Department of the Premier and Cabinet  
Adelaide, 5 April 2017

HER Excellency the Governor's Deputy in Executive Council has been pleased to appoint the undermentioned to the Architectural Practice Board of South Australia, pursuant to the provisions of the Architectural Practice Act 2009:

Member: (from 5 April 2017 until 4 April 2020)  
Gary Bonato  
Paul Boyce  
Danielle Kym O'Dea  
Mariano De Duonni

By command,

IAN KEITH HUNTER, for Premier

MHUD/17/008

Department of the Premier and Cabinet  
Adelaide, 5 April 2017

HER Excellency the Governor's Deputy in Executive Council has been pleased to appoint the Honourable Ian Keith Hunter, MLC, Minister for Sustainability, Environment and Conservation, Minister for Water and the River Murray and Minister for Climate Change to be also Acting Minister for Education and Child Development and Acting Minister for Higher Education and Skills for the periods from 14 April 2017 to 28 April 2017 inclusive and from 30 September 2017 to 15 October 2017 inclusive, during the absence of the Honourable Susan Elizabeth Close, MP.

By command,

IAN KEITH HUNTER, for Premier

MECD17/012

Department of the Premier and Cabinet  
Adelaide, 5 April 2017

HER Excellency the Governor's Deputy in Executive Council has been pleased to appropriate from the Consolidated Account to the public purposes of the State an amount of \$394,908,990 for the financial year ending 30 June 2018, pursuant to Section 12 of the Public Finance and Audit Act 1987.

PUBLIC FINANCE AND AUDIT ACT 1987

REGULATION 5A—GOVERNOR'S APPROPRIATION FUND

FORM 1

*Approval to Appropriate Funds from the Consolidated Account*

PURSUANT to Section 12 of the Act, I appropriate from the Consolidated Account to the public purposes of the State an amount of \$394,908,990 for the financial year ending 30 June 2018.

Given under my hand this 5th day of April 2017.

BRENDA WILSON, Governor's Deputy

T&F17/012CS

DEVELOPMENT REGULATIONS 2008

NOTICE UNDER SCHEDULE 6

*Preamble*

Schedule 6 of the Development Regulations 2008 refers to a construction index determined by the Minister from time to time and set out in the Schedule of Construction Indices. The Construction Indices will be used in the determination of fees payable by applicants seeking assessment against the Building Rules under the Development Act 1993.

NOTICE

PURSUANT to Schedule 6 of the Development Regulations 2008, I have determined the Construction Indices in the Schedule for the purposes of determining fees payable under Schedule 6 of the Development Regulations 2008.

This notice will come into effect on 1 July 2017.

SCHEDULE

*Schedule of 2017 Construction Indices*

<i>Building Classes</i>	<i>Construction Indices</i>
Class 1,2,4	1276
Class 3,5,6	1699
Class 7,8	1125
Class 9a and 9c	1926
Class 9b	1692
Class 10	381

Dated 31 March 2017.

J. EVANS, as Minister's Delegate,  
Unit Manager Building Policy,  
Investment Management,  
Department of Planning, Transport and Infrastructure

ENVIRONMENT PROTECTION ACT 1993

*Fire-fighting Foams Ban—Public Consultation*

PURSUANT to Section 28 (6) (b) of the Environment Protection Act 1993 (EP Act), the Environment Protection Authority (EPA) intends to amend the Environment Protection (Water Quality) Policy 2015 (WQ EPP) to include a prohibition on the use of fire-fighting foams containing perfluorinated chemicals; specifically perfluorooctane sulfonate (PFOS), perfluorooctanoic acid (PFOA), and any chemicals that degrade to PFOS or PFOA. The inclusion of hand-held extinguishers will also be discussed during the consultation.

The EPA will be holding a public information session to discuss the proposed amendment and obtain feedback from industry and the community on various aspects including potential implementation options.

Date: Wednesday, 3 May 2017.

Location: Environment Protection Authority  
Training Room, Level 8,  
SA Water House,  
250 Victoria Square, Adelaide.

Time: 1 p.m. to 3 p.m.

RSVP: Wednesday, 26 April 2017.

Please go to the EPA website to register and secure your spot:  
[http://www.epa.sa.gov.au/our\\_work/have\\_your\\_say](http://www.epa.sa.gov.au/our_work/have_your_say).

Pursuant to Section 28 (6) (b) of the Environment Protection Act 1993 (EP Act), the consultation period will run for two months from the date of this notice. Written submissions are welcomed during this period and will be made available to the public, along with the responses to each, after the consultation period is finished, close of business on Monday, 5 June 2017.

Written submissions can be mailed to:

Claire Mennie  
Legislation and Policy Reform,  
Environment Protection Authority SA,  
G.P.O. Box 2607,  
Adelaide, S.A. 5001,  
or emailed to: [epainfo@sa.gov.au](mailto:epainfo@sa.gov.au)

The draft policy, explanatory report, submissions and further information can all be found on the EPA website: [http://www.epa.sa.gov.au/our\\_work/have\\_your\\_say](http://www.epa.sa.gov.au/our_work/have_your_say) or by contacting:

Claire Mennie  
Policy Officer,  
Environment Protection Authority.  
Telephone: 8204 2071 or [claire.mennie@sa.gov.au](mailto:claire.mennie@sa.gov.au).

T. CIRCELLI, Chief Executive Officer

## ENVIRONMENT PROTECTION AUTHORITY

*Granting of an Exemption*

The Environment Protection Authority (EPA) has issued an exemption to South Australian Lobster Company Pty Ltd under Section 37 of The Environment Protection Act 1993, in respect of the requirements of Clause 15 of the Environment Protection (Water Quality) Policy 2015.

The Exemption Holder is exempt from the application of Clause 15 (1) (a) of the Environment Protection (Water Quality) Policy 2015, in relation to the discharge of wastewater from the lobster holding tanks on the licensed premises into adjacent marine waters.

This exemption is issued subject to the specific operating conditions imposed in the Authorisation.

Dated 23 March 2017.

K. VOGELSANG, Delegate,  
Environment Protection Authority

## FISHERIES MANAGEMENT ACT 2007: SECTION 90 (2)

*Department of Primary Industries and  
Regions SA—Fisheries Division*

NOTICE is hereby given pursuant to Section 90 (2) of the Fisheries Management Act 2007, that the following items have been seized by Officers of the Department of Primary Industries and Regions SA, Fisheries and Aquaculture. Located at the bottom of the Wide Waters on the Ral Ral Creek:

- Four Opera nets had white foam floats and two Opera House nets had drink bottle floats.

The above items were suspected to have been used, or intended to be used, in contravention of the Fisheries Management Act 2007, and were taken into possession at Ral Ral Creek via Renmark on 6 January 2017.

After the expiration of one month from the date of this notice the items listed above shall, on the order of the Minister for Agriculture, Food and Fisheries, be forfeited to the Crown and shall be either disposed of by sale or destruction.

The above items may be viewed at the Largs North office of the Department of Primary Industries and Regions SA, Fisheries and Aquaculture.

Dated 27 March 2017.

B. BALMER, Prosecutions Co-ordinator

FISHERIES MANAGEMENT (PRAWN FISHERIES)  
REGULATIONS 2006*Fishing Run for the West Coast Prawn Fishery*

TAKE notice that pursuant to Regulation 9A of the Fisheries Management (Prawn Fisheries) Regulations 2006, the notice dated 21 March 2017, prohibiting fishing activities in the West Coast Prawn Fishery is hereby varied such that it will not be unlawful for a person fishing pursuant to a West Coast Prawn Fishery licence to use prawn trawl nets in the areas specified in Schedule 1, during the period specified in Schedule 2, and under the conditions specified in Schedule 3.

## SCHEDULE 1

The waters of the West Coast Prawn Fishery.

## SCHEDULE 2

Commencing at sunset on 23 March 2017 and ending at sunrise on 5 April 2017.

## SCHEDULE 3

1. Each licence holder must ensure that a representative sample of catch (a 'bucket count') is taken at least three times per night during the fishing activity.

2. Each 'bucket count' sample must be accurately weighed to 7 kg where possible and the total number of prawns contained in the bucket must be recorded on the daily catch and effort return.

3. Fishing must cease if one of the following limits is reached:

- (a) A total of 14 nights of fishing are completed;

- (b) The average catch per vessel, per night (for all three vessels) drops below 300 kg for two consecutive nights;
- (c) The average 'bucket count' exceeds 270 prawns per bucket on any single fishing night in the Ceduna area;
- (d) The average 'bucket count' for all three vessels exceeds 240 prawns per bucket on any single fishing night in the Coffin Bay area; or
- (e) The average 'bucket count' for all three vessels exceeds 250 prawns per bucket on any single fishing night in the Venus Bay area.

4. The fleet must nominate a licence holder to provide a daily update by telephone or SMS message to the Prawn Fishery Manager on 0477 396 367, to report the average prawn catch per vessel and the average prawn 'bucket count' information.

5. No fishing activity may be undertaken after the expiration of 30 minutes from the prescribed time of sunrise and no fishing activity may be undertaken before the prescribed time of sunset for Adelaide (as published in the *South Australian Government Gazette* pursuant to the requirements of the Proof of Sunrise and Sunset Act 1923) during the period specified in Schedule 2.

Dated 21 March 2017.

S. SHANKS, Prawn Fisheries Manager,  
Delegate of the Minister for Agriculture, Food and Fisheries

FISHERIES MANAGEMENT (PRAWN FISHERIES)  
REGULATIONS 2006*Temporary Prohibition on Fishing Activities in the  
West Coast Prawn Fisheries*

TAKE notice that pursuant to Regulation 9A of the Fisheries Management (Prawn Fisheries) Regulations 2006, the notice dated 21 March 2017, prohibiting fishing activities in the West Coast Prawn Fishery is hereby varied such that it will not apply to the holders of a West Coast Prawn Fishery licence issued, pursuant to the Fisheries Management (Prawn Fisheries) Regulations 2006, listed in Schedule 1 or their register master insofar as they may use prawn trawl nets in accordance with the conditions of their fishery licence for the purpose of undertaking a prawn survey during the period specified in Schedule 2, subject to the conditions contained in Schedule 3 unless this notice is varied or revoked.

## SCHEDULE 1

Licence No.	Licence Holder	Boat Name	Trawl Survey Area
D01	Paleologoudias Nicholas	<i>Bosanquet Bay</i>	Ceduna
D02	Kontias Developments Pty Ltd	<i>Lincoln Lady</i>	Venus Bay

## SCHEDULE 2

Commencing at sunset on 21 March 2017 and ending at sunrise on 24 March 2017.

## SCHEDULE 3

1. The licence holders listed in Schedule 1 or their register master must operate within the trawl survey area nominated in the table in Schedule 1.

2. For the purposes of this notice the trawl survey areas cannot include any waters of a habitat protection zone or a sanctuary zone of a marine park established under the Marine Parks Act 2007.

3. The survey may be undertaken for a total of one night of fishing over the period detailed in Schedule 2.

4. The registered master must keep a 'skippers log' to record catch information during the survey.

5. All fish, other than King Prawns, Southern Calamari, Gould's Squid, Scallops, Octopus and Balmain Bugs taken during the exempted activity for survey purposes, are to be returned to the water immediately after capture.

6. The licence holders listed in Schedule 1 or their register master must comply with all regulations and conditions that apply to fishing activities undertaken pursuant to their licence, in addition to the conditions imposed by this exemption.

7. While engaged in fishing activities or unloading the survey catch, the licence holders listed in Schedule 1 or their register master must have a copy of this notice on board the boat or near his person. This notice must be produced to a Fisheries Officer if requested.

8. No fishing activity may be undertaken between the prescribed times of sunrise and sunset for Adelaide (as published in the *South Australian Government Gazette*) during the period specified in Schedule 2.

9. The licence holders listed in Schedule 1 or their register master must not contravene or fail to comply with the Fisheries Management Act 2007, or any other regulations made under that Act except where specifically exempted by this notice.

This notice does not purport to override the provisions or operation of any other Act including, but not limited to, the Marine Parks Act 2007. The notice holder and his agents must comply with any relevant regulations, permits, requirements and directions from the Department of Environment, Water and Natural Resources when undertaking activities within a marine park.

Dated 21 March 2017.

S. SHANKS, Prawn Fishery Manager,  
Delegate of the Minister for Agriculture, Food and Fisheries

#### LOCAL GOVERNMENT ACT 1999

##### *2016 North Arm East Catchment Stormwater Management Plan*

NOTICE is hereby given in accordance with Clause 19 (3) of Schedule 1A of the Local Government Act 1999, that the 2016 North Arm East Catchment Stormwater Management Plan prepared by the City of Port Adelaide Enfield was approved by the Stormwater Management Authority on 7 December 2016.

Dated 27 March 2017.

Executed for and on behalf of the Stormwater Management Authority by its Presiding Member pursuant to a resolution of the Board and in the presence of:

S. HAINS, Presiding Member  
S. MORTON, Witness

#### MINING ACT 1971

NOTICE is hereby given in accordance with Section 28 (5) of the Mining Act 1971, that the delegate of the Minister for Mineral Resources and Energy intends to grant an Exploration Licence over the area described below:

Applicant: OZM Carrapateena Pty Ltd, OZ Minerals Carrapateena Pty Ltd

Location: Oakden Hills area—Approximately 135 km north-west of Port Augusta.

Pastoral Leases: Arcoona, Pernatty and Oakden Hills.

Term: 2 years

Area in km<sup>2</sup>: 120

Reference: 2016/00162

Plan and co-ordinates can be found on the Department of State Development website: [http://www.minerals.statedevelopment.sa.gov.au/exploration/public\\_notices](http://www.minerals.statedevelopment.sa.gov.au/exploration/public_notices) or by contacting Mineral Tenements on (08) 8463 3103.

Community information on mineral exploration licence processes and requirements under the Mining Act 1971 is available from: [http://www.minerals.statedevelopment.sa.gov.au/land\\_access/community\\_information](http://www.minerals.statedevelopment.sa.gov.au/land_access/community_information) or hard copy on request to Mineral Tenements.

J. MARTIN, Mining Registrar

#### MINING ACT 1971

NOTICE is hereby given in accordance with Section 28 (5) of the Mining Act 1971, that the delegate of the Minister for Mineral Resources and Energy intends to grant an Exploration Licence over the area described below:

Applicant: Lithium Australia NL

Location: Vivonne Bay area—Approximately 55 km south-west of Kingscote.

Term: 2 years

Area in km<sup>2</sup>: 44

Reference: 2017/00013

Plan and co-ordinates can be found on the Department of State Development website: [http://www.minerals.statedevelopment.sa.gov.au/exploration/public\\_notices](http://www.minerals.statedevelopment.sa.gov.au/exploration/public_notices) or by contacting Mineral Tenements on (08) 8463 3103.

## NATIONAL PARKS AND WILDLIFE ACT 1972

*Tallaringa Conservation Park Management Plan—Draft*

I, JOHN ERWIN SCHUTZ, Director of National Parks and Wildlife, hereby give notice under the provisions of Section 38 of the National Parks and Wildlife Act 1972, that a draft management plan has been proposed for Tallaringa Conservation Park.

Copies of the draft plan may be inspected at or obtained from the offices of the Department of Environment, Water and Natural Resources at:

- [www.environment.sa.gov.au/parkmanagement](http://www.environment.sa.gov.au/parkmanagement);
- Natural Resources Centre—Adelaide, Ground floor, 81-95 Waymouth Street, Adelaide, S.A. 5000; and
- Natural Resource Centre—SA Arid Lands, Level 1, 9 Mackay Street, Port Augusta, S.A. 5700.

Any person may make representations in connection with the draft management plan during the period up to and including 14 July 2017.

Written comments should be forwarded to Amy Allen, Project Officer, Protected Areas Unit, Department of Environment, Water and Natural Resources, G.P.O. Box 1047, Adelaide, S.A. 5001 or emailed to [DEWNRProtectedAreaManagement@sa.gov.au](mailto:DEWNRProtectedAreaManagement@sa.gov.au). Submissions may also be made online at <http://yoursay.sa.gov.au/>.

Dated 5 April 2017.

J. E. SCHUTZ, Director,  
National Parks and Wildlife

## NATIONAL PARKS AND WILDLIFE (NATIONAL PARKS) REGULATIONS 2016

*Part Closure of Coffin Bay National Park*

PURSUANT to Regulations 7 (3) (a) and 7 (3) (d) of the National Parks and Wildlife (National Parks) Regulations 2001, I, Grant Anthony Pelton, as Director, Regional Programs, Parks and Regions, authorised delegate of the Director of National Parks and Wildlife, close to the public, part of Coffin Bay National Park from 6 a.m. on Monday, 1 May 2017 until 6 p.m. on Friday, 5 May 2017.

The closure applies to the area encompassing all of the Park to the north and west of the Black Rocks Hike Carpark, including the Whidbey Wilderness Protection Zone. The remainder of the Park including the Black Springs Campground will remain open to the public during this period, with the exception of a section of Long Beach, which will remain closed to vehicular traffic, as previously detailed in a notice published in the *South Australia Government Gazette* dated 6 January 2011, on page 18.

The purpose of the closure is to ensure the safety of the public during a pest control and monitoring program within the reserve(s) during the period indicated.

Dated 24 March 2017.

G. A. PELTON, Director,  
Regional Programs, Parks and Regions,  
Department of Environment, Water and Natural Resources

## NOTICE TO MARINERS

No. 4 OF 2017

*South Australia—Murray River—Upstream of Berri—Recording Platform Placement*

MARINERS are advised that a floating platform will now be located at the following position from 1 April 2017:

Latitude 34°16'15.8"S, longitude 140°37'27.2"E.

The platform will be located at this position until 1 December 2025.

The platform has a yellow St. Andrews cross top mark, and is fitted with reflectors. It is also fitted with an amber flashing light.

Mariners are further advised to navigate with caution when operating in the vicinity of the platform.

Charts affected: Nil

Publications affected: Nil

Adelaide, 24 March 2017.

STEPHEN MULLIGHAN, Minister for  
Transport and Infrastructure

DPTI 2017/02277/01

## PETROLEUM AND GEOTHERMAL ENERGY ACT 2000

*Suspension of Petroleum Exploration Licence—PEL 637*

PURSUANT to Section 90 of the Petroleum and Geothermal Energy Act 2000, notice is hereby given that the abovementioned Petroleum Exploration Licence has been suspended for the period from and including 23 March 2017 until 22 September 2017, under the provisions of the Petroleum and Geothermal Energy Act 2000, pursuant to delegated powers dated 21 March 2012.

The expiry date of PEL 637 is now determined to be 2 November 2017.

Dated 28 March 2017.

B. A. GOLDSTEIN,  
Executive Director,  
Energy Resources Division,  
Department of State Development,  
Delegate of the Minister for Mineral Resources and Energy

## PETROLEUM AND GEOTHERMAL ENERGY ACT 2000

*Suspension of Condition  
Extension of Licence Term  
Petroleum Exploration Licence—PEL 638*

PURSUANT to Section 76A of the Petroleum and Geothermal Energy Act 2000, notice is hereby given that Condition 1 of Petroleum Exploration Licence PEL 638 has been suspended for the period from and including 3 May 2017 to 2 May 2018, under the provisions of the Petroleum and Geothermal Energy Act 2000, pursuant to delegated powers dated 21 March 2012.

The term of PEL 638 has been extended by a period corresponding to the period of suspension, such that PEL 638 will now expire on 2 May 2018.

The effect of this suspension of licence Condition 1 would not have altered the outcome of the original competitive tender process.

Dated 29 March 2017.

B. A. GOLDSTEIN,  
Executive Director,  
Energy Resources Division,  
Department of State Development,  
Delegate of the Minister for Mineral Resources and Energy

## PETROLEUM AND GEOTHERMAL ENERGY ACT 2000

*Suspension of Petroleum Exploration Licence—PEL 71*

PURSUANT to Section 90 of the Petroleum and Geothermal Energy Act 2000, notice is hereby given that the abovementioned Petroleum Exploration Licence has been suspended for the period from and including 26 March 2017 until 25 March 2018, under the provisions of the Petroleum and Geothermal Energy Act 2000, pursuant to delegated powers dated 21 March 2012.

The expiry date of PEL 71 is now determined to be 5 May 2021.

Dated 29 March 2017.

B. A. GOLDSTEIN,  
Executive Director,  
Energy Resources Division,  
Department of State Development,  
Delegate of the Minister for Mineral Resources and Energy

## ROAD TRAFFIC ACT 1961

*Authorised Officers to Conduct Drug Screening Tests*

I, GRANT STEVENS, Commissioner of Police, do hereby notify that on and from 22 March 2017, the following persons were authorised by the Commissioner of Police to conduct drug screening tests as defined in and for the purposes of the:

Road Traffic Act 1961;  
Harbors and Navigation Act 1993; and  
Rail Safety National Law (South Australia) Act 2012.

PD Number	Officer Name
-----------	--------------

73924	Bevis, Mark Robert
75390	Evans, Haydn Thomas
74881	Hicks, Natascha Magda
72903	Kelley, Anita
74866	Lovegrove, Angus Thomas
72391	Shephard, Shane Michael
72492	Silvy, Joshua Leigh
54247	Thredgold, Alicia Louise
78944	Twiggs, Christopher John
72894	Wills, David Gary

GRANT STEVENS, Commissioner of Police

## SECURITY AND INVESTIGATION INDUSTRY ACT 1995

*Exemption*

TAKE notice that I, Dini Soulio, Commissioner for Consumer Affairs, as delegate for the Minister for Business Services and Consumers, pursuant to Section 33 of the Security and Investigation Industry Act 1995, hereby exempt Sodexo Remote Sites Pty Ltd (ACN 009 105 980) on the condition set out in Schedule 1, from compliance with Section 8 (3a).

## SCHEDULE 1

Exemption applies to directors Robert Stern, Gilles Vestur and Aurelien Sonet only.

Dated 28 March 2017.

D. SOULIO,  
Commissioner for Consumer Affairs,  
as Delegate for the Minister for  
Business Services and Consumers

## SHOP TRADING HOURS ACT 1977

*Temporary Exemption*

NOTICE is hereby given that, pursuant to Section 5 (9) (b) of the Shop Trading Hours Act 1977 (the Act), I, John Rau, Minister for Industrial Relations, do hereby declare that shops within the ambit of Sections 13 (5a) and 13 (5b), situated within the Greater Adelaide Shopping District, are exempt from the provisions of the Act, subject to the following conditions:

- This exemption will apply on Saturday, 15 April 2017 until 5 p.m.
- Normal trading hours prescribed by Section 13 of the Act shall apply at all other times.
- All employees working during these extended hours will do so on a strictly voluntary basis.
- Any and all relevant industrial instruments are to be complied with.
- All work health and safety issues (in particular those relating to extended trading hours) must be appropriately addressed.

Dated 20 March 2017.

JOHN RAU, Deputy Premier,  
Minister for Industrial Relations

## FISHERIES MANAGEMENT (PRAWN FISHERIES) REGULATIONS 2006

*Surveying in the Spencer Gulf Prawn Fishery*

TAKE notice that pursuant to Regulation 9A of the Fisheries Management (Prawn Fisheries) Regulations 2006, the notice dated 21 March 2017, prohibiting fishing activities in the Spencer Gulf Prawn Fishery is hereby varied such that it will not apply to the holders of a Spencer Gulf Prawn Fishery licence issued, pursuant to the Fisheries Management (Prawn Fisheries) Regulations 2006, listed in Schedule 1 or their registered master insofar as they may use prawn trawl nets in accordance with the conditions of their fishery licence for the purpose of undertaking a prawn survey during the period specified in Schedule 2, subject to the conditions contained in Schedule 3 unless this notice is varied or revoked.

## SCHEDULE 1

Licence No.	Licence Holder	Boat Name
P09	Bartolomeo Puglisi	<i>Angelina</i>
P13	A Lukin Nominees Pty Ltd	<i>Kylie</i>
P16	Coral Justice	<i>Night Stalker</i>
P21	Spencer Gulf Nominees Pty Ltd	<i>Kylett</i>
P24	Thornhill Pty Ltd	<i>Sandy S</i>
P33	Wellmet Pty Ltd	<i>Beauie J</i>
P34	Frane Bralic	<i>Cvita B</i>
P38	Facoma Pty Ltd	<i>Atlas</i>

## SCHEDULE 2

Commencing at sunset on 24 March 2017 and ending at sunrise on 25 March 2017.

## SCHEDULE 3

1. For the purposes of this notice the trawl survey areas cannot include any waters of a habitat protection zone or a sanctuary zone of a marine park established under the Marine Parks Act 2007.

2. The licence holders listed in Schedule 1 or their registered master must comply with all regulations and conditions that apply to fishing activities undertaken pursuant to their licence, in addition to the conditions imposed by this exemption.

3. The licence holders listed in Schedule 1 must accurately complete the table attached as Table 1, and submit to PIRSA Fisheries and Aquaculture by email to [pirsa.fishwatch@sa.gov.au](mailto:pirsa.fishwatch@sa.gov.au) at least one hour prior to departure of the first vessel from port to engaging in the exempted activity.

4. All fish, other than King Prawns, Southern Calamari, Gould's Squid, Scallops, Octopus and Balmain Bugs taken during the exempted activity for survey purposes, are to be returned to the water immediately after capture.

5. While engaged in fishing activities or unloading the survey catch, the licence holders listed in Schedule 1 or their register master must have a copy of this notice on board the boat or near his person. This notice must be produced to a Fisheries Officer if requested.

6. No fishing activity may be undertaken between the prescribed times of sunrise and sunset for Adelaide (as published in the *South Australian Government Gazette*) during the period specified in Schedule 2.

7. The licence holders listed in Schedule 1 or their register master must not contravene or fail to comply with the Fisheries Management Act 2007, or any other regulations made under that Act except where specifically exempted by this notice.

This notice does not purport to override the provisions or operation of any other Act including, but not limited to, the Marine Parks Act 2007. The notice holder and his agents must comply with any relevant regulations, permits, requirements and directions from the Department of Environment, Water and Natural Resources when undertaking activities within a marine park.

Dated 24 March 2017.

S. SHANKS, Prawn Fishery Manager,  
Delegate of the Minister for Agriculture, Food and Fisheries

## HOUSING IMPROVEMENT ACT 1940

*Sub-Standard Revocations*

WHEREAS by notice published in the *Government Gazette* on the dates mentioned in the following table the South Australian Housing Trust Board Delegate did declare the houses described in the said table to be sub-standard for the purposes of Part 7 of the Housing Improvement Act 1940, and whereas the South Australian Housing Trust Board Delegate is satisfied that each of the houses described hereunder has ceased to be sub-standard, notice is hereby given that, in exercise of the powers conferred by the said Part, the South Australian Housing Trust does hereby revoke the said declaration in respect of each house.

## MINING ACT 1971

*Determination for a Mining Proposal for the Bird-in-Hand Gold Project*

NOTICE is hereby given in accordance with Regulations 30 (3) and 49 (3) of the Mining Regulations 2011, determining the minimum information required to be provided in a mining proposal and/or management plan for a mineral lease (ML) and any associated miscellaneous purposes licence (MPL) applications for a project incorporating the Bird-in-Hand Gold Deposit located in Woodside, South Australia.

**1. REQUIREMENT FOR DECLARATION OF ACCURACY**

The mining proposal and/or management plan must include a signed statement by the applicant in accordance with Regulation 30 (4) and/or Regulation 49 (4) that the content of the mining proposal and/or management plan has been reviewed and is accurate.

Provide a summary of the steps undertaken to review the mining proposal and/or management plan and ensure its accuracy.

**2. DESCRIPTION OF THE EXISTING ENVIRONMENT**

*Each of the elements of the existing environment listed in Sections 2.1-2.19 must be described only to the extent that they may need to be considered in assessing the potential impacts of the proposed mining operations. If the element is not likely to be impacted by the operation, a statement to that effect must be included (note: the environment is defined in Section 6 (4) of the Mining Act 1971).*

**2.1 Topography and landscape**

Provide a description and map of the topography and landscape of the:

- application area; and
- general surroundings.

**2.2 Climate**

Provide:

- a summary of rainfall and temperature patterns, evaporation rates, and wind directions and speed (including maximum wind gusts);
- details of the maximum average recurrence interval or annual exceedance probability rainfall event used for the operational and closure design of the project, and the justification for the value(s) selected; and
- include graphs of cumulative deviation from the mean rainfall for the nearest weather station(s).

**2.3 Topsoil and subsoil**

Provide:

- a description of the soil profile (type and depth), and the characteristics and/or productivity of all soils on the application area (show this information on a map if there is a variation in soils over the application area); and
- identify any soil characteristics, including (but not limited to) erodibility, acid sulfate, sodic or non-wettable soils, that may require control measures to reduce environmental impacts during operations or rehabilitation.

**2.4 Geology**

Provide a description of the following, as a minimum:

- regional geology;
- geology within the application area, including but not limited to:
  - location, dimensions and orientation (dip and strike), and extent of the mineral resource and ore reserve;
  - composition of all rock types that are proposed to be disturbed;
  - interpretation of the stratigraphy of the rocks hosting the deposit as well as any overlying and adjacent rock units; and
  - a description and plan of potential for extension to the orebody.
- representative cross-sections, long projection and a geological map of the lease application area showing the location of rock types and rock units present; and
- the exploration data on which the geological interpretation was based on.

**2.5 Geochemistry and geohazards**

Provide:

- a geochemical assessment of all rock types that are proposed to be disturbed, based on representative sampling and analysis that includes the identification and quantification of, but not limited to, sulfide minerals that have the potential to generate acid or mobilise metals into the environment. All data used in this assessment must be provided; and
- a mineralogical assessment of all the rock types that are proposed to be disturbed, based on representative sampling and analysis for the presence and quantification of (but not limited to) radioactive minerals, asbestos or minerals that have the potential to produce respirable silica. All data used in this assessment must be provided.

Describe the potential for any of the following natural geohazards to be present in the application area:

- structural instability, including slips, faults, karst features or geological discontinuities;
- major seismic events (based on historical data).

**2.6 Hydrogeology**

Provide:

- a description of the local and regional hydrogeology, detailing both the stratigraphy and hydrostratigraphy (Note: The information provided for Sections 2.4 and 2.6 must be consistent);
- details of local groundwater systems, including:
  - information on water quality and static water level (including seasonal fluctuations), recharge and discharge mechanisms, aquifer hydraulic properties, location of any aquifer (shown on a plan) and static water level of any other known drillholes; and
  - analysis of seasonal and long term water level trends, incorporating rainfall cumulative deviation plots and groundwater use (eg: licenced groundwater volumes, allocations and extractions).

- the environmental value of the water resource(s) determined according to the Environment Protection (Water Quality) Policy 2015 and Australian and New Zealand guidelines for fresh and marine water quality (Australian and New Zealand Environment and Conservation Council & Agriculture and Resource Management Council of Australia and New Zealand, National Water Quality Management Strategy Paper No. 4, 2000) or as amended;
- a description of the existence, location and value of all water dependent ecosystems within the application area and within and immediately surrounding the extent of predicted hydrogeological impact of the proposed mine operations;
- an assessment of current and historical abstraction of local groundwater by the landowner(s), other users and historic dewatering from the Bird-in-Hand Mine and related information, including baseline survey of bores, water level, groundwater quality, bore construction details, status and purpose, estimated volume and timing of use, pump depths, and collar/ground elevations;
- provide details on the current availability of water resources within both the Eastern Mount Lofty Ranges Prescribed Water Resources Area and the Western Mount Lofty Ranges Prescribed Water Resources Area;
- a plan, to scale, identifying the application area, all drillholes and boreholes relevant to the identification of hydrogeology, water dependent ecosystems, direction of groundwater flow, any potential paleo channels and recharge areas; and
- if proposed mining operations are likely to intersect one or more aquifer units, provide:
  - a plan showing potentiometric groundwater elevation contours (annotated with data points) for each aquifer and include the location of all drillholes and boreholes and supporting tabulated data used in developing the contours. The extent of the plan must be the same as the plan required by Section 2.6.1;
  - the relationship between aquifer units and stratigraphic units. Should the MP describe a single aquifer across multiple stratigraphic units, information to justify this conclusion must be provided; and
  - cross-section(s) of the interpreted hydrostratigraphy showing the known and inferred groundwater levels, groundwater flow direction, recharge and discharge mechanisms (if applicable), proposed mining operations, and relevant drillholes (with screened intervals) and boreholes used in developing the cross-section(s). Cross sections must be accurate, scaled and developed from supporting drill hole data, and show the predicted extent of the zone of influence of the proposed mine on groundwater.

#### 2.6.1 Groundwater Modelling

Develop a numerical groundwater flow model as per the Australian Groundwater Modelling Guidelines (2012) to model the existing groundwater environment and to model the potential impacts of proposed mining operations on groundwater receptors (as required by Section 6 of this Determination). Include an independent peer review by an experienced hydrogeologist with modelling experience as per the Australian groundwater modelling guidelines (2012).

Provide:

- the full modelling report as an appendix to the mining proposal including a plan showing the modelled potentiometric groundwater elevation contours (annotated with data points) for each aquifer;
- Map of maximum extent of drawdown for each aquifer resulting from the mining operation;
- Map of residual drawdown for each aquifer resulting from the mining operation post closure;
- Table providing modelled drawdown impacts on each well including well depth, pump depth and water level;
- Table providing modelled drawdown impacts on each water dependent ecosystem;
- a summary of the modelling report in the main body of the mining proposal; and
- the final independent peer review report which must include; an assessment of whether the model is fit for purpose, verification of model inputs, the results of the review of the model against Tables 9-1 and 9-2 of the Australian groundwater modelling guidelines (National Water Commission Waterlines Report Series No. 82, June 2012), the scope of the review and details of any actions undertaken as a consequence of the findings of the review.

#### 2.7 Hydrology

Provide a description and map of the current drainage patterns for the application area and water catchment including:

- location of watercourses, drains and dams;
- surface water catchment boundaries;
- direction of drainage and discharge from the application area;
- a statement describing if the application area is within an area where the water resources are prescribed under the Natural Resources Management Act 2004, and provide details on the current availability of water resources within the prescribed area;
- a statement if the application area is within a water protection area including areas under the River Murray Act 2003; and
- groundwater—surface water interactions.

Provide water quality data for identified watercourses, where there is potential for discharge into that watercourse from the proposed mining operation (whether intentional or not). Should identified watercourses be ephemeral, and it is not possible to collect water samples, provide a characterisation of sediments sampled from the watercourse bed upstream and downstream of the application area.

If there is potential for changing a flow regime (including change in flow volume) or discharge into these watercourses from the proposed mining operations, an assessment of the use of this water by the landowner, downstream users and water dependent ecosystems must be included.

#### 2.8 Vegetation, weeds and plant pathogens

Provide:

- a description of existing flora (native and introduced) in the application area and surroundings, and display on a map;
- the State conservation status and habitat value of native vegetation present in the application area;

- a description of the presence of Commonwealth Environment Protection and Biodiversity Conservation Act 1999 listed species and ecological communities;
- a description of the extent the application area and adjoining land is affected or potentially affected by pathogens and weeds, including phytophthora and broomrape; and
- if known, the history of land use to identify if the existing vegetation is the result of deliberate cultivation or natural regrowth arising from previous clearance.

### **2.9 Fauna**

Describe the native and feral fauna that may be present in the application area noting State or Commonwealth conservation status of all species, in particular if they are species of conservation significance or feral.

### **2.10 Caves**

Describe the presence of any caves in karst (limestone) areas within, or near to, the application area. A survey for the presence of caves must be performed if the application area is within, or near to, known caves or significant limestone formations. Provide a summary of the results of the survey.

### **2.11 Local community**

Provide a description of (including references to the source of any data used in forming the description):

- the local economy, services and employment; and
- the nearest towns or urban areas, with a summary of the demographics of the local population.

### **2.12 Landowners and land use**

Provide a description of (including references to the source of any data used in forming the description):

- the land ownership for all titles within and adjacent to the application area;
- the land use (historical, current and potential) for the application area and the areas potentially to be impacted by proposed mining operations;
- all commercial activities undertaken in proximity to proposed operations;
- the zoning as defined by relevant council (or out of council) development plans;
- any policies relevant to the application area, including council wide, zone specific and sub areas within a zone;
- known plans for future land use changes by other parties;
- a statement as to whether the application area falls within the Murray Darling Basin; and
- any other interests or restrictions on the application area, including:
  - public utility easements;
  - if the application is within land used for defence purposes;
  - any overlapping or adjacent tenements under the Mining Act 1971 or Petroleum and Geothermal Energy Act 2000;
  - any applicable exempt land under Section 9 of the Mining Act 1971, and any waivers of exemption obtained, and/or information on the status of waivers of exemption yet to be negotiated/finalised under Section 9AA of the Mining Act 1971; and
  - the status of negotiations with Native Title holders or claimants, if the application area includes non-freehold land.

Provide information relating to the prospect of obtaining access to land required for the proposed mining operation.

### **2.13 Proximity to infrastructure and housing**

Provide information and maps identifying the following within and near the application area:

- residences potentially to be impacted by the proposed mining operations;
- other human infrastructure such as (but not limited to) schools, hospitals, commercial or industrial sites, roads, sheds, bores, dams, ruins, pumps, cemeteries, scenic lookouts, roads, railway lines, fences, transmission lines, gas and water pipelines, and telephone lines (both underground and above ground); and
- public roads to be utilised or affected as part of proposed mining operations, including an estimate of the existing traffic movements.

### **2.14 Amenity**

Provide a description of scenic or aesthetic values for the application area and immediate surrounds, including caves or karst features or other features of community, tourist or visitor interest.

### **2.15 Air quality**

Provide a description of the existing levels of dust and contributors to air quality including odour (both natural and anthropogenic).

### **2.16 Noise**

Provide a description and measurement data of the existing levels of noise and contributors to noise (both natural and anthropogenic).

### **2.17 Heritage (Aboriginal, European, geological)**

Detail:

- any registered heritage sites in or adjacent to the application areas that are protected under legislation (in so far as may be permitted under the relevant legislation); and
- include a statement concerning whether or not an Aboriginal cultural heritage survey has been conducted by the proponent and, if so, the results of the survey.

### **2.18 Proximity to conservation areas**

Provide information on proximity to national parks and reserves, private conservation areas, Commonwealth recognised conservation areas, heritage agreement areas and geological heritage sites.

### **2.19 Pre-existing site contamination and previous disturbance**

Provide information on any known existing contamination of the site and of any disturbance by previous mining operations or other activities.

### 3. DESCRIPTION OF THE PROPOSED MINING OPERATIONS

Each of the elements listed in Sections 3.1-3.10 must be described only to the extent that they apply to the proposed mining operation. If the element (or part of the element) is not applicable to the proposed mining operation, a statement to that effect must be made and the element (or part of the element) description may be omitted.

#### 3.1 General description and maps/plans of operations

Provide:

- a summary description of all elements of the proposed mining operation, including mining, processing and waste management (include maps/plans).

##### 3.1.1 Options

Provide:

- a summary description of relevant options considered for mining, processing and mine waste management strategies, and provide justification for the chosen strategies, including a description of any elimination or substitution strategies that have been adopted to control a hazard in order to protect the environment.

#### 3.2 Reserves, products and market

##### 3.2.1 Ore reserves and mineral resources

Provide:

- a statement of the current ore reserve and mineral resource estimates in the application area and a brief description of the basis of this estimate; include Australasian Joint Ore Reserves Committee (JORC) compliant reserve and resource estimates (and categories) if available;
- a statement of what reserve and/or resource forms the basis for the application;
- details of other known or potential ore reserves, mineral resources, historic mines or exploration targets adjacent to, or in close proximity to, the application area;
- a description of the potential for other known or potential ore reserves, mineral resources, historic mines or exploration targets adjacent to, or in close proximity to, the application area to increase the life of mine; and
- steps that have been taken to ensure proposed mining operations will not sterilise/prevent future extraction of mineral resources.

##### 3.2.2 Production rate and products

Provide:

- a statement of the relevant commodities listed in Section 3.2.3 below that are proposed to be extracted, processed and sold, and the expected market or end use;
- a statement of any other commodities present in the application area that are not proposed to be recovered for sale, and the reasons for this decision;
- a quantitative estimate of production of mine gate product(s) for the life of mine, and a schedule of the annual production of mine gate product(s);
- a statement if any extractive minerals (as defined by Section 6 of the Mining Act 1971) will leave the lease.

##### 3.2.3 Commodities list

###### Refined metals

Cobalt; Copper; Gold; Iron; Lead; Silver; Steel/pig iron; Thorium; Zinc.

###### Mineral ores and concentrates

Iron ore—hematite direct shipping ore (DSO); Iron ore—magnetite DSO; Iron ore—magnetite concentrate; Heavy mineral concentrate; Rare earth elements; Contained copper in ore, concentrate or cement; Contained gold in ore or concentrate; Contained silver in ore or concentrate; Contained lead in ore or concentrate; Contained zinc in ore or concentrate.

###### Gems and semi-precious stones

Amethyst; Calcite; Chrysoprase; Diamond; Jade; Opal; Quartz; Sapphire; Scholzite; Talc; Staurolite; Topaz.

###### Industrial minerals

Alunite; Andalusite; Anatase; Barite; Calcrete (agricultural purposes); Celestite; Cement shale; Diamond; Dolomite (use either industrial or agricultural); Diatomite; Feldspar; Garnet; Graphite; Gypsum (use either plaster, cement or agricultural); Ilmenite; Kaolin; Kyanite; Leucoxene; Lime sand (calcareous dune sands; use either chemical, agricultural or flux); Limestone (use either chemical, agricultural, cement, flux or whiting); Magnesite; Marble (use either chemical, agricultural, cement or flux); Mica; Micaceous hematite; Monazite; Palygorskite; Peat; Phosphate; Potash; Rutile; Salt; Shell grit (use either industrial or agricultural); Silica (rocks containing mainly silica-quartzite, flint, vein quartz etc.); Silica sand (use either filter, foundry or glass); Sillimanite; Talc (use either pharmaceutical or filler); Vermiculite; Wollastonite; Xenotime; Zircon.

#### 3.3 Exploration activities

Provide information that details all exploration activities to be undertaken within the application area as a part of the proposed mining operation, including:

- purpose of the activities (i.e. resource drill-out or resource extension);
- types of drilling;
- geophysical techniques likely to be used;
- earthworks required to conduct exploration activities;
- equipment required to conduct exploration activities; and
- rehabilitation methods for exploration works (including that not yet rehabilitated from previous tenure).

#### 3.4 Mining activities

##### 3.4.1 Type or types of proposed mining operation to be carried out

Provide a clear statement on the type or types of mining operation proposed to be carried out, such as:

- the mining method(s) to be adopted.

### 3.4.2 *Underground workings*

Describe proposed underground workings, including (but not limited to):

- proposed stopping methods;
- potential surface disturbance resulting from underground mining;
- declines, shafts, tunnels, boreholes, ventilation intakes and exhausts; and
- maps, plans and cross-sections.

Where underground fill is proposed, describe:

- type of fill to be used;
- chemical stability of the proposed fill;
- the volume percentage of underground void to be filled;
- sequence of filling;
- source and proportion of fill; and
- maps, plans and cross-sections showing the proposed fill.

Where grouting of underground workings is proposed to control groundwater inflows describe and provide:

- the proposed grout type;
- parts of the underground workings to be grouted; and
- information that demonstrates the effectiveness of the proposed grouting strategy including references to any mines that have used similar grouting strategies to limit groundwater into underground workings.

### 3.4.3 *Material movements*

Provide:

- expected life of mine (including scope for extension);
- annual mine production rates and mine production schedule of ore and waste rock over the life of mine; and
- life of mine and annual strip ratios.

### 3.4.4 *Use of explosives*

If explosives are used, describe:

- type of explosives used on the site;
- proposed timing and frequency of blasting;
- size of blasts; and
- storage of explosives (amount, type, detailed location and method of storage).

### 3.4.5 *Type of mining equipment*

Provide a description of the equipment (fixed and mobile) proposed to be used in the mining operation in terms of:

- type, size and capacity of machines;
- approximate number of units;
- noise outputs;
- exhaust outputs; and
- fire ignition sources.

### 3.4.6 *Mine dewatering*

Provide:

- full calculations of estimated inflows of groundwater, stormwater and water from any other mining activities into mine workings;
- details of proposed mine dewatering infrastructure, and mine water management and disposal;
- contingency measures for greater than planned water inflows into mine workings; and
- a mine water balance of water inflows and water outflows during operations and at mine completion (if not included in the water balance in Section 3.7.8).

### 3.4.7 *Sequence of mining and rehabilitation operations*

Provide the following information on the sequence of operations in both text and map form:

- description of the sequence of mining stages;
- proposed sequencing of progressive and final rehabilitation, including demonstration that progressive rehabilitation has been integrated with the mining plan;
- an estimation of the quantities of sulfide minerals that have the potential to generate acid or mobilise metals, or other hazardous minerals to be mined at each mining stage; and
- any mineral resource that may be sterilised from future mining by the proposed mining operations.

### 3.4.8 *Rehabilitation strategies and timing*

Describe all activities, strategies and designs relating to mine closure for rehabilitation of open pit and/or underground workings, stockpiles, explosives storage, mining equipment and mine dewatering infrastructure. Include timing of these activities and all opportunities for progressive rehabilitation. Include (but not limited to) the maximum area of land disturbed by proposed mining operations at any time, battering of mining faces and other earthworks, mine void backfilling, abandonment bunds, sealing of portals and ventilation shafts, soil management, revegetation and expected water infill rates.

## 3.5 **Surface ore, mine waste handling, stockpiling and transport**

### 3.5.1 *Type of mobile equipment*

For mobile equipment to be used in surface ore, mine waste handling and in transporting the mine product to the point of sale, describe:

- type, size and capacity of machines;
- approximate number of units;

- noise outputs;
- exhaust outputs; and
- fire ignition sources.

### 3.5.2 *Product transport*

For product transport, describe:

- destination of mine product point of sale, and proposed transport route;
- estimated daily vehicle movements of product transported from the mine site to point of sale; and
- any designs for enclosing or sealing the truck loads for product transport.

### 3.5.3 *Conveyors and pipelines*

Provide a description of any conveyors or pipelines to be used for transporting material to or from the mine, processing facilities and the point of sale including:

- length, size (volumes to be transported), design and type of construction and location;
- the material being transported;
- noise sources;
- dust sources and composition;
- fire ignition sources; and
- maps, plans and cross-sections.

### 3.5.4 *Stockpiles*

Describe:

- location, size, shape and height of ore, product, subsoil and topsoil stockpiles;
- method of placement;
- method of stabilisation and erosion control of all stockpiles; and
- water movement through stockpiles.

The location, maximum height and extent of all stockpiles must be shown on a map.

### 3.5.5 *Rehabilitation strategies and timing*

Detail all activities, strategies and designs relating to mine closure for removal, disposal and rehabilitation of material transport systems, including timing of these activities.

## 3.6 **Wastes**

### 3.6.1 *Waste rock facilities*

For waste rock facilities provide:

- the estimated tonnes and volumes of all waste rock to be stored;
- the reserve and any resource or potential resource that the estimated tonnes and volumes of waste rock is based on;
- the type, location, size, shape, height and method of construction of permanent and temporary waste storage facilities;
- a geochemical and geotechnical assessment of the waste rock based on the geochemical and geotechnical properties determined from the analysis of representative sampling of all waste rock types to be disposed;
- an assessment on the weathering and erosive potential of waste rock to be disposed;
- conceptual specifications, drawings and plans for the design, construction, operation and completion of all facilities;
- the method and rate of waste rock disposal;
- where relevant, a description of the placement and encapsulation of waste material deemed to be hazardous, including potentially acid forming material (PAF);
- the method of stabilisation and erosion control of waste storage facilities, both during operations and post completion;
- surface water runoff control on disturbed and rehabilitated areas;
- a geotechnical stability assessment and a factor of safety analysis;
- an assessment of seepage of liquids through the waste rock storage facilities;
- strategies for the containment of any seepage that has the potential to impact the environment;
- an assessment of the post completion chemical and physical stability of the structure following rehabilitation, including the expected extent of erosion; and
- an assessment of the source, pathway and ultimate fate of any potential mobile contaminants.

### 3.6.2 *Other processing wastes*

Provide:

- the volumes and composition of all solid and liquid wastes produced;
- estimated volumes of waste processing water, reverse osmosis reject water, water content of solid wastes, and method of disposal or recycling;
- waste water composition;
- disposal and management of any hazardous material or contaminants within waste including radioactive, toxic, corrosive or flammable materials; and
- the source, pathway and ultimate fate of any potential mobile contaminants.

### 3.6.3 *Industrial and commercial wastes*

List any industrial and commercial wastes generated including, but not limited to:

- putrescible waste, including sewage;
- oils and other hydrocarbons; and
- tyres.

For each waste type, describe the method of disposal including:

- offsite disposal;
- on site waste disposal (including size, location and construction details);
- recycling (either on or offsite);
- the type, area and layout of sewage systems to be installed at the site; and
- describe what, if any approvals are required for the disposal of waste.

For each type of waste, describe any potential contaminants that may be generated from onsite storage, and the ultimate fate of those contaminants.

#### 3.6.4 *Rehabilitation strategies and timing*

Detail all activities, strategies and designs relating to mine closure, including timing of these activities and all opportunities for progressive rehabilitation of waste rock and any other waste to be left on site.

### 3.7 **Supporting surface infrastructure**

#### 3.7.1 *Access*

Describe:

- access route to the proposed mining operations;
- indicate if any new roads are to be constructed, or if existing roads or intersections (public and private) are to be upgraded;
- transport system(s) used to and from the proposed mining operations and the estimated number of vehicle movements per day; and
- airport/airstrips to be constructed.

#### 3.7.2 *Accommodation and offices*

Describe:

- number, area, size, type of construction and location of accommodation buildings, caravans or camp, and associated structures to be used on site; and
- state if temporary or permanent.

#### 3.7.3 *Public services and utilities used by the operation*

Describe:

- sources of external services that are supplied to the proposed mining operations;
- proposed routes for connection if any new connections to public infrastructure are required; and
- any existing surface infrastructure that has been and/or the extent it may be affected by the proposed mining operations.

#### 3.7.4 *Visual screening*

Describe the type of screening, including existing or proposed vegetation (i.e. species and density of plantings).

#### 3.7.5 *Fuel and chemical storage*

For all fuels and chemicals stored on site, detail:

- types of bulk chemicals and the volumes of each; and
- details on storage, bunding and containment for all chemical and fuel storage vessels.

#### 3.7.6 *Site security*

Describe infrastructure and measures that will be adopted to prevent unauthorised access by the public, including fencing, signage etc.

#### 3.7.7 *Stormwater, silt control and drainage*

Describe:

- location and design of silt management structures;
- runoff control on disturbed and rehabilitated areas;
- storage, diversion and disposal of clean water (discharge water must comply with the applicable Environment Protection Authority South Australia water quality policy); and
- a whole of site stormwater balance, if not included in the water balance in Section 3.5.4.

Provide a plan showing the surface water movement for the whole mine site.

#### 3.7.8 *Water management*

Describe how water will be managed to meet the objectives of the relevant Water Allocation Plan(s).

Provide:

- a water balance including:
  - approximate water volumes required;
  - a summary of the inputs and outputs (including any proposed discharge of water from or within the proposed tenement);
  - determination of net surplus or deficit; and
  - process flowsheet showing all streams including stormwater management and mine dewatering tabulated yearly water balance showing all estimated inputs and outputs for the life of mine.
- a description of all water storage infrastructure, including:
  - size, capacity, layout and location of ponds/tanks;
  - design and construction methods;
  - quality of water to be stored in each pond/tank; and
  - minimum freeboard to be maintained.

#### 3.7.9 *Rehabilitation strategies and timing*

Detail all activities, strategies and designs relating to mine closure for rehabilitation of supporting surface infrastructure. Provide details for timing of closure activities, including all opportunities for progressive rehabilitation.

### 3.8 Modes and hours of operation

Describe:

- the proposed operating hours for each element of the mining operation, including but not limited to:
  - underground mining;
  - surface ore operations, waste handling, stockpiling and water management operations;
  - ore transport;
  - maintenance; and
  - onsite office hours.
- how the operating hours have been designed to take into consideration potential impacts on surrounding businesses and landowner(s).

The description of operating hours must detail whether the proposed mining operation will be worked on a continuous (24 hour, 7 days a week), regular periodical or campaign basis.

If the proposed elements of the mining operation are to be worked on a regular periodical basis, specify:

- proposed period(s) (daily, weekly and public holidays) to be worked; and
- proposed start and finish hours the site is to be worked per period.

If the proposed elements of the mining operation are to be worked on a campaign basis, specify:

- minimum hours the site is to be worked per year;
- the minimum time of each campaign;
- the maximum and minimum time between campaigns;
- define the beginning and end of each campaign;
- hours of mining operations during campaign;
- days of mining operations during campaign;
- determining factors for initiating and ceasing a campaign;
- maximum and minimum tonnage of each campaign; and
- maximum and minimum tonnage of production per year.

### 3.9 Vegetation clearance

#### 3.9.1 Description of vegetation clearance

If clearing of native vegetation is proposed, a plan and description of the vegetation present in the application area must be provided, showing:

- the extent of any proposed vegetation clearance; and
- the likelihood of the presence of threatened flora.

### 3.10 Mine completion

#### 3.10.1 Description of mine site at completion

Provide a description of the mine site as it will be at completion after all rehabilitation and closure activities have been completed, including:

- potential land use options;
- landforms;
- proposed vegetation covers (including native vegetation that will not be disturbed due to proposed mining operations);
- natural contours of land not to be disturbed by proposed mining operations;
- any mining infrastructure that will remain on site and will become the responsibility of the landowner;
- location, description and management of waste disposal areas;
- location of reshaped and rehabilitated areas showing proposed surface contours and revegetation;
- mine voids;
- location of stored and/or exposed PAF material and/or other hazardous materials;
- expected final water level and time to reach this level, and water quality of mine voids;
- location of surface water infrastructure including ponds and diversions; and
- representative plans and cross-sections that show:
  - pre-mining natural surface;
  - emplacement areas, waste disposal areas and disturbed areas;
  - final rehabilitated surface;
  - where relevant, backfilled and remaining underground workings;
  - predicted final groundwater levels; and
  - interpreted geology including all rock types.

Provide a description of the proposed mechanism for transferring responsibility for any potential residual liability (i.e. ongoing maintenance or monitoring) subsequent to surrender of the tenement.

### 3.11 Resource inputs

#### 3.11.1 Workforce

For the proposed workforce (for all mining operations (mining, processing, waste management and supporting surface infrastructure) describe:

- how operations on the site will be managed;
- number and workforce breakdown by job type; and
- source of employees.

#### 3.11.2 Energy sources

For the proposed energy sources and usage provide:

- estimates of total annual energy usage (from all sources, including personnel transport and ore transport to point of sale);
- expected sources of energy;
- potential for efficiency gains;
- amount and percentage of zero emission energy to be utilised;
- equivalent annual CO<sub>2</sub> generated; and
- any carbon offsets proposed.

#### 3.11.3 Water sources

Provide details on the source(s) of water to be used at the mine, expected usage, including:

- expected annual water usage by source;
- indicate if any water usage by source will be more than 5% of the total annual water withdrawal for that source;
- percentage of water that will be recycled;
- water discharge by quantity, quality and destination; and
- estimated annual water budget showing all inputs, outputs and a water budget flow diagram.

## 4. DESCRIPTION OF POTENTIAL BENEFITS

### 4.1 Social

Describe anticipated social benefits with justification where available, including:

- number of full-time employee positions that would be directly created by the proposal (not to include existing positions);
- the proportion of the workforce that would reside in the local community and the estimated impact on local employment;
- the proportion of the workforce that would reside in South Australia;
- any programs to target and assist Indigenous or local employment at the mine;
- training to be provided to employees and potential employees;
- approximate timelines for creation of the positions;
- potential for local business participation, and procurement of local goods and services;
- public health benefits;
- tourism or recreation opportunities; and
- any other potential social benefits and opportunities proposed during the development of the project, operation of the proposed mine and post mine completion.

### 4.2 Economic

Describe anticipated benefits, with justification where available, for the local, regional and state economy, including:

- revenue to be generated at the mine gate;
- the breakdown of capital and operating expenditures (spending in goods and services in local community, state and external to state);
- wages and other employee benefits;
- potential for value adding of a mined commodity;
- flow-on economic effects;
- economic benefits derived from local employment;
- potential to bring forward development of other mines in the area by utilising this mine's infrastructure;
- approximate royalty payments and other direct state government taxes profile; and
- any other potential economic benefits and opportunities proposed during the development of the project, operation of the proposed mine and post mine completion.

### 4.3 Environmental

Describe anticipated environmental benefits with justification where available, including:

- potential environmental benefits associated with the proposal;
- environmental benefits over and above rehabilitation activities to be paid or made in association with native vegetation clearance; and
- acquisition of new baseline environmental data.

## 5. CONSULTATION

### 5.1 Community Engagement Plan

Provide the Community Engagement Plan (CEP) that: includes (but not limited to) the plan for engagement on:

- the preparation of the mining lease application;
- the applicant's response to public submissions received during the statutory consultation for the mining lease application; and
- the proposed mining operations for the duration of the proposed mine as described in the Mining Lease Proposal.

Sets out the purpose, objectives and parameters of engagement with the community.

Identifies all community with an interest in or likely to be affected by the proposed mining operations.

Sets out the tools and techniques that the applicant intends to use for:

- identifying community attitudes and expectations;
- providing information to the community;
- receiving feedback from the community;
- analysing community feedback and considering community concerns or expectations;
- registering, documenting and responding to communications from members of the community;
- outlines an action plan to commence and maintain the engagement activities; and
- on the development of the proposed environmental outcomes in consultation with the owner of any land on which the mining operations are proposed to be carried out and any other person who, in the opinion of the applicant, may be directly affected by the proposed mining operations.

## 5.2 Results of Consultation

Summarise the results of the consultation that has been undertaken with any person who may be directly affected by the proposed mining operations, including:

- the results of the consultation undertaken with those identified stakeholders, including:
  - the concerns/issues raised; and
  - the response (if any) that is proposed to address those concerns.
- if any individual or group of similar affected persons were not able to be consulted, what steps were taken to consult with them; and
- a description of the steps taken to consult with the landowner and any other person who may be directly affected by the proposed mining operations on the development of the environmental outcomes proposed in Section 6.2.3.

## 6. MANAGEMENT OF ENVIRONMENTAL IMPACTS

### 6.1 Assessment of environmental impacts

#### 6.1.1 Elements of the environment

Describe the specific elements of the environment (the environment is defined in Section 6 (4) of the Mining Act 1971, which includes existing or permissible land use (Section 6 (4) (c)) that may reasonably be expected to be impacted by the proposed mining operation during construction, operation, and indefinitely post mine completion. Existing or permissible land use includes commercial and community business activities.

For each element of the environment identified:

- provide a description of the methods used to engage with stakeholders to gather information on the element of the environment and potential environmental receptors;
- provide a summary of any issues or considerations raised by stakeholders, and any relevant legislated or recognised standards in relation to the element of the environment;
- describe all potential environmental receptors including existing or permissible land use; and
- undertake an impact assessment of how the element could be potentially impacted by proposed mining operations (during construction, operation and post mine completion) through the provision of the information listed in the following Section 6.1.2.

#### 6.1.2 Potential impact events

Describe potential impact events associated with each phase of the proposed mining operations (construction, operation and post mine completion) and relevant to each element of the environment.

For the purpose of the impact assessment, a potential impact event is the combination of a source, a pathway and an environmental receptor.

The source, pathway and environmental receptor of each potential impact event must be described prior to the implementation of engineering or administrative control measures.

For each potential impact event identified in Section 6.1.2, provide:

##### 6.1.2.1 Source

A description of the source of the potential impact event which alone or in combination has the potential to cause harm to an environmental receptor.

##### 6.1.2.2 Pathway

A description of the potential pathway, means or route (with consideration of any natural barriers) by which an identified environmental receptor can be exposed to, or may reasonably be expected to be impacted by an identified source.

##### 6.1.2.3 Environmental receptor

A description of the environmental receptors, including existing or permissible land use that may reasonably be expected to be adversely impacted by the source, taking into account the considerations for the element of the environment described under 6.1.1.

##### 6.1.2.4 Description of uncertainty

Describe any significant degree of uncertainty pertaining to the evaluation of sources, pathways and environmental receptors, including (but not limited to) lack of site specific information, limitations on modelling and quality of data. Describe any assumptions connected with the identified uncertainty.

So far as is relevant, identify the sensitivity to change of any assumption that has been made, including whether a change in assumption may result in a new environmental impact.

##### 6.1.2.5 Confirmation of impact events

For each potential impact event provide:

- an analysis of whether a source, pathway and receptor does exist (and if not, or if it remains uncertain, provide an explanation for the conclusion); and
- a description of the likely impact from the source on the environmental receptor.

## 6.2 Control measures, uncertainty assessment, statement of environmental outcomes and criteria

For each impact event confirmed in Section 6.1.2.5, the information listed in Sections 6.2.1-6.2.5 must be provided:

### 6.2.1 Control measures

Describe the measures proposed to manage, limit or remedy each impact event. Demonstrate that the measures proposed are commensurate with the potential impacts, achieve compliance with other applicable statutory requirements and promote progressive rehabilitation.

Control measures proposed to manage, limit or remedy groundwater impact events must be peer reviewed by a suitably qualified independent expert. The review report must assess whether the control measures proposed are likely to achieve the proposed groundwater outcome/s. The report must also include identification of any risks, assumptions and uncertainties associated with the relevant control measures.

If native vegetation is proposed to be cleared, state the estimated quantum of significant environmental benefit (SEB) to be gained in exchange for the proposed clearance and describe how the SEB will be provided.

### 6.2.2 Description of uncertainty

Describe any significant degree of uncertainty pertaining to the likely effectiveness of proposed control measures, including (but not limited to) lack of site specific information, limitations on modelling and quality of data. Describe any assumptions connected with the identified uncertainty.

So far as is relevant, identify the sensitivity to change of any assumption that has been made and assess the likelihood of an outcome not being achieved if an assumption is later found to be incorrect.

### 6.2.3 Statement of proposed environmental outcomes

Provide a statement of the proposed environmental outcome(s) (including mine completion outcomes) for each impact event confirmed in Section 6.1.2.5.

The statement of environmental outcome(s) must describe the likely consequence of the expected impact on the environment by the proposed mining operations subsequent to the implementation of the control measures described in Section 6.2.1.

For impact events where the environmental receptor is a permissible land use, the likely economic and possible consequential loss arising from the expected impact on that permissible land use must be quantified.

Environmental outcomes must meet other applicable legislative requirements.

Provide a description and evidence of the steps taken to consult with the owners of any land on which mining operations are proposed, and third parties who may be directly affected by the proposed mining operations in the development of each environmental outcome.

Where clearance to native vegetation is proposed, the environmental outcome must state a commitment to compliance with the Native Vegetation Act 1991 and Native Vegetation Regulations 2003.

Mine completion outcomes must at least address the issues listed under Regulation 30 (1) (d).

### 6.2.4 Draft measurement criteria

Provide a draft statement of the criteria to be adopted to measure each of the proposed environmental outcomes. The draft criteria must as far as practical, comply with Regulation 65 (2) (d).

Where appropriate, recognised industry standards, codes of practice or legislative provisions from other Acts should be used as criteria.

Where native vegetation is proposed to be cleared, the criteria will include demonstration of the successful implementation of the significant environmental benefit.

### 6.2.5 Draft leading indicator criteria

As required by Regulation 65 (2) (e), where there is a high level of reliance on control measures to achieve an environmental outcome, provide a draft statement of leading indicator criteria that will be used to give an early warning that a control measure may fail or be failing.

## 6.3 Assessment of economic impacts on permissible land use

The information relating to permissible land use provided in accordance with Sections 6.1 and 6.2. must be developed by a person who is suitably qualified and experienced in economic impact assessment.

Information relating to permissible land use provided in accordance with Sections 6.1 and 6.2 must be peer reviewed by a suitably qualified (experienced in economic impact assessment) independent expert. The scope of the review, the report arising from the review, and a report of any actions undertaken as a consequence of the findings of that review must be included as an appendix to the mining proposal.

## 7. FORMAT OF THE MINING PROPOSAL

Unless otherwise specified by the Director of Mines or delegate:

- five hardcopies and an electronic version of the mining proposal must be submitted; the information in all must be identical;
- each page, plan or other separate sheet must include the mineral claim number(s), date of the mining proposal preparation and sequential page numbering; and
- The electronic version must be submitted in one single Acrobat PDF file. Microsoft Word compatible files must be submitted if requested by the Director of Mines or delegate.

## 8. MAPS AND PLANS

Unless otherwise specified by the Director of Mines or delegate, the elements described in Sections 8.1-8.4 must be included where applicable to the proposed mining operation.

### 8.1 General requirements for maps, plans and cross-sections

All maps and plans must conform to the following standards:

- Australian Height Datum (AHD);
- state and show the relevant datum;
- metric units;
- title, north arrow, scale bar, text and legend;
- date prepared and author;
- be of appropriate resolution and scale for represented information; and
- be legible in both the hardcopy and electronic versions of the submission.

All cross-sections must conform to the following standards:

- Australian Height Datum (AHD);
- state and show the relevant datum;
- metric units;
- title, scale bar, text and legend;
- date prepared and author;
- be of appropriate resolution and scale for represented information; and
- be legible in both the hardcopy and electronic versions of the submission.

### **8.2 Location plan(s)**

Provide location plan(s) of the existing environment showing:

- proposed tenement boundaries;
- cadastral information;
- location of existing roads, rails, fences, transmission lines, buildings and pipelines;
- land titles and ownership;
- existing surface contours;
- existing vegetation;
- location of watercourses, including ephemeral and permanent rivers, creeks, swamps, streams and any man-made water management structures;
- location and extent of all previously disturbed areas, including those associated with previous mining; and
- location and extent of any adjacent conservation reserves, Aboriginal and/or European heritage sites (in so far as may be permitted by the relevant legislation) or any other significant areas.

### **8.3 Proposed mining operations plan(s)**

Provide plan(s) of proposed mining operations showing.

- tenement boundaries;
- existing or modified surface contours;
- geology within the application area, including but not limited to; location, dimensions and orientation (dip and strike), and extent of the mineral resource and ore reserve;
- location of all proposed extraction areas;
- location of existing ephemeral and permanent rivers, watercourses, creeks, dams and water management structures;
- location and extent of all areas proposed to be disturbed from mining (including waste rock and soil/subsoil stockpiles, silt/sludge dams, mine infrastructure, processing plant, waste disposal facilities and pits);
- location and extent of all areas proposed to be progressively rehabilitated during mining;
- sequence of mining and rehabilitation in appropriate time intervals, or per stages (depicting progressive rehabilitation); and
- final open pit and/or underground workings.

### **8.4 Vertical sections/cross-sections**

Provide a series of representative cross-sections at appropriate time intervals or stages that adequately represent:

- pre-mining natural surface;
- the staged profile indicating the conceptual location and shape of the active mining area, emplacement areas and rehabilitated areas;
- the conceptual final rehabilitated surface; and
- final open pit and/or underground workings.

Show where the cross-sections are oriented to the mine plan.

*In accordance with Regulation 30(3) and 49(3) of the Mining Regulations 2011 this notice will have effect from 14 March 2017.*

G. MARSHALL, Director, Mining Regulation

## PROFESSIONAL STANDARDS ACT 2004

*The Law Society of South Australia Professional Standards Scheme*

PURSUANT to Section 14 of the *Professional Standards Act 2004*, I authorise the publication in the *Gazette* of The Law Society of South Australia Professional Standards Scheme.

Pursuant to Section 15 (1) (a) of the *Professional Standards Act 2004*, I specify 1 July 2017, as the date of commencement of the Law Society of South Australia Professional Standards Scheme.

Dated 28 March 2017.

JOHN RAU, Attorney-General

## PROFESSIONAL STANDARDS ACT 2004 (SA)

*The Law Society of South Australia Professional Standards Scheme**Preamble*

- A. The Law Society of South Australia (the Society) is an occupational association.
- B. The Society has made an application to the Professional Standards Council, appointed under the Professional Standards Act 2004 (SA) (the Act), for a scheme under the Act.
- C. The scheme is prepared by the Society for the purposes of limiting occupational liability to the extent to which such liability may be limited under the Act.
- D. The scheme propounded by the Society is to apply to Admitted Members or Company Members of the Society who have professional indemnity insurance that complies with the Legal Practitioners Act 1981 (SA) in respect of a liability potentially limited by the Scheme.
- E. The Society has furnished the Council with a detailed list of the risk management strategies intended to be implemented in respect of its members and the means by which those strategies are intended to be implemented.
- F. The scheme is intended to commence on 1 July 2017 and remain in force for five (5) years from its commencement unless, prior to that time, it is revoked, its operation ceases, or it is extended pursuant to Section 34 of the Act.
- G. The scheme is also intended to apply in all other jurisdictions, except Tasmania.

*1. Definitions*

‘Act’ means the Professional Standards Act 2004 (SA);

‘Acts’ means the Act and each corresponding law;

‘Admitted Member’ means a person who is or was at a relevant time an Admitted Member within the meaning of and pursuant to the Rules of the Society;

‘Company Member’ means a company who is or was at a relevant time a Company Member within the meaning of and pursuant to the Rules of the Society;

‘corresponding law’ means a law of another jurisdiction that corresponds to the Act;

‘Court’ has the same meaning as it has in the Acts;

‘Duration of the Scheme’ means the period commencing on the date specified in Clause 7.1 and ending upon the cessation of the Scheme pursuant to Clause 7.2;

‘Exempted Member’ means an Admitted Member or Company Member who is or was at a Relevant Time exempted by the Society from participation in the Scheme pursuant to Clause 4.3;

‘Law Practice’ means (in accordance with the Legal Practitioners Act):

- (a) a legal practitioner who is a sole practitioner; or
- (b) a firm of legal practitioners; or
- (c) an incorporated legal practice; or
- (d) a Community Legal Centre;

‘Legal Practitioners Act’ means the Legal Practitioners Act 1981 (SA) or any Act enacted in substitution thereof;

‘Monetary Ceiling’ means, in respect of a liability in respect of a cause of action founded on an act or omission occurring after the commencement of the Scheme:

- (a) the higher of—

	<b>Description</b>	<b>Monetary Ceiling</b>
1	Participating Admitted Members or Company Members other than those in item 2 below.	\$1.5 million
2	Participating Admitted Members or Company Members who were as at the 30 June immediately preceding the Relevant Time in a Law Practice: <ol style="list-style-type: none"> <li>(a) consisting of greater than 20 Admitted Members; or</li> <li>(b) which generated total annual fee income for the financial year ended on 30 June immediately preceding the Relevant Time greater than \$10 million.</li> </ol>	\$10 million

OR

- (b) such higher amount as has been specified in relation to a specified Scheme Participant in respect of such case or class of case or generally as has been specified by the Society pursuant to Clause 5.1;

‘occupational liability’ has the same meaning as it has in the Acts;

‘person’ means an individual or a body corporate;

‘relevant time’ means, in respect of a liability potentially limited by the Scheme, the time(s) of the act(s) or omission(s) giving rise to the liability;

‘the Scheme’ means the Law Society of South Australia Professional Standards Scheme constituted herein;

‘Scheme Participant’ means a person referred to in Clause 4.1 or 4.2;

‘the Society’ means the Law Society of South Australia.

## 2. *Occupational Association*

2.1 The Scheme is a scheme under the Act prepared by the Society whose business address is Level 10, 178 North Terrace, Adelaide, South Australia.

## 3. *Jurisdictions in which the Scheme Applies*

3.1 The Scheme applies in South Australia pursuant to the Act.

3.2 The Scheme applies in New South Wales, Victoria, Queensland, Western Australia, the ACT and the Northern Territory pursuant to the corresponding laws of each of those jurisdictions respectively.

3.3 Notwithstanding anything to the contrary contained in this Scheme, if in particular circumstances giving rise to occupational liability, the liability of any person who is subject to this Scheme should be capped by both this Scheme and also by any other scheme under Professional Standards legislation (whether of this jurisdiction or under the law of any other Australian state or territory) and if the amount of such caps should differ, then the cap on the liability of such person arising from such circumstances which is higher shall be the applicable cap.

## 4. *Persons to Whom the Scheme Applies*

4.1 The scheme applies to all persons who:

4.1.1 are or at the relevant time were Admitted Members or Company Members of the Society;

4.1.2 are or were at the relevant time not Exempted Members; and

4.1.3 have professional indemnity insurance that complies with the Legal Practitioners Act in respect of a liability potentially limited by the Scheme.

4.2 The scheme applies to all persons to whom the scheme applies by virtue of Sections 20, 21, and 22 of the SA Act and the corresponding sections of the corresponding laws.

4.3 The Society may, upon application by an Admitted or Company Member, exempt that person from participation in the Scheme with effect from a date specified by the Society on or after the date on which the exemption is granted.

4.4 The Society may, upon application by an Admitted or Company Member, revoke an exemption of that person from participation in the Scheme with effect from a date specified by the Society.

## 5. *Conferral of Discretionary Authority*

5.1 The Scheme confers on the Society a discretionary authority, on application by a Scheme Participant, to specify in relation to the person a higher maximum amount of liability than would otherwise apply under the Scheme in relation to the person either in all cases or in any specified case or class of case, being a specified Monetary Ceiling not exceeding \$50 million.

## 6. *Limitation of Liability*

6.1 The occupational liability of a person who is or at the relevant time was a Scheme Participant in respect of a cause of action founded on an act or omission occurring during the Duration of the Scheme is limited to the amount of the Monetary Ceiling.

6.2 The liability which is limited by Clause 6.1 extends to a liability for damages (including interest and costs) within the meaning of the Acts but excludes a liability to which the Act does not apply from time to time by reason of Section 5 thereof or, if the liability is governed by a corresponding law, excludes a liability to which the corresponding law does not apply from time to time by reason of its provisions.

6.3 The operation of Clause 6.1 limiting the liability of a person is subject to the proviso that the person is able to satisfy the Court that:

6.3.1 the person has the benefit of an insurance policy complying with the Legal Practitioners Act insuring the person against the occupational liability to which the cause of action relates; and

6.3.2 the amount payable under the policy in respect of that occupational liability is not less than the amount of the Monetary Ceiling.

6.4 The limitation of liability that, in accordance with this Scheme, applies in respect of an act or omission continues to apply to every cause of action founded on it, irrespective of when the proceedings are brought in respect of it, and even if the Scheme has been amended or has ceased to be in force.

6.5 For the purposes of Section 28 of the Act, the Scheme only affects a liability for damages arising from a Single Claim (including a claim by a person who has 2 or more causes of action arising out of a single event) exceeding \$1 500 000.

## 7. *Duration of the Scheme*

7.1 The scheme commences on 1 July 2017.

7.2 Subject to Clause 7.3, the scheme will remain in force for a period of 5 years from its commencement unless:

7.2.1 it is revoked or ceases in accordance with the Act; or

7.2.2 it is extended in accordance with the Act.

7.3 The scheme will cease to operate in a jurisdiction referred to in Clause 3.2 if it is revoked or ceases in accordance with the corresponding law of that jurisdiction.

## Shop Trading Hours (Abolition of Proclaimed Shopping Districts) Proclamation 2017

under section 11 of the *Shop Trading Hours Act 1977*

### Preamble

- 1 The shopping districts listed in column 2 of the table in Schedule 1 were proclaimed as Shopping Districts on the dates specified opposite the shopping district in column 3 of the table (see the Gazette references specified opposite the shopping district in column 4 of the table).
- 2 The Councils specified in column 1 of the table have made application to the Minister, in accordance with section 12 of the *Shop Trading Hours Act 1977*, that the Proclaimed Shopping District or list of Proclaimed Shopping Districts set out opposite the council in column 2 be abolished.
- 3 It is now intended that the Proclaimed Shopping Districts referred to in column 2 of the table in Schedule 1 be abolished.

### 1—Short title

This proclamation may be cited as the *Shop Trading Hours (Abolition of Proclaimed Shopping Districts) Proclamation 2017*.

### 2—Commencement

This proclamation comes into operation on the day on which it is made.

### 3—Abolition of certain Proclaimed Shopping Districts

The Proclaimed Shopping Districts listed in column 2 of the table in Schedule 1 are abolished.

## Schedule 1—Proclaimed Shopping Districts

## Historic Shipwrecks Regulations 2017

under the *Historic Shipwrecks Act 1981*

---

### Contents

- 1 Short title
- 2 Commencement
- 3 Interpretation
- 4 Fee for copy of Register
- 5 Certain acts in protected zone prohibited without permit
- 6 Applications for warrants by telephone

### Schedule 1—Revocation of *Historic Shipwrecks Regulations 2014*

---

#### 1—Short title

These regulations may be cited as the *Historic Shipwrecks Regulations 2017*.

#### 2—Commencement

These regulations will come into operation on the day on which the *Historic Shipwrecks (Miscellaneous) Amendment Act 2017* comes into operation.

#### 3—Interpretation

In these regulations—

*Act* means the *Historic Shipwrecks Act 1981*.

#### 4—Fee for copy of Register

For the purposes of section 12(3) of the Act, the prescribed fee is \$1.70 per page copied of the Register.

#### 5—Certain acts in protected zone prohibited without permit

- (1) A person must not, except in accordance with a permit granted by the Minister under section 15 of the Act—
  - (a) bring into a protected zone—
    - (i) equipment constructed or adapted for the purposes of diving, salvage or recovery operations; or
    - (ii) explosives, instruments or tools,  
the use of which would be likely to damage or interfere with a historic shipwreck or historic relic situated within the protected zone; or
  - (b) use any such equipment, explosives, instruments or tools within a protected zone; or

- (c) cause a vessel carrying such equipment, explosives, instruments or tools to enter, or remain within, a protected zone; or
- (d) trawl, dive or engage in any other underwater activity within a protected zone; or
- (e) moor or use a vessel within a protected zone.

Maximum penalty: \$10 000.

Expiation fee: \$750.

- (2) If subregulation (1)(c) or (e) is contravened, the owner and operator of the vessel are each guilty of an offence.

Maximum penalty: \$10 000.

Expiation fee: \$750.

- (3) An inspector may give an expiation notice for an alleged offence against this regulation.

- (4) In this regulation—

*operator* and *owner*, of a vessel, have the same respective meanings as in the *Harbors and Navigation Act 1993*.

## 6—Applications for warrants by telephone

- (1) If an application for the issue of a warrant under section 22 of the Act is made by telephone—

- (a) the applicant must inform the judicial officer of the applicant's name and identify the position that the applicant holds for the purposes of the Act, and the judicial officer, on receiving that information, is entitled to assume, without further inquiry, that the applicant holds that position; and
- (b) the applicant must inform the judicial officer of the purpose for which the warrant is required and the grounds on which it is sought; and
- (c) if it appears to the judicial officer from the information given by the applicant that there are proper grounds to issue a warrant, the judicial officer must inform the applicant of the facts that justify, in the judicial officer's opinion, the issue of the warrant, and must not proceed to issue the warrant unless the applicant undertakes to make an affidavit verifying those facts; and
- (d) if the applicant gives such an undertaking, the judicial officer may then make out and sign a warrant, noting on the warrant the facts that justify, in the judicial officer's opinion, the issue of the warrant; and
- (e) the warrant is taken to have been issued, and comes into force, when signed by the judicial officer; and
- (f) the judicial officer must inform the applicant of the terms of the warrant; and
- (g) the applicant must, as soon as practicable after the issue of the warrant, forward to the judicial officer an affidavit verifying the facts referred to in paragraph (c).

- (2) In this regulation—

*judicial officer* means the magistrate or justice to whom application for the issue of a warrant is made.

## **Schedule 1—Revocation of *Historic Shipwrecks Regulations 2014***

The *Historic Shipwrecks Regulations 2014* are revoked.

**Note—**

As required by section 10AA(2) of the *Subordinate Legislation Act 1978*, the Minister has certified that, in the Minister's opinion, it is necessary or appropriate that these regulations come into operation as set out in these regulations.

### **Made by the Governor's Deputy**

with the advice and consent of the Executive Council  
on 5 April 2017

No 29 of 2017

15MSECCS060

## CAMPBELLTOWN CITY COUNCIL

*Exclusion of Land from Classification of Community Land*

NOTICE is hereby given that pursuant to Section 193 (4) of the Local Government Act 1999, the Council resolved at its meeting held on 6 September 2016, that the whole of the land in Certificate of Title Volume 5637, Folio 633, 8 Melba Court, Hectorville, be excluded from Classification of Community Land.

*Exclusion of Land from Classification of Community Land*

Notice is hereby given that pursuant to Section 193 (4) of the Local Government Act 1999, the Council resolved at its meeting held on 7 March 2017, that the whole of the land in Certificate of Title Volume 5515, Folio 586, 174 Montacute Road, Rostrevor, be excluded from Classification of Community Land.

P. DI IULIO, Chief Executive Officer

## PORT AUGUSTA CITY COUNCIL

## PUBLIC CONSULTATION

*Review of Elector Representation*

NOTICE is hereby given that the Port Augusta City Council has undertaken a review to determine whether a change of arrangements in respect to elector representation will result in the electors of the area being more adequately and fairly represented.

As an outcome of this review Council proposes the following:

*Proposal*

1. The Principal Member of Council continues to be a Mayor, elected by the community.
2. The Council area not be divided into wards (i.e. the existing 'no wards' structure be retained).
3. The future elected body of Council continue to comprise the Mayor and nine area councillors).

*Report*

Council has prepared a report which details the review process, public consultation undertaken and the proposal Council now considers should be carried into effect. A copy of the Representation Review Report is available free of charge at the Council Office and the Public Library in the Civic Centre, 4 Mackay Street, Port Augusta, and Council's website [www.portaugusta.sa.gov.au](http://www.portaugusta.sa.gov.au), 'Enquiries'—'Public Consultation'.

*Written Submissions*

Written submissions are invited from interested persons from Tuesday, 4 April, 2017 and should be directed to the: 'Representation Review', John Banks, Chief Executive Officer, Port Augusta City Council, P.O. Box 1704, Port Augusta, S.A. 5700, or alternatively forwarded electronically to [admin@portaugusta.sa.gov.au](mailto:admin@portaugusta.sa.gov.au) by close of business on Tuesday, 2 May 2017.

Any person making a written submission will be invited to appear before a meeting of Council or Council committee to be heard in support of their submission.

Information regarding the elector representation review can be obtained by contacting Lee Heron on (08) 8641 9100.

J. BANKS, Chief Executive Officer

## CITY OF SALISBURY

## PUBLIC CONSULTATION

*Review of Elector Representation*

NOTICE is hereby given that the Council has undertaken a review to determine whether alterations are required in respect to elector representation, including ward boundaries and the composition of Council.

As an outcome of this review Council proposes the following:

1. The principal member of Council continue to be a Mayor, elected by the community.
2. The Council continue to be divided into wards.
3. The Council area be divided into seven wards.

4. The future elected body of Council comprise 14 ward councillors.

5. The proposed wards be identified as Central Ward; East Ward; South Ward; Hills Ward; Para Ward; North Ward; and West Ward.

*Report*

Council has prepared a further Representation Review Report which details the review process, the public consultation undertaken and the proposal Council considers should be carried into effect. A copy of the further Representation Review Report is available on the Council's website [www.salisbury.sa.gov.au](http://www.salisbury.sa.gov.au), or a copy can be inspected and/or purchased at the Council office, 12 James Street, Salisbury.

*Written Submissions*

In accordance with Section 12 (9) of the Local Government Act 1999, interested persons are invited to make a written submission to Council in respect to this report, and more specifically the revised composition and structure that Council proposes to introduce on the day of Local Government elections in 2018. Written submissions will be accepted until 5 p.m. on Wednesday, 26 April 2017 and should be addressed to the Chief Executive Officer, P.O. Box 8, Salisbury S.A. 5108 or emailed to [city@salisbury.sa.gov.au](mailto:city@salisbury.sa.gov.au).

Any person(s) who makes a written submission at this time will be afforded the opportunity to address Council or a committee thereof, either in person or by a representative, in support of their submission.

Further information regarding the elector representation review can be obtained by contacting Joy Rowett, Governance Co-ordinator, on (08) 8406 8222.

J. HARRY, Chief Executive Officer

## MOUNT BARKER DISTRICT COUNCIL

## ROADS (OPENING AND CLOSING) ACT 1991

*Road Closure—Brukunga*

NOTICE is hereby given, pursuant to Section 10 of the Roads (Opening and Closing) Act 1991, that the Mount Barker District Council proposes to make a Road Process Order to close a portion of unnamed Public Road, situated west of Harrogate Road, between Allotment 295 D82233 and Allotment 2 D43647 and merge portion marked 'A' with adjoining Allotment 2 D43647, Hundred of Kanmantoo, more particularly delineated 'A' on Preliminary Plan No. 17/0021.

*Road Closure—Wistow*

NOTICE is hereby given, pursuant to Section 10 of the Roads (Opening and Closing) Act 1991, that the Mount Barker District Council proposes to make a Road Process Order to close a portion of Public Road, Morning Star Road situated south of Mount Barker Road, west of Long Valley Road and merge portion marked 'A' with adjoining Allotment 41 D79613, Hundred of Macclesfield, more particularly delineated 'A' on Preliminary Plan No. 17/0020.

A copy of both plans and a statement of persons affected are available for public inspection at the Local Government Centre, 6 Dutton Road, Mount Barker, and the office of the Surveyor-General, 101 Grenfell Street, Adelaide, during normal opening hours and from Council's website [www.mountbarker.sa.gov.au](http://www.mountbarker.sa.gov.au).

Any application for easement or objection must be made in writing to the Council at P.O. Box 54, Mount Barker, S.A. 5251 within 28 days of this notice and a copy must be forwarded to the Surveyor-General at G.P.O. Box 1354, Adelaide, S.A. 5001 setting out full details. Where a submission is made, the Council will give notification of a meeting at which the matter will be considered, so that the person making the submission or a representative may attend, if so desired.

Any enquiries regarding the proposal should be directed to Council's Matthew Willox on (08) 8391 7200 or email: [mwillox@mountbarker.sa.gov.au](mailto:mwillox@mountbarker.sa.gov.au).

Dated 27 March 2017.

A. STUART, Chief Executive Officer

PORT PIRIE REGIONAL COUNCIL  
ROADS (OPENING AND CLOSING ACT) 1991

*Old Port Broughton Road*

NOTICE is hereby given, pursuant to Section 10 of the Roads (Opening and Closing) Act 1991, that the Port Pirie Regional Council intends to make a Road Process Order to close and transfer portion of the Public Road in the Hundred of Pirie, dividing Section 1274 from Section 270S to L. G. Afford, more particularly delineated and marked 'F' on Preliminary Plan No. 17/0013.

A copy of this plan and a statement of persons affected are available for public inspection at the Council Office, 115 Ellen Street, Port Pirie and at the Adelaide Office of the Surveyor-General, 101 Grenfell Street, Adelaide, S.A. 5000, during normal office hours.

Any application for easement or objection must set out the full name, address and details of the submission and must be fully supported by reasons. The application for easement or objection must be made in writing to the Port Pirie Regional Council, P.O. Box 45, Port Pirie, S.A. 5540 within 28 days of this notice and a copy shall be forwarded to the Surveyor-General, G.P.O. Box 1354, Adelaide, S.A. 5001. Where a submission is made, the Council will give notification of a meeting at which the matter will be considered.

Dated 28 March 2017.

DR A. JOHNSON, Chief Executive Officer

IN the matter of the estates of the undermentioned deceased persons:

- Andrews, Gavin Noel*, late of 4 Adaluma Avenue, Pooraka, marketing manager, who died on 19 February 2016.  
*Bannister, Phillip William Ian*, late of 10 Sixth Street, Port Pirie West, retired railway worker, who died on 24 November 2016.  
*Brown, May*, late of 147 St Bernards Road, Rostrevor, of no occupation, who died on 31 January 2017.  
*McIntyre, Noel Anthony*, late of 18 Cross Road, Myrtle Bank, of no occupation, who died on 9 May 2016.  
*Milers, Trudel*, late of 6 Ellis Street, Enfield, of no occupation, who died on 28 October 2016.  
*Nowak, Helen*, late of 276 Portrush Road, Beulah Park, of no occupation, who died on 7 July 2015.  
*Philp, Constance*, late of Leighton Avenue, Klemzig, retired secretary, who died on 5 August 2016.  
*Pierpoint, Jeannie*, late of 26 River Road, Port Noarlunga, of no occupation, who died on 2 May 2016.  
*Rodwell, Barbara Anne*, late of 77 Boyle Street, Prospect, of no occupation, who died on 14 July 2016.

*Stewart, Mona Lorraine*, late of 10 Fiedler Street, Berri, widow, who died on 5 August 2016.

*Taylor, Colin James*, late of 83 Seaview Road, Port Augusta, retired engineman, who died on 11 July 2016.

*Trussell, Lloyd George*, late of 6 Grainger Road, Somerton Park, retired clerk, who died on 20 January 2017.

*Wenzel, Lyell Ramon*, late of 110A Liberator Drive, Paralowie, retired machine operator, who died on 30 November 2016.

*Wordley, Dennis George*, late of 9 Bellevue Court, Gawler East, retired public servant, who died on 15 November 2016.

Notice is hereby given pursuant to the Trustee Act 1936, the Inheritance (Family Provision) Act 1972 and the Family Relationships Act 1975, that all creditors, beneficiaries, and other persons having claims against the said estates are required to send, in writing, to the office of Public Trustee, G.P.O. Box 1338, Adelaide, S.A. 5001, full particulars and proof of such claims, on or before the 5 May 2017 otherwise they will be excluded from the distribution of the said estate; and notice is also hereby given that all persons indebted to the said estates are required to pay the amount of their debts to the Public Trustee or proceedings will be taken for the recovery thereof; and all persons having any property belonging to the said estates are forthwith to deliver same to the Public Trustee.

Dated 5 April 2017.

D. A. CONTALA, Public Trustee

# NOTICE SUBMISSION

The weekly *South Australian Government Gazette* is issued on Tuesday afternoon, except where Executive Council meets on Wednesday, wherein publishing will occur on that day.

The next scheduled publication date is displayed on the website: [www.governmentgazette.sa.gov.au](http://www.governmentgazette.sa.gov.au).

## Notices for gazettal, along with enquiries, can be directed to:

EMAIL [governmentgazettesa@sa.gov.au](mailto:governmentgazettesa@sa.gov.au)

PHONE (08) 8207 1045

## Notices for gazettal are to be emailed in the following formats:

- Notices as individual Word files (.doc)
- Maps, images, and diagrams as separate PDF files (.pdf)
- Content requiring official signature for authorisation—notices as Word files as well as signed documentation as PDF files

## Please provide the following information in your email:

- Date the notice is to be gazetted
- Notification of whether a proof, quote, or return email confirmation is required
- Email address and phone number of the person authorising the submission
- Name of the person and organisation to be charged for the notice, if applicable, and a purchase order if required
- Details that may impact on publication of the notice

Notices must be submitted before 4 p.m. Friday, the week preceding intended gazettal.

Proofs of formatted content are supplied upon request, with necessary alterations to be returned before 4 p.m. the day preceding publication.

Submitted notices will be gazetted unless notification is received before 10 a.m. the day of publication.
