ATTACHMENT A

GLENELG FORESHORE AND PATAWALONGA ZONE**Introduction**

The objectives, proposals and principles of development control that follow apply to the area referred to as the Glenelg Foreshore and Patawalonga Zone shown on Map LNWCA(MA)/3. They are additional to those expressed for the whole of the councils area or in the out of councils area.

OBJECTIVES

- Objective 1:** A major tourist and recreational focus for Glenelg and the State including family entertainment facilities, amusements, a range of tourist accommodation facilities including a hotel and apartments, residential housing, marinas, ferry terminal and associated facilities, public plazas, and complementary retail and food outlets.
- Objective 2:** A range of tourism and accommodation facilities and activities associated with the Glenelg foreshore and environs.
- Objective 3:** Development that is integrated in function and complements the character of adjacent zones.
- Objective 4:** Retention of Colley and Wigley Reserves as focal public open space areas, maintained and landscaped for general public recreation.
- Objective 5:** Retention of Colley and Wigley Reserves and Patawalonga Recreation and Boat Haven Reserve as the focus of recreational activities.
- Objective 6:** Development of the Patawalonga Recreation and Boat Haven Reserve as an area for mooring, incorporating marinas, and use of boats with limited areas for the servicing and repairing of boats.
- Objective 7:** Conservation and improvement of the landscape features of the Patawalonga and the coast.
- Objective 8:** Development that contributes to the desired character of the zone.
- Objective 9:** Maintain the Patawalonga Recreation and Boat Haven Reserve as an area for mooring (incorporating marinas) and use of boats with limited areas for servicing and repairing of boats.

DESIRED CHARACTER

This zone covers an area along the Glenelg foreshore extending from Moseley Square in the south to the Michael Herbert (Wardlipulthu Waadlakatha) Bridge over the Patawalonga in the north and east to Colley Terrace and Adelphi Terrace. The zone has three main functions which are separated spatially including passive recreational uses, high density residential development, and visitor retail and entertainment uses.

The zone is a major seaside tourist and recreational focus for the City of Holdfast Bay and the State. It contains a variety of land uses including recreational, residential, a variety of tourist accommodation, retail, commercial, family entertainment, community, boating, marina and limited service industrial marine related land uses.

The zone contains the recreational focal point of Glenelg outside Moseley Square, being the Glenelg beach (between the Glenelg Jetty and breakwater) the entertainment facilities adjacent to the beach and Colley Reserve at the Holdfast Shores development, and associated entertainment venues and kiosks. The zone also contains community facilities such as the surf lifesaving club, the Glenelg Community Centre and public car parking underground and integrated with the Marina Pier complex.

New development should also have regard to the Glenelg Foreshore and Patawalonga Zone provisions as detailed in the Holdfast Bay Council Development Plan and shown on Map LNWCA (MA)/3.

Colley and Wigley Reserves are important open space areas within the zone and buildings and structures will enhance the appearance of these reserves (and the Patawalonga) and encourage their use for recreation.

Buildings and structures will be of a high standard of building material, considering the coastal environment and full lifecycle costs for maintenance and replacement, and designed with regard to external appearance, colours, siting and landscaping.

Development will integrate with adjacent public spaces to produce high quality public environments conducive to public activity, including walking and cycling, and having particular regard to personal safety, sunlight access and visual interest.

Retail, restaurant and entertainment uses will be integrated at ground level with public open spaces and pedestrian routes. Public amenities will be incorporated into the design of commercial and community development.

Public spaces will provide visual and tactile interest, the ability to sit or to participate, a sense of vitality and elements of public art.

A network of linked public pathways will provide public pedestrian and bicycle accessibility to and along the coast, reserves, and to key recreation and other facilities, and will be of a practical and usable width and level.

PRINCIPLES OF DEVELOPMENT CONTROL**Land Use**

1. The following forms of development are envisaged in the zone:
 - family entertainment facilities and amusements
 - ferry terminal and associated facilities
 - marina
 - public plaza
 - residential development
 - retail and food outlets on the southern side of the Patawalonga Basin
 - tourist accommodation, such as hotel and apartment.
2. Residential development should incorporate a range of dwelling sizes and types for permanent, temporary and tourist accommodation.
3. Stand-alone car parking buildings should not be developed within the zone.

Form and Character

4. Development should not be undertaken unless it is consistent with the desired character for the zone.
5. Buildings north of the Patawalonga Basin should not exceed three storeys in height above existing natural ground level.

6. Buildings south of the Patawalonga Basin should not contain more than six storeys above undercroft car parking and should not exceed a maximum building height of 28.5 metres above the finished plaza level.
7. The average minimum site area per dwelling should measure 80 square metres.
8. Development should not restrict public access to or along the beach, or reserve area frontages.
9. Basement or undercroft car parking areas and multi-level car parking areas should only occur where contained within commercial/apartment buildings.
10. All facilities associated with the supply and maintenance of public utilities should be underground or otherwise screened from view.
11. Shopping, commercial, entertainment, marine related and transport uses should have a floor space commensurate with catering for the reasonable needs of tourists, visitors, the boating community, and residents within the zone, and should complement the services and facilities along Jetty Road and Anzac Highway.
12. Retail, restaurant and entertainment uses should be integrated at ground level with public open spaces and pedestrian routes, and may extend in to these areas.
13. Public and community facilities should be located to conveniently serve visitors and local resident needs, including the provision of recreational facilities, open space, pedestrian walkways and spaces, boat ramp, beach access, public conveniences, required clubs, navigational aids, emergency service facilities and associated car parking. Public toilets should be incorporated into the design of commercial development.
14. The appearance of land, buildings, fencing and other structures should be of contemporary design, but not excessively ornate, with empathy for the traditional design elements of the locality and a style complementary to the coastal/seaside environment.
15. Construction of breakwaters and any channel to sea should include adequate sand management provisions to minimise or avoid adverse impacts on adjacent coasts and beaches, and to maintain a navigable channel appropriate to the intended use.

Land Division

16. Land division should facilitate uses and activities envisaged in the zone and safe and convenient pedestrian access to and along the entire coast and the Patawalonga.

Public Notification Categories

17. For the purposes of public notification all kinds of development within the Glenelg Foreshore and Patawalonga Zone are assigned Category 2 other than development which falls within Schedule 9 Part 1 of the Development Regulations.

**TREASURER'S
QUARTERLY STATEMENT**

for the

**THREE MONTHS ended on
31 DECEMBER 2015 and 31 DECEMBER, 2014**

*Presented by the
Honourable T. Koutsantonis M.P.
Treasurer of South Australia*

GOVERNMENT OF SOUTH AUSTRALIA**COMMENTARY TO THE STATEMENT OF THE AMOUNTS CREDITED TO AND ISSUED
FROM THE CONSOLIDATED ACCOUNT FOR THE QUARTERS ENDED 31 DECEMBER
2015 AND 31 DECEMBER 2014*****Receipts****Taxation*

Payroll tax receipts for the six months to December 2015 were higher than for the same period in 2014, mainly due to growth in taxable payrolls.

Stamp duty receipts in the December quarter 2015 were lower than a year earlier. This conveyance duty reflects a decline in large transactions compared to 2014.

Stamp duty receipts for the six months to December 2015 were higher than for the same period in 2014. This was mainly due to conveyance duty, reflecting growth in the number and average price of property transactions. Insurance duty collections were also higher than for the same period in 2014, largely reflecting the back payment of insurance duty following a previous court decision.

Gambling tax receipts in the six months to December 2015 were higher than a year earlier. This is mainly due to increased receipts from the South Australian Lotteries Commission, reflecting growth in their net gambling revenue.

Land tax receipts for the six months to December 2015 were lower than the same period in 2014, mainly due to the timing of invoices raised.

Royalties

Royalty receipts in the December quarter 2015 were broadly in line with receipts compared to the same period last year due to the timing of payments, however underlying collections are lower reflecting lower crude oil and copper pricing and lower petroleum production levels.

Fees and charges

Fees and charges in the six months to December 2015 were lower than for the same period in 2014 due to lower guarantee fees which were offset by higher land regulatory fees.

Commonwealth – General Purpose Payments

Growth in general purpose grants for the six months to December 2015 compared to the same period last year is not indicative of underlying Goods and Services Tax (GST) revenue growth. This is because monthly grants are paid accordingly to a payment schedule prepared by the Commonwealth Government rather than in accordance with the actual emerging monthly GST collections.

In its Mid-Year Economic and Fiscal Outlook 2015-16, the Commonwealth Government indicated that the GST pool available to the States is estimated to grow by 5.4 per cent in 2015-16.

Commonwealth – Specific Purpose Payments

Specific Purpose Payments (SPPs) for the December quarter 2015 were broadly in line with the December 2014 quarter.

Commonwealth – National Partnership Payments

National Partnership (NP) payments were higher in the six months to December 2015 compared to the same period last year due to the timing of Remote Indigenous Housing NP payments.

Other receipts

Other receipts were lower in the six months to December 2015 compared to the same period last year due to the return of equity from SA Water that was received in the December 2014 quarter.

Payments

Payments were made pursuant to the *Appropriation Act 2015*, and also in accordance with other Acts for which specific appropriation has been authorised. The timing of payments is based on agreed drawdown schedules, and may change from period to period depending on specific agency requirements.

Note

Caution should be exercised in interpreting the quarterly statement of Consolidated Account transactions. Unlike, the State Budget, which comprises transactions on an accrual basis, the information reflected in the quarterly statements is limited to cash transactions. Also, the Consolidated Account does not capture all the transactions undertaken by the general government sector (in particular, it does not record receipts to and payments from special deposit accounts). Finally, the timing of receipts and payments could be volatile within a particular year. As a result, apparently large movements between years may only be due to changes in the timing of receipts and payments and therefore may not have consequences for the underlying budget position.
