DEVELOPMENT ACT 1993

SECTION 48 (8)

Decision by the Presiding Member State Commission Assessment Panel under Delegation from the Minister for Planning

Preamble

1. On 18 December 2008, a major development declaration was made for the development of land at Sellicks Hills for the purposes of a temple and accommodation uses, including shrines, a pagoda, accommodation and associated works. The Minister for Urban Development and Planning gave notice in the *Government Gazette* that he was of the opinion that it was appropriate for the proper assessment of the development of major environmental, social or economic importance that Section 46 of the Development Act 1993, applied to any development of a kind listed in Schedule 1 of that notice in parts of the State listed in Schedule 2 of that notice.
2. A proposal from Nan Hai Pu Tuo Temple of Australia Inc. (hereafter 'the proponent') to establish and operate a Buddhist Temple, including shrines, pagoda, accommodation and ancillary works and development on Main South Road, Sellicks Hill was the subject of a development application lodged on 27 January 2009 (the 'major development').
3. The major development has been the subject of a Development Report (DR) and has been assessed in accordance with Section 46 and 46D of the Development Act 1993. On the 21 February 2013, provisional development authorisation with reserved matters was granted for the major development.
4. The proponent provided further details in relation to the two matters reserved for further assessment.
5. On 14 August 2013 the proponent provided a letter along with architectural drawings for all structures on site and proposed sustainability measures. The drawings show the layout of structures on site and the sustainability measures proposed by the proponents including the layout of photovoltaic cells on the accommodation units and the orientation of buildings to maximise northern exposure. These drawings satisfactorily address the specific matters identified in Part A Clause (a) of the provisional approval issued on 21 February 2013.
6. On 23 December 2013 the proponent furnished an authorised Developer Deed of Agreement with the Department of Planning, Transport and Infrastructure for required road, intersection and civil works. The Agreement satisfactorily addresses the specific matters identified in Part A Clause (b) of the provisional approval issued on 21 February 2013.
7. On 22 January 2014 the Minister for Planning (under delegated authority from the Governor) sub-delegated to the Development Assessment Commission the power to deal with certain aspects of the approval, including the power to decide on specified matters reserved for further assessment, and the power to grant a final development authorisation required under Section 48 (2) (b) (i) of the Development Act 1993 (provided the essential nature of the development is not changed).
8. On 8 March 2016 the proponent provided a letter of Development Application and architectural drawings to amend the design of the garden shed located in the Memorial Gardens. The attached decision notice provides development authorisation for the amended garden shed.
9. On 6 October 2016 the proponent provided a letter of Development Application and architectural drawings which will introduce new WC Amenities to cater for visitors.
10. On 21 January 2019 URPS on behalf of the Nan Hai Pu Tuo Temple Association of Australia provided a letter and report to vary the existing development authorisation to allow for a new permanent storage shed in the area of the olive grove on the Temple site.
11. I am satisfied on behalf of the Minister for Planning as delegated that an appropriate DR and Assessment Report have been prepared in relation to the major development, in accordance with Sections 46 and 46D of the Development Act 1993, and have had regard to the DR and the Assessment Report when considering the major development, along with all relevant matters under Section 48 (5) of the Development Act 1993.
12. The State Commission Assessment Panel, on behalf of the Minister for Planning, has decided that all reserved matters specified in the provisional development authorisation have been satisfactorily addressed and accordingly that a final development authorisation shall be granted pursuant to Section 48 (2) (b) (i) of the Development Act 1993.
13. The decision notice below reproduces the entire development authorisation (including variations and amendments) for ease of understanding.

Decision

I intend in this *Gazette* notice to also make the following amendments to the Decision notice:

Add to Condition '1' the relevant letters, plans and Developer Agreement including:

- Letter from URPS dated 21 January 2019 along with accompanying report dated 21 January "Major Development Variation – Proposed Storage Shed"

**Government
of South Australia**

**TREASURER'S
QUARTERLY STATEMENT**

for the

**THREE MONTHS ended on
30 JUNE 2018 and 30 JUNE 2017**

*Presented by the
Hon Rob Lucas MLC
Treasurer of South Australia*

GOVERNMENT OF SOUTH AUSTRALIA

*Commentary to the Statement of the Amounts Credited To and Issued From the Consolidated Account
for the Quarters Ended 30 June 2018 and 30 June 2017***Receipts***Taxation*

Payroll tax receipts in both 2017-18 and the June quarter 2018 were higher compared to the corresponding prior year periods reflecting growth in taxable payrolls.

Stamp duty receipts in 2017-18 were lower than in 2016-17, primarily due to lower revenue from conveyance duty. This mainly reflects the impact of the phased abolition of non-residential, non-primary production properties. This impact is also reflected in the variance between the June quarter 2018 and the June quarter 2017.

Gambling tax receipts in both 2017-18 and the June quarter 2018 were higher compared to the corresponding prior year periods, mainly due to the commencement of the Betting Operations Tax from 1 July 2017.

Land tax receipts for 2017-18 and the June quarter 2018 were lower compared to the corresponding prior year periods reflecting the impact of billing delays in 2015-16, resulting in the receipt of some 2015-16 land tax liabilities in 2016-17.

Royalties

Royalty receipts in 2017-18 were higher than in 2016-17 primarily reflecting increased copper production as well as higher copper and oil prices.

Quarterly royalty receipts are impacted by timing issues. Underlying royalty receipts in the June quarter 2018 were higher compared to the corresponding prior year period, mainly due to higher petroleum and copper prices, as well as higher petroleum production.

Fees and charges

Fees and charges for 2017-18 were higher than in 2016-17 due to the timing of payments received into the Consolidated Account during 2017-18.

Commonwealth – General Purpose Payments

Growth in general purpose grants in 2017-18 compared to 2016-17 is not fully indicative of underlying Goods and Services Tax (GST) revenue growth. This is because monthly grants are paid according to a payment schedule prepared by the Commonwealth government rather than actual emerging monthly GST collections.

GST revenue grants in 2017-18 and the June quarter 2018 were higher compared to the corresponding prior year periods reflecting growth in the GST entitlement pool and South Australia's grant share.

Commonwealth – Specific Purpose Payments

Specific Purpose Payments (SPPs) for 2017-18 and the June quarter 2018 were broadly in line with the same periods last year.

Commonwealth – National Partnership Payments

National Partnership (NP) payments were higher in 2017-18 and the June quarter 2018 compared to the corresponding prior year periods, mainly due to the timing of receipts for the Pay Equity NP and the first receipt of Commonwealth funding for the Northern Adelaide Irrigation Scheme NP.

Other receipts

Other receipts for 2017-18 were higher than in 2016-17 mainly due to the commercialisation of the Lands Title Office.

Payments

Payments were made pursuant to the *Appropriation Act 2017*, and also in accordance with other Acts for which specific appropriation has been authorised. The timing of payments is based on agreed drawdown schedules, and may change from period to period depending on specific agency requirements.

Note

The following points should be considered when reviewing the quarterly statement of Consolidated Account transactions.

- Unlike the State Budget, which comprises transactions on an accrual basis, the information reflected in the quarterly statements is limited to cash transactions.
 - The Consolidated Account does not capture all the transactions undertaken by the general government sector (in particular, it does not record receipts to and payments from special deposit accounts).
 - The timing of receipts and payments could be volatile within a particular year. As a result, apparently large movements between years may only be due to changes in the timing of receipts and payments and therefore may not have consequences for the underlying budget position.

**TREASURER'S
QUARTERLY STATEMENT**

for the

**THREE MONTHS ended on
31 DECEMBER 2018 and 31 DECEMBER 2017**

*Presented by the

Treasurer of South Australia*

GOVERNMENT OF SOUTH AUSTRALIA

*Commentary to the Statement of the Amounts Credited To and Issued From the Consolidated Account for the Quarters Ended 31 December 2018 and 31 December 2017***Receipts***Taxation*

Payroll tax receipts in both the December quarter 2018 and the six months ended December 2018 were higher compared to the corresponding prior year periods, reflecting growth in taxable payrolls.

Stamp duty receipts in both the December quarter 2018 and the six months ended December 2018 were higher compared to the corresponding prior year periods. This was mainly due to higher receipts from stamp duty on insurance reflecting growth in premiums and receipts from the foreign owner surcharge which commenced from 1 January 2018. However, this was partially offset by lower conveyance duty receipts in both periods which were impacted by the abolition of stamp duty on the transfer of non-residential, non-primary production property from 1 July 2018.

Gambling tax receipts were higher in both the December quarter 2018 and the six months ended December 2018 compared to the corresponding prior year period. This was mainly due to higher tax receipts from the South Australian Lotteries Commission and the Betting Operations Tax. The Betting Operations Tax became effective from 1 July 2017. The six months ended December 2017 reflects only five months of collections as it is paid monthly in arrears whereas the six months ended December 2018 represents 6 months of collections.

Land tax receipts in both the December quarter 2018 and six months ended December 2018 were lower compared to the corresponding prior year periods, primarily reflecting the timing of billing for government agencies in 2018-19.

Royalties

Royalty receipts in both the December quarter 2018 and six months ended December 2018 were higher compared to the corresponding prior year periods. The increase in receipts in the six months to 2018 reflects the timing of payments and higher petroleum prices and production levels. Due to the timing of payments to the Consolidated Account, December quarter 2018 receipts also include the receipts from the previous quarter and therefore contribute to the variance against the December quarter 2017.

Fees and charges

Fees and charges in the December quarter 2018 were higher compared to the corresponding prior year period, mainly due to a small increase in the collections of and regulatory fees.

Commonwealth – General Purpose Payments

Growth in general purpose grants in 2018-19 compared to 2017-18 is not indicative of underlying Goods and Services Tax (GST) revenue growth. This is because monthly grants are paid according to a payment schedule prepared by the Commonwealth Government rather than actual emerging monthly GST collections.

In its 2019-20 Budget, the Commonwealth Government estimated that the GST pool available for distribution to jurisdictions would grow by 4.0 per cent in 2018-19, down from earlier estimates contained in the Commonwealth 2018-19 Budget and Mid-Year Economic and Fiscal Outlook.

Commonwealth – Specific Purpose Payments

Specific purpose payments (SPP) received in both the December quarter 2018 and six months ended December 2018 were lower compared to the corresponding prior year periods reflecting the cessation of the Disability Services SPP and commencement of full scheme National Disability Insurance Scheme arrangements.

Commonwealth – National Partnership Payments

National Partnership payments received in both the December quarter 2018 and six months ended December 2018 were higher compared to the corresponding prior year periods. This is mainly due to the commencement of funding from the Disability Care Australia Fund in 2018-19, which includes payments for allocations withheld from previous years.

Other receipts

Other receipts in the December quarter were lower compared to the corresponding prior year period, mainly due to the receipt of the proceeds from the privatisation of the SA Land Services Group which occurred in October 2017.

Payments

Payments were made pursuant to the *Appropriation Act 2018*, and also in accordance with other Acts for which specific appropriation has been authorised. The timing of payments is based on agreed drawdown schedules, and may change from period to period depending on specific agency requirements.

Note

The following points should be considered when reviewing the quarterly statement of Consolidated Account transactions.

- Unlike, the State Budget, which comprises transactions on an accrual basis, the information reflected in the quarterly statements is limited to cash transactions.
 - The Consolidated Account does not capture all the transactions undertaken by the general government sector (in particular, it does not record receipts to and payments from special deposit accounts).
 - The timing of receipts and payments could be volatile within a particular year. As a result, apparently large movements between years may only be due to changes in the timing of receipts and payments and therefore may not have consequences for the underlying budget position.
