**TREASURER'S
QUARTERLY STATEMENT**

for the

**THREE MONTHS ended on
31 DECEMBER 2016 and 31 DECEMBER, 2015**

*Presented by the
Honourable T. Koutsantonis M.P.
Treasurer of South Australia*

GOVERNMENT OF SOUTH AUSTRALIA**COMMENTARY TO THE STATEMENT OF THE AMOUNTS CREDITED TO AND
ISSUED FROM THE CONSOLIDATED ACCOUNT FOR THE QUARTERS ENDED 31
DECEMBER 2016 AND 31 DECEMBER 2015*****Receipts****Taxation*

Payroll tax receipts in both the December quarter 2016 and the six months ended December 2016 were higher compared to the same period in 2015, mainly due to growth in taxable payrolls.

Stamp duty receipts in the December quarter 2016 and the six months to December 2016 were lower compared to the same periods last year, largely due to lower receipts from conveyance duty. This mainly reflects a reduction in transaction levels and the impact of the first one-third reduction in duty rates on transfers of real non-residential, non-primary production properties from December 2015.

Gambling tax receipts in the December quarter 2016 and the six months to December 2016 were lower than the previous year due to a change in timing of the recognition of receipts from taxes on gaming machines into the Consolidated Account. Excluding timing impacts, underlying gambling tax receipts were also lower than the previous year mainly due to lower receipts from gaming machines in hotels and clubs and the South Australian Lotteries Commission.

Land tax receipts in both the December quarter 2016 and the six months ended December 2016 were higher compared to the same period in 2015. This was mainly due to the timing of payments, particularly from public sector entities, with some payments relating to 2015-16 liabilities being made in 2016-17.

Royalties

Royalty receipts in the December quarter 2016 were lower compared to the same period last year primarily due to the state-wide blackout as well as heavy rainfall resulting in lost productivity.

Royalty receipts in the six months to December 2016 were also lower compared to the six months to December 2015, again largely as a result of state-wide weather and electricity issues affecting production. Both planned and unplanned maintenance also resulted in lower production levels.

Fees and charges

Fees and charges in the December quarter 2016 were higher compared to the same period last year due to the timing of the payment of guarantee fees.

Commonwealth – General Purpose Payments

Growth in general purpose grants in 2016-17 compared to 2015-16 is not indicative of underlying Goods and Services Tax (GST) revenue growth. This is because monthly grants are paid according to a payment schedule prepared by the Commonwealth Government rather than in accordance with the actual emerging monthly GST collections.

In its 2016-17 Mid-Year Economic and Fiscal Outlook, the Commonwealth Government indicated that the GST pool available for distribution to the States is estimated to grow by 5.8 per cent in 2016-17.

Commonwealth – Specific Purpose Payments

Specific Purpose Payments received in the September quarter 2016 and the six months to December 2016 are broadly in line with the same periods last year.

Commonwealth – National Partnership Payments

Underlying National Partnership (NP) payments in the December quarter 2016 and the six months to December 2016 were lower compared to the same periods last year largely due to the timing of payments for the Remote Indigenous Housing NP.

The negative NP receipts in the December quarter 2016 and six months to December 2016 are a result of the timing of payments for a Pay Equity NP. This NP was received from the Commonwealth in the 2015-16 financial year and reclassified to a Specific Purpose grant in the December quarter 2016.

Other receipts

Other receipts are higher in the December quarter 2016 compared to the same period last year due the timing of loan repayments.

Payments

Payments were made pursuant to the *Appropriation Act 2016*, and also in accordance with other Acts for which specific appropriation has been authorised. The timing of payments is based on agreed drawdown schedules, and may change from period to period depending on specific agency requirements.

Note

Caution should be exercised in interpreting the quarterly statement of Consolidated Account transactions. Unlike, the State Budget, which comprises transactions on an accrual basis, the information reflected in the quarterly statements is limited to cash transactions. Also, the Consolidated Account does not capture all the transactions undertaken by the general government sector (in particular, it does not record receipts to and payments from special deposit accounts). Finally, the timing of receipts and payments could be volatile within a particular year. As a result, apparently large movements between years may only be due to changes in the timing of receipts and payments and therefore may not have consequences for the underlying budget position.
