  - (a) the plant must be capable of being remotely disconnected from, and reconnected to, the relevant distribution network;
  - (b) the owner or operator must give a relevant agent written authorisation to remotely disconnect the plant from, and reconnect the plant to, the relevant distribution network in circumstances where the owner or operator of the plant is lawfully directed to disconnect or reconnect the plant.
- (3) In addition, from 1 January 2021, the owner or operator of a designated electricity generating plant to which this regulation applies must ensure that the plant is capable of being remotely disconnected from, and reconnected to, the network by the relevant agent of the owner or operator of the plant.
- (4) The owner or operator of a designated electricity generating plant to which this regulation applies must notify their relevant agent if there is, or is to be, a change in the owner or operator of the plant as soon as practicable after becoming aware of the change (and in any event within 7 days after the change).
- (5) A designated electricity generating plant to which this regulation applies must not be connected to a relevant distribution network unless the requirements under subregulations (2) and (3) (as relevant) are complied with in relation to the plant.
- (6) The Technical Regulator may prepare and publish guidelines that set out methods for ensuring that a designated electricity generating plant is capable of being remotely disconnected from, and reconnected to, a relevant distribution network.
- (7) Guidelines published under subregulation (6) may indicate that a method is, or is not, appropriate for designated electricity generating plant with particular nameplate capacity.

- (8) For the purposes of this regulation, a particular designated electricity generating plant (*installed plant*) will be taken to be *capable of being remotely disconnected from, and reconnected to, a relevant distribution network* if the installed plant complies with a method that is appropriate for designated electricity generating plant with nameplate capacity of the installed plant set out in guidelines published under subregulation (6).
- (9) The Technical Regulator must maintain an up to date list of *declared components* for the purposes of subregulation (1)(b) on a website determined by the Technical Regulator.
- (10) The Minister may—
- (a) by notice in the Gazette, designate an electricity generating plant as a *designated electricity generating plant* for the purposes of this regulation; and
  - (b) by subsequent notice in the Gazette, vary or revoke a notice under this subregulation.
- (11) The Technical Regulator may—
- (a) by notice in the Gazette, declare that a distribution network is an *excluded distribution network* for the purposes of this regulation; and
  - (b) by subsequent notice in the Gazette, vary or revoke a notice under this subregulation.
- (12) In this regulation and regulations 55C and 55D—
- declared component*—see subregulation (9);
- designated electricity generating plant*—see subregulation (10);
- excluded distribution network*—see subregulation (11);
- prescribed day* means a day specified by the Minister by notice in the Gazette for the purposes of subregulation (2);
- relevant agent* means a person who is authorised by the owner or operator of the designated electricity generating plant to be their relevant agent and who meets the requirements set out in regulation 55C;
- relevant day*, in relation to a designated electricity generating plant, means—
- (a) the day on which the Minister publishes the first notice under subregulation (10)(a); or
  - (b) in the case of an electricity generating plant that is designated as a designated electricity generating plant after the day referred to in paragraph (a)—the day on which the electricity generating plant is so designated;
- relevant distribution network* means a distribution network other than an excluded distribution network.

**55C—Relevant agents**

- (1) A person may be authorised, on or before 31 December 2020, to be a relevant agent by an owner or operator of a designated electricity generating plant to which regulation 55B applies if the person—
  - (a) is suitably qualified in accordance with the requirements set out in any guidelines under subregulation (4); and
  - (b) nominates, in accordance with any guidelines under subregulation (4), the technology they will use to remotely disconnect plant from, and reconnect plant to, the relevant distribution network; and
  - (c) gives a written undertaking to the Technical Regulator, in the form determined by the Technical Regulator, that the person will—
    - (i) complete, on or before 31 December 2020, all actions necessary to allow the person to remotely disconnect plant from, and reconnect plant to, the network; and
    - (ii) demonstrate, on or before 31 December 2020, that the technology nominated by them under paragraph (b) is capable of remotely disconnecting plant from, and reconnecting plant to, a relevant distribution network to the satisfaction of the Technical Regulator.
- (2) A person may be authorised, on or after 1 January 2021, to be a relevant agent by an owner or operator of a designated electricity generating plant to which regulation 55B applies if the person—
  - (a) is suitably qualified in accordance with the requirements set out in any guidelines under subregulation (4); and
  - (b) has nominated, in accordance with any guidelines under subregulation (4), the technology they will use to remotely disconnect plant from, and reconnect plant to, the relevant distribution network; and
  - (c) has completed all actions necessary to allow the person to remotely disconnect plant from, and reconnect plant to, the network; and
  - (d) has demonstrated that the technology nominated by them under paragraph (b) is capable of remotely disconnecting plant from, and reconnecting plant to, a relevant distribution network to the satisfaction of the Technical Regulator.
- (3) A person must not act contrary to, or fail to comply with, a written undertaking given under subregulation (1)(c).
- (4) The Technical Regulator may prepare and publish guidelines that set out the requirements for, and role and responsibilities of, a relevant agent.

**55D—Register of relevant agents**

- (1) The Technical Regulator must keep and maintain a register of relevant agents for the purposes of regulations 55B and 55C.

- (2) The requirement under subregulation (1) will be taken to be satisfied if the Technical Regulator adopts a register maintained by another person or body that the Technical Regulator is satisfied contains the information specified by subregulation (3).
- (3) The register must contain the following information:
  - (a) the location and size of each designated electricity generating plant to which regulation 55B applies;
  - (b) the name and contact details of the relevant agent for each designated electricity generating plant to which regulation 55B applies.
- (4) Information contained in the register may be provided to the following persons:
  - (a) a person with lawful authority to direct that a designated electricity generating plant be disconnected from, or reconnected to, a relevant distribution network;
  - (b) the operator of a relevant distribution network.

#### **55E—Export limits for electricity generating plant**

- (1) This regulation applies to a designated electricity generating plant that is, or is to be, connected to a relevant distribution network and that—
  - (a) is installed on or after the relevant day; or
  - (b) was installed before the relevant day if a declared component of electricity infrastructure or an electrical installation associated with the plant is replaced on or after that day.
- (2) The owner or operator of a designated electricity generating plant to which this regulation applies must ensure that the following requirements are complied with in relation to the plant:
  - (a) the plant's inverter is remote communications capable;
  - (b) on or after the prescribed day—
    - (i) the plant is capable of being export limited; and
    - (ii) the export limits of the plant are capable of being updated remotely.
- (3) A designated electricity generating plant to which this regulation applies must not be connected to a relevant distribution network unless the requirements under subregulation (2) are complied with in relation to the plant.
- (4) The Technical Regulator must prepare and publish guidelines that set out the requirements for ensuring that an inverter is **remote communications capable**.
- (5) The Technical Regulator may prepare and publish guidelines that set out methods for ensuring that—
  - (a) a designated electricity generating plant is capable of being export limited (**export limiting methods**); and

- (b) the export limits of a designated electricity generating plant are capable of being updated remotely (without a person being required to attend the site of the designated electricity generating plant) (*remote updating methods*).
- (6) Guidelines published under subregulation (5) may indicate that a method is, or is not, appropriate for designated electricity generating plant with particular nameplate capacity.
- (7) For the purposes of this regulation—
  - (a) a designated electricity generating plant (generally) is *capable of being export limited* if the electricity exported to a relevant distribution network from the plant can be programmed to not exceed thresholds (*export limits*), which may vary at different times of the day; and
  - (b) a particular designated electricity generating plant (*installed plant*) will be taken to be *capable of being export limited* if the installed plant complies with an export limiting method that is appropriate for designated electricity generating plant with nameplate capacity of the installed plant set out in guidelines published under subregulation (5); and
  - (c) the export limits of a designated electricity generating plant (*installed plant*) will be taken to be *capable of being updated remotely* if the installed plant complies with a remote updating method that is appropriate for designated electricity generating plant with nameplate capacity of the installed plant set out in guidelines published under subregulation (5).
- (8) The Technical Regulator must maintain an up to date list of *declared components* for the purposes of subregulation (1)(b) on a website determined by the Technical Regulator.
- (9) The Minister may—
  - (a) by notice in the Gazette, designate an electricity generating plant as a *designated electricity generating plant* for the purposes of this regulation; and
  - (b) by subsequent notice in the Gazette, vary or revoke a notice under this subregulation.
- (10) The Technical Regulator may—
  - (a) by notice in the Gazette, declare that a distribution network is an *excluded distribution network* for the purposes of this regulation; and
  - (b) by subsequent notice in the Gazette, vary or revoke a notice under this subregulation.
- (11) In this regulation—
  - declared component*—see subregulation (8);
  - designated electricity generating plant*—see subregulation (9);
  - excluded distribution network*—see subregulation (10);

**prescribed day** means a day specified by the Minister by notice in the Gazette for the purposes of subregulation (2)(b);

**relevant day**, in relation to a designated electricity generating plant, means—

- (a) the day on which these regulations come into operation; or
- (b) in the case of an electricity generating plant that is designated as a designated electricity generating plant after the day referred to in paragraph (a)—the day on which the electricity generating plant is so designated;

**relevant distribution network** means a distribution network other than an excluded distribution network.

### **55F—Voltage ride through for low voltage inverters of electricity generating plant**

- (1) Subject to subregulation (2), this regulation applies to an electricity generating plant that is, or is to be, connected to a distribution network through a low voltage inverter and that—
  - (a) is installed after the commencement of this regulation; or
  - (b) was installed before the commencement of this regulation if the plant's inverter is replaced after the commencement of this regulation, unless the inverter is replaced under warranty.
- (2) Despite subregulation (1)(a), this regulation—
  - (a) does not apply to an electricity generating plant installed after the commencement of this regulation where a written application to connect the plant to the distribution network was received by the operator of the distribution network on or before 10 August 2020; but
  - (b) does apply to such an electricity generating plant if the plant's inverter is subsequently replaced, unless the inverter is replaced under warranty.
- (3) The owner or operator of an electricity generating plant to which this regulation applies must ensure that the low voltage inverter of the plant—
  - (a) on or before 31 March 2021—is a designated inverter; or
  - (b) has been tested in accordance with both of the following procedures relating to voltage ride through:
    - (i) a procedure published from time to time by AEMO;
    - (ii) a procedure in *Australian Standard AS/NZS4777.2*.
- (4) An electricity generating plant to which this regulation applies must not be connected to a distribution network unless the requirements under subregulation (3) are complied with in relation to the plant.

- (5) The Technical Regulator must, from the commencement of this regulation until 31 March 2021, keep and maintain a publicly available register of *designated inverters*, being inverters that meet the following requirements:
- (a) the manufacturer of the inverter has provided the Technical Regulator with a test report that demonstrates that the inverter meets a procedure published from time to time by AEMO relating to voltage ride through, excluding any requirement in the procedure that the test be conducted at an appropriate testing facility;
  - (b) the manufacturer of the inverter has given a written undertaking to the Technical Regulator, in the form determined by the Technical Regulator, that—
    - (i) they will complete the testing referred to in subregulation (3)(b) through an appropriate testing facility on or before 31 March 2021; and
    - (ii) if the inverter fails to pass a test referred to in subregulation (3)(b) through an appropriate testing facility, they will—
      - (A) replace any such inverter supplied after the commencement of this regulation with an inverter that passes the tests referred to in subregulation (3)(b) through an appropriate testing facility; or
      - (B) upgrade any such inverter supplied after the commencement of this regulation so that the inverter passes the tests referred to in subregulation (3)(b) through an appropriate testing facility;
  - (c) the importer of the inverter (if any) has given a written undertaking to the Technical Regulator, in the form determined by the Technical Regulator, that, if the inverter fails to pass a test referred to in subregulation (3)(b) through an appropriate testing facility, they will—
    - (i) replace any such inverter supplied after the commencement of this regulation with an inverter that passes the tests referred to in subregulation (3)(b) through an appropriate testing facility; or
    - (ii) upgrade any such inverter supplied after the commencement of this regulation so that the inverter passes the tests referred to in subregulation (3)(b) through an appropriate testing facility.
- (6) A person must not act contrary to, or fail to comply with, a written undertaking given under subregulation (5)(b) or (c).
- (7) In this regulation—

*appropriate testing facility* means a testing facility that meets any requirements set out in a procedure published from time to time by AEMO relating to voltage ride through;

*designated inverter*—see subregulation (5);

*importer* means a person who imports an inverter into Australia.

### **55G—Meters**

A meter installed at premises on or after the commencement of this regulation must—

- (a) be capable of separately measuring and controlling an electricity generating plant and controllable load from essential load (whether or not there is electricity generating plant or controllable load at the premises); and
- (b) be installed in accordance with any guideline prepared and published by the Technical Regulator in respect of wiring, meter configurations and other installation requirements.

**Note—**

As required by section 10AA(2) of the *Subordinate Legislation Act 1978*, the Minister has certified that, in the Minister's opinion, it is necessary or appropriate that these regulations come into operation as set out in these regulations.

### 4—Insertion of regulation 6A

After regulation 6 insert:

#### 6A—Tariff structures

- (1) Section 22(1a) of the *National Energy Retail Law (South Australia)* applies in relation to South Australia.
- (2) The following tariff structures are prescribed for the purposes of section 22(1a)(c) of the *National Energy Retail Law (South Australia)*:
  - (a) in the case of a residential customer—

- (i) the time of use tariff structure applying under the residential time of use tariff published by SA Power Networks; and
    - (ii) the demand tariff structure applying under the residential prosumer tariff published by SA Power Networks;
  - (b) in the case of a business customer who consumes energy at business premises below the upper consumption threshold—
    - (i) the small business time of use tariff structure published by SA Power Networks; and
    - (ii) the small business time of use with demand tariff structure published by SA Power Networks;
  - (c) in the case of an eligible retailer—a tariff structure determined by the retailer.
- (3) A retailer's standing offer need only include 1 of the tariff structures prescribed by subregulation (2)(a) and 1 of the tariff structures prescribed by subregulation (2)(b), as determined by the retailer.
- (4) In this regulation—
- eligible retailer*** means a retailer that the Minister is satisfied—
- (a) has a generally available market offer that provides efficient signals to customers about when to use energy; and
  - (b) is using its best endeavours to market that generally available market offer to customers.

**Note—**

As required by section 10AA(2) of the *Subordinate Legislation Act 1978*, the Minister has certified that, in the Minister's opinion, it is necessary or appropriate that these regulations come into operation as set out in these regulations.

## Part 1—Preliminary

### 1—Short title

These regulations may be cited as the *Planning, Development and Infrastructure (General) (Miscellaneous) (No 3) Variation Regulations 2020*.

### 2—Commencement

These regulations come into operation on the day on which they are made.

### 3—Variation provisions

In these regulations, a provision under a heading referring to the variation of specified regulations varies the regulations so specified.

## Part 2—Variation of *Planning, Development and Infrastructure (General) Regulations 2017*

### 4—Variation of regulation 3—Interpretation

- (1) Regulation 3(1), definitions of *AHD* and *ARI*—delete the definitions
- (2) Regulation 3(3)—delete subregulation (3)

### 5—Variation of regulation 3A—Application of Act (section 8)

- (1) Regulation 3A—after subregulation (3) insert:
  - (3a) Pursuant to section 8(2)(b) of the Act, section 215 of the Act applies with the following prescribed variation during the period from the commencement of this subregulation until the designated day:

Section 215—after subsection (4) insert:

- (5) Subsection (4) does not apply to prevent a person who operates a shop used primarily for the sale of foodstuffs by retail from—
      - (a) loading or unloading goods at the shop at any time; or
      - (b) opening the shop to the public at any time.
- (2) Regulation 3A(4)—before the definition of *prescribed separation distance* insert:

*designated day* means the earlier of the following days:

  - (a) the day designated by the Minister by notice in the Gazette;
  - (b) 30 September 2020;

### 6—Variation of regulation 3F—Regulated and significant trees

- (1) Regulation 3F(1)—delete "*significant tree*" and substitute:

*regulated tree*
- (2) Regulation 3F(4)(c)—delete "Chapter 8 Part 1 of the *Natural Resources Management Act 2004*" and substitute:

Part 9 Division 1 of the *Landscape South Australia Act 2019*

**7—Variation of regulation 19—Incorporation of material (section 71(b))**

Regulation 19—after paragraph (a) insert:

- (ab) the administrative unit of the Public Service that is responsible for assisting a Minister in the administration of the *Heritage Places Act 1993*;

**8—Variation of regulation 21—Minor or operational amendments (section 76)**

Regulation 21(h)—delete "an NRM plan (or a part of any such plan) prepared under Chapter 4 of the *Natural Resources Management Act 2004*" and substitute:

a regional landscape plan, water allocation plan or landscapes or water affecting activities control policy (or a part of any such plan or policy) under the *Landscape South Australia Act 2019*

**9—Variation of regulation 22—Prescribed scheme (section 93)**

Regulation 22—after its present contents (now to be designated as subregulation (1)) insert:

- (2) In connection with subregulation (1)(a)(ii), an assessment manager may act as a relevant authority for the purposes of—
  - (a) making a decision in accordance with a practice direction under section 107(3)(a) of the Act; and
  - (b) determining whether a proposed development the subject of an application falls within a specified class of development excluded from the operation of section 107(3) and (4) of the Act by the Planning and Design Code.

**10—Variation of regulation 43—River Murray**

Regulation 43(2)—delete subregulation (2) and substitute:

- (2) If an application for the consent or approval of a proposed development must be referred under Schedule 9 to the Minister responsible for the administration of the *River Murray Act 2003* (the ***River Murray Minister***), the following provisions apply:
  - (a) subject to subregulation (3), the River Murray Minister must, in considering the application, take into account any matter that is raised by another Minister or other authority responsible for, or involved in, the administration of a related operational Act that is provided to the River Murray Minister in response to the referral of the application by the River Murray Minister to the other Minister or authority for comment;
  - (b) the River Murray Minister may, in providing a response to the relevant authority under section 122 of the Act, make that response on the basis of a matter referred to in paragraph (a).
- (3) A matter raised by another Minister or authority in response to the referral of an application by the River Murray Minister under subregulation (2)(a) is not required to be taken into account by the River Murray Minister unless it is provided to the River Murray Minister within a period specified by the River Murray Minister.

**11—Variation of regulation 44—Appeals**

Regulation 44—delete "item 14" wherever occurring and substitute in each case:

item 18

**12—Variation of regulation 47—Performance assessed development and restricted development**

Regulation 47(4)—delete subregulation (4) and substitute:

(4) If—

- (a) the applicant, in accordance with a procedure specified by a practice direction, requests the relevant authority to place a notice on land under subregulation (2); and
- (b) the proposed development is to be undertaken within the area of a council; and
- (c) the relevant authority is an assessment panel appointed or constituted under section 83 or 84 of the Act; and
- (d) the applicant pays the fee determined by the council for the area in which the proposed development is to be undertaken as being appropriate to cover the reasonable costs of placing the notice on the land,

the relevant authority will be responsible for placing the notice on the land.

**13—Variation of regulation 57—Notice of decision (section 126(1))**

Regulation 57(4)—delete subregulation (4) and substitute:

(4) The relevant authority must—

- (a) endorse a set of any approved plans and other relevant documentation with an appropriate form of authentication; and
- (b) ensure that the notice provided via the SA planning portal under subregulation (2) includes the endorsed set of approved plans and other relevant documentation.

**14—Variation of regulation 64—Building work affecting other land**

Regulation 64—after subregulation (2) insert:

(2a) For the purposes of section 139(2)(a) of the Act—

- (a) the form set out in Schedule 10A is prescribed; and
- (b) the person undertaking the development must serve a completed notice on the owner of the affected site at least 20 business days before the building work is commenced.

(2b) For the purposes of section 139(2)(c) of the Act, before seeking access under section 139(2)(b) of the Act, the person undertaking the development (or a person authorised by that person) must give at least 1 business day's notice of the proposed work and the proposed time of accessing the affected site.

**15—Insertion of regulation 64A**

After regulation 64 insert:

**64A—Access to neighbouring land**

For the purposes of section 140(3) of the Act, the form set out in Schedule 10B is prescribed.

**16—Variation of regulation 65—Variation of authorisation (section 128)**

Regulation 65—after subregulation (2) insert:

- (3) Subregulation (1) does not apply to a development authorisation relating to a division of land where certificates of title have been issued by the Registrar-General in respect of the land divided in accordance with the development authorisation.

**17—Variation of regulation 68—Procedural matters (section 111(2))**

Regulation 68(3)—delete subregulation (3)

**18—Variation of regulation 93—Notifications during building work**

- (1) Regulation 93(1)(c)—delete "or before development approval is granted" and substitute:  
the granting of development approval
- (2) Regulation 93(1)(f)—before "completion" insert:  
the intended

**19—Variation of regulation 94—Essential safety provisions**

Regulation 94(4)(a)—delete "building rules consent" and substitute:  
building consent

**20—Variation of regulation 99—Construction Industry Training Fund**

- (1) Regulation 99(2)—delete "building rules consent" and substitute:  
building consent
- (2) Regulation 99(3)(b)—delete "building rules consent" and substitute:  
building consent
- (3) Regulation 99(4)—delete "building rules consent" and substitute:  
building consent

**21—Variation of regulation 103—Certificates of occupancy**

- (1) Regulation 103—after subregulation (6) insert:
  - (6a) If, on receipt of a notification of intended completion of building work under regulation 93(1)(f), a council determines that the building work will be inspected by an authorised officer, the certificate of occupancy must not be granted until the inspection has been carried out and any required building work or other action has been undertaken.

- (6b) A council must provide to the relevant authority responsible for assessment of the building work against the provisions of the Building Rules (unless that relevant authority was the council)—
  - (a) notice of its determination to carry out an inspection of building work in accordance with subregulation (6a); and
  - (b) notice of the completion of the inspection (after any building work or other action required by the inspection has been undertaken).
- (2) Regulation 103(7)—delete "Pursuant" and substitute:

Subject to subregulation (7a), pursuant
- (3) Regulation 103—after subregulation (7) insert:
  - (7a) If the council has determined to carry out an inspection of building work in accordance with subregulation (6a), the period under subregulation (7)(a) or (b) (within which an application for the issue of a certificate of occupancy in respect of the building must be decided) does not commence until the day after the notice of completion of the inspection under subregulation (6b)(b) is provided.
- (4) Regulation 103(11)—after "(3)" insert:

, (6a)

## **22—Variation of regulation 104—Statement of Compliance**

- (1) Regulation 104(3)—delete subregulation (3) and substitute:
  - (3) If building work is carried out in a case where this regulation applies—
    - (a) the licensed building work contractor responsible for carrying out the building work; or
    - (b) if there is no such person, a registered building work supervisor or a building certifier,

must, when a notice of completion with respect to the building work is given, provide to the relevant authority under subregulation (4) and the person referred to in subregulation (6)(b) via the SA planning portal a duly completed Statement of Compliance in the form determined by the Chief Executive for the purposes of this regulation (being a form published by the Chief Executive on the SA planning portal).
- (2) Regulation 104(5)—delete "building rules consent" and substitute:

building consent
- (3) Regulation 104(10)—delete subregulation (10)

## **23—Variation of regulation 112—Authorised officers and inspections**

- (1) Regulation 112(2)(a)—delete "section 144" and substitute:

sections 144 and 156

- (2) Regulation 112—after subregulation (2) insert:

## LIVESTOCK ACT 1997

### SECTION 33

#### *Prohibition of Entry into and Movement within South Australia of Decapod Crustaceans (Order Decapoda) and Polychaete Worms (Class Polychaeta)*

PURSUANT to Section 87 of the *Livestock Act 1997*, I, Mary Ruth Carr, Chief Inspector of Stock, delegate of the Minister for Primary Industries and Regional Development, revoke the notice made by the Minister for Primary Industries and Regional Development pursuant to section 37 of the *Livestock Act 1997* on 13 September 2019, published in the *Gazette* on 19 September 2019 at p.3318.

PURSUANT to Section 33 of the *Livestock Act 1997* and for the purposes of controlling and eradicating *White Spot Disease*, an *exotic disease of decapod crustaceans*, I, Mary Ruth Carr, Chief Inspector of Stock, delegate of the Minister for Primary Industries and Regional Development, prohibit the entry into, and movement within, South Australia of:

- (1) live or dead *decapod crustaceans* and/or *polychaete worms*, whether wild-caught or cultivated, originating from, or which have moved through, the *Queensland White Spot Disease movement restriction area* as described in Schedule 1 of this Notice; and
- (2) fittings used in connection with cultivation or commercial catch of *decapod crustaceans* or *polychaete worms* described in subclause (1); and
- (3) live or dead *decapod crustaceans* and/or *polychaete worms*, not being *decapod crustaceans* or *polychaete worms* described in subclause (1), that have been in contact with any of the following:
  - (a) live or dead *decapod crustaceans* or *polychaete worms* described in subclause (1); or
  - (b) water that had previously held live or dead *decapod crustaceans* or *polychaete worms* described in subclause (1); or
  - (c) fittings that had previously been used in connection with *decapod crustaceans* or *polychaete worms* described in subclause (1),

except to the extent, and subject to the conditions, set out in Parts A to F below. Except as expressly provided, the exceptions in Parts A to F are independent of one another.

#### **Part A: cooked *decapod crustaceans* for human consumption**

The entry into, and movement within, South Australia of dead *decapod crustaceans* described in subclause (1) or subclause (3) above is permitted if:

- (a) they have been processed as *cooked product* before entering South Australia; and
- (b) they were securely packaged upon being processed as *cooked product* and remain so at the time of entering South Australia and thereafter until after they have been delivered to a *point of sale* in South Australia; and
- (c) upon entering South Australia they are transported directly to a *point of sale* in South Australia.

#### **Part B: uncooked *decapod crustaceans* for human consumption**

The entry into, and movement within, South Australia of uncooked dead *decapod crustaceans* which originated from outside the *Queensland White Spot Disease movement restriction area* but have moved through the *Queensland White Spot Disease movement restriction area* is permitted if:

- (a) they were moved through the *Queensland White Spot Disease movement restriction area* in sealed bins, containers or packaging and remain in the secured bins, containers or packaging at the time of entering South Australia and thereafter until after they have been delivered to a point of sale in South Australia and sold for human consumption; and
- (b) the name, address, postcode and State or Territory of the grower and/or the commercial fisher and the packer are clearly displayed on the outer surface of each individual bin, container or packaging; and
- (c) upon entering South Australia they are transported directly to a point of sale in South Australia for human consumption.

#### **Part C: *gamma irradiated product* for processing and/or distribution as fishing bait**

The entry into, and movement within, South Australia of uncooked dead *decapod crustaceans* or *polychaete worms* originating from, or which have moved through, the *Queensland White Spot Disease movement restriction area* (in Parts C and D, “the product”) is permitted if:

- (a) the product was subject to *gamma irradiation treatment* within the *Queensland White Spot Disease movement restriction area*; and
- (b) upon entering South Australia, the product is transported directly to a *processing/distribution facility*; and
- (c) an *inspector* is notified no less than 48 business hours prior to the planned time of arrival of the product at the *processing/distribution facility* of:
  - i. the name, address and contact details (telephone and email) of the person importing the product into South Australia; and
  - ii. the description of the product including species, weight, type of packaging and number of packages; and
  - iii. the estimated date and time of arrival of the product; and
- (d) the product did not come into contact with any untreated *decapod crustaceans* or *polychaete worms* described in subclause (1) or subclause (3) above after the *gamma irradiation treatment*; and
- (e) the product is moved into South Australia and transported to the *processing/distribution facility*:
  - i. in refrigerated transport; and

- ii. in sealed containers that only contain individually sealed packets of *gamma irradiated product* that are labelled with:
    - (1) date of capture, and
    - (2) origin of capture, and
    - (3) the symbols “50kGy” to indicated the product was irradiated with this dose, and
    - (4) the relevant gamma irradiation lot number,and the outer containers are clearly marked as containing *gamma irradiated product*; and
  - iii. accompanied by a copy of the relevant Certificate of Irradiation; and
  - iv. as soon as possible after the arrival of the product at the processing/distribution facility, the SA Chief Inspector of Stock is informed in writing via email by the first person receiving the product in South Australia of the date and time of the arrival of the product at its destination (email details of SA Chief Inspector of Stock: [pirsa.biosecuritysa@sa.gov.au](mailto:pirsa.biosecuritysa@sa.gov.au)); and
- (f) unless sold by retail at the processing/distribution facility for use as fishing bait in the individually sealed packets in which it was transported there, or intended for distribution in the individually sealed packets in which it was transported to the processing/distribution facility, the product is processed and/or packaged at the processing/distribution facility for distribution for use as fishing bait in accordance with the requirements of Part D; and
  - (g) unless sold by retail at the processing/distribution facility for use as fishing bait, either in the individually sealed packets in which it was transported there or, as applicable, in the individual containers into which it was finally packaged there, the product is transported directly from the processing/distribution facility to a retail point of sale in South Australia for use as fishing bait; and
  - (h) the product to which Part C paragraph (g) applies is transported to the point of sale either in the individually sealed packets in which it was transported to the processing/distribution facility, or, as applicable, in the containers into which it was finally packaged there, and in either case remains in the applicable packaging until sold by retail; and
  - (i) the product is accompanied at all times by documentation that contains a statement to the effect that the product originated from the Queensland White Spot Disease movement restriction area and as a result, must be dealt with in accordance with the requirements in Part C paragraphs (a) to (i) and Part D paragraphs (a) to (d) of this Notice.

**Part D: requirements for processing and packaging**

The requirements that apply for the purposes of Part C paragraph (f) are that:

- (a) the product remains identifiable with appropriate marks on containers and boxes with the lot number allocated to the product by the Treatment Facility and with the name of the Treatment Facility; and
- (b) a copy of the Certificate of Irradiation is kept with the product at all times prior to it being finally packaged; and
- (c) (without limiting paragraph (a)) each individual container into which the product is finally packaged is clearly labelled with:
  - i. the name of the *Treatment Facility*; and
  - ii. the relevant lot number; and
  - iii. the details of the volume of product that was irradiated in that lot; and
  - iv. the symbols “50kGy” to indicate that the product was irradiated with this dose; and
- (d) any waste product produced during processing or packaging (for example, water or organic matter) is disposed of to either the public sewer (for water) or to a Waste Depot (for waste other than water).

**Part E: cleaned and disinfected fittings**

The entry into, and movement within, South Australia of fittings used in connection with cultivation or commercial catch of *decapod crustaceans* or *polychaete worms* described in subclause (1) is permitted on the condition that:

- (a) the fittings have been cleaned and disinfected to remove all traces of live or dead decapod crustaceans or polychaete worms; and
- (b) a record of the cleaning date is made available to an inspector upon request.

**Part F: product previously coming into contact with cleaned and disinfected fittings**

The entry into, and movement within, South Australia of live or dead *decapod crustaceans* or *polychaete worms*, not being *decapod crustaceans* or *polychaete worms* described in subclause (1), (in Part G, “the product”) that have been in contact with fittings that had previously been used in connection with *decapod crustaceans* or *polychaete worms* described in subclause (1) is permitted on the condition that:

- (a) the fittings had been *cleaned and disinfected* to remove all traces of live or dead *decapod crustaceans* or *polychaete worms* before the product was in contact with the fittings; and
- (b) a record of the cleaning date is made available to an *inspector* upon request.

**Definitions**

In this Notice:

**Certificate of Irradiation**, in relation to a product, means a certificate that:

- (a) certifies that *gamma irradiation treatment* was applied to the product at the *Treatment Facility* on the date stated on the certificate; and
- (b) bears an individual lot number assigned by the *Treatment Facility*; and
- (c) describes the product that was treated including the species and total weight of the product; and
- (d) is signed by an employee of the *Treatment Facility* who is authorised to sign the certificate on behalf of the *Treatment Facility*.

**Cleaned and disinfected** means to clean and disinfect in accordance with the Queensland Department of Agriculture and Fisheries *Recommended procedure for decontaminating fishing apparatus and vessels* which can be found at [www.daf.qld.gov.au/business-priorities/biosecurity/animal-biosecurity-welfare/animal-health-pests-diseases/a-z-list-of-significant-animal-pests-and-diseases/white-spot-disease/decontamination](http://www.daf.qld.gov.au/business-priorities/biosecurity/animal-biosecurity-welfare/animal-health-pests-diseases/a-z-list-of-significant-animal-pests-and-diseases/white-spot-disease/decontamination)

**Cooked product** means product comprising or containing *decapod crustaceans* that has been cooked, in premises approved by and under the control of the relevant state government agency that regulates food safety, to a minimum time and temperature standard where all the protein in the *decapod crustaceans* is coagulated and no uncooked meat remains.

**Decapod crustacean** means any crustacean of the Order Decapoda and includes, but is not limited to school, tiger and banana prawns, yabbies or pink nippers, shrimp, slipper lobsters, crabs and hermit crabs.

**Exotic disease** has the same meaning as in the *Livestock Act 1997*.

**Gamma irradiation treatment** means treatment by irradiation at a gamma irradiation dose of at least 50 kilo Gray (kGy).

**Gamma irradiated product** means product treated by irradiation at a gamma irradiation dose of at least 50 kilo Gray (kGy).

**Inspector** means an inspector appointed under the *Livestock Act 1997*.

**Point of sale** means a place at which product is processed and/or sold, whether by wholesale or retail, on a commercial basis.

**Polychaete worm** means any worm of the Class Polychaeta and includes, but is not limited to, bristle worms.

**Processing/distribution facility** means a facility in South Australia which undertakes the processing and/or on-selling of uncooked *decapod crustaceans* and/or *polychaete worms* that have been subject to *gamma irradiation treatment* within the *Queensland White Spot Disease movement restriction area* for use as fishing bait.

**Public sewer** means a sewer operated by a council or any other authority established under the *Local Government Act 1999*, a water supply authority (within the meaning of the *Water Industry Act 2012*), a State owned corporation (*South Australian Water Corporation Act 1994* or a subsidiary of such a corporation) or any other public or local authority.

**Treatment Facility** means a treatment facility that applies *gamma irradiation treatment* to *decapod crustaceans* and/or *polychaete worms*.

**Waste Depot** means a place at which waste may be treated or stored in accordance with an approval under the *Local Government Act 1999* or a place approved as a Waste Depot or waste facility under any other Act.

**White Spot Disease** means the disease that is caused by the virus *Whispovirus* (Family *Nimaviridae*), also known as infection with white spot syndrome virus.

A reference to dead animals of a particular kind includes a reference to parts of animals of that kind and to a product consisting of parts of, or which is derived from, animals of that kind.

#### SCHEDULE 1

- (1) The *Queensland White Spot Disease movement restriction area* comprises that portion of the State of Queensland, as currently defined in the Queensland Department of Agriculture and Fisheries *Notice of Establishment of Biosecurity Areas within the White Spot Biosecurity Zone and Lesser Restrictions for the Biosecurity Areas (Section 94B of the Biosecurity Regulation 2016 and section 129(1)(c) of the Biosecurity Act 2014)*, made on July 5 2017, as the area within the White Spot Biosecurity Zone outside Biosecurity Area 1.

### NATIONAL ELECTRICITY LAW

*Initiation of Rule Change Request; Publication of Draft Determinations; and Notice of Extension of Draft Determinations*

The Australian Energy Market Commission (AEMC) gives notice under the National Electricity Law as follows:

Under s 95, the Reliability Panel has requested the *Transparency of Unserved Energy Calculation* (Ref. ERC0279) proposal. The proposal seeks to clarify what counts towards unserved energy for the purposes of the reliability standard and would promote transparency with regard to how unserved energy is calculated after events on the power system that incur involuntary load shedding. The AEMC intends to expedite the proposal under s 96 as it considers the proposed Rule is non-controversial, subject to requests not to do so. Written requests not to expedite the proposal must be received by **8 October 2020**. Submissions must be received by **22 October 2020**.

Under s 99, the making of a draft determination and related draft rule on the *Compensation for market participants affected by intervention events* proposal (Ref. ERC0284). Written requests for a pre-determination hearing must be received by **1 October 2020**. Submissions must be received by **5 November 2020**.

Under s 99, the making of a draft determination and related draft rule on the *Compensation following directions for services other than energy and market ancillary services* proposal (Ref. ERC0287). Written requests for a pre-determination hearing must be received by **1 October 2020**. Submissions must be received by **5 November 2020**.

Under s 107, the time for making the draft determination on the *Primary frequency response incentive arrangements* (Ref. ERC0263) proposal has been extended to **16 September 2021**.

Under s 107, the time for making the draft determination on the *Synchronous services markets* (Ref. ERC0290) proposal has been extended to **25 March 2021**.

Under s 107, the time for making the draft determination on the *Operating reserve market* (Ref. ERC0295) proposal has been extended to **24 June 2021**.

Under s 107, the time for making the draft determination on the *Fast frequency response market ancillary service* (Ref. ERC0296) proposal has been extended to **22 April 2021**.

Under s 107, the time for making the draft determination on the *Efficient management of system strength on the power system* (Ref. ERC0300) proposal has been extended to **24 December 2020**.

Under s 107, the time for making the draft determination on the *Capacity commitment mechanism for system security and reliability services* (Ref. ERC0306) proposal has been extended to **25 March 2021**.

Under s 107, the time for making the draft determination on the *Introduction of ramping services* (Ref. ERC0307) proposal has been extended to **24 June 2021**.

Submissions can be made via the AEMC's website. Before making a submission, please review the AEMC's privacy statement on its website. Submissions should be made in accordance with the AEMC's *Guidelines for making written submissions on Rule change proposals*.
