2—Commencement

These regulations come into operation on 1 December 2021.

3—Variation provisions

In these regulations, a provision under a heading referring to the variation of specified regulations varies the regulations so specified.

Part 2—Variation of *Environment Protection Regulations 2009*

4—Variation of regulation 68A—Interpretation

Regulation 68A(1)—before the definition of *mass balance report* insert:

approved operational use—see regulation 69A;

approved operational use declaration—see regulation 69A(2);

Approved Operational Use Standard means the document of that name published by the Authority, as in force from time to time;

licensee, in relation to a waste depot, means the holder of the licence to conduct the waste depot.

5—Insertion of regulations 69A and 69B

After regulation 69—insert:

69A—Approved operational use

- (1) For the purposes of this Part, an *approved operational use*, in relation to the use of waste or other matter at a waste depot, means—
 - (a) an operational use of a kind approved in relation to specified waste or matter under the *Approved Operational Use Standard*, and that is carried out in accordance with the requirements specified in that Standard; or
 - (b) an operational use that is approved by a declaration made under subregulation (2) (as in force in respect of the depot), and that is carried out in accordance with the conditions or requirements specified in the declaration,

but does not include the use of waste or other matter as cover of landfill at the depot on a daily or more frequent basis.

Examples—

The following are examples of an operational use that may be approved:

- (a) construction or maintenance of internal roads;
 - (b) interim cover of landfill (but not cover of landfill on a daily or more frequent basis) where no additional waste will be placed for at least 30 days;
 - (c) final capping of landfill cells;
 - (d) mulching.
- (2) The Authority may, on application by the holder of a licence to conduct a waste depot or on its own initiative, make a declaration (an *approved operational use declaration*) that a use of waste or other matter at the depot is an approved operational use only if satisfied that—
 - (a) the use of waste or other matter at the depot in the manner proposed is necessary for an operational or environmental management purpose (or purposes); and
 - (b) the type of waste or other matter proposed to be used for the operational use is suitable for that purpose (or those purposes).

- (3) In determining whether to make an approved operational use declaration under this regulation, the Authority must also—
- (a) have regard to, and seek to further, the objects of the Act; and
 - (b) have regard to—
 - (i) the general environmental duty; and
 - (ii) any relevant environment protection policy; and
 - (iii) the waste strategy for the State adopted under the *Green Industries SA Act 2004* (if relevant); and
 - (iv) any relevant reports, assessments, environmental impact statement, public environmental report, Assessment Report, development authorisation or other document or requirement under the *Development Act 1993* or the *Planning, Development and Infrastructure Act 2016*; and
 - (v) any relevant environment improvement programme or agreement.
- (4) A declaration under this regulation—
- (a) must be by notice in writing; and
 - (b) must specify—
 - (i) the type and amount of the waste or other matter to which the declaration applies; and
 - (ii) the purpose and location of the operational use; and
 - (c) may be subject to the following conditions, as specified in the declaration:
 - (i) a condition requiring the operational use to occur in a specified manner or within a specified time frame;
 - (ii) a condition requiring that the waste or other matter to which the declaration applies meets specified chemical or physical properties or complies with specified standards or specifications;
 - (iii) a condition requiring plans, specifications or reports in connection with the operational use to be prepared by a person with specified qualifications;
 - (iv) a condition requiring works in connection with the operational use to be carried out by a person with specified qualifications;
 - (v) a condition requiring records relating to the operational use to be kept in a specified manner or form or for a specified period;
 - (vi) a condition requiring such records to be available for inspection by an authorised officer;
 - (vii) such other conditions as the Authority thinks fit; and

- (d) may be varied or revoked by the Authority at any time, by notice in writing to the licence holder, if the Authority is satisfied—
 - (i) that a condition of the declaration has been contravened; or
 - (ii) there is potential for environmental harm (or further environmental harm) to occur if an operational use to which the declaration relates were to continue; or
 - (iii) that the declaration was improperly obtained; or
 - (iv) that other circumstances exist, which in the opinion of the Authority, make it necessary or appropriate to do so.

69B—Authority may require further information

A person who makes an application under this Division must provide the Authority with any information required by the Authority in connection with the determination of the application, verified, if the Authority so requires, by statutory declaration.

6—Variation of regulation 70—Waste depot levy (section 113 of Act)

Regulation 70(2)—delete subregulation (2) and substitute:

- (2) Pursuant to section 113(4) of the Act, the penalty for a failure to pay the levy as required under that section is—
 - (a) in a case where the licensee satisfies the Authority that all reasonable and practicable measures were taken to prevent the default from occurring—the higher of \$200 or 2% of the amount due for each month (or part of a month) for which the default continues; or
 - (b) in a case where the default is identified and voluntarily reported to the Authority by the licensee before the Authority has notified the licensee of the default—the higher of \$200 or 2% of the amount due for each month (or part of a month) for which the default continues; or
 - (c) in a case where both paragraphs (a) and (b) apply—the higher of \$150 or 1.5% of the amount due for each month (or part of a month) for which the default continues; or
 - (d) in any other case—the higher of \$350 or 3.5% of the amount due for each month (or part of a month) for which the default continues.

7—Insertion of regulations 75AA and 75AAB

After regulation 75—insert:

75AA—Presumptions and estimates if records are inadequate

- (1) If the Authority is of the opinion that records that relate to waste or other matter received or present at a waste depot during any period (being records required for determining the waste depot levy payable under this Part) are inadequate, and as a result, the Authority is of the opinion it is necessary in order to determine the levy payable, the Authority is entitled to make presumptions and estimates in relation to the waste or matter in accordance with this regulation.
- (2) For the purposes of subregulation (1), without limiting the circumstances in which records will be taken to be inadequate, records relating to a period will be taken to be inadequate if—
 - (a) there are no records relating to waste or other matter received or present at the depot during the period; or
 - (b) the records relating to waste or other matter received or present at the depot during the period are incomplete, inaccurate or inconsistent with other records (whether kept by the licensee, the occupier of the waste depot or another person or body); or
 - (c) the information contained in the records relating to waste or other matter received or present at the depot during the period has not been obtained by methods that, in the opinion of the Authority, are appropriate.
- (3) The Authority is entitled to presume 1 or more of the following in relation to any waste or other matter at the waste depot (subject to the licensee establishing the contrary):
 - (a) that the waste or matter is waste or matter that has been received at the depot;
 - (b) that the waste or matter is waste or matter that has been disposed of to landfill at the depot;
 - (c) that the waste or matter has been used at the depot for an operational use other than an approved operational use;
 - (d) that unauthorised stockpiling of the waste or matter has occurred at the depot;
 - (e) that the waste or matter was stockpiled in an area of the depot, or in any manner, in contravention of the relevant licence;
 - (f) that any matters referred to in a preceding paragraph commenced or occurred on the date on which the Authority first became aware that the relevant records were inadequate;
 - (g) that the waste or matter at the waste depot is waste or matter of a specified kind;
 - (h) that the waste or matter has been—
 - (i) generated within metropolitan Adelaide; or
 - (ii) generated from waste or other matter generated in metropolitan Adelaide.

- (4) In estimating the tonnage of waste or other matter received at the waste depot during the period, the Authority must have regard to the following (to the extent considered relevant by the Authority):
- (a) details of any volumetric survey of the depot;
 - (b) details of any stockpile volume assessment at the depot (made using assessment or modelling methodologies approved by the Authority);
 - (c) available records in respect of the depot;
 - (d) any information provided by an authorised officer who has seen or inspected the depot;
 - (e) any information available to the Authority, including images and data from cameras and GPS devices and information from persons not involved with the operation of the depot;
 - (f) any other details provided to the Authority in relation to the depot under regulation 75AAB.

75AAB—Authority may require reports of volumetric surveys or tests or monitoring

- (1) If the Authority has formed an opinion under regulation 75AA that records that relate to waste or other matter received or present at a waste depot during any period are inadequate, the Authority may, by notice in writing, for the purposes of determining the amount of the waste depot levy payable by the licensee of the depot, require the licensee to provide the Authority with 1 or more of the following (as specified in the notice), within a reasonable period of time specified in the notice—
- (a) details of a volumetric survey (that complies with the requirements of this regulation) of—
 - (i) landfill at the depot; or
 - (ii) any other waste or matter that has been abandoned, stockpiled or used at the depot,prepared by a licensed or registered surveyor under the *Survey Act 1992* or a person, or person of a class, approved by the Authority; or
 - (b) reports of specified tests or monitoring of—
 - (i) landfill at the depot; or
 - (ii) any other waste or matter that has been abandoned, stockpiled or used at the depot,including, if the Authority considers it necessary, reports prepared, or tests or monitoring undertaken, by a person with specified qualifications; or
 - (c) any other information required by the Authority in connection with the determination of the amount of the waste depot levy, verified, if the Authority so requires, by statutory declaration.

- (2) A volumetric survey provided to the Authority under subregulation (1) must be in accordance with any other requirements specified by the Authority in the notice.
- (3) It is an offence for a licensee to contravene or fail to comply with the requirements of a notice given by the Authority to the licensee.
Maximum penalty: \$4 000.
Expiation fee: \$300.

8—Variation of Schedule 4—Fees and levy

Schedule 4, Part 2—delete the Part and substitute:

Part 2—Waste depot levy

3—Waste depot levy

- (1) Pursuant to section 113 of the Act (but subject to Part 6 of these regulations and this clause), the prescribed levy payable by the holder of a licence to conduct a waste disposal depot in respect of waste received at the depot is—
- (a) for solid waste—
- | | |
|---|----------|
| (i) in the case of a licence holder that is a council that has made an election under regulation 75 (per tonne of solid waste disposed of at the depot) | \$71.50 |
| (ii) in the case of the holder of a licence to conduct a landfill depot or incineration depot (not being a licence holder referred to in subparagraph (i)) (per tonne of designated solid waste disposed of, used or handled at the depot)— | |
| (A) if the depot is situated outside of metropolitan Adelaide and the waste has been brought to the depot by or on behalf of premises where the waste was generated situated outside of metropolitan Adelaide | \$71.50 |
| (B) if the depot is situated within metropolitan Adelaide and the waste has been brought to the depot by or on behalf of a council the area of which lies wholly outside of metropolitan Adelaide | \$71.50 |
| (C) in any other case | \$143.00 |
| (b) for liquid waste (per kilolitre disposed of at the depot) | \$39.02 |

- (2) If under the licence the waste disposal depot is required to cover landfill at the depot with material on a daily or more frequent basis, the amount of the levy payable in respect of the waste under subclause (1)(a)(ii) is to be subject to a deduction calculated in accordance with the following formula:

$$PCD \times W \times LR$$

where—

PCD is the percentage cover deduction of 10%

W is the total amount of designated solid waste (in tonnes) disposed of (including any waste used as cover for landfill) at the depot in the relevant period

LR is the average levy rate paid per tonne of solid waste disposed of at the depot in the relevant period (excluding any solid waste in respect of which payment of all or part of the levy is waived or refunded under section 116 of the Act).

Note—

To the extent to which the calculation of the levy payable under this clause following the application of the deduction under this subclause results in an amount that is less than \$0, that amount, to the extent that it is less than \$0, is to be disregarded and may not be carried over to another period.

- (3) For the purposes of this clause, ***designated solid waste*** means the following solid waste (including waste fill):
- (a) solid waste disposed of at the depot;
 - (b) solid waste used as cover for landfill at the depot on a daily or more frequent basis;

 - (d) solid waste that is the subject of unauthorised stockpiling at the depot;
 - (e) solid waste that has been stockpiled at the depot in contravention of the relevant licence.

- (4) In this clause—

approved operational use has the same meaning as in regulation 69A;

incineration depot means a depot, facility or works referred to in Schedule 1 Part A clause 3(3)(c) of the Act;

landfill depot means a depot, facility or works referred to in Schedule 1 Part A clause 3(3)(a) of the Act;

- (1) This notice sets out the Gambling Administration Guidelines for Ticket-in Ticket-out Systems and is issued by the Liquor and Gambling Commissioner under section 17 of the *Gambling Administration Act 2019* for the purposes of regulation 27(2) of the Gaming Machines Regulations 2020.

Gambling Administration Guidelines—Ticket-in Ticket-out Systems

1. Introduction

The holder of a gaming machine licence may provide a gaming machine on the licensed premises that may be operated by the insertion of a banknote or by ticket (known as “ticket-in ticket-out” or TITO) subject to various transactional limits.

To facilitate the approval and installation of equipment which will be required to allow gaming machines to be operated by the insertion of banknotes or TITO, the Gaming Machines Regulations 2020 have been amended to include a bank note acceptor and any device that allows the printing or issue of tickets for use in connection with a gaming machine, as prescribed components.

Furthermore, a gaming machine that is intended to be operated in connection with a TITO system must comply with the requirements of, and be operated in accordance with Gambling Administration Guidelines issued by the Liquor and Gambling Commissioner under section 17 of the *Gambling Administration Act 2019*.

2. Commencement

These guidelines come into effect on the date that the Gambling Administration Guidelines Notice 2021—*Gaming Machines Act 1992* (Ticket-in Ticket-out Systems) is published in the *South Australian Government Gazette*.

The Commissioner may by notice in the Gazette vary or revoke this notice at any time in accordance with section 17(3) of the *Gambling Administration Act 2019*.

Version control will be used to indicate revisions to these guidelines.

3. Intended Audience

These guidelines are intended for use by suppliers of TITO proprietary equipment, cashable ticket redemption terminals, gaming machine manufacturers, Accredited Testing Facilities (ATF), Regulators, and gaming venues to support the implementation of TITO in South Australian hotels and clubs.

4. Purpose and Scope

- (1) These guidelines specify the functional and technical requirements for the operation of “Ticket-In Ticket-Out” (TITO) on gaming machines and Cashable Ticket Redemption Terminals (CRT) operating in South Australian hotel and club gaming venues.
- (2) These guidelines, together with relevant legislation and regulations ensure that TITO operation in South Australian hotels and clubs is secure, fair, auditable, and complies with legislated harm minimisation measures.
- (3) Any matters arising from the evaluation and operation of TITO systems and related devices not covered by these guidelines will be resolved at the discretion of the Commissioner.
- (4) These guidelines do not apply to:
 - (a) the implementation of facial recognition technology, a legislated harm minimisation measure for South Australian hotels and clubs capable of operating 30 gaming machines or more with at least one machine able to be operated by the insertion of a banknote;
 - (b) automated risk monitoring systems which must be operated in South Australian hotels and clubs;
 - (c) account based cashless gaming systems able to be operated in South Australian hotels and clubs; and
 - (d) TITO, CRT and any other forms of cashless gaming operations at the Adelaide Casino (which is in place under other regulatory arrangements).

5. Dependencies

- (1) The TITO system to be operated in South Australian hotels and clubs is facilitated through the Independent Gaming Corporation (IGC), the holder of the South Australian Gaming Machine Monitor Licence (Licence number 52400426).
- (2) The implementation of TITO in South Australian hotels and clubs is based on the adoption of the QCOM Protocol (version 1.6.6 or any subsequent version as implemented in South Australia), being the gaming machine communication protocol, which supports TITO and bank note acceptors. A copy of the QCOM Protocol is available from the Queensland Office of Liquor and Gaming Regulation (QOLGR) publications website.
- (3) Proprietary components (TITO equipment) to support the implementation of TITO (including banknote acceptors and ticket printers) must not be installed or operated in a gaming machine unless the components:
 - (a) comply with the applicable technical requirements defined under the *Australian/New Zealand Gaming Machine National Standard 2016* (or any subsequent version) and other applicable technical requirements;
 - (b) comply with any technical requirements for TITO as listed in the South Australian Appendix to the *Australian/New Zealand Gaming Machine National Standard 2016* (or any subsequent version);

- (c) comply with the applicable technical requirements of the QCOM communication protocol;
 - (d) have been tested for regulatory compliance by an Accredited Testing Facility (ATF); and
 - (e) have been approved by Consumer and Business Services (CBS) as part of the gaming machine in which they are to be installed.
- (4) When enabled, TITO systems must implement the transactional limits that are prescribed under the Gaming Machines Regulations 2020. Refer to section 13 of these guidelines—South Australia specific TITO and BNA limits.
 - (5) When enabled, banknote acceptors must implement the transactional limits that are prescribed under the *Gaming Machines Act 1992*. Refer to section 13 of these guidelines—South Australia specific TITO and BNA limits.
 - (6) The use of third-party systems for the purposes of implementing Ticket-Out (TO) only or both Ticket-In Ticket-Out (TITO) on non-QCOM gaming machines is prohibited.
 - (7) The implementation of Cashable Ticket Redemption Terminals (CRT) in South Australian hotels and clubs is based on the adoption of the International Gaming Standards Association (GSA) ‘System-to-System’ S2S Message Protocol.
 - (8) The inter-operability requirements for any third-party CRT to communicate with the South Australian gaming machine monitoring system are defined in the ‘S2S Interface Specification for Cashable Ticket Redemption Terminals’ which is available from the Independent Gaming Corporation (IGC), the holder of the South Australian Gaming Machine Monitor Licence.

6. General Requirements

- (1) TITO when implemented in South Australia can be used as a Ticket-Out (TO) only system, or both a Ticket-In and Ticket-Out (TITO) system. TITO supplements the use of cash for the exchange of credits to and from gaming machines using cashable tickets whereby ticket-in may be facilitated by either a dedicated ticket-in device or a banknote acceptor that can read tickets.
- (2) A TITO system typically consists of, but is not limited to, the following components:
 - (a) a TITO Host that is responsible for the validation and authorisation of tickets, system management and reporting of TITO accounting information;
 - (b) proprietary components (TITO equipment) installed in gaming machines such as banknote acceptors and ticket printers responsible for validating cashable tickets for ticket redemption and printing cashable tickets for ticket issuance;
 - (c) cashier terminals that are operated by gaming venue staff to perform tasks such as redeeming cashable tickets;

- (d) a help desk operated by a TITO system provider to provide help and support to gaming venues that have implemented TITO; and
 - (e) Cashable Ticket Redemption Terminals (CRT) which are used for the automated redemption of cashable tickets without, in most cases, the involvement of venue staff.
- (3) TITO equipment installed in gaming machines, such as banknote acceptors and ticket printers, must be installed safely and securely to prevent injuries to customers or gaming staff using the gaming machine.
- (4) TITO systems must hold the records of tickets used by the system in a secure and fault tolerant manner.
- (5) Each TITO transaction must:
- (a) be allocated a unique sequence number; and
 - (b) have a time-date stamp.
- (6) Gaming machines and the TITO system must be configured to ensure synchronicity of time-date data used to time-date stamp TITO transactions. Gaming machines should not allow TITO operation until they have time-date synchronised with the TITO system.
- (7) The TITO system may have—
- (a) a configurable **maximum ticket out limit** restricting the cash value of tickets that gaming machines can issue (MAXTO);
 - (b) a configurable **maximum ticket in limit** where tickets having a cash value in excess of the maximum ticket in limit are rejected (MAXTI);
 - (c) a configurable **minimum ticket out limit** which define the minimum cash value that tickets can be issued by a particular gaming machine (MINTO); and
 - (d) a configurable **maximum credit limit** restricting a gaming machine from redeeming a ticket if it would cause the credit meter of the gaming machine to exceed this value (MAXCR).
- (8) Tickets that have a cash value in excess of the prescribed maximum ticket in limit for a gaming machine may be redeemed at a cashier terminal or CRT.
- (9) The TITO system—
- (a) must have a configurable **ticket expiry time** which defines the period of time from the time of ticket issue to the time that tickets may be redeemed by the TITO system;
 - (b) must have an additional configurable **ticket floor expiry time** which defines the period of time from the time of ticket issue to the time that tickets may be redeemed by a gaming machine or CRT; and
 - (c) must ensure that cashable tickets cannot be redeemed more than once.
- (10) Tickets may only be used for cash transactions and must not contain any form of promotional information or advertising such as ‘non-cashable’ credits.

- (11) TITO equipment is a prescribed component of a gaming machine under the Gaming Machine Regulations 2020 and as such must only be installed in a gaming machine or serviced by a person licensed in South Australia as an approved gaming machine technician.
- (12) Any tickets which cannot be redeemed must be dealt with in accordance with South Australian Legislation.
- (13) User Manuals and Operation Manuals must be clear and concise, explaining the details, relevant information and procedures regarding the TITO system for use by system users and venue staff.

7. TITO Host Requirements

- (1) The TITO Host is responsible for the authorisation and validation of cashable tickets:
 - (a) redeemed for their monetary value when inserted into a gaming machine to cause the equivalent number of credits to be added to the credit meter;
 - (b) redeemed from a gaming venue cashier or CRT for the tickets face value; and
 - (c) issued in exchange for credits accumulated on a gaming machine.
- (2) The TITO Host must be secure, fault tolerant and have redundant data storage.
- (3) The TITO Host must be able to recover back to an operational state without loss of TITO data following an interruption or outage.
- (4) The TITO Host must provide accountable, transparent and auditable recording and reporting of transactions to enable the accurate calculation and reporting of gaming revenue, player payments, taxation and any other TITO related financial information required for a venue to comply with its regulatory obligations.
- (5) The TITO Host must provide reporting and record keeping for liability for unredeemed and expired tickets.
- (6) The TITO Host must be able to generate a unique and secure Authentication Number for each individual cashable ticket.
- (7) Information generated by the TITO system such as Authentication Numbers, ticket amounts, and ticket status must be stored securely by the TITO Host with measures to prevent unauthorised access, fraud, and theft of unredeemed tickets.
- (8) The generation of Authentication Numbers by the TITO Host must be secure to meet the operating risk of the TITO system.
- (9) There must be no possibility of the creation of an orphaned ticket (a ticket that has been printed with an Authentication Number but does not exist on the TITO system) and the system must reconcile after any interruption. The TITO Host must report or log such an anomaly should it occur.
- (10) The TITO Host must provide a cashier terminal for venue staff to perform ticket redemptions and to obtain information relevant to the operation of TITO in the venue.

- (11) A facility to issue tickets from cashier terminals or CRTs is not supported by the TITO system operated in South Australian hotels and clubs through the Independent Gaming Corporation (IGC).
- (12) The TITO host system software must be under version control and under regulatory approval control in line with the *Gaming Machines Act 1992*.
- (13) TITO host system software must be able to be audited by allowing software signatures to be calculated for controlled files.

8. Ticket Details

- (1) Tickets must comply with the QCOM Protocol v1.6.6 (or any subsequent version as implemented in South Australia). See sub-clause 8(6) for the preferred ticket layout.
- (2) The following information must be printed on each ticket:
 - (a) the venue name where the ticket was printed, populated by the STTEXT field from the QCOM Site Details Broadcast Poll;
 - (b) the Ticket Serial Number, assigned by the gaming machine printing the ticket, refer to TSER field in the Ticket Out Request QCOM event, preceded by the label "Ticket#:";
 - (c) the identification number of the gaming machine that printed the ticket, being the QCOM 2-digit EGM Manufacturer ID and 6-digit Serial Number, preceded by the label "EGM:";
 - (d) the time and date when the ticket was printed, in the format prescribed by the QCOM Protocol: "dd/mm/yyyy hh:mm:ss AM/PM";
 - (e) the 18-digit Authentication Number for the ticket in a machine-readable format (e.g. barcode);
 - (f) the 18-digit Authentication Number for the ticket in human-readable format;
 - (g) the words "CASH OUT TICKET" indicating the ticket is a cash ticket;
 - (h) the monetary value of the ticket in dollars and cents preceded by the label "CASH AMOUNT" or just "AMOUNT" (e.g. "AMOUNT \$1,234.56");
 - (i) the monetary value of the ticket in words (e.g. "One thousand, two hundred and thirty four dollars and fifty six cents");
 - (j) support for a dynamic message field for an expanded responsible gambling message¹ capable of displaying up to 80-characters of text and populated by the QCOM CTEXT field in the Cash Ticket Out Request Acknowledgement Poll (as indicated by the three lines of numerical text on the ticket template below);

¹ Refer to the responsible gambling messaging requirements as prescribed in the relevant South Australian Gambling Codes of Practice

- (3) The following “static” gambling helpline information text must be printed on the ticket:

*”Gambling too much?
For free and confidential advice 24/7 call the Gambling Helpline on
1800 858 858 or visit gamblinghelponline.org.au”*

It is preferable that this “static” information should be pre-printed on the face of the ticket (as per the example in sub-clause 8.6) but may be pre-printed on the back of the ticket if there is insufficient room on the face of the ticket.

- (4) If the ticket is vulnerable to damage or deterioration from environmental conditions then applicable warnings must be printed on the rear of the ticket (e.g. “Do not store in direct sunlight”). This can be pre-printed on the back of the ticket if there is insufficient room on the front of the ticket.
- (5) The ticket must not contain any form of promotional or advertising information.
- (6) Template of a Cashable Ticket:

9. Ticket-In Process

- (1) The ticket-In functionality is equivalent to a player inserting cash into a gaming machine. Ticket-in may be facilitated by either a dedicated ticket-in device or a banknote acceptor that can read tickets.
- (2) The TITO Host is responsible for the authorisation and validation of tickets inserted into a gaming machine, CRT or when presented to a cashier terminal for redemption.
- (3) Gaming machines and CRT must only accept a ticket for redemption when they are enabled to accept credit.
- (4) Tickets inserted for redemption when a gaming machine or CRT is not enabled to accept credit must be rejected and returned to the player.
- (5) The gaming machine or CRT must read the Authentication Number printed on the ticket and send the request to the TITO Host for authorisation and validation.
- (6) Tickets must only be redeemed if the TITO Host has authorised and validated the ticket for redemption. If a gaming machine or CRT cannot read the Authentication Number on the ticket, then the ticket must be rejected back to the player.

- (7) A ticket inserted into a gaming machine must be rejected by the TITO Host if it would cause the credit meter of the gaming machine to exceed the transactional limits prescribed in the Gaming Machines Regulations 2020. Refer to section 13 of these guidelines—South Australia specific TITO and BNA limits.
- (8) A gaming machine or CRT must reject all other ticket insertions until the current ticket has been accepted or rejected. The current ticket is to be held in escrow while processing takes place as per the QCOM Protocol.
- (9) If a validation timeout, ticket jam or similar fault occurs during the ticket-in process, the gaming machine or CRT must be able to log fault.
- (10) If a ticket is validated, the redeemed ticket must be retained by the gaming machine or CRT.
- (11) A gaming machine must provide a form of audio and visual notification when a ticket is successfully redeemed.
- (12) A CRT must provide a form of visual notification and if fitted with a speaker, an audible notification, when a ticket is redeemed.
- (13) The gaming machine or CRT must update its logs and accounting meters when a ticket is redeemed.
- (14) When a ticket is rejected by the TITO Host, the gaming machine or CRT must display a message indicating why the ticket was rejected. The message must be displayed for a reasonable amount of time and be legible. Examples include:
 - (a) “Ticket System Unavailable”
 - (b) “Ticket Expired”
 - (c) “Ticket Amount Too Large”
 - (d) “Ticket Invalid”
 - (e) “Ticket Not Found”
 - (f) “Ticket Already Redeemed”
- (15) Gaming machines and CRT must be able to recover from interruptions that occur during the ticket-in process and complete the ticket-in transaction by either aborting the transaction and returning the ticket to the player or completing the ticket-in transaction and paying the player the cash amount of the ticket.
- (16) The TITO system must have a provision to log all attempted ticket-in requests instigated on the system for a period of at least 13 months. This is known as the “**cash ticket-in log**”.

- (17) The “cash ticket-in log” can be in any format but must be able to be viewed or printed and must include every new entry that has been validated by the TITO system including the following details as a minimum:
- (a) time and date
 - (b) amount
 - (c) authentication Number
 - (d) machine identification
 - (e) status (e.g. awaiting approval, denied or approved)

10. Ticket-Out Process

- (1) The ticket-out functionality is equivalent to a player pressing collect and collecting credits from a gaming machine in coin. The ticket will include a unique identifier and additional information including the value of the ticket and responsible gambling messages. Tickets printed by a gaming machine can be redeemed for cash by presenting the ticket to a venue staff member at a cashier terminal or at a CRT.
- (2) Ticket-out functionality from a CRT or cashier terminal is not supported by the TITO system operated in South Australian hotels and clubs through the Independent Gaming Corporation (IGC).
- (3) The TITO Host is solely responsible for the authorisation and allocation of an Authorisation Number when a ticket-out is requested by a gaming machine. Validation of a ticket will be through the use of this identifier—Authentication Number.
- (4) A ticket can be redeemed for cash or, subject to transactional limits as detailed in the Gaming Machines Regulations 2020, inserted into a gaming machine to transfer the monetary value of the ticket. Refer to section 13 of these guidelines—South Australia specific TITO and BNA limits.
- (5) The ticket-out transaction is only to be initiated when the player presses ‘Collect’ on a gaming machine. The gaming machine must send a request to the TITO Host requesting authorisation for the ticket-out request.
- (6) The gaming machine must display the pending status of the ticket-out transaction (e.g. “Processing Ticket... Please Wait”).
- (7) The TITO Host must either authorise or reject the ticket-out request in a timely manner.
- (8) The gaming machine must remain in this pending state until an authorisation or rejection is received from the TITO Host.
- (9) The gaming machine must only print the ticket after the TITO Host has approved the ticket-out request.
- (10) If the ticket-out request is rejected by the TITO Host, the gaming machine must return to the state prior to the ticket out request.

- (11) Gaming machines must be able to recover from interruptions that occur during the ticket-out process by returning to the state before the interruption or aborting the ticket-out transaction.
- (12) The TITO system must have a provision to log all attempted ticket-out requests instigated on the system for a period of at least 13 months. This is known as the “**cash ticket-out log**”.
- (13) The “cash ticket-out log” can be in any format but must be able to be viewed or printed and must include every new entry that has been validated by the TITO system including the following details as a minimum:
 - (a) time and date
 - (b) amount
 - (c) authentication Number
 - (d) machine identification
 - (e) status (e.g. awaiting approval, denied or approved).

11. Cashable Ticket Redemption Terminals

- (1) A CRT, also known as a ‘Credit or Cash Redemption Terminal’ and must not be operated in a South Australian hotel or club gaming machine venue unless its components:
 - (a) comply with the applicable technical requirements defined under the *Australian/New Zealand Gaming Machine National Standard 2016* (or any subsequent version);
 - (b) comply with any applicable technical requirements for CRTs specified by IGC;
 - (c) have been tested for functional compliance and certified as fit for purpose by IGC; and
 - (d) on application by IGC, approved by Consumer and Business Services (CBS).
- (2) Additionally, an Accredited Testing Facility (ATF) must certify that a CRT complies with the following sections of the *Australian/New Zealand Gaming Machine National Standard 2016* (or any subsequent version):
 - (a) Cabinet Hardware and Security;
 - (b) Software Verification;
 - (c) Retention of non-volatile memory; and
 - (d) EMC and Electrical Safety requirements.

The ATF certification must be provided to IGC before a CRT can be certified as fit for purpose. IGC will assess all other regulatory and functional compliance requirements.

- (3) To assist licensees with the introduction of TITO technology, a CRT may be installed in a gaming venue prior to CBS approval. The CRT may be powered on temporarily for the purposes of training staff and conducting installation testing, but must otherwise remain powered down until IGC has completed its evaluation and approval has been granted for the CRT to be connected to the monitoring system.
- (4) A CRT is intended to assist with the processing of gaming machine transactions by redeeming TITO tickets. It is not intended to be a complete replacement for cashiers but offers a self-service option for customers. Additional functionality may be considered by Consumer and Business Services on a case-by-case basis.
- (5) A CRT must not provide any additional functionality relating to banking transactions (e.g. ATM or EFTPOS functionality).
- (6) A CRT may *optionally* implement a threshold for ticket redemption in excess of any payment amount prescribed in the responsible gambling messaging requirements of the relevant South Australian Gambling Codes of Practice over which authorisation by venue staff through a key-off procedure or similar authorisation is required for the ticket redemption to be completed.
- (7) All communications between the CRT and TITO Host must be secure, authenticated, and S2S protocol-based.
- (8) A CRT must have a secure means to configure:
 - (a) ticket redemption limits for the CRT; and
 - (b) the denomination of banknote and coin able to be issued by the CRT.
- (9) A CRT must maintain a log of the last 35 redeemed or rejected tickets that must include the following information for each ticket transaction at a minimum:
 - (a) whether the ticket was redeemed or rejected;
 - (b) the ticket amount;
 - (c) that the transaction was a ticket redemption;
 - (d) the date and time of the transaction; and
 - (e) the details of banknotes and coins dispensed.
- (10) A CRT is permitted to provide note breaking functionality.
- (11) The CRT must at a minimum, maintain a log of the following meters for accounting purposes:
 - (a) the number and monetary value of tickets redeemed;
 - (b) the number of tickets rejected; and
 - (c) the details of banknotes and coins dispensed.

- (12) A CRT must use a form of non-volatile memory to store critical TITO data, such as, its configuration, accounting meters, and transaction logs.
- (13) The CRT must be able to recover and return to normal operating conditions following a TITO system outage, fault, or an interruption on the CRT.
- (14) A CRT must, at a minimum, be able to detect and display a visual alert for the following conditions:
 - (a) a failure that prevented a transaction from being completed;
 - (b) a fault or a failure with the CRT; and
 - (c) communication has been lost with the TITO System.
- (15) A CRT must be able to detect and sound an audible alert following a security breach into the physical cabinet or secure area of the CRT.
- (16) A CRT must display clear and meaningful messages when a fault or error condition occurs.
- (17) A CRT must have system-based security provisions that detect tampering or misuse. Such controls are expected to complement physical supervision.
- (18) A CRT must have the facility to display device software and firmware version identifiers and appropriate software validation for critical software and firmware used in the terminal.
- (19) A CRT must provide instructions in plain English. CRTs may be programmed to toggle to an alternate official language but must default to English after 60 seconds of inactivity. Testing of such CRTs must include certification that the alternative language is a true translation of the English message.
- (20) The display of advertising on a CRT, other than the display of manufacturer logos, venue name and prescribed responsible gambling messaging in accordance with the South Australian Gambling Code of Practice is prohibited.
- (21) If a CRT has insufficient funds to completely pay out a TITO ticket, the CRT may issue a "Short Pay Receipt" (for the balance of the funds) for redemption from a cashier only. These receipts must not be able to be inserted into a gaming machine and used for credits.

12. Cashier Terminals

- (1) Cashier Terminals must communicate in a secure and approved manner with the TITO Host using an integrated application installed on the Site Controller.
- (2) IGC may provide a barcode scanner, keypad or other device which when attached to the Site Controller facilitates the validation of a cashable ticket.
- (3) Access to the TITO functions provided by Cashier Terminals must be restricted with account and password control.

- (4) The TITO System must be able to record all ticket-in transactions performed on each Cashier Terminal. The record must include every new entry that has been verified by the TITO Host and include the following details as a minimum:
- (a) time and date;
 - (b) amount; and
 - (c) unique ticket identifier.
