Notes:

- Daily consumption is the total electricity consumption for the period to which an account relates, divided by the number of days in that period.
- Residential Electricity Rates apply to all domestic consumption unless Off Peak Controlled Load Rates apply.
- Off Peak Controlled Load Rates apply for electricity used in permanently installed storage water heaters with a rated delivery of not less than 125 litres, storage space heaters and other approved thermal storage applications during hours which are fixed from time to time with control by a time switch or other means.

Justification Statement

The default contract prices fixed by Alinta Energy in this notice are the same as the standing contract prices for small customers that apply as Tariff 110 to residential consumption in premises used wholly or principally as private residences and that apply as Tariff 116 for electricity used in permanently installed storage water heaters with a rated delivery of not less than 125 litres, storage space heaters and other approved thermal storage applications. These standing contract prices are fixed in accordance with the Electricity Standing Contract Price Determination made by the Essential Services Commission of South Australia (**ESCOSA**) under Section 35A of the Electricity Act 1996 (SA) on 14 December 2010 and subsequently varied by ESCOSA to apply from 1 July 2012.
