Part 6—General provisions applying under food safety schemes

Part 1—Preliminary

1—Short title

These regulations may be cited as the *Primary Produce (Food Safety Schemes) (Plant Products) Amendment Regulations 2026*.

2—Commencement

These regulations come into operation on 1 April 2027.

Part 2—Amendment of *Primary Produce (Food Safety Schemes) (Plant Products) Regulations 2022*

3—Amendment of regulation 3—Interpretation

(1) Regulation 3, definition of ***accredited producer***—delete "carry on a seed sprouts production business;" and substitute

carry on—

(a) a seed sprouts production business; or

(b) a berry production business; or

(c) a leafy vegetable production business; or

(d) a melon production business;

(2) Regulation 3—after the definition of ***Act*** insert:

berries means fresh berries, and includes strawberries, blueberries, and berries from the genus *Rubus*;

berry production business means a business constituted of or involving a designated activity in connection with the production of berries intended for consumption by humans;

designated activity, in relation to a plant product, means—

(a) the growing, cultivation, picking or harvesting of the plant product; or

(b) the transportation of the plant product from the growing site; or

(c) when undertaken as part of the same business as an activity referred to in paragraph (a)—the sorting, grading, freezing, packing, refrigeration, storage, treatment or washing of the plant product;

(3) Regulation 3—after the definition of ***Food Standards Code*** insert:

growing site, in relation to a plant product, means the site at which the plant product was grown, cultivated, picked or harvested;

leafy vegetable means any vegetable of a leafy nature where the leaf is consumed raw, and includes baby leaves, lettuce and leafy herbs (but does not include seed sprouts);

leafy vegetable production business means a business constituted of or involving a designated activity in connection with the production of leafy vegetables intended for consumption by humans;

melon means any fresh melon, and includes watermelon, rockmelon, honeydew melon, and piel de sapo;

melon production business means a business constituted of or involving a designated activity in connection with the production of melons intended for consumption by humans;

4—Amendment of regulation 6—Requirements for accreditation

Regulation 6—after "applicant for accreditation" insert:

to carry on a seed sprouts production business

5—Amendment of regulation 7—Compliance with Standard 4.2.6 of *Food Standards Code*

Regulation 7—after "accredited producer" insert:

carrying on a seed sprouts production business

6—Amendment of regulation 8—Approved food safety arrangements

Regulation 8—after "accredited producer" insert:

carrying on a seed sprouts production business

7—Insertion of Parts 3, 4 and 5, and heading to Part 6

After regulation 8 insert:

Part 3—Berries

8A—Berries food safety scheme

(1) This Part establishes a food safety scheme for carrying on a berry production business.

(2) The Minister is the accreditation body for the berries food safety scheme.

8B—Obligation to be accredited

For the purposes of section 12 of the Act, a person must not carry on a berry production business without an accreditation.

8C—Requirements for accreditation

For the purposes of section 15(1)(c) of the Act, an applicant for accreditation to carry on a berry production business must satisfy the Minister that the applicant has the capacity, or has made or proposes to make appropriate arrangements, to satisfy the requirements of the Act and these regulations applicable to the activities to be accredited.

8D—Compliance with Standard 4.2.7 of *Food Standards Code*

An accredited producer carrying on a berry production business must ensure that the activities under the accreditation are carried on in compliance with Standard 4.2.7 of the *Food Standards Code*.

Maximum penalty: $5 000.

Expiation fee: $315.

8E—Approved food safety arrangements

An accredited producer carrying on a berry production business must have a food safety arrangement approved by the Minister.

Part 4—Leafy vegetables

8F—Leafy vegetables food safety scheme

(1) This Part establishes a food safety scheme for carrying on a leafy vegetable production business.

(2) The Minister is the accreditation body for the leafy vegetables food safety scheme.

8G—Obligation to be accredited

For the purposes of section 12 of the Act, a person must not carry on a leafy vegetable production business without an accreditation.

8H—Requirements for accreditation

For the purposes of section 15(1)(c) of the Act, an applicant for accreditation to carry on a leafy vegetable production business must satisfy the Minister that the applicant has the capacity, or has made or proposes to make appropriate arrangements, to satisfy the requirements of the Act and these regulations applicable to the activities to be accredited.

8I—Compliance with Standard 4.2.8 of *Food Standards Code*

An accredited producer carrying on a leafy vegetable production business must ensure that the activities under the accreditation are carried on in compliance with Standard 4.2.8 of the *Food Standards Code*.

Maximum penalty: $5 000.

Expiation fee: $315.

8J—Approved food safety arrangements

An accredited producer carrying on a leafy vegetable production business must have a food safety arrangement approved by the Minister.

Part 5—Melons

8K—Melon food safety scheme

(1) This Part establishes a food safety scheme for carrying on a melon production business.

(2) The Minister is the accreditation body for the melon food safety scheme.

8L—Obligation to be accredited

For the purposes of section 12 of the Act, a person must not carry on a melon production business without an accreditation.

8M—Requirements for accreditation

For the purposes of section 15(1)(c) of the Act, an applicant for accreditation to carry on a melon production business must satisfy the Minister that the applicant has the capacity, or has made or proposes to make appropriate arrangements, to satisfy the requirements of the Act and these regulations applicable to the activities to be accredited.

8N—Compliance with Standard 4.2.9 of *Food Standards Code*

An accredited producer carrying on a melon production business must ensure that the activities under the accreditation are carried on in compliance with Standard 4.2.9 of the *Food Standards Code*.

Maximum penalty: $5 000.

Expiation fee: $315.

8O—Approved food safety arrangements

An accredited producer carrying on a melon production business must have a food safety arrangement approved by the Minister.

Work Health and Safety (Workplace Exposure Limits) Amendment Regulations 2026

under the *Work Health and Safety Act 2012*

Contents

Part 1—Preliminary

1 Short title
2 Commencement

Part 2—Amendment of *Work Health and Safety Regulations 2012*

3 Amendment of regulation 5—Definitions
4 Amendment of regulation 33—Specific requirements must be complied with
5 Substitution of regulation 49
49 Ensuring exposure limits for substances and mixtures not exceeded
6 Amendment of regulation 50—Monitoring airborne contaminant levels
7 Amendment of regulation 352—Review of control measures
8 Amendment of regulation 420—Exposure to airborne asbestos at workplace
9 Amendment of regulation 454—Emergency procedure
10 Amendment of regulation 455—Emergency procedure—residential premises
11 Amendment of regulation 482—Air monitoring
12 Amendment of regulation 529CA—Identifying processing of CSS that is high risk
13 Amendment of regulation 529CE—Monitoring in relation to processing of CSS that is high risk
14 Amendment of regulation 636—Ensuring exposure standards for dust not exceeded
15 Amendment of regulation 637—Monitoring exposure to airborne dust
16 Amendment of regulation 648—Air quality—minimum standards for ventilated air
17 Amendment of regulation 650—Requirements if air quality requirements and exposure standards not complied with
18 Amendment of Schedule 8—Disclosure of ingredients in safety data sheet

Part 1—Preliminary

1—Short title

These regulations may be cited as the *Work Health and Safety (Workplace Exposure Limits) Amendment Regulations 2026*.

2—Commencement

These regulations come into operation on 1 December 2026.

Part 2—Amendment of *Work Health and Safety Regulations 2012*

3—Amendment of regulation 5—Definitions

(1) Regulation 5, definition of ***exposure standard***—delete the definition and substitute:

exposure limit means an exposure limit in the Workplace Exposure Limits for Airborne Contaminants;

Note—

See also regulation 49(3).

(2) Regulation 5, definition of ***Workplace Exposure Standards for Airborne Contaminants***—delete the definition and substitute:

Workplace Exposure Limits for Airborne Contaminants means the Workplace Exposure Limits for Airborne Contaminants published by Safe Work Australia as in force or remade from time to time;

4—Amendment of regulation 33—Specific requirements must be complied with

Regulation 33, example 1—delete "exposure standard" and substitute:

exposure limit

5—Substitution of regulation 49

Regulation 49—delete the regulation and substitute:

49—Ensuring exposure limits for substances and mixtures not exceeded

(1) This regulation does not apply to flour dust.

(2) A person conducting a business or undertaking at a workplace must ensure that no person at the workplace is exposed to a substance or mixture in an airborne concentration that exceeds—

(a) in the case of a substance or mixture listed in the Workplace Exposure Limits for Airborne Contaminants (other than a substance or mixture specified in paragraph (b), (c) or (d))—the exposure limit (if any) for the substance or mixture or any of its ingredients; or

(b) in the case of grain dust—TWA: 4 mg/m^3; or

(c) in the case of methyl bromide—TWA: 5 ppm; or

(d) in the case of phosphine—TWA: 0.3 ppm, STEL: 1 ppm.

Maximum penalty:

(a) In the case of an individual—$6 000.

(b) In the case of a body corporate—$30 000.

(3) A limit fixed by subregulation (2)(b), (c) or (d) for a substance or mixture will be taken for the purposes of these regulations to be the exposure limit that applies to that substance or mixture.

6—Amendment of regulation 50—Monitoring airborne contaminant levels

(1) Regulation 50—before subregulation (1) insert:

(a1) This regulation does not apply to flour dust.

(2) Regulation 50(1)—delete "exposure standard" and substitute:

exposure limit

(3) Regulation 50(1)(a)—delete "exposure standard" and substitute:

exposure limit

7—Amendment of regulation 352—Review of control measures

Regulation 352(c)—delete "exposure standard" and substitute:

exposure limit

8—Amendment of regulation 420—Exposure to airborne asbestos at workplace

Regulation 420(2)—delete "exposure standard" and substitute:

exposure limit

9—Amendment of regulation 454—Emergency procedure

Regulation 454(2)(a)—delete "to below the exposure standard" and substitute:

below the exposure limit for asbestos

10—Amendment of regulation 455—Emergency procedure—residential premises

Regulation 455(2)—delete "to below the exposure standard" and substitute:

below the exposure limit for asbestos

11—Amendment of regulation 482—Air monitoring

(1) Regulation 482(1)—delete "exposure standard" and substitute:

exposure limit for asbestos

(2) Regulation 482(2)—delete "exposure standard" and substitute:

exposure limit for asbestos

12—Amendment of regulation 529CA—Identifying processing of CSS that is high risk

Regulation 529CA(2)(e)—delete "workplace exposure standard" and substitute:

exposure limit for respirable crystalline silica

13—Amendment of regulation 529CE—Monitoring in relation to processing of CSS that is high risk

Regulation 529CE(b)—delete "workplace exposure standard" and substitute:

exposure limit for respirable crystalline silica

14—Amendment of regulation 636—Ensuring exposure standards for dust not exceeded

(1) Regulation 636, heading—delete "exposure standards" and substitute:

exposure limits

(2) Regulation 636(2)—delete "Workplace Exposure Standards for Airborne Contaminants" and substitute:

Workplace Exposure Limits for Airborne Contaminants

STATE GOVERNMENT INSTRUMENTS

ADMINISTRATIVE ARRANGEMENTS ACT 1994

SECTION 9

Instrument of Delegation

I, the Hon. Joseph Szakacs MP as the Minister for Infrastructure and Transport in the State of South Australia, do pursuant to Section 9 of the *Administrative Arrangements Act 1994,* hereby delegate to the Minister for Police in the State of South Australia my powers and functions pursuant to Section 79BA(1) of the *Road Traffic Act 1961* to approve the Commissioner of Highways installing, maintaining, altering, or removing or causing such action, a photographic detection device on, above or near a road.

This Instrument of Delegation comes into operation on the day that it is published in the South Australian Government Gazette.

Dated: 20 November 2026

HON. JOSEPH SZAKACS MP
Minister for Infrastructure and Transport

BUILDING WORK CONTRACTORS ACT 1995

Exemption

Take notice that, pursuant to Section 45 of the *Building Work Contractors Act 1995*, I, Brett Humphrey as a delegate for the Minister for Consumer and Business Affairs, do hereby exempt the licensee named in Schedule 1 from the application of Division 3 of Part 5 of the above Act in relation to domestic building work described in Schedule 2 and subject to the conditions specified in Schedule 3.

SCHEDULE 1

ADRIAN MAX GUELL (BLD 179551)

SCHEDULE 2

Construction of a two-storey detached dwelling at Allotment 2 Deposited Plan 140515, being a portion of the land described in Certificate of Title Volume 6338 Folio 403, more commonly known as Lot 2 Twin Street, Stirling SA 5152.

SCHEDULE 3

1. This exemption is limited to domestic building work personally performed by the licensee in relation to the building work described in Schedule 2.
2. This exemption does not apply to any domestic building work the licensee contracts to another building work contractor, for which that contractor is required by law to hold building indemnity insurance.
3. That the licensee does not transfer his interest in the land or let or lease the property for valuable consideration prior to five years from the date of completion of the building work the subject of this exemption, without the prior authorisation of Consumer and Business Services (CBS). Before giving such authorisation, CBS may require the licensee to take any reasonable steps to protect the future purchaser(s) of the property, including but not limited to:
   - Providing evidence that an adequate policy of building indemnity insurance is in force to cover the balance of the five-year period from the date of completion of the building work the subject of this exemption;
   - Providing evidence of an independent expert inspection of the building work the subject of this exemption;
   - Making an independent expert report available to prospective purchasers of the property;
   - Giving prospective purchasers of the property notice of the absence of a policy of building indemnity insurance.

BUILDING WORK CONTRACTORS ACT 1995

Exemption

Take notice that, pursuant to Section 45 of the *Building Work Contractors Act 1995*, I, Brett Humphrey as a delegate for the Minister for Consumer and Business Affairs, do hereby exempt the licensee named in Schedule 1 from the application of Division 3 of Part 5 of the above Act in relation to domestic building work described in Schedule 2 and subject to the conditions specified in Schedule 3.

SCHEDULE 1

DARREN JAMES FRANCIS (BLD 225656)

SCHEDULE 2

Construction of a double-storey detached dwelling at Allotment 1 Deposited Plan 134664, being a portion of the land described in Certificate of Title Volume 6312 Folio 336, more commonly known as 23A Liberman Crescent, West Lakes SA 5021.

SCHEDULE 3

1. This exemption is limited to domestic building work personally performed by the licensee in relation to the building work described in Schedule 2.
2. This exemption does not apply to any domestic building work the licensee contracts to another building work contractor, for which that contractor is required by law to hold building indemnity insurance.

3. That the licensee does not transfer his interest in the land or let or lease the property for valuable consideration prior to five years from the date of completion of the building work the subject of this exemption, without the prior authorisation of Consumer and Business Services (CBS). Before giving such authorisation, CBS may require the licensee to take any reasonable steps to protect the future purchaser(s) of the property, including but not limited to:
   - Providing evidence that an adequate policy of building indemnity insurance is in force to cover the balance of the five-year period from the date of completion of the building work the subject of this exemption;
   - Providing evidence of an independent expert inspection of the building work the subject of this exemption;

EMPLOYMENT AGENTS REGISTRATION ACT 1993

Exemption

Notice is hereby given that, pursuant to Section 4(1) of the *Employment Agents Registration Act 1993*, I, Kyam Maher MLC, Deputy Premier, Minister for Industrial Relations, hereby exempt Redstone Recruitment Pty Ltd of New South Wales (Suite 2, Level 4, 35 Clarence Street, Sydney, NSW 2000) from:

- Section 7(3) of the *Employment Agents Registration Act 1993* (SA) in relation to the requirement that, in making an application for a licence, the applicant must furnish the name of a natural person, who is a resident of the State and is to act as manager of the business;
- Section 11(1) of the *Employment Agents Registration Act 1993* (SA) in relation to the requirement that the business conducted in pursuance of the licence must be managed under the personal supervision of a natural person who is a resident of the State;
- Section 16(1) of the *Employment Agents Registration Act 1993* (SA) in relation to the requirement that the holder of a licence must not carry on the business of an employment agent except at premises registered under this section;
- Section 17 of the *Employment Agents Registration Act 1993* (SA) in relation to the requirement that a person carrying on business as an employment agent in pursuance of a licence must maintain in a conspicuous position at any registered premise a notice clearly displaying the name of the agent as it appears in the licence or a registered business name in which the agent carries on business as an agent and if a manager has been appointed, the name of the manager of the business; and
- Section 19(1) of the *Employment Agents Registration Act 1993* (SA) in relation to the requirement to display a notice clearly showing the scale of fees for the time being chargeable by the agent in respect of his or her business at the registered premises; and
- Section 22(3) of the *Employment Agents Registration Act 1993* (SA) in relation to the requirement for records, accounts and documents to be kept at registered premises for the period of one year.

ENVIRONMENT PROTECTION ACT 1993

SECTION 68

Approval of Category B Containers

I, Nicholas Stewart, Principal Adviser, Product Stewardship and Delegate of the Environment Protection Authority (the Authority), pursuant to Section 68 of the *Environment Protection Act 1993* (SA) ('the Act') hereby:

Approve as Category B Containers, subject to the conditions in subclauses 1, 2, 3 and 4 below, each of the classes of containers identified by reference to the following matters described in the first 4 Columns of Schedule 1 of this Notice which are sold in South Australia:

(a) the product which each class of containers shall contain;

(b) the size of the containers;

(c) the type of containers;

(d) the name of the holders of these approvals.

1. That containers of the class to which the approval relates must bear the refund marking specified by the Authority for containers of that class. The Authority specifies the following refund markings for Category B containers:

   (1) "10c refund at collection depots when sold in SA"; or

   (2) "10c refund at SA/NT collection depots in State/Territory of purchase"; or

   (3) "10c refund at collection depots/points in participating state/territory of purchase".

2. The holder of the approval must have in place an effective and appropriate waste management arrangement in relation to containers of that class. For the purpose of this approval notice the company named in Column 5 of Schedule 1 of this Notice is the nominated super collector.

3. In the case of an approval in relation to category B containers that the waste management arrangement must require the holder of the approval to provide specified super collectors with a declaration in the form determined by the Authority in relation to each sale of such containers by the holder of the approval as soon as practicable after the sale.

4. The holder of these approvals must ensure that if a sticker bearing the refund marking has been approved, and is applied to the container, then the sticker must not be placed on any portion of the opening mechanism or in any other place that would require complete or partial removal of the sticker before the contents may be consumed.

ENVIRONMENT PROTECTION ACT 1993

SECTION 68

Revocation of Approval of Category B Containers

I, Nicholas Stewart, Delegate of the Environment Protection Authority (the Authority), pursuant to Section 68 of the *Environment Protection Act 1993,* (SA) (the Act) hereby revoke the approvals of the classes of category B containers sold in South Australia as identified by reference to the following matters, which are described in the first 4 Columns of Schedule 1 of this Notice:

(a) the product which each class of containers shall contain;

(b) the size of the containers;

(c) the type of containers;

(d) the name of the holders of these approvals

These approvals are revoked as the Authority is satisfied that the waste management arrangement between the approval holder and the party named in column 5 of Schedule 1 of this Notice has been cancelled.

Dated: 26 November 2026

ENVIRONMENT PROTECTION ACT 1993

SECTION 68

Vary the Approval of Category B Containers

I, Nicholas Stewart, Delegate of the Environment Protection Authority (the Authority), pursuant to Section 68 of the *Environment Protection Act 1993* (SA) (the Act) hereby:

Vary the Approval of Category B Containers:

Approve as Category B Containers, subject to the conditions 1-4 below, each of the classes of containers identified by reference to the following matters described in the first 4 columns of Schedule 1 of this Notice which are sold in South Australia:

(a) the product which each class of containers shall contain;

(b) the size of the containers;

(c) the type of containers;

(d) the name of the holders of these approvals

1. That containers of the class to which the approval relates must bear the refund marking specified by the Authority for containers of that class. The Authority specifies the following refund markings for Category B containers:

(1) "10c refund at collection depots when sold in SA"; or

(2) "10c refund at SA/NT collection depots in State/Territory of purchase"; or

(3) "10c refund at collection depots/points in participating state/territory of purchase".

2. The holder of the approval must have in place an effective and appropriate waste management arrangement in relation to containers of that class. For the purpose of this approval notice the company named in column 5 of Schedule 1 of this Notice is the nominated super collector.
3. In the case of an approval in relation to category B containers that the waste management arrangement must require the holder of the approval to provide specified super collectors with a declaration in the form determined by the Authority in relation to each sale of such containers by the holder of the approval as soon as practicable after the sale.
4. The holder of these approvals must ensure that if a sticker bearing the refund marking has been approved, and is applied to the container, then the sticker must not be placed on any portion of the opening mechanism or in any other place that would require complete or partial removal of the sticker before the contents may be consumed.

SECTION 69

Revocation of Collection Depot Approval

I, Nicholas Stewart, Delegate of the Environment Protection Authority (the Authority), pursuant to Section 69 of the *Environment Protection Act 1993* (SA) (the Act) hereby:

1. *Revocation of Collection Depot Approval:*

   Revoke the approval of the collection depot identified by reference to the following matters, which previously received all containers belonging to a class of containers that were approved as Category B Containers:

   (a) the name of the collection depot described in Column 1 of Schedule 1 of this Notice;

   (b) the name of the proprietor of the depot identified in Column 3 of Schedule 1 of this Notice;

   (c) the location of the depot described in Columns 4-6 of Schedule 1 of this Notice.

ENVIRONMENT PROTECTION ACT 1993

SECTION 69

Variation to Existing Approval of Collection Depot

I, Nicholas Stewart, Delegate of the Environment Protection Authority (the Authority), pursuant to Section 69 of the *Environment Protection Act 1993* (SA) (the Act) hereby:

1. *Variation to Existing Approval of Collection Depot:*

   Vary the approval of the collection depot listed at Schedule 1 of this notice, that was granted under the Act prior to the date of this Notice and impose the conditions of this approval to be as follows:

   1.1 *Approval of Collection Depot:*

   The collection depot identified by reference to the following matters is approved:

   (a) the name of the collection depot described in Column 1 of Schedule 1 of this Notice;

   (b) the name of the company identified in Column 2 of Schedule 1 of this notice;

   (c) the name of the proprietor of the depot identified in Column 3 of Schedule 1 of this Notice;

   (d) the location of the depot described in Columns 4-7 of Schedule 1 of this Notice.

   The collection depot listed at Schedule 1 of this Notice is approved in relation to all classes of containers, which were approved under the Act, at or subsequent to the date of this Notice, as Category B Containers.

   1.2 *Conditions of Approval:*

   Impose the following conditions on the approval:

   1. If the Approval Holder's name or postal address (or both) changes, then the Approval Holder must inform the Authority in writing, within 28 days of the change occurring.
   2. If the collection depot is sold to another party, the Approval Holder must inform the Authority in writing, within 28 days of settlement.
   3. The Approval Holder who wishes to cease operation of the depot shall notify the Authority in writing no less than 14 days from the date of closing.
   4. The Approval Holder, or a person acting on his or her behalf, must not pay a refund on, or seek reimbursement for, containers that the Approval Holder, or the person acting on his or her behalf, knows were not purchased in South Australia.
   5. The Approval Holder must ensure that prominent signage is displayed, detailing the offence and the penalties under Section 69 the Act, for presenting interstate containers for refund.

FISHERIES MANAGEMENT ACT 2007

SECTION 115

Ministerial Exemption: ME9903462

Take notice that pursuant to Section 115 of the *Fisheries Management Act 2007* (the Act), Dr Scotte Wedderburn of Adelaide University, (the 'exemption holder') and his nominated agents, are exempt from Section 70 of the *Fisheries Management Act 2007*, Regulation 5, and Clauses 42 and 74 of Schedule 6 of the *Fisheries Management (General) Regulations 2017* but only insofar as the exemption holder may use fishing gear described in Schedule 1 and in the waters specified in Schedule 2 of this notice, to survey Thukabi (short-necked and long-necked turtles), subject to the conditions set out in Schedule 3, from 1 December 2026 until 23 April 2027, unless varied or revoked earlier.

SCHEDULE 1

- Up to 12 fyke nets that comply with the following dimensions:
  - 6m length, 1m height hoops, 28mm 20 ply nylon mesh. Single-winged with a front "D" hoop and 4 other hoops, 2 funnels, fitted with three floats and two bait bags.

SCHEDULE 2

In wetland habitats associated with the lower Murray River, Lake Alexandrina and Lake Albert.

SCHEDULE 3

1. The exemption holder will be deemed responsible for the conduct of all persons conducting the exempted activities under this notice. Any person conducting activities under this exemption must be provided with a copy of this notice, which they must have signed as an indication that they have read and understand the conditions under it.
2. The exemption holder may be assisted by members of the Ngarrindjeri Aboriginal Corporation, Murray Bridge.
3. All Thukabi (Turtle) caught pursuant to this permit must be immediately returned to the water in the location where they were caught after the required survey data have been recorded.
4. Any native fish that may be caught incidentally during the exempted activity must be immediately returned to the water in the location where they were caught.
5. Any noxious fish captured during the exempted activity must not be returned to the water and must be humanely destroyed and disposed of.
6. A maximum of three (3) fyke nets may be set at any one site on any day after 3:00pm and must all be retrieved and cleared before 10:am the following morning.
7. Fyke nets must be deployed with a minimum of three floats >10cm diameter in the cod end (final chamber) to permit surface access of >3cm for air-breathing by-catch.
8. A two-litre white buoy tagged with the Ministerial Exemption number and the name of the exemption holder must be attached to the outer wing of the fyke net.
9. Any equipment used to collect fish or turtles during the exempted activity must be decontaminated after undertaking the research activities.
10. The exempted activity may only occur where it is consistent with authorised activities under a Department for Environment and Water (DEW) Scientific Research Permit issued under the *National Parks and Wildlife Act 1972*.
11. At least 1 hour before conducting activities under this exemption, the exemption holder or nominated agent must contact the Department of Primary Industries and Regions (PIRSA) Fishwatch on 1800 065 522 and answer a series of questions about the exempted activity. The caller will need to have a copy of this notice in their possession at the time of making the call and be able to provide information about the area and time of the exempted activity, the vehicles and/or boats involved, the number of persons assisting with undertaking the exempted activity and other related questions.
12. The exemption holder must provide a report in writing detailing the activities carried out pursuant to this notice to the Executive Director, Fisheries and Aquaculture (GPO Box 1625, Adelaide SA 5001 or PIRSA.MinisterialExemptionsandPermits@sa.gov.au) within 30 days of the expiry of this exemption that includes the following details:
    - the date and location of sampling;
    - the gear used;
    - the number and description of all species collected;
    - any interactions with protected species and marine mammals; and
    - other information regarding size, breeding or anything deemed relevant or of interest that is able to be volunteered.
13. While engaging in the exempted activity, the exemption holder and nominated agent must be in possession of a copy of this exemption which must be produced to a PIRSA Fisheries Officer if requested.
14. The exemption holder and nominated agent must not contravene or fail to comply with the *Fisheries Management Act 2007* or any regulations made under that Act, except where specifically exempted by this notice.

This notice does not purport to override the provisions or operation of any other Act including, but not limited to, the *River Murray Act 2003*. The exemption holder and his agents must comply with any relevant regulations, permits, requirements and directions from the Department for Environment and Water when undertaking activities within a specially protected area.

Fisheries and Aquaculture
Delegate of the Minister for Primary Industries and Regional Development

HARBORS AND NAVIGATION ACT 1993

SECTION 29AA

Cape Jervis Harbor—Harbor Rules

1—Preamble

This notice may be cited as the '*Cape Jervis Harbor—Harbor Rules Notice 2026*'.

2—Commencement and Operation

This Notice will come into operation on 14th day of December 2026.

3—Harbor Rules

I, the Hon. Joseph Szakacs MP, Minister for Infrastructure and Transport, under Section 29AA of the *Harbors and Navigation Act 1993* (the 'Act'), hereby issue harbor rules to apply in relation to the Cape Jervis Harbor, as detailed in the Schedule below.

Dated: 3 November 2026

HON. JOSEPH SZAKACS MP
Minister for Infrastructure and Transport

Harbor Rules—December 2026

Disclaimer

While every reasonable effort has been made to ensure that this document is correct at the time of publication, the Minister for Infrastructure and Transport, its agencies, instrumentalities, employees and contractors disclaim any and all liability to any person in respect to anything or the consequence of anything done or omitted to be done in reliance upon the whole or any part of this document.

Change history

Version number	Date changed	Nature of amendment
1	19/10/2026	

We acknowledge the Traditional Custodians of the Country throughout South Australia and recognise their continuing connection to land and waters.
We pay our respects to the diversity of cultures, significance of contributions and to Elders past, present and emerging.
Build. Move. Connect.
by Jaylene Ware
Wirangu, Kokatha and Antakirinja Matu-Yankunytjatjara Artist

The Minister for Infrastructure and Transport (Minister) may, by notice in the Gazette, issue rules (the Harbor Rules) in relation to the operation of a relevant harbor under 29AA of the Harbors and Navigation Act 1993 (Act).

Vessel Operators and Masters of all vessels entering, departing and within Cape Jervis Harbor must adhere to these rules.

Contravention of these Harbor Rules may constitute an offence under section 29AA of the Harbors and Navigation Act 1993.

Publication

This publication is issued by the Department for Infrastructure and Transport (the Department) on behalf of the Minister.

Scope

The Harbor is operated in accordance with all laws in force in South Australia and any applicable Commonwealth or International laws, including but not limited to:

Navigation Act 2012 (Cth)

Harbors and Navigation Act 1993 (SA).

Marine Safety (Domestic Commercial Vessel) National Law Act 2012 (Cth)

Environment Protection Act 1993 (SA).

Maritime Services (Access) Act 2000 (SA).

Customs Act 1901 (Cth).

Biosecurity Act 2015 (Cth)

Work Health and Safety Act 2012 (SA).

Protection of Marine Waters (Prevention of Pollution from Ships) Act 1987 (SA).

Edition

These requirements may be amended or revoked, at any time at the discretion of the Minister by further notice in the Government Gazette and published on the Marine Safety SA website. Users are responsible for ensuring they are referring to the latest edition noting that any printed version is an uncontrolled document.

Changes which affect these requirements are disseminated by Notice to Mariners and are available on the Department's Marine Safety SA website *News feed*. The current edition of this publication is available on the Department for Infrastructure and Transport Marine Safety SA website *https://marinesafety.sa.gov.au/*

Disclaimer

The information and material contained in this publication has been compiled by the Department and applies to all Cape Jervis Harbor users.

The Department shall not in any way be, or become, responsible in law or otherwise for any errors in, or omissions from, this publication of whatsoever nature and howsoever occurring.

The information provided in no way whatsoever supersedes or detracts from that available in Admiralty Charts or publications, RAN Hydrographic Charts, Commonwealth or State Acts, ordinances or rules.

Compliance

All persons using the Cape Jervis Harbor must comply with these requirements. Pursuant to section 29AA of the Act, Harbor Rules provides:

(1) The Minister may, by notice in the Gazette, issue rules (the Harbor Rules) in relation to the operation of a relevant harbor.

(2) The Harbor Rules may address the following matters:

(a) activities that may or may not be undertaken by persons or vessels;

(b) the priority and safety of movement of vessels;

(c) maximum size limits for vessels;

(d) minimum keel clearances for vessels;

(e) requirements for anchoring and berthing of vessels;

(f) competence and training rules for operators of vessels;

(g) limits on operating vessels in specified weather conditions;

(h) requirements for communication equipment on vessels;

(i) requirements for communication with a relevant person;

(j) the keeping of records by operators of vessels;

(k) requirements for providing specified documents to a relevant person at a specified time, or in a specified manner;

(l) the reporting of incidents and hazards;

(m) the removal of vessels or any other thing from a relevant harbor on the request of the Minister or an authorised person;

(n) any other matter the Minister thinks relevant to the operation of a relevant harbor.

(3) A person who contravenes a harbor rule is guilty of an offence. Maximum penalty: $10 000.

1. Definitions

The following definitions apply to these Harbor Rules:

Act means the Harbors and Navigation Act 1993 (SA).

Authorised person means a person appointed under the Act (including under Part 2) or a police officer.

CE means the Chief Executive of the Department for Infrastructure and Transport or Delegate

Channel means in relation to a harbor, means an area within the harbor regularly used as a course for vessels entering, leaving or moving within the harbor

Chart means the official Hydrographic Chart as amended, published by the Australian Hydrographic office.

Commercial vessel means:

- A domestic commercial vessel; and
- A vessel used for commercial, governmental or research purposes; and
- Any other vessel of a class declared by the regulations to be included in the ambit of this definition, but does not include a vessel, or a vessel of a class, declared by the Regulations to be excluded from the ambit of this definition.

COLREGS means the International Regulations for the Prevention of Collision at Sea (as adopted by Part 10 Division 2 of the Regulations).

Crew or crew of a vessel, includes:

- The operator of the vessel; and
- Any other person, or person of a class, declared by the regulations to be a member of the vessel's crew, but does not include a person, or a person of a class, declared by the regulations to be excluded from the ambit of this definition.

Damage means breakage, deformation, excessive wear, chafe, corrosion, loosening or any condition that may reduce the safe working capacity of the mooring or a vessel's securing arrangements.

Direction means a lawful direction given by an authorised officer (i.e. an Authorised Person for an area in a harbor that is not within a port (n.b. Authorised Person is used throughout these Rules)) under section 29B of the Act this may be given (orally, by signal, radio communication, or in any other appropriate manner) to a person in charge, or apparently in charge, of a vessel in or in the vicinity of a harbor or a port, with the direction being in connection with safety, management or enforcement under the Act, Regulations or these Rules.

Displacement means the total weight of the vessel including cargo, fuel, passengers, and crew. Typically expressed in tonnes.

Harbor means:

(a) any of the harbors mentioned in Schedule 1 of the Act (unless declared by regulation not to be a harbor); or

(b) a place:

i. at which facilities exist for the loading or mooring of vessels or at which such facilities might be conveniently established; and

ii. declared by regulation to be a harbor;

Landing place means a ramp, public steps, platform or other landing place which is part of or adjacent to a wharf or jetty and gives access from the wharf or jetty to vessels.

Length or length means pursuant to section 4(3) of the Act and the Regulations; the length of a vessel is to be determined as follows:

(a) in the case of a commercial vessel - in accordance with Part B of the NSCV.

(b) in the case of a vessel constructed of pontoons (not being a commercial vessel)— the length of the vessel is the distance along the deck between the foremost transverse deck beam and the aftermost transverse deck beam.

(c) in any other case - the length of the vessel is the distance from the foremost part of the hull to the aftermost part of the hull taken at the upper side of the uppermost weather tight deck or, in the case of an open vessel, at the height of the gunwale

Master means the person in charge of a commercial vessel but does not include a licensed pilot acting as such.

Moor means to make fast to the shore, a buoy, a jetty or a wharf or to anchor.

Operator or operator of a vessel, means:

- In the case of a domestic commercial vessel or any other commercial vessel - the master of the vessel; or
- In the case of any other vessel - the person in charge of the vessel while the vessel is underway.

Owner of a vessel includes pursuant to section 4 of the Act:

(a) in the case of a registered vessel - a person registered on the register as the owner of the vessel; and

(b) in the case of a commercial vessel - a charterer of the vessel or an agent of the charterer and a person who takes the vessel on hire.

Passenger Manifest means a record maintained by commercial vessel operator or master that identifies the passengers carried on board for a particular voyage.

Recreational vessel means a vessel used solely for recreation and which is not used or allowed or authorised to be used in the course of any business or in connection with any commercial transaction.

Registered vessel means a vessel that is required to be registered under South Australian law and is registered.

Regulations means the Harbors and Navigation Regulations 2023

RoPax mean a dual-purpose vessel or ferry designed for "roll-on/roll-off" (for vehicles) and passengers.

Swing mooring means a vessel storage solution consisting of an anchorage set deep into the seabed to which a chain/rope connects, running to a buoy on the surface.

Under-keel clearance means the vertical clearance between the lowest point of the vessel (including keel/appendages) and the seabed, taking into account tide, swell, squat and forecast changes.

Windage means the air resistance or aerodynamic drag exerted by the wind on the parts of the boat or ship that are above the waterline.

Vessel or vessels means:

(a) a craft for use, or that is capable of being used, as means of transportation by water, however propelled or moved (including an air cushion vehicle, a barge, a lighter, a submersible, a ferry in chains and a wing in ground effect craft); and

(b) a surfboard, wind surfboard, personal watercraft, water skis or other similar device on which a person rides through water; or

(c) a structure that is designed to float in water and is used for commercial, industrial or scientific purposes; and

(d) any other thing declared by the regulations to be included in the ambit of this definition.

2. Harbor limits

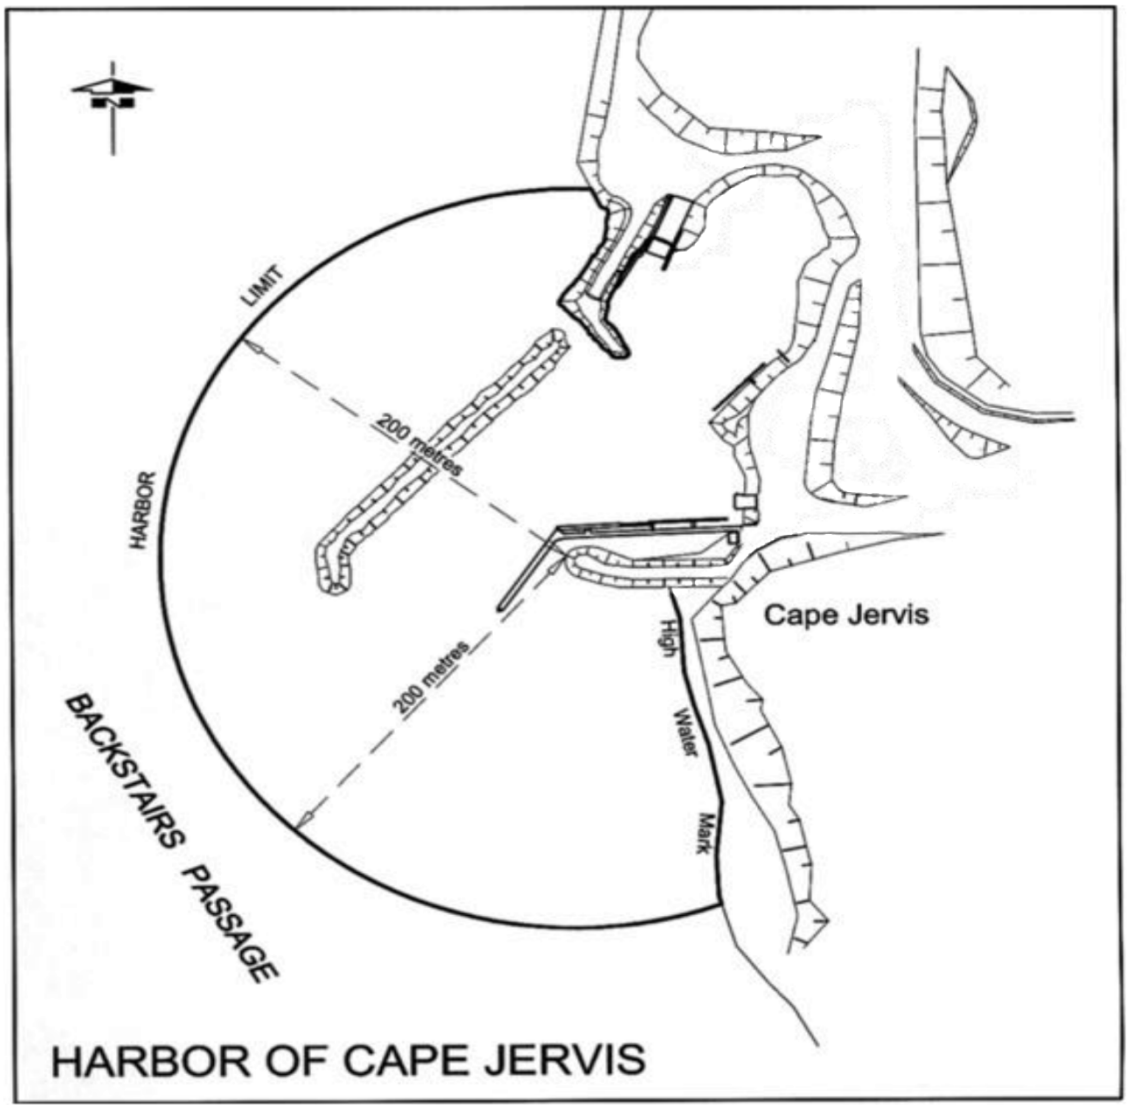

Cape Jervis Harbor is a prescribed Harbor under Schedule 1 of the Act, defined under Schedule 3 of the Regulations.

The following areas:

a) the subjacent land underlying, and the adjacent land extending from, the waters, rivers, creeks and inlets to high water mark within a distance of 200 m from the western tip of the southeastern breakwater at Cape Jervis;

(b) Allotments 2, 3 and 4 of Deposited Plan No 40711.

The limits of the Harbor boundary (as per Schedule 3 of the Regulations) are shown here:

3. Under keel clearance

All vessels underway, moored or at anchor will at all times maintain an under-keel clearance of no less than 10% of the vessel's deepest draught or 0.3 metres, whichever is the greater.

All vessels alongside the RoPax ferry berth or Layby Berth will at all times maintain an under-keel clearance of no less than 5% of the vessel's deepest draught.

Harbor working depth is -3.0 m LAT

4. Vessel weather limits

All vessels of greater than 35 metres length are to hold and comply with weather operating limits for Cape Jervis Harbor. Such limits are to be specific to the vessels accounting for:

- The design, windage, draught and propulsion of the vessel.
- The direction and strength of the weather.
- The location of operation within the Harbor - i.e. Harbor Entrance, Turning Basin, RoPax Berth and Layby Berth.

5. Harbor Entrance and Channel and Ferry Warning Light

Cape Jervis Harbor supports the passage of RoPax vessels in a single direction only.

Channel and berth depths – 3.0 m LAT

Inward – Bearing 042.1 (T) – Towards the Leading lights

Outward – Bearing 222.1 (T) – Away from Leading lights

RoPax vessels are to indicate their intention to enter or depart the Harbor by activation of the Ferry Warning Light (Fl Y).

The Warning Light is a flashing yellow light positioned at the main ferry wharf.

If this light is flashing no vessel is to enter or depart the Harbor until the RoPax vessel has completed its passage and the light ceases flashing.

6. Priority of vessel movements

Vessels of greater than 35 metres length overall have priority for movement over all other vessels.

Outbound vessels have priority for movement over inbound vessels.

Nothing within these directions relieves the master of any vessel from the obligation to comply with the Collision Regulations (COLREGS).

7. RoPax Ferry Berth

The Cape Jervis Harbor RoPax and Layby Berth has limited depth and operating area.

The limits provided herein are current at time of issue, will be subject to review and as affected by changes to the Harbor and its infrastructure. To preserve safety, vessels operating within this Harbor must not exceed the following dimensions without the express written approval of the Authorised Person.

Berth Limits

- Length overall: 62 metres
- Beam: 20 metres
- Maximum Draught when underway: 2.5 metres
- Maximum Displacement: 900 tonnes
- Berth depth -3.0 m LAT

8. Communications

The Master of a vessel shall ensure that while the vessel is operating in Harbor waters, as far as practicable, a listening watch is maintained on VHF Channels 12 and 16.

9. Competence of Masters

The Master, Owner and Operator of Domestic Commercial Vessels greater than 35 metres must at all times maintain and adhere to a Masters Competency Training Plan, which must describe the minimum competency requirements for Masters operating their vessel, including, without limitation within Cape Jervis Harbor:

a) Local knowledge for passage planning.

b) Vessel manoeuvrability capability within the physical environment and under local weather conditions.

c) Ability to avoid grounding or collision.

d) Knowledge of operational communication requirements, capabilities and limitations of the harbor environment.

e) Effective fatigue management.

The Operator must provide the Authorised Person with a copy of its Masters Competency Training Plan promptly on demand.

The Operator must ensure that the Master of their vessel meets the minimum competency and qualification requirements described in the Masters Competency Training Plan at all times.

The Operator must regularly review the Masters Competency Training Plan and amend it, as necessary, to take account of any:

- change in their Vessel used by the Operator, including the use of a third-party vessel; and
- changes to the industry or legislative competency requirements that are identified or updated from time to time.

10. Vessels to be properly berthed

The Master of a vessel not underway shall ensure that at all times the vessel is properly and effectively berthed.

As per regulation 43 of the Regulations, the Master of a vessel moored to a wharf or other structure in a harbor must ensure that:

a) the vessel is safely moored at all times; and

b) the mooring lines or securing arraignments are in good condition and properly adjusted; and

If a vessel parts its lines, the Master of the vessel shall immediately take all necessary measures to ensure the safety of the vessel.

As per regulation 39, a vessel that is 35 metres or more in length and is moored in a harbor must, have at least one person on board for the purposes of communication with the Authorised Person.

11. Obstruction of landing places

As per regulation 30 of the Regulations, a person must not, without the approval of the CE, moor a vessel at or near a landing place for longer than:

(a) if the CE or Authorised person has erected a sign regulating mooring at or near the landing place - the period specified by the sign; or

(b) if a direction is given by the CE or the Authorised person the period specified in the direction; or

(c) in any other case - a total of four hours in any day.

12. Watch officers

As per regulation 39 of the Regulations, a vessel that is 35 metres or more in length and is moored in a harbor must, unless the CE approves otherwise have at least one person on board for the purposes of communication with the CE,

13. Use of vessel engines

As per regulation 44 of the Regulations, the engine of a vessel that is more than 35 metres in length and is moored at a wharf in the harbor must not, without the approval of the CE or CE Delegate

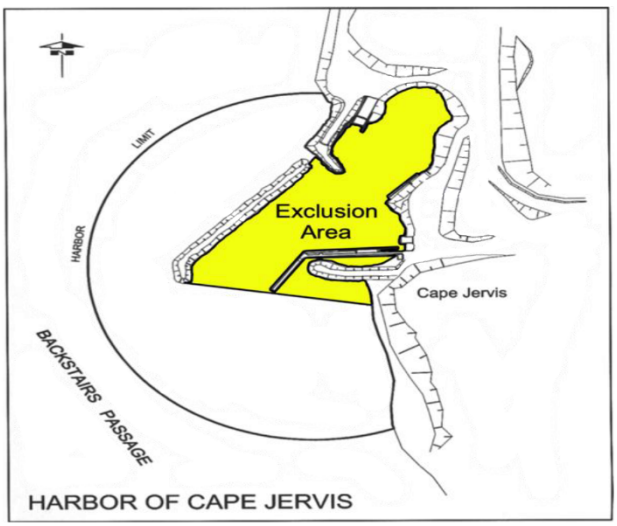

(a) be interfered with in such a manner that immobilises the vessel to the extent that the vessel cannot be made ready to be underway within two hours; or

(b) be operated so as to turn a propeller or propellers.

14. Anchoring

The Master or operator of a vessel must not cause or allow the vessel to be anchored or an anchor to be used in any of the following areas:

- The area comprising the full width of the Channel which lies within 35m of a line at a distance 430m and bearing 222.1 degrees from the front of inward leading beacon to seaward.
- Within the Cape Jervis Harbor Exclusion Area identified in these directions (see diagram below) without the approval of the Authorised Person or as required in an emergency.

Cape Jervis Harbor Exclusion Area

An Exclusion Area extends across the inshore area of Cape Jervis Harbor. The Exclusion Area will include all water space from the end of the western breakwater east to the shoreline adjacent public wharf and follow the shoreline to enclose the Harbor (in accordance with the highlighted area above).

15. Diving operations

As per regulation 46 of the Regulations, a person must not, without the approval of the CE or Authorised person, swim or dive in the harbor

(a) within 200 m of a vessel that is 15 m or more in length and is arriving or departing from a wharf, mooring or anchorage or is navigating in a channel; or

(b) within 45 m of a vessel that is 15 m or more in length and is moored at a wharf; or

(c) from any portion of a wharf not specifically set aside for entrance of a person into the water.

16. Swing Moorings

Swing Moorings are not permitted to be placed within the Cape Jervis Harbor boundary.

17. Cape Jervis boat ramp

The Cape Jervis boat ramp is operated by the District Council of Yankalilla.

The ramp is a concrete structure that provides sheltered access into deep water; however, launching can be difficult during certain weather conditions, particularly high winds or swell.

Standard launching fees may apply. It is advisable to check current local council regulations on the Yankalilla District Council website.

If the Cape Jervis ramp is congested, rough, or closed, the Wirrina Cove Marina (approximately 15 km away) provides an excellent all-weather alternative.

All vessels must not depart the boat ramp or enter the harbor when the yellow flashing light located on the main ferry wharf is activated (flashing). This light indicates that a ferry is about to leave or enter that harbor.

18. Vessels to hold plans

The Master of a Domestic Commercial Vessel greater than 35m operating within Cape Jervis Harbor and berthing at the RoPax Ferry berth must provide to the Authorised Person, on demand, copies of the following Plans:

- Cape Jervis Harbor Vessel Operating Plan - such a plan is to outline the procedures for safe operation of the vessel within the limits of Cape Jervis Harbor and the Berths used by the vessel. This plan is to include the Harbor weather operating limits relevant to the vessel.

- Cape Jervis Harbor Shipboard Oil Pollution Emergency Plan (SOPEP) - such a plan is to detail the response by the vessel to any unintentional release to the environment of hydrocarbon material from the vessel or its cargo.

- Cape Jervis Casualty Management Plan - such a plan is to detail the response by the vessel to any incident resulting in injury to people (crew, passengers or public) on board the vessel or as a result of an interaction with the vessel.

19. Vessels to keep records

The Master of a commercial vessel operating within Cape Jervis Harbor must provide to the Authorised Person, on demand, copies of the following records where relevant to the operation of the vessel:

- Passenger Manifest.

- Cargo Manifest - such records are to include the method of cargo carriage, the nature of the cargo, the volume/weight of the cargo.

- Dangerous Goods Cargo Manifest - such records are to include the Hazard Category of the Dangerous Goods, the quantity of Dangerous Goods Carried.

- Incident log - such records are to include the date, detail and circumstance of any incident, event or near miss onboard the vessel, that has occurred within Cape Jervis Harbor.

20. Reporting of incidents and events

The Master of a vessel is to report to the Authorised Person any event within Cape Jervis Harbor that:

- Results in personal injury that is greater than minor in nature or requires medical attention,

- Results in property damage that exceeds or is estimated to exceed $1000 in value (as per regulation 151 of the Regulations).

In reporting such event the Master is to record:

- time and place of the incident

- circumstances

- particulars of the vessels involved;

- the name and address of the owner and the operator of the vessel involved;
- name and address of any person killed or injured
- names and addresses of any witnesses
- the nature of any property damage.

In addition to reporting such an event to the Authorised Person, a Department for Infrastructure and Transport - Vessel Accident Report Form is to be completed and submitted via the following link.

https://www.sa.gov.au/topics/boating-and-marine/boat-and-marine-reporting/reporting-boat-incidents/accident

DIT Marine Safety and Compliance can be contacted as follows:

- Email: dit.marinesafety@sa.gov.au

AMSA can be contacted on

https://www.amsa.gov.au/vessels-operators/incident-reporting#416

- Email for - reports@amsa.gov.au.
- Phone (Adelaide) -1800 627 484

21. Reporting marine oil spills

Reporting a marine oil spill early is critical. Oil introduces toxic material into the food chain, degrades beaches, and can smother marine organisms.

Unless otherwise indicated in the vessels Shipboard Oil Pollution Emergency Plan SOPEP, harbor users should not attempt to clean up the spill yourself - the incident will be investigated and a suitable response made - e.g.

- allowing the fuel to naturally dissipate
- agitation of the water
- use of recovery equipment.

How to report a marine oil spill

If you witness pollution from a ship or notice oil on any waters phone 8248 3505 or call on radio channel 12 at all hours.

Provide as much information as possible - tell the operator:

- any other relevant information available
- your contact details
- when and where the pollution occurred
- the type of substance discharged
- the extent of the pollution
- name of the vessel or other source.

How to tell if a substance is oil

- When oil enters water, it will generally quickly start to spread to a thin layer, often over a large area.
- Oil generally has a sheen on water.
- Oil will generally appear smoother or 'slick' compared to the surrounding water.
- Oil will generally have a strong smell (petroleum-based product).
- If oil is on rocks, sand, or other structures it will not wash off with water.
- If it quickly washes off into the water, it is probably algae.
- If unsure, always report it.

Sea scum

During the summer months, South Australian waters experience a phenomenon commonly known as sea scum.

Short filaments of algal plant life, disturbed by wind and sea, appear as grey-fawn-coloured streaks on the water. The algae can also be red, red-brown, or yellow, often resembling oil. As the algae decays it gives off an offensive odour similar to chlorine, iodine, or oil.

South Australian Marine Spill Contingency Action Plan

The South Australian Marine Spill Capability Action Plan (SAMSCAP) outlines how the government responds to oil spills that impact, or are likely to impact, South Australia's coastal waters. The plan is made pursuant to Section 28A of the *Protection of Marine Waters (Prevention of Pollution from Ships) Act 1987.*

HARBORS AND NAVIGATION ACT 1993

SECTION 29AA

Penneshaw Harbor—Harbor Rules

1—Preamble

This notice may be cited as the '*Penneshaw Harbor—Harbor Rules Notice 2026*'.

2—Commencement and Operation

This Notice will come into operation on 14th day of December 2026.

3—Harbor Rules

I, the Hon Joseph Szakacs MP, Minister for Infrastructure and Transport, under Section 29AA of the *Harbors and Navigation Act 1993* (the 'Act'), hereby issue harbor rules to apply in relation to the Penneshaw Harbor, as detailed in the Schedule below.

Dated: 3 November 2026

HON. JOSEPH SZAKACS MP
Minister for Infrastructure and Transport

Harbor Rules—December 2026

The Minister for Infrastructure and Transport (Minister) may, by notice in the Gazette, issue rules (the Harbor Rules) in relation to the operation of a relevant harbor under 29AA of the Harbors and Navigation Act 1993 (Act).

Vessel Operators and Masters of all vessels entering, departing and within Penneshaw Harbor must adhere to these rules.

Contravention of these Harbor Rules may constitute an offence under section 29AA of the Harbors and Navigation Act 1993.

Publication

This publication is issued by the Department for Infrastructure and Transport (the Department) on behalf of the Minister.

Scope

The Harbor is operated in accordance with all laws in force in South Australia and any applicable Commonwealth or International laws, including but not limited to:

- Navigation Act 2012 (Cth)
- Harbors and Navigation Act 1993 (SA).
- Marine Safety (Domestic Commercial Vessel) National Law Act 2012 (Cth)
- Environment Protection Act 1993 (SA).
- Maritime Services (Access) Act 2000 (SA).
- Customs Act 1901 (Cth).
- Work Health and Safety Act 2012 (SA).
- Protection of Marine Waters (Prevention of Pollution from Ships) Act 1987 (SA).
- Biosecurity Act 2015 (Cth)

Edition

These requirements may be amended or revoked, at any time at the discretion of the Minister by further notice in the Government Gazette and published on the Marine Safety SA website. Users are responsible for ensuring they are referring to the latest edition noting that any printed version is an uncontrolled document.

Changes which affect these requirements are disseminated by Notice to Mariners and are available on the Department for Infrastructure and Transport Marine Safety SA website News feed. The current edition of this publication is available on the Department for Infrastructure and Transport Marine Safety SA website https://marinesafety.sa.gov.au/

Disclaimer

The information and material contained in this publication has been compiled by the Department for Infrastructure and Transport and applies to all Penneshaw Harbor users.

The Department for Infrastructure and Transport shall not in any way be, or become, responsible in law or otherwise for any errors in, or omissions from, this publication of whatsoever nature and howsoever occurring.

The information provided in no way whatsoever supersedes or detracts from that available in Admiralty Charts or publications, RAN Hydrographic Charts, Commonwealth or State Acts, ordinances or rules.

Compliance

All persons using the Penneshaw Harbor must comply with these requirements. Pursuant to section 29AA of the Act, Harbor Rules, provides:

(1) The Minister may, by notice in the Gazette, issue rules (the Harbor Rules) in relation to the operation of a relevant harbor.

(2) The Harbor Rules may address the following matters:

(a) activities that may or may not be undertaken by persons or vessels;

(b) the priority and safety of movement of vessels;

(c) maximum size limits for vessels;

(d) minimum keel clearances for vessels;

(e) requirements for anchoring and berthing of vessels;

(f) competence and training rules for operators of vessels;

(g) limits on operating vessels in specified weather conditions;

(h) requirements for communication equipment on vessels;

(i) requirements for communication with a relevant person;

(j) the keeping of records by operators of vessels;

(k) requirements for providing specified documents to a relevant person at a specified time, or in a specified manner;

(l) the reporting of incidents and hazards;

(m) the removal of vessels or any other thing from a relevant harbor on the request of the Minister or an authorised person;

(n) any other matter the Minister thinks relevant to the operation of a relevant harbor.

(3) A person who contravenes a harbor rule is guilty of an offence. Maximum penalty: $10 000.

1. Definitions

The following definitions apply to these Harbor Rules:

Act means the Harbors and Navigation Act 1993 (SA).

Authorised person means a person appointed under the Act (including under Part 2) or a police officer.

CE means the Chief Executive of the Department or Delegate

Channel means in relation to a harbor, means an area within the harbor regularly used as a course for vessels entering, leaving or moving within the harbor

Chart means the official Hydrographic Chart as amended, published by the Australian Hydrographic office.

Commercial vessel means:

- A domestic commercial vessel; and
- A vessel used for commercial, governmental or research purposes; and
- Any other vessel of a class declared by the regulations to be included in the ambit of

this definition, but does not include a vessel, or a vessel of a class, declared by the Regulations to be excluded from the ambit of this definition.

COLREGS means the International Regulations for the Prevention of Collision at Sea (as adopted by Part 10 Division 2 of the Regulations).

Crew or crew of a vessel, includes:

- The operator of the vessel; and
- Any other person, or person of a class, declared by the regulations to be a member of the vessel's crew, but does not include a person, or a person of a class, declared by the regulations to be excluded from the ambit of this definition.

Damage means breakage, deformation, excessive wear, chafe, corrosion, loosening or any condition that may reduce the safe working capacity of the mooring or a vessel’s securing arrangements.

Direction means a lawful direction given by an authorised officer (i.e. an Authorised Person for an area in a harbor that is not within a port (n.b. Authorised Person is used throughout these Rules)) under section 29B of the Act this may be given (orally, by signal, radio communication, or in any other appropriate manner) to a person in charge, or apparently in charge, of a vessel in or in the vicinity of a harbor or a port, with the direction being in connection with safety, management or enforcement under the Act, Regulations or these Rules.

Displacement means the total weight of the vessel including cargo, fuel, passengers, and crew. Typically expressed in tonnes.

Harbor means:

(a) any of the harbors mentioned in Schedule 1 of the Act (unless declared by regulation not to be a harbor); or

(b) a place:

i. at which facilities exist for the loading or mooring of vessels or at which such facilities might be conveniently established; and

ii. declared by regulation to be a harbor;

Landing place means a ramp, public steps, platform or other landing place which is part of or adjacent to a wharf or jetty and gives access from the wharf or jetty to vessels.

Length or length means pursuant to section 4(3) of the Act and the Regulations; the length of a vessel is to be determined as follows:

(a) in the case of a commercial vessel - in accordance with Part B of the NSCV.

(b) in the case of a vessel constructed of pontoons (not being a commercial vessel)— the length of the vessel is the distance along the deck between the foremost transverse deck beam and the aftermost transverse deck beam.

(c) in any other case - the length of the vessel is the distance from the foremost part of the hull to the aftermost part of the hull taken at the upper side of the uppermost weather tight deck or, in the case of an open vessel, at the height of the gunwale.

Managing Authority Department for Infrastructure and Transport (DIT), Marine Safety and Compliance

Master means the person in charge of a commercial vessel but does not include a licensed pilot acting as such.

Moor means to make fast to the shore, a buoy, a jetty or a wharf or to anchor.

Operator or operator of a vessel, means:

- In the case of a domestic commercial vessel or any other commercial vessel - the master of the vessel; or
- In the case of any other vessel - the person in charge of the vessel while the vessel is underway.

Owner of a vessel means, includes, pursuant to section 4 of the Act:

(a) in the case of a registered vessel - a person registered on the register as the owner of the vessel; and

(b) in the case of a commercial vessel - a charterer of the vessel or an agent of the charterer and a person who takes the vessel on hire;

Passenger Manifest means a record maintained by commercial vessel operator or master that identifies the passengers carried on board for a particular voyage.

Public Swing Mooring (or Buoy Mooring) means a publicly available mooring buoy installed and managed by the Department for Infrastructure and Transport for vessels in accordance with these Rules and any conditions shown on the Swing Mooring Tag or otherwise published.

Public Swing Mooring Limits means the operating limits that apply to a Public Swing Mooring (as shown on the Swing Mooring Tag and/or otherwise published), which may include maximum vessel size, displacement, windage, time limits, and weather/sea limits.

Recreational vessel means a vessel used solely for recreation and which is not used or allowed or authorised to be used in the course of any business or in connection with any commercial transaction.

Registered vessel means a vessel that is required to be registered under South Australian law and is registered.

Regulations means the Harbors and Navigation Regulations 2023

RoPax means a dual-purpose vessel or ferry designed for "roll-on/roll-off" (for vehicles) and passengers.

Swing Mooring Tag means the identification plate, label, QR code or other marking attached to (or associated with) a Public Swing Mooring that states the mooring ID and key conditions and Public Swing Mooring Limits of use (including any time and vessel limits).

Under-keel clearance means the vertical clearance between the lowest point of the vessel (including keel/appendages) and the seabed, taking into account tide, swell, squat and forecast changes.

Windage means the air resistance or aerodynamic drag exerted by the wind on the parts of the boat or ship that are above the waterline

Vessel or vessels means:

(a) a craft for use, or that is capable of being used, as means of transportation by water, however propelled or moved (including an air cushion vehicle, a barge, a lighter, a submersible, a ferry in chains and a wing in ground effect craft); and

(b) a surfboard, wind surfboard, personal watercraft, water skis or other similar device on which a person rides through water; or

(c) a structure that is designed to float in water and is used for commercial, industrial or scientific purposes; and

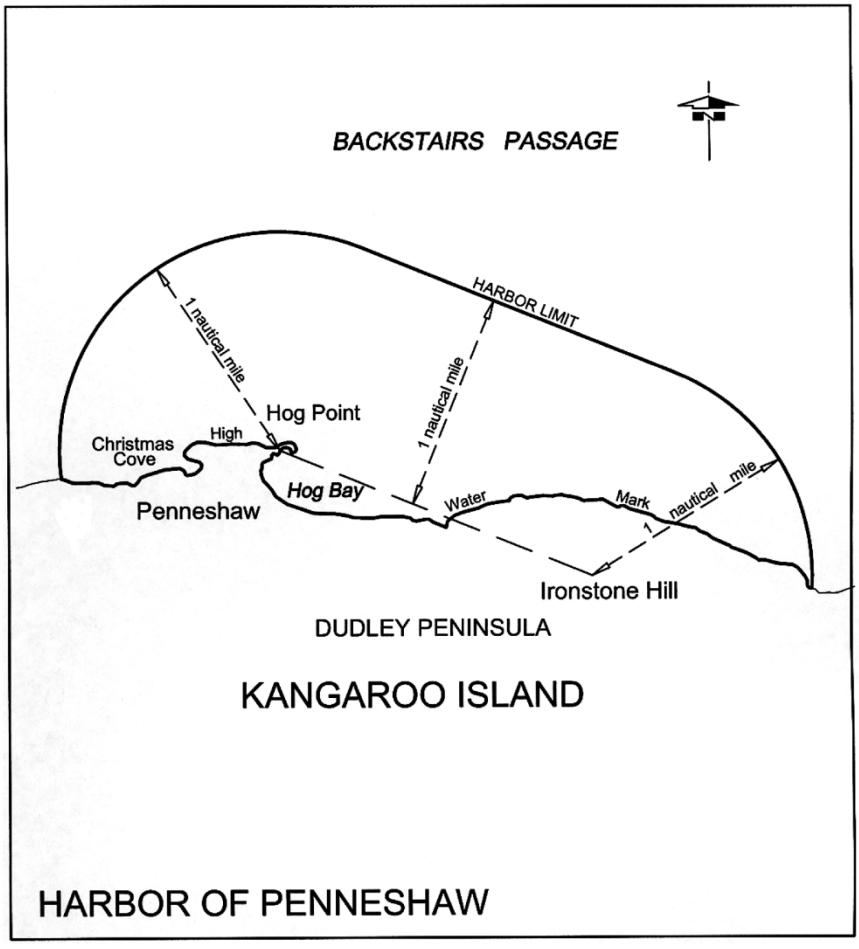

(d) any other thing declared by the regulations to be included in the ambit of this definition.

2. Harbor limits

Penneshaw Harbor is a prescribed Harbor under Schedule 1 of the Act, defined under Schedule 3 of the Regulations.

It is the subjacent land underlying, and the adjacent land extending from, the waters, rivers, creeks and inlets to the High-Water Mark on the northern coast of Dudley Peninsula, Kangaroo Island, and within a straight line from Hog Point to Ironstone Hill, and 1 nautical mile to seaward from any point on that line.

The limits of the Harbor boundary (as per Schedule 3 of the Regulations) are shown here:

3. Under keel clearance

All vessels underway, moored or at anchor will at all times maintain an under-keel clearance of no less than 10% of the vessel's deepest draught or 0.3 metres, whichever is the greater.

All vessels alongside the RoPax ferry berth will at all times maintain an under-keel clearance of no less than 5% of the vessel's deepest draught.

Harbor working depth is -3.0 m LAT

4. Vessel weather limits

All vessels of greater than 35 metres length are to hold and comply with weather operating limits for Penneshaw Harbor. Such limits are to be specific to the vessels accounting for:

- The design, windage, draught and propulsion of the vessel.
- The direction and strength of the weather.
- The location of operation within the Harbor - i.e. Harbor Entrance, Turning Basin, RoPax Berth, Cruise Ship Anchorage, and other berths.

5. Priority of vessel movements

Vessels of greater than 35 metres length overall have priority for movement over all other vessels.

Outbound vessels have priority for movement over inbound vessels.

Nothing within these directions relieves the master of any vessel from the obligation to comply with the Collision Regulations (COLREGS).

6. RoPax Ferry Berth

The Penneshaw Harbor RoPax Berth has limited depth and operating area.

The limits provided herein are current at time of issue, will be subject to review and as affected by changes to the Harbor and its infrastructure. To preserve safety, vessels operating within this Harbor must not exceed the following dimensions without the express written approval of the Authorised Person.

Ferry Berth Limits

- Length overall: 62 metres
- Beam: 20 metres
- Maximum Draught when underway: 2.5 metres
- Maximum Displacement: 900 tonnes
- Berth depth -3.0 m LAT

7. Communications

The Master of a vessel shall ensure that while the vessel is operating in Harbor waters, as far as practicable, a listening watch is maintained on VHF Channels 12 and 16.

8. Competence of Masters

The Master and Owner of Domestic Commercial Vessels greater than 35 metres must at all times maintain and adhere to a Masters Competency Training Plan, which must describe the minimum competency requirements for Masters operating their vessel, including, without limitation within Penneshaw Harbor:

a) Local knowledge for passage planning.

b) Vessel manoeuvrability capability within the physical environment and under local weather conditions.

c) Ability to avoid grounding or collision.

d) Knowledge of operational communication requirements, capabilities and limitations of the harbor environment.

e) Effective fatigue management.

The Operator must provide the Authorised Person with a copy of its Masters Competency Training Plan promptly on demand.

The Operator must ensure that the Master of their vessel meets the minimum competency and qualification requirements described in the Masters Competency Training Plan at all times.

The Operator must regularly review the Masters Competency Training Plan and amend it, as necessary, to take account of any:

- change in their Vessel used by the Operator, including the use of a third-party vessel; and
- changes to the industry or legislative competency requirements that are identified or updated from time to time.

9. Vessels to be properly berthed

The Master of a vessel not underway shall ensure that at all times the vessel is properly and effectively berthed.

As per regulation 43 of the Regulations, the Master of a vessel moored to a wharf or other structure in a harbor must ensure that:

a) the vessel is safely moored at all times; and

b) the mooring lines or securing arraignments are in good condition and properly adjusted;

If a vessel parts its lines, the Master of the vessel shall immediately take all necessary measures to ensure the safety of the vessel.

As per regulation 39, a vessel that is 35 metres or more in length and is moored in a harbor must, have at least one person on board for the purposes of communication with the CE or Authorised Person.

10. Obstruction of landing places

As per regulation 30 of the Regulations, a person must not, without the approval of the CE or Authorised Person moor a vessel at or near a landing place for longer than:

(a) if the CE or relevant port operator has erected a sign regulating mooring at or near the landing place - the period specified by the sign; or

(b) if a direction is given by the CE or Authorised Person the period specified in the direction; or

(c) in any other case - a total of four hours in any day.

11. Watch officers

As per regulation 39 of the Regulations, a vessel that is 35 metres or more in length and is moored in a harbor must, unless the CE approves otherwise have at least one person on board for the purposes of communication with the CE.

12. Use of vessel engines

As per regulation 44 of the Regulations, the engine of a vessel that is more than 35 metres in length and is moored at a wharf in the harbor must not, without the approval of the CE or CE Delegate:

(a) be interfered with in such a manner that immobilises the vessel to the extent that the vessel cannot be made ready to be underway within two hours; or

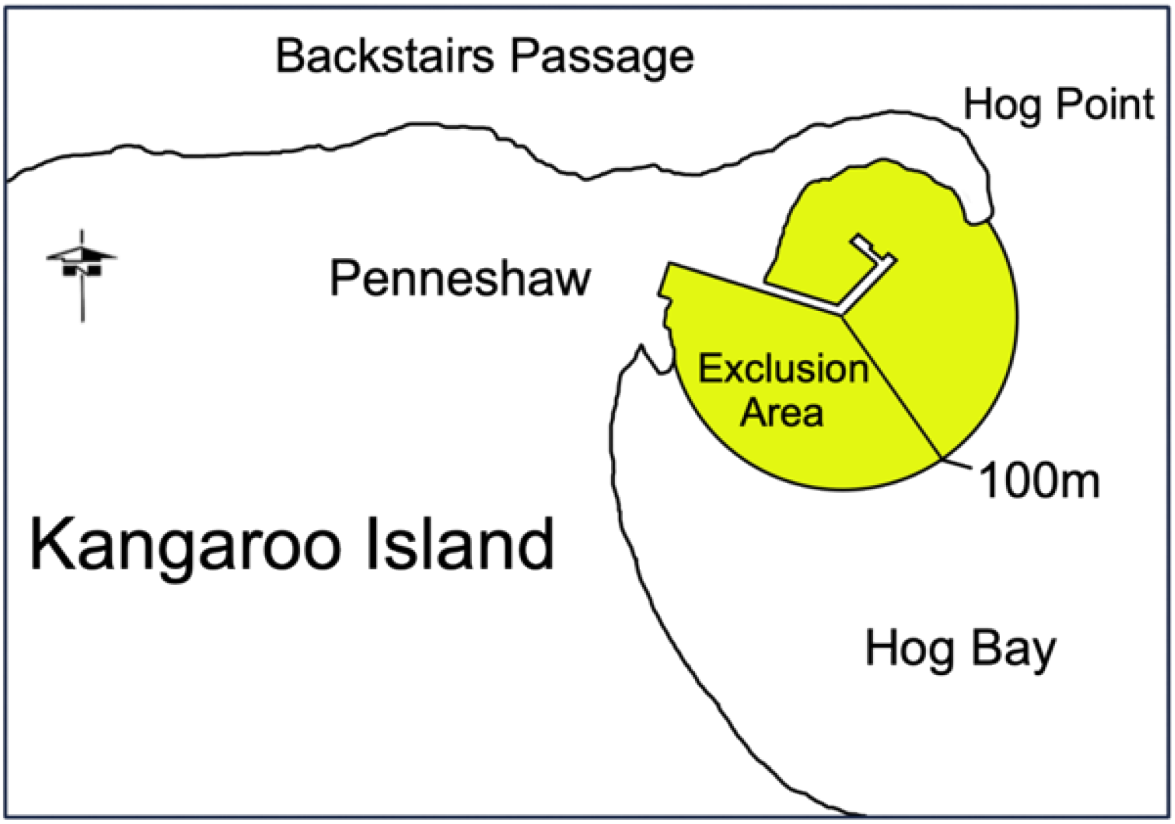

(b) be operated so as to turn a propeller or propellers.

13. Anchoring

Vessels are not to anchor in any location within Penneshaw Harbor which inhibits or restricts the safe operation of vessels proceeding to, or from, the RoPax and Public Berths at Hog Bay or the approaches to Christmas Cove.

Vessels are not to anchor within the Hog Bay Exclusion Area identified in these directions (see diagram below) without the approval of the Authorised Person or as required in an emergency.

There is a dedicated ship anchorage provided 1 nm Northeast of Hog Point with a depth of approximately 16 metres.

Penneshaw Harbor Exclusion Area

An Exclusion Area at Penneshaw Harbor extends on an arc of 100m radius centered on the west end of the Hog Bay RoPax Wharf between Hog Point and the Shoreline adjacent the RoPax Ramp (as the shaded area in the diagram above).

14. Diving operations

As per regulation 46 of the Regulations, a person must not, without the approval of the CE or Authorised Person, swim or dive in the harbor

(a) within 200 m of a vessel that is 15 m or more in length and is arriving or departing from a wharf, mooring or anchorage or is navigating in a channel; or

(b) within 45 m of a vessel that is 15 m or more in length and is moored at a wharf; or

(c) from any portion of a wharf not specifically set aside for entrance of a person into the water.

15. Public Swing Moorings

This section sets out the conditions for safe, orderly and equitable use of the Public Swing Moorings and are intended to support the objects of the Act. All other Harbor Rules apply but the following is specific to Public Swing Moorings located within the harbor.

(i) Purpose

This section of the Harbor Rules set out the conditions for safe, orderly and equitable use of the Public Swing Moorings within the designated mooring area which aims to:

- reduce seabed and seagrass disturbance by providing an alternative to anchoring where appropriate.
- ensure public moorings remain available for short stay use (not long-term occupation); and
- clarify user responsibilities to help manage risk, protect the environment, and support compliance and enforcement.

Public Swing Moorings are located within a designated Public Swing Mooring Area. Mooring locations are published by the Managing Authority and may be shown by:

- coordinates and charted locations (including web-based mapping where available); and
- identification on the buoy (including markings and an information tag stating key limits/conditions of use).

The Public Swing Mooring Area includes the waters reasonably necessary to approach, secure to, and depart from the buoy moorings safely. Operators must navigate with due regard to local conditions (depth, tides, seabed, reefs, traffic, and weather) and ensure adequate under-keel clearance at all times.

(ii) Public Swing Mooring Locations

The dedicated Public Swing Moorings positions within Penneshaw Harbor Public Swing Mooring area are listed on the Marine Safety SA website https://marinesafety.sa.gov.au/

These moorings are marked with a yellow buoy branded **DIT public mooring** and fitted with a Swing Mooring Tag

(iii) Authorised Use

Public Swing Moorings are for short-stay public use on a first-come, first-served basis, subject to these rules and any conditions stated on the buoy/ tag. Vessel owners/operators remain responsible for meeting their own insurance requirements when using the Public Swing Moorings. Use is limited to:

- registered recreational vessels (noting that, in South Australia, recreational vessels fitted with an engine are required to be registered while operating in South Australian waters); and
- vessels that are seaworthy and fit for purpose for the prevailing conditions.

Operators must comply with all applicable marine safety and licensing requirements for the vessel (including any operator licence/certification requirements).

The following are **not permitted** unless expressly authorised by the managing authority:

- securing an unregistered vessel to a Public Swing Mooring
- using a Public Swing Mooring as a long-term berth/ liveaboard location
- securing more than one vessel to a single buoy mooring (including rafting)
- any use that conflicts with conditions on the mooring tag or published limits for that mooring.

(iv) Mooring time limits and vessel attendance

Public Swing Moorings are intended to provide temporary holding and must not be monopolised. Operators must comply with the time limit shown on the mooring tag or otherwise published for that mooring. Where no time limit is shown, the default maximum stay is **48 hours** (Standard Stay).

Extended Stay (Safety/Operational). An extended stay of up to **72 hours** is permitted only where required by safety or operational necessity (e.g. weather conditions, mechanical failure, illness/injury, or awaiting a safe departure window). During an Extended Stay (Safety/Operational) the vessel must remain attended and ready to vacate if directed, and the operator should notify the Managing Authority as soon as practicable.

In addition:

- A responsible person must remain in attendance for the duration of the stay (i.e. the vessel must be manned/attended so it can be moved promptly if conditions deteriorate or if directed by an authorised person).
- The vessel must be ready to vacate the mooring promptly if required for safety, emergency use, maintenance, or compliance purposes.
- If you depart the Harbor or cannot remain in attendance, you must vacate the mooring.
- If remaining beyond the Standard Stay, the operator must comply with either the Extended Stay (Safety/Operational) requirements or the Discretionary Cruiser Extension requirements set out below and must vacate immediately if directed by an authorised officer.

(v) Discretionary extension

A vessel may remain beyond the Standard Stay for convenience for up to a maximum total stay of 72 hours, provided the vessel remains attended and the operator notifies the Managing Authority via email at dit.marinesafety@sa.gov.au

This must be done before the Standard Stay expires, and the vessel vacates immediately if directed. Notification is for situational awareness only and does not create a booking, approval, or entitlement to remain.

(vi) Operational restrictions for Public Swing Moorings

Each Public Swing Mooring is engineered and maintained to a specified capacity and set of operating limits. Operators must ensure their vessel does not exceed the limits published for that mooring, including maximum displacement and windage

Operational limits may also include maximum vessel length, maximum wind strength, and sea/swell limits. These will be stated on the Swing Mooring Tag and/or in published mooring information.

Operators must not take up a Public Swing Mooring if forecast or observed conditions exceed the published limits for that mooring. If already secured to a mooring and conditions deteriorate beyond the published limits, the vessel must vacate as soon as it is safe to do so, unless remaining temporarily is required for safety.

Operational limits and terms of use can be found on the Swing Mooring Tag

(vii) Safe weather and sea conditions (Public Swing Mooring Limits)

The master or operator of a vessel is solely responsible for determining whether prevailing weather, tidal and sea state conditions are suitable for the safe use of a public swing mooring within Penneshaw Harbor. Use of the mooring is entirely at the master's risk, and all due consideration must be given to changing environmental conditions, vessel capability, and the limitations of the mooring on the Swing Mooring Tag.

The vessel owner and master remain liable for any loss, damage, or incident arising from the use of the mooring, including impacts to other vessels, infrastructure, or the marine environment. In accordance with the Harbors and Navigation Act 1993 and associated regulations, failure to exercise appropriate care, judgement, and seamanship may result in enforcement action, including penalties and recovery of costs. Nothing in the provision of public moorings relieves the vessel master or operator of their obligations to ensure the safety of the vessel, persons on board, and other water users.

(viii) Public Swing Mooring integrity and damage reporting

Before use, operators must visually check the buoy, pickup line/pendant, connections and any visible hardware for signs of damage, excessive wear, chafe, corrosion, or abnormal movement. If the mooring appears unsafe, it must not be uses.

Users must not interfere with mooring components or lines except with lawful authority (including a line attached to any vessel, buoy, anchor or mooring).

If damage, failure, or a hazard is observed (including near-miss incidents), it must be reported as soon as practicable to the managing authority via email at dit.marinesafety@sa.gov.au

Operators may also be liable for damages caused by their vessel to Crown property/harbor facilities.

(ix) Secure Attachment

The operator of a vessel must secure it in a manner that is safe, robust, and capable of being released promptly if required. As a minimum, operators must:

- secure to the designated pickup pendant/attachment point (not by tying directly to the buoy unless that is the designed attachment method);
- use appropriately sized lines in good condition, rigged to sound strong points (e.g. cleats/bitts), and properly adjusted;
- protect lines and pendants from chafe (chafe gear where needed); and
- ensure lines are led clear of propellers and do not trail in the water.

Any failure of the vessel's own lines, knots or fittings is the operator's responsibility.

16. Christmas Cove marina and boat ramp

The Christmas Cove marina and boat ramp is managed by the Kangaroo Island Council.

A daily boat launch fee applies to all vessels using the ramp. Payment can be made by ticket machine, by QR code, or by phoning the Council office on 08 8553 4500, in accordance with current onsite signage.

Christmas Cove comprises 21 berths — 10 available for overnight hire and 11 privately leased from Council. Overnight berthing must be booked and paid for online. Enquiries regarding leased berths can be directed to Council on 08 8553 4500.

The cove is able to accept a range of vessels, however services are limited If you plan on visiting Christmas Cove with your vessel, please refer to the Soundings Plan produced in 2023 and the CCM Navigable Waters Plan produced in 2016 by Magryn Engineering Consultants.

Please also take note of the current Notice to Mariners.

A vessel that exceeds the dimensions stated in the CCM Navigable Waters Plan does so at their risk and that Council does not take any responsibility for damage caused to either their vessels or have implied liability for damage caused by users to any other vessel in the facility.

Enquiries regarding leased berths please contact Council on ph. 08 8553 4500.

18. Cruise ship and tender operations

Penneshaw Harbor is a shared, constrained operational environment supporting critical ferry services and seasonal cruise ship visits. Cruise ships cannot berth alongside and rely on tender operations to transfer passengers ashore.

The cruise ship anchorage location can be found on official charts for Penneshaw Harbor

This section of the Harbor rules sets the requirements for cruise vessels, masters, and operators undertaking tender operations at Penneshaw Harbor, to ensure:

- safe integration with ferry operations
- protection of life, property, and infrastructure
- safe management of passenger transfers within a shared harbor environment.

All other Harbor Rules apply.

The Master of the cruise vessel retains overall responsibility for:

- safe navigation
- tender operations
- compliance with these Harbor Rules

Penneshaw is a tender port only, with no berthing of cruise vessels alongside shore infrastructure. Cruise ships are to anchor at or about the nominated charted anchorage area

Tender and ferry interface

RoPax Ferries have absolute right of way over tenders within the harbor and approaches.

Cruise tenders must:

- Clear the fairway and berth/pontoon area prior to scheduled ferry movements.
- Maintain continuous VHF monitoring and coordination with harbor/ferry operators.
- Not impede ferry turning circles, berthing lines, or vehicle ramps.

Tender operations (cruise ships)

All passenger movements are via ship's tenders to designated landing places.

Passenger flows must be managed and paused when required during loading/unloading.

Tender passengers must be managed within designated walkways and operational zones away from freight and vehicle areas.

Tenders are to operate at low wash low speed inside harbor loading/ unloading berth and maintain a controlled speed in approach channel.

Penneshaw is a non-proclaimed security port, Boarder Force requirements for cruise ships, large passenger vessels and Superyachts entering Australia are found at - Requirements for cruise ships, large passenger vessels and Superyachts entering Australia

19. Vessels to hold plans

The Master of a Domestic Commercial Vessel greater than 35m operating within Penneshaw Harbor and berthing at the RoPax Ferry berth must provide to the Authorised Person, on demand, copies of the following Plans:

- Penneshaw Harbor Vessel Operating Plan - such a plan is to outline the procedures for safe operation of the vessel within the limits of Penneshaw Harbor and the Berths used by the vessel. This plan is to include the Harbor weather operating limits relevant to the vessel.

- Penneshaw Harbor Shipboard Oil Pollution Emergency Plan (SOPEP) - such a plan is to detail the response by the vessel to any unintentional release to the environment of hydrocarbon material from the vessel or its cargo.

- Penneshaw Casualty Management Plan - such a plan is to detail the response by the vessel to any incident resulting in injury to people (crew, passengers or public) on board the vessel or as a result of an interaction with the vessel.

20. Vessels to keep records

The Master of a commercial vessel operating within Penneshaw Harbor must provide to the Authorised Person, on demand, copies of the following records where relevant to the operation of the vessel:

- Passenger Manifest.

- Cargo Manifest - such records are to include the method of cargo carriage, the nature of the cargo, the volume/weight of the cargo.

- Dangerous Goods Cargo Manifest - such records are to include the Hazard Category of the Dangerous Goods, the quantity of Dangerous Goods Carried.

- Incident log - such records are to include the date, detail and circumstance of any incident, event or near miss onboard the vessel, that has occurred within Penneshaw Harbor.

21. Reporting of incidents and events

The Master of a vessel is to report to the Authorised Person any event within Penneshaw Harbor that:

- Results in personal injury that is greater than minor in nature or requires medical attention,

- Results in property damage that exceeds or is estimated to exceed $1000 in value (as per regulation 151 of the Regulations).

In reporting such event the Master is to record:

- time and place of the incident
- circumstances
- particulars of the vessels involved;
- the name and address of the owner and the operator of the vessel involved;
- name and address of any person killed or injured
- names and addresses of any witnesses
- the nature of any property damage.

In addition to reporting such an event to the Authorised Person, a Department for Infrastructure and Transport - Vessel Accident Report Form is to be completed and submitted via the following link.

https://www.sa.gov.au/topics/boating-and-marine/boat-and-marine-reporting/reporting-boat-incidents/accident

DIT Marine Safety and Compliance can be contacted as follows:

- Email: dit.marinesafety@sa.gov.au
- Phone 1300 183 046

AMSA can be contacted on

https://www.amsa.gov.au/vessels-operators/incident-reporting#416

- Email for - reports@amsa.gov.au.
- Phone (Adelaide) -1800 627 484

22. Reporting marine oil spills

Reporting a marine oil spill early is critical. Oil introduces toxic material into the food chain, degrades beaches, and can smother marine organisms.

Unless otherwise indicated in the vessels Shipboard Oil Pollution Emergency Plan (SOPEP), harbor users should not attempt to clean up the spill yourself - the incident will be investigated and a suitable response made - e.g.

- allowing the fuel to naturally dissipate

- agitation of the water
- use of recovery equipment.

How to report a marine oil spill

If you witness pollution from a ship or notice oil on any waters phone 8248 3505 or call on radio channel 12 at all hours.

Provide as much information as possible - tell the operator:

- any other relevant information available
- your contact details
- when and where the pollution occurred
- the type of substance discharged
- the extent of the pollution
- name of the vessel or other source.

How to tell if a substance is oil

- When oil enters water, it will generally quickly start to spread to a thin layer, often over a large area.
- Oil generally has a sheen on water.
- Oil will generally appear smoother or 'slick' compared to the surrounding water.
- Oil will generally have a strong smell (petroleum-based product).
- If oil is on rocks, sand, or other structures it will not wash off with water.
- If it quickly washes off into the water, it is probably algae.
- If unsure, always report it.

Sea scum

During the summer months, South Australian waters experience a phenomenon commonly known as sea scum.

Short filaments of algal plant life, disturbed by wind and sea, appear as grey-fawn-coloured streaks on the water. The algae can also be red, red-brown, or yellow, often resembling oil. As the algae decays it gives off an offensive odour similar to chlorine, iodine, or oil.

South Australian Marine Spill Contingency Action Plan

The South Australian Marine Spill Capability Action Plan (SAMSCAP) outlines how the government responds to oil spills that impact, or are likely to impact, South Australia's coastal waters. The plan is made pursuant to Section 28A of the *Protection of Marine Waters (Prevention of Pollution from Ships) Act 1987*.

Road Traffic (Exemption for SAPOL Traffic Camera Section staff) Notice 2026

under *Road Traffic (Road Rules—Ancillary and Miscellaneous Provisions) Regulations 2014*.

1—Operation

This Notice comes into operation on the day it is published in the Government Gazette.

2—Interpretation

In this Notice—

Notice means this Notice of exemption

SAPOL Traffic Camera Section staff means the persons engaged in the setting up, preparation, operation, testing, maintenance or relocation of a traffic speed analyser or photographic detection device for or on behalf of the South Australian Police Department (SAPOL).

3—Exemption

I, the Hon Joseph Szakacs MP, as the Minister for Infrastructure and Transport in the state of South Australia, in accordance with the powers conferred on me pursuant to Regulation 6 of the *Road Traffic (Road Rules—Ancillary and Miscellaneous Provisions) Regulations 2014* (the Regulations), do hereby **EXEMPT** the driver of a vehicle operated by SAPOL Traffic Camera Section staff from compliance with Australian Road Rule 154 (Bus lanes) and Australian Road Rule 154A (Bus only lanes) subject to the conditions listed below.

4—Conditions

A driver of a vehicle operated by SAPOL Traffic Camera Section staff:

(1) May drive and stop in a bus lane within the meaning of Australian Road Rule 154(2) and a bus only lane within the meaning of Regulation 13 of the Regulations only when engaged in the setting up, preparation, operation, testing, maintenance or relocation of a traffic speed analyser or photographic detection device as required in Part 3 Division 4, Photographic detection devices under the *Road Traffic (Miscellaneous) Regulations 2014*.

(2) Must carry a legible copy of this Notice in the vehicle at all times.

5—Variation or Revocation

This Notice may be varied or revoked at any time by the Minister for Infrastructure and Transport or their delegate by further notice in writing.

6—Execution

Dated: 9 November 2026

HON. JOSEPH SZAKACS MP
Minister for Infrastructure and Transport

ROADS (OPENING AND CLOSING) ACT 1991

SECTION 24

NOTICE OF CONFIRMATION OF ROAD PROCESS ORDER

Road Closure—Portion of Adelaide Terrace, Pasadena

By Road Process Order made on 3 March 2026, the City of Mitcham ordered that:

1. Portion of Adelaide Terrace, Pasadena, (being allotment 331 in Deposited Plan 3829), situated adjoining Allotments 305, 314 and 324 in Deposited Plan 3829, Hundred of Adelaide, more particularly delineated and lettered 'A' in Preliminary Plan 25/0006 be closed.
2. Issue a Certificate of Title to the City of Mitcham for the whole of the land subject to closure in accordance with the Application for Document of Title dated 3 March 2026.

On 23 November 2026, the Road Process Order was confirmed by me, as delegate of the Minister for Planning, conditionally on the deposit of Deposited Plan 138869 by the Registrar-General.

Notice of the Road Process Order and its confirmation is hereby given in accordance with Sections 24(4) and (5) of the *Roads (Opening and Closing) Act 1991*, following the confirmation of the Road Process Order and fulfilment of the condition of that confirmation.

SOUTH AUSTRALIAN CIVIL AND ADMINISTRATIVE TRIBUNAL

SACAT REFERENCE NUMBER: 2026/SEO000001

Notice of Exemption Renewal Before Tribunal Member Alex Reilly

I hereby certify that on 26 of August 2026, the South Australian Civil and Administrative Tribunal, on application of Raytheon Australia Pty Ltd, made the following orders for renewal of an exemption:

Under the provisions of Section 92(1) of the *Equal Opportunity Act 1984* (SA) (the Act), but for the purposes only of meeting the Applicant's contractual obligations and the U.S. Export Regulations, the Applicant is granted an exemption from the provisions of Sections 52 and 54 of the Act for a period of three years commencing on 26 August 2026 in the following terms:

1. Pursuant to Section 92(1) of the Act, the Applicant is exempt from compliance with the provisions of Sections 52 and 54 of the Act to the extent that it may:
   - 1.1 request Personal Information from existing and potential employees and contract workers and require employees to provide details of any changes to their Personal Information;
   - 1.2 take the Personal Information into account in determining who should be offered employment or contract work in areas requiring access to U.S. Export Controlled Material and when making decisions as to the participation of employees or contract workers in such work;
   - 1.3 maintain records of the Personal Information of all employees and contract workers who have or may have access to U.S. Export Controlled Material;
   - 1.4 ensure that U.S. Export Controlled Material is disclosed only to persons who are authorised by U.S. Export Regulations controls to receive it;
   - 1.5 impose limitations or prohibitions on persons of particular nationalities having access to U.S. Export Controlled Material;
   - 1.6 disclose to other defence contractors for whom the Applicant performs work and to the USA and Australian governments, the Personal Information of all employees and contract workers who will have access to U.S. Export Controlled Material in the performance of their work; and
   - 1.7 establish security systems which will prevent the unauthorised re-export or re-transfer of U.S. Export Controlled Material.
2. This exemption is granted for a period of three years commencing on 26 August 2026 subject to the following conditions:
   - 2.1 It will apply only to conduct by the Applicant where:
     - (a) that conduct is necessary to enable it to enter into, perform and ensure compliance with contractual undertakings and the U.S. Export Regulations where access to U.S. Export Controlled Material is required for performance of contracts;
     - (b) it has taken all steps that are reasonably available (including steps which might be taken in negotiating and performing the terms of their agreements with contractors in the USA) to avoid the necessity for engaging in conduct which would otherwise be in breach of Sections 52 and 54 of the Act.
   - 2.2 Where, in the exercise of this exemption, an employee or contract worker is moved from a project involving the use of U.S. Export Controlled Material to any other work controlled by the Applicant or any of its related entities, the Applicant must through a duly authorised officer explain to the person why he or she is being transferred and must otherwise take all reasonable steps to avoid or limit harm or loss to that person.
   - 2.3 Where the Applicant uses a system of security passes to reflect the fact of access to U.S. Export Controlled Material or levels of access to any security-sensitive material by employees and contract workers, the passes may be coded but not in such a way as to identify the nationality of the person or the reasons for that person's level of access.
   - 2.4 All information relating to security passes, security clearance levels and access to U.S. Export Controlled Material shall be restricted to designated authorised Company personnel with 6 responsibility for export/import operations, Human Resources, legal, compliance and similar functions, or their properly appointed nominee, on a "need to know" basis.

3. Within two weeks following 26 August 2026, and every 12 months thereafter, for the duration of this exemption, the Applicant must report to the Equal Opportunity Commissioner on:
   3.1 its compliance with the exemption requirements;
   3.2 changes in its procedures to reflect amendments to the U.S. Export Regulations, and as to how its employees and contractors are affected;
   3.3 its policies and procedures to address race-based discrimination, including information about how its employees are made aware of these policies and procedures; and
   3.4 its training on equal opportunity legislation, including:
      (i) what training is undertaken;
      (ii) which employees undertake the training; and
      (iii) how often the training is conducted.

In this Exemption Order:

"Applicant" means Raytheon Australia Pty Ltd.

"Personal Information" includes:

(a) current and past citizenship;
(b) country of birth;
(c) current and past passports held; and
(d) current and past residential status held in any country other than the USA or Australia.

"U.S. Export Regulations" means the requirements of the International Traffic in Arms Regulations and the Export Administration Regulations or other regulation to similar effect, as amended from time to time, so far as they apply to U.S. Export Controlled Material used in Raytheon Australia's operations.

"U.S. Export Controlled Material" means articles, services, technology and information or data regulated by the U.S. Export Regulations.

PUBLIC NOTICES

NATIONAL ENERGY RETAIL LAW

Notice of Initiation for Rule Change Request

The Australian Energy Market Commission (AEMC) gives notice under the National Energy Retail Law as follows:

Under s 251, PLUS ES has requested the *Non-market participant services and retail notices* (Ref. RRC0077) proposal. The proposal seeks to amend Rule 59A of the National Energy Retail Rules so that retailers are not required to provide advance notice or obtain a customer's explicit informed consent for a smart meter installation where the customer has independently arranged the installation with an accredited electrician. Submissions must be received by **21 January 2027**.

Submissions can be made via the AEMC's website. Before making a submission, please review the AEMC's privacy statement on its website, and consider the AEMC's Tips for making a submission. The AEMC publishes submissions on its website, subject to confidentiality and other considerations.

Documents referred to above are available on the AEMC's website and are available for inspection at the AEMC's office.
