DEVELOPMENT ACT 1993

SECTION 48

*Decision by the Minister for Planning (as the delegate of the Governor)*

*Preamble*

1. On 4 March 2014, the Minister for Planning published in the *South Australian Government Gazette* a declaration under Section 46 of the Development Act 1993 (the Act) in respect of a proposed development by Justin Scanlon and Damian Scanlon to establish and operate a golf course and tourism resort near Nora Creina on the South East coast between Robe and Beachport (as listed in Schedule 1 of that notice in the parts of the State listed in Schedule 2 of that notice).
2. On 27 January 2016 a Public Environment Report (PER) for the development was published in accordance with sections 46 and 46C of the Act. Subsequently, the Minister prepared an Assessment Report in accordance with section 46 of the Act.
3. On 28 November 2017 the Governor gave notice in the *South Australian Government Gazette* that, pursuant to section 48 of the Act, a provisional development authorisation was granted to the development subject to reserved matters and conditions specified in that notice.
4. An application for the conversion of the reserved matters to conditions of approval has been under consideration by the Minister for Planning, as delegate of the Governor under Division 2 of Part 4 of the Act, and the Minister for Environment and Water.
5. The Minister for Planning has, in considering the application, had regard to all relevant matters under section 48(5) of the Act.
6. The Minister for Planning is satisfied there is no requirement to prepare a further or amended Public Environment Report.
7. Following the concurrence of the Minister for Environment and Water the Minister for Planning has decided to revoke all reserved matters and attach new and varied conditions.

*Decision*

PURSUANT to Section 48 of the Development Act 1993, with the concurrence of the Minister for Environment and Water, and having due regard to the matters set out in Section 48 (5) and all other relevant matters, I:

- (a) vary the development authorisation dated 28 November 2017 in relation to the proposed Major Development under Section 48 (7a), subject to the conditions set out below;
- (b) specify under Section 48 (7) (b) (i) all matters which are the subject of conditions herein as matters in respect of which the conditions of this authorisation may be varied or revoked, or new conditions attached;

CONDITIONS OF DEVELOPMENT AUTHORISATION

**General**

1. For the purposes of Section 48(11)(b) of the *Development Act 1993*, the proponent shall commence the development by substantial work on the site of the development within two years of the date of this authorisation, failing which the authorisation may be cancelled.
2. The proponent shall have completed the development within five years of the date of this authorisation, failing which the authorisation may be cancelled.
3. In accordance with conditions 1 and 2 above, the development once commenced shall be completed in accordance with the following:
  - a) Essential infrastructure works, including power and water supply to the site, shall commence prior to any other works.
  - b) Works on the golf course shall commence within 6 months of the completion of infrastructure works.
  - c) The Clubhouse, tourist accommodation, Tourism and Function Centre and Wellness Retreat must be commenced within 6 months of completion of the golf course, excluding land division for that purpose.
  - d) All external and internal road upgrades, including car parking areas, shall be commenced and completed prior to the commencement of the uses hereby approved.
4. Should the project cease during the period between the commencement of earthworks and final completion the proponent shall undertake all necessary steps to reinstate the land and make good any damage or disturbance.
5. That except where minor amendments may be required by other relevant Acts, or by conditions imposed by this application, the development shall be established in strict accordance with the details and plans provided in the following:
  - a) Public Environmental Report, prepared by S K Planning Pty Ltd on behalf of Justin Scanlon and Damian Scanlon (January 2016);
  - b) Response Document prepared by S K Planning Pty Ltd on behalf of Justin Scanlon and Damian Scanlon (September 2017);
  - c) 'Response to Reserved Matters 33-38 as Gazetted in the South Australian Government Gazette Dated 28 November 2017' document, prepared by S K Planning Pty Ltd on behalf of Justin Scanlon and Damian Scanlon (June 2018), including:
    - 'Nora Creina Golf Course and Tourism Development Integrated Water Management Plan' (June 2018), prepared by Australian Water Environments. It should be noted this plan is preliminary and may be subject to change due to further investigations and final designs; and
    - 'Guiding Principles for Wetland Management, Nora Creina Project - Version 2' (14 May 2018), prepared by EBS Ecology and associated letter from S K Planning Pty Ltd to the Department of Planning, Transport and Infrastructure titled 'Nora Creina Major Development Reserve Matter 37 – Wetland Management Plan', dated 24 May 2018; and

- d) 'Nora Creina Golf Course and Tourism Resort, Reserve Matters, Additional Information – April 2019, Response to Ministerial Request for Further Information on Reserved Matters 34-36 and 38 as Gazetted in the South Australian Government Gazette Dated 28 November 2017' document, prepared by S K Planning Pty Ltd on behalf of Justin Scanlon and Damian Scanlon (April 2019) including:
- 'Final Report (Coastal Management Plan) – Nora Creina Project' (3 April 2019), prepared by Water Technology –Water, Coastal & Environmental Consultants.
  - 'Nora Creina Reserve Matter Investigations and Guiding Principles - Version Final V4' (3 April 2019), prepared by EBS Ecology, which relates to native vegetation management, fauna management, threatened species management, pest plant management and rehabilitation and revegetation.
  - 'Nora Creina Golf Course and Tourism Resort, Golf Course Earthworks Plans – Partial Design Drawings for Coastal Holes' (Revision B – 14 February 2019), prepared by Harrison Golf Pty Ltd.
  - 'Clearing Plan (North Course)' and 'Clearing Plan (South Course)' dated 07.02.2019, prepared by Harrison Golf Pty Ltd

#### **Prior to the Commencement of Construction Works**

The following information shall be prepared to the reasonable satisfaction of the Minister for Planning, prior to the commencement of on-site works for each component or stage:

6. Final detailed plans for the golf course layout, all buildings, structures, car parking and access for each component of the development (including site plans, floor plans, elevations, cross-sections, rendered perspectives and other relevant specifications). Design development for the Clubhouse, Tourism and Function Centre, tourist accommodation and Wellness Retreat should be undertaken in accordance with the Office for Design and Architecture (2017) Principles of Good Design.
7. Final detailed plans and designs for all infrastructure (including for firefighting purposes), roads, car parking tracks and walking trails. The design and location of the entrance road must ensure safe and convenient vehicle access and minimise impacts on the adjoining resident. Roads and car parking must be designed in accordance with relevant Australian standards. The location of infrastructure should be located on cleared land or minimise vegetation clearance as far as practicable.
8. Final detailed plans for the beef farm and vineyard (and associated infrastructure).
9. Building Rules compliance, following assessment and certification by a private certifier, the Robe District Council or by a person determined by the Minister for Planning, as complying with the provisions of the Building Rules (or the Building Rules as modified according to criteria prescribed by the Development Regulations 2008) for each building. For the purposes of this condition 'building work' does not include plant and equipment or temporary buildings that are not permanently attached to the land (refer to relevant Advisory Notes below).
10. Final plans, drawings, specifications and financial and maintenance arrangements (including Deeds of Agreement) associated with road infrastructure upgrades for the site access point from Nora Creina Road, prepared in consultation with the District Council of Robe.
11. A Construction Environmental Management Plan (CEMP), prepared in consultation with the District Council of Robe, the Environment Protection Authority and the Department of Environment and Water. The CEMP must incorporate measures to address (but not be limited to) the following matters:
  - a. traffic and access management for the duration of any site works and construction activities;
  - b. construction and works noise management;
  - c. management of air quality (including odour and dust);
  - d. sequencing of development (including construction timelines for works on site, as well as periods and hours of construction);
  - e. occupational health and safety matters;
  - f. fire risk and emergency responses;
  - g. pest plants, animals and pathogens, including bio-security risks (such as wash down procedures to minimise the transfer of pests and pathogens);
  - h. soils (including fill importation), stockpile management and prevention of soil contamination (such as from chemical use and storage, pest plants and pathogens);
  - i. soil erosion, sand drift and sediment control (including rehabilitation and stabilisation of land as construction progresses);
  - j. coastal erosion and remediation;
  - k. native flora and fauna (especially wombat burrows);
  - l. stormwater management, prior to implementation of a permanent solution (including the preparation and implementation of a Soil Erosion and Drainage Management Plan);
  - m. surface water and groundwater (including prevention of groundwater contamination);
  - n. site contamination and remediation (where required);
  - o. waste management for all waste streams and overall site clean-up (including any demolition waste);
  - p. use and storage of chemicals, oil, construction-related hazardous substances and other materials that have the potential to contaminate the environment (including proposed emergency responses);
  - q. site security, fencing and safety (including the management of public access and local traffic); and
  - r. Aboriginal Heritage sites to ensure compliance with the *Aboriginal Heritage Act 1988*.
12. A Cultural Heritage Management Plan, prepared in consultation with the Department of State Development (Aboriginal Affairs and Reconciliation) and the South East Aboriginal Focus Group. The plan must incorporate measures and actions to address (but not be limited to) the following:
  - a. a framework for engagement with interested parties regarding the treatment of Aboriginal heritage on the land;
  - b. measures to protect, avoid or minimise disturbance or damage to identified Aboriginal Heritage sites;
  - c. protocols for the identifying and recording any potential Aboriginal Heritage sites uncovered during construction (including 'observers' who are suitably qualified archaeologists, accompanied by Traditional Owners with knowledge of and responsibility for the sites);

- d. procedures for disturbing or damaging Aboriginal Heritage sites (including approvals under the *Aboriginal Heritage Act 1988* ; and
  - e. opportunities for promoting cultural heritage.
13. An Environmental Management Implementation Plan that documents how the management requirements detailed in the documents listed in Condition 5, and any approval requirements, would be implemented during construction and operation by contractors.

The following information shall be prepared to the reasonable satisfaction of the Minister for Planning and the Minister for Environment and Water, prior to the commencement of on-site works for each component or stage:

14. A final Integrated Water Management Plan (IWMP), prepared in consultation with the Environment Protection Authority and the Department of Environment and Water. The plan should be generally consistent with the document titled 'Nora Creina Golf Course and Tourism Development Integrated Water Management Plan' (June 2018), prepared by Australian Water Environments, and must incorporate measures and actions to address (but not be limited to) the following issues:
- a. a site plan identifying all water related features and infrastructure for the storage, treatment and/or reuse of potable water, stormwater, wastewater (with details of the wastewater storage lagoon liners, prepared in accordance with the EPA Guideline 'Wastewater Lagoon Construction', November 2014) and irrigation water;
  - b. water balance information, detailing the total water requirements of all components of the development (and for each stage of the development, where applicable), including predicted total wastewater generation from the development (based on projected wastewater volumes per day), predicted greywater generation volumes and predicted evaporative losses from water and wastewater storages;
  - c. a description of how all greywater will be collected, stored and re-used on site (if greywater is to be collected separately to wastewater);
  - d. a description of how all wastewater will be collected, stored and re-used on site (including the capacity of the system);
  - e. a Reclaimed Water Irrigation Management Plan, prepared in accordance with the EPA Guideline 'Wastewater Irrigation Management Plan – a Drafting Guide for Wastewater Irrigators' (June 2009);
  - f. predicted stormwater generation volumes and details of stormwater quality improvements, including the location and sizing of any bio-retention swales and basins, anticipated quality improvements and details of any other proposed stormwater quality treatment features (which should be included in a Stormwater Management Strategy);
  - g. management of the potential impacts from nutrient and chemical runoff from the golf course, including details regarding the management of pesticides and herbicides, in accordance with the EPA 'Guidelines for Responsible Pesticide Use' (December 2005) and the EPA 'Safe and Effective Pesticide Use: a Handbook for Commercial Spray Operators';
  - h. contingencies to address any detrimental effects, especially on local hydrology; and
  - i. a Groundwater Management and Monitoring Strategy, including a network of observation wells and a water level and water quality monitoring program;
15. A final Coastal Management Plan, prepared in consultation with the Department of Environment and Water. The plan should be generally consistent with the document titled 'Final Report (Coastal Management Plan) – Nora Creina Project' (3 April 2019), prepared by Water Technology –Water, Coastal & Environmental Consultants, and must address the management of coastal issues during the operation phase of the development, including:
- a. dune and beach erosion, due to storm damage and winds;
  - b. sand dune blowouts;
  - c. beach access, including the establishment of access points and walking trails; and
  - d. control of traffic (including off-road vehicle activities).
16. A Native Vegetation Management, Rehabilitation and Revegetation Plan prepared in consultation with the Department of Environment and Water. The plan should be generally consistent with the document titled 'Nora Creina Reserve Matter Investigations and Guiding Principles - Version Final V4' (3 April 2019), prepared by EBS Ecology, and must include details on the management of both retained native vegetation and any areas that are revegetated, including:
- a. vegetation clearance practices;
  - b. protection and maintenance of remnant vegetation, including restoration measures (such as natural regeneration or plantings/direct seeding) and the control of current / future degrading factors (especially dune erosion);
  - c. revegetation strategy and methodology;
  - d. weed and Coastal Wattle control;
  - e. grazing control (especially kangaroos); and
  - f. fire management.
17. A Fauna Management Plan, prepared in consultation with the Department of Environment and Water and Natural Resources South East. The plan should be generally consistent with the document titled 'Nora Creina Reserve Matter Investigations and Guiding Principles - Version 4' (29 March 2018), prepared by EBS Ecology, and must detail protection and maintenance measures for habitat that supports fauna that permanently inhabits the site or uses the site on a transitional basis, including:
- a. threatening processes;
  - b. habitat restoration;
  - c. measures to control over-abundant or nuisance native species, including a Kangaroo and Wombat Management Strategy; and
  - d. pest animal control (especially predator species).
18. A final Wetland Management Plan, prepared in consultation with the Department of Environment and Water. The plan should be generally consistent with the document titled 'Guiding Principles for Wetland Management, Nora Creina Project – Version 2' (14 May 2018), prepared by EBS Ecology and associated letter from S K Planning Pty Ltd to the Department of Planning, Transport and Infrastructure titled 'Nora Creina Major Development Reserve Matter 37 – Wetland Management Plan', dated 24 May 2018. The plan must address the management of wetland related issues during the construction and operational phases of the development, including:
- a. construction activities and impacts;

- b. golf course maintenance and beef farm / vineyard operational activities;
  - c. buffer requirements;
  - d. surface water and groundwater (including water quality monitoring);
  - e. native vegetation and fauna (especially threatened species); and
  - f. weeds and pest animals.
19. A Threatened Species Management Plan, prepared in consultation with the Department of Environment and Water and the Australian Government Department of the Environment and Energy. The plan should primarily address the Little Dip Spider-orchid and the Orange-bellied Parrot, but should also consider Nationally threatened species identified in fauna surveys or by future monitoring (or known to occur in the area), including the Hooded Plover (primarily in relation to human disturbance from activities undertaken along the beach / foreshore zone) and the Swamp Antechinus (primarily associated with wetland habitat). Species of State and Regional conservation significance (especially those listed under the *National Parks and Wildlife Act 1972*) should also be addressed in the plan. The plan should be generally consistent with the document titled 'Nora Creina Reserve Matter Investigations and Guiding Principles - Version Final V4' (3 April 2019), prepared by EBS Ecology.

#### **During Construction Works and Prior to Operation of the Development**

- 20. All works must be undertaken in accordance with the approved plans, drawings, specifications and other documentation provided (and approved by the Minister for Planning where required) in accordance with conditions listed above.
  - 21. That all external lighting of the site, including car parking areas and buildings, must be designed and constructed to conform with Australian Standards and must be located, directed and shielded and of such limited intensity that no nuisance or loss of amenity is caused to any person beyond the site.
  - 22. That all stormwater design and construction must be in accordance with Australian Standards and recognised engineering best practices to ensure that stormwater does not adversely affect any adjoining property or public road.
  - 23. That all vehicle car parks, driveways and vehicle entry and manoeuvring areas must be designed and constructed in accordance with the relevant Australian Standards and be constructed, drained and paved with bitumen, concrete or paving bricks in accordance with sound engineering practice and appropriately line marked.
  - 24. That Council infrastructure must be reinstated as appropriate if damaged.
- The following information must be prepared to the reasonable satisfaction of the Minister for Planning, prior to the commencement of operations:
- 25. An Operational Environmental Management and Monitoring Plan (OEMMP), prepared in consultation with the Environment Protection Authority, the Department of Environment and Water and the District Council of Robe. The OEMMP must incorporate measures to address (but not be limited to) the following matters:
    - a. general operational noise management (such as from machinery noise), to ensure compliance with the Environment Protection (Noise) Policy 2007;
    - b. a Waste Management Strategy detailing the collection, storage and disposal of waste (for all waste streams) to comply with the Environment Protection (Waste to Resources) Policy 2010;
    - c. wastewater collection and treatment to comply with general obligations of the Environment Protection (Water Quality) Policy 2015;
    - d. traffic management associated with general visitation and the conduct of golfing and tourism related events;
    - e. noise from live and/or recorded music and public address systems for events;
    - f. air quality, especially dust and odour (including from the beef farm and vineyard operations);
    - g. coastal management;
    - h. wetland management;
    - i. fauna management;
    - j. weed and pest management;
    - k. fire risk management;
    - l. landscaping maintenance;
    - m. emergency and evacuation procedures; and
    - n. ongoing sustainability initiatives (including power, water, flora and fauna management); and
    - o. details of proposed methods for ongoing monitoring and reporting.
  - 26. A Golf Course Resort Management Plan that addresses the management of activities that have an impact on the environment or the community, including:
    - a. operational aspects (including the management of golfing and tourism related events to minimise impacts on the environment and the community);
    - b. maintenance aspects (especially the control of the spread of turf species);
    - c. visitor safety;
    - d. visitor management, especially measures to protect the environment (such as control of access and education/awareness);
    - e. management of other recreational activities;
    - f. an Integrated Pest Management Strategy;
    - g. management of chemical and hydrocarbon storage, handling and use (especially herbicides and pesticides);
    - h. a Nutrient Management Strategy; and
    - i. management of course irrigation, including design measures to monitor soil moisture levels and to minimise over-spray and runoff). These aspects should be addressed in an Irrigation Management Strategy (including for drought conditions).
  - 27. A Fire Management Plan, prepared in consultation with the Country Fire Service and the Robe District Council. The plan must detail bushfire protection strategies for the site, in accordance with the Building Code of Australia (in accordance with AS 3959 – Construction of buildings in bushfire prone areas to identify the expected level of bushfire attack), the Minister's

Code (as amended 2012) 'Undertaking development in Bushfire Protection Areas' and the Ministers Specification SA 78 (2011) Additional requirements in designated bushfire prone areas, including the establishment and maintenance of an Asset Protection Zone (include a vegetation management zone that would be maintained within 20 metres of each building).

28. A Waste Management Plan, prepared in consultation with the Environment Protection Authority. The plan must incorporate measures and actions to address (but not be limited to) the following:
  - a. details of the likely waste streams that would be generated;
  - b. measures to manage waste that are economically and environmentally suitable (especially for waste minimisation);
  - c. recycling initiatives for a range of materials, such glass, cardboard/paper, scrap metal, hydrocarbons and batteries;
  - d. measures to manage green waste (i.e. from course and landscaping maintenance) and organics, including composting of food waste;
  - e. consider the capacity of existing local and regional collection and disposal facilities; and
  - f. staff and visitor education to ensure awareness of waste minimisation and recycling.
29. A Landscaping Plan, prepared in consultation with the Department of Environment and Water and Natural Resources South East, that considers the use of locally endemic species, species that assist in bushfire risk management, the use of berms / turf roofs for buildings and water sensitive design measures for managing stormwater as a resource.
30. A Weed and Pest Management Plan, prepared in consultation with the Department of Environment and Water and Natural Resources South East, that addresses management strategies for the prevention, control and eradication of introduced plant / animal species and nuisance native species during the operation phase of the development. The plan must include:
  - a. further studies to identify current levels of pests, weeds and invasive species;
  - b. selective weed control to retain introduced vegetation that may provide habitat for threatened species; and
  - c. control measures that consider the impact on threatened plant species, especially the use of herbicides near Little Dip Spider-orchid habitat (and the habitat of pollinating wasp species).
31. A Beef Farm Management Plan, prepared in consultation with Primary Industries and Regions SA, that addresses the management of activities that could have an impact on the environment or the community, including noise, odour, erosion, runoff, effluent/nutrient control (especially to protect nearby wetlands) and chemical use.
32. A Vineyard Management Plan, prepared in consultation with Primary Industries and Regions SA, that addresses the management of activities that could have an impact on the environment or the community, such as noise, odour, erosion, runoff and the use of fertilisers and chemicals (especially to protect nearby wetlands).
33. A Sustainability Plan, prepared in consultation with the Office of Green Industries SA, that outlines the philosophy, objectives, targets and measures for the sustainability of all components of the development.

#### ***During Operation of the Development***

34. Operations on the site must be undertaken in accordance with all plans and details submitted as part of the Major Development Application, and where provided (and endorsed by the Minister for Planning where required).
35. The development/site must be maintained in a serviceable condition and operated in an orderly manner at all times consistent with conditions of approval.
36. Undeveloped areas prepared for future development must be maintained in a neat and tidy condition at all times, with soil surfaces stabilised to minimise erosion.
37. Recycled water (wastewater, greywater and stormwater) must be stored separately from the main water supply storage.
38. All liquids that have the ability to cause environmental harm must be stored within a bunded compound that has a capacity of at least 120% of the volume of the largest container, in accordance with the EPA 'Bunding and Spill Management Guidelines' (2007).

#### ADVISORY NOTES

1. Further approvals will be required for the following conceptually designed components of the development not hereby approved in their final form, including:
  - a) clubhouse building and associated facilities;
  - b) tourism and function centre;
  - c) tourist accommodation buildings;
  - d) wellness retreat;
  - e) maintenance facility;
  - f) storage sheds and other storage structures;
  - g) water storage dams; and
  - h) any land division to create certificates of title for separate allotments.

In respect of land division documentation, surveyed plans sufficient to satisfy Lands Titles Office procedure should be provided.
2. The site access road must be designed to ensure safe and convenient entry and exit to and from the site. Internal roads must be designed to minimise dust and noise and to manage stormwater run-off. Existing access rights for adjoining landowners must be maintained.
3. Pursuant to Development Regulation 64, the applicant is advised that the District Council of Robe or private certifier conducting a Building Rules assessment must-
  - a. provide to the Minister a certification in the form set out in Schedule 12A of the Development Regulations 2008 in relation to the building works in question; and
  - b. to the extent that may be relevant and appropriate-
    - (i) issue a Schedule of Essential Safety Provisions under Division 4 of Part 12; and
    - (ii) assign a classification of the building under these regulations; and
    - (iii) ensure that the appropriate levy has been paid under the *Construction Industry Training Fund Act 1993*.

Regulation 64 of the Development Regulations 2008 provides further information about the type and quantity of all Building Rules certification documentation for Major Developments required for referral to the Minister for Planning.

4. The District Council of Robe or private certifier undertaking Building Rules assessments must ensure that the assessment and certification are consistent with this provisional development authorisation (including any Conditions or Advisory Notes that apply in relation to this provisional development authorisation).
5. Should the applicant wish to vary the Major Development or any of the components of the Major Development, an application may be submitted, provided that the development application variation remains within the ambit of the Public Environmental Report and Assessment Report referred to in this provisional development authorisation. If an application variation involves substantial changes to the proposal, pursuant to Section 47 of the *Development Act 1993*, the applicant may be required to prepare an amended Public Environmental Report for public inspection and purchase. An amended Assessment Report may also be required to assess any new issues not covered by the original Assessment Report and a decision made by the Governor pursuant to Section 48 of the *Development Act 1993*.
6. The applicant's CEMP, OEMMP and other management plans should be prepared taking into consideration (and with explicit reference to) relevant EPA policies and guideline documents, including, but not limited to:
  - a. the Environment Protection (Air Quality) Policy 2016;
  - b. the Environment Protection (Noise) Policy 2007;
  - c. the Environment Protection (Water Quality) Policy 2015;
  - d. the Environment Protection (National Pollutant Inventory) Policy 2008;
  - e. the Environment Protection (Waste to Resources) Policy 2010;
  - f. the Standard for the Production and Use of Waste Derived Fill (if applicable) (2013);
  - g. the Bunding and Spill Management Guidelines (2012);
  - h. the Wastewater Irrigation Management Plan (WIMP) Guideline (2009);
  - i. the Stormwater Pollution Prevention Code of Practice for the Building and Construction Industry (1999);
  - j. Handbooks for Pollution Avoidance; and
  - k. any other legislative requirements, Guidelines and Australian Standards requiring compliance.
7. The applicant is reminded of its obligations under the *Aboriginal Heritage Act 1988*, whereby any 'clearance' work that may require permission to disturb, damage or destroy Aboriginal Sites, must be undertaken with the full authorisation of the Minister for Aboriginal Affairs and Reconciliation, according to Section 23 of the Act.
8. The applicant, and all agents, employees and contractors, such as construction crews, must be conversant with the provisions of the *Aboriginal Heritage Act 1988*, particularly the requirement to immediately contact the Department of Aboriginal Affairs and Reconciliation in the event that archaeological items (especially skeletal material) are uncovered during earthmoving.
9. All works and activities must be undertaken in accordance with the General Environmental Duty as defined in Part 4, section 25(1) of the *Environment Protection Act 1993* (which requires that a person must not undertake any activity, which pollutes, or may pollute; without taking all reasonable and practical measures to prevent or minimise harm to the environment), relevant Environment Protection Policies made under Part 5 of the *Environment Protection Act 1993* and other relevant publications and guidelines.
10. The applicant is reminded of its obligations under the *Native Vegetation Regulations 2003* whereby any native vegetation clearance must be undertaken in accordance with a management plan that has been approved by the Native Vegetation Council that results in a significant environmental benefit on the property where the development is being undertaken, or a payment is made into the Native Vegetation Fund of an amount considered by the Native Vegetation Council to be sufficient to achieve a significant environmental benefit in the manner contemplated by Section 21(6) of the *Native Vegetation Act 1991*, prior to any clearance occurring.
11. The applicant is reminded of its obligations under the Commonwealth *Environment Protection and Biodiversity Conservation Act 1999* (EPBC Act), not to undertake any activity that could have a significant impact on any matter of National Environmental Significance, without first referring it to Commonwealth Minister for the Environment for consideration under the Act.
12. The applicant is reminded that a water license to establish a water supply for the development (i.e. bore or borefield) would need to be secured under the *Natural Resources Management Act 2004*. The transfer and use of a license is bound by the principles and guidelines of the Water Allocation Plan for the Lower Limestone Coast Prescribed Wells Area. The licensing process would include the need for the proponent to undertake a preliminary hydrogeological assessment that would have to detail:
  - a. the volume of water required based on the current design;
  - b. the primary water source intended for the project (i.e. confined or unconfined aquifer (noting limits to how far can transfer water));
  - c. Details of water quality for potable or non-potable use, and treatment as necessary; and
  - d. impacts on Groundwater Dependent Ecosystems.
13. The applicant is reminded that, under the *National Parks and Wildlife Act 1972*, permits are required for the 'taking of protected animals', such for the capture and relocation of animals during construction and the destruction or relocation of animals during operation.

The Minister for Planning has a specific power to require testing, monitoring, auditing and reporting under Section 48C of the *Development Act 1993*.

#### EDUCATION REGULATIONS 2012

##### *Notice of Policy by the Minister for Education*

PURSUANT to Regulation 60(2)(a) of the *Education Regulations 2012*, I, the Minister for Education publish the following Capacity Management Plan for the purposes of the enrolment of a child at East Marden Primary School:

## CAPACITY MANAGEMENT PLAN

*East Marden Primary School*

This Capacity Management Plan sets out the conditions for enrolment at East Marden Primary School (“the school”).

**Capacity of School**

As at the date of gazettal of this Policy, the school has an estimated school enrolment capacity of 756 students.

**East Marden Primary School zone**

A school zone is a defined area from which the school accepts its core intake of students. East Marden Primary School operates a school zone within the area bounded by:

- Torrens River, Church Road, Lower North East Road, Payneham Road and O G Road.

An online map of the East Marden Primary School zone and a search tool to indicate if an applicant’s home address is within the school zone is available at [www.education.sa.gov.au/findaschool](http://www.education.sa.gov.au/findaschool).

**Student Enrolment Numbers**

The number of students entering at **Reception** in any given year is limited to **104** students.

**International Education Program**

No International Education Program places will be offered at the school.

*Enrolment Criteria - By Year Level***YEAR LEVEL: RECEPTION****Application for Reception from students living in the school zone**

Priority consideration will be given to applications for enrolment from parents of prospective Reception students to attend the following school year, if they have been living inside the school zone prior to week 10, term 2 and whose application is received by this date.

If more than **104** applications for enrolment are received from parents living in the school zone by the beginning of week 10, term 2, places will be offered based on whether any, all or a combination of the following applies:

- the child has a sibling currently enrolled and will be attending the school in the same calendar year
- the length of time the child has lived in the school zone
- the distance of the child’s residence from the school
- other personal needs such as curriculum, transportation/location convenience, social/family links at the school.

The school will notify parents of the outcome of this process by week 7, term 3. Unsuccessful applicants will be placed on the enrolment register upon request, and referred for enrolment to other neighbouring schools.

**Late applications for Reception from students living in the school zone**

Families who move into the school zone or who are already living in the school zone but lodge their application for enrolment after the end of week 10, term 2, will only have their applications considered if or when vacancies exist, with priority consideration afforded to those applicants already on the school’s enrolment register.

If no vacancies exist, the applicants upon request, will be placed on the school’s enrolment register and referred for enrolment to other neighbouring schools.

**Application for Reception from students living outside the zone with siblings currently at the school**

There is no automatic entry for Reception students who live outside the school’s zone and have older siblings who currently attend the school.

**Intensive English Language Centre (IELC) Reception students**

Any Reception student offered enrolment at the school and who is eligible to attend an Intensive English Language Centre (IELC), will be able to attend an IELC during Reception and begin Year 1 at East Marden Primary School the following year.

**YEAR LEVELS: 1 TO 7**

Applications for enrolment from parents of prospective students living inside the school zone will be considered if or when vacancies exist, with priority consideration afforded to those applicants already on the school’s enrolment register.

In these cases, places will be offered based on siblings at the school, the length of time the child has lived in the school zone, the distance of the child’s residence from the school and other personal needs such as curriculum, transportation/location convenience and social/family links to the school.

The school will notify parents by the end of week 5, term 4 if a vacancy is available for their child to attend the following school year.

If no vacancies exist, the applicants will be encouraged to remain at their current primary school, or referred for enrolment to other neighbouring schools, and upon an applicant’s request placed on the school’s enrolment register.

**Out of zone applications with siblings currently at the school**

There is no automatic entry for siblings who live outside of the school zone to enrol in Year levels 1 to 7 at East Marden Primary School.

*Enrolment Criteria – General***Special circumstances**

Enrolment applications for special consideration based on compelling or unusual reasons, including but not limited to a child in care where there is custody or guardianship orders made under the *Children and Young People (Safety) Act 2017*, may be granted by the Principal in consultation with the Education Director. These applications will be assessed on a case by case basis.

*Enrolment Process***Enrolment Register**

Parents whose child’s name has been placed on the enrolment register will be contacted if vacancies become available.

The enrolment register will be reviewed and updated annually.

The position that a child’s name appears on the register is confidential and will only be disclosed as required by law.

**Monitoring and enforcement**

It is the responsibility of the parents applying for enrolment to be able to verify to the satisfaction of the school that the information provided is true and factual.

The Principal is responsible for the implementation of this Capacity Management Plan and all decisions on enrolments.

This Capacity Management Plan will be reviewed as required.

## ENVIRONMENT PROTECTION ACT 1993

## SECTION 68

*Approval of Category B Containers*

I, ANDREA KAYE WOODS, Team Leader, Container Deposit Legislation and Delegate of the Environment Protection Authority ('the Authority'), pursuant to section 68 of the Environment Protection Act, 1993 (SA) ('the Act') hereby:

**Approval of Category B Containers:**

Approve as Category B Containers, subject to the conditions in subclauses 1, 2, 3 and 4 below, each of the classes of containers identified by reference to the following matters described in the first 4 columns of Schedule 1 of this Notice which are sold in South Australia:

- (a) the product which each class of containers shall contain;
  - (b) the size of the containers;
  - (c) the type of containers;
  - (d) the name of the holders of these approvals.
1. That containers of the class to which the approval relates must bear the refund marking specified by the Authority for containers of that class. The Authority specifies the following refund markings for Category B containers:
    - (1) "10c refund at collection depots when sold in SA", or
    - (2) "10c refund at SA/NT collection depots in State/Territory of purchase", or
    - (3) "10c refund at collection depots/points in participating state/territory of purchase"
  2. The holder of the approval must have in place an effective and appropriate waste management arrangement in relation to containers of that class. For the purpose of this approval notice the company named in column 5 of Schedule 1 of this Notice is the nominated super collector.
  3. In the case of an approval in relation to category B containers that the waste management arrangement must require the holder of the approval to provide specified super collectors with a declaration in the form determined by the Authority in relation to each sale of such containers by the holder of the approval as soon as practicable after the sale";
  4. The holder of these approvals must ensure that if a sticker bearing the refund marking has been approved, and is applied to the container, then the sticker must not be placed on any portion of the opening mechanism or in any other place that would require complete or partial removal of the sticker before the contents may be consumed.

## ENVIRONMENT PROTECTION ACT 1993

## SECTION 103S

*Prohibition on Taking Water affected by Site Contamination*

I, ANDREW WALTER PRUSZINSKI, Manager of Site Contamination and Delegate of the Environment Protection Authority ('the Authority'), being satisfied that site contamination exists that affects or threatens groundwater and that action is necessary pursuant to section 103S of the *Environment Protection Act 1993* to prevent actual or potential harm to human health or safety hereby prohibit the taking of groundwater from the 1<sup>st</sup> and 2<sup>nd</sup> Quaternary aquifers (as defined below) within the area specified in the schedule to this notice, other than for environmental assessment or environmental monitoring purposes or as approved in writing by the Authority.

This Notice relates to groundwater in:

- (i) The 1<sup>st</sup> and 2<sup>nd</sup> Quaternary aquifer, being the body of groundwater 0 to approximately 10 metres below the ground surface within the specified area

The site contamination affecting the groundwater is in the form of chlorinated hydrocarbons, petroleum hydrocarbons, metals and nitrates which represent actual or potential harm to human health or safety. This prohibition becomes official upon the gazettal of this notice.

Dated: 12 September 2019

A. PRUSZINSKI  
Manager, Site Contamination  
Environment Protection Authority
