paragraph.
7. Replacement of the word 'front' with the word 'adjoin' and removal of the words 'be oriented towards the river to' in the first sentence of the final paragraph of the Desired Character for Gilberton Medium Density Policy Area 7.
8. Insertion of a comma between the word 'space' and the word 'while' in the first sentence of the final paragraph of the Desired Character for Gilberton Medium Density Policy Area 7.

9. Insertion of a comma between the word 'driveways' and the word 'and' in the second sentence of the final paragraph of the Desired Character for Gilberton Medium Density Policy Area 7.

10. Replacement of the words 'undercroft or basement parking' at the end of the second sentence of the final paragraph of the Desired Character for Gilberton Medium Density Policy Area 7 with the following:

*the provision of basement and/or deck car-parks which are integrated into the design of buildings.*

11. Insertion of the following between 'semi-detached dwelling' and 'supported accommodation' in PDC 1 of Gilberton Medium Density Policy Area 7:

- *small scale non-residential uses in association with residential flat buildings such as:*  
*restaurants*  
*consulting rooms*  
*convenience shops.*

12. Replacement of the word 'Dwellings' at the beginning of PDC 3 and PDC 6 and replacement of the words 'A dwelling' at the beginning of PDC 5 with the words 'Residential development' in the Gilberton Medium Density Policy Area 7.

13. Insertion of new PDC 11 after PDC 10 in Gilberton Medium Density Policy Area 7 as follows:

*Residential development of more than four storeys in height (above natural ground level) should:*

- (a) *incorporate parking facilities either at basement level or within a deck structure which is not visible from Park Terrace or the River Torrens Linear Park and which is integrated into the overall design of the building;*
- (b) *provide a legible network of internal roads/driveways which create a low-speed, pedestrian-friendly environment through the use of design elements such as narrow carriageway widths, landscaping/vegetation, bollards, and varied surface materials/levels.*

14. Insertion of the following text after the word 'Park' at the end of existing PDC 12 in Gilberton Medium Density Policy Area 7:

*through the incorporation of clearly defined entrances at ground level and the inclusion of small-scale, non-residential land-uses such as shops, restaurants/cafes, offices and/or consulting rooms.*

15. Insertion of the following text into the exceptions column of the non-complying list of the Residential Zone in regard to 'Restaurants', 'Shop or group of shops' and 'Shop and dwelling':

*'Except where the development is located on land on Park Terrace identified as Allotment 136 FP 16866, CT 5461/379 and Allotments 237 DP 20643 CT 5114/955 and 238 DP 20643, CT 5114/927 within the **Gilberton Medium Density Policy Area 7** and the gross leasable area does not exceed 200m<sup>2</sup>'.*

16. Replacement of the words 'Any building within' with the words 'Development envisaged in' at the bottom of the Category 2 column of the Public Notification section of the Residential Zone.

17. Renumbering of existing PDCs 11, 12 and 13 as PDCs 12, 13 and 14 respectively.

18. Fix the day on which this notice is published in the *Gazette* as the day on which the section 27 (5) amendment will come into operation.

Dated 30 June 2011.

JOHN RAU, Deputy Premier, Minister for Urban Development, Planning and the City of Adelaide

## DEVELOPMENT ACT 1993: SECTION 48

*Decision by the Development Assessment Commission under  
Delegation from the Governor**Preamble*

1. On 31 March 2005, the Minister for Urban Development and Planning, being of the opinion that a proposed development of a marina and residential development at Mannum ('the development') was a development of major environmental, social or economic importance, directed the proponent to prepare an Environmental Impact Statement pursuant to Section 46 of the Development Act 1993.

2. On 6 June 2007 an Environmental Impact Statement for the development was published in accordance with Section 46 of the Development Act 1993. Subsequently, the Minister prepared an Assessment Report in accordance with Section 46 of the Development Act 1993.

3. On 30 October 2008, the Governor gave notice in the *Government Gazette* that pursuant to Section 48 of the Development Act 1993, a provisional development authorisation was granted to the development subject to reserved matters and conditions specified in that notice.

6. An application for variations to the layout plan related to the need for an additional stormwater detention basin east of Belvidere Road; replacement of a road bridge with a pedestrian/cycle bridge; and associated modifications to the design of the residential waterway, residential allotments and roads has been under consideration by the Development Assessment Commission, as delegate of the Governor, under Division 2 of Part 4 of the Development Act 1993.

7. The proposed variations to the development are contained in the letter from Tallwood Pty Ltd to the Department of Planning and Local Government dated 28 March 2011 and email from Tallwood Pty Ltd to the Department of Planning and Local Government dated 14 June 2011.

The proponent must obtain a Building Rules assessment and certification from either the Mid-Murray Council or a private certifier (at the proponent's option) and forward to the Development Assessment Commission all relevant certification documents as outlined in Regulation 64 of the Development Regulations 2008.

Pursuant to Development Regulation 64, the proponent is especially advised that the Mid-Murray Council or private certifier conducting a Building Rules assessment must:

- provide to the Minister for urban Development and Planning a certification in the form set out in Schedule 12A of the Development Regulations 2008, in relation to the building works in question; and
- to the extent that may be relevant and appropriate:
  - (i) issue a Schedule of Essential Safety Provisions under Division 4 of Part 12; and

- (ii) assign a classification of the building under these regulations; and
- (iii) ensure that the appropriate levy has been paid under the Construction Industry Training Fund 1993.

Regulation 64 of the Development Regulations 2008, provides further information about the type and quantity of all Building Rules certification documentation for Major Developments required for referral to the Minister for Urban Development & Planning. The Mid-Murray Council or private certifier undertaking Building Rules assessments must ensure that the assessment and certification are consistent with this provisional development authorisation (including its Conditions and Notes).

2. Should the proponent wish to vary the Major Development or any of the components of the Major Development, an application may be submitted, provided that the development application variation remains within the ambit of the Environmental Impact Statement and Assessment Report referred to in this provisional development authorisation. If an application for variation involves substantial changes to the proposal, it will be processed pursuant to Section 47 (2) (b) of the Development Act 1993.

3. The proponent is advised that a suitable water licence and water allocation would need to be secured under the Natural Resources Management Act 2004, for the initial filling of the marina basin, waterways and the constructed anabranch/wetland system and for the on-going maintenance of water levels.

4. The following activities in relation to the components of the development hereby approved and/or requiring future approval will require licences under the Environment Protection Act 1993:

- Earthworks Drainage: the conduct of earthworks operations in the course of which more than 100 kilolitres of waste water containing suspended solids in a concentration exceeding 25 milligrams per litre is discharged directly or indirectly to marine waters or inland waters.
- Marinas and Boating Facilities: the conduct of:
  - (a) facilities comprising pontoons, jetties, piers or other structures (whether on water or land) designed or used to provide moorings or dry storage for 50 or more powered vessels at any one time; or
  - (b) works for the repair or maintenance of vessels with the capacity to handle five or more vessels at any one time or vessels 12 m or more in length.
- Dredging: removing solid matter from the bed or any marine waters by any digging or suction apparatus, but excluding works carried out for the establishment of a visual aid to navigation and any lawful fishing or recreational activity.

It is likely that as a condition of such licences the Environment Protection Authority will require the licensee to carry out specified environmental monitoring of water quality and to make reports of the results of such monitoring to it.

5. All works associated with the rehabilitation and remediation of the site are required by law to be undertaken in accordance with Section 25 (1) of the Environment Protection Act 1993 which requires that a person must not undertake any activity, which pollutes, or may pollute without taking all reasonable and practical measures to prevent or minimise harm to the environment; the Environment Protection (Water Quality) Policy 2003; other relevant Environment Protection Policies made under Part 5 of the Environment Protection Act 1993. Works should also be undertaken in accordance with the ANZECC Best Practice Guidelines for Waste Reception Facilities at Ports, Marinas and Boat Harbours in Australia and New Zealand, guideline Environmental Management of On-Site Remediation and other relevant Environment Protection and Authorisation publications and guidelines.

6. The proponent is advised of the Duty of Care under the River Murray Act 2003, which requires that a person shall ensure that their actions do not cause harm to the River Murray.

7. The proponent is advised of the requirement under the Native Vegetation Act 1991, to obtain permission under that Act for any clearance of native vegetation or otherwise to bring itself within an exemption under that Act. Neither this development authorisation nor any final development authorisation granted under Section 48(2) (b) (i) of the Development Act 1993, operates as an authorisation to clear native vegetation.

8. The proponent is reminded of its obligations under the Aboriginal Heritage Act 1988, whereby any 'clearance' work, which may require permission to disturb damage or destroy Aboriginal Sites, must be undertaken with the full authorisation of the Minister for Aboriginal Affairs and Reconciliation, according to Section 23 of the Aboriginal Heritage Act 1988.

9. The proponent, and all agents, employees and contractors, such as construction crews, should be conversant with the provisions of the Aboriginal Heritage Act 1988, particularly the requirement to immediately contact the Department of Premier and Cabinet (Aboriginal Affairs and Reconciliation) in the event that archaeological items (especially skeletal material) are uncovered during earthmoving.

10. The proponent, and the Council after hand-over, should comply with the Public and Environmental Health Act 1987, in regard to the maintenance of suitable water quality within the marina basin, residential waterways, stormwater retention ponds and the constructed anabranch/wetland system to protect public health and amenity.

11. For the purposes of Condition 31, it is noted that the expression 'secondary contact recreation' includes activities such as wading, boating and fishing in which some human contact with the water may occur, but in which the probability of bodily immersion or the intake of significant amounts of water is minimal.

12. It is recommended that the proponent approach the Mid-Murray District Council with a view to the Council enacting by-laws to manage activities associated with the:

- Entrance channel and waterways to ensure safe navigation and to protect water quality.
- Boat ramp, boat lift and boat maintenance facilities (including car parking and access).
- Refuelling facility and boat effluent/greywater pump-out connection points.
- Residential development and reserves (including stormwater management devices and the pedestrian bridge)
- Constructed anabranch/wetland system.
- Crown land reserve along the river bank and associated wetlands and buffer zones.

13. The Mid Murray Council will need to review and amend the zoning policies in the relevant Development Plan to reflect any development approved by the Governor and for future assessment and decision-making for buildings and structures not forming part of this provisional development authorisation. In particular, policies will need to address sustainability matters (especially water and energy efficiency), environmental protection requirements, flood protection requirements and amenity aspects.

14. A common building scheme encumbrance or equivalent device for the purpose of ensuring compliance with design standards for residential and other buildings will be required at the land division stage.

15. Binding legal arrangements (e.g. easements, encumbrances, charge-back arrangements etc, as appropriate) between the proponent and allotment owners must be put in place, prior to application to the Registrar General for the issue of new Certificates of Title, to ensure financial and management responsibilities related to the maintenance of edge treatments, the maintenance of the riparian buffer strip and the design and appearance of structures are clearly allocated. These arrangements must be to the reasonable satisfaction of the Development Assessment Commission.

16. The proponent will need to satisfy the requirements of the Mid Murray Council relating to the provision of 12.5% Open Space as part of any land division application.

17. The Marina Owner's Charter and House Owner's Charter documents should be finalised to the satisfaction of Planning SA, prior to application to the Registrar General for the issue of new Certificates of Title. The relevant Charters should be presented to purchasers of marina berths or allotments.

18. Approvals from the Environment Protection Authority and the Department of Health would need to be sought for the Waste Water Treatment Plant and the use of reclaimed water for irrigation purposes. An Environmental Management Plan for Wastewater and an Irrigation Plan would be required.

19. The Minister has a specific power to require testing, monitoring and auditing under Section 48C of the Development Act 1993.

20. It is noted that the provisional development authorisation granted herein does not apply to any residential, commercial, retail, tourist-related or other buildings, for which a separate application for approval, addressed to Council, will be required. Additional design and infrastructure/service plans will be required by Council when application is made for approval for any such buildings.

Given under my hand at Adelaide, 30 June 2011.

B. DOUFLIAS, Deputy Presiding Member,  
Development Assessment Commission

## MINING ACT 1971

*Notice by the Minister*

NOTICE is hereby given in accordance with Section 70B (8) of the Mining Act 1971 and Regulation 66 (1) of the Mining Regulations 2011, determining and adopting a program; Generic Program for Environment Protection and Rehabilitation—Low Impact Mineral Exploration in South Australia.

## GENERIC PROGRAM FOR ENVIRONMENT PROTECTION AND REHABILITATION—LOW IMPACT MINERAL EXPLORATION IN SOUTH AUSTRALIA

This Generic Program for Environment Protection and Rehabilitation—Low Impact Mineral Exploration in South Australia (Generic PEPR) identifies the potential impacts, outcomes and measurement criteria developed by PIRSA that must be adopted by explorers when undertaking low impact exploration activities in South Australia.

This Generic PEPR will apply to all exploration activities not requiring separate approval under the Mining Act 1971 (Mining Act) or conditions of the Exploration Licence. A separate PEPR must be submitted for approval prior to conducting any exploration activities (including Low impact) on Retention Leases, Mineral Claims and Mining Leases.

It is intended that this Generic PEPR will formalise the minimum standards required for serving of statutory notices and the conduct of low impact exploration activities which, in the past have not required approval and have been governed by industry standards outlined in PIRSA guidelines.

## PART A: SCOPE

*Environment*

Within certain locations or sensitive environments low impact exploration activities may require separate approval. Any such approval requirements will be identified under conditions of the Exploration Licence. In these cases, this Generic PEPR will not apply for low impact exploration activities (for examples of these areas refer to the PIRSA Information Sheet titled Guidance Notes - Program for Environment Protection and Rehabilitation for Low Impact Mineral Exploration in South Australia).

*Activities*

Where no special approval under Licence conditions is required (as per above), the following activities **are covered** within the scope of this Generic PEPR:

- Reconnaissance.
- Cultural clearance surveys.
- Soil sampling.
- Geological mapping.
- Geochemical surveys—surface sampling.
- All geophysical surveys, excluding seismic.
- Biochemical sampling.
- Rock-chip sampling.
- Sampling using hand held augers.
- Fly camps comprising tents or swags for short periods of time (days).
- Small, short term camp sites defined as:
  - Having a maximum of 5 people.
  - Required for a maximum time period of one month.
  - Equipment limited to a maximum of two caravans, tents and generators.
  - Associated 4WD vehicles, helicopters, ATVs and/or Quad bikes.
  - Low impact exploration equipment.
- Use of 4WD vehicles off existing tracks required to conduct the above listed activities.

Exploration activities **not covered** within this Generic PEPR include:

- All activities requiring the use of Declared Equipment. This includes drilling equipment defined under the Mining Act as 'any mechanically driven machinery capable of drilling to depths greater than 2.5 metres below the ground' in order to recover subsurface geological samples or information.
- Costeans and trenches.
- Any type of seismic survey.
- Any camp site outside of the scope documented above.
- Airborne surveys—separate notification to PIRSA is required in accordance with EL conditions.

Exploration activities not covered in the Generic PEPR will require a separate PEPR to be approved by the Minister (or delegate) pursuant to Part 10A of the Mining Act.

From 1 July 2011 a three year transition period will apply to all exploration licences where PEPRs for exploration activities (excluding low impact) may continue to be submitted in the format of an Exploration Work Approval (EWA) or Declaration of Environmental Factors (DEF). In effect, a EWA or DEF will be deemed a PEPR until the end of the three year transition period, or unless otherwise determined by the Minister.

Government of South Australia  
Primary Industries and Resources SA

**NOTICE OF ENTRY ON LAND****APPENDIX A: FURTHER INFORMATION FOR THE OWNER OF LAND**

② The following information is provided as a guide only. You may wish to seek further advice on this notice.

**Glossary of terms used in this document**

- The Act** – the current version of the *Mining Act 1971*
- Mining operator** – the party who served the notice to you. They may already hold, or be applying for, a mining tenement under the Act (including exploration licence or mineral claim)
- Mining operations** – any operations carried out in the course of prospecting, exploring or mining for minerals
- Owner of Land** – see Section A of this form for a definition

**Purpose of this form**

You have received Form 21 (Notice of Entry) because the mining intends to enter your land to undertake the mining operations described in Section D of the notice.

The notice is intended to provide you with sufficient information about the proposed mining operations, to ensure that you as the owner of land can make informed decisions regarding entry on land.

After receiving this notice, you have a number of options-

- If you are agreeable to the mining operations described on the notice, no action is required. The mining operator must wait 21 days after the date of service before entering your land. Retain this notice for your records.
- If you require further information about the mining operations, contact the mining operator via the person named in Section B to discuss this notice.
- You may negotiate specific conditions to entry on the land (such as the timing or location of mining operations) by entering into an agreement with the mining operator.
- Some owners of land may have the right to object to entry on the land under section 58A of the Act (see 'Rights of objection' below).
- If you feel that the mining operations may cause you loss, hardship or inconvenience, you may be entitled to seek compensation from the mining operator under section 61 of the Act (see 'Rights of compensation' below).

Some land is exempt from mining operations under section 9 of the Act (see 'Land exempt from mining operations' and 'Waiver of exemption' below).

**Rights of objection – holders of exclusive possession of the land**

If you hold the land under freehold title, or hold a native title determination that provides exclusive possession, you have the right to object to entry on the land under section 58A of the Act, by lodging a notice of objection.

Within 3 months after service of the notice of entry, you may lodge a notice of objection with the Warden's Court, the Environment, Resources and Development (ERD) Court or the Supreme Court objecting-

- to entry on the land by the mining operator; or
- to the use, or the unconditional use, of the land, or a portion of the land, for mining operations.

Further information about lodging an objection is available from the relevant court.

If the court is satisfied that the conduct of the mining operations on the land would be likely to result in substantial hardship or substantial damage to the land, the court may-

- determine that the land, or a particular part of the land, should not be used by the mining operator for the purpose of mining operations; or
- determine conditions on which operations may be carried out on the land by the mining operator with least detriment to the interest of the owner and least damage to the land.

**Rights of compensation**

Under section 61 of the Act, as the owner of land (including a pastoral lease holder) you may have the right to compensation for any economic loss, hardship and inconvenience suffered as a result of mining operations.

In determining the compensation payable, the following matters are considered:

- any damage caused to the land by the mining operator; and
- any loss of productivity or profits as a result of the mining operations; and
- any other relevant matters.

The compensation may include an additional component to cover costs reasonably incurred by the owner of land in connection with negotiations or dispute related to –

- the licensee gaining access to the land
- the activities to be carried out on the land
- the compensation to be paid

The compensation can be negotiated between the owner of land and the mining operator, or determined by the appropriate court (upon application by the owner of land or the mining operator).

In determining compensation, the court will take the rehabilitation of the land into consideration. The court may order a mining operator to carry out any work to rehabilitate the land that the court thinks fit.

In assessing compensation for costs in connection with any negotiation or dispute, the court will not consider costs that arise during a period where a reasonable offer of compensation is open to the owner of land.

#### Land exempt from mining operations

Under section 9 of the Act the following land is exempt from mining operations-

- (a) land that is lawfully and genuinely used –
  - (i) as a yard, garden, cultivated field, plantation, orchard or vineyard;
  - (ii) as an airfield, railway or tramway;
  - (iii) as the grounds of a church, chapel, school, hospital or institution; or
- (b) land that constitutes any parklands or recreation grounds under the control of a council; or
- (ba) land –
  - (i) that is dedicated or reserved, pursuant to statute, for the purpose of waterworks; or
  - (ii) that is vested in the Minister of Public Works for the purpose of waterworks; or
  - (iii) that is comprised within an easement in favour of the Minister of Public Works;
 or
- (bb) land that constitutes a forest reserve under the Forestry Act 1950; or
- (c) any separate parcel of land of less than 2 000 square metres within any city, town or township; or
- (d) land that is situated –
  - (i) within 400 metres of a building or structure used as a place of residence (except a building or structure of a class excluded by regulation from the ambit of this paragraph); or
  - (ii) within 150 metres of –
    - (A) a building or structure, with a value of \$200 or more, used for an industrial or commercial purpose; or
    - (B) a spring, well, reservoir or dam,

The land is not exempt land if a mining tenement (claim, lease or licence) is pegged or granted before the land falls into one of the above categories. For example, land will not be classed as exempt land if a dwelling or structure is built after a mining tenement is pegged or granted.

In regard to the holder of the benefit of the exemption, the following persons shall be regarded as the 'benefit holder':

- (a) The owner of the exempt land; and
- (b) The owner of nearby land that is exempt land by reason of its proximity to the mining operations.

#### Waiver of exemption

The benefit of an exemption under the Act may be waived by written agreement between the mining operator and the benefit holder, or by an ERD Court order if an agreement cannot be reached.

Mining operations cannot commence until after the exemption has been waived (through an agreement or court order), however the mining operator may enter the land and/or peg a claim before the exemption has been waived.

To initiate the negotiation process, the mining operator requests that the benefit holder enters into an agreement, by serving Form 23A (Waiver of Exemption - Request) on those persons. Further information is available on that form.

1.7.2011—Mining Act 1971  
Entry upon land, compensation and restoration—Part 9

## Part 9—Entry upon land, compensation and restoration

### 57—Entry on land

Subject to this Part, a person authorised to prospect, explore or mine for minerals under this Act—

- (a) may enter any mineral land (except exempt land) for the purpose of prospecting, exploring or mining for minerals in accordance with the authorisation; and
- (b) may enter exempt land for the purpose of pegging out or otherwise identifying a claim.

### 58—How entry on land may be authorised

A mining operator may enter land to carry out mining operations on the land—

- (a) if the mining operator has an agreement<sup>1</sup> with the owner of the land authorising the mining operator to enter the land to carry out mining operations on the land; or
- (b) if the mining operator is authorised by a native title mining determination to enter the land to carry out mining operations on the land; or
- (ba) if the mining operator is authorised by an indigenous land use agreement registered under the *Native Title Act 1993* (Cwth) to enter the land to carry out mining operations on the land; or
- (c) if—
  - (i) the mining operator has given the prescribed notice of entry; and
  - (ii) the mining operations will not affect native title in the land; and
  - (iii) the mining operator complies with any determination made on objection to entry on the land, or the use or unconditional use of the land, or portion of the land, for mining operations;<sup>2</sup> or
- (d) if the land to be entered is in a precious stones field and the mining operations will not affect native title in the land; or
- (e) if the mining operator enters the land to continue mining operations that had been lawfully commenced on the land before the commencement of this section.

#### Explanatory note—

A mining operator's right to enter land to carry out mining operations on the land is contingent on the operator holding the relevant mining tenement.

#### Notes—

- 1 If the land is native title land, the agreement is to be negotiated under Part 9B.
- 2 See section 58A(5).

Ⓜ The following information is provided as a guide only. You may wish to seek further advice on this matter.

**Glossary of terms used in this document**

- The Act** – the current version of the *Mining Act 1971*  
**Declared equipment** – see Section B of this form for a definition  
**Mining operator** – the proponent who served the notice to you. They may already hold, or be applying for, a tenement (including exploration licence or mineral claim)  
**Mining operations** – any operations carried out in the course of prospecting, exploring or mining for minerals  
**Owner of Land** – see Section A of this form for a definition

**Purpose of this form**

You have received Form 22 (Notice of Use of Declared Equipment) because the mining operator intends to use equipment on your land that is classed as *declared equipment* under the Act.

The notice is intended to provide you with sufficient information about the proposed use of declared equipment, to ensure that you as the owner of land can make informed decisions about operations conducted on your land.

After receiving this notice, you have a number of options–

- If you are agreeable to the use of declared equipment described on the notice, no action is required. The mining operator must wait 21 days after the date of service before using the equipment. Retain this notice for your records.
- If you require further information about the use of declared equipment, contact the mining operator via the person named in Section B to discuss this notice.
- You may negotiate specific conditions to the use of declared equipment (such as the timing or location of use) by entering into an agreement with the mining operator.
- Some owners of land may have the right to object to use of declared equipment under section 59 of the Act (see 'Rights of objection' below).
- If you feel that the use of declared equipment may cause you loss, hardship or damage to land, you may be entitled to seek compensation from the mining operator under section 61 of the Act (see 'Rights of compensation' below).

**Rights of objection – all owners of land**

You as the owner of land (including the holder of a pastoral lease, or a licence under the *Petroleum and Geothermal Energy Act 2000*) have the right to object to the use of declared equipment on the land under section 59 of the Act, by lodging a notice of objection.

You must establish to the court that the use of declared equipment on the land would be likely to result in substantial hardship or substantial damage to the land.

Within 3 months after service of the notice, you may lodge a notice of objection with the Warden's Court objecting–

- to the use of declared equipment by the mining operator; or
- to the unconditional use of declared equipment by the mining operator.

Further information about lodging an objection is available from the Warden's Court.

If the court is satisfied that the use of declared equipment on the land would be likely to result in substantial hardship or substantial damage to the land, the court may–

- determine that declared equipment should not be used by the mining operator in the course of mining operations; or
- determine conditions upon which declared equipment may be used on the land by the mining operator with least detriment to the interest of the owner and least damage to the land.

**Rights of compensation**

Under section 61 of the Act, as the owner of land (including a pastoral lease holder) you may have the right to compensation for any economic loss, hardship and inconvenience suffered as a result of mining operations.

In determining the compensation payable, the following matters are considered:

- any damage caused to the land by the mining operator; and
- any loss of productivity or profits as a result of the mining operations; and
- any other relevant matters.

The compensation may include an additional component to cover costs reasonably incurred by the owner of land in connection with negotiations or dispute related to –

- the licensee gaining access to the land
- the activities to be carried out on the land
- the compensation to be paid

The compensation can be negotiated between the owner of land and the mining operator, or determined by the appropriate court (upon application by the owner of land or the mining operator).

In determining compensation, the court will take the rehabilitation of the land into consideration. The court may order a mining operator to carry out any work to rehabilitate the land that the court thinks fit.

In assessing compensation for costs in connection with any negotiation or dispute, the court will not consider costs that arise during a period where a reasonable offer of compensation is open to the owner of land.

**WAIVER OF EXEMPTION - REQUEST****APPENDIX A: FURTHER INFORMATION FOR THE OWNER OF LAND**

② The following information is provided as a guide only. You may wish to seek further advice on this notice.

**Glossary of terms used in this document**

|                            |   |
|----------------------------|---|
| <b>The Act –</b>           | the <i>Mining Act 1971</i>  |
| <b>Mining operator –</b>   | the party who served the notice to you. They may already hold, or be applying for, a mining tenement under the Act (including exploration licence or mineral claim) |
| <b>Mining operations –</b> | any operations carried out in the course of prospecting, exploring or mining for minerals   |
| <b>Owner of land –</b>     | see Section A of this form for a definition   |
| <b>Benefit holder –</b>    | the owner of the exempt land, or the owner of nearby land that is exempt land by reason of its proximity to the mining operations                                   |

**Purpose of this form**

You have received Form 23A (Waiver of Exemption – Request) because the mining operator is requesting that you enter into an agreement to allow mining operations on your land, and your land is considered to be 'exempt land'.

**Exempt land**

Under section 9 of the Act the following land is exempt from mining operations-

- (a) land that is lawfully and genuinely used –
  - (i) as a yard, garden, cultivated field, plantation, orchard or vineyard;
  - (ii) as an airfield, railway or tramway;
  - (iii) as the grounds of a church, chapel, school, hospital or institution; or
- (b) land that constitutes any parklands or recreation grounds under the control of a council; or
- (ba) land –
  - (i) that is dedicated or reserved, pursuant to statute, for the purpose of waterworks; or
  - (ii) that is vested in the Minister of Public Works for the purpose of waterworks; or
  - (iii) that is comprised within an easement in favour of the Minister of Public Works;
 or
- (bb) land that constitutes a forest reserve under the Forestry Act 1950; or
- (c) any separate parcel of land of less than 2 000 square metres within any city, town or township; or
- (d) land that is situated –
  - (i) within 400 metres of a building or structure used as a place of residence (except a building or structure of a class excluded by regulation from the ambit of this paragraph); or
  - (ii) within 150 metres of –
    - (A) a building or structure, with a value of \$200 or more, used for an industrial or commercial purpose; or
    - (B) a spring, well, reservoir or dam

The land is not exempt land if a mining tenement (claim, lease or licence) is pegged or granted before the land falls into one of the above categories. For example, land will not be classed as exempt land if a dwelling or structure is built after a mining tenement is pegged or granted.

**Waiver of exemption**

The benefit of an exemption under the Act may be waived by a written agreement between the mining operator and the benefit holder, or by an ERD Court order if an agreement cannot be reached.

Mining operations cannot commence until after the exemption has been waived (through an agreement or court order), however the mining operator may enter the exempt land and/or peg a claim before the exemption has been waived.

Section 9AA of the Act outlines a two-step process whereby the operator must first serve a Waiver of Exemption – Request (Form 23A) to the benefit holder, and secondly enter into an agreement with that person to waive the exemption.

If the benefit holder consents to enter into an agreement, the Waiver of Exemption agreement document must comply with section 9AA of the Act and regulation 6(1) of the *Mining Regulations 2011*.

Form 23A (Waiver of Exemption – Request) and 23B (Waiver of Exemption – Agreement) together, when completed correctly, will meet these requirements and may be lodged together for registration with the Mining Registrar as the Waiver of Exemption agreement.

Alternatively the operator and the benefit holder may enter into a written Waiver of Exemption agreement, in accordance with the requirements listed above. The mining operator **must** still serve Form 23A on the benefit holder to request an agreement.

In accordance with section 9AA of the Act, a benefit holder may rescind the Waiver of Exemption agreement, by giving the mining operator written notice before the expiration of the cooling off period (five clear business days after the day on which the agreement is made).

If an agreement cannot be reached between the mining operator and the benefit holder, the mining operator may apply to the Environment, Resource and Development (ERD) Court for an order waiving the benefit of the exemption.

If the mining operator satisfies the ERD Court that adverse effects from mining operations can be addressed by imposing conditions, the Court may make an order waiving the benefit of the exemption (including conditions and compensation). If the Court is not satisfied it may refuse the application.

The Court may not make an order for costs against the benefit holder unless the person has obstructed or delayed the proceedings or the person has failed to attend any proceedings or failed to comply with a rule, order or direction of the Court.

If the benefit of an exemption is waived by agreement or Court order, the land ceases to be exempt land until mining operations have been completed, or such time as stipulated in the agreement or Court order, whichever comes first.

An agreement or order to waive the benefit of exemption under the Act is binding on and carries forward to –

- (a) successors in title to those owners of the land who had the benefit of the former exemption; and
- (b) the holders from time to time of any mining tenement under which mining operations are carried out.

The mining operator who gives notice under this section is liable to pay to the benefit holder reasonable costs of obtaining legal assistance up to \$500, or some other amount as prescribed. The benefit holder must provide a copy of an account or other reasonable evidence relating to the cost of obtaining that assistance.

PRICES ACT 1948, SECTION 24: DECLARATION OF MAXIMUM PRICES FOR RECOVERY, TOWING, STORAGE AND QUOTATION FOR REPAIR OF MOTOR VEHICLES DAMAGED IN ACCIDENTS WITHIN THE DECLARED AREA

*Order by Delegate of the Minister for Consumer Affairs*

PURSUANT to Section 24 of the Prices Act 1948, I, Paul White, Commissioner for Consumer Affairs, being a position to which the Minister for Consumer Affairs has delegated powers under that section, make the following order:

*Citation*

1. This order may be cited as Prices Order No. 1132 (S.A.).

*Commencement*

2. This order will come into operation on 1 July 2011.

*Order No. 1130 (S.A.) Superseded*

3. This order supersedes Prices Order No. 1131 (S.A.) (see *Gazette* 24 June 2010, p. 3142).

*Interpretation*

4. (1) In this order:

‘GST’ means the tax payable under the GST law;

‘GST law’ means:

- (a) A New Tax System (Goods and Services Tax) Act 1999 (Commonwealth); and  
(b) the related legislation of the Commonwealth dealing with the imposition of a tax on the supply of goods, services and other things;

‘motor car’ means a motor vehicle (as defined in Section 5 of the Motor Vehicles Act 1959):

- (a) designed for the principal purpose of carrying passengers; and  
(b) designed to carry not more than eight adult persons (including the driver),

and includes a motor vehicle of the type commonly known as a utility, station sedan or panel van;

‘normal hours’ means the hours between 7.30 a.m. and 5 p.m. on any day other than a Saturday, Sunday or public holiday;

‘prescribed motor vehicle’ means a motor car, motor bike, caravan or trailer;

‘running kilometres’, in relation to the distance travelled for the purposes of supplying a service to which this order applies, means the number of kilometres travelled from the registered premises of the person supplying the service to the scene of the accident, from the scene of the accident to the place of repair or storage of the prescribed motor vehicle to which the services relate and from the place of repair or storage of the vehicle to those registered premises.

(2) In this order the expressions ‘accident’, ‘caravan’, ‘declared area’, ‘motor bike’, ‘quotation for repair’, ‘registered premises’, ‘tow’, ‘towtruck’ and ‘trailer’ have the same meaning as in the Motor Vehicles Act 1959.

*Services to Which Order Applies*

5. This order applies to the following services:

- (a) the recovery and towing at or from the scene of an accident occurring within the declared area of a prescribed motor vehicle damaged in the accident;  
(b) the storage of a prescribed motor vehicle damaged in an accident occurring within the declared area;  
(c) the quotation for repair of a prescribed motor vehicle damaged in an accident occurring within the declared area.

*Declaration of Maximum Prices*

6. (1) Subject to this clause, I declare that the maximum price (inclusive of GST component) at which a service specified in the first column of the table in the Schedule may be supplied is:

- (a) in the case of a service provided during normal hours—the amount specified opposite in the second column of the table;  
(b) in the case of a service provided outside normal hours—the amount specified opposite in the third column of the table.

(2) If the work involved in supplying a service to which this order applies is carried out partly during normal hours and partly outside normal hours, the maximum price that may be charged for providing the service must be calculated according to the maximum price specified in the Schedule for providing the service during the time of the day at which the work is actually carried out.

(3) The maximum price that may be charged for supplying a service for which the Schedule specifies a maximum price per hour is to be calculated in accordance with the following formula:

$$A = \frac{B}{20} \times C$$

where—

- A is the maximum amount that may be charged for the service;  
B is the maximum price per hour for the service specified in the Schedule;  
C is the number of complete 6 minute periods spent in providing the service.

(4) If the use of more than one towtruck is necessary to supply a service to which this order applies, the maximum price specified in the Schedule may be charged in respect of each tow truck used in supplying the service.

*Order Not to Apply to Supply of Services by Certain Persons*

7. This order does not apply in relation to a person who supplies a service referred to in Clause 5 while there is in force an order under Section 24 of the Prices Act 1948, fixing a maximum price for the supply of that service by that particular person.
