DEVELOPMENT ACT 1993: SECTION 48

*Decision by the Development Assessment Commission Under
Delegation from the Governor*

Preamble

1. On 31 March 2005, the Minister for Urban Development and Planning, being of the opinion that a proposed development of a marina and residential development at Mannum ('the development') was a development of major environmental, social or economic importance, directed the proponent to prepare an Environmental Impact Statement pursuant to Section 46 of the Development Act 1993.

2. On 6 June 2007, an Environmental Impact Statement for the development was published in accordance with Section 46 of the Development Act 1993. Subsequently, the Minister prepared an Assessment Report in accordance with Section 46 of the Development Act 1993.

3. On 30 October 2008, the Governor gave notice in the *Government Gazette* that pursuant to Section 48 of the Development Act 1993, a provisional development authorisation was granted to the development subject to reserved matters and conditions specified in that notice.

4. On 1 April 2010, the Development Assessment Commission, as delegate of the Governor, gave notice in the *Government Gazette* that pursuant to Section 48 of the Development Act 1993, a development authorisation was granted to the development subject to reserved matter and conditions specified in that notice.

5. An application for minor variations to the layout plan related to the commercial area and the boat maintenance area has been under consideration by the Development Assessment Commission, as delegate of the Governor, under Division 2 of Part 4 of the Development Act 1993.

6. The proposed variations to the development are contained in the letter from Tallwood Pty Ltd to the Department of Planning and Local Government, dated 24 February 2011.

7. The Development Assessment Commission has, in considering the application, had regard to all relevant matters under Section 48 (5) of the Development Act 1993.

8. The Development Assessment Commission is satisfied there is no requirement to prepare a further or amended Environmental Impact Statement.

9. For ease of reference, the Development Assessment Commission has decided to revoke all Conditions and substitute therefore the Conditions contained herein, with the only change being the addition of a reference to the variation application to Condition 1a.

Decision

40. The proponent shall address the Reserved Matter and submit relevant documentation to the Development Assessment Commission for its approval.

PART C: NOTES TO PROPONENT

1. In respect of the Reserved Matter, the following is advised to the proponent:

(a) *Building Rules*

The proponent must obtain a Building Rules assessment and certification from either the Mid Murray Council or a private certifier, (at the proponent's option) and forward to the Development Assessment Commission all relevant certification documents as outlined in Regulation 64 of the Development Regulations 2008.

Pursuant to Development Regulation 64, the proponent is especially advised that the Mid Murray Council or private certifier conducting a Building Rules assessment must:

- provide to the Minister for Urban Development and Planning a certification in the form set out in Schedule 12A of the Development Regulations 2008, in relation to the building works in question; and

- to the extent that may be relevant and appropriate:
 - (i) issue a Schedule of Essential Safety Provisions, under Division 4 of Part 12; and
 - (ii) assign a classification of the building under these regulations; and
 - (iii) ensure that the appropriate levy has been paid under the Construction Industry Training Fund 1993.

Regulation 64 of the Development Regulations 2008, provides further information about the type and quantity of all Building Rules, certification documentation for Major Developments required for referral to the Minister for Urban Development and Planning. The Mid Murray Council or private certifier undertaking Building Rules assessments, must ensure that the assessment and certification are consistent with this provisional development authorisation (including its Conditions and Notes).

2. Should the proponent wish to vary the Major Development or any of the components of the Major Development, an application may be submitted, provided that the development application variation remains within the ambit of the Environmental Impact Statement and Assessment Report referred to in this provisional development authorisation. If an application for variation involves substantial changes to the proposal, it will be processed pursuant to Section 47 (2) (b) of the Development Act 1993.

3. The proponent is advised that a suitable water licence and water allocation would need to be secured under the Natural Resources Management Act 2004, for the initial filling of the marina basin, waterways and the constructed anabranch/wetland system and for the on-going maintenance of water levels.

4. The following activities in relation to the components of the development, hereby approved and/or requiring future approval, will require licences under the Environment Protection Act 1993:

- Earthworks Drainage: the conduct of earthworks operations in the course of which more than 100 kilolitres of waste water containing suspended solids in a concentration exceeding 25 milligrams per litre is discharged directly or indirectly to marine waters or inland waters.
- Marinas and Boating Facilities: the conduct of:
 - (a) facilities comprising pontoons, jetties, piers or other structures, (whether on water or land) designed or used to provide moorings or dry storage for 50 or more powered vessels at any one time; or
 - (b) works for the repair or maintenance of vessels with the capacity to handle five or more vessels at any one time, or vessels 12 m more in length.
- Dredging: removing solid matter from the bed or any marine waters by any digging or suction apparatus, but excluding works carried out for the establishment of a visual aid to navigation and any lawful fishing or recreational activity.

It is likely that as a condition of such licences the Environment Protection Authority, will require the licensee to carry out specified environmental monitoring of water quality and to make reports of the results of such monitoring to it.

5. All works associated with the rehabilitation and remediation of the site are required by law to be undertaken in accordance with Section 25 (1) of the Environment Protection Act 1993, which requires that a person must not undertake any activity, which pollutes, or may pollute without taking all reasonable and practical measures to prevent or minimise harm to the environment; the Environment Protection (Water Quality) Policy 2003; other relevant Environment Protection Policies made under Part 5 of the Environment Protection Act 1993. Works should also be undertaken in accordance with the ANZECC Best Practice Guidelines for Waste Reception Facilities at Ports, Marinas and Boat Harbours in Australia and New Zealand, guideline Environmental Management of On-Site Remediation and other relevant Environment Protection and Authorisation publications and guidelines.

6. The proponent is advised of the Duty of Care under the River Murray Act 2003, which requires that a person shall ensure that their actions do not cause harm to the River Murray.

7. The proponent is advised of the requirement under the Native Vegetation Act 1991, to obtain permission under that Act for any clearance of native vegetation or otherwise to bring itself within an exemption under that Act. Neither this development authorisation nor any final development authorisation granted under Section 48 (2) (b) (i) of the Development Act 1993, operates as an authorisation to clear native vegetation.

8. The proponent is reminded of its obligations under the Aboriginal Heritage Act 1988, whereby any 'clearance' work, which may require permission to disturb damage or destroy Aboriginal Sites, must be undertaken with the full authorisation of the Minister for Aboriginal Affairs and Reconciliation, according to Section 23 of the Aboriginal Heritage Act 1988.

9. The proponent, and all agents, employees and contractors, such as construction crews, should be conversant with the provisions of the Aboriginal Heritage Act 1988, particularly the requirement to immediately contact the Department of Premier and Cabinet (Aboriginal Affairs and Reconciliation), in the event that archaeological items (especially skeletal material), are uncovered during earthmoving.

10. The proponent, and the Council after hand-over, should comply with the Public and Environmental Health Act 1987, in regard to the maintenance of suitable water quality within the marina basin, residential waterways, stormwater retention ponds and the constructed anabranch/wetland system to protect public health and amenity.

11. For the purposes of Condition 31, it is noted that the expression 'secondary contact recreation' includes activities such as wading, boating and fishing in which some human contact with the water may occur, but in which the probability of bodily immersion or the intake of significant amounts of water is minimal.

12. It is recommended that the proponent approach the Mid Murray District Council with a view to the Council enacting by-laws to manage activities associated with the:

- Entrance channel and waterways to ensure safe navigation and to protect water quality;
- Boat ramp, boat lift and boat maintenance facilities (including car parking and access);
- Refuelling facility and boat effluent/greywater pump-out connection points;
- Residential development and reserves (including stormwater management devices and the pedestrian bridge);
- Constructed anabranch/wetland system; and
- Crown land reserve along the river bank and associated wetlands and buffer zones.

13. The Mid Murray Council will need to review and amend the zoning policies in the relevant Development Plan, to reflect any development approved by the Governor and for future assessment and decision-making for buildings and structures not forming part of this provisional development authorisation. In particular, policies will need to address sustainability matters, (especially water and energy efficiency), environmental protection requirements, flood protection requirements and amenity aspects.

14. A common building scheme encumbrance or equivalent device for the purpose of ensuring compliance with design standards for residential and other buildings will be required at the land division stage.

15. Binding legal arrangements (e.g. easements, encumbrances, charge-back arrangements etc. as appropriate), between the proponent and allotment owners must be put in place, prior to application to the Registrar-General for the issue of new Certificates of Title, to ensure financial and management responsibilities related to the maintenance of edge treatments, the maintenance of the riparian buffer strip and the design and appearance of structures are clearly allocated. These arrangements must be to the reasonable satisfaction of the Development Assessment Commission.

16. The proponent will need to satisfy the requirements of the Mid Murray Council relating to the provision of 12.5 per cent Open Space as part of any land division application.

17. The Marina Owner's Charter and House Owner's Charter documents should be finalised to the satisfaction of Planning SA, prior to application to the Registrar-General for the issue of new Certificates of Title. The relevant Charters should be presented to purchasers of marina berths or allotments.

18. Approvals from the Environment Protection Authority and the Department of Health, would need to be sought for the Waste Water Treatment Plant and the use of reclaimed water for irrigation purposes. An Environmental Management Plan for Wastewater and an Irrigation Plan would be required.

19. The Minister has a specific power to require testing, monitoring and auditing under Section 48C of the Development Act 1993.

20. It is noted that the provisional development authorisation granted herein, does not apply to any residential, commercial, retail, tourist-related or other buildings, for which a separate application for approval, addressed to Council, will be required. Additional design and infrastructure/service plans will be required by Council when application is made for approval for any such buildings.

Dated 9 March 2011.

Assessment Commission
