**Government
of South Australia**

**TREASURER'S
QUARTERLY STATEMENT**

for the

**THREE MONTHS ended on
30 JUNE, 2014 and 30 JUNE, 2013**

*Presented by the
Honourable J. W. Weatherill, M.P.
Treasurer of South Australia*

GOVERNMENT OF SOUTH AUSTRALIA**COMMENTARY TO THE STATEMENT OF THE AMOUNTS CREDITED TO
AND ISSUED FROM THE CONSOLIDATED ACCOUNT FOR THE QUARTERS ENDED
30 JUNE 2014 AND 30 JUNE 2013*****Receipts****Taxation*

Payroll tax receipts in 2013-14 were higher than in 2012-13 mainly due to growth in taxable payrolls.

Stamp duty receipts in 2013-14 were higher than in 2012-13 mainly due to improved property market conditions, with property transfers increasing from the very low levels experienced in recent years.

Stamp duty receipts for the June quarter 2014 were higher than for the June quarter 2013 mainly due to the timing of payments to the Consolidated Account relating to stamp duty on motor vehicle registrations and renewal certificates for Compulsory Third Party insurance collected by the Department of Planning, Transport and Infrastructure.

Gambling tax receipts in 2013-14 were lower than in 2012-13 mainly due to the conclusion of dividend payments from the South Australian Lotteries Commission following the appointment of a master agent.

Land tax receipts in 2013-14 were lower than in 2012-13 mainly due to changes in the value of property ownerships.

From 2013-14, the Save the River Murray Levy has been paid directly into the Save the River Murray Fund. Previously, levy revenues were deposited into the Consolidated Account and subsequently transferred to the Fund.

Royalties

Royalty receipts in 2013-14 were higher than in 2012-13 mainly due to the introduction of monthly royalty payments and higher petroleum production across the year.

Fees and Charges

Fees and Charges in 2013-14 were higher than in 2012-13 mainly due to an increase in land regulatory fees.

Commonwealth – General Purpose Payments

Growth in general purpose grants for 2013-14 compared to 2012-13 is not indicative of underlying Goods and Services Tax (GST) revenue growth. This is because monthly grants are paid according to a payment schedule prepared by the Commonwealth Government rather than in accordance with the actual emerging monthly GST collections.

In its 2014-15 Final Budget Outcome, the Commonwealth Government indicated that the GST pool available for distribution to the states grew by 6.3 per cent in 2013-14.

Commonwealth – Specific Purpose Payments

Special Purpose Payments (SPPs) for 2013-14 were higher than in 2012-13 mainly due to higher payments for government schools as a result of the National Education Reform Agreement.

Commonwealth – National Partnership Payments

NP payments in 2013-14 were lower than in 2012-13 mainly due to several large once-off payments in relation to an NP for public hospital services being made to the Consolidated Account in 2012-13.

NP payments for the June quarter 2014 were higher than for June quarter 2013, mainly due to some payments for Remote Indigenous Housing for 2012-13 having been paid in 2011-12.

Other receipts

Other receipts in 2013-14 were lower than in 2012-13 mainly due to the recognition of proceeds from asset sales in the previous financial year.

Payments

Payments pursuant to the Appropriation Act (i.e. to agencies) are \$112 million higher than forecast in the original 2013-14 Budget. Greater than budgeted payments were made to the following:

- Department for Education and Child Development (\$44 million)
- Department of Further Education, Employment, Science and Technology (\$43 million)
- Department of Planning, Transport and Infrastructure (\$50 million)
- Administered Items for Department of Treasury and Finance (\$78 million)
- Department of the Premier and Cabinet (\$19 million)

This was partially offset by lower than budgeted payments to:

- Administered Items for the Attorney-General's Department (\$45 million)
- Department for Communities and Social Inclusion (\$78 million)

All appropriations were paid within approved limits established under the various acts.

Further detail on the final budget result will be available in the 2013-14 Final Budget Outcome.

Note

Caution should be exercised in interpreting the quarterly statement of Consolidated Account transactions. Unlike the State Budget, which comprises transactions on an accrual basis, the information reflected in the quarterly statements is limited to cash transactions. Also, the Consolidated Account does not capture all the transactions undertaken by the general government sector (in particular, it does not record receipts to and payments from special deposit accounts). Finally, the timing of receipts and payments could be volatile within a particular year. As a result, apparently large movements between years may only be due to changes in the timing of receipts and payments and therefore may not have consequences for the underlying budget position.
